

*Bearing in mind* that the maintenance of a world-wide balance between the supply of narcotic drugs and the legitimate demand for those drugs for medical and scientific purposes constitutes an important aspect of the international drug abuse control strategy and policy.

*Having considered* the report of the International Narcotics Control Board for 1980<sup>17</sup> on the world requirements and supply of narcotic raw materials for medical and scientific purposes, in particular the observations made in paragraphs 58 and 60 of the report,

*Noting* the observations of the Board that maintenance of excessive stocks in some countries has cast heavy additional financial and other burdens on those countries,

1. *Appeals* to the Governments of all importing countries to support the countries referred to in paragraph 58 of the report of the International Narcotics Control Board for 1980, which, as traditional supplier countries, have been the longest-standing producers for export of narcotic raw materials for medical and scientific purposes;

2. *Urges* the Governments of major producing countries that have recently set up additional capacities for export to restrict, as recommended in paragraph 60 of the report of the International Narcotics Control Board for 1980, their production programmes to meet mainly their domestic requirements;

3. *Requests* the International Narcotics Control Board to continue a dialogue with the Governments concerned in regard to expeditious implementation of the resolutions on the subject so as to restore a lasting balance between supply and demand;

4. *Requests also* the Secretary-General to transmit the text of the present resolution to all Governments for their consideration.
