#### LETTERS OF TRANSMITTAL

17 April 1990

Dear Mr. Chairman,

In accordance with financial regulation 11.4, I have the honour to submit the accounts of the International Trade Centre for the biennium 1988-1989 ended 31 December 1989, which I hereby approve. The financial statements have been prepared and certified as correct by the Controller,

Copies of these financial statements are also being transmitted to the Advisory Committee on Administrative and Budgetary Quostions.

Yours sincerely,

(Mavier) PEREZ DE CUELLAR

Mr. Eufemio C. Domingo Chairman United Nations Board of Auditors New York Sir,

I have the honour to transmit to you the financial statements of the International Trade Centre for the biennium 1988-1989 ended 31 December 1989, which were submitted by the Secretary-General. These statements have been examined and include the audit opinion of the Board of Auditors.

In addition, I have the honour to present the report of the Board of Auditors with respect to the above accounts.

Accept, Sir, the assurances of my highest consideration.

(<u>Signed</u>) O. T. PREMPEH
Auditor-General of Ghana
and Chairman
United Nations Board of Auditors

The President of the General Assembly of the United Nations
New York, N.Y.

### I. FINANCIAL REPORT FOR THE BIENNIUM 1988-1989 ENDED 31 DECEMBER 1989

1. The Secretary-General has the honour to submit herewith the financial report and accounts of the International Trade Centre United Nations Conference on Trade and Development/General Agreement on Tariffs and Trade (UNCTAD/GATT) for the biennium 1988-1989 ended 31 December 1989, comprising seven statements and seven schedules.

#### General Fund

# Statement I. Status of appropriations for the biennium 1988-m as at 31 December 1989

2. The appropriations for the biennium were originally approved at \$24,994,600, a sum which was subsequently increased to \$27,709,300 and then reduced to \$26,077,000. Expenditures incurred totalled \$25,786,540, including unliquidated obligations of \$484,121, resulting in an unobligated balance of appropriations of \$290,460.

# Statement II. Statement of income and expenditure and surplus account for the biennium unded 31 December 1989

#### 3. Income

- (a) Under the terms of General Assembly resolution 2297 (XXII) of 12 December 1967 and the decision of the Contracting Parties to the General Agreement on Tariffs and Trade (GATT) dated 22 November 1967, the regular budget of the International Trade Centre should be shared equally between the United Nations and GATT;
- (b) The final performance report of the Centre (ITC/BUD/7) provided for estimated expenditures of \$26,077,000, including estimated income of \$706,400, thus requiring a contribution of \$12,685,300 from each of the parent bodies. Part of this contribution was financed by a transfer of \$464,200 from the surplus account.

#### Other income

Other income was estimated at \$706,400 and the actual income amounted to \$751,340 (schedule 2.1). This comprised \$86,057, rental of parking space; \$389,222, rental of office space; \$48,533, sale of publications; \$159,110, investment income; \$6,741, refund: of prior years' expenditures and \$18,937, gains on exchange fluctuations. Miscellaneous income totalled \$42,640.

#### 4. Non-expendable equipment

Furnitare, equipment and vehicles are charged to the budget at the time of purchase) the value at cost of the items held as at 31 December 1989 was \$1,534,023. This compared with a total value of \$1,096,350 as at 31 December 1987. This value excludes non-expendable equipment purchased from project funds.

# Statement III. Statement of assets and liabilities as at 31 December 1989

5. The assets, liabilities and fund balance of the General Fund include:

#### (a) Assets

- (i) Cash \$1,189,734, including \$1,142,973 held in interest-earning deposits)
- (ii) Accounts receivable \$135,245, comprising advances to staff members, \$109,852, all of which are in course of recovery, accrued interest of \$10,189 and miscellaneous items amounting to \$15,204)
- (iii) Deferred charges \$84,165, including \$74,157 education grant advances to staff members deemed to be that part of the total advances pertaining to the portion of the school year completed as at 31 December 1989 (see annex, para. (g) (ii); \$10,008 in respect of insurance premium for 1990, payable in advance. These amounts will be charged to the subsequent financial period.

#### (b) Liabilities

- (i) Accounts payable \$3 573;
- (ii) Unliquidated obligations \$484,121;
- (iii) Due to International Trade Centre trust funds \$585,914.

#### (c) Fund\_balance

The fund balance as at 31 December 1989 was \$335,536, compared with the 31 December 1987 fund balance of \$330,261 brought forward from the biennium 1986-1987. An analysis of the changes in the fund balance is shown in statement II.

#### Programme support costs

Statement IV. Statement of income and expenditure for the biennium 1986-1989 ended 31 December 1989 and statement of assets and liabilities as at 31 December 1989

57,319,022. Other income amounted to \$449,057 and comprised \$196,762 investment income; \$5,438 savings on liquidation of prior years' obligations; \$195,000 in respect of supplementary support cost contributed by the United Nations Development Programme (UNDP) in accordance with UNDP Governing Council decisions Nos. 88-52 and 88-53 of 1 July 1988; and \$51,857 miscellaneous income. Expenditures totalled \$7,042,964, resulcing in an excess of income over expenditure of \$725,115. The fund balance as at 31 December 1989 reflected a surplus of \$611,706.

