Those addenda will be updated whenever the Commission on Narcotic Drugs takes a decision to amend one of the schedules of narcotic drugs and psychotropic substances under international control or one of the tables of substances frequently used in the illicit manufacture of narcotic drugs and psychotropic substances under international control. Any decision taken by the Commission on Narcotic Drugs with respect to scheduling will also be brought to the attention of Member States, the World Health Organization and the International Narcotics Control Board through a notification by the Secretary-General, and the updated schedules will be posted on the relevant web page of the United Nations Office on Drugs and Crime.

Part One

**SINGLE CONVENTION
ON NARCOTIC DRUGS OF 1961
AS AMENDED BY THE 1972 PROTOCOL**

Single Convention on Narcotic Drugs, 1961, as amended by the 1972 Protocol amending the Single Convention on Narcotic Drugs, 1961

Preamble

The Parties,

Concerned with the health and welfare of mankind,

Recognizing that the medical use of narcotic drugs continues to be indispensable for the relief of pain and suffering and that adequate provision must be made to ensure the availability of narcotic drugs for such purposes,

Recognizing that addiction to narcotic drugs constitutes a serious evil for the individual and is fraught with social and economic danger to mankind,

Conscious of their duty to prevent and combat this evil,

Considering that effective measures against abuse of narcotic drugs require co-ordinated and universal action,

Understanding that such universal action calls for international co-operation guided by the same principles and aimed at common objectives,

Acknowledging the competence of the United Nations in the field of narcotics control and desirous that the international organs concerned should be within the framework of that Organization,

Desiring to conclude a generally acceptable international convention replacing existing treaties on narcotic drugs, limiting such drugs to medical and scientific use, and providing for continuous international co-operation and control for the achievement of such aims and objectives,

Hereby agree as follows:¹

3. Preparations other than those in Schedule III are subject to the same measures of control as the drugs which they contain, but estimates (article 19) and statistics (article 20) distinct from those dealing with these drugs shall not be required in the case of such preparations, and article 29, paragraph 2 (c) and article 30, paragraph 1 (b) (ii) need not apply.

4. Preparations in Schedule III are subject to the same measures of control as preparations containing drugs in Schedule II except that article 31,

paragraphs 1 (*b*) and 3 to 15 and, as regards their acquisition and retail distribution, article 34, paragraph (*b*), need not apply, and that for the purpose of estimates (article 19) and statistics (article 20) the information required shall be restricted to the quantities of drugs used in the manufacture of such preparations.

5. The drugs in Schedule IV shall also be included in Schedule I and subject to all measures of control applicable to drugs in the latter Schedule, and in addition thereto:

(*a*) A Party shall adopt any special measures of control which in its opinion are necessary having regard to the particularly dangerous properties of a drug so included; and

(*b*) A Party shall, if in its opinion the prevailing conditions in its country render it the most appropriate means of protecting the public health and welfare, prohibit the production, manufacture, export and import of, trade in, possession or use of any such drug except for amounts which may be necessary for medical and scientific research only, including clinical trials therewith to be conducted under or subject to the direct supervision and control of the Party.

6. In addition to the measures of control applicable to all drugs in Schedule I, opium is subject to the provisions of article 19, paragraph 1, subparagraph (*f*), and of articles 21 *bis*, 23 and 24, the coca leaf to those of articles 26 and 27 and cannabis to those of article 28.

7. paragraph 3) and that the harmful substances cannot in practice be recovered; and

(b) They include in the statistical information (article 20) furnished by them the amount of each drug so used.

Article 3. Changes in the scope of control

2. The Secretary-General shall transmit such notification, and any information which he considers relevant, to the Parties, to the Commission, and, where the notification is made by a Party, to the World Health Organization.

3. Where a notification relates to a substance not already in Schedule I or in Schedule II,

- (i) The Parties shall examine in the light of the available information the possibility of the provisional application to the substance of all measures of control applicable to drugs in Schedule I;
- (ii) Pending its decision as provided in subparagraph (iii) of this paragraph, the Commission may decide that the Parties apply provisionally to that substance all measures of control applicable to drugs in Schedule I. The Parties shall apply such measures provisionally to the substance in question;
- (iii) If the World Health Organization finds that the substance is liable to similar abuse and productive of similar ill effects as the drugs in Schedule I or Schedule II or is convertible into a drug, it shall communicate that finding to the Commission which may, in accordance with the recommendation of the World Health Organization, decide that the substance shall be added to Schedule I or Schedule II.

4. If the World Health Organization finds that a preparation because of the substances which it contains is not liable to abuse and cannot produce

ill effects (paragraph 3) and that the drug therein is not readily recoverable, the Commission may, in accordance with the recommendation of the World Health Organization, add that preparation to Schedule III.

5. If the World Health Organization finds that a drug in Schedule I is particularly liable to abuse and to produce ill effects (paragraph 3) and that such liability is not offset by substantial therapeutic advantages not possessed by substances other than drugs in Schedule IV, the Commission may, in accordance with the recommendation of the World Health Organization, place that drug in Schedule IV.

6. Where a notification relates to a drug already in Schedule I or Schedule II or to a preparation in Schedule III, the Commission, apart from the measure provided for in paragraph 5, may, in accordance with the recommendation of the World Health Organization, amend any of the Schedules by:

(a) Transferring a drug from Schedule I to Schedule II or from Schedule II to Schedule I; *or*

(b) Deleting a drug or a preparation as the case may be, from a Schedule.

7. Any decision of the Commission taken pursuant to this article shall be communicated by the Secretary-General to all States Members of the United Nations, to non-member States Parties to this Convention, to the World Health Organization and to the Board. Such decision shall become effective with respect to each Party on the date of its receipt of such communication, and the Parties shall thereupon take such action as may be required under this Convention.

8. (a) The decisions of the Commission amending any of the Schedules shall be subject to review by the Council upon the request of any Party filed within ninety days from receipt of notification of the decision. The request for review shall be sent to the Secretary-General together with all relevant information upon which the request for review is based;

(b) The Secretary-General shall transmit copies of the request for review and relevant information to the Commission, the World Health Organization and to all the Parties inviting them to submit comments within ninety days. All comments received shall be submitted to the Council for consideration;

(c) The Council may confirm, alter or reverse the decision of the Commission, and the decision of the Council shall be final. Notification of the Council's decision shall be transmitted to all States Members of the United Nations, to non-member States Parties to this Convention, to the Commission, to the World Health Organization, and to the Board;

(d) During pendency of the review the original decision of the Commission shall remain in effect.

9. Decisions of the Commission taken in accordance with this article shall not be subject to the review procedure provided for in article 7.

Article 4. General obligations

The parties shall take such legislative and administrative measures as may be necessary:

(a) To give effect to and carry out the provisions of this Convention within their own territories;

(b) To co-operate with other States in the execution of the provisions of this Convention; and

(c) Subject to the provisions of this Convention, to limit exclusively to medical and scientific purposes the production, manufacture, export, import, distribution of, trade in, use and possession of drugs.

Article 5. The international control organs

The expenses of the Commission and the Board will be borne by the United Nations in such manner as shall be decided by the General Assembly. The Parties

2. Members of the Board shall be persons who, by their competence, impartiality and disinterestedness, will command general confidence. During their term of office they shall not hold any position or engage in any activity which would be liable to impair their impartiality in the exercise of their functions. The Council shall, in consultation with the Board, make all arrangements necessary to ensure the full technical independence of the Board in carrying out its functions.

3. The Council, with due regard to the principle of equitable geographic representation, shall give consideration to the importance of including on the Board, in equitable proportion, persons possessing a knowledge of the drug situation in the producing, manufacturing, and consuming countries, and connected with such countries.

4. The Board, in co-operation with Governments, and subject to the terms of this Convention, shall endeavour to limit the cultivation, production, manufacture and use of drugs to an adequate amount required for medical and scientific purposes, to ensure their availability for such purposes and to prevent illicit cultivation, production and manufacture of, and illicit trafficking in and use of, drugs.

5. All measures taken by the Board under this Convention shall be those most consistent with the intent to further the co-operation of Governments with the Board and to provide the mechanism for a continuing dialogue between Governments and the Board which will lend assistance to and facilitate effective national action to attain the aims of this Convention.

*Article 10. Terms of office and remuneration
of members of the Board*

1. The members of the Board shall serve for a period of five years, and may be re-elected.

2. The term of office of each member of the Board shall end on the eve of the first meeting of the Board which his successor shall be entitled to attend.

3. A member of the Board who has failed to attend three consecutive sessions shall be deemed to have resigned.

4. The Council, on the recommendation of the Board, may dismiss a member of the Board who has ceased to fulfil the conditions required for membership by paragraph 2 of article 9. Such recommendation shall be made by an affirmative vote of nine members of the Board.

5. Where a vacancy occurs on the Board during the term of office of a member, the Council shall fill such vacancy as soon as possible and in accordance with the applicable provisions of article 9, by electing another member for the remainder of the term.

6. The members of the Board shall receive an adequate remuneration as determined by the General Assembly.

Article 11. Rules of procedure of the Board

1. The Board shall elect its own President and such other officers as it may consider necessary and shall adopt its rules of procedure.

2. The Board shall meet as often as, in its opinion, may be necessary for the proper discharge of its functions, but shall hold at least two sessions in each calendar year.

3. The quorum necessary at meetings of the Board shall consist of eight members.

Article 12. Administration of the estimate system

1. The Board shall fix the date or dates by which, and the manner in which, the estimates as provided in article 19 shall be furnished and shall prescribe the forms therefor.

2. The Board shall, in respect of countries and territories to which this Convention does not apply, request the Governments concerned to furnish estimates in accordance with the provisions of this Convention.

3. If any State fails to furnish estimates in respect of any of its territories by the date specified, the Board shall, as far as possible, establish the estimates. The Board in establishing such estimates shall to the extent practicable do so in co-operation with the Government concerned.

4. The Board shall examine the estimates, including supplementary estimates, and, except as regards requirements for special purposes, may require such information as it considers necessary in respect of any country or territory on behalf of which an estimate has been furnished, in order to complete the estimate or to explain any statement contained therein.

5. The Board, with a view to limiting the use and distribution of drugs to an adequate amount required for medical and scientific purposes and to ensuring their availability for such purposes, shall as expeditiously as possible confirm the estimates, including supplementary estimates, or, with the consent of the Government concerned, may amend such estimates. In case of a disagreement between the Government and the Board, the latter shall have the right to establish, communicate and publish its own estimates, including supplementary estimates.

6. In addition to the reports mentioned in article 15, the Board shall, at such times as it shall determine but at least annually, issue such information on the estimates as in its opinion will facilitate the carrying out of this Convention.

Article 13. Administration of the statistical returns system

1. The Board shall determine the manner and form in which statistical returns shall be furnished as provided in article 20 and shall prescribe the forms therefor.

2. The Board shall examine the returns with a view to determining whether a Party or any other State has complied with the provisions of this Convention.

3. The Board may require such further information as it considers necessary to complete or explain the information contained in such statistical returns.

4. It shall not be within the competence of the Board to question or express an opinion on statistical information respecting drugs required for special purposes.

