Letters of transmittal

31 March 2006

I have the honour to transmit the financial report and accounts of the United Nations Environment Programme, including associated trust funds and other related accounts for the biennium ended 31 December 2005, which I hereby approve. The financial statements have been completed and certified as correct by the Chief Finance Officer.

Copies of these statements are made available to both the Advisory Committee on Administrative and Budgetary Questions and the Board of Auditors.

> (Signed) Klaus **Töpfer** Executive Director United Nations Environment Programme

The Chairman of the Board of Auditors United Nations New York

28 July 2006

I have the honour to transmit to you the report of the Board of Auditors on the financial statements of the United Nations Environment Programme for the biennium ended 31 December 2005.

> (Signed) Guillermo **Carague** Chairman, Philippine Commission on Audit and Chairman United Nations Board of Auditors

The President of the General Assembly of the United Nations New York

Chapter I Financial report for the biennium ended 31 December 2005

Introduction

1. The Executive Director has the honour to submit herewith the financial report, together with the accounts of the Fund of the United Nations Environment Programme, including associated trust funds and the related accounts for the biennium ended 31 December 2005. The accounts consist of 14 statements supported by six schedules and notes to the financial statements. These accounts were transmitted to the Board of Auditors on 31 March 2006.

2. As prescribed by financial regulation 1.2 of the United Nations the financial period of the organization consists of two consecutive calendar years, the first one being an even year. The interim accounts for the first year, ended 31 December 2004 of the biennium 2004-2005 were made available to the Governing Council at its twenty-third session. The Board of Auditors conducted an interim audit on these accounts and did not report to the Advisory Committee on Administrative and Budgetary Questions any situations which should be brought to the attention of Member States.

3. Comparative figures for the biennium 2002-2003, as appropriate, have been reflected in the financial statements. The length of the financial report has been kept to the minimum in accordance with the United Nations guidelines.

4. The financial statements and schedules, as well as the notes thereon, are an integral part of the financial report.

Levels of appropriations, allocations/allotments, expenditures and commitments

5. The Governing Council, in its decision 22/20 of 7 February 2003, approved appropriations for the Environment Fund for the biennium 2004-2005 of \$110 million for the programme, \$5 million for the programme reserve and \$15 million for the biennial support budget.

6. Total appropriation, allocations/allotments and expenditures for the biennium ended 31 December 2005 were as follows (in thousands of United States dollars):

		ocations issued		Unexpended	
	Appropriations for 2004-2005	for 2004-2005	Expenditures a for 2004-2005	ppropriations for 2004-2005	allocations for 2004-2005
Fund programme	110 000	110 000	109 213	787	787
Fund programme reserve	5 000	5 000	3 833	1 167	1 167
Support budget	15 000	15 000	13 259	1 741	1 741
Total	130 000	130 000	126 305	3 695	3 695

Chapter II Report of the Board of Auditors

Summary

The Board of Auditors has reviewed the operations of the Fund of the United Nations Environment Programme (UNEP) at its headquarters in Nairobi and its six regional offices. The Board has also audited the financial statements of the Fund of UNEP for the biennium ended 31 December 2005.

The Board issued an unqualified opinion on the financial statements for the Fund of UNEP for the biennium ended 31 December 2005, as reflected in chapter III.

Implementation of previous recommendations

As requested by the Advisory Committee on Administrative and Budgetary Questions (see A/59/736), the Board evaluated the ageing of its previous recommendations that had not yet been fully implemented and has indicated the financial period in which such recommendations were first made in the annex to the present chapter. Of a total of 13 recommendations, nine (69 per cent) had been implemented, while four (31 per cent) were under implementation. The four recommendations not yet fully implemented related to the biennium 2002-2003.

Financial overview for the biennium ended 31 December 2005

Total income for the Environment Fund was registered at \$121.2 million, \$5 million short of the expenditures recorded of \$126.3 million. This was, however, an improvement over the previous biennium's shortfall of \$11.2 million. The general trust funds also showed a marked improvement: its shortfall of income over expenditure went down from \$8.6 million during the biennium 2002-2003 to \$2.1 million during the biennium 2004-2005 as a result of an increase in income from \$93.2 million in the biennium 2002-2003 to \$126.3 million in the biennium 2004-2005.

The Technical Cooperation Trust Funds registered an excess of income over expenditure amounting to \$1.6 million, largely brought about by an increase in voluntary contributions from \$163.5 million in the biennium 2002-2003 to \$184.1 million in the biennium 2004-2005. For the Multilateral Fund for the Implementation of the Montreal Protocol on Substances that Deplete the Ozone Layer, income fell by \$20 million, from \$314 million in the biennium 2002-2003 to \$294 million in the biennium 2004-2005, which explained its insufficiency to cover increases in the United Nations Environment Programme staff costs and other expenses.

Unliquidated obligations

Unliquidated obligations that remained outstanding as at 31 December 2005 included those obligations, aggregating to \$615,000, which were without formal contracts or agreements. This was not consistent with rule 105.9 of the Financial Regulations and Rules of the United Nations and the United Nations System Accounting Standards. At the UNEP Regional Office for Latin America and the Caribbean, payments amounting to \$104,949 were not captured by the Integrated

Accounting and Budgeting System, such that unliquidated obligation balances were not updated accordingly.

Voluntary contributions receivable (Multilateral Fund)

Voluntary contributions receivable relative to the Multilateral Fund amounting to \$82 million have been outstanding for more than five years (pledges made between 1992 and 1999). The Meeting of the Parties to the Montreal Protocol has yet to act on writing off this amount. Also, of the unpaid voluntary pledges receivable, amounting to \$160.6 million as at 31 December 2003, only \$10.6 million, 7 per cent, was collected. This, if not addressed, could hamper the implementation of programmes and projects.

Travel

Obligations raised at UNEP headquarters with regard to travel requests in 2005 amounting to \$125,977 remained unliquidated as at 31 December 2005, although the travel periods had already elapsed. Delays in the submission of travel claims ranged from 21 to 353 days. The Board also observed that at the UNEP Regional Office for Europe, travel advances had been made that exceeded 100 per cent of the estimated travel subsistence allowance, contrary to section 9.1 of administrative instruction ST/AI/2000/20.

Presentation and disclosure of financial statements (Multilateral Fund)

The Board observed that out of expenditures amounting to \$302.4 million incurred by the Multilateral Fund's implementing partners (the World Bank, the United Nations Industrial Development Organization (UNIDO) and the United Nations Development Programme (UNDP)) included in the financial statements of the Multilateral Fund, \$154.5 million were still subject to the audit of the respective external auditors. The Board has seen the need for the Administration to ensure that a reconciliation of the recorded figures is made as soon as the audited financial statements are available.

Financial and management control

The Board is concerned that at UNEP headquarters, six trust funds showed negative allotment balances as at 31 December 2005 aggregating to \$170,232. The approved allotments, therefore, did not serve their purpose as an expenditure control measure, since obligations were still approved despite being beyond the allotment ceiling. At the UNEP Regional Office for Latin America and the Caribbean the Board observed that the system for monitoring financial implementation of the Global Environmental Citizenship project and the Ozone Action Programme could be enhanced. UNEP headquarters could provide allotment information to the UNEP Regional Office for Latin America and allow programme coordinators to have access to project cards to monitor allotments.

Cash management

At the UNEP Regional Office for Latin America and the Caribbean, delays of between 3 and 60 days were noted in the issuance of official receipts on collections, contrary to rule 103.8 of the Financial Regulations and Rules of the United Nations, which prescribed a period of two business days. Such delays contributed to the risk of funds being misappropriated. Both at the UNEP Regional Office for Latin America and the Caribbean and the UNEP Regional Office for West Asia, staff were allowed to collect and remit funds without the benefit of formal designation as required under rule 103.8 (b) of the United Nations Financial Regulations and Rules.

Non-expendable property

Non-expendable property costing \$11,218,093 disclosed in the notes to the financial statements differed from the aggregate balance of \$1,204,640 in the inventory report. This significant variation was due to the financial statement value being based on acquisition costs, while the inventory report was based on fair market value determined by a contractor hired to conduct a physical inventory.

Other deviations from existing regulations and rules included non-submission of physical inventory reports by out-posted projects and regional offices, failure to assign value to some inventory items, non-issuance of personal property receipts to accompany the issuance of movable/portable items, lack of bar coding of some items, and non-inclusion of some existing items in the inventory count sheet.

Consultancy services

Among other findings, the Board observed that at UNEP headquarters, the UNEP Regional Office for Africa and the UNEP Regional Office for Europe, some consultants were allowed to commence work prior to the approval of their contracts; the terms of reference did not contain the essential information on the expected delivery dates and the manner in which outputs would be delivered; there was an absence of performance indicators and a lack of properly documented evaluation of the performance of consultants.

Human resources

Gender distribution

As at 31 December 2005, of the 502 occupied posts in Professional and higher categories at UNEP headquarters, 312 were occupied by men and 190 by women, a ratio of 62:38, which was below the goal of 50/50 parity between men and women in the United Nations. The Board also noted that men dominated with regard to all initial appointments and all promotions during the biennium 2004-2005, at ratios of 60:40 and 71:29, respectively.

The Board observed that, on average, women comprised only 28 per cent of applicants for Professional posts up to the P-5 level and only 16 per cent of applicants for posts at the level of Director and above.

