**Письмо Группы экспертов по Ливии, учрежденной
резолюцией 1973 (2011), от 24 мая 2022 года на имя
Председателя Совета Безопасности**

Группа экспертов по Ливии, учрежденная резолюцией 1973 (2011), имеет честь препроводить настоящим заключительный доклад о своей работе, представляемый в соответствии с пунктом 13 резолюции 2571 (2021).

Прилагаемый доклад был 4 мая 2022 года представлен Комитету Совета Безопасности, учрежденному резолюцией 1970 (2011) по Ливии, и 20 мая рассмотрен Комитетом.

Группа будет признательна, если настоящее письмо и указанный доклад будут доведены до сведения членов Совета Безопасности и опубликованы в качестве документа Совета.

Заключительный доклад Группы экспертов, учрежденной резолюцией 1973 (2011) по Ливии

Резюме

Перспектива проведения президентских и парламентских выборов 24 декабря 2021 года, как указано в «дорожной карте», принятой Форумом ливийского политического диалога в ноябре 2020 года, создала новую динамику, которая повлияла на различные аспекты режима санкций.

Позиция вооруженных групп в отношении выборов оказалась неразрывно связана с их оценкой соотношения выгоды и риска с точки зрения их собственных интересов. Из-за неопределенности вокруг процесса, запланированного в рамках Форума ливийского политического диалога, усугубился существующий раскол, а противоборствующие кандидаты активизировали свои усилия, направленные на то, чтобы заручиться поддержкой со стороны сил на местах. Таким образом, подавляющая часть территории Ливии по-прежнему контролировалась ливийскими вооруженными группами. За период подготовки к выборам возник целый ряд факторов, которые привели к тому, что 22 декабря 2021 года Высокая национальная избирательная комиссия сделала заявление о наступлении форс-мажорных обстоятельств, которые не позволили ей организовать выборы 24 декабря 2021 года. 20 февраля 2022 года Палата представителей поручила Фатхи Башаге сформировать новое правительство. На момент подготовки настоящего доклада лидеры правительства национального единства отвергли сформированное впоследствии правительство нового состава и остались у власти. Состав альянсов вооруженных групп постоянно менялся, поскольку из-за неопределенности в отношении дальнейших политических действий такие группы стали склонны заключать различные сделки.

Внесенные в санкционный перечень террористические группы по-прежнему присутствуют в Ливии и зачастую активно осуществляют свою деятельность, хотя по всей стране против них постоянно ведутся контртеррористические операции. Продолжающееся присутствие в стране чадских, суданских и сирийских боевиков, а также боевиков из частных военных компаний по-прежнему представляет собой серьезную угрозу безопасности Ливии и региона, поскольку прогрессу Объединенной военной комиссии «5+5» в деле вывода иностранных боевиков препятствует политический тупик.

Несмотря на заметное сокращение в отчетный период масштабов активных боевых действий, серьезные нарушения международного гуманитарного права и международного права прав человека по-прежнему являлись широко распространенным явлением и оставались безнаказанными. Группа считает, что, в частности, семь ливийских вооруженных групп систематически использовали произвольные и незаконные задержания в качестве карательной меры против предполагаемых противников их власти, а также в качестве эффективного метода демонстрации своего влияния и своей независимости от ливийских судебных и правительственных структур, серьезно подрывая эти структуры. Они постоянно игнорировали применимые международные нормы и национальные законы, касающиеся нарушения прав на жизнь, свободу, личную неприкосновенность и справедливое судебное разбирательство и запрета пыток и других жестоких, бесчеловечных и унижающих достоинство видов обращения. Задержанные при этом открыто удерживались под стражей без защиты закона, в полной зависимости от произвола задержавших их структур и в условиях, которые серьезно сказывались на их жизни и благополучии.

Мигранты по-прежнему были особенно сильно подвержены риску стать жертвами нарушений прав человека и неоднократно становились жертвами работорговли, изнасилований и пыток.

Оружейное эмбарго было по-прежнему неэффективным, и некоторые государства-члены продолжали безнаказанно его нарушать. Эти государства-члены продолжали контролировать цепочки поставок, что существенно затрудняло обнаружение, предотвращение и пресечение таких нарушений. Хотя количество выявленных нарушений было гораздо меньше, чем в 2019 и 2020 годах, а число полетов по воздушному мосту значительно сократилось, по оценкам Группы, запасы оружия оставались значительными и достаточными для поддержания любого будущего конфликта. Группа обновила базовые данные о типах оружия, незаконно передаваемого в Ливию; это поможет выявлять нарушения в будущем, но также является свидетельством полного пренебрежения, проявляемого в отношении оружейного эмбарго в последние несколько лет. Постоянно совершенствующиеся технологии и относительно низкая стоимость «умных» электронных товаров широкого потребления, таких как оптика и беспилотные летательные аппараты, а также простота переоборудования гражданских внедорожников в боевые машины делают такие товары идеальными для военного использования в конфликтах низкого уровня интенсивности. Этим пользуется большинство вооруженных групп в Ливии.

Что касается морских вопросов, то Группа установила, что суда, совершающие международные рейсы под флагом Замбии, делают это незаконно, поскольку в настоящее время Замбия не имеет международного открытого судового реестра и не регистрирует международные суда. Управление по поддержанию стабильности, связанное с правительством национального единства, присоединилось к числу действующих на море субъектов, используя гражданские суда и военные корабли с установленным на них оружием для перехвата и возвращения мигрантов, пытающихся покинуть Ливию. Практика установки оружия на гражданские суда после осуществления поставки регулярно применялась для обхода оружейного эмбарго. Морское подразделение сил, примкнувших к Хафтару, в произвольном порядке задерживало торговые суда в самопровозглашенной морской зоне. В качестве условия освобождения подразделение требовало уплаты незаконного штрафа, а в одном случае представителями его личного состава было похищено личное имущество членов экипажа. Группа квалифицирует это как пиратство.

Технические требования для воссоединения Центрального банка Ливии были определены внешним консультантом Банка, но темпы их выполнения были по-прежнему низкими.

Государственный нефтяной сектор оказался эпицентром борьбы за власть между руководством Национальной нефтяной корпорации и Министерством нефти и газа, которая проявилась в неудавшемся смещении председателя Корпорации и публичных обвинениях в ненадлежащем управлении ее повседневной деятельностью. Тревожным событием стало то, что члены руководства Корпорации и аффилированных с ней организаций были задержаны за предполагаемые административные нарушения. Наряду с этим в отчетный период происходили столкновения между вооруженными группами, в результате которых были повреждены нефтяные установки и блокировался доступ к объектам нефтяной инфраструктуры для целей вымогательства.

За отчетный период была зафиксирована одна предполагаемая попытка незаконного экспорта сырой нефти из Ливии. Объемы нефтепродуктов, перевозимых по морю контрабандным путем, к прежним показателям не

вернулись, но контрабанда продолжала осуществляться через сухопутные границы, а внутренние утечки стали более заметными.

В том, что касается мер по замораживанию активов, возникали те же проблемы, что и в период действия предыдущих мандатов; это свидетельствует об отсутствии единообразия в осуществлении этих мер государствами-членами. В некоторых юрисдикциях продолжали использоваться разные толкования пункта 19 резолюции [1970 \(2011\)](#), касающегося активного управления замороженными активами. Группа по-прежнему считает, что согласно пункту 19 осуществление такого управления не допускается.

Включенные в санкционный перечень организации должны повысить уровень транспарентности в отношении бенефициарного и юридического права собственности, эффективного контроля и деятельности своих дочерних компаний. Мониторинг все так же необходим.

Включенные в санкционный перечень лица совершали поездки в течение отчетного периода на основании постоянно действующего изъятия. Руководящие принципы, опубликованные Комитетом Совета Безопасности в соответствии с пунктом 13 резолюции [2571 \(2021\)](#) в отношении осуществления этих изъятий, соблюдались не всеми соответствующими государствами-членами.

I. Справочная информация

A. Введение

1. Настоящий доклад, представляемый Комитету Совета Безопасности во исполнение пункта 13 резолюции 2571 (2021), охватывает период с момента представления предыдущего доклада Группы экспертов (S/2021/229¹) 8 марта 2021 года по 25 апреля 2022 года². Он включает в себя новую информацию о текущих расследованиях, о которых в нем подробно рассказывается. В приложении 1 к докладу описана эволюция санкционного режима в отношении Ливии³.

2. При проведении своих расследований Группа руководствовалась передовой практикой и методами, рекомендованными Неофициальной рабочей группой Совета Безопасности по общим вопросам, касающимся санкций (см. S/2006/997). Группа придерживалась максимально достижимого стандарта доказывания, несмотря на то, что поездки в Ливию и другие места были по-прежнему ограничены из-за пандемии коронавирусного заболевания (COVID-19).

3. Группа опиралась на подтвержденные доказательства и придерживалась своих стандартов в отношении возможности представления ответа⁴. В ходе своих расследований Группа соблюдала принципы транспарентности, объективности, беспристрастности и независимости.

B. Сотрудничество с заинтересованными сторонами и учреждениями

4. Список государств-членов, организаций и физических лиц, которые Группа посетила или с которыми она контактировала, содержится в приложении 4. Данные о переписке Группы приведены в приложении 5. Наряду с этим Группа поддерживала контакты с Комитетом, государствами-членами и другими собеседниками, включая другие группы экспертов, через электронные платформы.

5. Группа на регулярной основе взаимодействовала с Миссией Организации Объединенных Наций по поддержке в Ливии (МООНПЛ). Во многом Группе также помогла военно-морская операция Европейского союза в Средиземном море (операция «ИРИНИ»), особенно в части расследования случаев несоблюдения оружейного эмбарго, а также незаконного импорта и экспорта сырой нефти и нефтепродуктов.

6. Группа совершила одну поездку в Ливию — в середине сентября 2021 года. В период с октября 2021 года по февраль 2022 года просьбы Группы об оказании ей поддержки для осуществления поездки не могли быть удовлетворены из-за материально-технических трудностей МООНПЛ. После истечения срока

¹ Все ссылки на документ S/2021/229 следует также понимать как включающие S/2021/229/Corr.1 и S/2021/229/Corr.2.

² Все гиперссылки проверены 8 апреля 2022 года.

³ Приложения распространяются только на том языке, на котором они были представлены, и без официального редактирования. Из-за ограничений на количество слов в докладах контрольных механизмов Группа приводит дополнительные детали в отношении ряда расследований в приложениях. В приложении 2 приводится список сокращений и аббревиатур.

⁴ Дополнительная информация о методике и возможности для ответа представлена в приложении 3.

действия ливийских виз членов Группы в конце января 2022 года Ливия визы не продлила. Поэтому визит Группы в Ливию, запланированный на март 2022 года, состояться не смог. Поездки Группы в Ливию по-прежнему крайне важны для ее миссии, и государства-члены и поддерживающие ее органы Организации Объединенных Наций должны уделять им первоочередное внимание.

7. Группа посетила Бенгази 21 сентября 2021 года и встретила с представителями Ливийской национальной армии. Это был первый визит Группы в восточную часть Ливии и первое прямое взаимодействие с силами, примкнувшими к Хафтару (СПХ)⁵, после ее визита в Тобрук в июле 2015 года⁶.

II. Действия, которые угрожают миру, стабильности и безопасности Ливии либо затрудняют или подрывают успешное завершение переходного политического процесса в стране

A. Изменения в ливийских вооруженных группах

8. В ливийском секторе безопасности по-прежнему наблюдается доминирование вооруженных групп, о чем сообщалось в докладе [S/2021/229](#)⁷. Хотя многие из западных вооруженных групп имели официальные мандаты и доступ к государственным финансовым средствам (см. приложение 6) и номинально отчитывались перед государственными учреждениями, они по-прежнему действовали без реального надзора.

9. Актуальным примером тому стало возмущение, вызванное письмом от 14 августа 2021 года, которое было направлено Объединенной военной комиссией «5+5»⁸ в Президентский совет и премьер-министру (см. приложение 7), с рекомендацией пересмотреть иерархическую структуру ряда силовых и военных структур. Управление по поддержанию стабильности⁹ и начальник штаба Ливийских вооруженных сил отреагировали немедленно, обвинив Комиссию в превышении полномочий (см. приложение 8). Дипломатический представитель, с которым Группа встречалась в Триполи, расценил инициативу Комиссии как нападение Халифы Хафтара на ливийские учреждения, расположенные в западной части страны. На этом фоне один из военных с востока страны и член Комиссии¹⁰ объяснил Группе, что это спорное

⁵ В их состав входят вооруженная группа, ранее именовавшаяся Ливийской национальной армией Халифы Хафтара (которая теперь переименована в Ливийские арабские вооруженные силы), а также национальные и иностранные вооруженные группы. Для обозначения всех примкнувших к Хафтару вооруженных групп Группа использует название «силы, примкнувшие к Хафтару» (СПХ). Строчные буквы используются при упоминании вооруженных групп, которые именуют себя, например, «бригадой», «батальоном» и т. п., что позволяет идентифицировать соответствующую группу, не наделяя ее при этом легитимностью сформированного воинского подразделения того или иного государства. В соответствующих случаях строчные буквы используются также в названиях властных структур, действующих на востоке Ливии.

⁶ См. [S/2016/209](#), п. 11.

⁷ п. 8 и приложение 6.

⁸ Объединенная военная комиссия состоит из пяти старших офицеров, назначенных правительством национального единства, и пяти других лиц, избранных Халифой Хафтаром.

⁹ Учреждено Президентским советом 11 января 2021 года; также известно как Управление по поддержанию безопасности и стабильности или Служба поддержки стабильности.

¹⁰ Встреча Группы (21 сентября 2021 года).

письмо было призвано поддержать коллег-военных в западной части страны, которые были встревожены злоупотреблениями вооруженных групп.

10. Тем не менее после формирования правительства национального единства в феврале 2021 года в большей части Ливии наблюдался период относительного спокойствия: до принятия новым органом исполнительной власти политического курса различные субъекты заняли «выжидательную позицию». В преддверии выборов и после переноса даты выборов, запланированных изначально на 24 декабря, основные вооруженные группы по-прежнему проявляли осторожность¹¹.

1. Положение в западных районах

11. Когда о его позиции относительно планируемого избирательного процесса спросили лидера бригады «Ан-Наваси» Мустафу Каддура, он заявил¹², что его отношение будет зависеть от способности временного правительства выполнить свои обещания. Если правительство национального единства окажется способным предложить долгожданные услуги и рабочие места, необходимые гражданскому населению Триполи, которое взяло в руки оружие для свержения режима Каддафи и отражения наступления СПХ 4 апреля 2019 года, то, по мнению Каддура, оно сможет законно сохранить власть. Действительно, во время пребывания у власти правительства национального единства бригада «Ан-Наваси» продолжала контролировать порт Триполи и Службу общей разведки. О влиятельности «Ан-Наваси» говорит также то, что министром иностранных дел в правительстве национальной стабильности, сформированном Фатхи Башагой в марте 2022 года, был назначен брат Мустафы Каддура Хафиз Каддур¹³.

12. Представители Специальных сил сдерживания выразили надежду на то, что создание правительства национального единства будет способствовать улучшению сотрудничества с властями восточной части страны в вопросах борьбы с терроризмом¹⁴. В течение предвыборного периода Силы, как и большинство крупных западных групп, от политических споров дистанцировались (по крайней мере, публично).

¹¹ См. п. 14 об Управлении по поддержанию стабильности и п. 32 о действиях, которые препятствуют политическому переходному процессу в Ливии или подрывают его.

¹² Встреча Группы (7 апреля 2021 года).

¹³ В ходе своего брифинга в Совете Безопасности 16 марта 2022 года заместитель Генерального секретаря по политическим вопросам и вопросам миростроительства сказала о ситуации в Ливии следующее:

«10 февраля 2022 года Палата представителей с одобрения 52 членов Высшего государственного совета... поручила г-ну Фатхи Башаге... сформировать новое правительство... Однако 24 февраля Высший государственный совет отказался признать формирование нового правительства... Тем не менее 3 марта Палата представителей привела к присяге членов кабинета г-на Башаги. Руководство правительства национального единства объявило голосование нелегитимным. Между тем г-н Башага настаивает на том, что легитимное правительство возглавляет он» (см. S/PV.8996).

Генеральный секретарь принял к сведению результаты голосования в Палате представителей, базирующейся в восточной части страны, по назначению нового премьер-министра (см. заявление Пресс-секретаря Генерального секретаря по Ливии от 11 февраля 2022 года, URL: www.un.org/sg/en/node/261853). Для целей настоящего доклада Группа называет г-на Башагу назначенным премьер-министром, а его правительство — правительством национальной стабильности. Для тех же целей — не исключая любого исхода — Группа называет г-на Дбейбу действующим премьер-министром правительства национального единства.

¹⁴ Встреча Группы (8 апреля 2021 года).

13. В период с июня 2021 года спорадические и ограниченные вспышки насилия¹⁵ переросли в серьезные столкновения на западном побережье¹⁶, в Триполи¹⁷ и в районе Бени-Валида¹⁸. В них зачастую участвовали силы Управления по поддержанию стабильности.

14. Глава Управления по поддержанию стабильности Абдель Гани Халифа¹⁹ подтвердил Группе²⁰, что он проводит политику расширения организации²¹, и особо отметил наличие у Управления правоприменительного мандата. Управление — это альянс вооруженных групп из Триполи, Варшафаны и Эз-Завии, который за последние месяцы значительно расширил свое присутствие и влияние²². Усилия, предпринятые как назначенным премьер-министром Фатхи Башагой²³, так и действующим премьер-министром Абдулом Хамидом Дбейбой²⁴ с целью заручиться поддержкой Управления, подчеркивают ту значимость, которую оно приобрело с момента своего создания Президентским советом 11 января 2021 года. В декабре 2021 года стало известно, что Президентскому совету пришлось отложить принятие решения о назначении нового командующего военной зоной Триполи²⁵ вместо Абделя Басета Марвана — близкого союзника Абделя Гани Халифы²⁶.

15. Противники Управления, в частности Мохамед Бахрун (также известный как Аль-Фар)²⁷ (S/2021/229) и командующий 444-й бригадой Махмуд Хамза²⁸, также заявили Группе о том, что они имеют законные полномочия от соответствующих надзорных органов и обеспечивают соблюдение закона. Это говорит о постоянной борьбе за ресурсы и влияние в западной части страны.

¹⁵ Глава базирующейся в Триполи службы безопасности подтвердил Группе 8 мая 2021 года сообщения о напряженности в отеле «Коринфия», одном из мест проведения встреч Президентского совета, в то время как лидеры некоторых вооруженных групп выразили свое недовольство после назначения Хусейна аль-Айеба главой Службы разведки Ливии (см. <https://apnews.com/article/tripoli-europe-africa-libya-middle-east-afee7cef514a21d4f58b02c0b25ba681>, 8 May 2021).

¹⁶ См. <https://twitter.com/ObservatoryLY/status/1403842243014844418/photo/1>, 12 June 2021.

¹⁷ См. <http://alwasat.ly/news/libya/331536>, 3 September 2021.

¹⁸ См. <https://libyaalhadath.net/?p=41055>, 19 July 2021.

¹⁹ Также известен как аль-Кикли или Генева.

²⁰ Встреча Группы (17 сентября 2021 года).

²¹ В 2020 году Управление по поддержанию стабильности открыло отделение в Мисрате и еще одно отделение в Эль-Байде, в районе Джабель-эль-Ахдар. Отделение в Эль-Байде насчитывает 35 бойцов и одного командующего по имени Акрам Альджарари, который является членом племени бараса и лейтенантом, переведенным из Министерства внутренних дел. Оно рассматривает возможность расширения на юг и в Бени-Валид, но это считается более «сложным шагом». Ведутся переговоры с Тобруком и Эль-Марджем об открытии там отделений.

²² Недавно им был создан официальный веб-сайт с информацией о его деятельности: <https://ssa.gov.ly>, 5 April 2022.

²³ Назначение Иссама Бусрибы, брата заместителя командующего Управления по поддержанию стабильности Хассана Бусрибы, на пост министра внутренних дел.

²⁴ В качестве примеров можно привести назначение Айюба Абураса из Революционной бригады Триполи, одного из заместителей Генева, командующим президентской гвардией и широко освещавшийся визит премьер-министра Дбейбы в тюрьму Абу-Слим 7 марта 2022 года: см. <https://ssa.gov.ly/%d8%b2%d9%8a%d8%a7%d8%b1%d8%a9-%d8%b1%d8%a6%d9%8a%d8%b3-%d8%ad%d9%83%d9%88%d9%85%d8%a9-%d8%a7%d9%84%d9%88%d8%ad%d8%af%d8%a9-%d8%a7%d9%84%d9%88%d8%b7%d9%86%d9%8a%d8%a9-%d9%84%d9%85%d9%86%d8%b7%d9%82>, 7 March 2022.

²⁵ См. S/2022/31, п. 33.

²⁶ См. www.libyaobserver.ly/news/pc-postpones-replacement-tripoli-military-district-commander, 22 December 2021.

²⁷ Встреча Группы (16 сентября 2021 года).

²⁸ Встреча Группы (22 сентября 2021 года).

2. Ситуация в восточном и южном районах

16. В отчетный период были убиты Махмуд аль-Варфалли²⁹ (24 марта 2021 года³⁰) (см. приложение 9) и Мохаммед эш-Шаги (также известный как Мохаммед аль-Кани)³¹ (27 июля 2021 года³²). Группе удалось установить, что напряженные отношения, сложившиеся у этих двух мужчин с руководством СПХ, сблизил их незадолго до их смерти. Главный военный прокурор в восточной части страны генерал-майор Фарадж Соса³³ рассказал Группе о том, что дела обоих этих лиц рассматривались в военном трибунале. Обстоятельства смерти этих двух важных фигур, связанных с СПХ, до сих пор не выяснены.

17. Создание Президентским советом сил по борьбе с терроризмом и организованной преступностью на юге Ливии (см. приложение 10) 17 июня 2021 года привело к еще одному важному событию. Масуд Абдалла Масуд Абдельджаллиль (также известный как Масуд Джеджи)³⁴, являвшийся на тот момент командиром 116-й бригады и главным военным союзником СПХ в Сабхе, был назначен Президентским советом командующим этими новыми «силами». Впоследствии 11 сентября 2021 года Халифа Хафтар издал указ о расформировании 116-й бригады, связанной с СПХ (см. приложение 11), хотя подавляющая часть ее бойцов осталась на стороне СПХ под командованием Ибрагима Альдиба Альслимани и продолжала использовать название этого подразделения — «116-я бригада»³⁵. С тех пор между СПХ и новой группой Масуда Джеджи происходят мелкие стычки.

18. В июле 2021 года для обеспечения безопасности на юге страны премьер-министр Дбейба распорядился создать «объединенный оперативный центр по вопросам безопасности»³⁶. Свидетельств того, что эта структура уже функционирует, нет.

19. Несмотря на эти усилия правительства национального единства, направленные на распространение его влияния на южную часть страны³⁷, доминирующую роль там по-прежнему играют СПХ: в августе и октябре 2021 года они не позволили состояться визитам должностных лиц правительства национального единства в Сабху, Гат и Эль-Куфру. Значительное расширение оперативного потенциала СПХ свидетельствует о его решимости сохранить лидирующие позиции на востоке и юге страны (см. приложение 12).

³⁶ См. www.libyanexpress.com/prime-minister-issues-order-to-establish-an-operations-room-to-secure-the-southern-region, 15 July 2021.

³⁷ Должностные лица правительства национального единства совершили несколько визитов на юг: глава Президентского совета Мухаммед аль-Менфи посетил Сабху в феврале 2021 года, заместитель председателя Президентского совета Муса аль-Куни посетил Аубари, министр иностранных дел Наджла Мангуш посетила Эль-Катрун в мае 2021 года, а премьер-министр Дбейба посетил Сабху в июле 2021 года.

3. Создание совместной оперативной группы в центральном регионе

20. К концу августа 2021 года, после очередного перебоя с водой³⁸ в Великой рукотворной реке³⁹, руководители 166-го батальона Мисраты и бригады Тарика бин Зияда (СПХ) достигли соглашения о совместном патрулировании территории от Бени-Валида до Шувайрифа⁴⁰. Этот шаг был одобрен премьер-министром Дбейбой и Халифой Хафтаром и отмечен МООНПЛ как «очень значительный шаг вперед на пути к объединению военного института и страны»⁴¹.

В. Международные террористические группы и отдельные террористы

1. Международные террористические группы и отдельные террористы

21. Силы, примкнувшие к правительству национального согласия, и СПХ разрушили террористические ячейки и арестовали высокопоставленных лиц, связанных как с «Исламским государством Ирака и Леванта в Ливии» (ИГИЛ-Ливия) (QDe.165), так и с организацией «Аль-Каида» в странах исламского Магриба (QDe.014). Дополнительная информация о событиях, связанных с терроризмом и борьбой с терроризмом в Ливии, содержится в приложении 13.

2. «Исламское государство Ирака и Леванта в Ливии» (QDe.165)

22. ИГИЛ-Ливия (QDe.165) оставалось умеренной угрозой, поскольку его боевики продолжали перемещаться по пустынной местности на юге Ливии, чтобы избежать обнаружения. Несмотря на неудачи, которые она потерпела в результате непрерывных контртеррористических операций, направленных на подрыв ее потенциала, эта группа сохранила способность совершать нападения. За отчетный период ИГИЛ-Ливия (QDe.165) взяло на себя ответственность за пять террористических нападений на юге страны вблизи Сабхи, Зиллы и в районе горы Эль-Харудж, Эль-Катруна и Умм-эль-Араниба, где действовали лица, связанные с этой группой. Лица, связанные с этой группой, были также замечены в Мисрате, Сабрате и Триполи⁴². 13 марта 2022 года группа присягнула на верность недавно назначенному лидеру организации «Исламское государство Ирака и Леванта» (ИГИЛ), внесенной в перечень как «Аль-Каида» в Ираке (QDe.115), Абу аль-Хасану аль-Хашими аль-Кураши⁴³.