Article 14. Measures by the Board to ensure the execution of provisions of the Convention

1. (a) If, on the basis of its examination of information submitted by Governments to the Board under the provisions of this Convention, or of information communicated by United Nations organs or by specialized agencies or, provided that they are approved by the Commission on the Board's recommendation, by either other intergovernmental organizations or international non-governmental organizations which have direct competence in the subject matter and which are in consultative status with the Economic and Social Council under Article 71 of the Charter of the United Nations or which enjoy a similar status by special agreement with the Council, the Board has objective reasons to believe that the aims of this Convention are being seriously endangered by reason of the failure of any Party, country or territory to carry out the provisions of this Convention, the Board shall have the right to propose to the Government concerned the opening of consultations or to request it to furnish explanations. If, without any failure in implementing the provisions of the Convention, a Party or a country or territory has become, or if there exists evidence of a serious risk that it may become, an important centre of illicit cultivation, production or manufacture of, or traffic in or consumption of drugs, the Board has the right to propose to the Government concerned the opening of consultations. Subject to the right of the Board to call the attention of the Parties, the Council and the Commission to the matter referred to in subparagraph (d) below, the Board shall treat as confidential a request for information and an explanation by a Government or a proposal for consultations and the consultations held with a Government under this subparagraph.

(b) After taking action under subparagraph (a) above, the Board, if satisfied that it is necessary to do so, may call upon the Government concerned to adopt such remedial measures as shall seem under the circumstances to be necessary for the execution of the provisions of this Convention.

(c) The Board may, if it thinks such action necessary, for the purpose of assessing a matter referred to in subparagraph (a) of this paragraph, propose to the Government concerned that a study of the matter be carried out in its territory by such means as the Government deems appropriate. If the Government concerned decides to undertake this study, it may request the Board to make available the expertise and the services of one or more persons with the requisite competence to assist the officials of the Government in the proposed study. The

person or persons whom the Board intends to make available shall be subject to the approval of the Government. The modalities of this study and the time-limit within which the study has to be completed shall be determined by consultation between the Government and the Board. The Government shall communicate to the Board the results of the study and shall indicate the remedial measures that it considers necessary to take.

(d) If the Board finds that the Government concerned has failed to give satisfactory explanations when called upon to do so under subparagraph (a) above, or has failed to adopt any remedial measures which it has been called upon to take under subparagraph (b) above, or that there is a serious situation that needs co-operative action at the international level with a view to remedying it, it may call the attention of the Parties, the Council and the Commission to the matter. The Board shall so act if the aims of this Convention are being seriously endangered and it has not been possible to resolve the matter satisfactorily in any other way. It shall also so act if it finds that there is a serious situation that needs co-operative action at the international level with a view to remedying it and that bringing such a situation to the notice of the Parties, the Council and the Commission is the most appropriate method of facilitating such co-operative action; after considering the reports of the Board, and of the Commission if available on the matter, the Council may draw the attention of the General Assembly to the matter.

2. The Board, when calling the attention of the Parties, the Council and the Commission to a matter in accordance with paragraph 1 (d) above, may, if it is satisfied that such a course is necessary, recommend to Parties that they stop the import of drugs, the export of drugs, or both, from or to the country or territory concerned, either for a designated period or until the Board shall be satisfied as to the situation in that country or territory. The State concerned may bring the matter before the Council.

3. The Board shall have the right to publish a report on any matter dealt with under the provisions of this article, and communicate it to the Council, which shall forward it to all Parties. If the Board publishes in this report a decision taken under this article or any information relating thereto, it shall also publish therein the views of the Government concerned if the latter so requests.

4. If in any case a decision of the Board which is published under this article is not unanimous, the views of the minority shall be stated.

5. Any State shall be invited to be represented at a meeting of the Board at which a question directly interesting it is considered under this article.

6. Decisions of the Board under this article shall be taken by a two-thirds majority of the whole number of the Board.

Article 14 bis. Technical and financial assistance

In cases which it considers appropriate and either in addition or as an alternative to measures set forth in article 14, paragraphs 1 and 2, the Board, with the agreement of the Government concerned, may recommend to the competent United Nations organs and to the specialized agencies that technical or financial assistance, or both, be provided to the Government in support of its efforts to carry out its obligations under this Convention, including those set out or referred to in articles 2, 35, 38 and 38 *bis*.

Article 15. Reports of the Board

1. The Board shall prepare an annual report on its work and such additional reports as it considers necessary containing also an analysis of the estimates and statistical information at its disposal, and, in appropriate cases, an account of the explanations, if any, given by or required of Governments, together with any observations and recommendations which the Board desires to make. These reports shall be submitted to the Council through the Commission, which may make such comments as it sees fit.

2. The reports shall be communicated to the Parties and subsequently published by the Secretary-General. The Parties shall permit their unrestricted distribution.

Article 16. Secretariat

The secretariat services of the Commission and the Board shall be furnished by the Secretary-General. In particular, the Secretary of the Board shall be appointed by the Secretary-General in consultation with the Board.

Article 17. Special administration

The Parties shall maintain a special administration for the purpose of applying the provisions of this Convention.

Article 18. Information to be furnished by Parties to the Secretary-General

1. The Parties shall furnish to the Secretary-General such information as the Commission may request as being necessary for the performance of its functions, and in particular:

(a) An annual report on the working of the Convention within each of their territories;

(b) The text of all laws and regulations from time to time promulgated in order to give effect to this Convention;

(c) Such particulars as the Commission shall determine concerning cases of illicit traffic, including particulars of each case of illicit traffic discovered which may be of importance, because of the light thrown on the source from which drugs are obtained for the illicit traffic, or because of quantities involved or the method employed by illicit traffickers; and

(d) The, names and addresses of the governmental authorities empowered to issue export and import authorizations or certificates.

2. Parties shall furnish the information referred to in the preceding paragraph in such manner and by such dates and use such forms as the Commission may request.

Article 19. Estimates of drug requirements

1. The Parties shall furnish to the Board each year for each of their territories, in the manner and form prescribed by the Board, estimates on forms supplied by it in respect of the following matters:

(a) Quantities of drugs to be consumed for medical and scientific purposes;

(b) Quantities of drugs to be utilized for the manufacture of other drugs, of preparations in Schedule III, and of substances not covered by this Convention;

(c) Stocks of drugs to be held as at 31 December of the year to which the estimates relate;

(d) Quantities of drugs necessary for addition to special stocks;

(e) The area (in hectares) and the geographical location of land to be used for the cultivation of the opium poppy;

(f) Approximate quantity of opium to be produced;

(g) The number of industrial establishments which will manufacture synthetic drugs; and

(h) The quantities of synthetic drugs to be manufactured by each of the establishments referred to in the preceding subparagraph.

2. (a) Subject to the deductions referred to in paragraph 3 of article 21, the total of the estimates for each territory and each drug except opium and synthetic drugs shall consist of the sum of the amounts specified under subparagraphs (a), (b) and (d) of paragraph 1 of this article, with the addition of any amount required to bring the actual stocks on hand at 31 December of the preceding year to the level estimated as provided in subparagraph (c) of paragraph 1;

(b) Subject to the deductions referred to in paragraph 3 of article 21 regarding imports and in paragraph 2 of article 21 *bis*, the total of the estimates for opium for each territory shall consist either of the sum of the amounts specified under subparagraphs (a), (b) and (d) of paragraph 1 of this article, with the addition of any amount required to bring the actual stocks on hand at 31 December of the preceding year to the level estimated as provided in subparagraph (c) of paragraph 1, or of the amount specified under subparagraph (f) of paragraph 1 of this article, whichever is higher.

(c) Subject to the deductions referred to in paragraph 3 of article 21, the total of the estimates for each territory for each synthetic drug shall consist either of the sum of the amounts specified under subparagraphs (a), (b) and (d) of paragraph 1 of this article, with the addition of any amount required to bring the actual stocks on hand at 31 December of the preceding year to the level estimated as provided in subparagraph (c) of paragraph 1, or of the sum of the

amounts specified under subparagraph (b) of paragraph 1 of this article, whichever is higher.

(d) The estimates furnished under the preceding subparagraphs of this paragraph shall be appropriately modified to take into account any quantity seized and thereafter released for licit use as well as any quantity taken from special stocks for the requirements of the civilian population.

3. Any State may during the year furnish supplementary estimates with an explanation of the circumstances necessitating such estimates.

4. The Parties shall inform the Board of the method used for determining quantities shown in the estimates and of any changes in the said method.

5. Subject to the deductions referred to in paragraph 3 of article 21, and account being taken where appropriate of the provisions of article 21 *bis*, the estimates shall not be exceeded.

Article 20. Statistical returns to be furnished to the Board

(b) The statistical returns in respect of the matters referred to in subparagraph (d) of paragraph 1 shall be prepared quarterly and shall be furnished to the Board within one month after the end of the quarter to which they relate.

3. The Parties are not required to furnish statistical returns respecting special stocks, but shall furnish separately returns respecting drugs imported into or procured within the country or territory for special purposes, as well as quantities of drugs withdrawn from special stocks to meet the requirements of the civilian population.

Article 21. Limitation of manufacture and importation

1. The total of the quantities of each drug manufactured and imported by any country or territory in any one year shall not exceed the sum of the following:

(a) The quantity consumed, within the limit of the relevant estimate, for medical and scientific purposes;

(b) The quantity used, within the limit of the relevant estimate, for the manufacture of other drugs, of preparations in Schedule III, and of substances not covered by this Convention;

(c) The quantity exported;

(d) The quantity added to the stock for the purpose of bringing that stock up to the level specified in the relevant estimate; and

(e) The quantity acquired within the limit of the relevant estimate for special purposes.

2. From the sum of the quantities specified in paragraph 1 there shall be deducted any quantity that has been seized and released for licit use, as well as any quantity taken from special stocks for the requirements of the civilian population.

3. If the Board finds that the quantity manufactured and imported in any one year exceeds the sum of the quantities specified in paragraph 1, less any

deductions required under paragraph 2 of this article, any excess so established and remaining at the end of the year shall, in the following year, be deducted from the quantity to be manufactured or imported and from the total of the estimates as defined in paragraph 2 of article 19.

4. (a) If it appears from the statistical returns on imports or exports (article 20) that the quantity exported to any country or territory exceeds the total of the estimates for that country or territory, as defined in paragraph 2 of article 19, with the addition of the amounts shown to have been exported, and after deduction of any excess as established in paragraph 3 of this article, the Board may notify this fact to States which, in the opinion of the Board, should be so informed

(b) On receipt of such a notification, Parties shall not during the year in question authorize any further exports of the drug concerned to that country or territory, except:

- (i) In the event of a supplementary estimate being furnished for that country or territory in respect both of any quantity over-imported and of the additional quantity required, or
- (ii) In exceptional cases where the export, in the opinion of the Government of the exporting country, is essential for the treatment of the sick.

Article 21 bis. Limitation of production of opium

1. The production of opium by any country or territory shall be organized and controlled in such manner as to ensure that, as far as possible, the quantity produced in any one year shall not exceed the estimate of opium to be produced as established under paragraph 1 (f) of article 19.

2. If the Board finds on the basis of information at its disposal in accordance with the provisions of this Convention that a Party which has submitted an estimate under paragraph 1 (f) of article 19 has not limited opium produced within its borders to licit purposes in accordance with relevant estimates and that a significant amount of opium produced, whether licitly or illicitly, within the borders of such a Party, has been introduced into the illicit traffic, it may, after studying the explanations of the Party concerned, which shall be submitted to it within

one month after notification of the finding in question, decide to deduct all, or a portion, of such an amount from the quantity to be produced and from the total of the estimates as defined in paragraph 2 (b) of article 19 for the next year in which such a deduction can be technically accomplished, taking into account the season of the year and contractual commitments to export opium. This decision shall take effect ninety days after the Party concerned is notified thereof.

