The General Assembly,

Recalling its resolutions 36/193 of 17 December 1981, 37/250 of 21 December 1982, 38/169 of 19 December 1983 and 39/173 of 17 December 1984,

Stressing that, while recent changes in the energy sector may have had a significant impact on the cost-effectiveness of some forms of new and renewable sources of energy, the importance of their continued development and efficient utilization is not diminished,

Taking into account the fact that new and renewable sources of energy constitute a significant share of world energy supplies, in particular in developing countries,

1. *Takes note* of the report of the Committee on the Development and Utilization of New and Renewable Sources of Energy on its third session¹⁷ and endorses the resolutions and decision contained therein;

2. *Reaffirms* the significance and importance of the Nairobi Programme of Action for the Development and Utilization of New and Renewable Sources of Energy¹⁸ as the basic framework for action by the international community and the United Nations system in that field;

3. *Expresses concern* at the slow rate of implementation of the Nairobi Programme of Action, and invites all Governments and the appropriate international financial institutions, intergovernmental and non-governmental organizations, and organs and bodies of the United Nations system to continue their support and intensify their efforts towards the accelerated and comprehensive implementation of the Nairobi Programme of Action, and, to this end, stresses the importance of increasing inter-agency co-ordination within the United Nations system as well as co-ordination of development activities for new and renewable sources of energy at all levels;

4. *Recommends*, in that regard, that the effective implementation of the proposals put forward by the Administrative Committee on Co-ordination¹⁹ be pursued and calls for the preparation of a set of updated or new proposals, within the framework of the Nairobi Programme of Action, for the consideration of the Committee on the Development and Utilization of New and Renewable Sources of Energy at its fourth session, taking into account technological innovations as well as the conclusions and recommendations of technical panels and expert group meetings in that field, in order to help identify areas in which activities should be undertaken;
