## Financing of the activities arising from Security Council resolution 687 (1991): United Nations Iraq-Kuwait Observation Mission

### Report of the Secretary-General

#### *Summary*

The present report contains the proposed budget for the 12-month period from 1 July 1999 to 30 June 2000 for the maintenance of the United Nations Iraq-Kuwait Observation Mission (UNIKOM), which amounts to \$50,777,800 gross (\$48,782,900 net).

Of the total budget, some 26 per cent of resources relates to civilian personnel costs. Operational costs account for 21 per cent of the budget, military personnel costs reflect 49 per cent, and staff assessment comprises 4 per cent of the total. Less than 1 per cent of total resources is related to other programmes.

The action to be taken by the General Assembly is set out in paragraph 28 of the present report.

## I. Overview

1. The present report contains the proposed budget for the 12-month period from 1 July 1999 to 30 June 2000 for the maintenance of the United Nations Iraq-Kuwait Observation Mission (UNIKOM), which amounts to \$50,777,800 gross (\$48,782,900 net).

2. Estimated requirements for the period from 1 July 1999 to 30 June 2000 represent a 3 per cent increase (\$1,671,900) in total resources (gross) in relation to the previous budgetary period. The proposed increase reflects a 4 per cent increase in civilian personnel costs, a 13 per cent increase in operational costs, a 50 per cent increase in other programme costs and a 6 per cent increase in staff assessment. This increase is partly offset by a 0.6 per cent reduction in requirements for military personnel costs.

3. The action to be taken by the General Assembly is as follows:

(a) Appropriation of \$50,777,800 gross (\$48,782,900 net) for the Mission for the 12-month period from 1 July 1999 to 30 June 2000, including \$32,521,900 net, representing two thirds of the cost, to be funded through voluntary contributions from the Government of Kuwait;

(b) Assessment of \$18,255,900 gross (\$16,261,000 net), representing the balance net of voluntary contributions for the maintenance of the Mission for the 12-month period beginning 1 July 1999, at a monthly rate of \$1,521,325 gross (\$1,335,083 net), subject to review by the Security Council with regard to the termination or continuation of UNIKOM.

## **II. Mandate of the Mission**

(Security Council resolutions 687 (1991) of 3 April 1991, 689 (1991) of 9 April 1991 and 806 (1993) of 5 February 1993)

4. By its resolution 687 (1991), the Security Council established a demilitarized zone along the Iraq-Kuwait boundary and approved the following terms of reference for UNIKOM: to monitor the Khawr Abd Allah and a demilitarized zone extending 10 kilometres into Iraq and 5 kilometres into Kuwait from the boundary referred to in the Agreed Minutes between the State of Kuwait and the Republic of Iraq regarding the restoration of friendly relations, recognition and related matters of 4 October 1963; to deter violations of the boundary through its presence in and surveillance of the demilitarized zone; and to observe any hostile or potentially hostile action mounted from the territory of one State against the other.

5. Subsequently, by its resolution 806 (1993), the Security Council extended the terms of reference of UNIKOM to take action to prevent, or, if that failed, to redress small-scale violations of the demilitarized zone, violations of the boundary between Iraq and Kuwait, for example, by civilians or police and problems that might arise from the presence of Iraqi installations and Iraqi citizens and their assets in the demilitarized zone on the Kuwaiti side of the newly demarcated boundary.

6. The Security Council reviewed the question of termination or continuation of UNIKOM and its modalities of operation on 7 October 1998 and concurred with the Secretary-General's recommendation that the Mission be maintained. It also decided, in accordance with resolution 689 (1991), to review the question once again by 7 April 1999.

## **III. Operational plan and requirements**

7. The UNIKOM concept of operations is based on surveillance, control, investigation and liaison. The demilitarized zone is an area that is about 240 kilometres long and extends 10 kilometres into Iraq and 5 kilometres into Kuwait. Surveillance of the zone is based on patrol and observation bases, ground and air patrols and observation points. Control operations include static checkpoints, random checks and maintenance of a force mobile reserve. Investigation teams are maintained at the sector level as well as at UNIKOM headquarters, and continuous liaison is carried out at all levels. For operational purposes, the zone is divided into two sectors (northern and southern), with 10 and 7 patrol/observation bases respectively. UNIKOM also has liaison offices at Baghdad and Kuwait City for the purpose of liaison with the Governments of Iraq and Kuwait.