Inactive trust funds

The Board noted that 18 inactive trust funds with total reserves and fund balances of \$0.879 million had not been closed as at 31 December 2005. Except for one fund, these trust funds had not shown any movement during the biennium 2004-2005 other than transactions pertaining to investments and related accounts.

Programme management

The Board noted that of the four projects that required approval by the Project Approval Group, three had commenced operation prior to their approval dates. Similarly, of the 10 projects that required approval by the Budget and Financial Management Service, four had been implemented before being approved.

Accordingly, there was a risk that resources that had been committed and incurred could become irrelevant should the approving authority decide to alter a project or shelve it altogether.

Recommendations

The Board made several recommendations based on its audit observations. A summary of the main recommendations of the Board is set out in chapter II, paragraph 10, of the report.

A. Introduction

1. The Board of Auditors has audited the financial statements and reviewed the operations of the United Nations Environment Programme (UNEP) for the period from 1 January 2004 to 31 December 2005, in accordance with General Assembly resolution 74 (I) of 7 December 1946 and article XIV of the Financial Rules of UNEP. The audit has been conducted in conformity with article VII of the Financial Regulations and Rules of the United Nations and the annex thereto, the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and the International Standards on Auditing. Those standards require that the Board plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement.

2. The audit was conducted primarily to enable the Board to form an opinion as to whether the expenditures recorded in the financial statements for the period from 1 January 2004 to 31 December 2005 had been incurred for the purposes approved by the General Assembly; whether income and expenditures had been properly classified and recorded in accordance with the Financial Regulations and Rules; and whether the financial statements of UNEP presented fairly the financial position as at 31 December 2005 and the results of its operations for the biennium then ended, in accordance with the United Nations System Accounting Standards. The audit included a general review of financial systems and internal controls and a test examination of the accounting records and other supporting evidence to the extent the Board considered necessary to form an opinion on the financial statements.

3. In addition to the audit of the accounts and financial transactions, the Board carried out reviews under United Nations financial regulation 7.5. The reviews addressed the efficiency of the internal financial controls, programme management and, in general, the administration and management of UNEP. The audit was carried out at UNEP headquarters in Nairobi and at the six regional offices, for Europe, Asia and the Pacific, Latin America and the Caribbean, West Asia, Africa and North America.

4. The Board continued its practice of reporting the results of specific audits to the Administration through management letters containing observations and recommendations. The practice allowed an ongoing dialogue with the Administration.

5. The present report covers matters which, in the opinion of the Board, should be brought to the attention of the General Assembly. The Board's observations and conclusions were discussed with the Administration, whose views have been appropriately reflected in the report.

6. A summary of the Board's main recommendations is provided in paragraph 10 below. The detailed findings and recommendations are reported in paragraphs 12 to 125.

1. Previous recommendations not fully implemented

Biennium ended 31 December 2003

7. In accordance with General Assembly resolutions 52/212 B of 31 March 1998 and 58/249 A of 23 December 2003, the Board reviewed measures taken by the Administration to implement the recommendations made in its report for the biennium ended 31 December 2003. Details of the action taken and the comments of the Board are included in the present report and have been summarized in the annex to the present chapter. The Board noted that out of a total of 13 recommendations, nine (69 per cent) had been implemented, while four (31 per cent) were under implementation. Those four recommendations are reiterated in the present report.

Ageing of previous recommendations

8. As requested by the Advisory Committee on Administrative and Budgetary Questions, the Board evaluated the ageing of its previous recommendations that had not yet been fully implemented. The financial period in which such recommendations were first made is indicated in the annex to the present chapter.

9. The four recommendations (31 per cent) not yet fully implemented relate to the biennium 2002-2003. The Board's further comments on these outstanding recommendations are provided in paragraphs 2 to 25, 30 to 37, 72 to 75 and 76 to 81 of the present report.

2. Main recommendations

10. The Board's main recommendations are that the Administration:

Unliquidated obligations

(a) Review obligations consistent with rule 105.9 of the Financial Regulations and Rules of the United Nations and the United Nations System Accounting Standards (para. 21 below);

Voluntary contributions receivable (Multilateral Fund)

(b) Continuously pursue its effort to collect long-outstanding voluntary contributions receivable from contributing countries, and bring to the attention of the Conference of the Parties the need to write off long-outstanding receivable (para. 29 below);

Travel

(c) Strictly enforce the submission of travel claims within two calendar weeks after completion of travel and recover travel advances through payroll deductions in cases of failure to liquidate them within the prescribed period; and limit travel cash advances to the amount prescribed in administrative instruction ST/AI/2000/20 (para. 35 below);

Presentation and disclosure of financial statements (Multilateral Fund)

(d) Ensure that reconciliation of the recorded figures is made as soon as the audited financial statements are available and process necessary adjustments accordingly (para. 42 below);

Financial management and control

(e) Require certifying officers to ensure that project expenditures are kept within the approved budgets/allotment ceilings (para. 46 below);

(f) Require the UNEP Regional Office for Latin America and the Caribbean to coordinate closely with UNEP headquarters with a view to providing project coordinators with adequate budgetary control (para. 55 below);

Cash management

(g) Require the Finance Assistant to issue official receipts, in line with rule 103.8 (a) of the United Nations Financial Regulations and Rules (para. 61 below);

(h) Issue official receipts in strict numerical sequence to ensure that all collections are completely recorded and properly accounted for during the period in which they were actually collected; and secure an official authorization for the General Service Clerk as collecting officer in accordance with rule 103.8 of the United Nations Financial Regulations and Rules (para. 64 below);

Non-expendable property

(i) Comply with note 2 (l) (ii) of the Notes to the financial statements in relation to paragraph 50 of the United Nations System Accounting Standards; and administrative instructions on the management of non-expendable property (para. 87 below);

Consultancy services

(j) Comply strictly with administrative instructions on hiring, remunerating and evaluating the performance of consultants and individual contractors; and reprogramme the Integrated Accounting and Budgeting System to address the requirement concerning the form of the contract (para. 92 below);

Gender distribution

(k) Pursue initiatives to achieve the General Assembly's goal of a 50/50 gender balance (para. 110 below);

Inactive trust funds

(1) Expedite the closure of inactive trust funds in accordance with the terms of the trust fund agreements and pertinent Governing Council decisions (para. 113 below);

Programme management

(m) Ensure that projects are approved by the Project Approval Group or the Budget and Financial Management Service, as the case may be, prior to implementation (para. 115 below).

11. The Board's other recommendations are presented in paragraphs 24, 37, 50, 58, 71, 97, 101, 105, 120, 123, 126, 133 and 136 below.

B. Detailed findings and recommendations

1. Financial overview

12. The financial statements of UNEP cover the major funds — the Environment Fund, general trust funds, the Multilateral Fund for the Implementation of the Montreal Protocol on Substances that Deplete the Ozone Layer, Technical Cooperation Trust Funds and other trust funds. Table 1 below shows the key financial figures for the bienniums 2002-2003 and 2004-2005.

^a Comparative figures for the biennium ended 31 December 2003 have been restated to reflect the movement of the Senior Professional Officers trust funds from the UNEP Technical Cooperation Trust Funds to the Professional Officers' statement (note 9 to the financial statements).

13. In terms of the results of operations for the biennium 2004-2005, the Environment Fund reported a total income of \$121.2 million against expenditures of \$126.3 million, showing a net shortfall of \$5 million (4 per cent), as compared with a net shortfall of income over expenditures of \$11.2 million in the biennium 2002-2003. Voluntary contributions increased from \$95.9 million in the biennium 2002-2003 to \$118.5 million in the biennium 2004-2005 (24 per cent).

14. The general trust funds showed a shortfall of income relative to expenditure of \$2.1 million for the biennium 2004-2005, compared to a net shortfall of \$8.60 million for 2002-2003. This was brought about by an increase in total income

from \$93.2 million in the biennium 2002-2003 to \$126.3 million in the biennium 2004-2005 (36 per cent) and an increase in expenditures of \$26.6 million (26 per cent) in the biennium 2004-2005 over the expenditures of \$101.8 million in the biennium 2002-2003.

15. The total income reported in the biennium 2004-2005 under the Technical Cooperation Trust Funds increased to \$187.6 million, from \$168.8 million in the previous biennium. This included an increase of \$20.6 million (12.6 per cent) in voluntary contributions, from \$163.5 million in the biennium 2002-2003 to \$184.1 million in the biennium 2004-2005. As in the previous biennium, the reported income for the biennium 2004-2005 sufficiently covered the expenditures, with an excess of income over expenditures amounting to \$1.6 million.

16. The increase in income for the UNEP all funds summary was sufficient to cope with increased expenditures for the biennium 2004-2005. The increase in expenditures was attributable to a rise in the cost of contractual services of \$66 million (71 per cent), from \$93 million in the biennium 2002-2003 to \$159 million in the biennium 2004-2005. Similarly, the increase in staff and other personnel costs of \$38 million (22 per cent), from \$178 million in the biennium 2002-2003 to over \$217 million in the biennium 2004-2005, also contributed to the overall increase in expenditures.