3. After notifying the Party concerned of the decision it has taken under paragraph 2 above with regard to a deduction, the Board shall consult with that Party in order to resolve the situation satisfactorily.

4. If the situation is not satisfactorily resolved, the Board may utilize the provisions of article 14 where appropriate.

5. In taking its decision with regard to a deduction under paragraph 2 above, the Board shall take into account not only all relevant circumstances including those giving rise to the illicit traffic problem referred to in paragraph 2 above, but also any relevant new control measures which may have been adopted by the Party.

Article 22. Special provision applicable to cultivation

1. Whenever the prevailing conditions in the country or a territory of a Party render the prohibition of the cultivation of the opium poppy, the coca bush or the cannabis plant the most suitable measure, in its opinion, for protecting the public health and welfare and preventing the diversion of drugs into the illicit traffic, the Party concerned shall prohibit cultivation.

2. A Party prohibiting cultivation of the opium poppy or the cannabis plant shall take appropriate measures to seize any plants illicitly cultivated and to destroy them, except for small quantities required by the Party for scientific or research purposes.

Article 23. National opium agencies

1. A Party that permits the cultivation of the opium poppy for the production of opium shall establish, if it has not already done so, and maintain, one

or more government agencies (hereafter in this article referred to as the Agency) to carry out the functions required under this article.

2. Each such Party shall apply the following provisions to the cultivation of the opium poppy for the production of opium and to opium:

(a) The Agency shall designate the areas in which, and the plots of land on which, cultivation of the opium poppy for the purpose of producing opium shall be permitted.

(b) Only cultivators licensed by the Agency shall be authorized to engage in such cultivation.

(c) Each licence shall specify the extent of the land on which the cultivation is permitted.

(d) All cultivators of the opium poppy shall be required to deliver their total crops of opium to the Agency. The Agency shall purchase and take physical possession of such crops as soon as possible, but not later than four months after the end of the harvest.

(e) The Agency shall, in respect of opium, have the exclusive right of importing, exporting, wholesale trading and maintaining stocks other than those held by manufacturers of opium alkaloids, medicinal opium or opium preparations. Parties need not extend this exclusive right to medicinal opium and opium preparations.

3. The governmental functions referred to in paragraph 2 shall be discharged by a single government agency if the constitution of the Party concerned permits it.

Article 24. Limitation on production of opium for international trade

1. (a) If any Party intends to initiate the production of opium or to increase existing production, it shall take account of the prevailing world need for opium in accordance with the estimates thereof published by the Board so that the production of opium by such Party does not result in over-production of opium in the world.

(b) A Party shall not permit the production of opium or increase the existing production thereof if in its opinion such production or increased production in its territory may result in illicit traffic in opium.

2. (a) Subject to paragraph 1, where a Party which as of 1 January 1961 was not producing opium for export desires to export opium which it produces, in amounts not exceeding five tons annually, it shall notify the Board, furnishing with such notification information regarding:

- (i) The controls in force as required by this Convention respecting the opium to be produced and exported; and
- (ii) The name of the country or countries to which it expects to export such opium;

and the Board may either approve such notification or may recommend to the Party that it not engage in the production of opium for export.

(b) Where a Party other than a party referred to in paragraph 3 desires to produce opium, for export in amounts exceeding five tons annually, it shall notify the Council, furnishing with such notification relevant information including:

- (i) The estimated amounts to be produced for export;
- (ii) The controls existing or proposed respecting the opium to be produced;
- (iii) The name of the country or countries to which it expects to export such opium;

and the Council shall either approve the notification or may recommend to the Party that it not engage in the production of opium for export.

3. Notwithstanding the provisions of subparagraphs (a) and (b) of paragraph 2, a Party that during ten years immediately prior to 1 January 1961 exported opium which such country produced may continue to export opium which it produces.

4. (a) A Party shall not import opium from any country or territory except opium produced in the territory of:

- (i) A Party referred to in paragraph 3;
- (ii) A Party that has notified the Board as provided in subparagraph (a) of paragraph 2; or
- (iii) A Party that has received the approval of the Council as provided in subparagraph (b) of paragraph 2.

(b) Notwithstanding subparagraph (a) of this paragraph, a Party may import opium produced by any country which produced and exported opium during the ten years prior to 1 January 1961 if such country has established and maintains a national control organ or agency for the purposes set out in article 23 and has in force an effective means of ensuring that the opium it produces is not diverted into the illicit traffic.

5. The provisions of this article do not prevent a Party:

- (a) From producing opium sufficient for its own requirements; or
- (b) From exporting opium seized in the illicit traffic, to another Party in accordance with the requirements of this Convention.

Article 25. Control of poppy straw

1. A Party that permits the cultivation of the opium poppy for purposes other than the production of opium shall take all measures necessary to ensure:

- (a) That opium is not produced from such opium poppies; and
- (b) That the manufacture of drugs from poppy straw is adequately controlled.

2. The Parties shall apply to poppy straw the system of import certificates and export authorizations as provided in article 31, paragraphs 4 to 15.

3. The Parties shall furnish statistical information on the import and export of poppy straw as required for drugs under article 20, paragraphs 1 (d) and 2 (b).

Article 26. The coca bush and coca leaves

1. If a Party permits the cultivation of the coca bush, it shall apply thereto and to coca leaves the system of controls as provided in article 23 respecting the control of the opium poppy, but as regards paragraph 2 (d) of that article, the requirements imposed on the Agency therein referred to shall be only to take physical possession of the crops as soon as possible after the end of the harvest.

2. The Parties shall so far as possible enforce the uprooting of all coca bushes which grow wild. They shall destroy the coca bushes if illegally cultivated.

Article 27. Additional provisions relating to coca leaves

1. The Parties may permit the use of coca leaves for the preparation of a flavouring agent, which shall not contain any alkaloids, and, to the extent necessary for such use, may permit the production, import, export, trade in and possession of such leaves.

2. The Parties shall furnish separately estimates (article 19) and statistical information (article 20) in respect of coca leaves for preparation of the flavouring agent, except to the extent that the same coca leaves are used for the extraction of alkaloids and the flavouring agent, and so explained in the estimates and statistical information.

Article 28. Control of cannabis

1. If a Party permits the cultivation of the cannabis plant for the production of cannabis or cannabis resin, it shall apply thereto the system of controls as provided in article 23 respecting the control of the opium poppy.

2. This Convention shall not apply to the cultivation of the cannabis plant exclusively for industrial purposes (fibre and seed) or horticultural purposes.

3. The Parties shall adopt such measures as may be necessary to prevent the misuse of, and illicit traffic in, the leaves of the cannabis plant.

2. The Parties shall:

(a) Control all persons and enterprises carrying on or engaged in the manufacture of drugs;

(b) Control under licence the establishments and premises in which such manufacture may take place; and

(c) Require that licensed manufacturers of drugs obtain periodical permits specifying the kinds and amounts of drugs which they shall be entitled to manufacture. A periodical permit, however, need not be required for preparations.

3. The Parties shall prevent the accumulation, in the possession of drug manufacturers, of quantities of drugs and poppy straw in excess of those required for the normal conduct of business, having regard to the prevailing market conditions.

Article 30. Trade and distribution

1. (a) The Parties shall require that the trade in and distribution of drugs be under licence except where such trade or distribution is carried out by a State enterprise or State enterprises:

2. The Parties shall also:

(a) Prevent the accumulation in the possession of traders, distributors, State enterprises or duly authorized persons referred to above, of quantities of drugs and poppy straw in excess of those required for the normal conduct of business, having regard to the prevailing market conditions; and

(b) (i) Require medical prescriptions for the supply or dispensation of drugs to individuals. This requirement need not apply to such drugs as individuals may lawfully obtain, use, dispense or administer in connexion with their duly authorized therapeutic functions; and

(ii) If the Parties deem these measures necessary or desirable, require that prescriptions for drugs in Schedule I should be written on official forms to be issued in the form of counterfoil books by the competent governmental authorities or by authorized professional associations.

3. It is desirable that Parties require that written or printed offers of drugs, advertisements of every kind or descriptive literature relating to drugs and used for commercial purposes, interior wrappings of packages containing drugs, and labels under which drugs are offered for sale indicate the international non-proprietary name communicated by the World Health Organization.

4. If a Party considers such measure necessary or desirable, it shall require that the inner package containing a drug or wrapping thereof shall bear a clearly visible double red band. The exterior wrapping of the package in which such drug is contained shall not bear a double red band.

5. A Party shall require that the label under which a drug is offered for sale show the exact drug content by weight or percentage. This requirement of label information need not apply to a drug dispensed to an individual on medical prescription.

6. The provisions of paragraphs 2 and 5 need not apply to the retail trade in or retail distribution of drugs in Schedule II.

*Article 31. Special provisions relating
to international trade*

1. The Parties shall not knowingly permit the export of drugs to any country or territory except:

(a) In accordance with the laws and regulations of that country or territory; and

(b) Within the limits of the total of the estimates for that country or territory, as defined in paragraph 2 of article 19, with the addition of the amounts intended to be re-exported.

2. The Parties shall exercise in free ports and zones the same supervision and control as in other parts of their territories, provided, however, that they may apply more drastic measures.

3. The Parties shall:

(a) Control under licence the import and export of drugs except where such import or export is carried out by a State enterprise or enterprises;

(b) Control all persons and enterprises carrying on or engaged in such import or export.

4. (a) Every Party permitting the import or export of drugs shall require a separate import or export authorization to be obtained for each such import or export whether it consists of one or more drugs.

(b) Such authorization shall state the name of the drug, the international non-proprietary name if any, the quantity to be imported or exported, and the name and address of the importer and exporter, and shall specify the period within which the importation or exportation must be effected.

(c) The export authorization shall also state the number and date of the import certificate (paragraph 5) and the authority by whom it has been issued.

(d) The import authorization may allow an importation in more than one consignment.

5. Before issuing an export authorization the Parties shall require an import certificate, issued by the competent authorities of the importing country

or territory and certifying that the importation of the drug or drugs referred to therein, is approved and such certificate shall be produced by the person or establishment applying for the export authorization. The Parties shall follow as closely as may be practicable the form of import certificate approved by the Commission.

6. A copy of the export authorization shall accompany each consignment, and the Government issuing the export authorization shall send a copy to the Government of the importing country or territory.

7. (a) The Government of the importing country or territory, when the importation has been effected or when the period fixed for the importation has expired, shall return the export authorization, with an endorsement to that effect, to the Government of the exporting country or territory.

(b) The endorsement shall specify the amount actually imported;

(c) If a lesser quantity than that specified in the export authorization is actually exported, the quantity actually exported shall be stated by the competent authorities on the export authorization and on any official copy thereof.

8. Exports of consignments to a post office box, or to a bank to the account of a Party other than the Party named in the export authorization, shall be prohibited.

9. Exports of consignments to a bonded warehouse are prohibited unless the Government of the importing country certifies on the import certificate, produced by the person or establishment applying for the export authorization, that it has approved the importation for the purpose of being placed in a bonded warehouse. In such case the export authorization shall specify that the consignment is exported for such purpose. Each withdrawal from the bonded warehouse shall require a permit from the authorities having jurisdiction over the warehouse and, in the case of a foreign destination shall be treated as if it were a new export within the meaning of this Convention.

10. Consignments of drugs entering or leaving the territory of a Party not accompanied by an export authorization shall be detained by the competent authorities.

11. A Party shall not permit any drugs consigned to another country to pass through its territory, whether or not the consignment is removed from the

conveyance in which it is carried, unless a copy of the export authorization for such consignment is produced to the competent authorities of such Party.