8. The military observers have primary responsibility for conducting patrol, observation, investigation and liaison activities. The infantry battalion is deployed at Camp Khor, at a company camp at Al' Abdali and at platoon camps in the southern and northern sectors. The battalion undertakes armed patrols within the sectors and has a mobile reserve, which is deployed as necessary in sensitive situations. The battalion also operates checkpoints at the border-crossing sites and conducts random checks in cooperation with Iraqi and Kuwaiti liaison officers. The battalion has staffed the easternmost patrol and observation base on the Iraqi side of the demilitarized zone. It also provides security for UNIKOM personnel and its installations where and when necessary.

9. The authorized strength of UNIKOM consists of 300 military observers (105 of whom are on standby) and 910 troops, including 135 support personnel. For the period from 1 July 1999 to 30 June 2000, budgetary provision is made for only 195 military observers and 908 troops, comprising 775 infantry and 133 support personnel, including an engineering unit from Argentina, a logistics unit from Austria, a medical unit from Germany and a helicopter and boat crew from Bangladesh.

10. The operational requirements for the Observation Mission were set out in the reports of the Secretary-General to the Security Council of 5 April 1991 (S/22454 and Add.1), 18 January 1993 (S/25123), 1 April 1996 (S/1996/225) and 27 September 1996 (S/1996/801).

<sup>a</sup> The value of this contribution is yet to be determined.

**2. Trust funds**

12. No trust fund has been established in support of UNIKOM.

**VI. Status of reimbursement to troop-contributing Governments****A. Current troop contributors**

13. The current troop contributors are the Governments of Argentina, Austria, Bangladesh and Germany.

**B. Status of reimbursement**

14. Full reimbursement of troop costs has been made for the period ending 31 May 1998.
15. Amounts owed to troop-contributing countries as at 31 December 1998 total \$6,940,904.

**VII. Contingent-owned equipment****A. Method of reimbursement**

16. Reimbursement to Governments for equipment provided to the Mission is based on the old reimbursement system of 10 per cent of its value per year, and therefore there are no signed contribution agreements.

**B. Requirements****1. Major equipment**

17. The requirement for reimbursement of major equipment (a total of 189 vehicles and trailers) to one contingent amounts to \$1,202,800.

**2. Self-sustainment**

18. No requirement for self-sustainment is included in the cost estimates for the budgetary period.

19. The proposed staffing of UNIKOM reflects a reduction of one General Service post (Other level) and the establishment of a new air safety/air operations officer post at the P-3 level in the General Services Section. The new post is required to ensure the safety of UNIKOM air operations in both their technical and administrative aspects. The job description of the post is contained in annex II.D. The detailed breakdown of the staffing is shown in the table above.

20. In paragraph 9 of its resolution 52/238 of 26 June 1998, the General Assembly requested the Secretary-General, in order to reduce the cost of employing General Service staff, to continue efforts to employ locally recruited staff for the Mission against General Service posts, commensurate with its requirements. Following a review and for operational reasons, it was concluded that no conversions from General Service staff to locally recruited staff were possible at this time.

## **IX. Cost estimates for the period from 1 July 1999 to 30 June 2000**

21. The total cost of maintaining UNIKOM for the period from 1 July 1999 to 30 June 2000 is estimated at \$50,777,800 gross (\$48,782,900 net). Some 37 per cent of those amounts is based on standard costs contained in the Standard Ratios and Standard Cost Manual, while the remaining 63 per cent covers mission-specific requirements and other items that may vary from the standards. These mission-specific requirements and variations cover 65 items, of which no standard cost exists for 38. Mission-specific requirements, including those costs that deviate from standard cost parameters, are described in annex II.A.

22. The proposed cost estimates are presented in annex I and represent a 3 per cent increase (\$1,671,900), in gross terms, in relation to the apportionment for the current period, from 1 July 1998 to 30 June 1999. This is due mainly to: (a) increased civilian personnel cost and staff assessment, which are in turn due to higher rates of standard salary and the addition of one P-3 post, which is offset partially by the abolition of one General Service post; and (b) increased requirements under operational costs due to higher premises/ accommodation costs, air operations, first-time provision for naval operations, communications, other equipment and supplies and services. The increase is partially offset by decreased requirements under military personnel costs.