3. Организация «Аль-Каида» в странах исламского Магриба (QDe.014)

23. Хотя в отчетный период эта террористическая группа не брала на себя ответственности ни за какие теракты на ливийской территории, было установлено, что отдельные члены группы находятся в Ливии. По сообщениям, правительством национального единства и СПХ в разных частях Ливии были произведены аресты лиц, связанных с «Аль-Каидой» в странах исламского

³⁸ См. S/2021/229, п. 29.

Магриба. Члены этой группы были разбросаны по нескольким городам, включая Бирак-эш-Шати, Аубари и Гат, на юго-западе страны⁴⁴.

С. Иностранцы вооруженные группы и боевики

24. В Ливии по-прежнему находились агенты из частных военных компаний, а также иностранные боевики из Чада, Судана и Сирийской Арабской Республики, связанные с конфликтующими сторонами. Подтвержденных доказательств того, что на сегодняшний день осуществлялись какие-либо масштабные выводы сил, мало. 3 октября 2021 года действующий министр иностранных дел Наджла Мангуш заявила, что «некоторые иностранные боевики» покинули Ливию⁴⁵.

25. Соглашение о прекращении огня от 23 октября 2020 года между правительством национального согласия и Ливийской национальной армией, связанной с СПХ, включало положение о том, что все наемники и иностранные боевики должны покинуть ливийские территории в течение трех месяцев⁴⁶. 11 ноября 2021 года представители СПХ в Объединенной военной комиссии «5+5» опубликовали заявление, в котором говорилось, что Главное командование СПХ приняло решение о выводе первой группы в составе 300 наемников и иностранных боевиков (см. приложение 14). 1 января 2022 года представитель СПХ сообщил национальным средствам массовой информации, что в последнюю неделю декабря 2021 года в Судан воздушным транспортом были переправлены 300 суданских боевиков⁴⁷. Это заявление было в оперативном порядке опровергнуто двумя высокопоставленными представителями СПХ, которые отрицали факт переправки боевиков⁴⁸; вместе с тем Группа установила, что Ливию покинули по меньшей мере 300 суданских боевиков, но не в рамках инициативы Объединенной военной комиссии «5+5» (см. приложение 15).

1. Чадские боевики

26. 11 апреля 2021 года чадская группа под названием «Фронт за смену власти и согласие в Чаде» (ФАКТ) начала наступление с ливийской территории против армии Чада в районе Тибести, Чад, которое длилось несколько дней. Президент Чада Идрисс Деби Итно отправился в этот район, где и скончался 20 апреля 2021 года от полученных ранений⁴⁹.

27. 14 сентября 2021 года в районе Тарбу бригада Тарика ибн Зияда, связанная с СПХ, начала наступательную операцию против ФАКТ — своего бывшего союзника⁵⁰. 14 сентября 2021 года ФАКТ опубликовал заявление⁵¹, в котором утверждалось, что бригаду поддерживали суданские бойцы (см. приложение 16). На своих официальных страницах в социальных сетях

бригада опубликовала фотографии и видеозаписи, сделанные в ходе операции против ФАКТ⁵².

28. В Ливии по-прежнему присутствовали и другие чадские оппозиционные группы, однако явного участия в политическом или вооруженном конфликте в стране они не принимали. 13 марта 2022 года военный переходный совет Чада и представители нескольких чадских оппозиционных групп, включая присутствующие в Ливии, в частности ФАКТ, Совет военного командования за спасение Республики, Союз сил сопротивления и Национальный фронт за демократию и справедливость, начали «предварительный диалог» в Катаре⁵³ в попытке достичь мира как результата, рассматриваемого правительством Ливии в качестве шага, который будет способствовать возвращению находящихся в Ливии групп и предотвращению использования ими ливийской территории в качестве базы для дестабилизации положения в плане безопасности в Чаде⁵⁴.

2. Суданские боевики

29. Подписавшие Джубское мирное соглашение стороны, которые ранее переместили часть своих сил в Судан в соответствии с договоренностями об обеспечении безопасности, по-прежнему сохраняли свое присутствие на юге Ливии⁵⁵. Эти силы часто перемещались в Судан и обратно. Большинство из этих сил находилось в районах Сирта, Эль-Джуфры, Зиллы, Хуна и Сокны и были связаны со 128-м батальоном СПХ. Масштабы вербовки суданских боевиков СПХ и их интерес к Ливии несколько уменьшились, но по разным причинам, в том числе из-за ослабления финансовых стимулов и снижения привлекательности стимулов, обеспечиваемых Соглашением. В Ливии по-прежнему присутствовали боевики групп, не подписавших Соглашение, в том числе группировка Освободительной армии Судана под руководством Абделя Вахида (ОАС/АВ) и группа Абдаллы Банды (см. приложение 15).

3. Сирийские боевики

30. Группа отметила факт постоянного присутствия поддерживаемых Турцией сирийских боевиков в военных лагерях сил, связанных с правительством национального единства, в Триполи (см. приложение 17). 31 августа 2021 года прошли демонстрации с требованием выплаты задержанной заработной платы (см. приложение 17). Официальные лица, связанные с силами, примкнувшими к правительству национального единства, подтвердили присутствие сирийцев в Триполи, но отрицали их участие в какой-либо военной или гражданской деятельности. Этим лицам платят от 800 до 2000 долл. США в месяц⁵⁶. Некоторые сирийские неправительственные организации сообщили Группе⁵⁷, что по меньшей мере 200 сирийцев вернулись в Сирию насовсем⁵⁸ и что в течение отчетного периода проводились операции по переброске сирийских боевиков, связанных с силами правительства национального согласия, из Ливии

⁵² См. www.facebook.com/liwa.tariq.bin.ziad.almueazaz/photos/pcb.1029225217833802/1029224904500500, 17 September 2021.

⁵³ См. <https://abcnews.go.com/International/wireStory/chads-junta-rebel-groups-open-peace-talks-qatar-83419773>, 13 March 2022.

⁵⁵ К числу этих групп относятся: Освободительная армия Судана/Минни Минави, Альянс освободительных сил Судана, Движение за справедливость и равенство, Освободительная армия Судана/Переходный совет и Суданский альянс.

⁵⁶ Беседы Группы с сирийской неправительственной организацией «Сирийцы за истину и справедливость».

⁵⁷ «Сирийцы за истину и справедливость» и конфиденциальные источники.

и в Ливию, поскольку те, у кого закончились контракты, были вывезены из Ливии и им на смену прибыла новая группа⁵⁹.

31. Сирийские боевики, связанные с СПХ, действуют вместе с ЧВК Вагнера⁶⁰ в Эль-Джуфре и Сирте. На них возлагались задачи обеспечения боевой поддержки, такие как строительство окопов и импровизированных дорог или охрана стратегических позиций ЧВК Вагнера⁶¹. По меньшей мере 300 из этих сирийцев вернулись в Сирийскую Арабскую Республику и не были заменены СПХ⁶².

D. Действия, которые препятствуют успешному завершению политического переходного процесса в Ливии или подрывают его

32. Пункт 11 резолюции 2571 (2021) наделяет Группу мандатом на выявление физических и юридических лиц, которые участвуют в совершении или поддержке актов, препятствующих проведению выборов или срывающих его, в рамках более широкого мандата на выявление актов, препятствующих успешному завершению переходного политического процесса в Ливии или подрывающих его.

33. В течение всего отчетного периода перспектива проведения выборов была главной темой в Ливии. Основные противоречия были между теми, кто выступал за президентские, а не парламентские выборы, и наоборот. Помимо дебатов о конституционной основе и графике проведения выборов, существовали разногласия между субъектами, группами и государствами, получающими выгоду от статус-кво, и теми, кто надеялся на возвращение или консолидацию власти.

34. 22 декабря 2021 года Высокая национальная избирательная комиссия опубликовала заявление, в котором сообщила о своем решении отложить объявление окончательного списка кандидатов в президенты, посчитав, что «примешивание политических интересов к судебным решениям [...] можно назвать форс-мажорной ситуацией. Комиссия не смогла сделать свое заявление и, следовательно, не смогла объявить 24 декабря днем выборов, хотя в техническом плане она была полностью готова провести процесс в этот день» (см. приложение 18).

35. Группе экспертов очевидно, что к созданию препятствий для проведения выборов, запланированных в «дорожной карте» Форума ливийского политического диалога, и их срыву привело множество факторов. К их числу относятся отсутствие согласованной правовой основы и множество угроз и инцидентов в сфере безопасности (см. приложение 19). Напряженность в политической сфере и области безопасности достигла такой степени, что возникли опасения относительно серьезных беспорядков. Все это в совокупности и привело к тому, что 22 декабря 2021 года Высокая национальная избирательная комиссия сделала заявление о наступлении форс-мажорных обстоятельств и — впоследствии — к тому, что 24 декабря выборы не

⁵⁹ См. также приложение 88.

⁶⁰ ЧВК — это сокращение «частной военной компании». По всему тексту организация Вагнера будет называться ЧВК Вагнера.

⁶¹ См. также приложение 100.

⁶² Конфиденциальные источники; www.enabbaladi.net/archives/558431, 22 March 2022; и <https://ar.libyaobserver.ly/article/18449>, 21 March 2022.

состоялись. Группа еще не установила, отвечают ли конкретные лица или организации критериям включения в перечень.

Е. Действия, которые нарушают применимые нормы международного права прав человека или международного гуманитарного права либо представляют собой ущемления прав человека

36. В соответствии с пунктом 11 а) резолюции 2213 (2015) и последующими резолюциями Группа провела расследования случаев совершенных в Ливии нарушений международного гуманитарного права и международного права прав человека, а также ущемлений прав человека.

37. Эти действия, угрожающие миру, стабильности и безопасности в Ливии, продолжали совершаться в больших масштабах и оставались безнаказанными. Судьи и адвокаты постоянно говорили Группе, что угрозы безопасности и вооруженный конфликт за последние 10 лет значительно ослабили судебную систему — до такой степени, что в настоящее время нет реальных перспектив привлечения виновных к ответственности. Пятьдесят четыре человека сообщили, что они остались без доступа к эффективным средствам правовой защиты и возмещения ущерба за грубые нарушения прав человека, от которых они предположительно пострадали. Все они считают, что международное сообщество обязано обеспечить привлечение к ответственности тех, кто виновен в совершении серьезных нарушений международного гуманитарного права и международного права прав человека в Ливии⁶³.

1. Нарушения международного гуманитарного права и международного права прав человека, совершенные в контексте лишения свободы

Действия, совершенные в местах содержания под стражей

38. С 2015 года Группа расследовала 23 случая серьезного нарушения международного гуманитарного права и международного права прав человека, которые были совершены в восьми местах содержания под стражей, находящихся в ведении шести вооруженных групп. С целью дать представление о масштабе этой проблемы в приложении 20 приводится резюме этих дел.

Специальные силы сдерживания

39. Группа опросила восемь лиц, ставших свидетелями актов произвольного и незаконного лишения свободы, пыток, жестокого обращения и оскорбления личного достоинства⁶⁴, совершенных сотрудниками Специальных сил сдерживания в центре содержания под стражей «Митига»⁶⁵ в Триполи. Акты насилия включали: а) постоянные жестокие избиения; б) содержание в ужасных условиях, включая крайнюю переполненность помещений и отсутствие адекватных санитарно-гигиенических условий; в) длительное одиночное заключение без доступа к пище и питьевой воде; и d) принуждение заключенных к выполнению военных задач⁶⁶. Группа установила, что Усама Наджим и Адель

⁶³ Эти качественные данные соответствуют статистике, предоставленной Группе организацией «Адвокаты за справедливость в Ливии» (готовится к публикации).

⁶⁴ См. общую статью 3 Женевских конвенций от 12 августа 1949 года.

⁶⁵ Известные места расположения всех установленных центров содержания под стражей и других используемых для этих целей объектов перечислены в приложениях 20, 23 и 24.

⁶⁶ Беседы Группы с бывшими заключенными (конфиденциальные источники, занимающиеся вопросами международного гуманитарного права, 3, 4, 5, 6, 48, 49 и 61) и родственник (конфиденциальный источник 8).

Мохамед Али (также известный как Шейх Адель) — сотрудники Сил, ответственные за надзор в центрах содержания под стражей, — незаконно переводили задержанных из неофициальных и официальных мест содержания под стражей в Триполи в центр «Митига», с тем чтобы использовать их на принудительных работах, что является формой порабощения (см. приложение 21)⁶⁷.

Бригада революционеров Триполи

40. Группа выявила два случая произвольного и незаконного лишения свободы, насильственного исчезновения и жестокого обращения по политическим мотивам. Пострадавшие были незаконно похищены со своих рабочих мест и перевезены в лагерь Бригады «Ас-Саадави» в Айн-Заре. Там они подвергались жестокому обращению — актам насилия, включая длительное содержание под стражей без связи с внешним миром, содержание под стражей в суровых условиях, а также продолжительные и жестокие допросы об их участии в избирательных процессах и предполагаемой связи с СПХ⁶⁸.

Силы, примкнувшие к Хафтару — Ливийские арабские вооруженные силы

41. Группа расследовала шесть случаев произвольного и незаконного задержания, пыток и других видов жестокого обращения, а также отказа в праве на справедливое судебное разбирательство в местах временного и постоянного содержания под стражей, находящихся под контролем СПХ. К ним относятся: центр «Гернада» в Эль-Байде, офисы агентства внутренней безопасности в Мардже, центр содержания под стражей «Эль-Кувайфия» в Бенгази и неофициальный центр содержания под стражей, находящийся под контролем бригады СПХ Тарика ибн Зияда в Сиди-Фарадже в Бенгази⁶⁹. В четырех случаях задержанные в совокупности подвергались: а) систематическим и жестоким избиениям; б) длительному содержанию под стражей без связи с внешним миром; в) преднамеренному отказу в медицинской помощи; г) психологическому давлению; и е) запугиваниям.

42. Двое бывших заключенных, содержавшихся в центре «Эль-Кувайфия», признали, что непосредственным исполнителем при применении к ним пыток (жестокие избиения деревянными палками при принуждении к обнажению) был начальник охраны капитан Башир аль-Джани. Группа установила, что в результате этих действий жертвам были нанесены необратимые физические повреждения и психологические травмы⁷⁰.

Вооруженная группа «Аль-Каният»

43. Как сообщается в документе [S/2021/229](#)⁷¹, Группа получила дополнительные доказательства семи случаев произвольного и незаконного лишения свободы и посягательства на жизнь и физическую неприкосновенность, включая убийство пяти заключенных в местах содержания под стражей, находящихся под фактическим контролем вооруженной группы «Аль-Каният»⁷². Три свидетеля заявили об одном и том же: что ответственность

⁶⁷ См. Дополнительный протокол к Женевским конвенциям от 12 августа 1949 года, касающийся защиты жертв вооруженных конфликтов немеждународного характера (Протокол II), ст. 4.

⁶⁸ Беседы Группы со свидетелями (конфиденциальные источники 9, 10 и 38).

⁶⁹ Беседы Группы с бывшими заключенными (конфиденциальные источники 1, 54, 73, 79 и 80) и членами семей (конфиденциальные источники 7, 13 и 81).

⁷⁰ Медицинская документация от 21 февраля, 31 марта, 13 апреля и 21 апреля 2021 года.

⁷¹ См. [S/2021/229](#), пп. 36–39.

⁷² Общая статья 3 Женевских конвенций.

за эти действия несут три командира группы «Аль-Каният», включая Абдурахема эш-Шгаги (также известного как Абдурахем аль-Кани).

2. Нападения на правозащитников, активистов и работников средств массовой информации

44. Группой были выявлены случаи нападений на шестерых правозащитников, активистов и работников средств массовой информации, серьезно ограничивших этих людей в их правах человека, в частности в праве на жизнь, свободу и свободу выражения мнений (см. приложение 22)⁷³. Две известные правозащитницы подверглись запугиванию и угрозам в связи с их участием в общественной жизни и гражданской активностью. Нападавшие апеллировали к культурным и гендерным нормам, чтобы запугать их и членов их семей публичным унижением в ближайшем окружении.

3. Нарушения международного права прав человека в отношении мигрантов и лиц, ищущих убежища

45. Группой было выявлено 26 случаев серьезных нарушений прав человека, совершенных в отношении мигрантов и лиц, ищущих убежища, в трех взаимосвязанных ситуациях, касающихся торговли людьми и незаконного ввоза мигрантов: а) вдоль маршрутов торговли людьми, контролируемых сетями торговцев людьми; б) в центрах содержания мигрантов; и с) в связи с морскими операциями.

Деяния, совершенные в незаконных местах содержания под стражей, находящихся под контролем торговцев людьми

46. Группа установила, что нарушения прав человека в отношении четырех мигрантов имели место в секретных местах содержания под стражей, оборудованных и контролируемых сетями торговцев людьми в районах Тазирбу и Бени-Валида. Жертвы незаконно содержались под стражей в ужасающих санитарно-гигиенических условиях, их использовали как рабов и пытали, жестоко избивая днем и ночью, намеренно морили голодом до опасной для жизни потери веса и недоедания и отказывали в медицинской помощи. Две женщины — бывшие заключенные, которым на тот момент было 14 и 15 лет, также заявили Группе о том, что они неоднократно подвергались изнасилованиям со стороны различных лиц, использовались в качестве сексуальных рабынь и подвергались другим формам сексуального насилия на протяжении более чем 18 месяцев в секретном месте содержания под стражей в Бени-Валиде (см. приложение 23).

Деяния, совершенные в центрах содержания мигрантов

47. Группа выявила три параллельные системы содержания мигрантов и лиц, ищущих убежища, функционирующие под контролем трех различных органов, по крайней мере, с декабря 2021 года: а) официальная система содержания под стражей, включающая, по имеющимся данным, 24 центра содержания под стражей, в которых находятся от 1400 до 2000 мигрантов⁷⁴, и находящаяся в ведении Управления по борьбе с нелегальной миграцией; б) по меньшей мере

⁷³ См. Международный пакт о гражданских и политических правах, ст. 6, 9 и 19.

⁷⁴ Беседа Группы с главой Управления по борьбе с нелегальной миграцией, 23 марта 2022 года; и конфиденциальные источники 33 и 45. Группа отмечает, что точное число задержанных мигрантов и просителей убежища, а также количество и статус центров содержания под стражей, находящихся в ведении Управления, постоянно колеблются. Данные по состоянию на 23 марта 2022 года.

три находившихся в ведении Управления центра содержания под стражей, которые, хотя и были официально закрыты, продолжали функционировать под надзором бывшего руководства Управления; и с) неофициальные центры содержания под стражей, находящиеся в ведении Департамента по борьбе с заселением и нелегальной миграцией Управления по поддержанию стабильности (см. приложение 24).

Центры содержания под стражей, подведомственные Управлению по борьбе с незаконной миграцией

48. Группа опросила 11 пострадавших в отношении пяти центров содержания мигрантов, номинально находившихся в ведении Директората по борьбе с нелегальной миграцией до декабря 2021 года: «Айн-Зара», «Мабани», «Шара-аз-Завия» и «Тарик-ас-Сикка» (все расположены в Триполи) и «Ан-Наср» в Эз-Завии⁷⁵. Во всех случаях сотрудники Ливийской береговой охраны задерживали жертв в территориальных водах Ливии и/или в международных водах, когда те пытались добраться до европейских портов, и переправляли их в места содержания под стражей, где они подвергались пыткам. Рассказы жертв — это свидетельства очевидцев продолжительных произвольных и незаконных задержаний, принудительного труда и пыток и жестокого и унижающего достоинство обращения. Методы пыток и других видов неправомерного обращения включали жестокие избиения, причиняющие тяжкие телесные повреждения, принудительное обнажение, намеренный отказ в надлежащем питании, воде и медицинской помощи, а также принуждение к проживанию в условиях чрезмерной скученности и унижительных условиях (см. приложение 24).

49. Наряду с этим Группа считает, что отдельные сотрудники службы охраны, ответственные за защиту наиболее уязвимых мигрантов, содержащихся в центре «Шара-аз-Завия», непосредственно участвовали в совершении актов изнасилования, сексуальной эксплуатации и запугивания изнасилованием в отношении находившихся в центре женщин и девочек или закрывали на это глаза. Эти преступления были совершены в период с января по июнь 2021 года.

Центр содержания под стражей, подведомственный Управлению по поддержанию стабильности

50. Группа выявила шесть случаев серьезных нарушений прав человека, в частности незаконного задержания, пыток, жестокого, бесчеловечного и унижающего достоинство обращения, которые имели место по состоянию на декабрь 2021 года в центре содержания мигрантов «Майя», находящемся под контролем Управления по поддержанию стабильности. В трех случаях жестокое обращение привело к летальным исходам, то есть было нарушено право жертв на жизнь⁷⁶.

51. Трое бывших заключенных признали, что акты жестокого обращения, и в частности жестокие избиения, которым они подвергались на протяжении всего периода их длительного незаконного содержания под стражей, совершались непосредственно начальником центра содержания под стражей «Майя» Мохамедом аль-Кабути⁷⁷.

⁷⁵ Группа не раскрывает личности собеседников для их личной безопасности.

⁷⁶ Беседа Группы со свидетелем (конфиденциальный источник 100) и документальные свидетельства, включая медицинские отчеты и фотографии тел погибших с явными следами жестокого обращения.

⁷⁷ Беседы Группы с бывшими заключенными (конфиденциальные источники 101, 102 и 103).

Действия, связанные с морскими операциями

52. Операции по обеспечению безопасности на море в территориальных водах Ливии и международных водах осуществляли четыре различные структуры командования и управления: а) Военно-морские силы Ливии; б) Ливийская береговая охрана, также находящаяся под командованием и контролем Министерства обороны; в) Главное управление по обеспечению безопасности прибрежных районов, подведомственное Министерству внутренних дел; и д) морские подразделения, контролируемые Управлением по поддержанию стабильности. Ввиду этой фрагментации оперативной деятельности образовались серьезные пробелы в области защиты. Из-за трудностей с идентификацией соответствующей ливийской морской структуры мигранты и просители убежища подвергались реальному риску серьезных нарушений прав человека и уменьшалась вероятность того, что лица, виновные в сообщаемых нарушениях прав человека, будут привлечены к ответственности. Очевидцы путались в том, с какой структурой были связаны потенциальные нарушители. Координация операций на море между соответствующими ливийскими органами была слабой и часто не соответствовала применимым положениям международного права.

Ливийская береговая охрана

53. Группа получила доказательства нарушений прав человека, совершенных Ливийской береговой охраной в контексте двух инцидентов (30 апреля и 30 июня 2021 года) в отношении примерно 93 мигрантов и просителей убежища, терпевших бедствие в международных водах, включая детей⁷⁸. Группа считает, что сотрудники Ливийской береговой охраны подвергали нуждающихся в помощи лиц жестокому и унижающему достоинство обращению и применяли чрезмерную силу, создавая предсказуемую угрозу жизни мигрантов (см. приложение 24)⁷⁹. Свидетельства об этих нарушениях прав человека совпадают с показаниями, которые дали Группе четыре другие жертвы, согласно которым в отдельных случаях сотрудники Ливийской береговой охраны открывали по ним огонь при их попытке пересечь Средиземное море, избивали их, брали их в плен и незаконно конфисковывали их частную собственность и/или словесно оскорбляли их⁸⁰.

Морской спасательно-координационный центр

54. Группа расследовала инцидент с кораблекрушением, произошедший в Ливийском районе поисково-спасательных операций 22 апреля 2021 года. На основе большого количества доказательств Группа считает, что сотрудники компетентного ливийского органа, Морского спасательно-координационного центра, нарушили право на жизнь около 130 мигрантов и просителей убежища, не приняв надлежащих мер для оказания помощи лицам, терпящим бедствие на море (см. приложение 24). Кроме того, Группа получила информацию о пяти аналогичных инцидентах, в которых ливийские власти не смогли организовать поиск и спасение терпящих бедствие судов с мигрантами и просителями убежища в Ливийском районе поисково-спасательных операций.

⁷⁸ См. authenticated Sea-Watch 4 video of 30 April 2021, https://twitter.com/seawatch_intl/status/1388171810315902976; и authenticated Seabird — Sea-Watch reconnaissance aircraft video of 30 June 2021, www.youtube.com/watch?v=62BDsKmjsVY.

⁷⁹ См. Международный пакт о гражданских и политических правах, ст. 6 и 7.

⁸⁰ Беседы Группы с бывшими заключенными (конфиденциальные источники 6, 17, 18 и 20).

Морские подразделения Управления по поддержанию стабильности

55. Группа установила, что сотрудники Управления по поддержанию стабильности применяли чрезмерную силу в отношении мигрантов и просителей убежища в ходе двух инцидентов на море — 12 августа 2021 года и 19 января 2022 года. Терпящие бедствие лица подвергались унижающему достоинство обращению, а один человек был незаконно лишен жизни⁸¹. Группа также получила информацию о применении силы, приведшем к летальному исходу; соответствующие деяния, совершенные 21 ноября 2021 года и 18 февраля 2022 года, приписываются личному составу морских подразделений Управления по поддержанию стабильности, и Группа продолжает их расследовать.

III. Соблюдение оружейного эмбарго

56. Руководствуясь пунктами 9–13 резолюции 1970 (2011) в редакции последующих резолюций, Группа продолжала отслеживать, расследовать и выявлять случаи нарушения⁸² и несоблюдения⁸³ оружейного эмбарго. Группа продолжает совершенствовать и использовать набор профильных показателей морской и воздушной доставки, которые помогают определить вероятность нарушений и происшествий и, таким образом, задать направление расследованиям Группы (см. приложение 25). Прежде чем судно, воздушное судно или авиакомпания будут классифицированы как представляющие интерес для Группы или сочтены нарушившими или не соблюдающими требования, необходимо взвесить целый ряд показателей.