17. The responsibility of UNEP, as Treasurer of the Multilateral Fund, includes submitting the accounts of the Fund to the Executive Committee for each calendar year, based on the expenditures incurred by the Fund secretariat and the statements of expenditure submitted by the implementing entities, taking into account interest earned by them on fund balances they have held, as well as interest earned by UNEP on balances it holds as Treasurer of the Fund. As agreed to by UNEP and the Executive Committee, the Multilateral Fund financial statements have been excluded from the combined financial statements of UNEP.

18. As shown in table 2, the Multilateral Fund reported a net shortfall of income over expenditures of \$44.6 million for the biennium 2004-2005, compared with a net excess of income over expenditures of \$16.2 million for the biennium 2002-2003. Voluntary contributions decreased by \$19.2 million, from \$283.8 million in the biennium 2002-2003 to \$264.6 million in the biennium 2004-2005 (7 per cent). Advances to implementing agencies showed a significant increase of 31 per cent, from \$193 million in the biennium 2002-2003 to \$253 million in the biennium 2004-2005. For the biennium 2004-2005, income fell by \$20 million (6 per cent), from \$314.6 million in the biennium 2002-2003 to \$294 million, which explained its insufficiency to cover the rise in expenditures due to increases in staff and other personnel costs, travel, contractual services, operating expenses, acquisitions, programme support costs and implementing agency-managed activities. The Multilateral Fund nevertheless reported a positive carry-over of \$515.2 million.

Table 2Key financial figures of the United Nations Environment Programme(Multilateral Fund) for the bienniums 2002-2003 and 2004-2005

(Thousands of United States dollars)

	2002-2003	2004-2005
Total income	314 569	294 479
Total expenditures	298 414	339 107
Excess (shortfall) of income over expenditures	16 155	(44 628)

Inter-fund receivable	7 277	3 750
Inter-fund payable	_	_
Reserve for obligations	354	437
Cumulative surplus	562 689	515 198

2. United Nations System Accounting Standards

19. The Board assessed the extent to which the financial statements of UNEP for the biennium 2004-2005 conformed to the United Nations System Accounting Standards. The review indicated that the financial statements were consistent with the Standards except that: (a) unliquidated obligations aggregating to \$615,000 had been raised without formal contracts, agreements, purchase orders or other form of undertaking, or liability recognized by the United Nations (see para. 20 below); and (b) Multilateral Fund voluntary contributions receivable amounting to \$82 million had long been outstanding and had not been written off, in the absence of a decision by the Meeting of the Parties (see para. 26 below).

Unliquidated obligations

20. The Board noted that UNEP had raised obligations totalling \$615,000 that remained outstanding as at 31 December 2005, without formal contracts, agreements, purchase orders or other form of undertaking, or liability recognized by the United Nations.

21. The Administration agreed with the Board's recommendation that it review obligations consistent with rule 105.9 of the Financial Regulations and Rules of the United Nations and the United Nations System Accounting Standards. 22. The total unliquidated obligations of the UNEP Regional Office for Latin America and the Caribbean as at 30 June 2004 amounted to \$732,272 as reflected in the Integrated Accounting and Budgeting System, but payments amounting to \$104,949 of the total had already been made, consisting of those made through advances; transactions authorized by UNEP headquarters to be charged against budget lines; those made through payment requests to UNEP headquarters; and those made by other United Nations agencies.

23. The Administration informed the Board that, although payments on obligations are not captured in the Integrated Accounting and Budgeting System, reconciliation by the Regional Office for Latin America and the Caribbean with UNEP headquarters is done annually to ascertain the correctness of the unliquidated obligation figures at year-end.

24. The Administration agreed with the Board's recommendation that the UNEP Regional Office for Latin America and the Caribbean coordinate with UNEP headquarters so that payments made on obligations were automatically entered in the Integrated Accounting and Budgeting System.

25. The Administration informed the Board that the recommendation had been implemented through the introduction of IMIS at the UNEP Regional Office for Latin America and the Caribbean.

Voluntary contributions receivable (Multilateral Fund)

26. Voluntary contributions receivable relative to the Multilateral Fund amounting to \$82 million have been outstanding for more than five years (pledges made between 1992 and 1999). Note 2 (k) (i) to the financial statements discloses that pledges to multilateral environmental agreements, which involve a budget that has been approved by the parties to the agreements, are written off with the approval of the parties. However, unlike pledges to the Environment Fund, which are written off should they remain unpaid after four years, there is no policy as to when pledges to multilateral environmental agreements that are deemed uncollectible may be written off. As a result, the voluntary contributions receivable under the Multilateral Fund were overstated.

27. Of the \$160.6 million of unpaid voluntary pledges receivable as at 31 December 2003, only \$10.6 million (7 per cent) was collected. This, if not addressed, could hamper the implementation of programmes and projects.

28. The Administration informed the Board that it was the sole prerogative of the Conference of the Parties to decide on issues relating to voluntary contributions.

29. The Administration agreed with the Board's recommendation that it continuously pursue its efforts to collect long-outstanding voluntary contributions receivable from contributing countries and bring to the attention of the Meeting of the Parties the need to write off long-outstanding receivables.

Travel

30. Administrative instruction ST/AI/2000/20 requires staff members to submit a completed travel reimbursement claim within two calendar weeks after completion of travel.

31. At UNEP headquarters, obligations raised by travel requests in 2005 amounting to \$125,977 remained unliquidated as at 31 December 2005, for periods ranging from 21 to 353 days, although the travel had been completed.

32. Obligations amounting to \$33,016 for home leave travel effected by means of the lump sum option were likewise not supported with relevant travel documents.

33. At the UNEP Regional Office for Latin America and the Caribbean, some staff members had liquidated their travel advances from 4 to 53 days after the prescribed 15-day liquidation period. The management explained that, in some cases, liquidation papers had been submitted on time, but some of them had had to be returned owing to certain deficiencies.

34. At the UNEP Regional Office for Europe, the Board noted delays in the submission of travel reimbursement claims of up to 140 days. The Board also observed that there were travel advances that exceeded 100 per cent of the estimated travel subsistence allowance, contrary to section 9.1 of administrative instruction ST/AI/2000/20.

35. The Administration agreed with the Board's recommendation that it (i) strictly enforce the submission of travel claims within two calendar weeks after completion of travel and recover travel advances through payroll deductions in cases of failure to liquidate them within the prescribed period; and (ii) limit travel cash advances to the amount prescribed in ST/AI/2000/20.

36. At the UNEP Regional Office for Europe, the actual amount of travel undertaken from January to September 2005 was 51 per cent more than in that office's travel plan. However, the travel funds used during the same period amounted to \$147,839, which was only 54 per cent of the total allotment of \$274,310. It appeared, therefore, that the amount earmarked for travel was more than was necessary.

37. The Board recommends that the Administration ensure that the amount appropriated and allotted for travel is proportionate to the travel activities required.

38. The Administration informed the Board that it agreed with the recommendation and would make every effort to ensure that the amount appropriated and allotted for travel was proportionate to the travel activities required.

3. Presentation and disclosure of financial statements

39. The Board noted that, for the Multilateral Fund, the audit of statements of income and expenditures for 2004 and 2005 submitted by the other implementing agencies of the Multilateral Fund (the World Bank, the United Nations Development Programme (UNDP) and the United Nations Industrial Development Organization (UNIDO)), which were the bases for reporting income and expenditures, had not yet been completed by their respective external auditors.

40. The financial statements of the Multilateral Fund (statement VI) disclosed that \$302.4 million of expenditures, equivalent to 89.2 per cent of the total \$339.107 million, had been made by the World Bank, UNDP and UNIDO. Of this amount, \$154.5 (45.6 per cent) was based on unaudited financial statements for 2005.

41. Entries to the books of the Multilateral Fund using provisional or preliminary figures are allowed by the UNEP Guidelines on Compliance with and Enforcement of Multilateral Environmental Agreements and by the Executive Committee of the Multilateral Fund, subject to adjustments resulting from independent audits.

42. The Board recommends that the Administration ensure that reconciliation of the recorded figures is made as soon as the audited financial statements are available and process necessary adjustments accordingly.

43. The Administration informed the Board that following the recommendation, it had immediately reconciled the recorded figures and processed necessary adjustments upon receipt of the audited financial statements.

4. Financial management and control

44. The Board noted that six trust funds showed negative allotment balances as at 31 December 2005, in the total amount of \$170,232. The Board is concerned that the approved allotments did not serve their purpose as an expenditure control measure since obligations were nevertheless approved beyond the allotment ceiling.

45. The Administration commented that the 6 funds with negative allotment balances out of a sample of 36 funds did not diminish the role of approved allotments as an expenditure control measure. The Administration, however, assured the Board that an investigation would be made into the causes of the excess in allotments.

46. The Board recommends that the Administration require certifying officers to ensure that project expenditures are kept within the approved budgets/allotment ceilings.

47. The Administration informed the Board that it agreed with the recommendation and would require certifying officers to ensure that project expenditures were kept within the approved budgets/allotment ceilings.

48. During an interim audit visit, the Board recommended that the UNEP Regional Office for Europe ensure that expenditures were covered by allotments and that the 20 per cent flexibility allowed for each budget line was not exceeded. Validation disclosed that under the Technical Cooperation Trust Fund (code TAL) with an allotment of \$90,000 for 2004, the total expenditures incurred amounted to \$128,565, an overexpenditure of \$38,565 (43 per cent).