23. Column 1 of the cost breakdown in annex I.A shows expenditures for the period from 1 July 1997 to 30 June 1998. Column 2 shows the apportionment for the period from 1 July 1998 to 30 June 1999, as authorized by the General Assembly in its resolution 52/238. The cost estimates for the period from 1 July 1999 to 30 June 2000 are shown in column 3. The estimate in column 3 excludes provisions for the support account for peacekeeping operations and the United Nations Logistics Base at Brindisi, Italy (UNLB), as those requirements are budgeted for separately. To ensure compatibility with column 3, columns 1 and 2 exclude expenditures/apportionment/absorption relating to the support account for peacekeeping operations and UNLB. Non-recurrent cost estimates are shown in column 4. The distribution of resources by major cost components is provided in annex I.B, while supplementary information about the cost estimates is provided in annex I.C.

24. Supplementary information for cost estimates for the period from 1 July 1999 to 30 June 2000 is provided in support of proposals for non-recurrent costs and recurrent resources where requirements vary from the prior authorized level of resources by 10 per cent or \$100,000 of the previous budgetary provision for that expenditure line. Further analysis in respect of the cost estimate is included in annexes II.A to C. Annex II.A provides mission-

specific recurrent costs. Annex II.B illustrates the distribution of resources by budgetary cost parameter: standard/mission specific costs, and a description of non-recurrent costs is contained in annex II.C. A job description is presented in Annex II.D.

25. Naval operations are included for the first time in the UNIKOM cost estimates. During the 1998/99 period UNIKOM commenced boat patrols in the Kharur Abd-Allah waterways. Four boats, patrol observation base facilities on Warbah Island and a radar installation have been provided by the Government of Kuwait at no cost to the United Nations. It is necessary, however, to make provision for fuel and maintenance of the boats and for general maintenance of the patrol observation base.

26. A review of all peacekeeping computer assets and operations in each of the field missions was undertaken and completed during 1998 to ensure that all computer operations would be year 2000 compliant and run without problem after 31 December 1999. In accordance with the outcome of that review and the priority attached to addressing the matter, immediate action has commenced to replace most of the non-compliant items identified now with the objective of ensuring that year 2000 compliant hardware and software will be fully introduced and operational by 31 December 1999. A substantial portion of the cost of replacing non-compliant hardware and software, upgrading and introducing new systems and training personnel is being met from within amounts already budgeted for those purposes and through redeployment of other resources in the approved budgets for each of the peacekeeping missions for the current period (1 July 1998 to 30 June 1999). For UNIKOM, only some of the cost of replacing computer hardware and software could be met from within the current approved budget. The balance of the requirements is now being requested in the context of the proposed budget for the period from 1 July 1999 to 30 June 2000 under non-recurrent costs.

27. There are no recommendations from the Advisory Committee on Administrative and Budgetary Questions pending implementation.

## **X. Action to be taken by the General Assembly at its fifty-third session**

28. The action to be taken by the General Assembly at its fifty-third session in connection with the financing of the United Nations Iraq-Kuwait Observation Mission is the following:

(a) Appropriation of \$50,777,800 gross (\$48,782,900 net) for the Mission for the 12-month period from 1 July 1999 to 30 June 2000, including \$32,521,900 net, representing two thirds of the cost, to be funded through voluntary contributions from the Government of Kuwait;

(b) Assessment of \$18,255,900 gross (\$16,261,000 net), representing the balance net of voluntary contributions for the maintenance of the Mission for the 12-month period beginning 1 July 1999, at a monthly rate of \$1,521,325 gross (\$1,335,083 net), subject to review by the Security Council with regard to the termination or continuation of UNIKOM.

## C. Supplementary information

### Military personnel costs

*Apportionment: \$24,826,600; estimate: \$24,673,200; variance: (\$153,400)*

1. The decrease of \$153,400 under this heading relates to military observers (\$19,500) and contingent-owned equipment (\$144,100), offset partially by an increase under military contingents (\$10,200).

#### *Contingent-owned equipment*

2. The estimate for contingent-owned equipment provides for payment to the host country and to troop-contributing Governments for the costs of contingent-owned equipment furnished to their contingents at the request of the United Nations, based on an annual depreciation rate of 10 per cent.

### Civilian personnel costs

*Apportionment: \$12,675,400; estimate: \$13,157,800; variance: \$482,400*

3. The increase of \$482,400 under this heading relates to international staff salaries and common staff costs (\$366,000) and mission subsistence allowance (\$116,400).

#### *International and local staff*

4. Salaries and common staff costs of internationally recruited staff are estimated on the basis of the 1999 standard cost rates for New York and provides for 72 international staff (15 Professional, 18 General Service and 39 Field Service), including application of a vacancy factor of 10 per cent. Salaries and common staff costs of locally recruited staff reflect the scale currently applicable in the mission area. The estimate provides for 166 local staff and also includes application of a vacancy factor of 10 per cent.

