

**Conference of the Parties to the Stockholm
Convention on Persistent Organic Pollutants
Twelfth meeting**

Geneva, 28 April–9 May 2025

Agenda item 5 (e)

**Matters related to the implementation of the Convention:
listing of chemicals in Annex A, B or C to the Convention**

**Draft decision SC-12/[--]: Listing of long-chain
perfluorocarboxylic acids, their salts and related compounds**

**Submission by the contact group on the listing of chemicals under the
Stockholm Convention**

The Conference of the Parties,

Having considered the risk profile, the risk management evaluation and the addendum to the risk management evaluation for long-chain perfluorocarboxylic acids, their salts and related compounds as transmitted by the Persistent Organic Pollutants Review Committee,¹

Taking note of the recommendation by the Persistent Organic Pollutants Review Committee that long-chain perfluorocarboxylic acids, their salts and related compounds be listed in Annex A to the Convention with specific exemptions,²

1. *Decides* to amend part I of Annex A to the Stockholm Convention on Persistent Organic Pollutants to list long-chain perfluorocarboxylic acids, their salts and related compounds with specific exemptions by inserting the following row:

<i>Chemical</i>	<i>Activity</i>	<i>Specific exemption</i>
Long-chain perfluorocarboxylic acids, their salts and related compounds	Production	As allowed for the Parties listed in the Register in accordance with the provisions of Part [XIV] of this Annex
“Long-chain perfluorocarboxylic acids, their salts and related compounds” means the following: (i) Long-chain perfluorocarboxylic acids or their salts, for the purposes of the Convention, are a homologous series of substances with the molecular formula of $C_nF_{2n+1}COOH$ (where $8 \leq n \leq 20$); (ii) Compounds related to long-chain perfluorocarboxylic acids, for the purposes of the Convention, are any substance that is a precursor and may transform to long-chain perfluorocarboxylic acids, where the perfluorinated alkyl moiety has the formula C_nF_{2n+1} (where $8 \leq n \leq 20$) and is directly	Use	In accordance with Part [XIV] of this Annex: <ul style="list-style-type: none"> Semiconductors designed for replacement parts not covered in paragraphs 2 (a) and (b) of Part [XIV] of this Annex Semiconductors designed for replacement parts for combustion-engine-powered vessels in accordance with the provisions of paragraph 2 of Part [XIV] of this Annex Replacement parts for motor vehicles that have ceased mass production in accordance with the provisions of paragraph 2 of Part [XIV] of this Annex

¹ UNEP/POPS/POPRC.18/11/Add.4; UNEP/POPS/POPRC.19/9/Add.2; UNEP/POPS/POPRC.20/10/Add.3.

² UNEP/POPS/COP.12/14.

bonded to any chemical moiety other than a fluorine, chlorine or bromine atom.

The following compounds are not included as long-chain perfluorocarboxylic acids, their salts and related compounds: perfluorooctanoic acid (PFOA), its salts and PFOA-related compounds as listed in Annex A to the Convention.

2. *Also decides* to insert a new part [XIV] in Annex A as follows:

Part [XIV]

Long-chain perfluorocarboxylic acids, their salts and related compounds

1. The production and use of long-chain perfluorocarboxylic acids, their salts and related compounds shall be eliminated except for Parties that have notified the Secretariat of their intention to produce and/or use them in accordance with Article 4.

2. Specific exemptions for the production and use of long-chain perfluorocarboxylic acids, their salts and related compounds, limited to the following applications, may be available until the end of the service life of articles being repaired or until 2041, whichever comes earlier:

(a) Semiconductors designed for replacement parts for combustion-engine-powered vessels;

(b) Replacement parts for motor vehicles that have ceased mass production, covering all land-based vehicles, such as cars, motorcycles, agricultural and construction vehicles, and industrial trucks. Applications include semiconductors, coatings, cables, electronics, engines and under-hood applications, modules, hydraulic system components and relay assemblies.