49. The UNEP Regional Office for Europe explained that such overexpenditure had been incurred owing to the Executive Director's decision to extend the Senior Programme Officer's contract, which was beyond the control of the regional office. This was a contravention of the Executive Director's delegated authority as Rule 105.3 of the Financial Regulations and Rules of the United Nations states that the utilization of all funds requires the prior authorization of the Under-Secretary-General for Management, such as an allotment of funds or other authorization to commit, obligate and expend specified funds for specified purposes during a specified period.

50. The Board recommends that the UNEP Regional Office for Europe make representation with UNEP headquarters, UNOG and UNON to rectify the overexpenditure incurred under the TAL trust fund as at the end of the biennium 2004-2005.

51. The Administration informed the Board that, following the recommendation, it had rectified the situation and transferred the expenditure to the appropriate funds pertaining to the Bishkek Global Mountain Summit project. Accordingly, the published accounts (statement VIII, p. 38), showed total expenditure of \$40,000 for the biennium for the TAL trust fund against total income of \$203,000.

52. At the UNEP Regional Office for Latin America and the Caribbean, the Board reviewed the system of monitoring the Global Environmental Citizenship project, which is aimed at generating public awareness and understanding of global environmental issues, and of the Ozone Action Programme, which is aimed at prescribing precautionary measures in order to equitably control and eventually eliminate total global emissions of ozone depleting substances. The Global Environmental Citizenship project had an estimated total budget of \$6.7 million, while the Ozone Action Programme had an allotment of \$2.6 million for 2004.

53. The Board observed that the systems to monitor the physical implementation of the project and the programme were well in place, but the financial monitoring of both could still be enhanced. The Project Coordinator of the Global Environmental Citizenship had introduced some revisions to the project documents, among which were new clauses on monitoring, reporting and evaluation, along with prescribed formats. However, the function of the Project Coordinating Unit was limited to testing the propriety of Global Environmental Citizenship project disbursements by examining individual invoices and other supporting documents submitted by the implementing networks. Comparison with amounts actually allotted, essential in terms of budgetary control, could not be performed since fund releases were made directly by UNEP headquarters and that information was not made available to the UNEP Regional Office for Latin America and the Caribbean.

54. The monitoring of the status of all the projects under the Ozone Action Programme was done through the Ozone Action Management Information System, while the financial monitoring was done through the use of the project cards, which were not readily accessible to the Programme Coordinators.

55. The Administration agreed with the Board's recommendation that the UNEP Regional Office for Latin America and the Caribbean coordinate closely with UNEP headquarters to provide project coordinators with adequate budgetary control.

56. The Administration informed the Board that it had implemented the recommendation with the introduction of the Integrated Management Information System (IMIS) at the Regional Office for Latin America and the Caribbean and monthly expenditure reporting to the programme coordinators by the administration of the Regional Office for Latin America and the Caribbean.

Cash management

57. During an interim audit visit, the Board had recommended that the UNEP Regional Office for Latin America and the Caribbean consider filling the positions of finance assistant and cashier to ensure that the cashiering function was independent of travel and procurement-related duties heretofore handled by the Administrative Assistant. A finance assistant was hired and took charge of collecting and remitting funds, although without the benefit of a formal designation as called for under rule 103.8 (b) of the United Nations Financial Regulations and Rules. The

same situation pertained in the case of the Administrative Assistant, who was acting as the petty cash custodian without proper designation as required under Rule 104.8 of the United Nations Financial Regulations and Rules.

58. The Administration agreed with the Board's recommendation that the UNEP Regional Office for Latin America and the Caribbean seek from UNEP headquarters formal designation of the Finance Assistant as cashier and the Administrative Assistant as petty cash custodian.

59. Following the recommendation of the Board, the Administration received from UNEP headquarters formal designation of the Finance Assistant and the Administrative Assistant as cashier and petty cash custodian, respectively.

60. At the UNEP Regional Office for Latin America and the Caribbean, the Board noted delays of 3 to 60 days in the issuance of official receipts on collections, contrary to the two-business-day period prescribed under rule 103.8 (a) of the United Nations Financial Regulations and Rules. Such delays contribute to the risk of funds being misappropriated.

61. The Administration agreed with the Board's recommendation that it require the Finance Assistant to issue official receipts, in line with rule 103.8 (a) of the United Nations Financial Regulations and Rules.

62. The Administration informed the Board that the recommendation had been implemented through the introduction of IMIS, which facilitated direct adjustments through the payroll as soon as UNEP headquarters was informed of the moneys received.

63. The UNEP Regional Office for West Asia issued official receipts for cash or cash equivalents received, although those receipts were not issued in numerical sequence, thus posing a risk that funds received might not be fully and properly accounted for. The General Service Clerk who was responsible for the collection was not properly authorized under rule 103.8 of the United Nations Financial Regulations and Rules.

64. The Administration agreed with the Board's recommendation that it (i) issue official receipts in strict numerical sequence to ensure that all collections were completely recorded and properly accounted for during the period in which they were actually collected; and (ii) secure an official authorization for the General Service Clerk as collecting officer, in accordance with rule 103.8 of the United Nations Financial Regulations and Rules.

65. The Administration informed the Board that following the recommendation, it now issued official receipts in numerical sequence, and would obtain official authorization for the General Service Clerk (Finance Assistant) to act as collecting officer as soon as a new person was appointed to the post of Finance Assistant.

5. Write-off of receivables and non-expendable property

66. The Administration reported the write-off of receivables and non-expendable property amounting to \$613,000 and \$16,000, respectively. The accounts receivable written off included an amount of \$529,933 representing the remainder of the compromise agreement between UNEP and UN-Habitat for the latter to pay \$600,000 of the \$1,129,933 it allegedly owed UNEP after the Office of Internal

Oversight Services found that only \$597,246 of the total outstanding debt of UN-Habitat to UNEP could be backed up by sufficient evidence.

6. Ex gratia payments

67. The Administration informed the Board that no ex gratia payments had been made during the biennium 2004-2005.

7. Results-based budgeting

68. Results-based budgeting consists of a number of elements that would build on and strengthen the existing programme planning, budgeting, monitoring and evaluation framework and procedures. Such changes in the manner in which programme budgets are formulated would enable the organization to fully utilize the potential of the budget document to serve as a policy tool and as a basis for assessing the extent to which programmes are accomplishing intended changes and benefits.

69. The UNEP Regional Office for Europe had substantially implemented the regulations and rules governing programme planning, the programme aspects of the budget, the monitoring of implementation and the methods of evaluation (Secretary-General's bulletin ST/SGB/2000/8). The Board noted, however, that the monitoring of implementation and the methods of evaluation under articles VI and VII of ST/SGB/2000/8 had not been fully put into operation.

70. While the UNEP Regional Office for Europe had prepared quarterly accomplishment reports in a summary form, those reports did not show the extent to which the actual accomplishments matched expectations stated in the costed workplan. The Board likewise noted that full programme assessment, in line with rule 107.2 (b) of ST/SGB/2000/8, had not been performed.

71. The Administration agreed with the Board's recommendations that the UNEP Regional Office for Europe prepare quarterly accomplishment reports in a manner that enabled them to be matched with the workplans, as well as provide programme assessment in line with existing regulations and rules.

8. Non-expendable property

72. The Board reviewed the management of non-expendable property and noted the following.

UNEP headquarters

73. At UNEP headquarters, non-expendable property costing \$11.2 million as disclosed in the notes to the financial statements differed from the inventory report's closing balance of \$1.2 million. This significant difference was due to the financial statement value being based on acquisition costs while the inventory report was based on fair market values determined by a contractor hired to conduct physical inventory.

74. Also at UNEP headquarters, the Board noted that non-expendable property purchases reported by UNEP projects and outposted/regional offices were not supported with schedules/documentation, while donations of property by outposted offices amounting to \$36,089 were not supported with approval from the Local

Property Survey Board. Physical inventory reports for UNEP projects and outposted regional offices had likewise not been submitted.

75. The Board is concerned that the property listed in the inventory report, not being in accordance with note 2 (l) (ii) of the notes to the financial statements, could not possibly be reconciled with the amount disclosed as at 31 December 2005, which makes such disclosures of doubtful accuracy. Moreover, owing to the non-submission of an inventory report on UNEP projects and outposted offices and the inadequacy of supporting documents for acquisitions and disposals, the validity of non-expendable property disclosures in the financial statements could not be ascertained.

UNEP Regional Office for Europe

76. The Board noted that 16 laptop computers costing \$34,205.63 in aggregate appeared in the inventory report of the United Nations Office at Geneva (UNOG), but were not recorded in the inventory of the UNEP Regional Office for Europe. Likewise, equipment acquired prior to 1994 was not taken into account in the inventory listing.

77. The UNEP Regional Office for Europe explained that there was a need to update its inventory list since at the time the inventory taking was done in 1994, non-expendable equipment provided by UNOG purchased prior to that year had not been taken into account. The laptop computers in question had not been included in the inventory because of their being obsolete. The UNEP Regional Office for Europe claimed that it had already initiated proceedings to dispose of them.

78. The Board noted further that there were no values assigned to 51 property items, although a comparison with the UNOG inventory list revealed that six items consisting of computers had an aggregate value of \$6,592.91.

UNEP Regional Office for West Asia

79. At the UNEP Regional Office for West Asia, personal property receipts were not used to cover the issuance of movable/portable items such as mobile phones, laptop computers and cameras issued to the end-users. This was not in accordance with section 3 (b) of IC/UNON/2001/8, assigning responsibility and accountability for the reasonable care and use of such equipment to the recipients.

