49/168. International action to combat drug abuse and illicit production and trafficking

The General Assembly,

Recalling its resolutions 47/97 of 16 December 1992, 48/12 of 28 October 1993 and 48/112 of 20 December 1993,

Profoundly alarmed by the magnitude of the rising trend in drug abuse and illicit production of and trafficking in narcotic drugs and psychotropic substances that threaten the health and well-being of millions of persons, in particular the youth, in all countries of the world,

Gravely concerned that the illicit demand for, production of and traffic in narcotic drugs and psychotropic substances continue to threaten seriously the socio-economic and political systems and the stability, national security and sovereignty of an increasing number of States,

Deeply alarmed by the growing violence and economic power of criminal organizations and terrorist groups that engage in the production of, traffic in and distribution of drugs, arms and precursors and essential chemicals, which at times places them beyond the reach of the law, corrupting institutions, undermining the full exercise of human rights and threatening the stability of many societies in the world,

Fully aware that States, the relevant organizations of the United Nations system and multilateral development banks need to accord a higher priority to dealing with this scourge, which undermines development, economic and political stability and democratic institutions, and the combat against which entails

increasing economic costs for Governments and the irreparable loss of human lives,

Convinced of the desirability of closer coordination and cooperation among States in combating drug-related crimes, such as terrorism, illicit arms trade and money laundering, and bearing in mind the role that could be played by both the United Nations and regional organizations in this respect,

Reaffirming that a comprehensive framework for international cooperation in drug control is provided by the existing drug control conventions, the Declaration⁸² and the Comprehensive Multidisciplinary Outline of Future Activities in Drug Abuse Control,⁸³ the Political Declaration and Global Programme of Action adopted by the General Assembly at its seventeenth special session, devoted to the question of international cooperation against illicit production, supply, demand, trafficking and distribution of narcotic and psychotropic substances,⁸⁴ the Declaration adopted by the World Ministerial Summit to Reduce the Demand for Drugs and to Combat the Cocaine Threat⁸⁵ and the United Nations System-wide Action Plan on Drug Abuse Control,⁸⁶ and stressing the need for insistent efforts to implement them,

Recognizing the efforts of countries that produce narcotic drugs for scientific, medicinal and therapeutic uses to prevent the diversion of such substances to illicit markets and to maintain production at a level consistent with licit demand in line with the Single Convention on Narcotic Drugs of 1961,⁸⁷

Acknowledging that there are links, under certain circumstances, between poverty and the increase in the illicit production of and trafficking in narcotic drugs and psychotropic substances and that the promotion of the economic development of countries affected by the illicit drug trade requires appropriate measures, including strengthened international cooperation in support of alternative and sustainable development activities in the affected areas of those countries,

Emphasizing the need for an analysis of transit routes used by drug traffickers, which are constantly changing and expanding to include a growing number of countries and regions in all parts of the world,

Underlining the role of the Commission on Narcotic Drugs as the principal United Nations policy-making body on drug control issues,

Reaffirming the leadership role of the United Nations International Drug Control Programme as the main focus for concerted international action for drug abuse control and commending the way in which it has carried out the functions entrusted to it,

Recognizing that the magnitude of the drug menace requires the formulation of strategies, approaches, objectives and enhanced international cooperation to address more effectively the international operations of those who deal in the illegal traffic of drugs, arms and precursors and essential chemicals,

49/169. Office of the United Nations High Commissioner for Refugees

The General Assembly,

Having considered the report of the United Nations High Commissioner for Refugees on the activities of her Office⁹⁵ and the report of the Executive Committee of the Programme of the High Commissioner on the work of its forty-fifth session,⁹⁶ and taking note of the statement made by the High Commissioner on 9 November 1994,⁹⁷

Recalling its resolution 48/116 of 20 December 1993,

Expressing deep concern at the immense human suffering and loss of life which have accompanied recent crises involving refugee flows and other forced displacements, as well as the magnitude and complexity of current refugee problems, which have made more difficult the accomplishment of the High Commissioner's crucial functions of ensuring international protection for refugees and achieving timely and durable solutions to their plight,

Reaffirming the importance of the 1951 Convention⁹⁸ and the 1967 Protocol⁹⁹ relating to the Status of Refugees as the cornerstone of the international system for the protection of refugees, and noting with satisfaction that one hundred and twenty-seven States are now parties to one or both instruments,

Reaffirming also the purely humanitarian and non-political character of the activities of the Office of the High Commissioner, as well as the crucial importance of the High Commissioner's functions of providing international protection to refugees and seeking solutions to refugee problems,

Welcoming the continuing strong commitment of States to providing protection and assistance to refugees and the valuable support extended by Governments to the High Commissioner in carrying out her humanitarian tasks,

Welcoming also the strong commitment made by States in the Programme of Action of the International Conference on Population and Development,⁴² held at Cairo from 5 to 13 September 1994, to the institution of asylum and to refugees and displaced persons,

Emphasizing the need for States to assist the High Commissioner in seeking durable and timely solutions to the problems of refugees, to take part in efforts to prevent conditions that might give rise to the flight of refugees and to address the root causes of refugee outflows, and underlining, in this connection, State responsibility, particularly as it relates to countries of origin,

Commending the High Commissioner and her staff for the competent, courageous and dedicated manner in which they discharge their responsibilities, paying tribute to those staff members who have endangered their lives in the course of their duties, and noting with profound regret the deaths of staff members as a consequence of violent events in several countries around the world,

Commending also those States, particularly the least developed and those hosting millions of refugees over long periods of time, which, despite severe economic, development and environmental challenges of their own, continue to admit large numbers of refugees into their territories, and emphasizing the need to share the burden of those States to the maximum extent possible through international assistance, including development-oriented assistance and assistance related to the impact on the environment of the large numbers of refugees and displaced persons of concern to the Office of the High Commissioner,

Noting with concern that the number of refugees and other persons to whom the Office of the High Commissioner is called upon to provide assistance and protection has continued to increase and that their protection continues to be seriously jeopardized in many situations as a result of denial of admission, unlawful expulsion, refoulement, unjustified detention, other threats to their personal security, dignity and well-being and failure to respect and ensure their fundamental freedoms and human rights,
