Report of Mexico on the implementation of Security Council resolution 2048 (2012)

As part of national efforts to effectively implement the sanctions regime concerning Guinea-Bissau, the Ministry of Foreign Affairs has provided the relevant agencies with timely notification of the amendments made to the sanctions list of the Security Council Committee established pursuant to resolution 2048 (2012).

The following steps have been taken to implement the sanctions regime of the Security Council Committee established pursuant to resolution 2048 (2012), as part of the efforts of the Specialized High-level Committee on Disarmament, Terrorism and International Security:

- The Ministry of Defence notifies its various internal bodies of amendments to the Committee's sanctions list so that they can collaborate with federal agencies when the Ministry's intervention is required.
- The Ministry of Communications and Transport has reported that the lists of individuals and entities subject to the assets freeze, travel ban and arms embargo are periodically transmitted to the Merchant Navy, the Mexican Chamber of the Maritime Transport Industry, the Mexican Association of Cargo Agents, the Mexican Association of Tugowners and the Mexican Association of Shipping Agents, so that the maritime community and its members can be advised to take appropriate measures to further strengthen cooperation and the implementation of the sanctions regime in all its aspects and within the scope of their competence.