57. Оружейное эмбарго будет оставаться абсолютно неэффективным до тех пор, пока государства-члены контролируют логистические потоки и цепочки поставок для сторон, которые поддерживает каждое государство-член. Поскольку в отношении физических и юридических лиц, которые, как утверждается, нарушают оружейное эмбарго и подпадают под критерии включения в перечень, изложенные в пункте 11 е) резолюции 2213 (2015), никаких действий пока не предпринималось, сдерживающий эффект режима санкций весьма незначителен.

⁸¹ См. Международный пакт о гражданских и политических правах, ст. 6 и 7. Заместитель начальника штаба по информационным вопросам Управления по поддержанию стабильности неубедительно отрицал ответственность Управления за инцидент, произошедший 19 января 2022 года (см. <https://twitter.com/rgowans/status/1486032462564278281?s=21>, 25 January 2022).

⁸² Группа считает, что было совершено «нарушение», если имели место физическая передача оружия и боевой техники, обучение или предоставление материальной поддержки. Помимо этого, Группа использует выражение «техническое нарушение» для обозначения временной переброски в Ливию военного имущества, такого как военные корабли и военные грузовые самолеты, когда нет очевидного намерения предоставить военные силы и средства сторонам в конфликте, например в случае использования военных самолетов или кораблей государствами-членами для пополнения запасов дипломатических миссий, доставки гуманитарных грузов или оказания гуманитарной помощи.

⁸³ «Несоблюдение» относится к тем случаям, когда субъект не предпринял соответствующих действий, предусмотренных резолюцией, например для предотвращения «нарушения», т. е. не были досмотрены воздушные или морские суда, направляющиеся в Ливию, или для предоставления Комитету и/или Группе требуемой или запрошенной информации. «Техническое несоблюдение» относится к ситуации, в которой ответственная сторона вряд ли могла знать, что на момент передачи она будет представлять несоблюдение, и компании следует принять меры по улучшению своих протоколов и процедур, касающихся проявления должной осмотрительности.

58. Прошло уже более 11 лет с тех пор, как первой соответствующей резолюцией были введены ограничительные меры на поставку и передачу оружия и военного имущества в Ливию. В приложении 26 приводится сводная информация о видах оружия и военного имущества, переданных в Ливию за этот период в нарушение пункта 9 резолюции 1970 (2011). Эта информация свидетельствует о разнообразии и технической сложности оружия и военного имущества, имеющихся в настоящее время в Ливии; она также служит базой, которая поможет выявлять любые нарушения в будущем.

A. Технические нарушения и технологии двойного назначения

59. Направление военных, военно-морских или авиационных средств на территорию Ливии государствами-членами являлось постоянной проблемой в течение всего периода действия ливийского оружейного эмбарго, и все соответствующие случаи требовали проведения расследования со стороны Группы — до тех пор, пока не будет установлено основание для их присутствия. Было установлено, что многие из этих средств были развернуты в Ливии согласно пункту 3 резолюции 2214 (2015)⁸⁴, и этот вопрос неоднократно поднимался Группой⁸⁵.

60. Тем не менее в отчетный период также были случаи, когда государства-члены использовали военные авиационные средства для доставки гуманитарной помощи⁸⁶ или военно-морские средства для осуществления «поставок несмертоносной военной техники, предназначенной исключительно для гуманитарных целей или для целей защиты»⁸⁷, согласно пункту 9 резолюции 2095 (2013); ни в одном, ни в другом случае в отношении этих грузов уведомлять Комитет не требуется. Вместе с тем сама процедура доставки предполагает направление военных самолетов и/или военных кораблей на территорию Ливии, которое Группа считает техническим нарушением пункта 9 резолюции 1970 (2011). С учетом того, что в этих случаях у государств-членов нет намерения предоставлять военные средства какой-либо из вооруженных групп в Ливии, Группа считает, что ей не следует квалифицировать эти случаи как нарушения пункта 9 резолюции 1970 (2011). Тем не менее каждый инцидент сопряжен с репутационным риском для государств-членов и требует проведения расследования со стороны Группы, чего можно было бы избежать, если бы

⁸⁴ В этом пункте Совет Безопасности призвал государства-члены, действуя в координации с правительством Ливии, оказывать другим государствам-членам, когда это необходимо и уместно и при поступлении соответствующих просьб, помощь в наращивании потенциала противодействия угрозе, создаваемой «Исламским государством Ирака и Леванта» (ИГИЛ), объявившими о поддержке ИГИЛ группами, группировками «Ансар аш-Шариа» и всеми другими связанными с «Аль-Каидой» лицами, группами, предприятиями и организациями, действующими в Ливии.

⁸⁵ В следующих документах: S/2016/209, п. 126; S/2017/466, п. 147, S/2018/812 и S/2018/812/Corr.1, пп. 108–109, S/2019/914, п. 93 и S/2021/229, п. 59. В документе S/2019/914 Группа рекомендовала Комитету предоставить разъяснение в отношении того, преобладает ли выражение «бороться всеми средствами», употребленное в пункте 3 резолюции 2214 (2015), над требованиями пункта 9 резолюции 1970 (2011) в позднейшей редакции.

⁸⁶ Например, Египтом были доставлены медицинские товары в Сабху 14 апреля 2021 года на военном грузовом самолете C-130 Hercules, а Турцией были доставлены вакцины против COVID в Триполи 14 апреля на военном грузовом самолете A400M Atlas.

⁸⁷ Например, 2 декабря 2021 года десантный корабль-док *San Giorgio* (L9892) Военно-морских сил Италии был использован для доставки средства Морского спасательно-координационного центра для Ливийской береговой охраны и Военно-морских сил Ливии (см. приложение 31).

государства-члены уведомляли Комитет о доставке таких материальных средств или помощи, если для этого используются военная авиация или военно-морские средства (см. рекомендацию 1).

61. Постоянно совершенствующиеся технологии и относительно низкая стоимость «умных» электронных товаров широкого потребления, таких как оптика и беспилотные летательные аппараты, а также простота переоборудования гражданских автомобилей⁸⁸ в боевые машины⁸⁹ делают такие средства двойного назначения⁹⁰ идеальными для военного использования в конфликтах низкого уровня интенсивности. В течение отчетного цикла Группа узнала о дополнительных случаях, в которых в Ливии закупались и использовались в военных целях технологии, применяемые в пользующихся большим спросом потребительских товарах. Группа считает, что в тех случаях, когда такие технологии импортируются в первую очередь субъектами, активно участвующими в вооруженном конфликте, а затем используются в военных целях, их передача является нарушением пункта 9 резолюции 1970 (2011).

В. Морские вопросы

1. Реагирование на региональном уровне

62. В резолюции 2578 (2021) был продлен срок действия полномочий по досмотру судов в открытом море у побережья Ливии до 3 июня 2022 года. Хотя в отчетный период в рамках операции Европейского союза в Средиземноморье (операция ЕВНАВФОР МЕД «ИРИНИ») проводились регулярные инспекции, изъятий оружия произведено не было.

63. 29 июля 2021 года в ответ на уведомление о проведении инспекции грузового судна *Antalya* (ИМО (Международная морская организация) 7615232), шедшего под флагом Замбии, Постоянное представительство Замбии сообщило Комитету о том, что Замбия не имеет открытого судового реестра и не регистрирует международные суда. Следовательно, другое грузовое судно — *Gauja* (ИМО 7612474), — шедшее под флагом Замбии, шло под «ложным флагом», когда 11 мая 2021 года оно было досмотрено военно-морскими силами в рамках операции «ИРИНИ».

⁸⁸ См. S/2021/229, приложение 73 и рисунок 77.8 к приложению 77, а также приложение 80.

⁸⁹ Например, переоборудованные легкие полноприводные автомобили общего назначения, которые можно использовать для установки на них оружия, называются «техничками». См. S/2021/229, добавление А к приложению 35.

⁹⁰ Стоит отметить, что определение термина «двойное назначение», используемое в докладе, не совпадает с определением выражения «товары и технологии двойного назначения», используемым в Вассенаарских договоренностях по экспортному контролю за обычными вооружениями, товарами и технологиями двойного назначения, или определением «товаров двойного назначения», используемым в рамках режима экспортного контроля Европейского союза (Регламент (ЕС) 2021/821 Европейского парламента и Совета от 20 мая 2021 года, устанавливающим режим Союза для контроля за экспортом, посредничеством, технической помощью, транзитом и передачей товаров двойного назначения). Информацию об использовании Группой выражения «двойное назначение» см. в п. 61.

2. Суда, представляющие значительный интерес, и нарушения на море

64. Ряд судов считаются «представляющими значительный интерес» для Группы на основании: информации, полученной из открытых и конфиденциальных источников; профильных показателей, включая деактивацию автоматической системы опознавания; изменения порта назначения в пути; отказа государства флага в проведении инспекции; и структуры компаний, владеющих судами или эксплуатирующих их. Группа направила письма соответствующим государствам-членам и владельцам и операторам нескольких судов и ожидает ответов.

Силы, примкнувшие к правительству национального единства

65. В докладе S/2019/914⁹¹ Группа затронула вопрос о патрульных кораблях военного образца, поставленных Ливии с использованием изъятия для несмертоносных средств, предусмотренным пунктом 10 резолюции 2095 (2013), и оснащаемых вооружением после их доставки. Группа отметила, что в отчетном цикле Управлением по поддержанию стабильности было создано собственное морское подразделение. Это подразделение проводит правоприменительные и иные операции на море в территориальных водах Ливии и в Ливийском районе поисково-спасательных операций параллельно с операциями Ливийской береговой охраны, Главного управления по обеспечению безопасности прибрежных районов и Ливийских военно-морских сил (см. также п. 52)⁹².

66. Морское подразделение Управления по поддержанию стабильности использует по меньшей мере пять судов, включая два гражданских судна, переоборудованных в патрульные катера: а) судно *Alqayid Saqar*, которое, стоит отметить, окрашено в желтый цвет, что предполагает его использование для поисково-спасательных операций, но на нем также установлен тяжелый станковый пулемет; б) судно *Alqayid 1*, которое видели как в гражданской конфигурации, так и со съемным тяжелым станковым пулеметом; и в) быстроходный патрульный катер *Lambro Olympic* класса D74 военного образца (см. таблицу 1 и приложение 27)⁹³. Хотя передача судов а) и б) — без вооружений — не подпадает под оружейное эмбарго, установка на них вооружений после передачи является обходом эмбарго. По мнению Группы, передача судна в) не подпадает под исключения в отношении несмертоносной военной техники, предусмотренные в пункте 9 (для использования в гуманитарных целях или в целях защиты) или пункте 10 (для оказания помощи в области безопасности или разоружения) резолюции 2095 (2013).

67. Положения пункта 10 резолюции 2095 (2013) применяются только к правительству Ливии и, следовательно, только к силам, находящимся под его контролем. В связи с этим в отношении пункта 6 резолюции 2278 (2016) правительство национального согласия в мае 2017 года представило Комитету информацию о находящемся под его контролем силах, которая нашла отражение в пункте 6 резолюции 2362 (2017). Управление по поддержанию стабильности не вошло в число подразделений, которые были определены как входящие в «структуру сил безопасности, находящиеся под его контролем»⁹⁴. Группа понимает, что подразделения, находящиеся под контролем правительства, с

⁹³ См. <https://twitter.com/SARwatchMED/status/1485711494633472000>, 24 January 2022; и <https://twitter.com/SARwatchMED/status/1487425542441820163>, 29 January 2022.

⁹⁴ Ливийская береговая охрана, подразделения по обезвреживанию боеприпасов и президентская гвардия.

момента представления этого уведомления значительно изменились: в частности, в 2017 году были созданы Управление по поддержанию стабильности, объединенный оперативный центр и семь военных зон. Обновленная информация о «силах безопасности, находящихся под контролем» правительства, внесла бы больше ясности в отношении соблюдения оружейного эмбарго (см. рекомендацию 2).

Силы, примкнувшие к Хафтару

68. В документе S/2019/914⁹⁵ Группа сообщила о передаче в 2013 году судов, включая патрульные корабли военного образца, которые оказались под контролем СПХ. Группа установила, что личный состав морского подразделения СПХ, Морское боевое соединение Суса⁹⁶, использовал некоторые из этих судов и недавно идентифицированную жестко-корпусную надувную лодку военного образца при совершении действий, которые препятствовали свободе судоходства и приравнивались к пиратству, по меньшей мере в пяти инцидентах, расследуемых Группой. Эти акты пиратства совершались в открытом море и выражались в произвольном и незаконном задержании нейтральных торговых судов под иностранным флагом и незаконной конфискации имущества членов их экипажей (см. приложение 28)⁹⁷. По крайней мере с конца 2020 года противоправное поведение личного состава соединения заключалось в том, что они действовали, представляясь сотрудниками Ливийской береговой охраны⁹⁸, с намерением незаконно получить финансовую прибыль от захваченных судов. Для освобождения суда заставляли заплатить штраф (о сумме можно было договориться) в размере до 200 000 динаров (около 42 000 долл. США) наличными за то, что, по утверждениям военнослужащих, эти суда нарушили границы одной из двух незаконно объявленных морских зон СПХ — «закрытую для навигации» и «запретную», — которые частично накладываются на зону международных вод (см. рисунок)⁹⁹.

⁹⁵ П. 79 и приложение 33.

⁹⁶ Также известно как Сууское морское боевое соединение или Морская боевая рота Суса.

⁹⁷ Группа использует определения терминов «свобода судоходства» и «пиратство» в соответствии с обычным международным правом, кодифицированным в статьях 87 и 101 Конвенции Организации Объединенных Наций по морскому праву. См. также International Law Commission, Articles concerning the Law of the Sea with commentaries, *Yearbook of the International Law Commission, 1956*, vol. II, arts. 27 and 39. Группа использует эти термины без ущерба для статуса соответствующих негосударственных субъектов в соответствии с международным правом.

⁹⁸ Официальной береговой охраной Ливии Группа считает только Ливийскую береговую охрану, находящуюся под контролем правительства национального единства.

⁹⁹ Конфиденциальный источник и <https://safety4sea.com/libya-releases-turkish-owned-cargo-ship-after-paying-fine>, 14 December 2020.

69. «Закрытая для навигации зона», о создании которой Ливийской национальной армией было объявлено в 2015 году в качестве меры принуждения для пресечения поставок оружия, существует до сих пор¹⁰⁰. Зона расположена на территории к югу от 34-й параллели и, хотя ее латеральная граница четко не определена, она простирается от Эль-Байды до Дерны, но может доходить и до Бенгази¹⁰¹. Таким образом, эта не имеющая четких границ зона простирается на 70 морских миль от береговой линии Ливии, далеко за пределы ее территориальных вод, и по протяженности всего лишь на 10 морских миль меньше основного судоходного пути, проходящего через Средиземное море¹⁰².

70. Когда впервые было объявлено о создании «запретной зоны», неясно, однако не имеющее даты уведомление для торговых и других судов, определяющее эту зону, было передано одной из компаний, оказывающих морские услуги, местными торговыми агентами еще в январе 2022 года (см. приложение 29). Она является частью «закрытой для навигации зоны», но простирается дальше на восток. Только восточная часть выходит за пределы ливийских территориальных вод, при этом ее максимальная ширина составляет 16,9 морских миль. Представитель Морского боевого соединения Суса заявил Группе, что «запретная зона» действительно существует, и сказал, что судам разрешен проход при условии, если они предоставят информацию, касающуюся судна, рейса и груза. Он отметил, что «запретная зона» была создана для пресечения перемещения оружия и отдельных лиц в интересах террористических групп в Дерне. Группа отмечает, что Дерна была объявлена СПХ «освобожденной от террористов» в конце июня 2018 года¹⁰³.

71. Ливия официально объявила о выделении морского района для создания рыбоохранной зоны; она называется ливийской рыбоохранной зоной. Эта зона используется исключительно для целей управления рыболовством и охраны запасов (см. рисунок)¹⁰⁴.

¹⁰⁰ Группа не смогла найти первоисточник с заявлением Ливийской национальной армии, которое, судя по всему, было сделано через ее ныне несуществующую страницу в сети «Фейсбук». Вторичные источники: <https://medium.com/libya-security-monitor/libya-situation-update-12-15-december-4aa69983ad01>, 16 December 2015; <https://twitter.com/Oded121351/status/676999971082780672>, 16 December 2015; 24 March 2020.

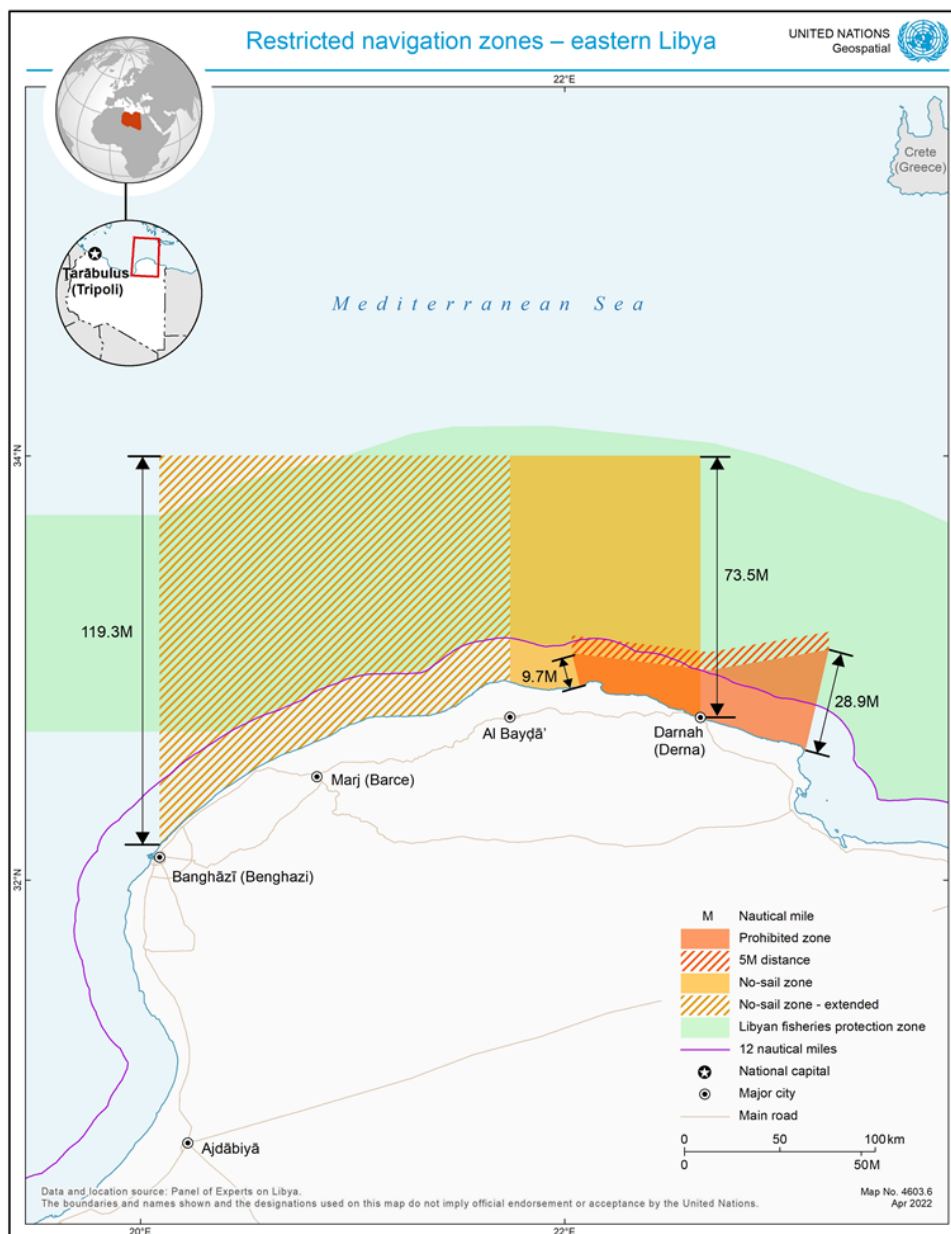

¹⁰¹ <https://mc.nato.int/nsc/operations/news/2020/threat-to-commercial-shipping-operating-in-the-mediterranean-2>, <https://safety4sea.com/update-situation-of-libyan-ports>, 7 January 2021, и www.gard.no/web/content/libya-port-situation, 24 February 2022.

¹⁰² Без ущерба для понимания государствами-членами понятия протяженности территориальных вод Группа использует определение, в соответствии с которым ширина «территориального моря» — согласно статье 3 Конвенции Организации Объединенных Наций по морскому праву — составляет 12 морских миль, что также согласуется с соответствующим ливийским законодательством; см. Закон № 2 от 18 февраля 1959 года о делимитации территориальных вод Ливии: www.un.org/depts/los/LEGISLATIONANDTREATIES/PDFFILES/LBY_1959_Act.pdf.

II.A.1(b)), URL: www.un.org/Depts/los/doalos_publications/LOSBulletins/bulletinpdf/bulletin58e.pdf; и Решение Главного народного комитета № 105 от 1373 года после смерти Пророка (2005 год н.э.) о делимитации ливийской рыбоохранной зоны в Средиземном море (*Бюллетень по морскому праву*, № 59, 2005, разд. II.A.1(b)), URL: www.un.org/Depts/los/doalos_publications/LOSBulletins/bulletinpdf/bulletin59e.pdf.

Рисунок
 «Закрытая для навигации зона» и «запретная зона» сил, примкнувших к Хафтару, и официальная рыбоохранная зона

3. Нарушения на море

72. Группа выявила одно подтвержденное и одно весьма вероятное нарушение на море, а также два технических нарушения на море (см. таблицу 1)¹⁰⁵.

Таблица 1
Нарушения на море

| Название/вид | ИМО/Бортовой номер | Флаг | Нарушение | | Техническое нарушение | Количество профильных показателей | Примечания |
|--|-------------------------|-------------------|----------------|------------------|-----------------------|-----------------------------------|--|
| | | | Подтвержденное | Весьма вероятное | | | |
| <i>Luccello</i> ^a | 7800112 | Коморские Острова | ✓ | | | 9 | <ul style="list-style-type: none"> • 100 военных бронированных транспортных средств • Выгружены в Бенгази (силы, примкнувшие к Хафтару) • См. приложение 30 |
| Быстроходный патрульный катер <i>Lambro Olympic D74</i> | Отсутствует | ТУ | | ✓ | | Н/п | <ul style="list-style-type: none"> • Патрульный катер, используемый военно-морским компонентом Управления по поддержанию стабильности (силы, примкнувшие к правительству национального единства) • Способ и дата доставки не установлены |
| Десантный корабль-док <i>San Giorgio</i> ^b | L9892 | Италия | | | ✓ | Н/п | <ul style="list-style-type: none"> • Военный корабль, используемый для доставки предметов, не подпадающих под оружейное эмбарго (Морской спасательно-координационный центр) • См. приложение 31 |
| Транспортные каботажные суда <i>Capri, Tremiti</i> и/или <i>Caprera</i> ^c | A5353 A5348 A5349 | Италия | | | ✓ | Н/п | <ul style="list-style-type: none"> • Постоянное присутствие на военно-морской базе Абу-Ситта с 2018 года • См. приложение 31 |

^a В настоящее время ходит под флагом Экваториальной Гвинеи как грузовое судно *Victory Roro*.

^b Десантный корабль-док класса *San Giorgio* Военно-морских сил Италии.

^c Каботажное транспортное судно класса *Gorgona* Военно-морских сил Италии.

¹⁰⁵ Группа направила письма соответствующим государствам-членам и владельцам и операторам судов и получила ряд ответов. Подробная информация содержится в соответствующем приложении.

73. Группа считает, что владельцы/оператор судна, указанные в таблице 2, нарушили пункт 9 резолюции 1970 (2011) о передаче военного имущества Ливии.

Таблица 2

Подтвержденные нарушения, связанные с передачей грузов на море

| Судно | Флаг | Владелец | Оператор | Кому передано | Примечания |
|--|-------------------|---------------------------------------|----------|-----------------------------|------------|
| <i>Lucello</i> ^a (Международная морская организация, № 7800112) | Коморские Острова | Medred Ship Management Co Ltd, Турция | Владелец | Силы, примкнувшие к Хафтару | |

^a В настоящее время ходит под флагом Экваториальной Гвинеи как грузовое судно *Victory Roro*.

С. Нарушения, связанные с передачей оружия и военной подготовкой

1. Справочная информация

74. Группа установила, что за отчетный период имели место 18 случаев передачи оружия¹⁰⁶ и четыре случая организации военного обучения¹⁰⁷ в нарушение пункта 9 резолюции 1970 (2011). Группа также выявила 26 нарушений, касающихся передачи оружия, и 5 нарушений, касающихся обучения; эти нарушения имели место в предыдущих отчетных периодах, но о них не сообщалось; информация о них включена в настоящий доклад в качестве доказательства для базы, о которой говорится в пункте 58. Группе также удалось установить, кто несет ответственность за два инцидента, о которых сообщалось в S/2021/229 без указания виновных.

75. Для удобства нарушения в приложении 32 представлены в таблицах в хронологическом порядке. Инфографические данные о нарушениях, касающихся передачи, содержатся в приложениях 33–76, а о нарушениях, касающихся обучения, — в приложениях 77–85.

2. Военная подготовка, предоставленная Турцией силам, примкнувшим к правительству национального единства

76. На официальном сайте начальника Генерального штаба Ливийской армии появилась информация о том, что 16 ноября 2021 года директор по вопросам подготовки Ливийской армии генерал-майор Нури Шенук посетил штаб-квартиру Службы управления подготовкой и операционной деятельностью Министерства обороны Турции¹⁰⁸. Цель визита состояла в том, чтобы обсудить текущее сотрудничество между этими двумя странами в области военной подготовки, а также провести обзор хода текущей подготовки, предоставляемой Турцией Ливийской армии¹⁰⁹. Впоследствии 30 ноября 2021 года официальный

¹⁰⁶ «Передача» относится к передаче оружия и военной техники.