12. The competent authorities of any country or territory through which a consignment of drugs is permitted to pass shall take all due measures to prevent the diversion of the consignment to a destination other than that named in the accompanying copy of the export authorization unless the Government of that country or territory through which the consignment is passing authorizes the diversion. The Government of the country or territory of transit shall treat any requested diversion as if the diversion were an export from the country or territory of transit to the country or territory of new destination. If the diversion is authorized, the provisions of paragraph 7 (a) and (b) shall also apply between the country or territory of transit and the country or territory which originally exported the consignment.

13. No consignment of drugs while in transit, or whilst being stored in a bonded warehouse, may be subjected to any process which would change the nature of the drugs in question. The packing may not be altered without the permission of the competent authorities.

14. The provisions of paragraphs 11 to 13 relating to the passage of drugs through the territory of a Party do not apply where the consignment in question is transported by aircraft which does not land in the country or territory of transit. If the aircraft lands in any such country or territory, those provisions shall be applied so far as circumstances require.

15. The provisions of this article are without prejudice to the provisions of any international agreements which limit the control which may be exercised by any of the Parties over drugs in transit.

16. Nothing in this article other than paragraphs 1 (a) and 2 need apply in the case of preparations in Schedule III.

Article 32. Special provisions concerning the carriage of drugs in first-aid kits of ships or aircraft engaged in international traffic

1. The international carriage by ships or aircraft of such limited amounts of drugs as may be needed during their journey or voyage for first-aid purposes

or emergency cases shall not be considered to be import, export or passage through a country within the meaning of this Convention.

2. Appropriate safeguards shall be taken by the country of registry to prevent the improper use of the drugs referred to in paragraph 1 or their diversion for illicit purposes. The Commission, in consultation with the appropriate international organizations, shall recommend such safeguards.

3. Drugs carried by ships or aircraft in accordance with paragraph 1 shall be subject to the laws, regulations, permits and licences of the country of registry, without prejudice to any rights of the competent local authorities to carry out checks, inspections and other control measures on board ships or aircraft. The administration of such drugs in the case of emergency shall not be considered a violation of the requirements of article 30, paragraph 2 (*b*).

Article 33. Possession of drugs

The Parties shall not permit the possession of drugs except under legal authority.

Article 34. Measures of supervision and inspection

The Parties shall require:

(*a*) That all persons who obtain licences as provided in accordance with this Convention, or who have managerial or supervisory positions in a State enterprise established in accordance with this Convention, shall have adequate qualifications for the effective and faithful execution of the provisions of such laws and regulations as are enacted in pursuance thereof; and

(*b*) That governmental authorities, manufacturers, traders, scientists, scientific institutions and hospitals keep such records as will show the quantities of each drug manufactured and of each individual acquisition and disposal of drugs. Such records shall respectively be preserved for a period of not less than two years. Where counterfoil books (article 30, paragraph 2 (*b*)) of official prescriptions are used, such books including the counterfoils shall also be kept for a period of not less than two years.

Article 35. Action against the illicit traffic

Having due regard to their constitutional, legal and administrative systems, the Parties shall:

(a) Make arrangements at the national level for co-ordination of preventive and repressive action against the illicit traffic; to this end they may usefully designate an appropriate agency responsible for such co-ordination;

(b) Assist each other in the campaign against the illicit traffic in narcotic drugs;

(c) Co-operate closely with each other and with the competent international organizations of which they are members with a view to maintaining a co-ordinated campaign against the illicit traffic;

(d) Ensure that international co-operation between the appropriate agencies be conducted in an expeditious manner; and

(e) Ensure that where legal papers are transmitted internationally for the purposes of a prosecution, the transmittal be effected in an expeditious manner to the bodies designated by the Parties; this requirement shall be without prejudice to the right of a Party to require that legal papers be sent to it through the diplomatic channel;

(f) Furnish, if they deem it appropriate, to the Board and the Commission through the Secretary-General, in addition to information required by article 18, information relating to illicit drug activity within their borders, including information on illicit cultivation, production, manufacture and use of, and on illicit trafficking in, drugs; and

(g) Furnish the information referred to in the preceding paragraph as far as possible in such manner and by such dates as the Board may request; if requested by a Party, the Board may offer its advice to it in furnishing the information and in endeavouring to reduce the illicit drug activity within the borders of that Party.

Article 36. Penal provisions

1. (a) Subject to its constitutional limitations, each Party shall adopt such measures as will ensure that cultivation, production, manufacture,

extraction, preparation, possession, offering, offering for sale, distribution, purchase, sale, delivery on any terms whatsoever, brokerage, dispatch, dispatch in transit, transport, importation and exportation of drugs contrary to the provisions of this Convention, and any other action which in the opinion of such Party may be contrary to the provisions of this Convention, shall be punishable offences when committed intentionally, and that serious offences shall be liable to adequate punishment particularly by imprisonment or other penalties of deprivation of liberty.

(b) Notwithstanding the preceding subparagraph, when abusers of drugs have committed such offences, the Parties may provide, either as an alternative to conviction or punishment or in addition to conviction or punishment, that such abusers shall undergo measures of treatment, education, after-care, rehabilitation and social reintegration in conformity with paragraph 1 of article 38.

2. Subject to the constitutional limitations of a Party, its legal system and domestic law,

- (a) (i) Each of the offences enumerated in paragraph 1, if committed in different countries, shall be considered as a distinct offence;
 - (ii) Intentional participation in, conspiracy to commit and attempts to commit, any of such offences, and preparatory acts and financial operations in connexion with the offences referred to in this article, shall be punishable offences as provided in paragraph 1;
 - (iii) Foreign convictions for such offences shall be taken into account for the purpose of establishing recidivism; and
 - (iv) Serious offences heretofore referred to committed either by nationals or by foreigners shall be prosecuted by the Party in whose territory the offence was committed, or by the Party in whose territory the offender is found if extradition is not acceptable in conformity with the law of the Party to which application is made, and if such offender has not already been prosecuted and judgement given.
- (b) (i) Each of the offences enumerated in paragraphs 1 and 2 (a) (ii) of this article shall be deemed to be included as an extraditable offence in any extradition treaty existing between Parties. Parties

undertake to include such offences as extraditable offences in every extradition treaty to be concluded between them;

- (ii) If a Party which makes extradition conditional on the existence of a treaty receives a request for extradition from another Party with which it has no extradition treaty, it may at its option consider this Convention as the legal basis for extradition in respect of the offences enumerated in paragraphs 1 and 2 (a) (ii) of this article. Extradition shall be subject to the other conditions provided by the law of the requested Party;
- (iii) Parties which do not make extradition conditional on the existence of a treaty shall recognize the offences enumerated in paragraphs 1 and 2 (a) (ii) of this article as extraditable offences between themselves, subject to the conditions provided by the law of the requested Party;
- (iv) Extradition shall be granted in conformity with the law of the Party to which application is made, and, notwithstanding subparagraphs (b) (i), (ii) and (iii) of this paragraph, the Party shall have the right to refuse to grant the extradition in cases where the competent authorities consider that the offence is not sufficiently serious.

3. The provisions of this article shall be subject to the provisions of the criminal law of the Party concerned on questions of jurisdiction.

4. Nothing contained in this article shall affect the principle that the offences to which it refers shall be defined, prosecuted and punished in conformity with the domestic law of a Party.

Article 37. Seizure and confiscation

Any drugs, substances and equipment used in or intended for the commission of any of the offences, referred to in article 36, shall be liable to seizure and confiscation.

Article 38. Measures against the abuse of drugs

1. The Parties shall give special attention to and take all practicable measures for the prevention of abuse of drugs and for the early identification, treatment, education, after-care, rehabilitation and social reintegration of the persons involved and shall co-ordinate their efforts to these ends.

2. The Parties shall as far as possible promote the training of personnel in the treatment, after-care, rehabilitation and social reintegration of abusers of drugs.

3. The Parties shall take all practicable measures to assist persons whose work so requires to gain an understanding of the problems of abuse of drugs and of its prevention, and shall also promote such understanding among the general public if there is a risk that abuse of drugs will become widespread.

Article 38 bis. Agreements on regional centres

If a Party considers it desirable as part of its action against the illicit traffic in drugs, having due regard to its constitutional, legal and administrative systems, and, if it so desires, with the technical advice of the Board or the specialized agencies, it shall promote the establishment, in consultation with other interested Parties in the region, of agreements which contemplate the development of regional centres for scientific research and education to combat the problems resulting from the illicit use of and traffic in drugs.

Article 39. Application of stricter national control measures than those required by this Convention

Notwithstanding anything contained in this Convention, a Party shall not be, or be deemed to be, precluded from adopting measures of control more strict or severe than those provided by this Convention and in particular from requiring that preparations in Schedule III or drugs in Schedule II be subject to all or such of the measures of control applicable to drugs in Schedule I as in its opinion is necessary or desirable for the protection of the public health or welfare.

1. If a Party or the World Health Organization has information relating to a substance not yet under international control which in its opinion may require the addition of that substance to any of the Schedules of this Convention, it shall notify the Secretary-General and furnish him with the information in support of that notification. The foregoing procedure shall also apply when a Party or the World Health Organization has information justifying the transfer of a substance from one Schedule to another among those Schedules, or the deletion of a substance from the Schedules.

2. The Secretary-General shall transmit such notification, and any information which he considers relevant, to the Parties, to the Commission and, when the notification is made by a Party, to the World Health Organization.

3. If the information transmitted with such a notification indicates that the substance is suitable for inclusion in Schedule I or Schedule II pursuant to paragraph 4, the Parties shall examine, in the light of all information available to them, the possibility of the provisional application to the substance of all measures of control applicable to substances in Schedule I or Schedule II, as appropriate.

4. If the World Health Organization finds:

(a) That the substance has the capacity to produce

(i) (1) A state of dependence, and

(2) Central nervous system stimulation or depression, resulting in hallucinations or disturbances in motor function or thinking or behaviour or perception or mood, or

(ii) Similar abuse and similar ill effects as a substance in Schedule I, II, III or IV, and

(b) That there is sufficient evidence that the substance is being or is likely to be abused so as to constitute a public health and social problem warranting the placing of the substance under international control,

the World Health Organization shall communicate to the Commission an assessment of the substance, including the extent or likelihood of abuse, the degree of seriousness of the public health and social problem and the degree of usefulness of the substance in medical therapy, together with recommendations on control measures, if any, that would be appropriate in the light of its assessment.

5. The Commission, taking into account the communication from the World Health Organization, whose assessments shall be determinative as to medical and scientific matters, and bearing in mind the economic, social, legal, administrative and other factors it may consider relevant, may add the substance to Schedule I, II, III or IV. The Commission may seek further information from the World Health Organization or from other appropriate sources.

6. If a notification under paragraph 1 relates to a substance already listed in one of the Schedules, the World Health Organization shall communicate to the Commission its new findings, any new assessment of the substance it may make in accordance with paragraph 4 and any new recommendations on control measures it may find appropriate in the light of that assessment. The Commission, taking into account the communication from the World Health Organization as under paragraph 5 and bearing in mind the factors referred to in that paragraph, may decide to transfer the substance from one Schedule to another or to delete it from the Schedules.