#### Technical co-operation activities

- Statement V. Combined statement of income and expenditure for the biennium 1988-1989 ended 31 December 1989 and combined statement of assets and liabilities as at 31 December 1989
- 7. The assets, liabilities and fund balance of the trust funds and UNDP include the following!
  - A. Trust funds

#### (a) Assets

- (i) Cash held totalled \$19,531,703, of which \$155,153 represented cash in banks, £19,372,532 interest-bearing deposits, and \$4,018 held by imprest holdersr
- (ii) Miscellaneous accounts receivable amounted to \$506,045, comprising \$185,483 in advances to staff members, \$226,452 in accrued interest and \$94.110 in other items;
- (iii) Due from International Trade Centre General Fund \$585,914;
- (iv) Due from International Trade Centre programme support costs \$62,759)
- (y) Interfund balances receivable \$342,248~
- (vi) Due from UNDP for excess of expenditure over funds provided \$272,455;
- (vii) Unspent allocations \$177,544;
- (viii) Deferred charges and other assets totalled \$3,376,847 and included \$3,320,976 in respect of unliquidated obligations for future periods, and \$31,775 education grant advances to staff members deemed to be that part the school year completed as at 31 December 1989, \$24,096 miscellaneous.

#### (b) Liabilities

- (i) Account; payable totalled \$558,918, including \$43,042 for payment requests issued to field offices and \$667 in respect of contributions payable to the United Nations Joint Staff Pension Fund; \$515,209 other accounts payable;
- (ii) Unliquidated obligations as at 31 December 1989 amounted to \$2,348,116;
- (iii) Due to the United Nations General Fund \$1,266,867;
  - (iv) Due to the Training Packs Revolving Fund \$32,250)

- (v) Due to the ICC/EDP Revolving Fund \$168,081;
- (vi) Deferred *income* \$12,451,672, which includes the above (a) (vii), unspent allocation of \$177,544.

#### (c) Operating reserve

This reserve is maintained to meet contingencies arising from the termination of employment of experts, etc. and is derived, interalia, from the difference between the standard costs applied to projects and the actual costs incurred. As reflected in the summary of significant accounting policies (annex), it is the Centre's policy to maintain this reserve at a predetermined level (\$700,000 for the biennium 1988-1989), and, with the general agreement of the donors, the first charge upon interest accruing from the investment of funds is to maintain this reserve at that level.

#### (d) Fund balance

The fund balance as at 1 January 1988 was \$6,817,499 which, together with the contributions during the biennium of \$26,542,477, allocations of \$542,742, interest on investments of \$2,728,293 and miscellaneous income of \$648, resulted in funds available totalling \$36,63\,659. Froject expenditures, including unliquidated obligations of \$2,348,116, amounted to \$32,623,024, of which \$3,698,730 related to support cost contributions. After taking into account the above, the fund balance as at 31 December 1989 was \$4,008,635.

#### B. United Nations Development P r o -

#### (a) Assets

- (1) Cash by totalled \$390,170, of which \$44,670 represented cash at banks, \$320,4.0 interest-earning deposits and \$24,986 held by imprest holders)
- (ii) Accounts receivable totalled\$683,056 and included \$389,148 in respect of amounts due from other agencies, advances to staff members of \$169,485 and miscellaneous items, \$124,423;
- (iii) Due from UNDP for excess of expenditure incurred over funds provided \$2,936,804;
- (iv) Unspent allocations \$29,076,926;
- (v) Deferred charges and other assets amounted to \$3,810,011 and comprised \$3,572,252 in respect of unliquideted obligations for future periods, \$20,060 in education grant advances to staff members deemed to be that part of the total advance pertaining to the school year completed as at 31 December 1989 and \$217,699 in respect of other items. These amounts will be charged to the subsequent financial period.

#### (b) Liabilities

- (i) Accounts payable totalled \$329,179 and included \$243,336 due to other agencies, \$32,707 in respect of unliquidated obligations billed to other agencies, \$44,380 for payment requests issued to field offices, \$826 in contributions payable to the United Nations Joint Staff Pension Fund and \$7,930 in respect of other items;
- (11) Unliquidated obligations \$3,576,318;
- (iii) Interfund balances payable \$342,248~
  - (iv) Deferred income \$29,076,926.
- 8. Details of trust fund income and expenditure for the individual years of the biennium are provided in schedules 5.2 and 5.3, respectively. UNDP expenditures during 1989, analysed by source of fund and by country, are shown in schedules 5.4 and 5.5, respectively.

#### II. REPORT OF THE BOARD OF AUDITORS

#### Introduction

- 1. As required by the General Assembly resolution 74 (I) of 7 December 1946, the Board of Auditors has audited the accounts of the International Trade Centre (ITC) for the biennium ended 31 December 1989.
- 2. The examination was conducted in accordance with article XII of the Financial Regulations and Rules of the United Nations and the annex thereto and with the common auditing standards adopted by the Panel of External Auditors of the United Nations, the specialised agencies and the International Atomic Energy Agency. The examination was carried out at ITC headquarters at Geneva. The implementation of projects in Egypt and in Malawi was reviewed in the field.
- 3. During the biennium under review, the Board of Auditors continued its normal practice of reporting the results of specific audits to the Administration. This practice has helped to maintain a continuous dialogue with the Administration.
- 4. The following sections deal with matters that, in the opinion of the Board, should be brought to the attention of the General Assembly. These matters were discussed with the Administration whose responses are incorporated where appropriate.
- 5. The report is divided into two parts, covering the audit of financial statements and management issues, respectively.

