Seventy-sixth session
Agenda item 20 (h)

Sustainable development: education for sustainable development

Report of the Second Committee*

Rapporteur: Ms. Pratha Uprety (Nepal)

I. Introduction

1. The Second Committee held a substantive debate on agenda item 20 (see A/76/533, para. 3). Action on sub-item (h) was taken at the 7th meeting, on 18 November 2021. An account of the Committee’s consideration of the sub-item is contained in the relevant summary record.¹

II. Consideration of draft resolution A/C.2/76/L.40

2. At its 7th meeting, on 18 November, the Committee had before it a draft resolution entitled “Education for sustainable development in the framework of the 2030 Agenda for Sustainable Development” (A/C.2/76/L.40), submitted by the Vice-Chair of the Committee, Nadja Micael (Eritrea), on the basis of informal consultations held on draft resolution A/C.2/76/L.17.

3. At the same meeting, the Committee was informed that draft resolution A/C.2/76/L.40 had no programme budget implications.

4. Also at the same meeting, the Committee adopted draft resolution A/C.2/76/L.40 (see para. 7).

5. Following the adoption of the draft resolution, statements were made by the representatives of the Islamic Republic of Iran and the United States of America, as well as by the observer for the Holy See.

6. In the light of the adoption of draft resolution A/C.2/76/L.40, draft resolution A/C.2/76/L.17 was withdrawn by its sponsors.

* The report of the Committee on this item is being issued in 12 parts, under the symbols A/76/533, A/76/533/Add.1, A/76/533/Add.2, A/76/533/Add.3, A/76/533/Add.4, A/76/533/Add.5, A/76/533/Add.6, A/76/533/Add.7, A/76/533/Add.8, A/76/533/Add.9, A/76/533/Add.10 and A/76/533/Add.11.

¹ See A/C.2/76/SR.7.
III. Recommendation of the Second Committee

7. The Second Committee recommends to the General Assembly the adoption of the following draft resolution:

Education for sustainable development in the framework of the 2030 Agenda for Sustainable Development

The General Assembly,

Recalling its resolution 74/223 of 19 December 2019 and other previous resolutions on education for sustainable development,

Reaffirming its resolution 70/1 of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which it adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions – economic, social and environmental – in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming also its resolution 75/233 of 21 December 2020 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system and its general guidelines and principles, as well as its resolution 72/279 of 31 May 2018 and Economic and Social Council resolution 2020/23 of 22 July 2020, and welcoming the efforts of the Secretary-General to better position the United Nations operational activities for development to support countries in their efforts to implement the 2030 Agenda,

Reaffirming further the commitment made in the 2030 Agenda to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, inclusive and equitable quality education and promote lifelong learning opportunities for all,

Noting with concern that, despite the considerable progress on education access and participation over the past years, 260 million children and youth aged 6 to 17 were still out of school in 2020, more than half of children and adolescents are not meeting minimum proficiency standards in reading and mathematics and, while rapid technological and digital changes present opportunities and challenges, the learning environment, the capacities of teachers and the quality of education have not kept pace, and refocused efforts are needed to improve learning outcomes for the full life cycle, especially for women, girls and people in vulnerable situations,

Reaffirming the commitment made in the 2030 Agenda to ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including through education for sustainable development and sustainable lifestyles, human rights, gender equality and the empowerment of all women and girls, the promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture’s contribution to sustainable development,

Reaffirming also its resolution 69/313 of 27 July 2015 on the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports
and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity,

Acknowledging the importance for achieving sustainable development of delivering quality education to all girls and boys, which will require reaching children living in extreme poverty and rural areas, children with disabilities, migrant and refugee children and those in conflict and post-conflict situations, indigenous people and children in vulnerable situations and providing safe, non-violent, inclusive and effective learning environments for all, and recognizing the importance of scaling up investments and international cooperation to allow all children to complete free, equitable, inclusive and quality early childhood, primary and secondary education leading to relevant and effective learning outcomes, including by scaling up and strengthening initiatives, such as the Global Partnership for Education, and by upgrading education facilities that are child-, disability- and gender-sensitive and increasing the percentage of qualified teachers in developing countries, including through international cooperation, especially in the least developed countries, landlocked developing countries, small island developing States and middle-income countries,

Recognizing that, despite gains in providing access to education, girls are still more likely than boys to remain excluded from education owing to gendered barriers,

Acknowledging the importance of ensuring that all children, youth and adults achieve literacy and numeracy skills by 2030,

Acknowledging also the importance of adopting science, technology and innovation strategies as integral elements of national sustainable development strategies to help to strengthen knowledge-sharing and collaboration and the importance of scaling up investments in science, technology, engineering and mathematics and digital literacy education and enhancing technical, vocational and tertiary education, distance education and training and of ensuring equal access for women and girls and encouraging their participation therein,