7. Such notice shall state the reasons for this exceptional action. Notwithstanding its notice, each Party shall apply, as a minimum, the control measures listed below:

(a) A Party having given such notice with respect to a previously uncontrolled substance added to Schedule I shall take into account, as far as possible,

the special control measures enumerated in article 7 and, with respect to that substance, shall:

- (iii) Comply with the obligations relating to export and import provided in Article 12, except in respect to another Party having given such notice for the substance in question;
- (iv) Comply with the obligations of article 13 in regard to prohibition of and restrictions on export and import;
- (v) Furnish statistical reports to the Board in accordance with paragraphs 4 (a), (c) and (d) of article 16; and
- (vi) Adopt measures in accordance with article 22 for the repression

of acts contrary to laws or regulations adopted pursuant to the foregoing obligations.

(c) A Party having given such notice with regard to a previously uncontrolled substance added to Schedule III shall, with respect to that substance:

- (i) Require licences for manufacture, trade and distribution in accordance with article 8;
- (ii) Require medical prescriptions for supply or dispensing in accordance with article 9;
- (iii) Comply with the obligations relating to export provided in article 12, except in respect to another Party having given such notice for the substance in question;
- (iv) Comply with the obligations of article 13 in regard to prohibition of and restrictions on export and import; and
- (v) Adopt measures in accordance with article 22 for the repression of acts contrary to laws or regulations adopted pursuant to the foregoing obligations.

(d) A Party having given such notice with regard to a previously uncontrolled substance added to Schedule IV shall, with respect to that substance:

- (i) Require licences for manufacture, trade and distribution in accordance with article 8;
- (ii) Comply with the obligations of article 13 in regard to prohibition of and restrictions on export and import; and
- (iii) Adopt measures in accordance with article 22 for the repression of acts contrary to laws or regulations adopted pursuant to the foregoing obligations.

(e) A Party having given such notice with regard to a substance transferred to a Schedule providing stricter controls and obligations shall apply as a minimum all of the provisions of this Convention applicable to the Schedule from which it was transferred.

8. (a) The decisions of the Commission taken under this article shall be subject to review by the Council upon the request of any Party filed within 180

days from receipt of notification of the decision. The request for review shall be sent to the Secretary-General together with all relevant information upon which the request for review is based.

(b) The Secretary-General shall transmit copies of the request for review and the relevant information to the Commission, to the World Health Organization and to all the Parties, inviting them to submit comments within ninety days. All comments received shall be submitted to the Council for consideration.

(c) The Council may confirm, alter or reverse the decision of the Commission. Notification of the Council's decision shall be transmitted to all States Members of the United Nations, to non-member States Parties to this Convention, to the Commission, to the World Health Organization and to the Board.

(d) During pendency of the review, the original decision of the Commission shall, subject to paragraph 7, remain in effect.

9. The Parties shall use their best endeavours to apply to substances which do not fall under this Convention, but which may be used in the illicit manufacture of psychotropic substances, such measures of supervision as may be practicable.

Article 3. Special provisions regarding the control of preparations

1. Except as provided in the following paragraphs of this article, a preparation is subject to the same measures of control as the psychotropic substance which it contains, and, if it contains more than one such substance, to the measures applicable to the most strictly controlled of those substances.

2. If a preparation containing a psychotropic substance other than a substance in Schedule I is compounded in such a way that it presents no, or a negligible, risk of abuse and the substance cannot be recovered by readily applicable means in a quantity liable to abuse, so that the preparation does not give rise to a public health and social problem, the preparation may be exempted from certain of the measures of control provided in this Convention in accordance with paragraph 3.

3. If a Party makes a finding under the preceding paragraph regarding a preparation, it may decide to exempt the preparation, in its country or in one of

its regions, from any or all of the measures of control provided in this Convention except the requirements of:

- (a) Article 8 (licences), as it applies to manufacture;
- (b) Article 11 (records), as it applies to exempt preparations;
- (c) Article 13 (prohibition of and restrictions on export and import);
- (d) Article 15 (inspection), as it applies to manufacture;
- (e) Article 16 (reports to be furnished by the Parties), as it applies to exempt preparations; and
- (f) Article 22 (penal provisions), to the extent necessary for the repression of acts contrary to laws or regulations adopted pursuant to the foregoing obligations.

A Party shall notify the Secretary-General of any such decision, of the name and composition of the exempt preparation, and of the measures of control from which it is exempted. The Secretary-General shall transmit the notification to the other Parties, to the World Health Organization and to the Board.

4. If a Party or the World Health Organization has information regarding a preparation exempted pursuant to paragraph 3 which in its opinion may require the termination, in whole or in part, of the exemption, it shall notify the Secretary-General and furnish him with the information in support of the notification. The Secretary-General shall transmit such notification, and any information which he considers relevant, to the Parties, to the Commission and, when the notification is made by a Party, to the World Health Organization. The World Health Organization shall communicate to the Commission an assessment of the preparation in relation to the matters specified in paragraph 2, together with a recommendation of the control measures, if any, from which the preparation should cease to be exempted. The Commission, taking into account the communication from the World Health Organization, whose assessment shall be determinative as to medical and scientific matters, and bearing in mind the economic, social, legal, administrative and other factors it may consider relevant, may decide to terminate the exemption of the preparation from any or all control measures. Any decision of the Commission taken pursuant to this paragraph shall be communicated by the Secretary-General to all States Members of the United Nations, to non-member States Parties to this Convention, to

the World Health Organization and to the Board. All Parties shall take measures to terminate the exemption from the control measure or measures in question within 180 days of the date of the Secretary-General's communication.

*Article 4. Other special provisions regarding
the scope of control*

(a) The carrying by international travellers of small quantities of preparations for personal use; each Party shall be entitled, however, to satisfy itself that these preparations have been lawfully obtained;

2. Each Party shall, except as provided in article 4, limit by such measures as it considers appropriate the manufacture, export, import, distribution and stocks of, trade in, and use and possession of, substances in Schedules II, III and IV to medical and scientific purposes.

3. It is desirable that the Parties do not permit the possession of substances in Schedules II, III and IV except under legal authority.

Article 6. Special administration

(f) Prohibit export and import except when both the exporter and importer are the competent authorities or agencies of the exporting and importing country or region, respectively, or other persons or enterprises which are specifically authorized by the competent authorities of their country or region for the purpose. The requirements of paragraph 1 of article 12 for export and import authorizations for substances in Schedule II shall also apply to substances in Schedule I.

Article 8. *Licences*

2. The Parties shall:

(a) Control all duly authorized persons and enterprises carrying on or engaged in the manufacture of, trade (including export and import trade) in, or distribution of substances referred to in paragraph 1;

(b) Control under licence or other similar control measure the establishments and premises in which such manufacture, trade or distribution may take place; and

(c) Provide that security measures be taken with regard to such establishments and premises in order to prevent theft or other diversion of stocks.

3. The provisions of paragraphs 1 and 2 of this article relating to licensing or other similar control measures need not apply to persons duly authorized to perform and while performing therapeutic or scientific functions.

4. The Parties shall require that all persons who obtain licences in accordance with this Convention or who are otherwise authorized pursuant to paragraph 1 of this article or sub-paragraph (b) of article 7 shall be adequately qualified for the effective and faithful execution of the provisions of such laws and regulations as are enacted in pursuance of this Convention.

Article 9. *Prescriptions*

1. The Parties shall require that substances in Schedules II, III and IV be supplied or dispensed for use by individuals pursuant to medical prescription only, except when individuals may lawfully obtain, use, dispense or administer such substances in the duly authorized exercise of therapeutic or scientific functions.

2. The Parties shall take measures to ensure that prescriptions for substances in Schedules II, III and IV are issued in accordance with sound medical

practice and subject to such regulation, particularly as to the number of times they may be refilled and the duration of their validity, as will protect the public health and welfare.

3. Notwithstanding paragraph 1, a Party may, if in its opinion local circumstances so require and under such conditions, including record-keeping, as it may prescribe, authorize licensed pharmacists or other licensed retail distributors designated by the authorities responsible for public health in its country or part thereof to supply, at their discretion and without prescription, for use for medical purposes by individuals in exceptional cases, small quantities, within limits to be defined by the Parties, of substances in Schedules III and IV.

Article 10. Warnings on packages, and advertising

1. Each Party shall require, taking into account any relevant regulations or recommendations of the World Health Organization, such directions for use, including cautions and warnings, to be indicated on the labels where practicable and in any case on the accompanying leaflet of retail packages of psychotropic substances, as in its opinion are necessary for the safety of the user.

2. Each Party shall, with due regard to its constitutional provisions, prohibit the advertisement of such substances to the general public.

Article 11. Records

1. The Parties shall require that, in respect of substances in Schedule I, manufactures and all other persons authorized under article 7 to trade in and distribute those substances keep records, as may be determined by each Party, showing details of the quantities manufactured, the quantities held in stock, and, for each acquisition and disposal, details of the quantity, date, supplier and recipient.

2. The Parties shall require that, in respect of substances in Schedules II and III, manufacturers, wholesale distributors, exporters and importers keep records, as may be determined by each Party, showing details of the quantities manufactured and, for each acquisition and disposal, details of the quantity, date, supplier and recipient.

3. The Parties shall require that, in respect of substances in Schedule II, retail distributors, institutions for hospitalization and care and scientific institutions keep records, as may be determined by each Party, showing, for each acquisition and disposal, details of the quantity, date, supplier and recipient.

4. The Parties shall ensure, through appropriate methods and taking into account the professional and trade practices in their countries, that information regarding acquisition and disposal of substances in Schedule III by retail distributors, institutions for hospitalization and care and scientific institutions is readily available.

5. The Parties shall require that, in respect of substances in Schedule IV, manufacturers, exporters and importers keep records, as may be determined by each Party, showing the quantities manufactured, exported and imported.

6. The Parties shall require manufacturers of preparations exempted under paragraph 3 of article 3 to keep records as to the quantity of each psychotropic substance used in the manufacture of an exempt preparation, and as to the nature, total quantity and initial disposal of the exempt preparation manufactured therefrom.

7. The Parties shall ensure that the records and information referred to in this article which are required for purposes of reports under article 16 shall be preserved for at least two years.

Article 12. Provisions relating to international trade

1. (a) Every Party permitting the export or import of substances in Schedule I or II shall require a separate import or export authorization, on a form to be established by the Commission, to be obtained for each such export or import whether it consists of one or more substances.

(b) Such authorization shall state the international non-proprietary name, or, lacking such a name, the designation of the substance in the Schedule, the quantity to be exported or imported, the pharmaceutical form, the name and address of the exporter and importer, and the period within which the export or import must be effected. If the substance is exported or imported in the form of a preparation, the name of the preparation, if any, shall additionally

be furnished. The export authorization shall also state the number and date of the import authorization and the authority by whom it has been issued.

(c) Before issuing an export authorization the Parties shall require an import authorization, issued by the competent authority of the importing country or region and certifying that the importation of the substance or substances referred to therein is approved, and such an authorization shall be produced by the person or establishment applying for the export authorization.

(d) A copy of the export authorization shall accompany each consignment, and the Government issuing the export authorization shall send a copy to the Government of the importing country or region.

(e) The Government of the importing country or region, when the importation has been effected, shall return the export authorization with an endorsement certifying the amount actually imported, to the Government of the exporting country or region.

2. (a) The Parties shall require that for each export of substances in Schedule III exporters shall draw up a declaration in triplicate, on a form to be established by the Commission, containing the following information:

- (i) The name and address of the exporter and importer;
- (ii) The international non-proprietary name, or, failing such a name, the designation of the substance in the Schedule;
- (iii) The quantity and pharmaceutical form in which the substance is exported, and, if in the form of a preparation, the name of the preparation, if any; and
- (iv) The date of despatch.