80. The list of inventory of non-expendable property acquired between 1 January 2004 and 31 May 2005 included equipment such as printers, software, scanners, cabinets and a binding machine, costing less than \$500, which should have been classified as expendable property.

81. The Board also noted that (i) the inventory of non-expendable equipment and items included only acquisitions for the period from 1 January 2004 to 31 May 2005; prior-period acquisitions could not be found in the inventory list; in addition, that equipment risked being misused and lost owing to an incomplete inventory list; (ii) several items issued to agency officials and employees, such as notebook and laptop computers, valued at \$10,744.68 were excluded from the list of equipment inventoried on 30 September 2005; and (iii) property records did not contain information on acquisition cost, property serial numbers and equipment description and thus would not afford an efficient basis to perform the necessary reconciliation.

UNEP Regional Office for Latin America and the Caribbean

82. At the UNEP Regional Office for Latin America and the Caribbean, the Board noted that property receipts covering all non-expendable property, especially that vulnerable to misuse or loss, such as laptop computers, digital cameras, microwave ovens or automobiles, were not issued to end-users. While the Office maintained a database on non-expendable property, the persons to whom such property had been issued were not identified. Property accountability, therefore, was inadequately established.

UNEP Regional Office for Asia and the Pacific

83. The report of inventory of non-expendable property of the UNEP Regional Office for Asia and the Pacific as at 31 December 2004 did not include group inventory items such as tables, chairs, cabinets and modular stations found on the 10th floor of the Economic and Social Commission for Asia and the Pacific (ESCAP) building. This posed a risk of property losses not being properly accounted for and that disclosures of non-expendable property in the financial statements might not be adequate.

84. The UNEP Regional Office for Asia and the Pacific assured the Board that it had kept a detailed record of office equipment and furniture, although it admitted that a number of group inventory items had not been recorded by ESCAP in the UNEP inventory report pending clarification of the group inventory procedures. The UNEP Regional Office for Asia and the Pacific indicated that instructions for the recording of group inventory items were being finalized and would be implemented as soon as possible.

UNEP Regional Office for Africa

85. During an on-site inspection at the UNEP Regional Office for Africa, the Board noted that 9 non-expendable property items were not bar-coded and that 11 items were not listed in the inventory count sheet. Those items were therefore susceptible to loss or misuse.

86. The Board has accordingly not been able to obtain assurance as to the accuracy of the disclosure of non-expendable property as at 31 December 2005.

87. The Administration agreed with the Board's recommendations that it comply with (a) note 2 (l) (ii) of the notes to the financial statements in relation to paragraph 50 of the United Nations System Accounting Standards (Revision VI) and (b) administrative instructions on the management of non-expendable property.

88. The Administration informed the Board that the UNEP Regional Office for Asia and the Pacific had been advised by ESCAP that an inventory of the UNEP group items would be undertaken in August/September 2006 and that the situation at that regional office was being addressed as part of UNEP headquarters inventory management.

9. Consultancy services

89. The Board reviewed the process of hiring, remunerating and evaluating the performance of consultants and individual contractors by UNEP headquarters and its

regional offices and noted the following practices which were inconsistent with established rules:

(a) Special service agreements were still used for consultants and individual contractors, contrary to the provisions of administrative instruction ST/AI/1999/7 (UNEP Regional Office for Latin America and the Caribbean);

(b) The services of consultants had been acquired under the contract for individual contractors, in contravention of administrative instruction ST/AI/1999/7 (UNEP Regional Office for West Asia);

(c) There was no roster of qualified candidates for consultancy work or of individual contractors (UNEP Regional Office for West Asia);

(d) Individual contractors had been hired for a period of between 10 and 12 months during certain periods of 12 consecutive months (UNEP Regional Office for Latin America and the Caribbean);

(e) Consultants were not required to submit a statement of good health prior to the execution of the contract (UNEP headquarters and the Regional Office for West Asia);

(f) There was no evidence that the selection process was based on the prescribed criteria, since the verification of the credentials, qualifications and experience of prospective candidates was not documented (UNEP Regional Office for West Asia);

(g) Consultants were allowed to commence work prior to the approval of their contracts (UNEP Regional Office for Africa) or even before the contracts had been signed by the contracting parties (UNEP Regional Office for Europe). In one instance, a contract that had been executed in 2002 and remunerated in 2005 owing to delay in submission of the output remained unsigned by the contracting parties (UNEP headquarters);

(h) The terms of reference did not contain essential information on the expected delivery dates, the manner in which the outputs would be delivered and the performance indicators (UNEP headquarters and the Regional Offices for Europe, West Asia and Africa);

(i) Expected outputs were not stated in quantifiable terms or in terms of results (UNEP Regional Office for Europe);

(j) The roster of consultants did not contain information on the consultants' performance prior to their being hired for new assignments (UNEP Regional Office for Africa) or there was no evaluation of consultants' performance which could serve as a reference for their future engagement (UNEP Regional Office for West Asia);

(k) Payments were made to contractors before the commencement of the engagement, although their contracts clearly indicated when payments were due (UNEP Regional Office for West Asia);

(1) Consultancy contracts carried a stipulation that part of the consideration would be paid in advance upon the signing of the contract, in order to cover travel and/or other miscellaneous expenses of consultants (UNEP Regional Office for Asia and the Pacific);

(m) The actual progress of work was not evaluated prior to payment, such that there was no basis for determining whether or not actual accomplishments were commensurate with payments. In one extreme case, the performance of one consultant with a contract to the value of \$168,000 was not evaluated prior to final payment (UNEP headquarters);

(n) Instalment payments were not supported with accomplishment reports detailing the phases of work completed. Accordingly, it could not be determined whether the amounts paid were commensurate with the work done (UNEP regional Office for Europe);

(o) Although fully paid, there was no indication that expected outputs had been delivered as stipulated in the contract (UNEP Regional Office for Africa);

(p) The lack of adequate benchmarks for deliverables had led to evaluation that merely indicated ratings such as "good", "very good", etc., without verifiable proof of how such ratings were arrived at (UNEP Regional Office for Africa);

(q) While ratings were indicated as either "excellent", "good" or "very good", and the results achieved as "have been met", it appears that these were not based on factual and fair assessment of the work done by the consultants, in the absence of properly documented evaluation processes incorporating clear criteria (UNEP headquarters and Regional Office for Europe). For instance, one consultant was rated as "good" although the submission of his output was delayed for 25 months (UNEP headquarters);

(r) The results of consultants' performance evaluations (e.g. "fully met the goals" or "excellent") were not backed up by quantifiable performance indicators (UNEP Regional Office for Europe).

90. The UNEP Regional Office for Latin America and the Caribbean informed the Board that special service agreements were generated from the Integrated Accounting and Budgeting System and accordingly used when entering into service agreements with consultants and individual contractors. However, it would coordinate with UNEP headquarters on the aspect of reprogramming the Integrated Accounting and Budgeting System for it to generate the new contract forms.

91. The UNEP Regional Office for West Asia informed the Board that during the period covered by the audit, the bulk of consultants recruited were those nominated exclusively by the Governments of Member States in West Asia. As such, the process of selecting and hiring consultants consistent with the procedures of the United Nations could not be enforced.

92. The Administration agreed with the Board's recommendations that it (i) comply strictly with administrative instructions on hiring, remunerating and evaluating the performance of consultants and individual contractors; and (ii) reprogramme the Integrated Accounting and Budgeting System to address the requirement concerning the form of the contract.

93. The Administration informed the Board that it had implemented the recommendation through the application of a checklist for recruitment and management of consultants and individual contractors. The checklist had been developed in consultation with the Human Resources Management Service of the United Nations Office at Nairobi (UNON) and introduced at the end of 2005.

94. The Administration also informed the Board that, following the audit at the UNEP Regional Office for West Asia, it had initiated the development of a roster of qualified consultants and individual contractors.

10. Human resources

Training

95. In its interim audit in 2004, the Board evaluated the strategies and system adopted by the UNEP Regional Office for Latin America and the Caribbean for its annual training plan and the training courses offered. It noted that participants completed and submitted evaluation forms at the end of the training but that their comments were not analysed and used to assess the relevance of the training in terms of individual and organizational needs.

96. The training plan for 2004 did not contain the training cost estimates as a basis for the allocation of funds. Training-related expenses were charged against salary allotments in the absence of a budget for training. As a consequence, salary accounts for the period from 1 January to 30 June 2004 were overstated by \$2,743.

97. The Administration informed the Board that it (i) had carried out an indepth course evaluation focusing on assessing the impact of the training on individual and organizational efficiency; and (ii) would allocate funds for training in accordance with section 4.1 and 4.2 of administrative instruction ST/AI/1997/4.

98. The Board noted that Using PAS: A Guide for Staff and Supervisors required that the first reporting officer, second reporting officer and staff member sign the cover page of the completed e-PAS performance record. The staff member's signature was an acknowledgement that the appraisal had been received and was without prejudice to the right of the staff member to initiate a rebuttal process, when warranted.