---

and Cultural Organization and the Government of Germany, held online from Berlin from 17 to 19 May 2021,

Noting with great concern the severe negative impact on human health, safety and well-being caused by the coronavirus disease (COVID-19) pandemic, as well as the severe disruption to societies and economies and the devastating impact on lives and livelihoods, and that the poorest and most vulnerable are the hardest hit by the pandemic, reaffirming the ambition to get back on track to achieve the Sustainable Development Goals by designing and implementing sustainable and inclusive recovery strategies to accelerate progress towards the full implementation of the 2030 Agenda for Sustainable Development and to help to reduce the risk of and build resilience to future shocks, crises and pandemics, including by strengthening health systems and achieving universal health coverage, and recognizing that equitable and timely access for all to safe, quality, effective and affordable COVID-19 vaccines, therapeutics and diagnostics are an essential part of a global response based on unity, solidarity, renewed multilateral cooperation and the principle of leaving no one behind,

Noting with great concern also the unprecedented global school closures caused by the COVID-19 pandemic, which have affected more than 1.5 billion children and youth worldwide, resulting in significant learning losses and increased dropout rates disproportionately impacting teachers and students in vulnerable situations, particularly girls and women, and exacerbated pre-existing inequities between and within education systems, as education is a primary driver across all 17 Sustainable Development Goals, bearing in mind the impact that the pandemic has had on students’ and teachers’ mental health and well-being, emphasizing the importance of investing in accessible learning platforms, digital hybrid learning, including through safe, better, universal, affordable and equal access to the Internet, stronger parental or guardian support, targeted teacher capacity development programmes and the development of online learning platforms and resources, reaffirming the importance of safely reopening schools as soon as possible, and of supporting all children to return to school, and noting with appreciation the action of the Global Education Coalition, launched by the United Nations Educational, Scientific and Cultural Organization to support countries in their efforts to mitigate the impact of school closures, address learning losses and adapt education systems, as well as that of the School Meals Coalition as a joint initiative by Governments, development agencies, academia and the private sector to address the nutrition gap caused by school closures worldwide,

Reaffirming its resolution 73/25 of 3 December 2018, by which it proclaimed 24 January the International Day of Education,

Recognizing the importance of promoting a holistic approach to education for sustainable development and of encouraging the reinforcement of the interdisciplinary linkages of the three pillars of sustainable development, economic, social and environmental, including different branches of knowledge,

3 See A/69/76, annex.
4 A/70/228, annex.
Recognizing also the role of education for sustainable development in promoting and enhancing public awareness of the eradication of poverty, of sustainable consumption and production, of combating climate change, of conserving biodiversity and ecosystems, of building disaster-resilient communities and of promoting a culture of peace and non-violence, among other things,

Reiterating the pledge that no one will be left behind, reaffirming the recognition that the dignity of the human person is fundamental, and the wish to see the Goals and targets met for all nations and peoples and for all segments of society, and recommitting to endeavour to reach the furthest behind first,

Deeply concerned about the risk of education being underfunded and the impact of disrupted educational services during humanitarian emergencies on efforts to ensure inclusive and equitable quality education and lifelong learning opportunities for all, and recognizing the need to support early childhood education, as well as to promote tertiary education, skills training and vocational education in conflict and crisis situations, where higher education serves as a powerful driver for change, shelters and protects a critical group of young men and women by maintaining their hopes for the future, fosters inclusion and non-discrimination and acts as a catalyst for the recovery and rebuilding of post-conflict countries,

1. Takes note of the report of the Director General of the United Nations Educational, Scientific and Cultural Organization on education for sustainable development, which provided a review of the implementation of education for sustainable development in the framework of the 2030 Agenda for Sustainable Development;

3. Reaffirms education for sustainable development as a vital means of implementation for sustainable development, as outlined in the Aichi-Nagoya Declaration on Education for Sustainable Development and the Berlin Declaration on Education for Sustainable Development, and as an integral element of the Sustainable Development Goal on quality education and a key enabler of all the other Goals, and welcomes the increased international recognition of education for sustainable development in quality education and lifelong learning;

4. Calls upon the international community to provide inclusive and equitable quality education at all levels – early childhood, primary, secondary, tertiary and distance education, including technical and vocational training – so that all people, irrespective of sex, age, race or ethnicity, and persons with disabilities, migrants, indigenous people, children and youth, especially those in vulnerable situations, may have access to lifelong learning opportunities that help them to acquire the knowledge and skills needed to exploit opportunities to participate fully in society and contribute to sustainable development;