5. Provision for mission subsistence allowance is made for international civilian staff at the rates indicated in annex II.A, together with the application of a vacancy factor of 10 per cent.

### Operational costs

*Apportionment: \$9,705,700; estimate: \$10,936,900; variance: \$1,231,200*

6. The estimate of \$10,936,900 includes non-recurrent cost requirements amounting to \$2,936,700.

7. The increase of \$1,231,200 under this heading is attributable to an increase in premises/accommodation (\$142,800), transport operations (\$33,300), air operations (\$301,900), first-time requirements for naval operations (\$91,400), communications (\$236,000), other equipment (\$106,000) and supplies and services (\$319,800).

#### *Premises/accommodation*

8. The increased requirement under this heading is due to an increased provision of \$142,600 for alteration and renovation needed for recurring maintenance costs for ageing

facilities; the higher cost of potable water delivered weekly to patrol observation base N-2 based on the latest contract price; the higher cost of diesel fuel for generators installed at patrol observation bases, platoon camp and sectors, as detailed in annex II.C; and provision of \$108,000 for the construction of ancillary facilities to existing UNIKOM prefabricated buildings required for operational purposes. Utilities for Camp Khor, Al' Abdali and Kheitan are provided free of charge by the host Government.

#### *Transport operations*

9. UNIKOM has a vehicle establishment of 422. The cost estimate for the purchase of vehicles provides for the replacement of 41 vehicles of various types that are proposed for write-off through fair wear and tear in accordance with the year/kilometre replacement programme to meet transport requirements. It is also proposed to replace 35 4x4 military pattern vehicles (HUMVEEs) that were provided by the Government of Kuwait under contingent-owned equipment arrangements with United Nations-owned general-purpose commercial pattern 4x4 vehicles. This is because general-purpose commercial pattern 4x4 vehicles are cost-effective and easier to maintain. The 35 HUMVEEs will be returned to the Government of Kuwait. Details are provided in annex II.C.

10. A decreased provision in the amount of \$289,300 for petrol, oil and lubricants is based on the cost of petrol/diesel at \$0.13 per litre as follows: a monthly consumption of 375 litres of petrol/diesel per vehicle for 258 United Nations-owned light vehicles and 119 contingent-owned light vehicles (\$222,300); 320 litres of petrol/diesel per vehicle for 13 pieces of United Nations-owned heavy engineering equipment (\$6,500) and 32 contingent-owned armoured vehicles (\$16,100); and the cost of oil and lubricants (\$44,400).

#### *Air operations*

11. The increase of \$301,900 under this heading is attributable to an increase in the charter cost of two helicopters from \$1,035 per month to \$1,190.25 per month, in accordance with the current contract.

#### *Naval operations*

12. First-time provision in the amount of \$91,400 is made for naval operations from Camp Khor and a new patrol observation base, N-1A, located at Warbah Island. UNIKOM will have four boats provided by the Government of Kuwait. These patrol boats will be used for monitoring the Khawr Abdallah waterway as well as resupplying Warbah Island. The two smaller craft will be positioned at Camp Khor, while the two medium-sized craft will be positioned at Warbah Island.

13. The estimate covers the cost of initial inspection, tests and other related costs that the boats will need to undergo before the operational phase starts (\$6,000); fuel costs (\$61,500); maintenance costs (\$17,900); and liability and war-risk insurance coverage at an annual premium of \$6,000 for all boats.

#### *Communications*

14. The increase of \$236,000 under this heading is attributable to non-recurrent requirements amounting to \$635,900 for upgrading the UNIKOM communications network (\$614,700) and workshop and test equipment (\$21,200). This will include upgrading the digital microwave installations for the demilitarized zone, consisting of seven digital microwave terminals and three digital PABX telephone units. These requirements are shown

in annex II.C. In this connection it is noted that completion of digital upgrading between Umm Qasr and northern sector headquarters is anticipated in the 1998/99 financial period.

15. The estimate under communications also covers recurrent requirements for the decreased cost of commercial communications (\$200,000) and spare parts and supplies (\$65,000).

#### *Other equipment*

16. The increased provision of \$106,000 under this heading is attributable to non-recurrent requirements totalling \$494,400 almost exclusively for replacement of a variety of equipment, as detailed in annex II.C. This equipment includes office equipment (photocopiers, facsimile machines and shredders), data-processing equipment to ensure year 2000 compliance, observation equipment, petrol tank plus metering equipment, medical and dental equipment, accommodation equipment, refrigeration equipment, miscellaneous equipment and water purification equipment. It also covers freight cost for 12 generators to be obtained from existing stock at the United Nations Logistics Base in Brindisi and the acquisition of three new chilling units.