#### Summary of recommendations

- 6. We recommend that the following corrective actions, presented in order of priority, be taken:
- (a) The review of all cases where ITC may deviate from United Nations regulations, rules and directives should be completed as at the end of the biennium 1990-1991 (paras. 26-27);
- (b) Unpaid contributions for trust fund projects for future financial periods should be recorded in the financial statements in a manner consistent with the accounting of unspent UNDP allocations (paras. 34-37);
- (c) Any deviation from the operating reserve level required by United Nations instructions should be authorised by the United Nations Secretariat. At any rate, taking into account the general increase of prices and the considerable increase of the Centre's activities, an appropriate adjustment of the reserve should be considered (paras. 38-40);
- (d) The significant increase in unliquidated obligations related to technical co-operation activities calls for a thorough analysis of the operational aspects of project implementation to ensure a smoother delivery of project output over the whole financial period and to avoid a further increase of unliquidated obligations at the end of the financial period (pares. 45-51);

(e) Project planning should become more realistic by taking into account foreseeable delays when workplans and budget plans are prepared (paras. 63-69).

#### Summary of findings

- 7. The Centre's accounting policies with regard to technical oc-operation activities (statement V) are not consistent; whereas UNDP allocations for future periods are recorded as income, unpaid contributions from Governments for future periods are not recorded (paras. 34-37).
- 8. The ITC policy of maintaining the operating reserve for technical co-operation trust funds at a predetermined level of \$700,000 is not in line with United Nations instructions (paras. 38-40).
- 9. Our examination of unliquidated obligations revealed no inaccuracies. The percentage of unliquidated obligations in the General Fund decreased. However, unliquidated obligations related to technical co-operation activities increased significantly. This may be partly attributed to changes in the pattern of expenditures (pares, 43-51).
- 10. Concerning rental of parking places, expenditures and income have been netted in deviation from Generally Accepted Accounting Principles (paras. 52-54).
- 11. Since 1984 the expenditures for overtime have doubled, seemingly due, in part, to negligence in complying with administrative instructions (paras. 59-62).
- 12. The implementation of technical co-operation projects was marked by delays. Furthermore, the evaluation of the projects would be less subjective if project objectives were expressed in quantitative terms whenever practicable (paras. 63-69).

#### Part I: Financial statements

#### International Trade Centre funds

#### General Fund

13. Excess of income over expenditure as at 31 December 1989 remained at about the same level as at the end of the previous financial period.

#### Programme support costs

14. A deficit in income over expenditure in the biennium 1986-1987 was compensated in the biennium 1988-1989 by income exceeding expenditure, with the result that the fund balance as at 31 December 1989 showed a surplus of \$611,706.

#### Technical co-operation trust funds

15. Expenditure for technical co-operation trust funds financed by Governments exceeded income for the biennium 1988-3.989 by \$2,808,864, which was covered by the unspent balance of the funds from the previous biennium.

#### UNDP funds - for which ITC is an executing agency

16. A deficit in income over expenditure for the biennium of \$1,091,488, and a negative fund belanae of \$1,845,316 from the prior biennium, resulted in a total negative fund balanae as at 31 December 1989 of \$2,936,804, which will be settled by UNDP when obligations are met. Unliquidated obliquations as at 31 December 1989 totalled to \$3,576,318.

#### Cash position

17, The Centre's cash as at 31 December 1989 amounted to about \$22.2 million. (In 1987, it amounted to \$9.5 million and in 1985, to \$7.9 million.) This increase was mainly caused by contributions paid in advance ant! obligations not yet disbursed.

#### Liquidity position

18. Fund balances, plus income received in advance of the General Fund, programme support costs and ITC technical co-operation trust funds at year-end are swamarized below (excluding UNDP funds - for which ITC is an executing agency, in order to avoid a distorted picture, since any fund balance will be automatically settled by UNDP (see pare. 16 above)):

#### (United State8 dollars)

	198	85	1987	7		1989
General Fund balance	660	485	330	261		335 536
Income received in advance	7	931	6	726		
Programme support costs balance	(1	600)	(113	<b>409</b> )		611 706
ITC technical co-operation trust funds balance	5 343	960	6 817	499	4	008 635
Income received in advance					12	451 672
Total	6 030	776	7 041	077	17	407 549

19. The amount of about \$12 million for income received in advance results from a change in accounting policies upon recommendation of the Board of Auditors. In previous financial periods, deferred income accruing to technical co-operation trust funds had not been accounted for. However, the technical co-operation trust fund balance of \$4 million and the above-mentioned deferred income of \$12 million represent, for the most part, the result of shortfalls in project delivery. ITC should therefore endeavor to programme and monitor these funds more effectively and management concurred with this recommendation.

