Africa’s development needs adopted at the high-level meeting held at United Nations Headquarters on 22 September 2008, 10 and noting the relevant decisions of African Union summits related to the New Partnership for Africa’s Development, including the conclusions of the African Union Extraordinary Summit on Employment and Poverty Alleviation in Africa, held in Ouagadougou on 8 and 9 September 2004,

Reaffirming General Assembly resolution 70/1 of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which the Assembly adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets and affirmed its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions – economic, social and environmental – in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming also General Assembly resolution 69/313 of 27 July 2015, containing the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity,

Recalling the fourth session of the African Union Conference of Ministers of Social Development, on the theme “Strengthening the African family for inclusive development in Africa”, held in Addis Ababa from 26 to 30 May 2014, and the first session of the Specialized Technical Committee on Social Development, Labour and Employment, on the theme “Social protection for inclusive development”, held in Addis Ababa from 20 to 24 April 2015, recalling in this regard the African Common Position on Social Integration and the Social Policy Framework for Africa, both of which were endorsed by the Heads of State and Government of the African Union in February 2009, as well as the African Common Position on Good Practices in Family Policy Development and Implementation for the twentieth anniversary of the International Year of the Family (2014) and the renewed Continental Plan of Action on the African Decade of Persons with Disabilities (2010–2019), which were endorsed by the Heads of State and Government of the African Union in January 2013, and noting the adoption of the Protocol to the African Charter on Human and Peoples’ Rights on the Rights of Older Persons in Africa in January 2016,

Acknowledging the importance of supporting Agenda 2063 of the African Union and the programme of the New Partnership for Africa’s Development, both of which are integral to the 2030 Agenda for Sustainable Development and offer an important opportunity for Africa to achieve inclusive and transformative development, and underscoring in this regard the importance of a coherent and coordinated implementation of Agenda 2063 and the 2030 Agenda,
Noting with appreciation the Programme for Infrastructure Development in Africa adopted by the African Union, which calls for the creation of an enabling environment for adequate investments and the adoption of the sector reforms aimed at promoting economic and social development and reducing poverty on the continent through the implementation of integrated regional infrastructure networks,

Recalling the ministerial statement on the theme “Towards an integrated and coherent approach to the implementation, monitoring and evaluation of Agenda 2063 and the Sustainable Development Goals”, adopted by the African Union Specialized Technical Committee on Finance, Monetary Affairs, Economic Planning and Integration and the Economic Commission for Africa Conference of African Ministers of Finance, Planning and Economic Development at their ninth joint meeting, held in Addis Ababa on 4 and 5 April 2016,

Noting with concern the continued prevalence of child, early and forced marriage, as well as violence and other harmful practices against children, including female genital mutilation, and welcoming in this regard the Africa-wide campaign to end child marriage in Africa, launched at the Conference of Ministers of Social Development held in Addis Ababa from 26 to 30 May 2014, and the endorsement by the Pan-African Parliament in August 2016 of the ban on female genital mutilation,

Concerned about addressing the effects of the world financial and economic crisis so as to avoid its recurrence and to continue to promote global economic stability and the underlying institutional reforms required to ensure sustained, inclusive and equitable global economic growth for the benefit of all countries,

Expressing concern about the adverse impact of the continuing fragility and slowdown of global growth and trade, including on development, cognizant that the global economy remains in a challenging phase, with many downside risks, including capital outflows from some emerging and developing economies, continued low commodity prices, high unemployment, particularly among young people, and rising private and public indebtedness in many developing countries, and stressing the need for continuing efforts to address systemic fragilities and imbalances and to reform and strengthen the international financial system while implementing the reforms agreed upon to date, to address these challenges and to make progress towards sustaining global demand, reaffirming the need to continue to support the special needs of Africa and to take action to mitigate the multidimensional impacts of the crisis on the continent,

Noting that Africa is abundantly endowed with natural resources, including many industrial minerals and agricultural resources that are exported mainly in primary form, and that the exploitation of the natural resources sector in Africa has for many years attracted foreign direct investment in capital-intensive enclave sectors that has the potential, when paired with appropriate policies, including employment-intensive policies, to spur structural transformation, create employment, contribute to poverty eradication and reduce inequality,

Emphasizing that the African Union and the regional economic communities have a critical role to play in the implementation of the New Partnership for Africa’s Development, and in this regard encouraging African countries, with the assistance of their development partners, to increase and coordinate effectively their support for enhancing the capacities of these institutions and to promote regional cooperation and social and economic integration in Africa,

---

11 A/57/304, annex.
Recognizing the regional coordination mechanism of United Nations agencies and organizations working in Africa in support of the African Union and its New Partnership for Africa’s Development Programme of Action, as well as the Planning and Coordinating Agency of the New Partnership as a technical body of the African Union, which aims to ensure coordination and coherence in the delivery of support for greater effectiveness and impact through increased joint programming and joint implementation of activities,

Recognizing also that capacity-building, knowledge-sharing and best practices are essential for the successful implementation of the New Partnership, and recognizing further the need for continued support from the international community, partners of the New Partnership and United Nations agencies to continue to work towards sustained, inclusive, equitable and sustainable economic growth, shared prosperity and decent work for all, and development on the African continent and for greater synergy and effective coordination between the New Partnership and the international initiatives related to Africa, and emphasizing the importance of the close collaboration of the African Union Commission and the United Nations as the co-organizers of the Tokyo International Conference on African Development, and recalling the sixth Tokyo International Conference on African Development and its outcome documents, the Nairobi Declaration and the Nairobi Implementation Plan, and the Johannesburg Summit of the Forum on China-Africa Cooperation and its outcome documents, the Declaration of the Johannesburg Summit of the Forum on China-Africa Cooperation and the Forum on China-Africa Cooperation Johannesburg Action Plan (2016–2018),