5. Reaffirms the commitment at the very heart of the 2030 Agenda to leave no one behind and commit to taking more tangible steps to support people in vulnerable situations and the most vulnerable countries and to reach the furthest behind first;

---

6 A/76/228.
7 Resolution 70/1.
8 A/76/228, annex.
6. Calls for the scaling up of efforts by relevant stakeholders to give priority to education and safely reopening educational institutions for in-person learning based on scientific evidence and in consideration of local contexts, while prioritizing the health and safety of students and educators and ensuring that the reopening plans are equity-oriented, gender-responsive, inclusive and targeted, and mainstream education for sustainable development as key for building inclusive resilient education systems;

7. Encourages Governments and other relevant stakeholders to commit to building resilient, inclusive, quality education systems by (a) providing increased support to teachers and educational personnel, including through targeted professional development for digital and pedagogical skills; (b) investing in skills development, including social and emotional learning and well-being, and psychosocial support, and mental health for inclusive recovery, sustainable development, decent work and enhanced employability, and full and productive employment; (c) eradicating poverty, combating inequality and bridging the digital divide through open education resources and equitable, affordable and inclusive technology-supported learning, based on critical thinking and sustainability principles with a proper assessment of risks and benefits and by ensuring that the access, development and use of technologies are responsive, safe, equitable and inclusive; (d) building emergency preparedness and response capacity of education systems; and (e) building more inclusive education by ensuring gender equality and non-discrimination in access to knowledge and skills;

8. Encourages Governments and other stakeholders concerned to scale up education for sustainable development action through the implementation of the “Education for Sustainable Development: towards achieving the Sustainable Development Goals” (ESD for 2030) framework and its road map;

9. Encourages Governments to increase efforts to systemically integrate and institutionalize education for sustainable development in the education sector and other relevant sectors, as appropriate, including through, inter alia, the provision of financial resources, the inclusion of education for sustainable development in relevant policies and the development of the capacities of policymakers, institutional leaders and educators, as well as through the strengthening of research and innovation, and monitoring and evaluation on education for sustainable development in order to support the scaling up of good practices;

10. Encourages all countries, intergovernmental bodies, organizations of the United Nations system, relevant non-governmental organizations and all other relevant stakeholders to enhance international cooperation in supporting the efforts of developing countries towards the realization of the full potential of education for sustainable development;

11. Emphasizes the importance of further developing and implementing educational and public awareness programmes, training scientific, technical and managerial personnel, fostering access to information and promoting public participation in addressing climate change challenges;

12. Decides to continue to give consideration, as appropriate, to the contribution of education for sustainable development in the follow-up and review framework of the 2030 Agenda;

13. Invites the United Nations Educational, Scientific and Cultural Organization, as the specialized United Nations agency for education, to continue its mandated role to lead and coordinate the Education 2030 agenda, particularly in the light of the renewed global education cooperation mechanism adopted at the ministerial segment of the 2021 Global Education Meeting, held on 13 July 2021,
and puts forward a remodelled Sustainable Development Goal 4-Education 2030 High-level Steering Committee to serve as the global education coordination body in the framework of the 2030 Agenda;

14. Also invites the United Nations Educational, Scientific and Cultural Organization, as the lead agency for education for sustainable development, to continue to coordinate the implementation of the framework entitled “Education for Sustainable Development: towards achieving the Sustainable Development Goals” (ESD for 2030) through its road map, in cooperation with Governments, United Nations organizations, funds and programmes, non-governmental organizations and other stakeholders, and to continue to advocate the importance of ensuring adequate resources for education for sustainable development, and calls upon the United Nations system to increase efforts to mainstream a gender perspective into the implementation of the framework;

15. Invites the organizations of the United Nations system, in particular the United Nations Educational, Scientific and Cultural Organization, to continue to provide support and assist States, upon their request, in developing their national capacities to promote education for sustainable development, including through knowledge-sharing and standard-setting, youth empowerment and mobilization, the exchange of best practices, data collection, research and study;

16. Invites the United Nations Educational, Scientific and Cultural Organization and other relevant United Nations bodies to continue to assess, in consultation with Member States, progress towards the achievement of education for sustainable development;

17. Encourages all countries, relevant intergovernmental bodies, organizations of the United Nations system, relevant non-governmental organizations and all other relevant stakeholders to give due consideration to the contribution of education to the achievement of sustainable development in the formulation of national, regional and international development policies and international cooperation instruments;

18. Requests the Secretary-General to submit to the General Assembly at its seventy-eighth session an action-oriented report on the implementation of the present resolution, and decides to include in the provisional agenda of its seventy-eighth session, under the item entitled “Sustainable development”, the sub-item entitled “Education for sustainable development”.