#### Extrabudgetary resources

- 20. As suggested by the Secretary-General, we devoted increased ettantion to the acceptance and utilisation of extrabudgetary resc.rces.
- 21. Since 1981 the regular budget of ITC and its extrabudgetary expenditures on technical co-operation activities developed as follows:

- 22. After remaining several years at about the same level, overall expenditure has steadily increased since 1965. While the respective portion for the regular budget of ITC, UNDP or trust-fund financed projects generally remained at about one third of the total budget, the order of these components has changed during the last biennium. Both trust fund and UNDP projects now exceed the ITC regular budget.
- 23. Out of 252 ITC technical co-operation projects, in December 1989, 136 operational projects were financed from trust funds and 116 financed by UNDP. Among these 252 projects ITC comprised: 127 country projects; 75 interregional projects; 50 regional projects. As for the size, the operational projects consisted of: 57 projects below \$50,000; 55 projects between \$50,001 and \$100,000; 85 projects between \$100,001 and \$200,000~ and 55 projects of more than \$200,000.
- 24. With regard to the role of extrabudgetary financing in the overall financial structure of ITC, the above-mentioned development can be considered as an intensive fulfilment of the Centre's mandate "as the United Nations system's focal point for technical co-operation activities in trade promotion".

25. In our view, the financial risk of the increasing dependency of ITC on funds derived from sources other than assessed contributions is limited by the spread over some 25 different donors and a binding set of conditions for implementation of trust funds. In this context, it should be noted that ITC has already received some \$12 million from donors to cover future activities and UNDP has agreed to allocate some \$29 million, However, the Centre should ensure that the steadily increasing technical ao-operation activities will not overburden the limited administrative resources. The management of ITC agreed and will seek to ensure that an appropriate administrative capacity be made available.

#### Applicability of the United Nations regulations, rules and directives

- 26, In its report on the biennium 1986-1987, the Board of Auditors had raised matters of major importance concerning the accounting procedures, which deserve special attention. In this context, the Board of Auditors recommended that the United Nations regulations, rules and directives should be reviewed together with the United Nations Secretariat, with a view to determining when ITC may deviate from such rules and that a record of these cases be kept.
- 27. The Centre has started consultations with the United Nations Secretariat, and although the review of all topics has not yet been completed, the Centre has already introduced changes in procedures in accordance with certain of the recommendations of the Board of Auditors. These changes are described in the following paragraphs.

#### Technical co-operation (statement V)

#### Conclusion of agreements with donors

The second secon

28, The Board of Auditors mentioned in its previous report 1/ that ITC agreements with donors do not always comply with United Nations administrative instructions. ITC now systematically includes for a.1 new donors the "Conditions for the implementation of trust funds by ITC" in the project documents signed by both parties. These "conditions" comply with the relevant provisions of the United Nations governing the administration of trust funds established with donor Governments. In addition, ITC has negotiated formal agreements with certain traditional donors. For those traditional donors which still consider entering into formal agreements with ITC, the Centre also systematically attaches the above-mentioned "conditions" when acknowledging the receipt of contributions.

#### Accounting for contribution income

29. As one exception of the application of United Nations rules, the Board had mentioned that ITC accounting for trust fund contributions had not always been in compliance with the United Nations administrative instructions and accepted accounting practice, which provide that contributions from Governments or other donors should be recorded only on the basis of written pledges, indicating the

<sup>1/</sup> Official Records of the General Assembly, Forty-third Session, Supplement No. 5 (A/45/5), vol. II, sect. II.

amount, the currency, the date of payment and the financial period to which such payment relates.

30. Following the Board of Auditors comments, ITC has issued instructions to the effect that no income will be recorded unless supported by a letter or a cable from the donor confirming its approval of the proposed projects.

#### Allotment procedure

- 31. In its previous report, the Board of Auditors had also indicated that expenditures in excess of cash received for specific projects had been authorised. Given that the summary of significant accounting policies stated that "specific trust funds are set up for each project . . . ", this practice was not in line with the relevant administrative instructions of the Secretary-General, which require the application of the "full funding" principle, that is, allotment must never exceed cash on hand.
- 32, In order to clarify that it applies the "full funding" principle at the donor level, ITC will now revise the above-mentioned sentence in the summary of significant accounting policies as followsr "Separate accounts are set up for each project as approved by the donor and the recipient country". This wording will better reflect the accounting at both projects and grant levels, as regularly reported to donors. In addition, instructions have been issued to ensure that no expenditure will be authorised in excess of cash on hand received from a given donor.

#### Deferred income

33, Following the Board of Auditors recommendation, deferred income is now reflected in statement V and the supporting schedule 5.1. The summary of significant accounting policies has been modified accordingly.

#### Unpaid contributions for trust fund projects for future periods

- 34. UNDP allocations for ITC deliveries in the multi-year cycle of UNDP are recorded as income at the beginning of each cycle. That portion of allocations which exceeds the expenditure of the current biennium is reflected as an asset ("unspent allocations") and as deferred income. The recording of the allocations as deferred income is in keeping with the principles of accounting on an accrual basis.
- 35. However, ITC accounting policy with regard to contributions from Governments and other donors for technical co-operation projects does not comply with the procedures mentioned above. Although the contributions of approved donors extend from one biennium to the following, or even the biennium afterwards, the portion of the pledges related to future periods is not recorded as an asset and as deferred income.
- 36. To ensure a consistent accounting policy, accounting for unpaid contributions to trust fund projects for future periods should follow the same lines as for unspent UNDP allocations. Moreover, considering that balances should give a true and fair view of the financial situation, the disclosure of unpaid contributions would indicate to which extent future technical co-operation activities of ITC have already been fixed at the end of the biennium.

37. ITC accepted our recommendation and will revise its accounting procedures accordingly with effect from the biennium 1990-1991.