¹⁰⁷ «Обучение» относится к обучению, проводимому третьей стороной и связанному с военной деятельностью.

¹⁰⁸ См. www.facebook.com/LibyaAlAhrarTV/posts/5196300483741754?_rdc=1&_rdr, 16 November 2021; и www.facebook.com/The.presidency.of.the.General.Staff.To.Libyan.Army/posts/275452701190177?_rdc=1&_rdr, 20 November 2021; также подтверждено письмом государства-члена в адрес Группы от 15 февраля 2022 года.

¹⁰⁹ Согласно условиям Меморандума о взаимопонимании между Правительством Турецкой Республики и Правительством национального согласия Государства Ливия о безопасности и военном сотрудничестве от 27 ноября 2019 года (см. “Full text of new Turkey, Libya

представитель Министерства обороны Турции Пинар Кара заявил, что Турция продолжит оказывать «военную помощь Ливии в рамках двустороннего соглашения по просьбе признанного на международном уровне легитимного правительства»¹¹⁰. Официальный представитель также сообщил, что за период до 30 ноября 2021 года турецкие войска организовали подготовку для 6799 ливийских военнослужащих в Ливии и Турции и что еще 974 военнослужащих проходят подготовку в настоящее время. 10 декабря 2021 года Группа направила Турции письмо с просьбой предоставить подробную информацию об этой подготовке. В полученном от Турции ответе от 14 февраля 2022 года подтверждалось, что генерал-майор Нури Шенук находился в стране с визитом в период с 14 по 21 ноября 2021 года, но не было представлено никакой дополнительной информации о виде или масштабах подготовки.

77. Группа признает, что некоторые виды специализированной подготовки, предоставляемые Турцией, например по уничтожению боеприпасов¹¹¹, подпадают под изъятие, предусмотренное для гуманитарных целей... и целей подготовки согласно пункту 9 резолюции 2095 (2013). Остальная подготовка, предоставляемая Турцией силам, примкнувшим к правительству национального единства, является военной или военно-морской по своему характеру, что представляет собой нарушение пункта 9 резолюции 1970 (2011).

3. Борьба с незаконной торговлей

78. Сухопутная граница протяженностью 4348 км остается проницаемой, и незаконный оборот мелких партий оружия беспрепятственно продолжается в масштабах, которые трудно определить или контролировать. Случаи конфискации редки по обе стороны границы, и в течение отчетного периода сообщалось только о четырех таких случаях: а) 13 апреля 2021 года было изъято 80 единиц оружия в Нигере; б) 13 сентября 2021 года было изъято 37 единиц оружия в Судане¹¹²; в) 8 января 2022 года были изъяты боеприпасы к стрелковому оружию в Судане (см. приложение 71)¹¹³; и d) 4 января 2022 года 106-й бригадой СПХ были изъяты оружие и боеприпасы к стрелковому оружию на алжирской границе¹¹⁴.

D. Нарушения и несоблюдения требований, связанные с авиацией

1. Воздушные мосты

79. В 2020 году Группа определила на основе своих профильных показателей (см. приложение 25), что запланированные в централизованном порядке воздушные мосты действуют в основном между: а) Объединенными Арабскими Эмиратами и западной частью Египта/восточной частью Ливии (СПХ);

sweeping security, military cooperation deal revealed”, *Nordic Monitor*, 16 December 2019, URL: <https://nordicmonitor.com/2019/12/full-text-of-new-turkey-libya-sweeping-security-military-cooperation-deal-revealed>).

¹¹⁴ См. <http://nabdapp.com/t/99061768>, 5 January 2022.

б) Российской Федерацией — через Сирийскую Арабскую Республику — и восточной частью Ливии (СПХ); и с) Турцией и западной частью Ливии (правительство национального единства). В докладе [S/2021/229](#) Группа установила, что операторы воздушных судов, образующих воздушные мосты, не соблюдали пункт 9 резолюции [1970 \(2011\)](#).

80. Интенсивность движения на этих воздушных мостах в текущем отчетном периоде в целом была значительно ниже, чем в предыдущем. Например, количество полетов военных грузовых самолетов Российской Федерации в западную часть Ливии сократилось на 61 процент (см. приложение 86). Группа также отметила, что военные грузовые самолеты Российской Федерации использовали Ливию в качестве технической остановки для полетов, например, в Центральноафриканскую Республику и Мали. Количество полетов военных грузовых самолетов Турции в восточную часть Ливии сократилось на 62 процента (см. приложение 87). И наоборот, количество полетов, осуществляемых авиакомпанией “Cham Wings” Сирийской Арабской Республики, увеличилось на 79 процентов (см. приложение 88), и хотя они продолжали использоваться для ротации иностранных боевиков, они также служили для целей незаконной миграции.

2. Нарушения и несоблюдения требований, связанные с авиацией

81. Группа продолжает расследование в отношении владельцев и операторов воздушных судов, которые или представляли интерес для Группы, или были признаны нарушившими оружейное эмбарго (см. резюме в приложении 89 и приложения 90–96).

82. Владельцы и операторы продолжают регулярно меняться воздушными судами в целях сокращения транспарентности и маскировки незаконных полетов. В частности, Группа отметила увеличение числа воздушных судов, принадлежащих компании Объединенных Арабских Эмиратов “Space Cargo Inc”¹¹⁵, действующей в поддержку СПХ и, следовательно, нарушающих оружейное эмбарго.

Е. Нарушения, совершенные частными военными компаниями

1. «Проект Опус»

83. Группа узнала о программе компаний “Space Cargo Inc” и “BU Shames FZE”, зарегистрированных в Объединенных Арабских Эмиратах, по ремонту, техническому обслуживанию и испытательным полетам трех вертолетов AS332L «Супер Пума», задействованных организацией «Проект Опус», и представила соответствующую информацию в приложении 76 к докладу [S/2021/229](#). 18 декабря 2020 года в Бенгази впервые прибыли южноафриканские технические работники, нанятые компанией “Space Cargo Inc”. Вертолеты прошли летные испытания и были впервые продемонстрированы на параде СПХ в честь седьмой годовщины операции «Достоинство» 29 мая 2021 года (см. приложение 97).

84. Обновленная информация о а) летательном аппарате LASA T-Bird, зарегистрированном как YU-TSH; и б) использовании подставной компании — владельца содержится в приложении 99. В отношении этого инцидента расследование продолжается.

¹¹⁵ См. также п. 83 об участии “Space Cargo Inc” в частных военных операциях.

2. ЧВК Вагнера

85. Группа продолжает расследовать задействие агентов ЧВК Вагнера и поставки оружия и связанных с ним материальных средств для поддержки операций ЧВК Вагнера. С дополнительной информацией об их операциях и логистике в 2020 году можно ознакомиться в приложении 100, в котором также приводится подробная информация о нарушении международного гуманитарного права.

3. “AR Global Group FZE LLC”

86. Группа установила, что компания “AR Global Group FZE LLC”, зарегистрированная в Объединенных Арабских Эмиратах¹¹⁶, выступает в качестве брокера или агента по поставкам для СПХ. 27 сентября 2020 года компания пыталась приобрести систему радиотехнической разведки — предмет двойного назначения. Процесс закупки сорвался в мае 2021 года, когда Литва отказала в выдаче экспортной лицензии на некоторые компоненты двойного назначения для более обширной системы. Сертификаты конечного пользователя, предоставленные СПХ, содержатся в приложении 101. Компании “AR Global Group FZE LLC” была предоставлена возможность ответить 14 февраля 2021 года. Ответа получено не было.

F. Сводная информация об ответственности за случаи нарушения и несоблюдения требований

87. Группа считает, что страны, структуры и физические лица, перечисленные в таблице 3:

- a) нарушают пункт 9 резолюции 1970 (2011);
- b) не соблюдают пункт 19 резолюции 2213 (2015) из-за непроведения надлежащего досмотра судов и/или воздушных судов, направляющихся в Ливию или из нее; и/или
- c) не соблюдают пункты 14 и/или 15 резолюции 2571 (2021) посредством непредоставления любой имеющейся у них информации об осуществлении мер и/или необеспечения беспрепятственного доступа к документам, которые Группа сочтет имеющими отношение к выполнению ее мандата.

Таблица 3

Краткое описание случаев нарушения и/или несоблюдения требований

| Страна/структура/физическое лицо ^a | Нарушение п. 9 резолюции 1970 (2011) | Несоблюдение п. 19 резолюции 2213 (2015) | Несоблюдение пп. 14 и/или 15 резолюции 2571 (2021) | Причина |

^a Перечислены в английском алфавитном порядке в разбивке по типовой категории.

G. Реагирование на нарушения оружейного эмбарго

88. Некоторые государства-члены и региональные организации приняли ряд мер в ответ на несоблюдение оружейного эмбарго юридическими лицами, базирующимися или зарегистрированными на их территории (см. приложение 102).

H. Пуск тактических баллистических ракет силами, примкнувшими к Хафтару

89. Испытательный пуск по меньшей мере трех тактических баллистических ракет, произведенный СПХ 7 марта 2022 года, стал неожиданностью, поскольку, по общему мнению организаций, занимающихся разминированием и управлением запасами, в Ливии не осталось ни одной тактической баллистической ракеты в исправном состоянии. Анализ этого инцидента см. в приложении 103.

IV. Единство государственных институтов

90. Вопрос о единстве государственных институтов был рассмотрен в свете требований пункта 5 резолюции [2509 \(2020\)](#).

A. Процесс воссоединения Центрального банка Ливии

1. Общий обзор

91. В июле 2018 года бывший премьер-министр Ливии Фаиз Сарадж направил письмо Генеральному секретарю, в котором просил Организацию Объединенных Наций содействовать проведению финансового обзора деятельности Центрального банка Ливии в Триполи и параллельного отделения в Эль-Байде на востоке страны с целью восстановления целостности и прозрачности ливийской финансовой системы и доверия к ней и создания условий, необходимых для объединения ливийских финансовых учреждений.

92. В июле 2021 года, после изучения финансового положения филиалов в Триполи и Эль-Байде, компания «Делойт» представила окончательный отчет, в котором были изложены шесть основных принципов и набор из 15 рекомендаций (см. приложение 104). Группа отмечает, что основными указанными в отчете проблемами, препятствующими процессу воссоединения, являются следующие:

- a) необходимость реформирования и совершенствования процесса выпуска аккредитивов;
- b) неприменение Международных стандартов финансовой отчетности¹¹⁷;
- c) необходимость оценить последствия девальвации ливийского динара;
- d) необходимость установить требование эффективного управления и внутреннего контроля;

¹¹⁷ Международные стандарты финансовой отчетности — это набор правил учета для финансовой отчетности государственных компаний, призванные обеспечить ее единообразие, прозрачность и сопоставимость во всем мире. Они были разработаны Советом по международным стандартам финансовой отчетности (см. www.ifrs.com).

- е) неоднократное отклонение бюджетных предложений Палатой представителей;
- ф) проблемы с руководством в обоих филиалах¹¹⁸.

2. «Дорожная карта» и обновленная информация о текущей ситуации с переговорами

93. Рекомендации компании «Делойт» послужили основой для постановки задач, которые она опубликовала 9 июля 2021 года и которые теперь задают направление для процесса реформирования и воссоединения. Группа была проинформирована о том, что 20 февраля 2022 года управляющий Центральным банком Ливии на востоке Али аль-Хибри¹¹⁹ подтвердил, что будет использоваться следующий подход¹²⁰: будет достигнуто первоначальное соглашение о краткосрочных мерах, касающихся ликвидности, остатков средств на банковских счетах на востоке страны и клиринга чеков, после чего совет директоров Центрального банка Ливии займется вопросом о коммерческих банках, скорректирует состав совета директоров Иностранного банка Ливии, с тем чтобы включить в его состав экспертов в области банковского дела, и впоследствии проведет реструктуризацию Центрального банка Ливии. Тем временем бюро управления проектом, возглавляемое в восточном филиале Центрального банка Али Джехани, будет принимать меры на уровне персонала в деле интеграции функций банковского надзора и регулирования, при этом Эль-Байда будет заниматься восточным филиалом, а Триполи — западным, но конкурировать они друг с другом не будут. (В частности, у банка «Джумхурия» будет общая ассамблея с участием как Центрального банка Ливии, так и восточного Центрального банка Ливии, а в совете директоров банка «Джумхурия» будет обеспечено сбалансированное представительство).

94. Совет директоров Центрального банка Ливии к этой работе еще не приступил. Тем не менее состоялись первые переговоры между директорами обоих филиалов. Параллельно с этим компания «Делойт» провела в середине февраля 2022 года семинар, чтобы добиться прогресса в выполнении поставленных задач, начиная с определения конкретных целей. Согласованный график представлен в таблице 4.

Таблица 4

Сроки выполнения задач по воссоединению и реформированию Центрального банка Ливии

| <i>Задача</i> | <i>Дата начала</i> | <i>Сроки</i> | <i>Примечания</i> |
|----------------------------|------------------------|---------------|--|
| Подготовка к воссоединению | Конец января 2022 года | Три месяца | – |
| Воссоединение | Конец апреля 2022 года | Три месяца | – |
| Оценка | Конец июля 2022 года | Один месяц | – |
| Цели проведения реформы | Конец июля 2022 года | Шесть месяцев | <ul style="list-style-type: none"> • Усовершенствование системы учета • Банковский надзор • Реорганизация |

¹¹⁸ Следует отметить, что в сентябре 2014 года и апреле 2015 года Палата представителей пыталась заменить нынешнего управляющего Центральным банком Ливии, однако он отказался покинуть свой пост.

¹¹⁹ Номинально также является заместителем председателя Центрального банка.

¹²⁰ Конфиденциальный источник.

95. Этот процесс поддерживается в рамках семи направлений работы:

- a) концепция и модель работы;
- b) государственный долг;
- c) эмиссия и обращение денег;
- d) клиринговая система;
- e) распределение твердой валюты;
- f) продление периода финансового обзора, с тем чтобы охватить счета с середины 2020 по 2021 год;
- g) государственный бюджет и расходы.

96. Не было достигнуто никакого прогресса в подготовке к тому, чтобы совет директоров мог приступить к выполнению вышеупомянутой работы, которое считается необходимым для успешного проведения реформы. Тем не менее считается, что по остальным направлениям работы достигнут определенный прогресс.

3. Отчет Бюро аудиторской проверки Ливии о Центральном банке Ливии

97. Отчет Бюро аудиторской проверки Ливии за 2020 год был опубликован 24 августа 2021 года¹²¹, и в нем были освещены некоторые неэффективные виды практики Центрального банка Ливии. Основные выводы касаются отдела по операциям Банка.

98. Раскол в Центральном банке Ливии по-разному повлиял на его нормальное функционирование; в частности, стоит отметить использование разных платежных систем, поскольку банки в восточной части страны функционируют самостоятельно. Была создана двойная платежная система: а) банки в западной части страны обрабатывают платежи через систему общих расчетов в режиме реального времени; при этом б) отделения в восточной части страны осуществляют операции вручную, поскольку восточный филиал Центрального банка отключен от этой системы. Это негативно сказалось на выполнении их обязательств, поскольку Центральный банк Ливии не признает ручную систему.

99. В отчете также отмечаются неспособность Центрального банка Ливии перейти на электронную клиринговую систему из-за его неспособности унифицировать вышеупомянутые банковские системы, а также унифицировать и контролировать комиссионные сборы. В результате каждый из двух филиалов в одностороннем порядке устанавливает свои собственные тарифы.

100. Бюро аудиторской проверки Ливии также сообщило, что Центральный банк Ливии отказался представить необходимые документы и данные, касающиеся мер по борьбе с отмыванием денег.

В. Национальная нефтяная корпорация

101. Отчетный цикл был отмечен продолжающейся борьбой за влияние в нефтяном секторе страны между министром нефти и газа Мухаммедом Ауном и председателем совета директоров Национальной нефтяной корпорации Мустафой Саналлой. В августе и октябре 2021 года Аун безуспешно пытался отстранить Саналлу от его должности за предполагаемые административные

¹²¹ См. www.audit.gov.ly/ar/report2020.pdf, 24 August 2021.

нарушения¹²². Также в октябре 2021 года по распоряжению генерального прокурора были арестованы четыре человека, связанных с Корпорацией, в том числе член совета¹²³ и управляющий делами Саналлы¹²⁴. Корпорация осудила произвольные аресты и задержания публичных лиц, назвав эти действия тактикой запугивания, которая может иметь последствия для работы нефтяного сектора. Она выразила обеспокоенность тем, что вооруженные группы все чаще пытаются оказывать влияние на Министерство и Корпорацию¹²⁵.

102. Вооруженные столкновения, произошедшие на нефтеперерабатывающем заводе в Эз-Завии 26 октября 2021 года, привели к повреждению хранилищ и утечке большого количества сырой нефти и продуктов нефтепереработки¹²⁶. Хотя нападения потенциально также связаны с давним соперничеством между вооруженными группами, базирующимися в Эз-Завии, и их претензиями друг к другу, контроль над нефтеперерабатывающим заводом в Эз-Завии и его торгово-распределительной сетью является желанным призом.

103. Объемы добычи выросли до 1,2–1,25 миллиона баррелей в сутки и в основном оставались на этом уровне. Однако на добычу повлияли несколько событий; это свидетельствует о том, что нефтяная инфраструктура страны по-прежнему используется различными сторонами в качестве инструмента принуждения. 20 декабря 2021 года Национальная нефтяная корпорация подтвердила, что добыча на нефтяных месторождениях Эш-Шарара, Эль-Филь, Вафа и Хамада была остановлена в связи с блокировкой трубопроводов и терминалов боевиками группы из Зинтана из Службы охраны объектов нефтяного сектора. Это было сделано в связи с отстранением от должности главы совета директоров компании «Акейкус Ойл Оперэйшнз»¹²⁷, который также был выходцем из Зинтана¹²⁸. Корпорация объявила о наступлении формажорных обстоятельств¹²⁹, и в начале января 2022 года объемы добычи снизились до 729 000 баррелей в сутки¹³⁰; по сообщениям, только после этого была достигнута договоренность¹³¹. Примерно в то же время восточные племена угрожали закрыть объекты в Эс-Сидре и Рас-эль-Ануфе из-за задолженности по заработной плате СПХ¹³². 6 марта 2022 года Корпорация объявила о

¹³¹ См. <https://libyareview.com/20276/libyan-tribes-threaten-to-block-oil-exports>, 8 January 2022.

наступлении форс-мажорных обстоятельств в связи с тем, что одна из местных групп перекрыла трубопроводные краны на нефтяных месторождениях Эш-Шарара и Эль-Филь, что привело к снижению добычи на 330 000 баррелей в сутки. Это равносильно ежедневному убытку в размере более 16 миллионов ливийских динаров; дело было передано в генеральную прокуратуру¹³³. Члены группы были выходцами из Зинтана, и лидеры племени участвовали в переговорах о возобновлении работ¹³⁴. Через два дня было объявлено, что ситуация была урегулирована¹³⁵.

104. Внутренние разногласия между Министерством и Корпорацией сказались и на ее деятельности. В период с 23 февраля по как минимум 3 марта 2022 года корпорация временно приостановила экспорт, заявив, что плохая погода повлияла на функционирование нефтяных портов по всей стране¹³⁶. Министерство публично не согласилось с этим решением, заявив, что погодные условия удовлетворительны, и посоветовала на потерю потенциального дохода¹³⁷. Группа отмечает, что в рассматриваемый период в некоторые дни состояние моря достигало уровня 6 по классификации Всемирной метеорологической организации (ВМО) (высота волн от 4 до 6 метров), но в среднем находилось примерно на уровне 5 (высота волн от 2,5 до 4 метров). Уровень 5 не должен существенно затруднять погрузочные работы. Данные, имеющиеся в морских подписных источниках, свидетельствуют о том, что терминалы, по-видимому, не были закрыты в течение всего рассматриваемого периода, поскольку в некоторые дни погрузочные операции в соответствующих терминалах проводились. Вынесение разногласий между руководителями сектора на публику препятствует институциональному единству.

V. Предотвращение незаконного экспорта или незаконного импорта нефти

A. Незаконный экспорт сырой нефти

105. Никаких судов в санкционный перечень в соответствии с пунктом 11 резолюции 2146 (2014) не вносилось.

106. 23 января 2022 года координатор, назначенный в соответствии с резолюцией 2146 (2014)¹³⁸, сообщил Группе о готовящейся попытке незаконного экспорта 400 000 баррелей сырой нефти из порта Марса-эль-Харига¹³⁹. Предоставленные данные позволили Группе идентифицировать танкер, который, как предполагалось, будет использоваться. 1 февраля 2022 года

¹³³ См. <https://noc.ly/index.php/en/new-4/7806-the-illicit-closure-of-crude-pumping-valves-from-the-al-sharara-and-al-feel-fields-puts-offline-330,000-barrels-per-day-and-leads-to-a-daily-loss-to-the-public-of-more-than-160-million-libyan-dinars>, 6 March 2022.

¹³⁵ См. <https://noc.ly/index.php/en/new-4/7813-the-opening-of-the-al-riyayna-valves-%E2%80%A6-the-resumption-of-production-in-the-al-sharara-field-and-lifting-of-force-majeure-status>, 8 March 2022.

¹³⁶ См. <https://noc.ly/index.php/en/new-4/7749-the-national-oil-corporation-announces-that-the-weather-is-disrupting-the-country-s-oil-exports>, 23 February 2022; и <https://noc.ly/index.php/en/new-4/7796-the-continuation-of-oil-production-and-incapability-of-the-sea-locomotives-to-connect-the-vessels-due-to-bad-weather>, 3 March 2022.

¹³⁷ См. www.reuters.com/article/oil-libya-ports-idINL2N2V60R9, 3 March 2022.

¹³⁸ В отчетном периоде кандидатура координатора была утверждена правительством национального единства повторно.

¹³⁹ Классификатор торговых и транспортных пунктов Организации Объединенных Наций LYMHR.

конфиденциальные источники подтвердили Группе, что этот танкер, в течение нескольких месяцев не подававший сигналов через автоматическую систему опознавания, находился в районе якорной стоянки у порта Марса-эль-Харига. Он оставался в этом районе, не заходя в порт, а затем покинул территориальные воды Ливии 4 февраля 2022 года. На якорной стоянке погрузка с судна на судно не производилась. Группа направила письма соответствующим государствам-членам, а также владельцу и оператору судна; расследования продолжаются.

В. Незаконный экспорт продуктов нефтепереработки

107. Хотя в течение отчетного периода цены на нефтепродукты постоянно росли, объемы топлива, транспортируемого по морю контрабандным путем, на прежний уровень не вернулись. Изменению динамики в контрабандной деятельности способствовали несколько факторов, в том числе принятие правоприменительных мер Италией и Мальтой, а также конъюнктура на нефтяном рынке. Контрабанда топлива происходила в гораздо меньших масштабах: небольшие многоцелевые суда использовались одновременно или одно за другим для перевозки других законных или незаконных товаров. Использование таких методов, вероятно, привело к росту числа отдельных случаев контрабанды, вместе с тем из-за меньших объемов грузов уменьшился географический охват контрабандистов, поскольку перевозка других незаконных товаров приносила более высокую прибыль. Это не исключает возможности перегрузки товаров с более мелких судов на более крупные в международных водах, но за отчетный период Группа о таких конкретных случаях информации не получала. В конце периода, в течение которого подготавливался настоящий доклад, из средств массовой информации¹⁴⁰ и конфиденциальных источников стали поступать сообщения о внезапном увеличении объемов предполагаемого незаконного экспорта нефтепродуктов. Говорить о том, является ли это намечающейся тенденцией, еще рано; Группа продолжает расследование.

108. Контрабанда топлива по-прежнему осуществлялась наземным путем (преимущественно через южные и западные границы Ливии), а утечки внутри страны стали более заметными. Свидетельством тому стала хроническая нехватка топлива на автозаправочных станциях, особенно на юге страны, что вынудило население покупать топливо на нелегальном рынке и привело к более высокой, чем на севере, инфляции¹⁴¹. Вооруженные группы по всей стране наживались на каждом звене цепи утечки топлива, которая использовалась повсеместно и была хорошо организована.

¹⁴⁰ См. www.theguardian.com/world/2022/apr/17/tunisia-fuel-ship-sinking-nearby-countries-offer-help-to-prevent-disaster; 17 April 2022; <https://twitter.com/TurkeyAffairs/status/1515821968943112202?s=20&t=pET1loq7FJ4E15TxIzflCQ&fbclid=IwAR2xj2K4y0ZbMgtulcZKdrNr3l3RiVvk6lMhSTvD2Q43R8ukSIWlmbDdKaME>, 17 April 2022; и <https://libyareview.com/23164/libya-seizes-turkish-owned-tanker-suspected-of-fuel-smuggling>, 24 April 2022.

VI. Осуществление мер по замораживанию активов в отношении включенных в санкционный перечень структур

A. Общий обзор

109. Группа продолжала взаимодействовать с Ливийским инвестиционным управлением (LYe.001), Ливийским африканским инвестиционным портфелем (LYe.002) и другими заинтересованными сторонами. Включенные в перечень структуры в целом сотрудничать не отказывались. Ввиду сложного характера финансовых вопросов Группе пришлось взаимодействовать с многочисленными субъектами, включая государства-члены и представителей включенных в санкционный перечень структур.

110. Основное внимание Группа продолжала уделять следующим вопросам: а) получение процентов и других доходов от замороженных активов в качестве дивидендов; б) запросы или уведомления от государств-членов об изъятии из режима замораживания активов; в) оплата управленческих услуг и основные расходы; и d) разные подходы к дочерним компаниям в различных юрисдикциях.

