Committee against Torture

List of issues prior to submission of the fifth periodic report of Cameroon*

The Committee against Torture, at its thirty-eighth session (A/62/44, paras. 23 and 24), established an optional procedure which consists in the preparation and adoption of a list of issues to be transmitted to the State party concerned prior to the submission of its periodic report. The replies of the State party to this list of issues will constitute its report under article 19 of the Convention.

Specific information on the implementation of articles 1 to 16 of the Convention, including with regard to the Committee's previous recommendations¹

Articles 1 and 4

1. With reference to the Committee's previous concluding observations (para. 10), please provide detailed information on the measures taken to adopt a definition of torture in domestic criminal law that is consistent with article 1 of the Convention and to ensure that the penalties for torture are commensurate with the gravity of the acts committed.

Article 2²

2. In the light of the Committee's previous concluding observations (para. 11), please provide information on the measures taken by the State party and on the procedures in force to ensure that:

* Adopted by the Committee at its fifty-fourth session (20 April-15 May 2015).

¹ The paragraph numbers in brackets refer to the Committee's previous concluding observations, issued under symbol CAT/C/CMR/CO/4.

² The issues raised under article 2 could also be relevant to other articles of the Convention, such as article 16. As stated in paragraph 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, "the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment (hereinafter 'ill-treatment') under article 16, paragraph 1, are indivisible, interdependent and interrelated. The obligation to prevent ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. [...] In practice, the definitional threshold between ill-treatment and torture is often not clear." See also section V of the same general comment.

(a) All detainees enjoy in practice all legal safeguards from the outset of their deprivation of liberty, in particular the rights to have access to a lawyer, to be examined by an independent physician of their choice, to be informed of their rights and of the charges against them, to notify a relative and to be brought promptly before a judge;³

(b) Detention registers are kept scrupulously up to date;

(c) Legal aid is available for the most disadvantaged, regardless of the sentences they face.⁴

3. In its previous concluding observations (para. 13), the Committee expressed its concern that a writ of habeas corpus must be accompanied by an order of release from the State prosecutor. Please indicate whether the provisions of the Code of Criminal Procedure have been amended in this regard.

4. Please provide detailed information on the measures adopted to guarantee the full independence and impartiality of judges and prosecutors, by ensuring, inter alia, that appointments are made according to objective criteria. Please include information on the appointments procedure for judges and the regulations that govern their tenure and the procedure by which they can be dismissed.⁵

5. Please indicate what steps have been taken to guarantee the independence of the National Commission on Human Rights and Freedoms from the executive branch, for instance by ensuring that it has an adequate budget for the performance of its duties.⁶

6. Taking into account the Committee's previous concluding observations (para. 29), please describe the legislative and other measures taken to prohibit female genital mutilation and other harmful traditional practices, in particular breast ironing, the stigmatization of widows, widowhood rites and the kidnapping of children for magico-religious practices.⁷ Please also include information on the progress made in implementing the National Plan of Action to Combat Female Genital Mutilation and the National Programme on Reproductive Health, which covers, inter alia, the elimination of harmful traditional practices.⁸ Please also provide updated statistics on complaints, investigations, prosecutions, convictions and sentences imposed on perpetrators of criminal conduct related to harmful traditional practices, as well as on assistance and compensation provided to victims.

7. In the light of the Committee's previous concluding observations (para. 30), please provide information on legislative and other measures taken to combat and punish all forms of violence against women, including domestic violence and rape, marital or otherwise.⁹ In this regard, please indicate whether the State party is considering repealing the provision that provides for exoneration from the crime of rape if the victim agrees to marry the perpetrator.¹⁰ Please also include information on the progress made in implementing the National Strategy to Combat Violence against