#### Operating reserve for technical co-operation trust funds

The state of the s

- 38. ITC maintains an operating reserve for technical co-operation trust funds of \$700,000 (statement V), the level of which has remained unchanged since 1982. United Nations administrative instructions require that the operating reserve for technical co-operation trusts fund6 be maintained at a level of 15 per cent of the annual estimated expenditure, which in the case of ITC, would currently be equivalent to about 82.25 million.
- 39. ITC is of the opinion that the current reserve is adequate as long as the standard cost system operated for the costs of project personnel is continued. Should the standard cost system, which is currently under consideration by management, be abandoned, the level of the reserve would be increased following consultations with donors.
- 40. While recognizing that the operating reserve required by United Nations instructions may be meant to cover risks that are not likely to occur in ITC, the Board of Auditors is still of the opinion that any deviation from United Nations regulations should be authorised by the United Nations Secretariat. In addition, as the level of the operating reserve has remained unchanged since 1982, after eight years, the general increase of prices and the considerable increase in the activities of ITC call for an appropriate adjustment, even if the standard cost system will be maintained. The management agreed to consult with the trust fund donors on the subject.

#### Operatina reserve for programme support costs

- 41. The Centre's operating reserve for programme support costs (statement IV) amounted to \$700,000. United Nations administrative instructions request an operating reserve at the level of 20 per cent of estimated annual programme support income. During the biennium 1988-1989, the reserve of ITC was some \$20,000 below the requested level.
- 42. ITC confirmed that the reserve for biennium 1990-1991 and the eubsequent years will be adjusted in line with the estimated increase in programme support income, provided that funds are available.

#### Unliquidated obligations

43. According to financial regulation 4.3, budgetary appropriations remain available beyond the end of the financial period to the extent that they are required to discharge obligations for goods supplied or services rendered in that financial period. In its report on the United Nations accounts for the biennium 1966-1987, 1/ the Board of Auditors commented on a sometimes inconsistent and lenient application of that regulation on unliquidated obligations.

#### Regular fund

44. Unliquidated obligations in the regular budget of ITC amounted to 11484,121. Their percentage with regard to total expenditures decreased from 2.4 per cent (in 1985) to 1.9 per cent, Our examination revealed no inaccuracies.

#### Technical co-operation activities

45. Concerning technical co-operation activities executed by LTC, unliquidated obligations show a remarkable increase since 1985.

	As at 31 December 1985	As at 31 December 1987	As at 31 December 1989
Trust funds	<b>\$1 345 107</b>	\$1 316 012	<b>\$2 348 116</b>
Percentage of total expenditure	8.0	6.0	8.0
<b>UNDP-financed</b>	\$1 200 820	1 760 625	3 <b>576 318</b>
Percentage of total expenditure	10.0	9.0	13.0

- 46. As far as the level of unliquidated obligations is concerned, the administration stated that it had "recorded these items in line with established rules and procedures and a review of these obligations and of the components at year-end has been carried out for validity and legitimacy".
- 47. A random check of the Centre's validation process revealed no inaccuracies. The administration reviews these unliquidated obligations in the same manner as for the regular budget.
- 48. As to the remarkable increase indicated above, management was not in a position to explain the reasons. Our review of the development of unliquidated obligations disclosed some structural changes. In particular UNDP-f inanced projects showed a considerable decrease in the portion of personnel costs and an increase in expenditures for training and equipment, (from 10.1 per cent to 14 per cent for training and from 11.4 per cent to 16.5 per cent for equipment). This change in the pattern of expenditure may have contributed to the increase of unliquidated obligations, because expenditures for training and equipment usually comprise a higher percentage of unliquidated obligations than personnel costs.
- 49. In addition, we noticed a significant increase in the portion of unliquidated obligations being recorded for training and equipment (per cent of total expenditures):

	As at 31 December 1987	As at 31 <u>December 1988</u>	As at <u>3.1 December 1989</u>
Training	21.1	25.6	24.4
Equipment	34.4	43.2	59.0

- 50. Both the shift of expenditures and the raise of the percentage within the identified object groups of expenditure may have caused the overall increase in unliquidated obligations.
- 51. Bearing in mind General Assembly resolution 44/183 of 19 December 1989, the present level and the increased rate of goods supplied or services rendered but not paid for in the financial period should induce management to analyse thoroughly the operational aspects of project implementation. Management will analyse the situation within the framework of the ongoing restructuring exercise.

#### Accounting

#### Income from rental of parking places

- 52. Income shown in statement II contains an amount of \$86,057 from rental of parking space (schedule 2.1). This figure reflects only the rental of underground parking places. Income from the rental of outside parking places amounting to about \$29,700, is not reflected. ITC has rented those parking places at a monthly cost of SwF 90 each. Both GATT and the United Nations agreed on cost-sharing between ITC and its staff. Staff members who have been allocated a parking place each pay SwF 40 per month. Only the net cost of the outside parking places are actually debited to the regular budget.
- 53. With regard to generally accepted accounting principles, we consider that expenditures and income should not be netted.
- 54. ITC agreed with our view and initiated action to modify its procedures to ensure that the accounting for both internal and external parking places would be the same.