111. Ливийское инвестиционное управление представило Группе обновленную информацию о ходе реализации своей стратегии по руководству и управлению компанией в соответствии с Сантьягскими принципами¹⁴². Даже если усилия Управления, о которых сообщалось, являются эффективными, для обеспечения полного соблюдения Международных стандартов финансовой отчетности еще предстоит проделать дополнительную работу (см. приложение 105). Обеспокоенность Группы относительно недостаточной прозрачности действий руководства не уменьшилась, поскольку оно по-прежнему неохотно предоставляет обновленную информацию о деятельности некоторых своих дочерних компаний. Поэтому, по мнению Группы, ведение бизнеса под прикрытием дочерних компаний может привести к несоблюдению режима санкций и продолжать создавать риск возможной утечки активов.

B. Некорректное использование названий «Ливийская компания зарубежных инвестиций» и «Ливийская арабская компания зарубежных инвестиций» в качестве альтернативных названий Ливийского инвестиционного управления

112. Группа отмечает, что при первоначальном внесении Ливийского инвестиционного управления (LYe.001) в перечень резолюцией 1973 (2011) было указано ее альтернативное название — «Ливийская арабская компания зарубежных инвестиций» (LAFICO). В памятке по вопросам осуществления № 1 от 7 марта 2012 года аббревиатура «LAFICO» также указана в качестве альтернативного названия этой внесенной в перечень структуры. 27 июня 2014 года, после вынесения Группой соответствующей рекомендации (см. S/2014/106)¹⁴³, Комитет изменил в своем санкционном перечне название «LAFICO» на «LFIC» (Ливийская компания зарубежных инвестиций). Никаких

¹⁴² Сантьягские принципы состоят из 24 общепринятых принципов и практик, добровольно одобренных членами Международного форума суверенных фондов национального благосостояния. Они способствуют прозрачности, благому управлению, подотчетности и разумной инвестиционной практике, поощряя при этом более открытый диалог и более глубокое понимание деятельности суверенных фондов национального благосостояния (см. www.ifswf.org/sites/default/files/santiagoprinciples_0_0.pdf).

¹⁴³ Пп. 238 и 289 а).

последующих поправок, отражающих это изменение, в памятку по вопросам осуществления № 1 не вносилось. В документах [S/2018/812](#) и [S/2018/812/Corr.1](#)¹⁴⁴ Группа отметила, что вопрос о юридическом статусе LFIC, которая работает под аббревиатурой LAFICO, рассматривался в предыдущих докладах (см. [S/2013/99](#)¹⁴⁵ и [S/2017/466](#)¹⁴⁶). Группа вновь заявляет, что включать “LFIC” (и первоначально “LAFICO”) в список альтернативных названий Ливийского инвестиционного управления (LYe.001) было некорректно и что все 100 процентов ее активов принадлежат Ливийскому инвестиционному управлению (см. рекомендацию 3).

С. Новая информация о деле по «Евроклиер», рассматриваемом в бельгийском суде

113. В документах [S/2018/212](#) и [S/2018/212/Corr.1](#)¹⁴⁷ Группа сообщила, что в период с 2011 по 2017 год процентные и иные поступления от замороженных активов Ливийского инвестиционного управления, хранившиеся в банке «Евроклиер», можно было перечислять на другие банковские счета Управления в нарушение режима замораживания активов. По состоянию на 25 октября 2017 года бельгийские судебные органы наложили на эти средства и процентные поступления арест в качестве предварительной меры в рамках ведущегося уголовного расследования в отношении предполагаемого отмывания денег и других неправомерных действий, связанных с управлением замороженными активами Управления в этой стране.

114. В рамках этого уголовного разбирательства осенью 2021 года председатель Управления Али Махмуд Хассан Мохаммед был вызван в бельгийский суд. Он не удовлетворил эту просьбу, заявив, что внутреннее законодательство Ливии не позволяет ему давать показания¹⁴⁸. В связи с этим 9 января 2022 года бельгийский судья, ведущий следствие, выдал международный ордер на его арест¹⁴⁹. Генеральный прокурор Ливии встретился со своим бельгийским коллегой в Брюсселе, чтобы попытаться решить этот вопрос¹⁵⁰.

115. Группа продолжает следить за этим делом и напоминает, что любые процентные поступления и доходы от замороженных активов также должны оставаться замороженными, как указано в документах [S/2018/812](#) и [S/2018/812/Corr.1](#)¹⁵¹.

Д. Изъятия из режима замораживания активов

116. Группа отметила непоследовательное выполнение пункта 17 резолюции 1970 (2011), в котором изложены требования, связанные с замораживанием активов.

¹⁴⁴ П. 232.

¹⁴⁵ П. 225.

¹⁴⁶ Пп. 237 и 238.

¹⁴⁷ Пп. 197–207.

¹⁴⁸ Встреча Группы с Али Махмудом и руководством Ливийского инвестиционного управления 2 февраля 2022 года.

¹⁴⁹ Там же.

¹⁵⁰ См. www.libyaherald.com/2022/01/attorney-general-in-bid-to-end-belgian-legal-moves-to-seize-lia-assets, 24 January 2022; и <https://libyaupdate.com/libyas-attorney-general-in-belgium-for-talks-on-frozen-assets>, 2 February 2022.

¹⁵¹ Пп. 200–207.

117. Под замораживанием активов, как правило, понимается «воспрепятствование любому перемещению, передаче, изменению или использованию средств, доступу к ним или обращению с ними таким образом, чтобы это привело к любому изменению их объема, суммы, местонахождения, собственника, владельца, характера, назначения или к другим изменениям, которые позволили бы использовать эти средства, включая управление портфелем»¹⁵².

118. Группа отмечает, что Соединенное Королевство Великобритании и Северной Ирландии последовательно продолжает интерпретировать пункт 19 а) резолюции 1970 (2011) таким образом, чтобы разрешать выдачу лицензий на активное управление активами замороженных фондов. Его аргументация заключается в том, что активное управление активами необходимо для поддержания стоимости средств, которые в итоге должны быть переданы ливийскому народу и использоваться во благо ему. Государство-член утверждает, что выдача таких лицензий не дает включенной в перечень структуре доступ к замороженным средствам и что режим замораживания активов таким образом не нарушается.

119. Группа придерживается противоположного мнения, считая, что деятельность по управлению активами, включающая дискреционное управление или получение дохода от аренды, даже если такой доход остается замороженным, в настоящее время не подпадает под понятие «насушные расходы» или «текущее хранение или содержание» замороженных денежных средств, о которых говорится в пункте 19 а) резолюции 1970 (2011). Изъятия, изложенные в пунктах 19–21 резолюции 1970 (2011), остаются в силе. Никакое уведомление об изъятии не может быть рассмотрено, если оно не подпадает ни под одно из действующих положений, независимо от того, имеет ли включенная в перечень структура доступ к средствам.

120. Учитывая такие различия в толковании пункта 19 резолюции 1970 (2011), Группа продолжает оказывать помощь Комитету, предоставляя ему дальнейшие надлежащие рекомендации по этому вопросу. Это говорит о том, что необходимо следить за применением положений пункта 19 этой резолюции, касающихся активного управления¹⁵³.

Е. Прочие вопросы

121. Ливийское инвестиционное управление продолжает привлекать внимание к вопросам, вызывающим обеспокоенность в связи с режимом санкций в отношении себя, Ливийского африканского инвестиционного портфеля и их различных филиалов. Речь идет о следующих вопросах: а) отсутствие процентов в соответствии с памяткой по вопросам осуществления № 6; б) отрицательные процентные ставки; в) отсутствие возможности реинвестировать и поддерживать существующие инвестиции; и д) процедурные вопросы с государствами-членами.

122. Основной причиной потери средств Управление называет замораживание активов; объем убытков, по оценкам международного консультанта,

¹⁵² См. определение, приведенное в пункте 165 документа S/2021/229, как определение, обычно используемое в финансовом законодательстве и административных инструкциях многих государств-членов.

¹⁵³ См. S/2021/229, п. 168, в котором изложены информация о некоторых активно управляемых активах Ливийского инвестиционного управления и Ливийского африканского инвестиционного портфеля и мнение Группы.

подготовившего ревизионный отчет, составил около 4 млрд долл. США¹⁵⁴. Управление считает, что, не имея возможности управлять замороженными активами, невозможно обеспечить надлежащее управление компанией и что Управление вынуждено истощать свои сокращающиеся незамороженные ресурсы, чтобы покрывать свои насущные оперативные расходы. Оно считает лицензионный режим функционально несостоятельным для фонда национального благосостояния, которому требуется гибкость для выполнения коммерческих или стратегических решений¹⁵⁵.

Оценка политики отрицательных процентных ставок в условиях замораживания активов

123. Комитет получил несколько просьб о высвобождении определенных средств Ливийского инвестиционного управления для уплаты сборов или комиссии в соответствии с национальным законодательством государств-членов. Обычно ссылаются на пункт 19 а) резолюции 1970 (2011). Некоторые из этих запросов связаны с начислением отрицательных процентов в соответствии с национальным законодательством.

124. Группа считает, что политику отрицательных процентных ставок, используемую в коммерческих банках, можно поставить под сомнение в исключительной ситуации со средствами, на которые распространяется действие мер по замораживанию активов. Такая политика приводит к потере части замороженных средств, что противоречит цели режима санкций, которая заключается в сохранении этих средств на благо ливийского народа. Банковская политика отрицательных процентных ставок используется в отношении счетов, на которых денежные средства хранятся в течение длительного времени, с целью не допустить того, чтобы клиенты хранили денежные средства долгое время; это невыгодно Управлению, поскольку оно не может перевести замороженные средства, чтобы избежать отрицательных процентных ставок.

125. Группа понимает, что для государств-членов этот вопрос носит внутренний характер, однако предлагает изучить эту политику на национальном уровне на предмет того, должна ли она применяться к активам, замороженным в рамках санкций Организации Объединенных Наций (см. рекомендацию 6).

VII. Осуществление мер по замораживанию активов и запрещению поездок включенных в перечень физических лиц

A. Саади Каддафи

126. 6 сентября 2021 года правительство национального единства объявило об освобождении Саади Каддафи (LYi.015), содержавшегося под стражей в Триполи (см. приложение 106). Официальные источники в Ливии подтвердили Группе, что он покинул Ливию вечером 5 сентября 2021 года на борту самолета, принадлежащего правительству Ливии (Dassault Falcon 900EX, регистрационный номер 5A-DCN), и приземлился в Стамбуле, Турция, 6 сентября 2021 года в 01:37 утра. Группа направила Турции и Ливии письма 8 сентября 2021 года, а Турции — еще одно письмо с дополнительной

¹⁵⁴ Там же, пп. 152–163.

¹⁵⁵ Встреча Группы (20 сентября 2021 года).

информацией 17 ноября 2021 года. Ответа получено не было. Группа продолжает расследование.

В. Абу Зайд Умар Дорда

127. Средства массовой информации сообщили о том, что 27 февраля 2022 года скончался Абу Зайда Умар Дорда (LYi.006)¹⁵⁶. Группа направила письма Ливии и Египту — странам его гражданства и проживания, указанным в перечне. Египет ответил, что Дорда умер естественной смертью 28 февраля 2022 года, и предоставил копию свидетельства о смерти (см. приложение 107). В свидетельстве о смерти было указано еще одно среднее имя (Хмейд), а полное имя было указано следующим образом: Абу Зайд Умар Хмейд Дорда. Ответа от Ливии получено не было (см. рекомендацию 5).

С. Постоянно действующие изъятия из режима запрета на поездки

128. 1 декабря 2020 года Комитет принял решение предоставить на период в шесть месяцев изъятие из режима запрета на поездки «без ограничений» для гуманитарных целей трем лицам, включенным в перечень¹⁵⁷. Это означает, что лица, на которых распространяется изъятие, могут совершать поездки в течение этого периода без необходимости запрашивать отдельные изъятия для каждой поездки при условии, что соответствующая информация о каждой поездке будет заранее предоставлена Комитету. Это позволяет Комитету быть постоянно осведомленным о местонахождении этих лиц и цели их поездок.

129. С тех пор срок действия этого изъятия постоянно продлевался, и в последний раз он был продлен до 31 мая 2022 года. В соответствующих пресс-релизах¹⁵⁸ и вербальных нотах Комитет сообщил всем государствам-членам, что информацию о каждой отдельной поездке по-прежнему необходимо представлять до и в течение одного месяца после поездки в соответствии с руководящими принципами Комитета и памяткой по вопросам осуществления № 4¹⁵⁹. Комитет также отметил, что «любое государство (государства), разрешающее (разрешающие) любому из трех указанных лиц въезжать на свою территорию или проезжать через нее, должно (должны) уведомить об этом Комитет в течение 48 часов после въезда на его территорию или проезда через нее. Уведомление должно быть представлено в письменном виде с указанием даты въезда и предполагаемого срока пребывания».

130. За отчетный период два лица, на которых распространяется изъятие, совершили поездки в Египет, Турцию и/или Объединенные Арабские Эмираты или проследовали через эти страны транзитом. Ни одно из этих государств-членов не уведомило Комитет в соответствии с вышеупомянутыми опубликованными Комитетом руководящими принципами. Оман и Швейцария

¹⁵⁶ См. <https://al-ain.com/article/abuzeid-dorda-libya-intelligence>, 28 February 2022; и www.libyaobserver.ly/inbrief/former-regime-official-died-cairo, 28 February 2022.

¹⁵⁷ См. www.un.org/press/en/2020/sc14369.doc.htm, 1 December 2020; Сафия Фаркаш аль-Бараси (LYi.019), Аиша Муамар Мухаммед Абу Миньяр Каддафи (LYi.009) и Мухаммед Муамар Каддафи (LYi.012).

¹⁵⁸ См. www.un.org/press/en/2021/sc14543.doc.htm, 7 June 2021; и www.un.org/press/en/2021/sc14718.doc.htm, 3 December 2021.

¹⁵⁹ См. <https://www.un.org/securitycouncil/ru/sanctions/1970/guidelines>; и www.un.org/securitycouncil/sites/www.un.org.securitycouncil/files/1970_ian4_0.pdf.

уведомили Комитет о поездках лиц, на которых распространяется изъятие, в соответствии с руководящими принципами.

131. В интересах полного выполнения руководящих принципов Комитета и положений памятки по вопросам осуществления № 4 может потребоваться своевременное предоставление более конкретной информации соответствующим государствам-членам (см. рекомендацию 4).

VIII. Рекомендации

132. Группа рекомендует:

Совету Безопасности:

Рекомендация 1. Рассмотреть вопрос о введении требования о том, чтобы государства-члены уведомляли Комитет в случаях доставки дипломатических грузов или товаров, предназначенных для гуманитарных целей или целей защиты, в Ливию с использованием военных кораблей или военных летательных аппаратов (см. п. 60).

Рекомендация 2. Просить правительство Ливии, в соответствии с положениями пункта 6 резолюции [2278 \(2016\)](#), обновить информацию о его координаторе и представить имеющую отношение к работе Комитета информацию о структуре сил безопасности, находящихся под его контролем (см. п. 67).

Комитету:

Рекомендация 3. Удалить название “Libyan Foreign Investment Company (LFIC)” из раздела «Вымышленные названия» в позиции санкционного перечня «Ливийское инвестиционное управление» (LYe.001) и рассмотреть вопрос о включении Ливийской компании зарубежных инвестиций (также известной как Ливийская арабская компания зарубежных инвестиций) в санкционный перечень в качестве отдельной структуры (см. п. 112).

Рекомендация 4. Напомнить государствам-членам о требованиях относительно уведомления, когда Комитет получает информацию, касающуюся предстоящей поездки в рамках изъятия из режима запрета на поездки без ограничений (см. п. 131).

Рекомендация 5. Обновить позицию санкционного перечня, посвященную Абу Зайду Умару Дорде (LYi.006), чтобы включить в нее информацию о его смерти и еще одно среднее имя (см. п. 127).

Государствам-членам:

Рекомендация 6. Учитывать исключительную ситуацию, касающуюся средств, в отношении которых приняты меры по замораживанию активов в рамках режима санкций Организации Объединенных Наций, в национальной политике, касающейся отрицательных процентных ставок (см. п. 125).

Annex 1 Overview of the evolution of the Libya sanctions regime

1. By resolution [1970 \(2011\)](#), the Council expressed grave concern at the situation in Libya, condemned the violence and use of force against civilians and deplored the gross and systematic violation of human rights. Within that context, the Council imposed specific measures on Libya, under Chapter VII of the Charter of the United Nations, including the arms embargo, which relates to arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment, and spare parts for the aforementioned, in addition to the provision of armed mercenary personnel. The arms embargo covers both arms entering and leaving Libya. The Council also imposed travel ban and asset freeze measures, and listed individuals as subject to one or both measures, in the resolution. Furthermore, the Council decided that the travel ban and the asset freeze were to apply to the individuals and entities designated by the Committee established pursuant to resolution [1970 \(2011\)](#) concerning Libya involved in or complicit in ordering, controlling or otherwise directing the commission of serious human rights abuses against persons in Libya.
2. By resolution [1973 \(2011\)](#), the Council strengthened the enforcement of the arms embargo and expanded the scope of the asset freeze to include the exercise of vigilance when doing business with Libyan entities, if States had information that provided reasonable grounds to believe that such business could contribute to violence and use of force against civilians. Additional individuals subject to the travel ban and asset freeze were listed in the resolution, in addition to five entities subject to the freeze. The Council decided that both measures were to apply also to individuals and entities determined to have violated the provisions of the previous resolution, in particular the provisions concerning the arms embargo. The resolution also included the authorization to protect civilians and civilian populated areas under threat of attack in Libya. In addition, it included a no-fly zone in the airspace of Libya and a ban on flights of Libyan aircraft.
3. On 24 June 2011, the Committee designated two additional individuals and one additional entity subject to the targeted measures. By resolution [2009 \(2011\)](#), the Council introduced additional exceptions to the arms embargo and removed two listed entities subject to the asset freeze, while allowing the four remaining listed entities to be subjected to a partial asset freeze. It also lifted the ban on flights of Libyan aircraft.
4. By resolution [2016 \(2011\)](#), the Council terminated the authorization related to the protection of civilians and the no-fly zone. On 16 December 2011, the Committee removed the names of two entities previously subject to the asset freeze.
5. In resolution [2040 \(2012\)](#), the Council directed the Committee, in consultation with the Libyan authorities, to review continuously the remaining measures with regard to the two listed entities – the Libyan Investment Authority and the Libyan Africa Investment Portfolio – and decided that the Committee was, in consultation with the Libyan authorities, to lift the designation of those entities as soon as practical.
6. In resolution [2095 \(2013\)](#), the Council further eased the arms embargo in relation to Libya concerning non-lethal military equipment.
7. By resolution [2144 \(2014\)](#), the Council stressed that Member States notifying to the Committee the supply, sale or transfer to Libya of arms and related materiel, including related ammunition and spare parts, should ensure such notifications contain all relevant information, and should not be resold to, transferred to, or made available for use by parties other than the designated end user.
8. By resolution [2146 \(2014\)](#), the Council decided to impose measures, on vessels to be designated by the Committee, in relation to attempts to illicitly export crude oil from Libya and authorized Member States to undertake inspections of such designated vessels.
9. By resolution [2174 \(2014\)](#), the Council introduced additional designation criteria and requested the Panel to provide information on individuals or entities engaging or providing support for acts that threaten the peace, stability or security of Libya or obstructing the completion of the political transition. The resolution strengthened the arms embargo, by requiring prior approval of the Committee for the supply, sale or transfer of arms and related materiel, including related ammunition and spare parts, to Libya intended for security or disarmament assistance to the Libyan government, with the exception of

non-lethal military equipment intended solely for the Libyan government. The Council also renewed its call upon Member States to undertake inspections related to the arms embargo, and required them to report on such inspections.

10. By resolution [2213 \(2015\)](#), the Council extended the authorizations and measures in relation to attempts to illicitly export crude oil from Libya until 31 March 2016. The resolution further elaborated the designation criteria listed in resolution [2174 \(2014\)](#).

11. By resolution [2214 \(2015\)](#), the Council called on the 1970 Committee on Libya to consider expeditiously arms embargo exemption requests by the Libyan government for the use by its official armed forces to combat specific terrorist groups named in that resolution.

12. By resolution [2259 \(2015\)](#), the Council confirmed that individuals and entities providing support for acts that threaten the peace, stability or security of Libya or that obstruct or undermine the successful completion of the political transition must be held accountable, and recalled the travel ban and asset freeze in this regard.

13. By resolution [2278 \(2016\)](#) the Council extended the authorizations and measures in relation to attempts to illicitly export crude oil, while calling on the Libyan Government of National Accord (GNA) to improve oversight and control over its oil sector, financial institutions and security forces.

14. By resolution [2292 \(2016\)](#), the Council authorized, for a period of twelve months, inspections on the high seas off the coast of Libya, of vessels that are believed to be carrying arms or related materiel to or from Libya, in violation of the arms embargo.

15. By resolution [2357 \(2017\)](#), the Council extended the authorizations set out in resolution [2292 \(2016\)](#) for a further 12 months.

16. By resolution [2362 \(2017\)](#), the Council extended until 15 November 2018 the authorizations provided by and the measures imposed by resolution [2146 \(2014\)](#), in relation to attempts to illicitly export crude oil from Libya. These measures were also applied with respect to vessels loading, transporting, or discharging petroleum, including crude oil and refined petroleum products, illicitly exported or attempted to be exported from Libya.

17. By resolution [2420 \(2018\)](#), the Council further extended the authorizations, as set out in resolution [2292 \(2016\)](#) and extended by resolution [2357 \(2017\)](#), for a further 12 months from the date of adoption of the resolution.

18. By resolution [2441 \(2018\)](#), the Council extended until 15 February 2020 the authorizations provided by and the measures imposed by resolution [2362 \(2017\)](#), in relation to attempts to illicitly export crude oil from Libya.

19. By resolution [2473 \(2019\)](#), the Council further extended the authorizations, as set out in resolution [2292 \(2016\)](#) and extended by resolutions [2357 \(2017\)](#) and [2420 \(2018\)](#), for a further 12 months from the date of adoption of the resolution.

20. By resolution [2509 \(2020\)](#), the Council extended until 30 April 2021 the authorizations and the measures in resolution 2146 (2014), as amended by paragraph 2 of resolutions [2362 \(2017\)](#) and [2441 \(2018\)](#), and modified the designation period in paragraph 11 of resolution 2146 (2014) to be one year, and requested the Panel to report any information relating to the illicit export from or illicit import to Libya of petroleum, including crude oil and refined petroleum products.

21. By resolution [2526 \(2020\)](#), the Council further extended the authorizations, as set out in resolution [2292 \(2016\)](#) and extended by resolutions [2357 \(2017\)](#), [2420 \(2018\)](#), and [2473 \(2019\)](#), for a further 12 months from the date of adoption of the resolution.

22. By resolution [2571 \(2021\)](#), the Council extended until 30 July 2022 the authorizations and the measures in resolution 2146 (2014), as amended by paragraph 2 of resolutions [2362 \(2017\)](#), [2441 \(2018\)](#) and [2509 \(2020\)](#), in relation to attempts to illicitly export petroleum, including crude oil and refined petroleum products, from Libya.

23. By resolution [2578 \(2021\)](#), the Council further extended the authorizations, as set out in resolution [2292 \(2016\)](#) and extended by resolutions [2357 \(2017\)](#), [2420 \(2018\)](#), [2473 \(2019\)](#), and [2526 \(2020\)](#) for a further 12 months from the date of adoption of the resolution.

24. To date the Committee has published six implementation assistance notices which are available on the Committee's website.¹

Annex 3 Methodology

1. The Panel ensured compliance with the methodological standards recommended by the Informal Working Group of the Security Council on General Issues of Sanctions (S/2006/997). Those standards call for reliance on verified, genuine documents and concrete evidence and on-site observations by the experts, including taking photographs, wherever possible. When physical inspection is not possible, the Panel will seek to corroborate information using multiple, independent sources to appropriately meet the highest achievable standard, placing a higher value on statements by principal actors and first-hand witnesses to events.
2. The Panel used satellite imagery of Libya procured by the United Nations from private providers to support investigations, as well as open-source imagery. Commercial databases recording maritime and aviation data were referenced. Public statements by officials through their official media channels were accepted as factual unless contrary facts were established. Any mobile phone records from service providers were also accepted as factual. While the Panel wishes to be as transparent as possible, in situations in which identifying sources would have exposed them or others to unacceptable safety risks, the Panel decided not to include identifying information in this document and instead placed the relevant evidence in United Nations secure archives.
3. The Panel reviewed social media, but no information gathered was used as evidence unless it could be corroborated using multiple independent or technical sources, including eyewitnesses, to appropriately meet the highest achievable standard of proof.
4. The spelling of toponyms within Libya often depends on the ethnicity of the source or the quality of transliteration. The Panel has adopted a consistent approach in the present update. All major locations in Libya are spelled or referenced as per the UN Geographical Information System (GIS) map at appendix A.
5. The Panel has placed importance on the rule of consensus among the Panel members and agreed that, if differences and/or reservations arise during the development of reports, it would only adopt the text, conclusions and recommendations by a majority of five out of the six members including the Coordinator. In the event of a recommendation for designation of an individual or a group, such recommendation would be done based on unanimity.
6. The Panel is committed to impartiality in investigating incidents of non-compliance by any party.
7. The Panel is equally committed to the highest degree of fairness and has offered the opportunity to reply to Member States, entities and individuals involved in the majority of incidents that are covered in this update. Their response has been taken into consideration in the Panel's findings. The methodology for this is provided in appendix B.
8. The Panel's methodology, in relation to its investigations concerning IHL, IHRL and human rights abuses, is provided in appendix C.