(b) Exporters shall furnish the competent authorities of their country or region with two copies of the declaration. They shall attach the third copy to their consignment.

(c) A Party from whose territory a substance in Schedule III has been exported shall, as soon as possible but not later than ninety days after the date of despatch, send to the competent authorities of the importing country or region, by registered mail with return of receipt requested, one copy of the declaration received from the exporter.

(d) The Parties may require that, on receipt of the consignment, the importer shall transmit the copy accompanying the consignment, duly endorsed stating the quantities received and the date of receipt, to the competent authorities of his country or region.

3. In respect of substances in Schedules I and II the following additional provisions shall apply:

(a) The Parties shall exercise in free ports and zones the same supervision and control as in other parts of their territory, provided, however, that they may apply more drastic measures.

(b) Exports of consignments to a post office box, or to a bank to the account of a person other than the person named in the export authorization, shall be prohibited.

(c) Exports to bonded warehouses of consignments of substances in Schedule I are prohibited. Exports of consignments of substances in Schedule II to a bonded warehouse are prohibited unless the Government of the importing country certifies on the import authorization, produced by the person or establishment applying for the export authorization, that it has approved the importation for the purpose of being placed in a bonded warehouse. In such case the export authorization shall certify that the consignment is exported for such purpose. Each withdrawal from the bonded warehouse shall require a permit from the authorities having jurisdiction over the warehouse and, in the case of a foreign destination, shall be treated as if it were a new export within the meaning of this Convention.

(d) Consignments entering or leaving the territory of a Party not accompanied by an export authorization shall be detained by the competent authorities.

(e) A Party shall not permit any substances consigned to another country to pass through its territory, whether or not the consignment is removed from the conveyance in which it is carried, unless a copy of the export authorization for consignment is produced to the competent authorities of such Party.

(f) The competent authorities of any country or region through which a consignment of substances is permitted to pass shall take all due measures to prevent the diversion of the consignment to a destination other than that named in the accompanying copy of the export authorization, unless the Government of the country or region through which the consignment is passing authorizes

the diversion. The Government of the country or region of transit shall treat any requested diversion as if the diversion were an export from the country or region of transit to the country or region of new destination. If the diversion is authorized, the provisions of paragraph 1 (e) shall also apply between the country or region of transit and the country or region which originally exported the consignment.

(g) No consignment of substances, while in transit or whilst being stored in a bonded warehouse, may be subjected to any process which would change the nature of the substance in question. The packing may not be altered without the permission of the competent authorities.

(h) The provisions of sub-paragraphs (e) to (g) relating to the passage of substances through the territory of a Party do not apply where the consignment in question is transported by aircraft which does not land in the country or region of transit. If the aircraft lands in any such country or region, those provisions shall be applied so far as circumstances require.

(i) The provisions of this paragraph are without prejudice to the provisions of any international agreements which limit the control which may be exercised by any of the Parties over such substances in transit.

Article 13. Prohibition of and restrictions on export and import

1. A Party may notify all the other Parties through the Secretary-General that it prohibits the import into its country or into one of its regions of one or more substances in Schedule II, III or IV, specified in its notification. Any such notification shall specify the name of the substance as designated in Schedule II, III or IV.

2. If a Party has been notified of a prohibition pursuant to paragraph 1, it shall take measures to ensure that none of the substances specified in the notification is exported to the country or one of the regions of the notifying Party.

3. Notwithstanding the provisions of the preceding paragraphs, a Party which has given notification pursuant to paragraph 1 may authorize by special import licence in each case the import of specified quantities of the substances in question or preparations containing such substances. The issuing authority of the importing country shall send two copies of the special import licence,

indicating the name and address of the importer and the exporter, to the competent authority of the exporting country or region, which may then authorize the exporter to make the shipment. One copy of the special import licence, duly endorsed by the competent authority of the exporting country or region, shall accompany the shipment.

Article 14. Special provisions concerning the carriage of psychotropic substances in first-aid kits of ships, aircraft or other forms of public transport engaged in international traffic

1. The international carriage by ships, aircraft or other forms of international public transport, such as international railway trains and motor coaches, of such limited quantities of substances in Schedule II, III or IV as may be needed during their journey or voyage for first-aid purposes or emergency cases shall not be considered to be export, import or passage through a country within the meaning of this Convention.

2. Appropriate safeguards shall be taken by the country of registry to prevent the improper use of the substances referred to in paragraph 1 or their diversion for illicit purposes. The Commission, in consultation with the appropriate international organizations, shall recommend such safeguards.

3. Substances carried by ships, aircraft or other forms of international public transport, such as international railway trains and motor coaches, in accordance with paragraph 1 shall be subject to the laws, regulations, permits and licences of the country of registry, without prejudice to any rights of the competent local authorities to carry out checks, inspections and other control measures on board these conveyances. The administration of such substances in the case of emergency shall not be considered a violation of the requirements of paragraph 1 of article 9.

Article 15. Inspection

The Parties shall maintain a system of inspection of manufacturers, exporters, importers, and wholesale and retail distributors of psychotropic substances and of medical and scientific institutions which use such substances. They shall

provide for inspections, which shall be made as frequently as they consider necessary, of the premises and of stocks and records.

Article 16. Reports to be furnished by the Parties

1. The Parties shall furnish to the Secretary-General such information as the Commission may request as being necessary for the performance of its functions, and in particular an annual report regarding the working of the Convention in their territories including information on:

(a) Important changes in their laws and regulations concerning psychotropic substances; and

(b) Significant developments in the abuse of and the illicit traffic in psychotropic substances within their territories.

2. The Parties shall also notify the Secretary-General of the names and addresses of the governmental authorities referred to in sub-paragraph (f) of article 7, in article 12 and in paragraph 3 of article 13. Such information shall be made available to all Parties by the Secretary-General.

3. The Parties shall furnish, as soon as possible after the event, a report to the Secretary-General in respect of any case of illicit traffic in psychotropic substances or seizure from such illicit traffic which they consider important because of:

(a) New trends disclosed;

(b) The quantities involved;

(c) The light thrown on the sources from which the substances are obtained; or

(d) The methods employed by illicit traffickers.

Copies of the report shall be communicated in accordance with sub-paragraph (b) of article 21.

4. The Parties shall furnish to the Board annual statistical reports in accordance with forms prepared by the Board:

(a) In regard to each substance in Schedules I and II, on quantities manufactured, exported to and imported from each country or region as well as on stocks held by manufacturers;

(b) In regard to each substance in Schedules III and IV, on quantities manufactured, as well as on total quantities exported and imported;

(c) In regard to each substance in Schedules II and III, on quantities used in the manufacture of exempt preparations; and

(d) In regard to each substance other than a substance in Schedule I, on quantities used for industrial purposes in accordance with sub-paragraph (b) of article 4.

The quantities manufactured which are referred to in sub-paragraphs (a) and (b) of this paragraph do not include the quantities of preparations manufactured.

5. A Party shall furnish the Board, on its request, with supplementary statistical information relating to future periods on the quantities of any individual substance in Schedules III and IV exported to and imported from each country or region. That Party may request that the Board treat as confidential both its request for information and the information given under this paragraph.

6. The Parties shall furnish the information referred to in paragraphs 1 and 4 in such a manner and by such dates as the Commission or the Board may request.

Article 17. Functions of the Commission

1. The Commission may consider all matters pertaining to the aims of this Convention and to the implementation of its provisions, and may make recommendations relating thereto.

2. The decisions of the Commission provided for in articles 2 and 3 shall be taken by a two-thirds majority of the members of the Commission.

Article 18. Reports of the Board

1. The Board shall prepare annual reports on its work containing an analysis of the statistical information at its disposal, and, in appropriate cases,

an account of the explanations, if any, given by or required of Governments, together with any observations and recommendations which the Board desires to make. The Board may make such additional reports as it considers necessary. The reports shall be submitted to the Council through the Commission, which may make such comments as it sees fit.

2. The reports of the Board shall be communicated to the Parties and subsequently published by the Secretary-General. The Parties shall permit their unrestricted distribution.

Article 19. Measures by the Board to ensure the execution of the provisions of the Convention

1. (a) If, on the basis of its examination of information submitted by governments to the Board or of information communicated by United Nations organs, the Board has reason to believe that the aims of this Convention are being seriously endangered by reason of the failure of a country or region to carry out the provisions of this Convention, the Board shall have the right to ask for explanations from the Government of the country or region in question. Subject to the right of the Board to call the attention of the Parties, the Council and the Commission to the matter referred to in sub-paragraph (c) below, it shall treat as confidential a request for information or an explanation by a government under this sub-paragraph.

(b) After taking action under sub-paragraph (a), the Board, if satisfied that it is necessary to do so, may call upon the Government concerned to adopt such remedial measures as shall seem under the circumstances to be necessary for the execution of the provisions of this Convention.

(c) If the Board finds that the Government concerned has failed to give satisfactory explanations when called upon to do so under sub-paragraph (a), or has failed to adopt any remedial measures which it has been called upon to take under sub-paragraph (b), it may call the attention of the Parties, the Council and the Commission to the matter.

2. The Board, when calling the attention of the Parties, the Council and the Commission to a matter in accordance with paragraph 1 (c), may, if it is satisfied that such a course is necessary, recommend to the Parties that they

stop the export, import, or both, of particular psychotropic substances, from or to the country or region concerned, either for a designated period or until the Board shall be satisfied as to the situation in that country or region. The State concerned may bring the matter before the Council.

3. The Board shall have the right to publish a report on any matter dealt with under the provisions of this article, and communicate it to the Council, which shall forward it to all Parties. If the Board publishes in this report a decision taken under this article or any information relating thereto, it shall also publish therein the views of the Government concerned if the latter so requests.

4. If in any case a decision of the Board which is published under this article is not unanimous, the views of the minority shall be stated.

5. Any State shall be invited to be represented at a meeting of the Board at which a question directly interesting it is considered under this article.

6. Decisions of the Board under this article shall be taken by a two-thirds majority of the whole number of the Board.

7. The provisions of the above paragraphs shall also apply if the Board has reason to believe that the aims of this Convention are being seriously endangered as a result of a decision taken by a Party under paragraph 7 of article 2.

Article 20. Measures against the abuse of psychotropic substances

1. The Parties shall take all practicable measures for the prevention of abuse of psychotropic substances and for the early identification, treatment, education, after-care, rehabilitation and social reintegration of the persons involved, and shall co-ordinate their efforts to these ends.

2. The Parties shall as far as possible promote the training of personnel in the treatment, after-care, rehabilitation and social reintegration of abusers of psychotropic substances.

3. The Parties shall assist persons whose work so requires to gain an understanding of the problems of abuse of psychotropic substances and of its

prevention, and shall also promote such understanding among the general public if there is a risk that abuse of such substances will become widespread.

Article 21. Action against the illicit traffic

Having due regard to their constitutional, legal and administrative systems, the Parties shall:

(a) Make arrangements at the national level for the co-ordination of preventive and repressive action against the illicit traffic; to this end they may usefully designate an appropriate agency responsible for such co-ordination;

(b) Assist each other in the campaign against the illicit traffic in psychotropic substances, and in particular immediately transmit, through the diplomatic channel or the competent authorities designated by the Parties for this purpose, to the other Parties directly concerned, a copy of any report addressed to the Secretary-General under article 16 in connexion with the discovery of a case of illicit traffic or a seizure;

(c) Co-operate closely with each other and with the competent international organizations of which they are members with a view to maintaining a co-ordinated campaign against the illicit traffic;

(d) Ensure that international co-operation between the appropriate agencies be conducted in an expeditious manner; and

(e) Ensure that, where legal papers are transmitted internationally for the purpose of judicial proceedings, the transmittal be effected in an expeditious manner to the bodies designated by the Parties; this requirement shall be without prejudice to the right of a Party to require that legal papers be sent to it through the diplomatic channel.

