**Report of Malaysia on the implementation of Security Council
resolutions concerning the Democratic People's Republic of Korea**

Introduction

As a Member State of the United Nations, Malaysia is fully committed to comply and implement all relevant operative provisions of Security Council resolutions 1718 (2006), 1874 (2009), 2087 (2013) and 2094 (2013). Malaysia considers these resolutions a clear manifestation of the international community's unequivocal rejection of the proliferation of nuclear weapons and their delivery systems by the Democratic People's Republic of Korea. Malaysia is committed to ensuring that appropriate measures are taken to implement these resolutions and will continue to cooperate with the international community to prevent any acts that could contribute to the nuclear or ballistic missile programmes of the Democratic People's Republic of Korea.

Malaysia reaffirms that the illicit development and procurement of weapons of mass destruction and related technologies and capabilities by any State is unacceptable and contrary to international law. Such activities undermine the international community's resolve and commitment to peaceful relations among States and to the peaceful resolution of conflict.