Appendix A to Annex 3: UN GIS place name identification

Figure 3.1
UN GIS place names Libya

Map No. 3787 Rev. 10 United Nations
November 2015

Department of Field Support
Geospatial Information Section (formerly Cartographic Section)

Appendix B to Annex 3: ‘The opportunity to reply’ methodology used by the Panel

1. Although sanctions are meant to be preventative not punitive, it should be recognized that the mere naming of an individual or entity² in a Panel’s report could have adverse effects on the individual. As such, where possible, individuals concerned should be provided with an opportunity to provide their account of events and to provide concrete and specific information/material in support. Through this interaction, the individual is given the opportunity to demonstrate that their alleged conduct does not fall within the relevant listing criteria. This is called the ‘opportunity to reply’.
2. The Panel’s methodology on the opportunity to reply is as follows:
 - (a) Providing an individual with an ‘opportunity to reply’ should be the norm;
 - (b) The Panel may decide not to offer an opportunity of reply if there is credible evidence that it would unduly prejudice its investigations, including if it would:
 - (c) Result in the individual moving assets if they get warning of a possible recommendation for designation;
 - (d) Restrict further access of the Panel to vital sources;
 - (e) Endanger Panel sources or Panel members;
 - (f) Adversely and gravely impact humanitarian access for humanitarian actors in the field; or
 - (g) For any other reason that can be clearly demonstrated as reasonable and justifiable in the prevailing circumstances.
3. If the circumstances set forth in 2 (b) do not apply, then the Panel should be able to provide an individual an opportunity to reply.
4. The individual should be able to communicate directly with the Panel to convey their personal determination as to the level and nature of their interaction with the Panel.
5. Interactions between the Panel and the individual should be direct, unless in exceptional circumstances.
6. In no circumstances can third parties, without the knowledge of the individual, determine for the individual its level of interaction with the Panel.
7. The individual, on the other hand, in making their determination of the level and nature of interaction with the Panel, may consult third parties or allow third parties (for example, legal representative or his/her government) to communicate on his/her behalf on subsequent interactions with the Panel.

² Hereinafter just the term individual will be used to reflect both.

Appendix C to Annex 3: Violations relating to IHL, IHRL, and acts that constitute human rights abuses investigative methodology

1. The Panel's methodology, in relation to its investigations concerning IHL, IHRL and human rights abuses, is set out as below:

- (a) All Panel investigations are initiated based on verifiable information being made available to the Panel, either directly from sources or from media reports.
- (b) In carrying out any investigations on the use of explosive ordnance against the civilian population, the Panel will rely on at least three or more of the following sources of information:
 - (i) At least two eye-witnesses or victims;
 - (ii) At least one individual or organization (either local or international) that has also independently investigated the incident;
 - (iii) If there are casualties associated with the incident, and if the casualties are less than ten in number, the Panel obtains copies of death certificates and medical certificates. In incidents relating to mass casualties, the Panel relies on published information from the United Nations and other organizations;
 - (iv) Technical evidence, which includes imagery of explosive events such as the impact damage, blast effects, and recovered fragmentation. In all cases, the Panel collects imagery from at least two different and unrelated sources. In the rare cases where the Panel has had to rely on open-source imagery, the Panel verifies that imagery by referring it to eye or by checking for pixilation distortion;
 - a. In relation to air strikes, the Panel often identifies the responsible party through crater analysis or by the identification of components from imagery of fragmentation; and
 - b. The Panel also analyses imagery of the ground splatter pattern at the point of impact from mortar, artillery, or free flight rocket fire to identify the direction from which the incoming ordnance originated. This is one indicator to assist in the identification of the perpetrator for ground fire when combined with other source information.
 - (v) The utilisation of open source or purchased satellite imagery wherever possible, to identify the exact location of an incident, and to support analysis of the type and extent of destruction. Such imagery may also assist in the confirmation of timelines of the incident;
 - (vii) Access to investigation reports and other documentation of local and international organizations that have independently investigated the incident;
 - (vii) Other documentation that supports the narrative of sources, for example, factory manuals that may prove that the said factory is technically incapable of producing weapons of the type it is alleged to have produced;
 - (viii) In rare instances where the Panel has doubt as to the veracity of available facts from other sources, local sources are relied on to collect specific and verifiable information from the ground. (For example, if the Panel wished to confirm the presence of an armed group in a particular area);
 - (ix) Statements issued by or on behalf of a party to the conflict responsible for the incident; and/or
 - (x) Open-source information to identify other corroborative or contradictory information regarding the Panel's findings.
- (c) In carrying out its investigations on deprivation of liberty and associated violations the Panel relies on the following sources of information:

-
- (i) The victims, where they are able and willing to speak to the Panel, and where medical and security conditions are conducive to such an interview;
 - (ii) The relatives of victims and others who had access to the victims while in custody. This is particularly relevant in instances where the victim dies in custody;
 - (iii) Interviews with at least one individual or organization (either local or international) that has also independently investigated the incident;
 - (iv) Medical documentation and, where applicable, death certificates;
 - (v) Documentation issued by prison authorities;
 - (vi) Interviews with medical personnel who treated the victim, wherever possible;
 - (vii) Investigation and other documentation from local and international organizations that have independently investigated the incident. The Panel may also seek access to court documents if the detainee is on trial or other documentation that proves or disproves the narrative of the victim;
 - (viii) Where relevant, the Panel uses local sources to collect specific and verifiable information from the ground, for example, medical certificates;
 - (ix) Statements issued by the party to the conflict responsible for the incident; and/or
 - (x) Open-source information to identify other corroborative or contradictory information regarding the Panel's findings.
- (d) In carrying out its investigations on other violations, which can include forced displacement and threats against medical workers, the Panel relies on information that includes:
- (i) Interviews with victims, eyewitnesses, and direct reports where they are able and willing to speak to the Panel, and where conditions are conducive to such an interview;
 - (ii) Interviews with at least one individual or organization (either local or international) that has also independently investigated the incident;
 - (iii) Documentation relevant to verify information obtained;
 - (iv) Statements issued by the party to the conflict responsible for the incident; and/or
 - (v) Open-source information to identify other corroborative or contradictory information regarding the Panel's findings.
- (e) Upon completion of its investigation, wherever possible, the Panel provides those responsible with an opportunity to respond to the Panel's findings in so far as it relates to the attribution of responsibility. Detailed information on incidents will not be provided when there is a credible threat that would threaten Panel sources.
- (f) If a party does not provide the Panel with the information requested, as called upon by paragraph 14 of resolution [2571 \(2021\)](#), the Panel may consider this for reporting to the Committee.

2. The Panel will not include information in its reports that may identify or endanger its sources. Where it is necessary to bring such information to the attention of the Council or the Committee, the Panel may include more source information in confidential annexes.

3. The Panel will not divulge any information that may lead to the identification of victims, witnesses, and other particularly vulnerable Panel sources, except: 1) with the specific permission of the sources; and 2) where the Panel is, based on its own assessment, certain that these individuals would not suffer any danger as a result. The Panel stands ready to

provide the Council or the Committee, on request, with any additional imagery and documentation to supports the Panel's findings beyond that included in its reports. Appropriate precautions will be taken though to protect the anonymity of its sources.

Annex 4 Member States, organizations and institutions consulted

This list excludes individuals and certain organisations or entities with whom the Panel met, in order to maintain the confidentiality of the source(s) and so as not to impede the ongoing investigations of the Panel.

اللجنة العسكرية المشتركة
5+5

السيد / رئيس المجلس الرئاسي
رئيس حكومة الوحدة الوطنية

تقارير مستقلة.. اللجنة العسكرية المشتركة (5+5) في جلستها المنعقدة
بمدينة سرت بتاريخ 2021/08/14 م الوضع الأمني داخل الدولة الليبية وما يؤثر
بشكل مباشر على خطط عمل اللجنة في أبعاد شبح الحرب وعودة الأمن
والاستقرار ، حيث لاحظت العديد من الأجهزة والأجسام الأمنية والعسكرية تم
تكليفها بمهام أو منحها صلاحيات متداخلة عسكرية وأمنية خاصة وتبع جهات
مختلفة (المجلس الرئاسي - القائد الأعلى - وزير الدفاع) ، دون وضع حدود واضحة
لواجباتها ومهامها والذي أدى الى خلق زعزعة وضعف في أدق دور المؤسسة
العسكرية والأمنية وهو أخطر ما يمكن أن تعانيه المؤسسات وهي -

01. جهاز دعم الاستقرار ...
02. جهاز الامن العام ..
03. قوة مكافحة الارهاب ...
04. مركز عمليات طرابلس الكبرى ..
05. جهاز قوة الردع الخاصة ...
06. القوة المشتركة مصراتة ..
07. المناطق العسكرية (الوسطى - الغربية - طرابلس) -
08. غرف العمليات بصفة عامة ..
09. وأي جهة أخرى تتبع القائد الاعلى مباشرة أن لم يرد ذكرها ..

عليه.. توصى اللجنة بضرورة إعادة النظر في تبعية تلك الأجهزة
وأعادة تبقيتها الى رئاسة الأركان العامة ووزارة الداخلية حسب المهام المكلفين
بها ، حتى يتم إعادة تقييمها وإعادة هيكلتها وتحديد مهامها وفق دراسة علمية
ومهنية ، ووضع ميزانيتهم المالية برئاسة الأركان العامة ووزارة الداخلية وليست
مستقلة

I. Letter to PC-GNU on AGs (14 August 2021)

5+5 Joint Military Commission

Re: Review of agencies

Date:.....

Corresponding to: 19 August 2021

Joint Military Commission 32/167

**To: The President of the Presidency Council
President of the Government of National Unity**

At its meeting held in Sirte on 14 August 2021, the 5+5 Joint Military Commission, considered the security situation in the State of Libya as it impinges directly the Commission's action plans for banishing the spectre of war and restoring security and stability. It noted that there is a multiplicity of security and military agencies and bodies that have been charged with overlapping tasks or granted overlapping military and security authorities. These agencies are subsidiary to a variety of different entities (the Presidency Council, the Commander-in-Chief, the Minister of Defence) and have not had their tasks and duties clearly defined. This has created instability and severely undermined the performance of military and security institutions.

The agencies in question are as follows:

- | | |
|--|------------------------------------|
| 1. The Stability Support Apparatus | 2. The General Security Service |
| 3. The Counter-Terrorism Force | 4. The Emergency Operations Centre |
| 5. The Special Deterrent Force | 6. The Misratah Joint Force |
| 7. The Military zones (Central - West - Tripoli) | |
| 8. The operations rooms in general | |
| 9. Any other agencies directly subsidiary to the Commander-in Chief that we may have failed to mention | |

The Commission recommends that the hierarchical structure of these agencies be reviewed and rearranged to bring them under the Joint Chiefs of Staff or the Ministry of Interior depending on the tasks assigned to them, so they can be re-evaluated and restructured, have their tasks defined by a scientific and professional study, and have their budgets placed under the Joint Chiefs of Staff or the Ministry of Interior rather than being independent.

May peace and God's mercy and blessings be upon you.

(Signed) Major General Ahmed Ali Abu Shahma
Chair of the 5+5 Commission

(Signed) Lieutenant General Emraja'a Emhammed

وَرَاةُ الدِّهَانِ
رَكَائِبَةُ الأَرْكَانِ العَامَةِ للجيشِ اللِّبِيِّ
مَقَرُّ رَكَائِبِ الأَرْكَانِ

218 بيان رئاسة الأركان العامة للجيش الليبي

فشيهد ... ونشمن ما حققته لجنة 5+5 العسكرية من إنجازات ساهمت في خفض مستوى التوتر وخطاب الكراهية بين أبناء الوطن الواحد وخلق مناخ مناسب لنقاش سياسي بين الفرقاء، حيث أشرفت على عودة أعداد من المحتجزين من الطرفين إلى أهلهم وذوئهم، وساهمت في فتح الطرق الساحلي لتسهيل حركة تنقل المواطنين بين شرق البلاد وغربها.

وإذ ... نقتررب من موعد الاستحقاق الانتخابي في 24 ديسمبر نتفاجأ بانحراف لجنة 5+5 عن مسارها المهني والفني المرسوم وتدخّلها في الشؤون السياسية المناطة حصراً بالسلطة التنفيذية القائمة، هذه التدخلات المرفوضة وغير المهنية لها انعكاسات سلبية على مهام المجلس الرئاسي باعتباره القائد الأعلى للوحدة وعلى مهام حكومة الوحدة الوطنية المناطة بها إدارة الشأن العام وحدها دون غيرها.

نحن ... نستغرب خطرات هذه اللجنة وخطاباتها الأخيرة التي قد يفسرها الكثير من المهتمين بالشأن الوطني والسياسي بأن دورها أصبح كسلطة جديدة فوق السلطات الوطنية القائمة، نذكر من أهمها والتي طالت وخلقت جدل كبير بين فئات عريضة من أبناء الشعب الليبي ومؤسساته، طلبها تعيين وزير دفاع على الفور رغم أننا نعلم قصر المدة المتبقية وصعوبة الاتفاق على شخصية في هذا الزمن القصير، كما تناولت خطاباتهم الأجهزة الأمنية والعسكرية القائمة وفقاً للتشريعات التي كان معمولاً بها في زمنها وأغفلت الجهود الكبيرة التي قامت بها بعضها في مكافحة الإرهاب والجريمة وساهمت في الاستقرار الأمني.

وتأسفياً ... على ذلك وحتى نبدد المخاوف الناشئة عن هذه الخطابات فإننا نطلب من القائد الأعلى ورئيس حكومة الوحدة الوطنية ووزير الدفاع التدخل بوقف هذه التجاوزات التي لا تخدم حالة السلم السياسي والمجتمعي، وبأن يكون عملها مهنيًا طبقاً لسياسات هذه السلطات القائمة.

Statement of the Joint Chiefs of Staff of the Libyan Armed Forces

We appreciate and commend the achievements of the 5+5 Military Commission, which has contributed to reducing the level of tension and hate speech among the people of our one country and creating an atmosphere conducive to political debate among various factions. It has overseen the return of numerous detainees from both sides to their families and helped to open the coastal road, thereby facilitating the movement of citizens between the country's east and west.

However, as we approach the 24 December election deadline, we are surprised that the 5+5 Commission has deviated from its customary professional and technical approach and chosen to interfere in political affairs that should be the exclusive purview of the current executive branch. These unacceptable and unprofessional interventions are having negative repercussions for the functions of the Presidency Council as the Commander-in-Chief and functions of the Government of National Unity as the sole entity entrusted with managing public affairs.

We are particularly dismayed by recent steps and statements of the Commission that could be interpreted by those who take an interest in national political affairs as arrogating to itself the role of a new authority above existing national authorities. One of the steps it has taken that has created considerable friction among broad segments of the Libyan public and its institutions has been its request for the immediate appointment of a new Minister of Defence, even though we all know that that it would be difficult to reach agreement on any particular person for the short time available. Its statements regarding security and military agencies formed in accordance with previously existing legislation ignore the significant efforts made by some of those agencies in the fight against terrorism and crime and their contributions to national stability.

Given the preceding, and with a view to dispelling the concerns raised by these statements, we call on the Commander-in-Chief and President of the Government of National Unity, as well as the Minister of Defence, to intervene to put a stop to these infringements, which do not serve the cause of political and social peace, and to ensure that the Commission behaves professionally and in accordance with the policies of these existing authorities.

May God save Libya and its people.

(Signed) Staff Major General
Muhammad Ali Ahmad al-Haddad
Chair of the Joint Chiefs of Staff of the Libyan Armed Forces

بيان

في الوقت الذي نُؤكد فيه على الجهود المبذولة من قبل اللجنة العسكرية 5+5 والتي توجت بحل العديد من المشاكل العالقة من بينها فتح الطريق الساحلي الرابط ما بين الشرق والغرب . نُؤكد ونؤيد ايضاً على ما جاء في بيان غرفة العمليات المشتركة بالمنطقة الغربية التابعة لرئاسة الأركان العامة بالجيش الليبي والذي يُؤكد على ضرورة ان لا تتجاوز اللجنة العسكرية 5+5 اختصاصاتها الموكلة لها . حيث تدخلت هذه اللجنة في إعادة هيكلة الأجهزة الأمنية والعسكرية التي شكلتها حكومة الوفاق السابقة وهذا ليس من اختصاص اللجنة العسكرية 5+5 حيث ان هذا العمل هو من اختصاص الحكومة . إضافة الى عدم ذكرها إعادة تنظيم القيادة العامة في الشرق لتكون من ضمن أجهزة الدولة العسكرية وتناست وتغافلت تماماً عن ذلك . وكذلك تدخلها في تعيين وزير دفاع وهو اختصاص اصيل للحكومة بالتشاور مع المجلس الرئاسي واعتماد مجلس النواب .

جهاز دعم الاستقرار يطالب لجنة 5+5 بالالتزام بالمهام المكلفة بها من المجلس الرئاسي وعدم الانحياز إلى طرف دون آخر . وذلك ضماناً للحفاظ على وحدة الوطن وامنه واستقراره .

حفظ الله ليبيا آمنه ومستقرة

Statement

While we commend the efforts of the 5+5 Military Commission, which have culminated in the resolution of many outstanding problems, including the opening of the east-west coastal road, we must express our support for the statement of the Western Region joint operations room (subsidiary to the Joint Chiefs of Staff), which emphasizes the need for the 5+5 Joint Commission not to exceed the authorities assigned to it. That Committee has intervened in the restructuring of the security and military agencies formed by the previous government of reconciliation. That is not a prerogative of the 5+5 Military Commission; it is a competence of the Government. It also failed to mention the reorganization of the General Command in the east to become part of the State's military apparatus. It completely ignored that. It also interfered in the appointment of a Minister of Defence, which is the prerogative of the Government in consultation with the Presidency Council and subject to approval by the House of Representatives.

The Stability Support Authority calls on the 5+5 Commission to stick to the tasks assigned to it by the Presidency Council and not to align itself with one side at another's expense. That would ensure the preservation of the unity, security and stability of the nation.

May God keep Libya safe and stable.

State of Libya Decisions
Libyan Presidency Council
Office of the Commander-in-Chief

Decision of the Commander-in-Chief of the Libyan Army No. 7 (2021) concerning the establishment of a counter-terrorism and organized crime force in the Libyan south

The Commander-in-Chief of the Libyan Army,

Having considered the following:

The Constitutional Declaration of 3 August 2011 and amendments thereto; The Libyan Political Agreement signed on 17 December 2015;

The outcomes of the Libyan Dialogue Forum adopted on 9 November 2020; Act No. 40 (1974) concerning military service and amendments thereto; Act No. 43 (1974) concerning military retirement and amendments thereto;

Act No. 35 (1977) concerning reorganization of the Libyan army (formerly the armed forces); Act No. 5 (1978) amending certain provisions of military laws;

Act No. 11 (2012) approving certain provisions concerning the authorities of the leadership ranks of the Libyan army;

And the minutes of the meeting of the Presidency Council in its capacity as Commander-in-Chief of the Libyan army (No. 6 on 17 June 2021).

Hereby decides as follows:

Article 1

A military force to be called the Counter-Terrorism and Organized Crime Force is hereby established in the Libyan south. It shall be made up of the first company of the 116th infantry brigade and shall be subordinate to the Commander-in-Chief of the Libyan Army.

Article 2

An officer of the rank of no less than major shall be appointed as commander of the Counter-Terrorism and Organized Crime Force in the Libyan south by decision of the Commander-in-Chief of the Libyan Army.

Article 3

The force shall assume the following functions:

- It shall apprehend armed gangs that threaten the security of the South.
- It shall confront terrorism through arrests and investigations, with assistance and coordination from the relevant authorities

General Command of the Libyan Armed Forces

Decisions

General Commander Decision No. 311 (2021) concerning the disbanding of the 116th and 117th infantry brigades

The General Commander,

Having considered the following:

- Act No. 40 (1974) concerning service in the armed forces and amendments thereto;
- Act No. 1 (2015) amending Act No. 11 (2012) concerning the powers and leadership ranks of the Libyan army;
- House of Representatives Decision No. 20 (2014) concerning delegation of the Office of the Speaker of the House of Representatives of the competences of the Commander-in-Chief of the Libyan Army;
- And Commander-in-Chief Decision No. 20 (2015) appointing a General Commander of the Libyan Arab Armed Forces,

Hereby decides as follows:

Article 1

The 116th and 117th infantry brigades are hereby disbanded. All their personnel, functions, vehicles, weapons and ammunition in their entirety are hereby assigned to the Sabha military district.

Article 2

The present decision shall enter into force on the date of its issuance, all provisions contradicting it are hereby rescinded, and the relevant parties shall be required to implement it.

(Signed) Khalifah Abu al-Qasim **Haftar**
Field Marshal
General Commander of the Libyan Arab Armed Forces

Done at General Command headquarters - Rajmah
11 September 2021

Annex 12 Improvement of HAF operational capability

1. On 19 October 2021 HAF 106 brigade released a video on their official social media⁴ of their latest combined arms firepower demonstration and exercise. The Panel believes that this demonstrates a significant increase in the professionalism of this unit from the 2019 conflict. Indicators of this include:

- (a) The activities shown on the imagery demonstrates a reasonable understanding and execution of combined arms manoeuvre [0:25] and armoured infantry tactics deploying from armoured fighting vehicles (AFV) [27:00'];
- (b) The low-level infantry tactics are reasonable, with proper fire and manoeuvre and aimed shots the norm [4:30'];
- (c) The main battle tank (MBT) gunnery tactics are good. The MBT are firing from hull-down, protective positions with the appropriate use of camouflage and concealment [8:30' and 9:20'];
- (d) The all arms capability very likely includes engineer manoeuvre support with gap crossing capabilities [30:10'];
- (e) The capability to deliver an integrated indirect fire plan was demonstrated using a combination of: (i) fighter ground attack aircraft [22:00']; (ii) BM-21 free flight rocket units [23:35']; 3) field artillery [25:12']; and 4) heavy mortars [24:58' and 27:28']; and
- (f) The use of ZSU-23/4 for integrated formation air defence along the line of advance [25:36' and 30:08'].

This brings the 106 Brigade, under the command of Khaled Khalifa Haftar⁵ much closer to the qualities of an army unit. Indeed, many of the officers have a "Libyan Army" patch on their uniforms and vehicles display the national flag of Libya.

Annex 13 Counterterrorism and terrorism related events in Libya (2021)

1. The Panel has not been able to independently verify some of the events listed in tables 12.1 and 12.2. For those verified the date is in bold type.