Recognizing further that investments in people, especially their social protection, health, inclusive and equitable quality education, and lifelong learning opportunities for all, are essential to enhancing agricultural productivity and performance, and thereby key to sustainable and equitable growth and poverty reduction, through increasing decent job creation and employability opportunities for all, especially for women and youth, improving food security and nutrition and building resilience,

Recognizing that gender equality and the empowerment of women and girls will make a crucial contribution to progress across all the Sustainable Development Goals and targets and that the systematic mainstreaming of a gender perspective in the implementation of the 2030 Agenda for Sustainable Development is crucial,

Recognizing also that the lack of access to drinking water and proper sanitation contributes to slow progress in reducing Africa’s disease burden, particularly among the poorest populations, in both rural and urban areas, and conscious of the impact of the lack of sanitation on people’s health, poverty reduction efforts, economic and social development and the environment, in particular water resources,

Noting with appreciation that the Heavily Indebted Poor Countries Initiative, the Multilateral Debt Relief Initiative and bilateral donors have provided substantial debt relief to 36 countries, 30 of which are in Africa, that have reached the completion point under the Heavily Indebted Poor Countries Initiative, which has considerably reduced their debt vulnerability and enabled them to increase their investments in social services,

Bearing in mind that African countries have primary responsibility for their own economic and social development, that the role of national policies and development strategies cannot be overemphasized and that the development efforts of such countries need to be supported by an enabling international economic
environment, and in this regard recalling the support given by the International Conference on Financing for Development to the New Partnership,\(^{12}\)

Noting other relevant forums, such as the Global Partnership for Effective Development Cooperation and its first high-level meeting, on the theme “Building towards an inclusive post-2015 development agenda”, held in Mexico City on 15 and 16 April 2014, and its second high-level meeting, held in Nairobi from 28 November to 1 December 2016, during which existing and new development actors committed to effective development cooperation as a means of achieving the universal and interrelated Sustainable Development Goals,

13. *Encourages* African countries to prioritize investments in building the institutional capacity of health systems, reduce health inequities within and across countries, progressively achieve universal health coverage and curb the outbreak of major diseases;

14. *Invites* development partners to continue to assist African countries in their efforts to strengthen national health systems, including by providing skilled health personnel, reliable health information and data, research infrastructure and laboratory capacity, and to expand surveillance systems in the health sector, including by providing support for the efforts to prevent, protect against and combat outbreaks of disease, including outbreaks of neglected tropical diseases, and in this context reiterates its support for the Kampala Declaration and Agenda for Global Action and follow-up conferences to respond to the serious health workforce crisis in Africa;

21. **Emphasizes** that economic development, including employment-intensive resource-based industrial development, with due regard to the sustainable management and use of natural resources, infrastructural development and structural transformation, in particular in the rural economy, based on pragmatic and targeted policies to enhance productive capacities in Africa that are consistent with national development priorities and international commitments, can generate employment and income for all African men and women, including the poor, and therefore be an engine for poverty eradication and for achieving the internationally agreed development goals, including the Sustainable Development Goals;

25. *Recognizes* that, while social development is primarily the responsibility of Governments, international cooperation and assistance are essential for the full achievement of that goal, and calls upon the international community to continue to support the resolution of challenges faced by developing countries, especially the least developed countries, including in Africa, to independently achieving sustainable development;

the African Union at its twenty-fifth ordinary session, held in Johannesburg, South Africa, on 14 and 15 June 2015.\footnote{14}

30. \textit{Underlines} the importance for African Governments to build the productive capacity of agriculture, as a top priority, in order to increase rural incomes and ensure access to food for net food buyers, and stresses that greater efforts should be made to promote and implement sustainable agriculture, increase access for smallholder farmers, in particular women, to necessary agricultural resources, including productive assets, and improve access to infrastructure, information and markets, and that, furthermore, efforts should be made to promote small and medium-sized enterprises that contribute to job growth and increase incomes along the agricultural value stream;

31. \textit{Urges} African Governments, within the framework of the Comprehensive Africa Agriculture Development Programme, to expand investment financing to agriculture to at least 10 per cent of the annual budget of the national public sector while at the same time ensuring necessary action in policy and institutional reforms for enhanced performance of the agriculture industry and systems;

38. *Recognizes* that improving access to school for all girls and boys, especially the poorest and most vulnerable and marginalized, and their ability to receive a quality education, and improving the quality of education beyond primary school can have a positive impact in terms of empowerment and on social, economic and political participation and thus on the fight against poverty and hunger and can contribute directly to achieving the internationally agreed development goals, including the Sustainable Development Goals;

39. *Also recognizes* that Africa’s youthful population creates significant opportunities for the continent’s development, and underlines in this regard the importance of African countries creating appropriate policy environments, in collaboration with the United Nations system, in order to realize a demographic dividend driven by large proportions of young people moving into their prime working years, while adopting an inclusive results-based approach to development planning and implementation in accordance with national priorities and legislation;

40. *Encourages* Governments, international organizations, other relevant institutions and stakeholders, as appropriate, to provide relevant skills training for

43. Recognizes the need for Governments and the international community to continue to make efforts to increase the flow of new and additional resources for financing for sustainable development from all sources, public and private, domestic and foreign, to support the development of African countries, and welcomes the various important initiatives established between African countries and their development partners in this regard;

44. Acknowledges the activities of the Bretton Woods institutions and the African Development Bank in African countries, and invites those institutions to continue their support for the implementation of the priorities and objectives of the New Partnership;
