Seven-fifth session
Agenda item 101

Prevention of an arms race in outer space

Report of the First Committee

Rapporteur: Ms. María del Rosario Estrada Girón (Guatemala)

I. Introduction

1. At its 2nd plenary meeting, on 18 September 2020, the General Assembly, on the recommendation of the General Committee, decided to include in the agenda of its seventy-fifth session the item entitled:

   “Prevention of an arms race in outer space:
   (a) Prevention of an arms race in outer space;
   (b) No first placement of weapons in outer space;
   (c) Further practical measures for the prevention of an arms race in outer space”

   and to allocate it to the First Committee.

2. At its 1st meeting, on 6 October 2020, the First Committee, taking into consideration the physical distancing guidelines and constraints related to the coronavirus disease (COVID-19) pandemic, which prevented the Committee from organizing a full-fledged session, decided, on an exceptional basis and without setting a precedent, to convene in-person and virtual meetings and to conduct its work in two phases: the first phase would be a general debate on all disarmament and international security items allocated to it, namely items 94 to 110, and the second phase would be action on all draft proposals. In the absence of thematic discussions, the Committee also decided to convene three virtual informal meetings of two hours each for interactive dialogues on specific subjects.

3. At its 2nd to 10th meetings, on 9 and 12, from 14 to 16 and on 19 October, the Committee held a general debate, during which draft resolutions and decisions were introduced. On 13, 26 and 30 October, the Committee held virtual meetings for exchanges with the High Representative for Disarmament Affairs, civil society, and independent experts and other high-level officials nominated by the regional groups.
The Committee took action on all draft resolutions and decisions at its 11th to 15th meetings, on 3, 4, 6, 9 and 10 November.¹

4. For its consideration of the item, the Committee had before it the report of the Conference on Disarmament (A/75/27).

II. Consideration of proposals

A. Draft resolution A/C.1/75/L.3

5. On 5 October, the delegations of Egypt and Sri Lanka, on behalf of Algeria, Bangladesh, China, Cuba, Ecuador, Egypt, India, Kazakhstan, Kyrgyzstan, Libya, Malawi, Malaysia, Mongolia, Myanmar, Nepal, Nicaragua, Nigeria, Saoa, Sri Lanka, the Syrian Arab Republic and Venezuela (Bolivarian Republic of), submitted a draft resolution entitled “Prevention of an arms race in outer space” (A/C.1/75/L.3). Subsequently, Armenia, Brazil, the Central African Republic, Eritrea, Eswatini, Indonesia, Iraq, Kenya, Namibia, Pakistan, the Russian Federation, Suriname, Thailand and Uruguay joined in sponsoring the draft resolution.

III. Recommendations of the First Committee

15. The First Committee recommends to the General Assembly the adoption of the following draft resolutions:

Draft resolution I
Prevention of an arms race in outer space

The General Assembly,

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,\(^1\)

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,\(^2\) in which it is stated that, in order to prevent an arms race in outer space, further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, the most recent of which is resolution 74/32 of 12 December 2019, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space, and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

---

\(^2\) Resolution S-10/2.
Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992, 3

Emphasizing the mutually complementary nature of bilateral and multilateral efforts for the prevention of an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling, in this context, its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Conference on Disarmament and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

Noting with satisfaction the constructive, structured and focused debate on the prevention of an arms race in outer space at the Conference on Disarmament each year from 2009 to 2019,

Noting the introduction by China and the Russian Federation at the Conference on Disarmament of the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects in 2008 and the submission of its updated version in 2014, 4

Recalling the comprehensive and substantive discussions of the Group of Governmental Experts that was convened in 2018 and 2019 pursuant to its resolution 72/250 of 24 December 2017,

Taking note of the decision of the Conference on Disarmament to establish for its 2009 session a working group to discuss, substantially, without limitation, all issues related to the prevention of an arms race in outer space, and the decision to establish for its 2018 session a subsidiary body on the prevention of an arms race in outer space,

1. Reaffirms the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;

2. Reaffirms its recognition, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable

to outer space by itself does not guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. **Emphasizes** the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. **Calls upon** all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. **Reiterates** that the Conference on Disarmament, as the sole multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. **Invites** the Conference on Disarmament to establish a working group under its agenda item entitled “Prevention of an arms race in outer space” as early as possible;