99. Seven of 24 e-PAS records (29 per cent) reviewed at the UNEP Regional Office for Asia and the Pacific did not have a completely signed cover page, raising doubts as to whether they had been finalized. The UNEP Regional Office for Asia and the Pacific commented that the first reporting officer, second reporting officer and staff member had electronically signed off on the e-PAS, indicating the date when the e-PAS had been approved in the online e-PAS database. However, because either the first or second reporting officer was based outside Bangkok, the collection of physical signatures on the forms had posed logistical problems.

100. The Board also noted that 13 of the 24 records (54 per cent) showed no indication whether or not the staff member had received the workplan. The UNEP Regional Office for Asia and the Pacific commented that receipt of the workplan by the staff member had to be indicated on the e-PAS form in a small box which could easily be overlooked. A system enhancement, however, would be introduced whereby it would be impossible to sign off electronically without having completed the workplan question.

101. The Administration agreed with the Board's recommendation that it ensure that e-PAS performance records were complete.

102. The Administration informed the Board that it had presented to the e-PAS team of the Office of Human Resources Management for implementation a system

enhancement whereby it would be impossible to sign off electronically without having completed the workplan question.

103. The list of vacant posts at the UNEP Regional Office for Asia and the Pacific as at 31 December 2004 disclosed that five posts had been vacant for more than nine months. Timely filling of vacant positions would ensure that operational and manpower requirements were not affected.

104. The Administration informed the Board that the recruitment for the five vacant posts followed the established procedures within the Galaxy process, and lists had been compiled of candidates eligible at the 15-, 30- and 60-day marks set in administrative instruction ST/AI/2002/4. One post had had to be readvertised owing to a lack of suitable candidates, while it had taken more time than expected for the formal classification of the four other posts, as had the initial entry of the vacancy announcements into Galaxy.

105. The Administration agreed with the Board's recommendation that the UNEP Regional Office for Asia and the Pacific coordinate with UNEP headquarters to facilitate its recruitment process.

106. As at 31 December 2005, of the 502 occupied posts at all levels of the Professional and higher categories at UNEP headquarters, 312 were occupied by men and 190 by women. The gender distribution favoured men in a ratio of 62:38 and did not meet the goal of 50/50 parity between men and women in the United Nations. The Board also noted that in numbers men dominated with regard to all initial appointments and all promotions for the biennium 2004-2005, with ratios of 60:40 and 71:29, respectively.

107. At UNEP headquarters on average, for posts in the Professional and higher categories, only 28 per cent and 16 per cent, respectively, of applicants were female, which limited the pool of qualified female candidates available for consideration for UNEP positions. The Administration assured the Board that vacancies were advertised as widely as possible to attract more female applicants.

108. On an interim visit in 2005, the list of UNEP Regional Office for Asia and the Pacific staff as at 31 December 2004 showed that the gender distribution of all posts in the Professional category and above was 64 per cent male and 36 per cent female. The UNEP Regional Office for Asia and the Pacific did not at that time have a specific gender strategy and action plan to align with the proposed gender mainstreaming strategy prepared by UNEP.

109. The Administration informed the Board that it subscribed to achievement of the goals set by the General Assembly on gender distribution, although it emphasized that decisions on the recruitment of Professional staff for the UNEP Regional Office for Asia and the Pacific including decisions on gender distribution, were taken at UNEP headquarters. The regional office would seek support from UNEP headquarters to improve gender balance and mainstreaming.

110. The Administration agreed with the Board's recommendation that it pursue initiatives to achieve the General Assembly's goal of 50/50 gender balance.

111. The Administration informed the Board that it would pursue the initiatives as part of the UNEP Human Resources Action Plan signed by the Executive Director of

UNEP and the Assistant Secretary-General of the Office of Human Resources Management of the United Nations Secretariat.

11. Inactive trust funds

112. The Board noted that 18 inactive trust funds with total reserves and fund balances of \$0.879 million had not been closed as at 31 December 2005. Except for Fund RUL, these trust funds did not show any expenditure for the biennium 2004-2005 other than those transactions pertaining to the investment and related accounts.

113. The Administration agreed with the Board's recommendation that it expedite the closure of inactive trust funds in accordance with the terms of the trust fund agreements and pertinent Governing Council decisions.

12. Programme management

114. The Board reviewed 14 UNEP headquarters projects approved in 2005 and noted that of the four projects that required approval by the Project Approval Group, three (75 per cent) had been commenced prior to their approval dates. Likewise, of the 10 sample projects that required approval by the Budget and Financial Management Service, four (40 per cent) had been started before they were approved.

115. The Administration agreed with the Board's recommendation that it ensure that projects are approved by the Project Approval Group or the Budget and Financial Management Service, as the case may be, prior to implementation.

116. The Board noted that project document-required reports were not included in 12 out of 14 project folders examined. In the absence of the annual progress reports, the required framework for assessing the status of the projects relative to the expenditures was lacking.

117. The Board also noted that the names of Fund Management Officers indicated on the list of projects had not been updated. The name of one Fund Management Officer who had been separated from the service for more than five years, was still indicated under several projects in the list of ongoing and completed projects as at 31 December 2005. Responsibility for addressing deficiencies in project implementation could not be pinpointed if the person currently in charge was not indicated on the list. The Administration informed the Board that it was in the process of updating the names of Fund Management Officers as the audit was being conducted.

118. The Board noted delays in the submission of the six-monthly progress report relating to two out of eight active projects at the UNEP Regional Office for Europe. For one project there had been a delay of five months and for the other a delay of two months. Moreover, the eight projects did not have the inventory of outputs/services, due every 31 January and 31 July, covering 2004.

119. The Board further noted that the eight projects did not have self-evaluation fact sheets covering 2004. Programme managers therefore did not have the opportunity to look into possible deviations from the approved projects in terms of duration, costs and outputs that needed immediate remedial or corrective action.

120. The Administration agreed with the Board's recommendation that it (i) require implementing agencies and project managers to submit the reports required in section VII D of the UNEP project manual; and (ii) ensure the timely submission of the six-monthly progress reports, the inventory of outputs/services and the self-evaluation fact sheets.

121. At the UNEP Regional Office for West Asia, documentation of the project entitled "Improving participation and capacity-building in the implementation of certified environmental management systems in West Asia" revealed that in the workplan the timetable indicated for accomplishing all activities was set over a twoyear period, but the specific starting and completion dates for each activity were not indicated. The status of implementation of the project as reported in the progress reports could not be properly assessed for lack of benchmarks. Likewise, the memorandum of understanding between the UNEP Regional Office for West Asia and an implementing agency did not contain the workplan, the timetable or the expected outputs of the project.

122. At the UNEP Regional Office for Africa, review of the Nairobi River Basin Programme disclosed that the workplan did not indicate the expected start and completion dates of each activity. Also, the budget did not reflect an allocation for each object of expenditure, such that project expenditures might not be adequately monitored. Further, the memorandums of understanding between the UNEP Regional Office for Africa and its implementing agencies did not provide the workplan and timetables required.

123. The Administration agreed with the Board's recommendation that it comply with the UNEP project manual by (i) indicating the start and completion dates for each project activity; (ii) specifying the budget allocation for each project of expenditure to enhance budgetary control; and (iii) providing workplans and timetables for all projects.

13. Procurement

124. Under the inter-agency agreement entered into by the UNEP Regional Office for Asia and the Pacific and ESCAP, ESCAP performs the procurement functions of that regional office. The Board noted, however, that the UNEP Regional Office for Asia and the Pacific had not prepared and submitted to ESCAP a procurement plan covering the year 2004, as required under section 8.1(1)2 of the United Nations Procurement Manual.

125. The 23 obligating documents of the UNEP Regional Office for Asia and the Pacific for purchases of goods and services showed that eight requisitions, mostly for refrigerant equipment, amounting to \$209,249 had been made in December 2004, contrary to section 8.1(11)2 of the United Nations Procurement Manual.

126. The Administration agreed with the Board's recommendation that it prepare and submit a procurement plan to ESCAP to ensure effective and timely solicitation of bids or proposals, award of contracts and delivery of goods and services.

127. The Administration informed the Board that it had prepared a procurement plan and had submitted it to ESCAP on 2 February 2006.

14. Inter-agency coordination

128. The UNEP Regional Office for North America signed a memorandum of understanding with the United Nations Information Centre (UNIC) in 2001. Under the memorandum of understanding, UNIC would provide administrative support to the UNEP Regional Office for North America, which did not maintain separate accounting records because its financial transactions were incorporated in the financial reports of UNEP headquarters. The agreed administrative support, however, was not fully provided by UNIC.

129. Owing to the inability of UNIC to support the administrative needs of the UNEP Regional Office for North America, the regional office requested UNEP headquarters for authority to set up an imprest fund system to support both itself and the Global Environment Facility/Scientific and Technical Advisory Panel.

130. During its audit in 2003, the Board advised the UNEP Regional Office for North America that pending action on that office's request to set up an imprest fund system, the memorandum of understanding needed amending to address the limitations of UNIC, actual activities to be carried out by UNIC and the specific obligations of the UNEP Regional Office for North America and UNIC. The memorandum of understanding, however, had not been amended owing to the regional office's expectation that the launching of the imprest fund system was imminent and on account of the standard UNIC practice of not entering into formal agreements with other United Nations agencies because of its post facto billing at year-end.