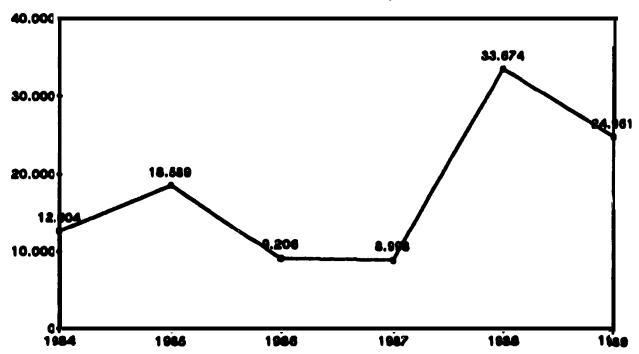

#### Non-expendable equipment

- 55. With regard to paragraph 4 of the financial report of ITC, showing the value of non-expendable equipment, there seems to be uncertainty about the interpretation of non-expendable equipment. The recorded figure does not include project equipment although, according to the "Conditions for implementation of trust funds by ITC" ownership of equipment financed from trust funds rests in ITC.
- 56. In the view of the Board of Auditors, a note to the effect that the figure does not include the value of equipment purchased from project funds would make the financial report more informative. ITC followed this recommendation.
- 57. Furthermore, on the one hand. the recorded figure includes the value of items that the United Nations Finance Manual does not define as non-expendable property. On the other hand, however, the inventory of ITC does not include leased or rented equipment, which according to the Finance Manual, should be considered as property. Consequently, the value of such items is not recorded in the financial report.
- 58. The Board of Auditors recommends that the United Nations Secretariat should clarify the interpretation of property and should specify the items to be included in the reported value.

#### Overtime

59. Since 1984, expenditures for overtime have developed as follows:

# AMOUNTS PAID FOR OVERTIME (United States dollars)

- 60. The 274 per cent increase from 1987 to 1988 gives rise to concern. At though there was a decrease from 1988 to 1989, special efforts should be made to limit payment for overtime.
- 61. One reason for the overall increase in overtime payment might be negligence in complying with administrative instructions as follows:
  - (a) Sometimes, more hours than authorised were paid as special overtime;
- (b) Staff members did not always record precisely all the hours they effectively worked on each day during the week, as required;
  - (c) Sometimes, authorisation was lacking or was not given in advancer
- (d) There were many cases of recurring overtime, a situation that should have been brought to the attention of the Director of Administration, as required by the Staff Rules;
- (e) Very often, although the need for overtime had been foreseeable at the beginning of the week when the request was signed, the staff members concerned worked precisely eight hours on normal working days and worked overtime only on Saturday afternoon and Sunday, when special overtime is paid.

63. ITC replied that it had to approve extensive overtime in order to cope with the increased work-load and that it will no doubt have to continue if the situation remains unchanged. They admitted that the hours of overtime have not always been authorised appropriately, that, in certain cases, they have not fully been in conformity with appendix B and that overtime has not always been properly recorded. In one case, recovery action was taken. ITC initiated action to limit overtime and to review established procedures, including those for control.

#### Project management

- **63.** A visit to a field location to review two projects revealed the following weaknesses and difficulties in project planning and implementation.
- 64. Project partners appeared to disagree on their tasks for successful implementation of technical assistance projects.
- 65. It was observed that delayed government approvals and delays in the clearance of experts and national counterparts hampered a steady implementation of the projects. In one case, a joint evaluation mission appraised the project and came to the conclusion that the objectives of the project had been unrealistic. Project management disagreed and required more substantive support to technical co-operation from the Government counterpart institution in order to achieve better results.
- 66. Considerable delays in project implementation make project budgets obsolete and financial monitoring difficult. Acknowledging that the reasons for delays are often not attributable to project management, the Board of Auditors points out the recurrence of these problems in technical co-operation activities. It seems that foreseeable delays are not always adequately taken into account when project activities, workplans and budget plans are prepared.
- 67. Management referred to the facts and circumstances in the country concerned and pointed out that one cannot generalize in making observations. Furthermore, they stated that ITC constantly endeavors to adhere to realistic planning of activities and realistic estimation of potential delays in project implementation.
- 68. There are also disagreements concerning project achievements. Therefore, the Board of Auditors recommended that, whenever practicable, the project objectives should be expressed in quantitative terms rather than in terms of general policy goals.
- 69. Management agreed on the need for quantifying project objectives. However, it pointed out that some of the objectives in trade related to technical co-operation projects cannot always be quantified, owing to many intangible factors.

#### Implementation of financial rule 114.1

70. We did not find any indication that the administrative instructions issued in the implementation of financial rule 114.1 were inadequate or ineffective.

#### Write-off of losses of cash and property

71. There were cases of store losses, totalling about \$30,000, caused mainly by discarding equipment. Those cases have not yet been submitted for, write-off approval, because administrative procedures were not finalized.

#### Cases of fraud and presumptive fraud

72. We were informed by the Administration that there were no cases of fraud or presumptive f raud.

# Comments on matters dealt with in the report on the biennium 1986-1987

73. Those matters raised in the Board of Auditors report on the biennium 1986-1987 which are not mentioned above have been dealt with to our satisfaction.

#### Acknowledgement

74. The Board of Auditors wishes to express its appreciation for the co-operation and assistance extended by the Executive Director of the International Trade Centre, his senior officers and members of their staff.

