Seventy-fifth session
Agenda item 102

Role of science and technology in the context of
international security and disarmament

Report of the First Committee

Rapporteur: Ms. María del Rosario Estrada Girón (Guatemala)

I. Introduction

1. At its 2nd plenary meeting, on 18 September 2020, the General Assembly, on the
recommendation of the General Committee, decided to include in the agenda of its
seventy-fifth session the item entitled “Role of science and technology in the context
of international security and disarmament” and to allocate it to the First Committee.

2. At its 1st meeting, on 6 October 2020, the First Committee, taking into
consideration the physical distancing guidelines and constraints related to the
coronavirus disease (COVID-19) pandemic, which prevented the Committee from
organizing a full-fledged session, decided, on an exceptional basis and without setting
a precedent, to convene in-person and virtual meetings and to conduct its work in two
phases: the first phase would be a general debate on all disarmament and international
security items allocated to it, namely items 94 to 110, and the second phase would be
action on all draft proposals. In the absence of thematic discussions, the Committee
also decided to convene three virtual informal meetings of two hours each for
interactive dialogues on specific subjects.

3. At its 2nd to 10th meetings, on 9 and 12, from 14 to 16 and on 19 October, the
Committee held a general debate, during which draft resolutions and decisions were
introduced. On 13, 26 and 30 October, the Committee held virtual meetings for
exchanges with the High Representative for Disarmament Affairs, civil society, and
independent experts and other high-level officials nominated by the regional groups.
The Committee took action on all draft resolutions and decisions at its 11th to
15th meetings, on 3, 4, 6, 9 and 10 November.\(^1\)

---

\(^1\) For an account of the Committee’s discussion of the item, see A/C.1/75/PV.2, A/C.1/75/PV.3,
A/C.1/75/PV.4, A/C.1/75/PV.5, A/C.1/75/PV.6, A/C.1/75/PV.7, A/C.1/75/PV.8, A/C.1/75/PV.9,
A/C.1/75/PV.10, A/C.1/75/PV.11, A/C.1/75/PV.12, A/C.1/75/PV.13, A/C.1/75/PV.14 and
A/C.1/75/PV.15, as well as A/C.1/75/INF/5.
4. For its consideration of the item, the Committee had before it the report of the Secretary-General on current developments in science and technology and their potential impact on international security and disarmament efforts (A/75/221).

II. Consideration of draft resolution A/C.1/75/L.33

5. On 9 October, the delegation of India, on behalf of Australia, Bangladesh, Bhutan, Brazil, Canada, Croatia, Finland, Germany, India, Italy, Kazakhstan, Kyrgyzstan, Malawi, Mauritius, the Netherlands, North Macedonia, Norway, the Republic of Moldova, Singapore, Spain and Sweden, submitted a draft resolution entitled “Role of science and technology in the context of international security and disarmament” (A/C.1/75/L.33). Subsequently, Japan, Maldives, Malta, Montenegro, Paraguay, Portugal, the Republic of Korea, Slovenia, Switzerland and Zambia joined in sponsoring the draft resolution.

6. At its 14th meeting, on 9 November, the Committee adopted draft resolution A/C.1/75/L.33 without a vote (see para. 7).
III. Recommendation of the First Committee

7. The First Committee recommends to the General Assembly the adoption of the following draft resolution:

**Role of science and technology in the context of international security and disarmament**

*The General Assembly,*

*Recognizing* that scientific and technological developments can have both civilian and military applications and that progress in science and technology for civilian applications needs to be maintained and encouraged,

*Underlining* the keen interest of the international community to keep abreast of the latest developments in science and technology of relevance to international security and disarmament and to channel scientific and technological developments for beneficial purposes,

*Mindful* of the need to regulate the transfer of technologies for peaceful uses, in accordance with relevant international obligations, to address the risk of proliferation by States or non-State actors,

*Acknowledging* the need to continue the exchange of technologies for peaceful uses, including in accordance with relevant international obligations,

*Mindful* of the rights of States, reflected in relevant international agreements, regarding the development, production, transfer and use of technologies for peaceful purposes, in accordance with relevant international obligations, as well as the need for all Member States to fulfil their obligations in relation to arms control and disarmament and to prevent proliferation in all its aspects of all weapons of mass destruction and their means of delivery,

*Cognizant* of the discussions on developments in science and technology at the International Atomic Energy Agency and the Organisation for the Prohibition of Chemical Weapons and within the meetings of experts on science and technology under the 2018–2020 intersessional programme established by the 2017 Meeting of the States Parties to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,

*Cognizant also* of the discussions in the Conference on Disarmament in 2018 under its subsidiary body 5,

*Mindful* of the discussions in other forums, such as the Committee on the Peaceful Uses of Outer Space, on the long-term sustainability of outer space activities and on the prevention of an arms race in outer space in the United Nations disarmament machinery,

*Noting* the discussions on various dimensions of emerging technologies under the framework of the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,¹ and recalling the discussions and progress made by the Group of Governmental Experts on lethal autonomous weapons systems during its 2018 and 2019 sessions,

---

Noting also the discussions within the United Nations and the specialized agencies on developments in the field of information and communications technologies, including in the context of international security,

Acknowledging that the accelerating pace of technological change necessitates a system-wide assessment of the potential impact of developments in science and technology on international security and disarmament, with due regard to avoiding duplication and complementing efforts already under way in United Nations entities and in the framework of the relevant international conventions,

Noting the discussions on current developments in science and technology and their potential impact on international security and disarmament efforts in the Advisory Board on Disarmament Matters,

1. Invites Member States to continue efforts to apply developments in science and technology for disarmament-related purposes, including the verification of disarmament, arms control and non-proliferation instruments, and to make disarmament-related technologies available to interested States;

2. Calls upon Member States to remain vigilant in understanding new and emerging developments in science and technology that could imperil international security, and underlines the importance of Member States engaging with experts from industry, the research community and civil society in addressing this challenge;

3. Takes note of the updated report of the Secretary-General on current developments in science and technology and their potential impact on international security and disarmament efforts;¹

4. Requests the Secretary-General to submit to the General Assembly at its seventy-sixth session an updated report on the matter;

5. Encourages the Advisory Board on Disarmament Matters to continue its discussions on current developments in science and technology and their potential impact on international security and disarmament efforts;

6. Encourages Member States to organize events such as conferences, seminars, workshops and exhibitions, at the national, regional and international levels, on the role of science and technology in the context of international security and disarmament, in order to facilitate multilateral dialogue, as well as dialogue among relevant stakeholders, on current developments in science and technology and their potential impact on international security and disarmament efforts;

7. Decides to include in the provisional agenda of its seventy-sixth session the item entitled “Role of science and technology in the context of international security and disarmament”.

¹ A/75/221.