7. **Recognizes**, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the peaceful uses of outer space, without prejudice to efforts towards the conclusion of an effective and verifiable multilateral agreement or agreements on the prevention of an arms race in outer space;

8. **Urges** States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

9. **Decides** to include in the provisional agenda of its seventy-sixth session the item entitled “Prevention of an arms race in outer space”.
Draft resolution II

Reducing space threats through norms, rules and principles of responsible behaviours

The General Assembly,

Reaffirming the applicability of international law, including the Charter of the United Nations, to activities in outer space and the right of all States to explore and use outer space without discrimination of any kind, on a basis of equality and in accordance with such law,

Recalling its resolutions 68/50 of 5 December 2013 and 74/32 of 12 December 2019,

Emphasizing the importance of maintaining outer space as a peaceful, safe, stable, secure and sustainable environment for the benefit of all and the significant contribution of outer space activities to social, economic, scientific and technological development, as well as to international peace and security,

Reaffirming the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,1 and the obligations for States parties to the Treaty to explore and use outer space for the benefit and in the interests of all countries, and to be guided by the principle of cooperation and mutual assistance,

Welcoming the recent adoption by the Committee on the Peaceful Uses of Outer Space at its sixty-second session of the Guidelines for the Long-term Sustainability of Outer Space Activities,2 the implementation of which may have a positive effect on international peace and security,

Urging all States, when developing, planning and executing their space activities, to remain committed to the peaceful exploration and use of outer space and to refrain from conducting activities contrary to their obligations under international law, including those that could threaten the ability of all States to freely use and explore outer space, now and in the future,

Stressing that the creation of long-lived orbital debris arising from the deliberate destruction of space systems increases the risk of in-orbit collisions and the potential for misunderstanding and miscalculations that could lead to conflict,

Reaffirming that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

Recalling the primary role of the Conference on Disarmament on questions relating to the prevention of an arms race in outer space in all its aspects, including the weaponization of outer space and threats from capabilities on Earth, and the relevant responsibilities of the First Committee of the General Assembly and the Disarmament Commission,

Noting the rapid advances of technologies in space systems, the use of which could have positive or negative effects on international security, and seeking to understand how States behave in the light of these developments,

2 Official Records of the General Assembly, Seventy-fourth Session, Supplement No. 20 (A/74/20), annex II.
Recognizing that efforts to prevent an arms race and to prevent conflict from beginning in or extending into outer space must include consideration of the use of all potential technologies and means, whether on Earth or in outer space,

Stressing that uses of these technologies and means for purposes inconsistent with the objectives of maintaining international stability and security, including against signals for operators and users and the terrestrial infrastructure supporting space systems, can lead to the perception of threats and can have destabilizing effects on peace and security on Earth, and that such threats already exist in outer space and on Earth,

Recognizing the need for States to seek to avoid and mitigate the potential impact on peace and security arising from accidents, miscommunication or a lack of transparency, which could lead to miscalculations and the escalation of tensions and contribute to an arms race,

Cognizant of the challenges of effectively verifying the capabilities of space objects, which can have both civilian and military applications, interpreting their behaviour or determining whether the systems will be used for purposes inconsistent with the objectives of maintaining international security and stability, while reaffirming that verification is one of the essential components of all arms control instruments,

Noting the need for all States to work together to reduce threats to space systems through the further development and implementation of norms, rules and principles of responsible behaviours with the aim of maintaining a peaceful, safe, stable, secure and sustainable outer space environment, which might, as appropriate and without prejudice, contribute to further consideration of legally binding instruments in this area,

Recognizing the importance of the full involvement and equal participation of women and men in discussions on reducing space threats through responsible behaviours and the need to assess the possible differentiated impacts of such threats,

1. Affirms that all States must conduct their activities in the exploration and use of outer space, including the Moon and other celestial bodies, in conformity with international law, including the Charter of the United Nations, and urges Member States to take this into account when formulating their space policies;

2. Encourages those States that have not yet become parties to the international treaties governing the exploration and use of outer space to give consideration to ratifying or acceding to those treaties in accordance with their national law, as well as incorporating them into their national legislation;

3. Expresses the desire that all Member States reach a common understanding of how best to act to reduce threats to space systems in order to maintain outer space as a peaceful, safe, stable and sustainable environment, free from an arms race and conflict, for the benefit of all, and consider establishing channels of direct communication for the management of perceptions of threat;

4. Invites States members and observers of the Conference on Disarmament and the Disarmament Commission to inform those bodies of their national space security policies, strategies or doctrines, on a voluntary basis, in accordance with and in support of the mandates of those bodies;

5. Encourages Member States to study existing and potential threats and security risks to space systems, including those arising from actions, activities or systems in outer space or on Earth, characterize actions and activities that could be considered responsible, irresponsible or threatening and their potential impact on international security, and share their ideas on the further development and
implementation of norms, rules and principles of responsible behaviours and on the reduction of the risks of misunderstanding and miscalculations with respect to outer space;

6. 