Table 12.1

Reported terrorism related events in Libya

| <i>Date</i> | <i>Event</i> |
|--------------------|---|
| 6 Jun 2021 | ISIL-Libya claimed responsibility in the official ISIL (QDe.115) weekly publication “Annaba’a”, of a suicide vehicle-borne improvised explosive device (SVBIED) attack targeting a HAF checkpoint at the ‘Mafreq Abnae Maziq’ Gate, near Sebha. The explosion killed at least two people including the head of the Sebha Criminal Investigation Department, Captain Ibrahim Abdunabi Mannae, and injured several others. ^a |
| 14 Jun 2021 | ISIL-Libya claimed Improvised Explosive Device (IED) attack against a HAF patrol in the Mount of Al Haruj, killing the commander of the “Martyrs of Al-Waw” company, Ali Mohammed Othman Al Tibaoui. ^b |
| 19 Jul 2021 | ISIL-Libya released a photo set entitled ‘Diaries of Caliphate Soldiers in Libya during Eid Al Adha’ showing a small group of fighters celebrating the Islamic holiday of Eid al-Adha, presumably in southern Libya. ^c |
| 22 Aug 2021 | HAF 128 brigade was attacked at the Zillah gate checkpoint near Jufra by a suicide bomber, whose associate survived the blast, identified as a Sudanese national. He was shot as he tried to escape. On 23 August 2021, ISIS claimed responsibility for this attack that wounded some HAF personnel, through ISIL’s official media branch “Aamaq”. ^d |
| 27 Sep 2021 | ISIL-Libya claimed an attack on a HAF checkpoint south of Sebha. According to initial reports there were no injuries, but the specific details of the incident remain unclear. ^e |
| 18 Jan 2022 | ISIL-Libya claimed an IED attack on a HAF camp in Umm al-Aranib, on 17 January 2022, which killed one person and injured two others. ^f |
| 24 Jan 2022 | ISIL-Libya claimed an attack against two HAF vehicles, on the road between the towns of Um al-Aranib and al-Qatrun, disabling one vehicle and killing two of its occupiers. ^g |
| 13 Mar 2022 | ISIL-Libya published photos of its members swearing allegiance to the new leader of the ISIL mother group, Abu al-Hasan al-Hashimi al-Qurashi appointed on 10 March 2022. ^h |
| 31 Mar 2022 | ISIL-Libya published a video of one of its members called “Abu Tabet Al Muhajer” giving a speech where the latter pledged allegiance to the new leader of core ISIL and urging muslims to join the terrorist groups and fight on behalf of the terrorist group. ⁱ |

Table 12.2
Reported counterterrorism related events in Libya

| <i>Date</i> | <i>Event</i> |
|--------------------|--|
| 4 Mar 2021 | The AGO announced the Misratan Special Task Force arrested six ISIL-Libya members in Zliten, Garabulli, Tripoli and Zawiya. ^a |
| 14 Mar 2021 | HAF spokesperson Al Mismari announced the arrest of an ISIL-Libya leader named Mohammed Miloud Mohammed (a.k.a. Abu Omar), in Al Shareb neighbourhood in the city of Awbari. ^b |
| 18 Mar 2021 | The Tripoli AGO stated that 10 women and 14 children of Tunisian origin, detained during the recapture of Sirte from ISIL-Libya, have been transferred to Tunis. The women implicated in terrorist cases are still under investigation in Libya. ^c |
| 2 Jun 2021 | Open-source media reported that the HAF Tareq Bin Ziyad brigade arrested three Al-Qaeda in the Islamic Maghreb (AQIM) affiliated individuals in the village of Tarout, 30km from Brak al-Shati in the south of Libya. ^d |
| 19 Jun 2021 | Libyan open source media reported that HAF have undertaken airstrikes within the area of the Harouj Mountains against ISIL-Libya positions around the same area. ^e |
| 19 Jul 2021 | The AGO filed criminal lawsuits against 54 suspected ISIL-Libya members who were arrested during security operations after the liberation of Sirte. They are accused of different crimes against the State. ^f |
| 11 Aug 2021 | HAF's spokesperson Ahmed al-Mismari announced the arrest of a suspected ISIL-Libya operative of Sudanese origin, named Adam Ibrahim Ahmed, during a security operation near Qatrun. His associates have reportedly fled to the Chadian border. ^g |
| 11 Aug 2021 | The Libyan Minister of Justice announced the future closing of a few prisons and deportation of 100 ISIL members of Arab and African origins to their home countries. ^h |
| 1 Sep 2021 | The Misratan Special Task Force (MSTF) had an armed clash with 'extremist and terrorist' elements (wanted by the AGO) in the '11 July area' of Misrata, which resulted in the killing of an element of the Force. ^j |
| 3 Sep 2021 | The HAF Tareq Bin Ziyad brigade (TBZ) arrested a suspected AQIM member named Al-Ajili Ali al-Hasnawi, near Brak al-Shati. Ajili was reportedly responsible for arms and ammunition transfers to terrorist organisations in neighbouring countries. ^k |
| 7 Sep 2021 | GNU Prime Minister Abdul Hamid Dbeibah announced that the Misratan Joint Operations Force had arrested an ISIL-Libyan leader named M'barek Al Khazmi. ^l |
| 22 Sep 2021 | Open-source media reported that HAF military intelligence arrested an Al Qaida affiliated Egyptian national in Tobruk named Saad Desouqi Sayyed Mohamed Issa. He is believed to have entered Libya on 12 September 2021 in an attempt to reach the south of Libya. ^m |
| 23 Oct 2021 | Libyan open-source media reported that the GNU-affiliated Counter Terrorism Force (CTF) arrested at least two members of ISIL-Libya in the town of Misrata, one of whom fought previously in Syria. This operation was reportedly conducted in coordination with the OGA. ⁿ |
| 28 Nov 2021 | HAF 106 Brigade announced, through their official Facebook page, the arrest of an alleged terrorist named Ali Al Bakir in his residence neighbourhood of Hejara, in the city of Sebha. ^o |
| 20 Jan 2022 | HAF's Commander of the Moral Affairs, Khaled Mahjoub, reported that the 106 Brigade's 'Sahrawi' unit had arrested members of a criminal gang that trades arms and deals with extremist groups in Algeria and Mali. ^p |

| | |
|-------------|---|
| 28 Jan 2022 | HAF's spokesperson Ahmed al-Mismari announced in a press conference that 24 members of ISIL-Libya members of different nationalities were killed and one was captured during three days of clashes with LNA forces near Qatrun in south-western Libya. ^q |
| 02 Feb 2022 | Libyan open-source media reported that the GNU-affiliated security services underwent terrorist search and track operations in the areas of Sabratha and Mount Nafousa which resulted in the arrest of an alleged terrorist of Tunisian nationality named Bilal Bin Abdelwahab Bin Torad. ^r |
| 19 Feb 2022 | The Misratan Joint Operations Force published the confessions of four detained members of AQIM and ISIL-Libya who were based in Tripoli. These individuals revealed plans of terrorist attacks against governmental sites in Libya. ^s |
| 7 Mar 2022 | The 10 th Unit of TBZ published on its official page a video of six HAF units/brigades affiliated to the Southern Operations room carrying out patrols in the Niger-Tchad border area with Libya, where they had reportedly been able to find a hideout, and a secret prison belonging to ISIL-Libya as well as a grave of one of the members of the terrorist group. ^t |

5+5 Joint Military Commission

Subject: Statement

Date:

Corresponding to: 11 November 2021

Statement of the 5+5 Joint Military Commission**Representatives of the General Command of the Libyan Arab Armed Forces**

In keeping with the commitment of the 5+5 Joint Military Commission to implementing the terms of the ceasefire agreement signed in Geneva on 23 October 2020,

With the support of the General Command of the Libyan Arab Armed Forces; with a view to encouraging the members of the 5+5 Joint Military Commission to move forward with bold steps to preserve the dignity of the Libyan homeland and its citizens; with a view to seeing all of Libyan territory liberated in accordance with the determination of our homeland's citizenry; in keeping with the commitment of the General Command to the sovereignty and security of Libyan territory; and in response to the request made by the French leadership to the General Command to take the initiative on the ground to evacuate an initial group of mercenaries and foreign fighters from areas controlled by the Libyan Arab Armed Forces – as an exception to the condition of synchronized and balanced withdrawal agreed to between members of the 5+5 Joint Military Commission in its plan to remove mercenaries, foreign fighters and foreign forces under the auspices of the United Nations Support Mission in Libya (UNSMIL),

The General Command of the Libyan Arab Armed Forces has decided to evacuate an initial group of 300 mercenaries and foreign fighters. There will be direct coordination with the United Nations Mission during the process of transferring fighters to their countries, accompanied by security precautions and coordination with the countries involved, with a view to bringing about peace and stability in Libya and neighbouring countries.

May God preserve Libya.

The 5+5 Joint Military Commission
Representatives of the General Command of the Libyan Arab Armed Forces

Annex 15 Sudanese groups in Libya

1. Since the entry into force of the Juba Peace Agreement, most of the signatories who had an important presence in Libya, namely Sudan Liberation Army / Minni Minawi (SLA/MM), Sudan Liberation Army / Transitional Council (SLA/TC), Gathering of the Sudan Liberation Forces (GSLF) and Justice and Equality Movement (JEM), have brought their elements back to Sudan (paragraph 19 to [S/2021/229](#)). However, it is estimated that their forces still in Libya are scattered in the areas of Hun, Suknah, Jufra, Zilla, Brak al-Shatii and Ghat. Since October 2020, other subgroups of non-signatories, such as Sudan Liberation Army/Abdul Wahid (SLA/AW) and the Sudanese Revolutionary Awakening Council (SRAC), have not had an effective military capability in Libya due to internal divisions.
2. SLA/MM is still receiving salaries and equipment from HAF however they have been reduced over the last months. This group is recruiting fighters in Sudan and training new members in Darfur, some of whom are sent to Libya. On 29 April 2021, the Sudanese Prime Minister Abdallah Hamdok issued a decree appointing Minni Minawi, leader of SLA/MM, as governor of the Darfur region⁶. The members of this group move back and forth between Darfur and Libya.
3. Abdallah Banda's group is still active in Libya in the area of Jufra, providing support personnel to HAF there. It has been reported that some of his members have allied to the SLA/MM group remaining in Libya, from whom they receive salaries.
4. By December 2021, half of Taher Hajar's GSLF group remained in Libya and are positioned around Surt and Jufra.
5. On 30 June 2021, the social media website of the military operation "Volcano of Rage" reported that a group of armed Sudanese nationals attacked a police station in Hun, in an attempt to free one of their members, who had been arrested by the local authorities for the killing of a Libyan national.⁷ This incident was later confirmed and described⁸ by Mahmud Ghmed, President of the "Jufra Society".⁹
6. In mid October 2021, at least 150 vehicles belonging to Sudanese armed groups, escorted by vehicles marked as belonging to HAF 116 and 117 brigades¹⁰ relocated from the area of Al Fawwar¹¹ (south-east of Waw al-Kabir) to the region of Kilinja¹² (west of Kufra).
7. In early December 2021, at least 300 members of SLA/TC led by Saleh Jabal Si have moved from Libya to Korma in Sudan where a field visit was undertaken by UNITAMS, a team of experts from United Nations headquarters and members of the Darfur Permanent Ceasefire Committee ([S/2022/172](#)).
8. On 1 March 2022, during a patrol, the HAF Subul Al Salam batallion clashed with a Sudanese armed group that used to serve under HAF 128 in the Al-Rubyana, 90 km from Tazerbu area. Sources of the Panel indicated that after their defection from the latter, this group of armed Sudanese engaged in criminal activities and set up checkpoints to rob the population in the area. The group was composed of at least 18 individuals and 3 armed vehicles with HAF 128 brigade insignia.

⁷ <https://www.facebook.com/Burkanly/posts/2916186455324164>, 20 September 2021.

⁸ <https://web.facebook.com/watch/?v=302701233762470>, 20 September 2021.

⁹ "Al Jufra Society" is a social group created in February 2021, based in Hun. It is a civil society organization that cares of all social issues related to the Jufra region including human rights.

¹⁰ See annex 10 HAF disbanding 116 brigade. The Panel has yet to reconcile the status of this military grouping.

¹¹ 24°03'08.5"N 17°35'37.9"E

¹² 23°16'35.80"N, 20° 1'37.02"E

Annex 16 Front pour l'Alternance et la Concorde (FACT) and other Chadian opposition groups in Libya

Background on FACT

1. By early 2021, this group held several bases in the areas of Tamenhint, Brak Shati and Jabal Al Aswad. Comprised of at least 1,500 fighters, it was affiliated to HAF for which it operated surveillance and patrol missions in the south of Libya in cooperation with the 128 brigade and the 116brigade (prior to its disbandment). The leader of FACT, Mahamat Mahdi Ali, claimed that during their stay in Jufra in 2020, they collaborated with ChVK Wagner operatives in security missions in Brak Shati, adding that this PMC distrusted him because of his close relationship with France (where he was a political refugee for 25 years). Mahamat Mahdi denied to the Panel receiving any kind of training from ChVK Wagner, and further added that all contact with HAF stopped in April 2021.

FACT military activities in Libya

2. On 11 April 2021, FACT launched its offensive against the Chadian forces from its bases in south Libya to Tibesti in Chad, which coincided with the presidential election day in Chad. The Chadian army claimed more than 300 FACT fighter fatalities and imprisonment of 150 others, whilst losing five of its soldiers in the clashes.¹³ FACT counter-claimed that they took control of two Chadian bases in Wour and Zouarké.¹⁴ The FACT leader claimed that drones of unknown origin constantly monitored his forces' movement.

3. On 18 April 2021, the Chadian President was reported to be dead, from wounds suffered on the combat front against FACT.¹⁵ However, the FACT leader claimed that his group had no knowledge of the presence of Deby on the battlefield¹⁶ and was unsure whether his forces were directly responsible for the Deby's death.

4. On 14 September 2021, the HAF Tariq Bin Ziyad (TBZ) special forces battalion led an offensive against a FACT base in the area of Terbu that lasted at least 4 days. FACT later issued two communiqués¹⁷ on the incident describing the armed clashes against their group.¹⁸ The HAF official media branch reported on its official social media page¹⁹ that the offensive was led by the TBZ battalion supported by the 116 brigade, with air support from its air force.

5. FACT members are still present in Libya, reportedly south of Qatrun.²⁰

<https://globalinitiative.net/analysis/chadian-fighters-libyan-ceasefire/>, 3 December 2021

FNDJT and CCMSR:

6. On 26 January 2022 FNDJT claimed responsibility for an armed attack launched from its rear bases in south of Libya on a Chadian military post (Post 35) in Kouri Bougoudi, in the Tibesti region, north of Chad.²¹ FNDJT and CCMSR²² are both members of a military-political coalition created on 28 March 2021 along with two other Chadian opposition groups namely *L'union des mouvements pour la démocratie et le développement* (UMDD), *l'Union Nationale pour le Changement* (UNC)(Fig.1).

1. On 18 July 2021, in a video interview,²³ Colonel Fadl Allah Hajji²⁴ of the 'Syrian National Army' admitted sending Turkish backed Syrian combatants to Libya "as part of a strategic plan of the cooperation between the (Syrian) National Army and the Turkish Army...and they are not considered as mercenaries by the Turks nor by the Libyans...we didn't send fighters to kill the Libyans, but to maintain peace and security, to protect airports and the Libyan oil interests...".

2. On 31 August 2021 a group of GNU-AF Syrians demonstrated outside their base camp of Al Yarmouk against the delay in their salaries for over four months (figure 13.4). They put road blockades on a main road and set small fires in the immediate surroundings in front of the entrance gate of the camp. A GNU-AF commander stated to the Panel that the Syrians present in those camps were not engaged in any military activity and some escaped to attempt to migrate illegally to Europe.

بيان مجلس المفوضية: بشأن تحديد يوم الاقتراع (للجولة الأولى) من الانتخابات الرئاسية

2021-12-22 12:09 م

لقد أخذت المفوضية على عاتقها تحقيق (إرادة الشعب) في انتخابات حرة ونزيهة تقود إلى تغيير سلمي للسلمة تُنتج حالة من الاستقرار كخطوة نحو بناء دولة المؤسسات والقانون التي ينشدها الليبيون. وعلى الرغم من الصعوبات والتحديات الفنية والقانونية التي واجهتها منذ استلامها للقوانين الانتخابية إلا أنها أنجزت الكثير وباتت على مشارف انجاز تاريخي يسطع نوره على كافة ارجاء الوطن.

غير أن تلك الصعوبات لا تنفك حتى تأتي بأخرى. فقد شكلت مرحلة (الطعون) المنعطف الخطير على مسار العملية الانتخابية. وكانت بمثابة المحطة التي توقفت عندها مساعي الجميع لإنجاز هذا الاستحقاق التاريخي المسؤول لاعتبارات لم تكن في متناول القائمين عليها كان أبرزها: قصور التشريعات الانتخابية فيما يتعلق بدور القضاء في الطعون والنزاعات الانتخابية. الأمر الذي انعكس سلباً على حق المفوضية في الدفاع عن قراراتها. وأوجدت حالة من عدم اليقين من أن قرارات المفوضية جانبها الصواب فيما يتعلق باستبعادها لعدد من المترشحين الذين لا تنطبق عليهم الشروط. كما أن التداخل القائم بين المعطيات السياسية والاحكام القضائية الصادرة دفع بقرار الإعلان عن (القائمة النهائية) للمترشحين إلى ما يعرف بحالة (القوة القاهرة) التي أفضت إلى عدم تمكن المفوضية من الإعلان عنها ومن ثم عدم قدرتها على تحديد يوم 24 ديسمبر يوماً للاقتراع على الرغم من جاهزيتها الفنية الكاملة لإنجاز العملية في التاريخ المذكور.

ووفقاً لما ورد بالمادة (43) من القانون رقم (1) لسنة 2021 بشأن انتخاب رئيس الدولة وتحديد صلاحياته. وتعديلاته. والتي تنص على أن تُعلن المفوضية عن تأجيل عملية الاقتراع. ويحدد مجلس النواب موعداً آخر لإجراء عملية الاقتراع خلال (30) يوماً. فأن المفوضية تقترح بعد التنسيق مع مجلس النواب أن يؤجل يوم الاقتراع (للجولة الأولى) إلى 24 يناير 2022 عملاً بنص المادة أعلاه. على أن يتولى (مجلس النواب) العمل على اتخاذ الإجراءات الكفيلة بإزالة حالة (القوة القاهرة) التي تواجه استكمال العملية الانتخابية.

وعلى مستوى عملية انتخاب مجلس النواب المقررة بموجب القانون رقم (2) لسنة 2021. فأن عملية التدقيق في طلبات المترشحين البالغ عددها (5385) قد قاربت على الانتهاء وهي في طور المراجعة النهائية. وحال استلامنا لردود شركائنا في عملية التدقيق ومدى انطباق شروط الترشح الواردة بالقانون. سوف تصدر المفوضية قرارها المتعلق بالإعلان عن القوائم الأولية لمترشحي مجلس النواب. ومن ثم البدء في مرحلة الطعون.

وبالمناسبة نود أن نؤكد على أننا لم نتخل عن تحمل مسؤولياتنا. وانجزنا ما يتوجب علينا القيام به بما لا يدع مجالاً للشك في حيادتنا واستقلاليتنا. وأن الاتهامات الموجهة إلينا بالتقصير والتسييس ما هي إلا مجرد حملات للتشويش والتظليل هدفها النيل من سمعة المفوضية وعرقلة هذا الاستحقاق بما يخدم اجنداتهم العنيفة. وفي الوقت نفسه نضع السلطات التشريعية والقضائية أمام مسؤولياتهم والتزاماتهم في الأخذ بإجراءات تُفضي إلى نجاح هذا الاستحقاق بما يحقق آمال شعبنا وتطلعاته نحو غداً أفضل يزخر بالسلام والتنمية والرخاء.

وُفقنا جميعاً إلى ما فيه صالح البلاد والعباد والله ولي التوفيق

مجلس المفوضية الوطنية العليا للانتخابات

في 22 ديسمبر 2021

بيان مجلس المفوضية؛ بشأن تحديد يوم الاقتراع (للمرحلة الأولى) من الانتخابات الرئاسية

لقد اخذت المفوضية على عاتقها تحقيق (إرادة الشعب) في الانتخابات حرة ونزيهة تقود إلى تغيير سلمي للسلطة تُنتج حالة من الاستقرار كخطوة نحو بناء دولة المؤسسات والقانون التي ينشدنها الليبيون، وعلى الرغم من الصعوبات والتحديات الفنية والقانونية التي واجهتها منذ استلامها للقوانين الانتخابية إلا أنها انجزت الكثير ويات على مشارف انجاز تاريخي يسطع نوره على كافة أرجاء الوطن.

غير ان تلك الصعوبات لا تتفكك حتى تأتي بأخرى، فقد شكلت مرحلة (الطعون) المتعطف الخطير على مسار العملية الانتخابية، وكانت بمثابة المحطة التي توقفت عندها مساعي الجميع لإنجاز هذا الاستحقاق التاريخي المسؤول لاعتبارات لم تكن في متناول القائلين عليها وكان أبرزها؛ قصور التشريعات الانتخابية فيما يتعلق بنور القضاء في الطعون والنزاعات الانتخابية، الأمر الذي انعكس سلباً على حق المفوضية في الدفاع عن قراراتها، وأوجدت حالة من عدم اليقين من أن قرارات المفوضية جانبها الصواب فيما يتعلق باستبعادها لعدد من المرشحين الذين لا تنطبق عليهم الشروط، كما أن التداخل القائم بين المعطيات السياسية والأحكام القضائية الصادرة دفع بقرار الإعلان عن (القائمة النهائية) للمرشحين إلى ما يعرف بحالة (القوة القاهرة) التي اضطرت إلى عدم تمكن المفوضية من الإعلان عنها ومن ثم عدم قدرتها على تحديد يوم 24 ديسمبر يوماً للاقتراع على الرغم من جاهزيتها الفنية الكاملة لإنجاز العملية في التاريخ المذكور.

ووفقاً لما ورد بالمادة (43) من القانون رقم (1) لسنة 2021 بشأن انتخاب رئيس الدولة وتحديد صلاحياته، وتعديلاته، والتي تنص على أن تُعلن المفوضية عن تأجيل عملية الاقتراع، ويحدد مجلس النواب موعداً آخر لإجراء عملية الاقتراع خلال (30) يوماً، فإن المفوضية تقترح بعد التنسيق مع مجلس النواب أن يؤجل يوم الاقتراع (للمرحلة الأولى) إلى 24 يناير 2022 عملاً بنص المادة أعلاه، على أن يتولى (مجلس النواب) العمل على اتخاذ الإجراءات الكفيلة بإزالة حالة (القوة القاهرة) التي تواجه استكمال العملية الانتخابية.

وعلى مستوى عملية انتخاب مجلس النواب المقررة بموجب القانون رقم (2) لسنة 2021، فإن عملية التدقيق في طلبات المرشحين البالغ عددها (5385) قد قاربت على الانتهاء وهي في طور المراجعة النهائية، وحال استلامنا لردود شركائنا في عملية التدقيق ومدى انطباق شروط الترشح الواردة بالقانون، سوف تصدر المفوضية قرارها المتعلق بالإعلان من القوائم الأولية لترشيح مجلس النواب، ومن ثم البدء في مرحلة الطعون.

وبالمناسبة نود أن نؤكد على أننا لم نتخلى عن تحمل مسؤولياتنا، وانجزنا ما يتوجب علينا القيام به بما لا يدع مجالاً للشك في حياديتنا واستقلاليتنا، وأن الاتهامات الموجهة إلينا بالتقصير والتسييس ما هي إلا مجرد حملات للتشويش والتظليل هدفها النيل من سمعة المفوضية وعرقلة هذا الاستحقاق بما يخدم أجنداتهم العيشية، وفي الوقت نفسه نضع السلطتين التشريعية والقضائية أمام مسؤولياتهم والتزاماتهم في الأخذ بإجراءات لفضي إلى نجاح هذا الاستحقاق بما يحقق آمال شعبنا وتطلعاته نحو عهد أفضل يزخر بالسلام والتنمية والرخاء.

High National Elections Commission

Statement of the Commission board on setting a polling date for the first round of presidential elections

22 December 2021, 12:09 hours

The Commission is carrying out its responsibility to see the will of the people realized in free and fair elections leading to a peaceful transfer of power that brings about stability as a step towards building the State of institutions and law to which Libyans aspire. Despite the technical and legal difficulties and challenges it has faced since it received the elections laws, it has accomplished a lot and is on the verge of a historic achievement that will shine its light throughout the whole country.

Unfortunately, no sooner is one set of difficulties resolved than another emerges. The challenge stage marked a dangerous turning point in the electoral process. It in effect became the station stop at which efforts to carry forward this historical election came to a halt, owing to considerations that were beyond election officials' control. Most notably, electoral laws were deficient with respect to the role of the judiciary in electoral challenges and disputes. That had a negative impact on the right of the Commission to defend its decisions. It created uncertainty about the correctness of decisions by the Commission to disqualify a number of candidates who did not meet conditions. The interference of political interests with the judicial rulings issued pushed the decision to announce the final list of candidates into what may be described as a force majeure situation. The Commission was unable to make its announcement, and therefore unable to set 24 December as election day even though, from a technical standpoint, it was fully prepared to conduct the process on that date.

Article 43 of Act No. 1 (2021) on the election and definition of powers of the Head of State and amendments thereto provides that the Commission shall announce the postponement of the voting process and the House of Representatives shall set another date for conduct of the voting process within 30 days. After coordinating with the House of Representatives, the Commission proposes to postpone the polling date for the first round to 24 January 2022 in accordance with the above-mentioned article. Meanwhile, the House of Representatives must act to take measures to remove the force majeure situation standing in the way of the electoral process.

As far as election for the House of Representatives – as provided for by Act No. 2 (2021) – is concerned, the vetting process for the 5,385 candidate applications is nearing completion and is at the final review stage. Once we have received the responses of our partners in the vetting process on whether the conditions for candidacy provided for by the law have been met, the Commission will issue a decision announcing preliminary candidate lists for the House of Representatives. Then the challenge phase will begin.

We would like to take this opportunity to stress that we have not abdicated our responsibilities. We have carried out our duties in a way that leaves no doubt as to our neutrality and independence. The accusations of negligence and politicization being made against us are just efforts to cast a shadow over the Commission's reputation and obstruct this election in the interests of unconstructive agendas. In the meantime, we encourage the legislative and judicial branches to carry out their responsibilities and take the actions needed for the success of this election in order to achieve the hopes and aspirations of our people for a better tomorrow full of peace, development and prosperity.

May we all succeed achieving the interests of the country and the people, with God's help.

The High National Elections Commission

22 December 2021

Annex 19 Various factors impacting the electoral process

1. A disputed legal framework

The electoral laws adopted by the House of Representatives (HOR)²⁵ failed to offer a largely agreed constitutional basis.²⁶ Several sources believe that these texts were deliberately devised to create dissension and prevent the elections from happening; they would have been adopted only to demonstrate goodwill and avoid sanctions.²⁷ Similarly, the UN and various Member States received their share of criticism²⁸ for failing to achieve consensus among the Libyans in a timely manner after the adoption of the roadmap²⁹ and for supporting the electoral process despite the flaws affecting the laws finally adopted.

2. Controversial candidacies

The successive candidacies for presidential election of prominent figures across Libya of Saif al-Islam Qadhafi (LYi.015),³⁰ Khalifa Haftar,³¹ the HoR Speaker, Aguila Saleh,³² and incumbent Prime Minister Dbeibah³³ stirred controversies over their legality and/or legitimacy.³⁴ The confirmation of Saif al-Islam Qadhafi's (LYi.015) candidacy by the Sebha court on 5 December 2021 antagonized both Haftar and Libyan figures and armed groups from the west. This has exacerbated the challenge of publishing the final list of candidates by HNEC.

3. Threats and security incidents

The Panel identified several problematic incidents that preceded the planned elections, such as forced closure of electoral offices, public calls to boycott the elections, and threats addressed to the HNEC (table 19.1).

²⁵ On 8 September 2021, HoR issued Law No. 1 (2021) on the elections of the president; on 1 November 2021, HoR issued Law No. 9 (2021) amending Law No. 1: https://liasinstitute.com/PDFs/HoR_Law_No_1_2021.pdf, 8 September 2021.

²⁶ See SG Report 2022/31, paragraph 5 regarding the amendment of the electoral framework, SG Report 2022/31.

