The theme of the high-level political forum on sustainable development to be convened under the auspices of the Council during its 2022 session is “Building back better from the coronavirus disease (COVID-19) while advancing the full implementation of the 2030 Agenda for Sustainable Development” (see Assembly resolution [75/290](#) B).

Means of implementation, including with respect to Goal 17, should be reviewed annually, including based on the outcome of the Economic and Social Council forum on financing for development follow-up.

8. Coordination segment

Pursuant to Assembly resolution [75/290 A](#), the coordination segment will replace the integration segment and the informal meeting of the Council with the Chairs of the subsidiary bodies and will be held annually for up to two days by early February, before the first session of a subsidiary body of the Council. Through this segment, the Council will take up coordination matters arising from subsidiary bodies, principal organs and specialized agencies in the economic, social, environmental and related fields. It will steer the Council system towards an efficient and integrated workflow

throughout the Council cycle leading up to the high-level political forum on sustainable development. It will provide forward-looking policy guidance to ensure coherence and direction in the policies and normative work of subsidiary bodies and specialized agencies relating to the 2030 Agenda as well as to other aspects of the work of the Council.

The coordination segment will formulate common action-oriented policy guidance on all matters requiring implementation or coordination efforts (i) by the Economic and Social Council functional and regional commissions and other subsidiary bodies as well as (ii) by the United Nations system, notably the specialized agencies, in the policy and normative area, including detailed guidance on the implementation of the intergovernmentally negotiated ministerial declaration of the previous year. In coordinating the policy and normative work of the specialized agencies and other United Nations system entities as envisioned by Article 63 of the Charter, the Council will avoid overlap with the operational activities for development segment, which provides guidance on operational activities of the United Nations development system.

The coordination segment will examine key policy issues, lessons learned, best practices and recommendations emanating from the work of the Economic and Social Council subsidiary bodies, including regional commissions, during the previous cycle. It will allow the Council to address issues identified by subsidiary bodies as requiring the attention of the Council at the global level and to build on the policy conclusions of its subsidiary bodies, along with inputs of the United Nations system, so as to promote the balanced integration of the three dimensions of sustainable development. It will also provide guidance and coordination to subsidiary bodies, ensuring a clearer division of labour among them, aligning their work with the implementation of the 2030 Agenda and promoting their implementation of the intergovernmentally negotiated ministerial declaration of the previous year, bearing in mind the respective mandates and functions of those bodies. The coordination segment will furthermore provide detailed guidance to the subsidiary bodies of the Council and the United Nations system on their upcoming work on the main theme and develop action-oriented assessment and recommendations so that those bodies best contribute to the preparations for the thematic review of the high-level political forum on sustainable development. It will review how subsidiary bodies and the United Nations system work on the interlinkages among the Sustainable Development Goals and the integrated implementation of the 2030 Agenda, guiding their work for the rest of the Council cycle.

During the coordination segment, the Economic and Social Council may also hold discussions on existing coordination-related mandated agenda items that have been thus far considered during the management segment. An informal note will be prepared by the Secretariat to inform the discussions at the coordination segment. This note should include (i) integrated policy analysis emanating from the work of the subsidiary bodies of the Economic and Social Council during the previous cycle and proposed guidance for their contributions to the implementation of the 2030 Agenda and the decade of action and delivery for sustainable development; (ii) coordination issues emanating from the work of subsidiary bodies and the policy and normative activities of specialized agencies and other United Nations system entities and recommendations for addressing them; and (iii) proposals related to the implementation of the intergovernmentally negotiated ministerial declaration of the Council of the previous cycle and lessons learned from the thematic reviews and voluntary national reviews at the high-level political forum on sustainable development, with recommendations for follow-up by countries, various segments and forums of the Council, the United Nations system and relevant stakeholders.

Heads of United Nations system entities, Chairs of the subsidiary bodies of the Economic and Social Council and Executive Secretaries of the regional commissions will be invited to participate. Non-governmental organizations in consultative status with the Council should – and the private sector and other stakeholders involved in the policy and normative work of the United Nations system and the subsidiary bodies may – be engaged in the coordination segment, while retaining the intergovernmental nature of the Council. A non-negotiated factual summary will be prepared by the President of the Council in consultation with the Bureau of the Council to reflect discussions during the partnership forum and the coordination segment and the strategic proposals made during the coordination segment.

Pursuant to Council resolution [2022/1](#), the coordination segment will be held on 3 and 4 February 2022.

Documentation

No advance documentation requested.

The humanitarian affairs segment should continue to alternate between Geneva and New York and should be convened preceding the annual session of the executive boards of the funds and programmes of the United Nations system.

In accordance with General Assembly resolution [75/290 A](#), the one-day meeting on the transition from relief to development will be convened immediately preceding the humanitarian affairs segment and will replace the special event to discuss the transition from relief to development and alternate between Geneva and New York. The meeting will address the linkages between humanitarian assistance and development assistance. It may also discuss, among other relevant issues, promoting peaceful and inclusive societies for sustainable development and providing access to justice for all in accordance with the respective mandates of the Council and other intergovernmental bodies. It will aim to build resilience and preparedness and improve the efforts of the international community to respond better to the transition from relief to development, as well as to deliver better results for improving the situation of countries on the ground through enhanced cooperation, collaboration and coordination, with the ultimate goal of resuming long-term sustainable development. The meeting will focus on countries in situations of conflict, post-conflict countries and countries facing humanitarian emergencies. The meeting will also consider the existing agenda items of the Council on issues related to the Ad Hoc Advisory Group on Haiti, South Sudan, the Sahel region and any country-specific item under the sub-item on African countries emerging from conflict for in-depth discussion to guide coordinated support at the country level.

In accordance with the rules of procedure and previous practice of the special event on the transition from relief to development, participation by all relevant stakeholders, including organizations of the United Nations system, international financial and trade institutions, regional organizations, civil society and private sector

representatives in the meeting will be possible. Full participation of all relevant stakeholders, in particular the Chair of the Peacebuilding Commission and the Chair and countries members of the Ad Hoc Advisory Group on Haiti, should be ensured, inter alia, through the use of videoconferencing. This meeting will continue to be organized in the context of the humanitarian affairs segment and the operational activities for development segment, without prejudice to the respective mandates of those segments.