Article 22. Penal provisions

1. (a) Subject to its constitutional limitations, each Party shall treat as a punishable offence, when committed intentionally, any action contrary to a law or regulation adopted in pursuance of its obligations under this Convention, and shall ensure that serious offences shall be liable to adequate punishment, particularly by imprisonment or other penalty of deprivation of liberty.

(b) Notwithstanding the preceding sub-paragraph, when abusers of psychotropic substances have committed such offences, the Parties may provide, either as an alternative to conviction or punishment or in addition to punishment, that such abusers undergo measures of treatment, education, after-care, rehabilitation and social reintegration in conformity with paragraph 1 of article 20.

2. Subject to the constitutional limitations of a Party, its legal system and domestic law,

- (a) (i) If a series of related actions constituting offences under paragraph 1 has been committed in different countries, each of them shall be treated as a distinct offence;
- (ii) Intentional participation in, conspiracy to commit and attempts to commit, any of such offences, and preparatory acts and financial operations in connexion with the offences referred to in this article, shall be punishable offences as provided in paragraph 1;
- (iii) Foreign convictions for such offences shall be taken into account for the purpose of establishing recidivism; and
- (iv) Serious offences heretofore referred to committed either by nationals or by foreigners shall be prosecuted by the Party in whose territory the offence was committed, or by the Party in whose territory the offender is found if extradition is not acceptable in conformity with the law of the Party to which application is made, and if such offender has not already been prosecuted and judgement given.

(b) It is desirable that the offences referred to in paragraph 1 and paragraph 2 (a) (ii) be included as extradition crimes in any extradition treaty which has been or may hereafter be concluded between any of the Parties, and, as between any of the Parties which do not make extradition conditional on the existence of a treaty or on reciprocity, be recognized as extradition crimes; provided that extradition shall be granted in conformity with the law of the Party to which application is made, and that the Party shall have the right to refuse to effect the arrest or grant the extradition in cases where the competent authorities consider that the offence is not sufficiently serious.

3. Any psychotropic substance or other substance, as well as any equipment, used in or intended for the commission of any of the offences referred to in paragraphs 1 and 2 shall be liable to seizure and confiscation.

4. The provisions of this article shall be subject to the provisions of the domestic law of the Party concerned on questions of jurisdiction.

5. Nothing contained in this article shall affect the principle that the offences to which it refers shall be defined, prosecuted and punished in conformity with the domestic law of a Party.

Article 23. Application of stricter control measures than those required by this Convention

A Party may adopt more strict or severe measures of control than those provided by this Convention if, in its opinion, such measures are desirable or necessary for the protection of the public health and welfare.

Article 24. Expenses of international organs incurred in administering the provisions of the Convention

The expenses of the Commission and the Board in carrying out their respective functions under this Convention shall be borne by the United Nations in such manner as shall be decided by the General Assembly. The Parties which are not Members of the United Nations shall contribute to these expenses such amounts as the General Assembly finds equitable and assesses from time to time after consultation with the Governments of these Parties.

Article 25. Procedure for admission, signature, ratification and accession

1. Members of the United Nations, States not Members of the United Nations which are members of a specialized agency of the United Nations or of the International Atomic Energy Agency or Parties to the Statute of the

International Court of Justice, and any other State invited by the Council, may become Parties to this Convention:

- (a) By signing it; or
- (b) By ratifying it after signing it subject to ratification; or
- (c) By acceding to it.

2. The Convention shall be open for signature until 1 January 1972 inclusive. Thereafter it shall be open for accession.

3. Instruments of ratification or accession shall be deposited with the Secretary-General.

Article 26. Entry into force

1. The Convention shall come into force on the ninetieth day after forty of the States referred to in paragraph 1 of article 25 have signed it without reservation of ratification or have deposited their instruments of ratification or accession.

2. For any other State signing without reservation of ratification, or depositing an instrument of ratification or accession after the last signature or deposit referred to in the preceding paragraph, the Convention shall enter into force on the ninetieth day following the date of its signature or deposit of its instrument of ratification or accession.

Article 27. Territorial application

The Convention shall apply to all non-metropolitan territories for the international relations of which any Party is responsible except where the previous consent of such a territory is required by the Constitution of the Party or of the territory concerned, or required by custom. In such a case the Party shall endeavour to secure the needed consent of the territory within the shortest period possible, and when the consent is obtained the Party shall notify the Secretary-General. The Convention shall apply to the territory or territories named in such a notification from the date of its receipt by the Secretary-General.

In those cases where the previous consent of the non-metropolitan territory is not required, the Party concerned shall, at the time of signature, ratification or accession, declare the non-metropolitan territory or territories to which this Convention applies.

*Article 28. Regions for the purposes
of this Convention*

1. Any Party may notify the Secretary-General that, for the purposes of this Convention, its territory is divided into two or more regions, or that two or more of its regions are consolidated into a single region.

2. Two or more Parties may notify the Secretary-General that, as the result of the establishment of a customs union between them, those Parties constitute a region for the purposes of this Convention.

3. Any notification under paragraph 1 or 2 shall take effect on 1 January of the year following the year in which the notification was made.

Article 29. Denunciation

1. After the expiry of two years from the date of the coming into force of this Convention any Party may, on its own behalf or on behalf of a territory for which it has international responsibility, and which has withdrawn its consent given in accordance with article 27, denounce this Convention by an instrument in writing deposited with the Secretary-General.

2. The denunciation, if received by the Secretary-General on or before the first day of July of any year, shall take effect on the first day of January of the succeeding year, and if received after the first day of July it shall take effect as if it had been received on or before the first day of July in the succeeding year.

3. The Convention shall be terminated if, as a result of denunciations made in accordance with paragraphs 1 and 2, the conditions for its coming into force as laid down in paragraph 1 of article 26 cease to exist.

Article 30. Amendments

1. Any Party may propose an amendment to this Convention. The text of any such amendment and the reasons therefor shall be communicated to the Secretary-General, who shall communicate them to the Parties and to the Council. The Council may decide either:

(a) That a conference shall be called in accordance with paragraph 4 of Article 62 of the Charter of the United Nations to consider the proposed amendment; or

(b) That the Parties shall be asked whether they accept the proposed amendment and also asked to submit to the Council any comments on the proposal.

2. If a proposed amendment circulated under paragraph 1 (b) has not been rejected by any Party within eighteen months after it has been circulated, it shall thereupon enter into force. If, however, a proposed amendment is rejected by any Party, the Council may decide, in the light of comments received from Parties, whether a conference shall be called to consider such amendment.

Article 31. Disputes

1. If there should arise between two or more Parties a dispute relating to the interpretation or application of this Convention, the said Parties shall consult together with a view to the settlement of the dispute by negotiation, investigation, mediation, conciliation, arbitration, recourse to regional bodies, judicial process or other peaceful means of their own choice.

2. Any such dispute which cannot be settled in the manner prescribed shall be referred, at the request of any one of the parties to the dispute, to the International Court of Justice for decision.

Article 32. Reservations

1. No reservation other than those made in accordance with paragraphs 2, 3 and 4 of the present article shall be permitted.

2. Any State may at the time of signature, ratification or accession make reservations in respect of the following provisions of the present Convention:

- (a) Article 19, paragraphs 1 and 2;
- (b) Article 27; and
- (c) Article 31.

3. A State which desires to become a Party but wishes to be authorized to make reservations other than those made in accordance with paragraphs 2 and 4 may inform the Secretary-General of such intention. Unless by the end of twelve months after the date of the Secretary-General's communication of the reservation concerned, this reservation has been objected to by one third of the States that have signed without reservation of ratification, ratified or acceded to this Convention before the end of that period, it shall be deemed to be permitted, it being understood, however, that States which have objected to the reservation need not assume towards the reserving State any legal obligation under this Convention which is affected by the reservation.

4. A State on whose territory there are plants growing wild which contain psychotropic substances from among those in Schedule I and which are traditionally used by certain small, clearly determined groups in magical or religious rites, may, at the time of signature, ratification or accession, make reservations concerning these plants, in respect of the provisions of article 7, except for the provisions relating to international trade.

5. A State which has made reservations may at any time by notification in writing to the Secretary-General withdraw all or part of its reservations.

Part Three

**UNITED NATIONS CONVENTION
AGAINST ILLICIT TRAFFIC IN NARCOTIC DRUGS
AND PSYCHOTROPIC SUBSTANCES OF 1988**

United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances

The Parties to this Convention,

Deeply concerned by the magnitude of and rising trend in the illicit production of, demand for and traffic in narcotic drugs and psychotropic substances, which pose a serious threat to the health and welfare of human beings and adversely affect the economic, cultural and political foundations of society,

Deeply concerned also by the steadily increasing inroads into various social groups made by illicit traffic in narcotic drugs and psychotropic substances, and particularly by the fact that children are used in many parts of the world as an illicit drug consumers market and for purposes of illicit production, distribution and trade in narcotic drugs and psychotropic substances, which entails a danger of incalculable gravity,

Recognizing the links between illicit traffic and other related organized criminal activities which undermine the legitimate economies and threaten the stability, security and sovereignty of States,

Recognizing also that illicit traffic is an international criminal activity, the suppression of which demands urgent attention and the highest priority,

Aware that illicit traffic generates large financial profits and wealth enabling transnational criminal organizations to penetrate, contaminate and corrupt the structures of government, legitimate commercial and financial business, and society at all its levels,

Determined to deprive persons engaged in illicit traffic of the proceeds of their criminal activities and thereby eliminate their main incentive for so doing,

Desiring to eliminate the root causes of the problem of abuse of narcotic drugs and psychotropic substances, including the illicit demand for such drugs and substances and the enormous profits derived from illicit traffic,

Considering that measures are necessary to monitor certain substances, including precursors, chemicals and solvents, which are used in the manufacture of narcotic drugs and psychotropic substances, the ready availability of which has led to an increase in the clandestine manufacture of such drugs and substances,

Determined to improve international co-operation in the suppression of illicit traffic by sea,

Recognizing that eradication of illicit traffic is a collective responsibility of all States and that, to that end, co-ordinated action within the framework of international co-operation is necessary,

Acknowledging the competence of the United Nations in the field of control of narcotic drugs and psychotropic substances and desirous that the international organs concerned with such control should be within the framework of that Organization,

Reaffirming the guiding principles of existing treaties in the field of narcotic drugs and psychotropic substances and the system of control which they embody,

Recognizing the need to reinforce and supplement the measures provided in the Single Convention on Narcotic Drugs, 1961, that Convention as amended by the 1972 Protocol Amending the Single Convention on Narcotic Drugs, 1961, and the 1971 Convention on Psychotropic Substances, in order to counter the magnitude and extent of illicit traffic and its grave consequences,

Recognizing also the importance of strengthening and enhancing effective legal means for international co-operation in criminal matters for suppressing the international criminal activities of illicit traffic,

Desiring to conclude a comprehensive, effective and operative international convention that is directed specifically against illicit traffic and that considers the various aspects of the problem as a whole, in particular those aspects not envisaged in the existing treaties in the field of narcotic drugs and psychotropic substances,

Hereby agree as follows:

The Parties shall communicate their comments concerning the notification to the Secretary-General,

together with all supplementary information which may assist the Board in establishing an assessment and the Commission in reaching a decision.