(<u>Signed</u>) O.T. PREMPEH Auditor-General of Ghana

(<u>Signed</u>) Eufemio C. DOMINGO Chairman, Commission on Audit of the Philippines

#### III. AUDIT OPINION

We have examined the following appended financial statements, numbered I to VII, properly identified, and relevant schedules of the International Trade Centre for the financial period ended 31 December 1989. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

As a result of our examination, we are of the opinion that the financial statements present fairly the financial position as at the end of the period and the results of its operations for the period then ended.

The financial statements were prepared in accordance with the stated accounting principles, which were applied on a basis consistent with that of the preceding financial period.

Transactions were in accordance with the Financial Regulationa and legislative authority.

(<u>Signed</u>) O.T. PREMPEH Auditor-General of Ghana

(<u>Signed</u>) Eufemio C. DOMINGO Chairman, Commission on Audit of the Philippines

(<u>Signed</u>) Heinz Günter ZAVELBERG President of the Federal Court of Audit of the Federal Republic of Germany

#### IV. CERTIFICATION OF THE FINANCIAL STATEMENTS

17 April 1990

I certify that the appended financial statements of the International Trade Centre, numbered I to VII, are correct.

#### ANNEX

# Summary of significant accounting policies

The following are the significant accounting policies of the International Trade Centre:

- (a) The International Trade Centre accounts are maintained in accordance with the Financial Regulations of the United Nations as adopted by the General Assembly, the rules formulated by the Secretary-Qeneral as required under the regulations, administrative instructions issued by the Under-Secretary-Qeneral for Administration and Management or the Controller, and in conformity with generally accepted accounting principles. The United Nations follows the International Accounting Standard 1 on the disclosure of accounting policies, as modified by the Consultative Committee on Administrative Questions at its fifty-fourth session, as shown below:
  - (1) Going concern, consistenty, and accrual are fundamental accounting assumptions. Where fundamental accounting assumptions are followed in financial statements, disclosure of such assumptions is not required. If a fundamental accounting assumption is not followed, that fact should be disclosed together with the reasons:
  - (ii) Prudence, substance over form, and materiality should govern the selection and application of accounting policies;
  - (iii) Financial statements should include clear and concise disclosure of all significant accounting policies which have been used;
  - (iv) The disclosure of the significant accounting policies used should be an integral part of the financial statements. The policies should normally be disclosed in one place:
    - (v) Financial statements should show corresponding figures for the preceding period;
  - (vi) A change in an accounting policy that has a material effect in the current period or may have a material effect in subsequent periods should be disclosed together with the reasons. The effect of the change should, if material, be disclosed and quantified.
- (b j Fund accounting. The Centre's accounts are maintained on a "fund accounting" basis and each fund is maintained as a distinct financial and accounting entity with a separate self-balancing double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same pature.
- (c) The financial period  ${\rm of}$  the Centre is a biennium and consists of two consecutive calendar years.
- (d) The income, expenditure, assets and liabilities are recognized on the accrural basis of accounting.

- (e) Translation of currencies. The accounts of the Centre are presented in United States dollars, Accounts maintained in other currencies are translated into United States dollars at the time of the transaction at rates of exchange established by the Controller. In respect of such currencies, the financial statements prepared at such intervals as may be prescribed by the Controller in accordance with the delegation of authority from the Under-Secretary-Qeneral for Administration and Management, shall reflect the cash, investments, unpaid contributions (other than contributions for future years) and current accounts receivable and payable in currencies other than United States dollars, translated at the applicable United Nations rates of exchange in effect as at the date of the statements.
- (f) Funds on desposit in interest-bearing bank accounts, certificates of deposit, time deposits and call accounts are shown in the statements of assets and liabilities as cash. Apart from changes in value &rising from the retranslation of currencies as provided for in paragraph (e) above, all investments are stated at cost,
  - (g) Deferred charges.
  - (1) Deferred charges comprise those expenditure it ms which are not properly chargeable in the current financial period and which will be charged as expenditure in the subsequent financial period;
  - (ii) For balance sheet purposes only, that portion of the elucation grant advance which is assumed to pertain to the scholastic year completed as of the date of the financial statement is shown as a deferred charge. The full amount of the advance is maintained in the accounts receivable from staff members until such time as the staff member produces the required proof of entitlement to the education grant, at which time the budgetary account is charged and the advance recovered.
- (h) Gain and loss on exchange. On the closing of the accounts at the end of each financial period, the balance for loss or gain on exchange is debited to the budget if there is a net loss; if there is a net gain, the gain is credited to miscellaneous income. Nowever, gains or losses on exchange are treated differently for trust funds as indicated in paragraph (m) (xi) below.
- (i) No provision is made in the General Fund for repatriation grant entitlements or to meet contingencies under appendix D to the Staff Rules of the United Nations, as funds are provided for in budget appropriations. However, provision to meet contingent liabilities for compensation under appendix D for personnel financed by technical co-operation trust funds and by support costs is calculated on the basis of 1 per cent of the net base pay. This provision is maintained in the United Nations General Fund.
- (j) Fixed assets, consisting of furniture, equipment, etc., are not included in the assets of the Centre. Acquisitions are charged against budget accounts in the year of purchase.
  - (k) Miscellaneous income:

