Committee against Torture

List of issues prior to the submission of the seventh periodic report of Mexico due in 2016*

At its thirty-eighth session (A/62/44, paras. 23 and 24), the Committee against Torture established a new optional procedure, consisting of the preparation and adoption of a list of issues to be transmitted to the State party concerned prior to the submission of its periodic report. The replies of the State party to this list of issues will constitute its report under article 19 of the Convention.

Specific information on the implementation of articles 1 to 16 of the Convention, including with regard to the Committee's previous recommendations¹

Articles 1 and 4

1. With reference to the Committee's previous concluding observations (CAT/C/MEX/CO/5-6, para. 8), please provide updated information on the measures taken by the State party to define and punish the offence of torture in its criminal legislation, both at the federal level and in each of the federal entities, in accordance with the provisions of articles 1 and 4 of the Convention.² If such measures have not yet been adopted, please explain why.

* Approved by the Committee at its fifty-second session (28 April to 23 May 2014).

¹ Paragraph numbers in parentheses refer to the previous concluding observations adopted by the Committee (CAT/C/MEX/CO/5-6).

² A/HRC/WG.6/17/MEX/1 and Corr.1, para. 82; A/HRC/WG.6/17/MEX/3, paras. 7, 25 and 26; CAT/C/MEX/CO/5-6/Add.1, para. 43.

Article 2³

2. In accordance with the recommendations made by the Committee in its previous concluding observations (paras. 9 and 10), please provide updated information on measures taken to ensure that all persons deprived of their liberty have the benefit, in practice and from the outset of their detention, of all fundamental legal safeguards, including the right to access a lawyer, to have an independent medical examination, to promptly notify a family member or third party of their detention, to be brought before a judge without delay and to challenge the lawfulness of their detention.⁴ Do persons deprived of their liberty enjoy access to free legal assistance if they require it? Please also indicate the measures that have been adopted to ensure that detention registers are rigorously maintained.⁵ What measures have been put in place to restrict the use of arrest in flagrante delicto to the exact time when an offence is being committed and put an end to the use of arrest in quasi-flagrante delicto? Please provide information on the measures taken to ensure the proper identification of members of the security forces and their vehicles.

3. With regard to the previous concluding observations (para. 17), please provide information on the measures adopted to ensure that medical examinations of detainees are thorough and impartial. What measures have been taken to ensure that medical experts conducting examinations use forms that are in line with annex IV of the Manual on the Effective Investigation and Documentation of Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (the Istanbul Protocol) and which include the experts' interpretation of their findings?⁶

4. Please provide information on the measures taken by the State party to support the operation of the National Human Rights Commission as the national mechanism for the prevention of torture. Has the possibility of increasing the mechanism's staffing been considered? Please provide information on actions taken by the State party in response to the recommendations issued by the mechanism for the prevention of torture.⁷

5. With reference to the Committee's previous concluding observations (para. 13), please provide data, disaggregated by age and ethnic origin or nationality of the victim, on the number of complaints, investigations, convictions and sentences handed down for gender-based violence, including domestic violence and femicide, since the consideration of the combined fifth and sixth periodic reports in November 2012. Please also provide information on any measures adopted, including legislative measures, to address the concerns expressed by the Committee in relation to impunity for such offences and the inadequate application of the legal framework by many states.⁸

³ The issues raised under article 2 may also relate to other articles of the Convention, such as article 16. As indicated in paragraph 3 of general comment No. 2 (2007), on the implementation of article 2 by States parties, "The obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment (hereinafter 'ill-treatment') under article 16, paragraph 1, are indivisible, interdependent and interrelated. The obligation to prevent ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. [...] In practice, the definitional threshold between ill-treatment and torture is often not clear." See also chapter V of the general comment.