4. If the Board, taking into account the extent, importance and diversity of the licit use of the substance, and the possibility and ease of using alternate substances both for licit purposes and for the illicit manufacture of narcotic drugs or psychotropic substances, finds:

(a) That the substance is frequently used in the illicit manufacture of a narcotic drug or psychotropic substance;

(b) That the volume and extent of the illicit manufacture of a narcotic drug or psychotropic substance creates serious public health or social problems, so as to warrant international action,

it shall communicate to the Commission an assessment of the substance, including the likely effect of adding the substance to either Table I or Table II on both licit use and illicit manufacture, together with recommendations of monitoring measures, if any, that would be appropriate in the light of its assessment.

5. The Commission, taking into account the comments submitted by the Parties and the comments and recommendations of the Board, whose assessment shall be determinative as to scientific matters, and also taking into due consideration any other relevant factors, may decide by a two-thirds majority of its members to place a substance in Table I or Table II.

6. Any decision of the Commission taken pursuant to this article shall be communicated by the Secretary-General to all States and other entities which are, or which are entitled to become, Parties to this Convention, and to the Board. Such decision shall become fully effective with respect to each Party one hundred and eighty days after the date of such communication.

7. (a) The decisions of the Commission taken under this article shall be subject to review by the Council upon the request of any Party filed within one hundred and eighty days after the date of notification of the decision. The request for review shall be sent to the Secretary-General, together with all relevant information upon which the request for review is based.

(b) The Secretary-General shall transmit copies of the request for review and the relevant information to the Commission, to the Board and to all the Parties, inviting them to submit their comments within ninety days. All comments received shall be submitted to the Council for consideration.

(c) The Council may confirm or reverse the decision of the Commission. Notification of the Council's decision shall be transmitted to all States and other entities which are, or which are entitled to become, Parties to this Convention, to the Commission and to the Board.

8. (a) Without prejudice to the generality of the provisions contained in paragraph 1 of this article and the provisions of the 1961 Convention, the 1961 Convention as amended and the 1971 Convention, the Parties shall take the measures they deem appropriate to monitor the manufacture and distribution of substances in Table I and Table II which are carried out within their territory.

(b) To this end, the Parties may:

- (i) Control all persons and enterprises engaged in the manufacture and distribution of such substances;
- (ii) Control under licence the establishment and premises in which such manufacture or distribution may take place;
- (iii) Require that licensees obtain a permit for conducting the afore-said operations;
- (iv) Prevent the accumulation of such substances in the possession of manufacturers and distributors, in excess of the quantities required for the normal conduct of business and the prevailing market conditions.

9. Each Party shall, with respect to substances in Table I and Table II, take the following measures:

(a) Establish and maintain a system to monitor international trade in substances in Table I and Table II in order to facilitate the identification of suspicious transactions. Such monitoring systems shall be applied in close co-operation with manufacturers, importers, exporters, wholesalers and retailers, who shall inform the competent authorities of suspicious orders and transactions.

(b) Provide for the seizure of any substance in Table I or Table II if there is sufficient evidence that it is for use in the illicit manufacture of a narcotic drug or psychotropic substance.

(c) Notify, as soon as possible, the competent authorities and services of the Parties concerned if there is reason to believe that the import, export or transit of a substance in Table I or Table II is destined for the illicit manufacture of narcotic drugs or psychotropic substances, including in particular information about the means of payment and any other essential elements which led to that belief.

(d) Require that imports and exports be properly labelled and documented. Commercial documents such as invoices, cargo manifests, customs, transport and other shipping documents shall include the names, as stated in Table I or Table II, of the substances being imported or exported, the quantity being imported or exported, and the name and address of the exporter, the importer and, when available, the consignee.

(e) Ensure that documents referred to in subparagraph (d) of this paragraph are maintained for a period of not less than two years and may be made available for inspection by the competent authorities.

10. (a) In addition to the provisions of paragraph 9, and upon request to the Secretary-General by the interested Party, each Party from whose territory a substance in Table I is to be exported shall ensure that, prior to such export, the following information is supplied by its competent authorities to the competent authorities of the importing country:

- (i) Name and address of the exporter and importer and, when available, the consignee;
- (ii) Name of the substance in Table I;
- (iii) Quantity of the substance to be exported;
- (iv) Expected point of entry and expected date of dispatch;
- (v) Any other information which is mutually agreed upon by the Parties.

(b) A Party may adopt more strict or severe measures of control than those provided by this paragraph if, in its opinion, such measures are desirable or necessary.

11. Where a Party furnishes information to another Party in accordance with paragraphs 9 and 10 of this article, the Party furnishing such information may require that the Party receiving it keep confidential any trade, business, commercial or professional secret or trade process.

12. Each Party shall furnish annually to the Board, in the form and manner provided for by it and on forms made available by it, information on:

(a) The amounts seized of substances in Table I and Table II and, when known, their origin;

(b) Any substance not included in Table I or Table II which is identified as having been used in illicit manufacture of narcotic drugs or psychotropic substances, and which is deemed by the Party to be sufficiently significant to be brought to the attention of the Board;

(c) Methods of diversion and illicit manufacture.

13. The Board shall report annually to the Commission on the implementation of this article and the Commission shall periodically review the adequacy and propriety of Table I and Table II.

14. The provisions of this article shall not apply to pharmaceutical preparations, nor to other preparations containing substances in Table I or Table II that are compounded in such a way that such substances cannot be easily used or recovered by readily applicable means.

Article 13. Materials and equipment

The Parties shall take such measures as they deem appropriate to prevent trade in and the diversion of materials and equipment for illicit production or manufacture of narcotic drugs and psychotropic substances and shall co-operate to this end.

Article 14. Measures to eradicate illicit cultivation of narcotic plants and to eliminate illicit demand for narcotic drugs and psychotropic substances

1. Any measures taken pursuant to this Convention by Parties shall not be less stringent than the provisions applicable to the eradication of illicit cultivation of plants containing narcotic and psychotropic substances and to the elimination of illicit demand for narcotic drugs and psychotropic substances under the provisions of the 1961 Convention, the 1961 Convention as amended and the 1971 Convention.

2. Each Party shall take appropriate measures to prevent illicit cultivation of and to eradicate plants containing narcotic or psychotropic substances, such as opium poppy, coca bush and cannabis plants, cultivated illicitly in its territory. The measures adopted shall respect fundamental human rights and shall take due account of traditional licit uses, where there is historic evidence of such use, as well as the protection of the environment.

3. (a) The Parties may co-operate to increase the effectiveness of eradication efforts. Such co-operation may, *inter alia*, include support, when appropriate, for integrated rural development leading to economically viable alternatives to illicit cultivation. Factors such as access to markets, the availability of resources and prevailing socio-economic conditions should be taken into account before such rural development programmes are implemented. The Parties may agree on any other appropriate measures of co-operation.

(b) The Parties shall also facilitate the exchange of scientific and technical information and the conduct of research concerning eradication.

(c) Whenever they have common frontiers, the Parties shall seek to co-operate in eradication programmes in their respective areas along those frontiers.

4. The Parties shall adopt appropriate measures aimed at eliminating or reducing illicit demand for narcotic drugs and psychotropic substances, with a view to reducing human suffering and eliminating financial incentives for illicit traffic. These measures may be based, *inter alia*, on the recommendations of the United Nations, specialized agencies of the United Nations such as the World Health Organization, and other competent international organizations, and on the Comprehensive Multidisciplinary Outline adopted by the International Conference on Drug Abuse and Illicit Trafficking, held in 1987, as it pertains to governmental and non-governmental agencies and private efforts in the fields of prevention, treatment and rehabilitation. The Parties may enter into bilateral or multilateral agreements or arrangements aimed at eliminating or reducing illicit demand for narcotic drugs and psychotropic substances.

5. The Parties may also take necessary measures for early destruction or lawful disposal of the narcotic drugs, psychotropic substances and substances in Table I and Table II which have been seized or confiscated and for the admissibility as evidence of duly certified necessary quantities of such substances.

Article 15. Commercial carriers

1. The Parties shall take appropriate measures to ensure that means of transport operated by commercial carriers are not used in the commission of offences established in accordance with article 3, paragraph 1; such measures may include special arrangements with commercial carriers.

2. Each Party shall require commercial carriers to take reasonable precautions to prevent the use of their means of transport for the commission of offences established in accordance with article 3, paragraph 1. Such precautions may include:

(a) If the principal place of business of a commercial carrier is within the territory of the Party:

- (i) Training of personnel to identify suspicious consignments or persons;
- (ii) Promotion of integrity of personnel;

(b) If a commercial carrier is operating within the territory of the Party:

Article 16. Commercial documents and labelling of exports

1. Each Party shall require that lawful exports of narcotic drugs and psychotropic substances be properly documented. In addition to the requirements for documentation under article 31 of the 1961 Convention, article 31

of the 1961 Convention as amended and article 12 of the 1971 Convention, commercial documents such as invoices, cargo manifests, customs, transport and other shipping documents shall include the names of the narcotic drugs and psychotropic substances being exported as set out in the respective Schedules of the 1961 Convention, the 1961 Convention as amended and the 1971 Convention, the quantity being exported, and the name and address of the exporter, the importer and, when available, the consignee.

1. The Parties shall co-operate to the fullest extent possible to suppress illicit traffic by sea, in conformity with the international law of the sea.

2. A Party which has reasonable grounds to suspect that a vessel flying its flag or not displaying a flag or marks of registry is engaged in illicit traffic may request the assistance of other Parties in suppressing its use for that purpose. The Parties so requested shall render such assistance within the means available to them.

3. A Party which has reasonable grounds to suspect that a vessel exercising freedom of navigation in accordance with international law, and flying the flag or displaying marks of registry of another Party is engaged in illicit traffic may so notify the flag State, request confirmation of registry and, if confirmed, request authorization from the flag State to take appropriate measures in regard to that vessel.

4. In accordance with paragraph 3 or in accordance with treaties in force between them or in accordance with any agreement or arrangement otherwise reached between those Parties, the flag State may authorize the requesting State to, *inter alia*:

- (a) Board the vessel;
- (b) Search the vessel;
- (c) If evidence of involvement in illicit traffic is found, take appropriate action with respect to the vessel, persons and cargo on board.

5. Where action is taken pursuant to this article, the Parties concerned shall take due account of the need not to endanger the safety of life at sea, the security of the vessel and the cargo or to prejudice the commercial and legal interests of the flag State or any other interested State.

6. The flag State may, consistent with its obligations in paragraph 1 of this article, subject its authorization to conditions to be mutually agreed between it and the requesting Party, including conditions relating to responsibility.

7. For the purposes of paragraphs 3 and 4 of this article, a Party shall respond expeditiously to a request from another Party to determine whether a vessel that is flying its flag is entitled to do so, and to requests for authorization made pursuant to paragraph 3. At the time of becoming a Party to this Convention, each Party shall designate an authority or, when necessary, authorities to receive and respond to such requests. Such designation shall be notified through the Secretary-General to all other Parties within one month of the designation.

(a) The text of laws and regulations promulgated in order to give effect to the Convention;

(b) Particulars of cases of illicit traffic within their jurisdiction which they consider important because of new trends disclosed, the quantities involved, the sources from which the substances are obtained, or the methods employed by persons so engaged.

- (ii) Prior to taking action under (iii) below, the Board shall treat as confidential its communications with the Party concerned under the preceding subparagraphs;