131. The memorandum of understanding between the UNEP Regional Office for North America and UNIC provided for automatic renewal for an additional year beyond its duration from July 2001 to December 2002, in the absence of notice to the contrary within 60 days of its expiration. Under the terms of the memorandum of agreement, it was effective from January to December 2003, but no new memorandum of understanding had been signed by the two parties thereafter. The UNEP Regional Office for North America said that, at a meeting held in mid-2004 with UNIC, only verbal agreement had been reached, but commented that it could draft a memorandum of understanding reflecting all UNEP activities in Washington, D.C. and the actual services which UNIC should perform.

132. The UNEP Regional Office for North America had still availed itself of UNIC services costing some \$10,400 in the period January-December 2004, without the benefit of a formal agreement as to the specific services to be rendered and the cost entailed.

133. The Administration agreed with the Board's recommendation that pending the setting-up of the imprest fund system, the UNEP Regional Office for North America take action to renew the memorandum of understanding, incorporating in it the limitations and actual activities of UNIC in order to define clearly the contractual obligations of the UNEP Regional Office for North America and UNIC and to provide a basis for payment of UNIC services.

134. Several errors in processing by UNIC had been discovered. They had been adjusted several months later, in spite of immediate notification by the UNEP Regional Office for North America. One of the errors was the duplicate payment to a payee of \$2,865. A cheque for that amount dated 30 January 2004 was issued and, subsequently, another cheque, dated 10 February 2004, was issued for the same

amount. Although an adjustment was made for the duplicate payment with a credit back voucher dated 30 January 2004, the UNEP Regional Office for North America was credited back \$2,865 in September 2004, only after seven months.

135. UNIC was always two to three months late in submitting the monthly list of cheques issued from January to December 2004, which caused delay in the submission of the status of allotments to UNON. As at 19 April 2005, the breakdown of payments for February and March 2005 had not yet been submitted.

136. The Administration agreed with the Board's recommendation that it coordinate with UNIC on the timely correction of errors and the submission of the list of cheques to facilitate the submission of the status of allotments to UNON.

137. The Administration informed the Board that with the introduction of IMIS at UNEP Regional Office for North America in October 2005, the Regional Office for North America had stopped using the services of UNIC effective January 2006.

15. Cases of fraud and presumptive fraud

138. The Administration reported that no fraud or presumptive fraud had been committed during the biennium.

C. Acknowledgement

139. The Board wishes to express its appreciation for the cooperation and assistance extended to the auditors by the Executive Director, his officers and members of their staff.

Chapter III Audit opinion

We have audited the accompanying financial statements of the United Nations Environment Programme comprising statements numbered I to XIV, schedules 3.1, 4.1 to 4.2, 5.1 and 6.1, and the supporting notes, for the biennium ended 31 December 2005. These financial statements are the responsibility of the Executive Director. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the common auditing standards of the Panel of External Auditors of the United Nations, the specialized agencies and the International Atomic Energy Agency and with the International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Executive Director, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for the audit opinion.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the United Nations Environment Programme as at 31 December 2005 and the results of its operations and its cash flows for the period then ended, in accordance with the United Nations System Accounting Standards.

Furthermore, in our opinion, the transactions of the United Nations Environment Programme that have come to our notice, or which we have tested as part of our audit, have in all significant respects been in accordance with the Financial Regulations of the United Nations and legislative authority.

Without qualifying our audit opinions expressed above, we draw attention to note 8 to the financial statements, which disclose the amount of non-expendable property of \$18.7 million. Of this amount, \$11.2 million pertain to UNEP headquarters, which differs by \$10 million from the value of \$1.2 million stated in the supporting inventory reports. This significant variation occurred since the financial statements disclosure was based on acquisition costs, while items in the inventory report were stated at fair market value.

Note: The members of the Board of Auditors have signed only the original English version of the audit opinion.

Chapter IV Certification of the financial statements

31 March 2006

The financial statements of the United Nations Environment Programme for the biennium 2004-2005 ended 31 December 2005 have been prepared in accordance with financial rule 106.10 of the United Nations and financial rule 213.3 of the United Nations Environment Programme.

A summary of significant accounting policies applied in the preparation of these statements is included in the notes to the financial statements. These notes also provide information for and clarifications of the financial activities undertaken by the organization during the period covered by these statements for which the Secretary-General has administrative responsibility.

I certify that the appended financial statements of the United Nations Environment Programme, including the associated trust funds and other related accounts, numbered I to XIV are correct.

> (Signed) David G. Hastie Chief Finance Officer, Budget and Financial Management Service United Nations Office at Nairobi

Cash flows from investing activities		
(Increase)/decrease in promissory notes	36 016	(31 761)
(increase)/decrease in cash pools	62 660	19 530
Plus: interest income	12 670	18 321
Net cash flow from investing activities	111 346	6 090
Cash flows from financing activities		
Net increase/(decrease) in cash and term		
deposits	(87)	(3 138)
Cash and term deposits, beginning of period	951	4 089
Cash and term deposits, end of period	864	951

(a)The reported expenditure includes the changes in prior period expenditures as reported by the implementing agencies and treated as part of the current year expenditures.(i) For ease of monitoring and to avoid delay the Treasurer recorded UNDP, UNIDO and WB-IBRD unaudited expenditures submitted for

(i) For ease of monitoring and to avoid delay the Treasurer recorded UNDP, UNIDO and WB-IBRD unaudited expenditures submitted for their accounting periods ended 31 December 2005 based on their agreement that they will provide audited expenditures immediately they become available.

(ii) The Treasurer also recorded US\$9,216,000 in the current period resulting from changes between the audited and unaudited expenditures submitted by UNDP, UNIDO and WB-IBRD for prior periods.

(iii) This practice is approved by the Executive Committee of the Multilateral Fund.

(b)The promissory note stock includes notes amounting to US\$70,200,000 assigned to implementing agencies.

Notes to the financial statements

Note 1

The United Nations Environment Programme and its objectives

(a) The United Nations Environment Programme (UNEP) was established by the General Assembly by its resolution 2997 (XXVII) of 15 December 1972, with the Governing Council of UNEP as its policymaking organ and a secretariat to serve as a focal point for environmental action and coordination within the United Nations system.

(b) The mandate of UNEP has been confirmed through various legislative measures, both by the General Assembly and the Governing Council of UNEP. UNEP also provides the secretariats to several global and regional conventions that have been established in areas related to UNEP programme activities.

(c) The activities for which UNEP is responsible fall within the framework of programme 10, Environment, of the revised medium-term plan for the period 2002-2005.¹ The overall objective of programme 10 is to provide leadership and encourage partnership in caring for the environment by inspiring, informing and enabling nations and peoples to improve their quality of life without compromising that of future generations. The main elements of the strategy for achieving the overall objective include: (a) filling the information and knowledge gap on critical environmental issues through more comprehensive assessments; (b) identifying and further developing the use of appropriate integrated policy measures in tackling the root causes of major environmental concerns; and (c) mobilizing action for better integration of international action to improve the environment, particularly in relation to regional and multilateral agreements, as well as United Nations system-wide collaborative arrangements.

Note 2

Summary of significant accounting and financial reporting policies of the United Nations

(a) The accounts of UNEP are maintained in accordance with the Financial Regulations of the United Nations as adopted by the General Assembly, the rules formulated by the Secretary-General as required under the regulations, administrative instructions issued by the Under-Secretary-General for Management or the Controller and specific decisions of the Governing Council of UNEP. They also take fully into account the United Nations System Accounting Standards, as adopted by the Administrative Committee on Coordination, now replaced by the United Nations System Chief Executives Board for Coordination. The organization follows International Accounting Standard No. 1 on the disclosure of accounting policies, as modified and adopted by the United Nations System Chief Executives Board for Coordination, as shown below:

(i) Going concern, consistency, and accrual are fundamental accounting assumptions. Where fundamental accounting assumptions are followed in financial statements, disclosure of such assumptions is not required. If a

¹ Official Records of the General Assembly, Fifty-seventh Session, Supplement No. 6 (A/57/6/Rev.1).

fundamental accounting assumption is not followed, that fact should be disclosed together with the reasons;

(ii) Prudence, substance over form, and materiality should govern the selection and application of accounting policies;

(iii) Financial statements should include clear and concise disclosure of all significant accounting policies which have been used;

(iv) The disclosure of the significant accounting policies used should be an integral part of the financial statements. These policies should normally be disclosed in one place;

(v) Financial statements should show comparative figures for the corresponding period of the preceding financial period;

(vi) A change in an accounting policy that has a material effect in the current period or may have a material effect in subsequent periods should be disclosed together with the reasons. The effect of the change should, if material, be disclosed and quantified.

(b) The organization's accounts are maintained on a "fund accounting" basis. Each fund is maintained as a distinct financial and accounting entity with a separate self-balancing, double-entry group of accounts. Separate financial statements are prepared for each fund or for a group of funds of the same nature.

(c) The financial period of the organization is a biennium and consists of two consecutive calendar years for all funds.

(d) Generally, income, expenditure, assets and liabilities are recognized on the accrual basis of accounting.

(e) The accounts of the organization are presented in United States dollars. Accounts maintained in other currencies are translated into United States dollars at the time of the transactions at rates of exchange established by the United Nations. In respect of such currencies, the financial statements shall reflect the cash, investments, unpaid pledges and current accounts receivable and payable in currencies other than the United States dollar, translated at the applicable United Nations rates of exchange in effect as at the date of the statements. In the event that the application of actual exchange rates at the date of the statements would provide a valuation materially different from the application of the Organization's rates of exchange for the last month of the financial period, a footnote will be presented quantifying the difference.