- (1) Refunds of expenditures that had been charged in the same financial period against the budgetary accounts are credited against the same acaounte, but refunds of expenditure relating to the prior periods are aredited to misaellaneous income;
- (ii) All monies aaaepted for purposes specified by the donors are treated as trust funds or speaial accounts, However, monies accepted in respect of which no purpose is specified are treated as miscellaneous income)
- (iii) The proceeds from the sale of surplus property, the purchase of which was financed by the General Fund, are aredited to the miscellaneous income of that Fund. Miscellaneous income arising on technical co-operation activities is accounted for as described in paragraph (m) (iv).
- (1) Savings on liquidation of general fund prior periods' obligations are credited directly to the surplus account of that Fund. Savings on technical co-operation obligations are accounted for as described in paragraph (m) (vii).
  - (m) Technical co-operation accounts:
  - (1) The technical co-operation financial statements report on the activities financed by the United Nations Development Programme (UNDP), and the trust funds;
  - (ii) Allocation income UNDP. The figures for allocation income from UNDP are the same as reported for total expenditure in line with UNDP procedures, which require that allocations be adjusted to equal actual expenditure;
  - Contribution income trust funds. Contributions from Governments or other donors are recorded upon reaeipt of the contribution or upon approval of the project by the donor. All monies accepted for purposes specified by the donor are treated as trust funds or special accounts. Separate accounts are set up for each project a8 approved by the donor and the recipient country. Schedules to the financial statements are presented showing prior year and aurrent year expenditure, together with a consolidated schedule for the biennium. Contributions for future years are recorded as deferred income:
    - (iv) Interest and miscellaneous income. Interest and miscellaneous income arising from UNDP activities are credited to the operating fund accounts maintained with that organisation. Interest accruing from the short-term investment of trust funds is credited first to the operating reserve to maintain that reserve at the agreed level (see aubpara. (xii)), then to support costs to meet any annual deficit attributable to currency fluctuations and thereafter to donors' funds. Trust fund miscellaneous income accruing from the sale of surplus property or refunds of expenditure are credited to the project from which the purchase or expenditure wan originally financed, If the project is closed, this income is credited to the donor;
      - (v) Unspent allocations/deferred income UNDP. The unspent balance of allocations issued for the current year, together with allocations issued for future years, is reflected as an asset and as doferred income.

Unspent allocations for UNDP-financed projects ate baaed on the project budgets. Unspent allocations for UNDP-administered trust funds are based on allocation advices issued by UNDP;

- (vi) Deferred income for other trust funds comprises contributions received in respect of project budgets which extend beyond the current period, together with the programme support income relating to those project budgets;
- (vii) Unliquidated obligations for the current period in respect of INDP-financed activities remain valid for 12 months following the end of the year, rather than the biennium, to which they relate. However, in accordance with UNDP reporting requirements, executing agencies may retain unliquidated obligations beyond 12 months when a firm liability to pay still exists) such liabilities are regorted as accounts payable in the financial statements. Savings in the liquidation of prior period obligations are credited to individual projects as a reduction of current period expenditure in accordance with UNDP reporting requirements;
- (viii) Unliquidated obligations for future years are reported as deferred charges and as a separate liability item;
  - (ix) A system of average costing is used for UNDP projects whereby those elements of experts' actual costs which are unique to the individual expert are charged to UNDP projects at average cost, calculated by apportioning those costs over all UNDP projects in respect of which expert-months have been delivered in the current period;
    - (x) A system of standard coats is applied to trust fund projects. Projects are charged at standard coats for the provision of experts' services, the annual difference between the standard applied and the actual costs incurred being transferred to the operating reserve (see subpara. (xii)):
  - (xi) Loss or gain on exchange. Any exchange difference incurred in respect of UNDP projects is debited or credited to the operating fund maintained with that organisation. Any differences accruing on trust fund projects. in respect of normal day-to-day transactions is borne by the appropriate project budgets. Those currency fluctuations which cannot be attributed to any particular project are debited/credited to the operating reserve (see subpara. (xii));
  - (xii) Operating reserve trust funds. The Centre's policy is to maintain this reserve at a predetermined level (currently \$700,000) and agreement has been reached with donors that the first charge upon interest be for the purpose of maintaining the reserve at that level;
- (xiii) Trust fund donors' fund balances. These funds comprise the unobligated balance of allocations, contributions not yet allocated, residual balances of closed projects, interest, and miscellaneous income, including those items described under subparagraphs (iv) and (xi). These funds are held pending instructions from the donor as to their disposal and are constantly under review in the course of continuing discussions which are maintained with all donors.

- (n) Income accruing from the sale of any training pack or similar item financed from trust fund and other resources is credited to the Training Pack Revolving fund (statement VI) and utilized to finance the costs of reprinting, translation and other related costs.
- (o) Income accruing from the sale of electronic data-processing services financed from trust fund and other resources is credited to the International Computing Centre/Electronic Data-Processing Revolving Fund (statement VII) and utilised to finance the provision of further services.
  - (p) Special accounts for programme support costs:
  - (i) Reimbursement for programme support costs is provided for in respect of extrabudgetary technical co-operation activities and accounted for in the support costs fund. The reimbursement is calculated as a percentage of the programme resources expended)
  - (ii) In the interim and biennial financial statements of the Centre, the account for programme support costs (statement IV) is shown separately from the extrabudgetary funds (statement V) from which its income derives;
  - (iii) Unliquidated obligations in respect of special accounts for programme support costs are accounted for on the same basis as for the programme budget I
    - (iv) Any balance in the support costs fund is carried forward to the next biennium)
      - (v) An operating reserve is maintained to meet contingent liabilities.
