---

<sup>2</sup> The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in para. 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.