(f) The organization's financial statements are prepared on the historical cost basis of accounting and are not adjusted to reflect the effects of changing prices for goods and services.

(g) The cash flow summary statement is based on the "Indirect method" of cash flow as referred to in the United Nations System Accounting Standards.

(h) The organization's financial statements are prepared in accordance with the ongoing recommendations of the Working Party on Accounting Standards to the United Nations System Chief Executives Board for Coordination.

(i) The results of the organization's operations presented in statements I, II and III are shown in summary by general type of activity, as well as on a combined

basis for funds other than those that are reported on separately, after the elimination of all inter-fund balances and instances of double-counting of income and expenditure. Their presentation on a combined basis does not imply that the various separate funds can be intermingled in any way, since, normally, resources may not be utilized between funds.

(j) The regular budget of the United Nations meets part of the costs of the secretariat of the United Nations Environment Programme established under resolution 2997 (XXVII). Details of the expenditure may be found in the financial report and audited financial statements of the United Nations. They are not considered further in the present report.

(k) Income:

(i) Voluntary contributions from Member States or other donors are recorded as income on the basis of a written commitment to pay monetary contributions at specified times within the current financial period. Pledges to the Environment Fund remaining unpaid after four years are written off with the approval of the Governing Council. Pledges to multilateral environmental agreements which involve a budget that has been approved by the parties, are written off with the approval of the parties to the multilateral environmental agreement concerned. Pledges to trust funds which are purely voluntary are written off with the approval of the Executive Director of UNEP;

(ii) Income received under inter-organizational arrangements represents allocations of funding from agencies to enable the organization to administer projects or other programmes on their behalf;

(iii) Allocations from other funds represent monies appropriated or designated from one fund for transfer to and disbursement from another fund;

(iv) Income for services rendered includes reimbursements for salaries of staff members and other costs which are attributable to providing technical and administrative support to other organizations;

(v) Interest income includes all interest earned on deposits in various bank accounts, investment income earned on marketable securities and other negotiable instruments and investment income earned in the cash pools. All realized losses and net unrealized losses on short-term investments are offset against investment income. Investment income and costs associated with the operation of investments in the cash pool are allocated to participating funds;

(vi) Miscellaneous income includes refunds of expenditures charged to prior periods, income from net gains resulting from currency translations, monies accepted for which no purpose was specified, uncashed cheques one year from their date of issuance, interest from earmarked contributions to the Environment Fund and other sundry income;

(vii) Income relating to future financial periods is not recognized in the current financial period and is recorded as payments or contributions received in advance, as referred to in item (n) (iii).

(1) Expenditure:

(i) Expenditures are incurred against authorized allotments. Total expenditures reported include unliquidated obligations and disbursements;

(ii) Expenditures incurred for non-expendable property are charged to the budget of the period when acquired and are not capitalized. Inventory of such non-expendable property is maintained at historical cost;

(iii) Expenditures for future financial periods are not charged to the current financial period and are recorded as deferred charges, as referred to in item (m) (iv) below.

(m) Assets:

(i) Cash and term deposits comprise funds held in demand deposit accounts and interest bearing bank deposits;

(ii) Investments include marketable securities and other negotiable instruments in the cash pool. Cost is defined as the nominal value plus/minus any un-amortized premium/discount. The market value of the short-term investments was lower than the book value. The book value has been adjusted accordingly, as disclosed in schedule 3. There were no long-term investments at the end of the period;

(iii) United Nations Headquarters cash pools comprise participating funds' share of the cash and term deposits, short-term investments and accrual of investment income, all of which are managed in the pools. The investments in the pools are similar in nature and are accounted for as stated in item (m) (ii) above. Income earned on the investments of the cash pools and the costs associated with the operation of these investments are allocated to participating funds. Each participating fund's share in the cash pools is reported separately in its statements;

(iv) Deferred charges normally comprise expenditure items that are not properly chargeable to the current financial period. They will be charged as expenditure in a subsequent period. These expenditure items include commitments approved for future financial periods in accordance with financial rule 106.7. Such commitments are normally restricted to administrative requirements of a continuing nature and to contracts or legal obligations where long lead-times are required for delivery;

(v) Inter-fund balances reflect transactions between funds and are included in the amounts due to and from the Environment Fund, trust funds, other special accounts, the United Nations General Fund and other United Nations funds which are normally settled periodically, depending upon the availability of cash resources;

(vi) For purposes of the balance sheet statements only, those portions of education grant advances that are assumed to pertain to the scholastic years completed as at the date of the financial statement are shown as deferred charges. The full amounts of the advances are maintained as accounts receivable from staff members until the required proofs of entitlement are produced, at which time the budgetary accounts are charged, and the advances settled;

(vii) Maintenance and repairs of capital assets are charged against the appropriate budgetary accounts. Furniture, equipment and other non-expendable property are not included in the assets of the organization. Acquisitions are charged against budgetary accounts in the year of purchase.

The value of non-expendable property is recorded in memoranda accounts and is disclosed in note 8 to the financial statements.

(n) Liabilities, reserves and fund balances:

(i) Operating and other types of reserves are included in the totals for "Reserves and fund balances" shown in the financial statements;

(ii) Unliquidated obligations for future years are reported both as deferred charges and as unliquidated obligations;

(iii) Payments or contributions received in advance include pledged contributions for future periods and other income received but not yet earned;

(iv) Commitments of the organization relating to prior, current and future financial periods are shown as unliquidated obligations. Current period obligations relating to special accounts remain valid for 12 months following the end of the biennium to which they relate. Obligations for most technical cooperation activities remain valid for 12 months after the end of each calendar year.

(o) Financial reserve. As stated in rule 209.2 of the Financial Rules of the Fund, the purpose of the financial reserve is to guarantee the financial liquidity and integrity of the Environment Fund, to compensate for uneven cash flows and to meet such other similar requirements as may be decided upon by the Governing Council. The level of the financial reserve is determined from time to time by the Governing Council and the Council, in its decision 20/31, paragraph 14, authorized the Executive Director to further increase the level of the financial reserve to United States dollars 20 million as and when carry-over resources become available over and above those needed to implement the programme approved.

(p) Operational reserve. With regard to the special account for programme support costs, an operational reserve is required to protect against unforeseen shortfalls in delivery, inflation and currency adjustments or to liquidate legal obligations in the event of abrupt terminations of activities financed from extrabudgetary resources.

(q) Revolving Fund. The Governing Council, by its decision 11/(II) of 22 March 1974, established a Revolving Fund (Information) to finance the production of materials in support of national programmes of public information and education in the environment field. The Council further decided that the income from the sale or rental of information materials, the production of which was financed from the Revolving Fund (Information) should be credited to that Fund. Any cumulative surplus in excess of United States dollars 200,000 is transferred to the Environment Fund at the end of the financial period.

(r) Project expenditures with respect to UNEP projects undertaken by cooperating agencies and supporting organizations are recorded in the UNEP accounts on the basis of actual expenditure of funds reported by them to UNEP. Expenditures include the unliquidated obligations of cooperating agencies. The unspent balances of the remittances held by agencies and organizations are recorded as advances in the UNEP accounts.

(s) Contingencies. A provision to meet contingent liabilities for compensation payments under appendix D to the Staff Rules of the United Nations

for the personnel financed from trust funds and the Environment Fund has been made and is calculated on the basis of 1 per cent of net base salary. Furthermore, since July 2002, a provision calculated at 8 per cent of net base salary, is made in the Environment Fund and trust funds for end-of-service benefits.

(t) Trust funds. UNEP follows the general provisions of the Secretary-General's bulletin on the establishment and management of trust funds (ST/SGB/188) and its supporting administrative instructions (ST/AI/285 and ST/AI/286), although, as indicated in paragraph 3 of document ST/SGB/188, that bulletin does not apply to funds such as the Fund of the United Nations Environment Programme, which are subject to the administrative authority of their executive heads.

(u) At the 11th meeting of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, it was decided that promissory notes constituted committable resources and that the deposit of a promissory note would be considered to be payment of a country's contribution to the Multilateral Fund. Consequently, promissory notes received from member countries have been reflected accordingly in the accounts of the Multilateral Fund.

(v) UNEP is a member organization participating in the United Nations Joint Staff Pension Fund (UNJSPF), which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded defined benefit plan. The financial obligation of the organization to the Pension Fund consists of its mandated contribution at the rate established by the United Nations General Assembly together with its share of any actuarial deficiency payments under article 26 of the Regulations of the Pension Fund. Such deficiency payments are only payable if and when the United Nations General Assembly has invoked the provisions of article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as of the valuation date. As at the date of the current financial statements, the United Nations General Assembly has not invoked this provision.

Note 3

Financial reporting by agencies and supporting organizations

All agencies and organizations, except 24, engaged in the implementation of projects funded by UNEP and /or its associated trust funds reported their expenditures as at 31 December 2005.

Note 4 Environment Fund (statement IV)

(a) Other accounts receivable

The totals below provide a comparison of the amounts shown in statement IV as other accounts receivable, as at 31 December 2005 and 2003:

(Thousands of United States dollars)	2005	2003
Staff members	1 110	1 094
Vendors	211	197