#### *Supplies and services*

17. The estimate under this heading covers requirements for miscellaneous services and miscellaneous supplies. The increase of \$319,800 is due largely to the increased provision under contractual services and additional requirements for field defence stores to provide the Mission with suitable protection as a result of some high-risk security incidents reported at some of the patrol observation bases.

#### *Air and surface freight*

18. Provision is made for transporting one contingent-owned mine plough to UNIKOM, for commercial freight and cartage for shipping and clearing charges in connection with official shipments into and out of Kuwait and for other items not included elsewhere in the cost estimates.

### **Other programmes**

*Apportionment: \$10,000; estimate: \$15,000; variance: \$5,000*

#### *Training programmes*

19. Provision is made to cover the cost of electronic data-processing, communications and repair of office equipment as well as security training and related training materials.

### **Staff assessment**

*Apportionment: \$1,888,200; estimate: \$1,994,900; variance: \$106,700*

20. The amount budgeted under this heading represents the difference between gross and net emoluments, that is, the amount of staff assessment to which the United Nations staff members are subject, in accordance with staff regulations. Staff assessment costs take into account a 10 per cent vacancy rate in respect of both the proposed 72 international posts and 166 Local level posts.

**Income from staff assessment**

*Apportionment: (\$1,888,200); estimate: (\$1,994,900); variance: (\$106,700)*

21. The staff assessment requirements provided for in category VII have been credited to this item as income from staff assessment and will be credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 A (X) of 15 December 1955. Member States are given credit in the Fund in proportion to their rates of contribution to the UNIKOM budget.

**D. Functional title and job description: new post**

*Air Safety/Air Operations Officer (P-3).* Act as the Head of Movement Control. Responsibilities include advising the Force Commander and the Chief Administrative Officer on all aviation safety matters; ensuring adequate monitoring of all UNIKOM aircraft by carrying out aircraft inspections, ensuring compliance with standards and recommended procedures, monitoring aviation procedures and techniques for potential safety hazards and ensuring the strict application of policy on safety management; preparing for special flights as and when required for the transportation of passengers and cargo to and from the Kuwait air force base; playing a key role in developing, implementing and regularly exercising the Mission's aircraft pre-accident plan, ensuring coordinated action for investigation and timely guidance in the event of an aircraft accident; supervising the travel clerk in arranging official travel by military and civilian personnel and packing and shipping all UNIKOM cargo; coordinating with the UNIKOM liaison office in Kuwait in obtaining Kuwaiti entry visas for incoming military and civilian personnel; and liaising with and assisting other United Nations agencies in Baghdad to facilitate movement of their personnel in transit.

## Annex III

### Support provided by the United Nations Iraq-Kuwait Observation Mission to other entities of the United Nations system in the mission area

<i>Section providing support/tasks performed by UNIKOM</i>	<i>Entities receiving support</i>
<b>Transport</b>	
UNIKOM fixed-wing aircraft provide air support for United Nations offices and agencies in Iraq in accordance with a cost-sharing arrangement under a local agreement reached between UNIKOM and the United Nations Office of the Humanitarian Coordinator for Iraq (UNOHCI) in May 1997.	United Nations Office of the Humanitarian Coordinator for Iraq
<b>General Services and Procurement</b>	
UNIKOM provides office space at UNIKOM headquarters and provides assistance in procurement, customs clearance at Kuwaiti air and sea ports and medical evacuations and subsequent follow-up in Kuwait City, plus routine medical services and treatment at Umm Qasr for UNOHCI personnel on duty in the Basra region. Those facilities are provided on a reciprocal basis because the UNIKOM liaison office in Baghdad shares premises with UNOHCI, and UNOHCI provides UNIKOM with some communications and electronic data-processing maintenance services as well as making payments to UNIKOM staff and vendors in Baghdad.	

## Annex IV

### Implementation of previous recommendations of the Board of Auditors

<i>Recommendation</i>	<i>Implementation</i>
<b>Board of Auditors (A/52/5, Vol. II)</b>	
<b>Delays in preparation of bank reconciliation of statements (para. 26)</b>	
The Board recommended that the function of bank reconciliation be carried out on a timely basis.	Necessary actions have been taken to carry out bank reconciliation on a timely basis.