Requests the Secretary-General, within existing resources, to seek the views of Member States on the issues referred to in the foregoing paragraph and to submit a substantive report, with an annex containing these views, to the General Assembly at its seventy-sixth session, for further discussion by Member States;

7. 

Decides to include in the provisional agenda of its seventy-sixth session, under the item entitled “Prevention of an arms race in outer space”, a sub-item entitled, “Reducing space threats through norms, rules and principles of responsible behaviours”.
Draft resolution III
No first placement of weapons in outer space

The General Assembly,

Recalling its resolutions 69/32 of 2 December 2014, 70/27 of 7 December 2015, 71/32 of 5 December 2016, 72/27 of 4 December 2017, 73/31 of 5 December 2018 and 74/33 of 12 December 2019, and its resolutions 45/55 B of 4 December 1990 and 48/74 B of 16 December 1993, which, inter alia, confirm the importance of transparency and confidence-building measures as a means conducive to ensuring the attainment of the objective of preventing an arms race in outer space,

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Seriously concerned about the possibility of an arms race in outer space and of outer space turning into an arena for military confrontation, and bearing in mind the importance of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,

Conscious that the prevention of an arms race in outer space would avert a grave danger to international peace and security,

Reaffirming that practical measures should be examined and taken in the search for agreements to prevent an arms race in outer space in a common effort towards a community of shared future for humankind,

Emphasizing the paramount importance of strict compliance with the existing legal regime providing for the peaceful use of outer space,

Reaffirming its recognition that the legal regime applicable to outer space by itself does not guarantee prevention of an arms race in outer space and that there is a need to consolidate and reinforce that regime,

Convinced that such measures could critically improve conditions for efficiently addressing the threat of an arms race in outer space, including the placement of weapons in outer space,

Welcoming, in this regard, the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008, and the submission of its updated version in 2014,

Considering that transparency and confidence-building measures in outer space activities are an integral part of the draft treaty referred to above,

Stressing the importance of the political statements made by a number of States that they would not be the first to place weapons in outer space,

1. Reaffirms the importance and urgency of the objective of preventing an arms race in outer space and the willingness of States to contribute to reaching this common goal;

2 See CD/1839.
4 Argentina, Armenia, Belarus, Bolivia (Plurinational State of), Brazil, Burundi, Cambodia, Cuba, Ecuador, Guatemala, Indonesia, Kazakhstan, Kyrgyzstan, Nicaragua, Pakistan, Russian Federation, Sri Lanka, Suriname, Tajikistan, Uruguay, Uzbekistan, Venezuela (Bolivarian Republic of) and Viet Nam.
2. *Reiterates* that the Conference on Disarmament, as the single multilateral negotiating forum on this subject,\(^5\) has the primary role in the negotiation of a multilateral agreement, or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

3. *Urges* an early commencement of substantive work based on the updated draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008, under the agenda item entitled “Prevention of an arms race in outer space”;

4. *Stresses* that, while such an agreement is not yet concluded, other measures may contribute to ensuring that weapons are not placed in outer space;

5. *Encourages* all States, especially spacefaring nations, to consider the possibility of upholding, as appropriate, a political commitment not to be the first to place weapons in outer space;

6. *Decides* to include in the provisional agenda of its seventy-sixth session, under the item entitled “Prevention of an arms race in outer space”, the sub-item entitled “No first placement of weapons in outer space”.

---

\(^5\) See resolution S-10/2.
16. The First Committee recommends to the General Assembly the adoption of the following draft decision:

**Further practical measures for the prevention of an arms race in outer space**

The General Assembly, recalling its resolution 74/34 of 12 December 2019 and other resolutions on this matter, decides to include in the provisional agenda of its seventy-sixth session, under the item entitled “Prevention of an arms race in outer space”, the sub-item entitled “Further practical measures for the prevention of an arms race in outer space”.