Table 19.1
Threats and security incidents

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|--|---|
| 4 Nov 2021 | During a televised interview, ³⁵ Khaled al-Mishri, Head of the PC, staunchly expressed his opposition to elections “devised for Haftar”, rejected the electoral laws adopted by the HOR, challenged the legitimacy of Imad al-Sayeh as HNEC chair, declared that the outcome of the 24 December 2021 elections will not be accepted and concluded that if Haftar were elected, the western region would take up arms. | |
| 11 Nov 2021 | The cleric Sadiq al-Gharyani called upon the Libyan representatives from various regions to gather and issue a statement supported by “the sound of arms” inciting Libyans to boycott the elections. He also voiced his concern about forged voter cards. ³⁶ | |
| 14 Nov 2021 | Saif al-Islam Qadhafi (LYi.015) submitted his application for the presidential election that was formally registered by the HNEC. | This has drawn angry reactions ³⁷ in Western Libya that forced the HNEC to temporarily close electoral centres in some places (e.g. in Zliten, Zawiya and Misrata). Public calls in the west to boycott the elections also followed the submission of Saif al-Islam Qadhafi’s (LYi.015) candidacy. ³⁸ |
| 24 Nov 2021 | HNEC rejected 25 submissions including that of Saif al-Islam Qadhafi (LYi.015). ³⁹ | The next day, the candidate challenged the decision before the Sebha court that was subsequently surrounded by TBZ brigade and forced to close for several days. ⁴⁰ |

Annex 20 Incidents of violations of international humanitarian law and international human rights law committed in detention facilities under the control of armed groups in Libya

1. The Panel has interviewed twenty-three victims and their family members⁴³ in regard to alleged violations of international humanitarian law and human rights law that took place during the period from 2015 to 2021. The incidents were perpetrated in official and unofficial places of detention including: (a) the Mitiga detention facility in Tripoli, under the exclusive responsibility and control of the Special Deterrence Forces (SDF); (b) the Saadawi Camp in Ain Zara under the control of Tripoli Revolutionaries Brigade (TRB); (c) the Gernada detention facility in Al Bayda under the control of the HAF Libyan Arab Armed Forces (LAAF); (d) Al Kweifiya detention facility in Benghazi under the control of the HAF LAAF; (e) unofficial place of detention (“military prison”) in Sidi Freij in Benghazi under the control of HAF Tariq Ibn Ziyad brigade; (f) HAF LAAF military intelligence facilities in Benghazi; (g) unofficial place of detention under the internal security agency (ISA) facility in Al Marj; and (h) the detention facility in Tarhuna under the control of Al Kaniyat until June 2020. Summary information is at table 20.1.

2. The Panel identified that officials of SDF, TRB and the four LAAF armed groups had complete control over the victims during the period of their arrest, detention, and transfers to other locations. In all twenty-three cases the Panel found that the detaining authorities: (a) violated victims’ right to liberty and security of person by arresting them on arbitrary grounds; and (b) intentionally depriving them of core procedural and judicial guarantees. This equates to arbitrary and unlawful detention.⁴⁴

3. Fifteen individuals consistently reported that different methods of torture and other mistreatment were administered on detainees, including severe beatings with pipes and cables, suspension, sleep deprivation, denial of food and potable water, and deliberate denial of medical care. Some of these methods were used in combination and repeatedly on a regular basis for the purpose of obtaining information, punishing, or otherwise coercing the detainees.⁴⁵ Four family members of individuals detained in the Gernada, Saadawi and Mitiga detention facilities reported inhuman treatment caused by prolonged incommunicado detention and harsh material conditions.⁴⁶

4. Five of seven detainees were executed in detention facilities under the control of Al-Kaniyat.⁴⁷ The five victims were identified among excavated bodies from mass graves in the Tarhuna area. All victims and witnesses attributed the seven incidents to individuals of the Al-Kaniyat armed group. Three witnesses consistently stated that the three Al-Kani brothers who were Al-Kaniyat’s top commanders, Abdurahem El Shgagi (a.k.a. Abdurahem Al-Kani), Mohammed El Shgagi (a.k.a. Mohammed Al-Kani),⁴⁸ and Mohsen⁴⁹ El Shgagi (a.k.a. Mohsen Al-Kani), ordered and in five cases executed acts of torture and murder of detainees.

5. Six members of the legal profession told the Panel that armed groups operating in the above locations have seriously undermined the role of judges and lawyers in: (a) ensuring respect for detainees’ procedural rights; and (b) in preventing torture and other ill-treatment in detention. These armed groups act with complete impunity from the judicial system. The Panel identified that in two documented cases, the SDF refused to implement decisions of Libyan judicial and government institutions in violation of procedural and judicial safeguards of detainees held in the SDF Mitiga detention facility.

⁴³ Where a victim was unable to give testimony due to an ongoing detention the Panel interviewed an immediate family member.

Figure 20.1

Map of detention facilities

CONFIDENTIAL Appendix B to Annex 20: Summary of investigated incidents

Annex 21 Slavery of migrant detainees in the Mitiga detention facility

1. Four migrant detainees testified to the Panel that individuals of the SDF formed and supervised groups of able-bodied migrants in the Mitiga detention facility (“Mitiga”) for the primary purpose of forced labour. Former detainees identified Osama Najim and Adel Mohamed Ali (a.k.a. “Sheikh Adel”) as individuals directly responsible for their unlawful transfer and unlawful labour that violated the prohibition of slavery, cruel treatment and outrages upon personal dignity under international humanitarian law.⁵⁰
2. Migrant detainees were unlawfully transferred to Mitiga from official and unofficial detention places in Tripoli by a well-organised scheme operated by SDF individuals since at least April 2019.⁵¹ The migrants were captured by the Libyan Coast Guard while attempting to cross the Mediterranean Sea and taken to temporary detention places in the Tripoli area (see figure 21.1).
3. SDF members responsible for the supervision of detainees deliberately exercised power of ownership over migrant detainees under their exclusive control. They forcibly deployed detainees in various locations inside and in close vicinity of Mitiga, primarily as a labour force in support of SDF military operations. In addition to being unlawfully recruited to participate in military operations, detainees had to perform labour under dangerous conditions and inside legitimate military objectives. Military-related tasks included: (a) cleaning and loading weapons; (b) unloading arms shipments in Tripoli port; and (c) unloading arms and other military equipment into underground ammunition storage sites around Mitiga (see appendix C), where they were occasionally exposed to shelling. Other tasks involved collecting and managing dead bodies of fighters and migrant detainees who were killed on the front lines;⁵² and reparation and reconstruction work on facilities belonging to the SDF that were damaged or destroyed during the active military hostilities.⁵³
4. Under armed supervision, migrant detainees worked for twelve to fourteen hours a day to the point of physical exhaustion, without any form of compensation. When they refused to engage in unlawful labour or were unable to perform enforced tasks due to fatigue, they were punished by severe beatings and prolonged solitary confinement in an inadequate isolation cell under poor sanitary conditions and without access to food and potable water (for the Panel’s findings on mistreatment in Mitiga, see annex 20). They performed assigned tasks feeling degraded and humiliated, and under the constant fear of violence.

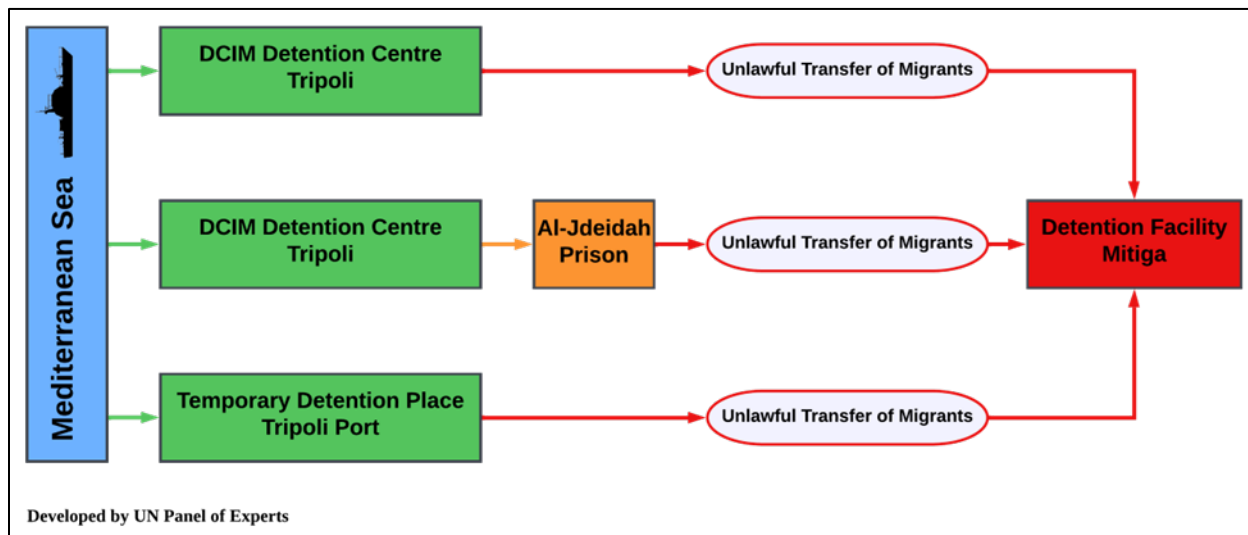

⁵⁰ Common article 3 of the Geneva Conventions; Article 4 of Additional Protocol II.

⁵¹ Victims testified that the scheme of unlawful transfers of migrants for forced labour existed at least since the military offensive on Tripoli by HAF LAAF started in April 2019.

⁵² Victims testified that groups of migrant detainees were forcibly sent to the front lines to directly participate in the hostilities.

⁵³ Common article 3 of the Geneva Conventions.

Annex 22 Attacks on human rights defenders, social activists and media workers

1. The Panel identified six incidents of attacks committed against individuals who participated in public life as human rights defenders, social activists, or media workers. Attacks were perpetrated in the form of unlawful deprivation of life, unlawful deprivation of liberty, enforced disappearance, intimidation, and threats to life.
2. Two female human rights defenders were further intimidated into withdrawing from public life by being subjected to gender-based violence, which included repeated online harassment for reasons related to their gender, receiving humiliating and degrading messages of misogynistic nature on their social media accounts, and online threats of exposing intimate photographs in public.⁵⁵
3. Two prominent human rights defenders were unlawfully abducted from their workplaces by masked armed men and taken in Toyota vehicles to unknown locations shortly after they actively promoted free and democratic elections in Libya. The victims have been kept outside the protection of the law and their whereabouts were deliberately concealed for an extended period of time. The Panel continues to investigate to identify the perpetrators.
4. The Panel found that all these violent acts violated the victims' human rights and in particular the right to life, liberty, and freedom of expression.⁵⁶ A summary is at table 22.1 in confidential appendix A.

⁵⁵ Article 1 of the International Convention on the Elimination of All Forms of Discrimination against Women.

⁵⁶ See articles 6, 9 and 19 of the ICCPR. See also UN CAT, *Francisco Dionel Guerrero Larez v. Venezuela*, Communication No. 456/2011, 15 May 2015, para. 6.6; UN Human Rights Committee, *General Comment No. 35*, para. 58 (incommunicado detention or enforced disappearance as a form of ill-treatment).

CONFIDENTIAL Appendix A to Annex 22

Annex 23 Human rights abuses in unlawful detention places under the control of networks of human traffickers in Bani Walid and Tazirbu

1. This annex contains evidence of human rights abuses committed against four migrants in unlawful detention facilities under the control of networks of human traffickers: (a) Bani Walid (appendix A); and (b) Tazirbu (confidential appendix B).

Appendix A to Annex 23: Locations of unlawful detention places under the control of human traffickers in Bani Walid

Figure 23.A.2

Network of identified human traffickers in control of detention places in Bani Walid and responsible for serious human rights violations against migrants and asylum seekers

Sources: CS 85 and 86.

1. Witnesses identified four individuals responsible for running a well-organised network of human trafficking of persons from, among others, Eritrea, Somalia and Sudan. Abdel Al Munam owns private detention facilities in Bani Walid where trafficked persons were imprisoned and subjected to serious human rights violations. Hassan Qidi manages the detention facilities and Abdel Al Munam's brothers, Waleed and Ashraf, assist him in running the trafficking chain.
2. Two female victims, who were children at the time of captivity, identified Hassan Qidi and Abdel Al Munam as individuals who repeatedly raped them, subjected them to sexual enslavement and other forms of sexual violence in the period from 2018 until 2020.
3. Hassan Qidi was arrested on 5 March 2021 during a law enforcement operation by members of the Libyan Ministry of Defence.⁵⁷

CONFIDENTIAL Appendix B to Annex 23: Locations of unlawful detention places under the control of human traffickers in Tazirbu

Annex 24 Violations of international human rights law against migrants and asylum seekers

1. This annex contains evidence of serious violations of international human rights law against migrants and asylum seekers: (a) in detention centres for migrants under the authority of the DCIM prior to December 2021, and (b) under the authority of the SSA (appendices A and B); and 2) associated with maritime operations (appendix C).⁵⁸
2. The Panel sent five letters to Libya requesting information regarding the human rights situation in DCIM detention facilities and associated with maritime operations, and responses are awaited.
3. On 23 March 2022, the Panel had a telephone call with the new Head of DCIM, Mr. Mohamed Salem al-Khodja,⁵⁹ to discuss the human rights situation of migrants and asylum seekers under the control and authority of the DCIM and in particular the identified human rights violations in DCIM detention centres for migrants.

⁵⁸ See articles 6, 7 and 9 of the International Covenant on Civil and Political Rights.

⁵⁹ Mohamed Salem al-Khodja was appointed as Head of DCIM by GNU Decree 742 (2021) on 23 December 2021.

B. Maritime incidents of 12 August 2021 and 19 January 2022

1. The Panel identified that on the night of 12 August 2021, in a supposedly law enforcement operation, armed individuals of SSA maritime units used deadly force against migrants, located in a boat in the waters that survivors claimed to be an hour away from the coast of Zawiya, in violation of their right to life.⁶⁰ In particular, SSA individuals performed hazardous movements, including by hitting the migrant boat, and fired gunshots at the passengers that caused the death of one person on board.⁶¹ The surviving eyewitnesses, whom SSA embarked on their boat and returned to Libya, recognised the SSA boat as responsible for the incident (see figure 24.C.3)

⁶⁰ Article 6 of the ICCPR.

⁶¹ CS 38 and 60; Forensic death report dated 23 August 2021.

2. The Panel identified the same pattern of violence in an incident of 19 January 2022, when the armed individuals of SSA maritime units used excessive force against around fifty migrants at sea and subjected them to degrading treatment (see Figures 24.C.4 to 24.C.6).⁶²

C. Maritime incident of 22 April 2021

1. The Panel investigated a shipwreck incident that had resulted in approximately 130 fatalities to individuals in distress⁶⁴ in the Libyan Search and Rescue region (SRR) on 22 April 2021. During the investigation, the Panel interviewed ten witnesses and collected forty-seven elements of documentary evidence, including imagery of the shipwrecked boat.⁶⁵

2. The boat (designated by Panel as BD01) with approximately 130 passengers on board left Al Khoms at approximately 22:00 hours CEST⁶⁶ on 20 April 2021⁶⁷ and set course for Italian ports. BD01 was accompanied by a second boat (designated by Panel as BD02), which had approximately 100 passengers on board. The vessels became “in distress” on the morning of 21 April 2021 due to deteriorating weather conditions. This was a complex incident which is best explained by summarising the facts (see table 24.C.7).⁶⁸

Table 24.C.7

Maritime incident with boat BD01 (20 – 22 April 2021)

| <i>Date</i> | <i>Time^a</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|-------------------------|---|---|
| 20 Apr 2021 | 22:00 | BD01 and BD02 depart Al Khoms, Libya | <ul style="list-style-type: none"> ▪ 230+ migrants and asylum seekers on board. |
| 21 Apr 2021 | 09:52 | NGO Alarm Phone alert Libya, Italy and Malta MRCCs via email to possible Search and Rescue (SAR) incident. | <ul style="list-style-type: none"> ▪ No acknowledgement or response from any MRCC. |
| 21 Apr 2021 | 10:03 | NGO Alarm Phone establish contact with BD01. | |
| 21 Apr 2021 | 11:00 | NGO Alarm Phone receive coordinates and details of dangerous conditions on board. | <ul style="list-style-type: none"> ▪ NGO Alarm Phone maintain contact with BD01 throughout day until evening. |
| 21 Apr 2021 | 11:28 | NGO Alarm Phone send full details of incident to Libya, Italy and Malta MRCCs by email, including conditions and coordinates. | <ul style="list-style-type: none"> ▪ Figures 24.C.9 and 24.C.10. ▪ Seven updates sent during day (see figures 24.C.11 to 24.C.14, 24.C.16, 24.C.17 and 24.C.20). ▪ No acknowledgement or response from any MRCC. |

⁶⁴ International Convention on Maritime Search and Rescue (SAR Convention) defines “distress phase” as “a situation wherein there is a reasonable certainty that a person, a vessel or other craft is threatened by grave and imminent danger and requires immediate assistance”, Annex, Chapter 1, para. 1.3.13, SAR Convention.

⁶⁵ The Panel considers a boat in this context as a small watercraft designed for use on inland waterways or protected coastal areas. This is to distinguish it from a vessel, which has a sea going capability.

⁶⁶ All times are in Central European Summer Time (CEST).

⁶⁷ Panel interviews with CS 69 and 88; and <https://alarmphone.org/en/2021/04/22/coordinating-a-maritime-disaster-up-to-130-people-drown-off-libya/>.

⁶⁸ For another detailed timeline of the incident, see <https://alarmphone.org/en/2021/04/22/coordinating-a-maritime-disaster-up-to-130-people-drown-off-libya/>; https://alarmphone.org/wp-content/uploads/2021/07/20210716_AP182_BF-COE.pdf; and https://www.lemonde.fr/international/video/2021/10/31/migrants-enquete-sur-le-role-de-l-europe-dans-le-piege-libyen_6100475_3210.html.

| <i>Date</i> | <i>Time ^a</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|--------------------------|---|--|
| 21 Apr 2021 | 12:05 | NGO Alarm Phone make first attempt to contact Libya MRCC by phone. | <ul style="list-style-type: none"> Only one of the seven phone lines was responsive. Libya MRCC operator informed about alert messages sent via email. |
| 21 Apr 2022 | 18:39 | Frontex patrol plane streams live video from the scene. | <ul style="list-style-type: none"> No acknowledgement or response from any MRCC. |
| 21 Apr 2021 | 18:51 | Frontex send email to Libya, Italy and Malta MRCCs containing extensive information on the incident. | <ul style="list-style-type: none"> Details obtained from a Frontex flight. No acknowledgement or response from any MRCC.⁶⁹ |
| 21 Apr 2021 | 18:58 | Contact lost with BD01. | <ul style="list-style-type: none"> Assuming satellite phone batteries exhausted. |
| 21 Apr 2022 | 19:14 | Frontex asset broadcasts an initial “Mayday” call to all ships in vicinity of BD01 regarding the incident. | <ul style="list-style-type: none"> <i>MV Ocean Viking</i> (IMO 8506854) and <i>MV Alk</i> [IMO 9298612] receive the MAYDAY call (see figures 24.C.18 and 24.C.19). |
| 22 Apr 2021 | 12:42 | Shipwreck of BD01 found by Frontex patrol plane. ⁷⁰ | <ul style="list-style-type: none"> No survivors found. |
| 22 Apr 2021 | 12:43 | Frontex asset broadcasts a second “Mayday” call to all ships in vicinity of BD01 call regarding the incident. | <ul style="list-style-type: none"> No acknowledgement or response. |
| 22 Apr 2021 | 13:08 | Frontex send email to Libya, Italy and Malta MRCCs containing extensive updated information on the incident. | <ul style="list-style-type: none"> Details obtained from a Frontex flight. No acknowledgement or response from any MRCC.⁷¹ |
| 22 Apr 2021 | 13:23 | Last attempt [by <i>MV Ocean Viking</i>], of 38 attempts, made to contact Libya MRCC by phone and VHF radio. | <ul style="list-style-type: none"> NGO Alarm Phone, <i>MV Ocean Viking</i> and Frontex attempt to reach the Libyan MRCC by phone and VHF radio 38 times in total. Libya MRCC respond to only seven phone calls of NGO Alarm Phone. See paragraph 4 for Libya MRCC response. |

^a All timings are CEST (GMT+1).

⁶⁹ Frontex letter of 8 November 2021 (IEC/ICU/IAGA/10803/2021).

⁷⁰ Two vessels that arrived in the location of the capsized BD01 on 22 April 2022 observed several dead bodies floating in the water (see figures 24.C.27 and 24.C.28), <https://twitter.com/sosmedintl/status/1385297161550798851>. The Panel received the information on the identity of 18 people who were boarded on BD01 and have been disappeared since the shipwreck. In its letter of 10 March 2022 to Libya, the Panel requested information on the actions that Libyan authorities took to recover and manage the dead bodies after the shipwreck, in particular the identification of the bodies and the delivery of the bodies to family members. A response is awaited.

⁷¹ Frontex letter of 8 November 2021 (IEC/ICU/IAGA/10803/2021).

3. Responsible officials of all three notified States, Libya, Italy and Malta, were obliged to protect and respect the lives of individuals who found themselves in a situation of distress at sea on 21 and 22 April 2021 in accordance with their international obligations on rescue at sea,⁷² provided that they exercised power or effective control over the enjoyment of the right to life of the distressed individuals.⁷³ The Panel notes that legal obligations of the three MRCCs regarding this incident, other than under international human rights law, are outside of the Panel's mandate.⁷⁴

4. Since the incident took place in the Libyan Search and Rescue Region (SRR) (see figure 24.C.8), the Libyan national authority, Libyan MRCC, had the primary obligation under international law to actively proceed with all possible speed to the rescue of persons in distress, if informed of their need of assistance.⁷⁵ The Panel considers that Libya MRCC was well informed about the emergency situation that threatened the lives of all estimated 130 passengers, as established above, but failed to take appropriate measures to provide the needed assistance to BD01.⁷⁶ NGO Alarm Phone informed the Panel that Libya MRCC had provided three conflicting scenarios to them as a justification for this failure: (a) that the Libyan patrol boat was on the way to search and rescue BD01 on 21 April 2021; (b) that the Libya MRCC was unaware of BD01 distress case; and (c) that Libyan maritime units were unable to execute SAR operation on 21 April 2021 due to bad weather.

5. The Panel finds these justifications problematic. Firstly, none of the actors that had visuals on BD01, including Frontex and private vessels, received any information that Libyan patrol boats were engaging in a SAR operation that involved BD01 (for example, see figures 24.C.27 and 24.C.28). To the contrary, NGO Alarm Phone, Frontex and *MV Ocean Viking* all reported that Libya MRCC officers were consistently unresponsive to distress calls and alert messages that these three entities conveyed to them multiple times. Secondly, the overwhelming evidence of the direct knowledge of the Libya MRCC officers contradicts the claim that they were unaware of the incident (for example, see figures 24.C.9 to 24.C.28). Finally, whilst the Panel appreciates that the assessment of operational conditions that might have endangered the boat or the crew members due to bad weather was at the relevant authorities' discretion,⁷⁷ Libya MRCC was responsible at the minimum to engage in activities aimed at rendering assistance to BD01 such as: (a) providing shelter to BD01; and (b) actively coordinating SAR operation with neighbouring MRCCs and merchant vessels that were attempting to search and rescue BD01.⁷⁸ Additionally, the ability of Libyan officers to search and rescue BD01 on time was indicated in the morning hours of 21 April, 2021 when the Libyan Coast Guard found BD02 and returned the surviving passengers to Libya.⁷⁹ The Panel wrote to Libya on 10 March 2022 and has yet to receive a response.

6. While the primary responsibility for the search and rescue operation of BD01 fell to Libya MRCC, the Italian and Maltese MRCC also had a duty to cooperate with and provide assistance to Libya MRCC to rescue people in distress at sea and to take all feasible measures to prevent loss of life at sea.⁸⁰

⁷² Article 98 of the United Nations Convention on the Law of the Sea (UNCLOS); Chapter 5, Regulation 33 of the International Convention for the Safety of Life at Sea (SOLAS); Annex, paras. 4.2.1 and 4.3 of the International Convention on Maritime Search and Rescue (SAR Convention).

⁷³ Articles 2(1) and 6 of the ICCPR; Human Rights Committee, General comment No. 36 (2018) on article 6 of the International Covenant on Civil and Political Rights, on the right to life, para. 63. This obligation applies to all individuals within the power or effective control of the said authorities, regardless of their nationality, statelessness or other status.

⁷⁴ Paragraph 11(a) of resolution 2213 (2015). International humanitarian law is inapplicable in this incident due to the absence of the required link (or "nexus") of alleged acts to the armed conflict in Libya.

⁷⁵ Although Libya is not State Party to the UNCLOS, it is bound by the duty to render assistance to persons in distress at sea as a norm of customary international law codified in article 98(1) of the UNCLOS: "Every State shall require the master of a ship flying its flag, in so far as he can do so without danger to the ship, the crew or the passengers: (a) to render assistance to any person found at sea in danger of being lost; (b) to proceed with all possible speed to the rescue of persons in distress, in so far as such action may reasonably be expected of him." See also Chapter 5, Regulation 33 of the SOLAS; Annex, paras. 4.2.1 and 4.3 of the SAR Convention; International Law Commission, Commentary to draft article 36 of the Articles concerning the Law of the Sea, Yearbook of the International Law Commission, Volume II (1956).

⁷⁶ Article 6 of the ICCPR.

⁷⁷ Article 98(1) of the UN Convention on the Law of the Sea.

⁷⁸ Chapter 4, Regulation 33 of SOLAS Convention; Chapter 2, para. 2.1.9 of the SAR Convention.

⁷⁹ https://twitter.com/alarm_phone/status/1384973210702200835?s=21.

⁸⁰ SAR Convention, Annex, paras. 4.2.1.1. and 4.3.

(a) Malta MRCC did not engage in such cooperation, despite their knowledge of BD01, their position being that “*Malta was not the responsible nor the coordinating authority on this particular case*” given that the incident took place outside the Maltese SRR.⁸¹

(b) Italy MRCC was also uncooperative in providing assistance to BD01. In addition to multiple email messages, Italy MRCC received at least five telephone calls from NGO Alarm Phone and *MV Ocean Viking* asking the Italian authorities to provide assistance to search and rescue of BD01. The Italian officers referred them to the Libyan MRCC as a competent authority. Furthermore, according to the NGO Alarm Phone report, Libya MRCC claimed that Italy MRCC engaged with them to request authorisation for an Italian flagged merchant vessel engage in SAR operations for BD01. The Panel was unable to verify this claim.

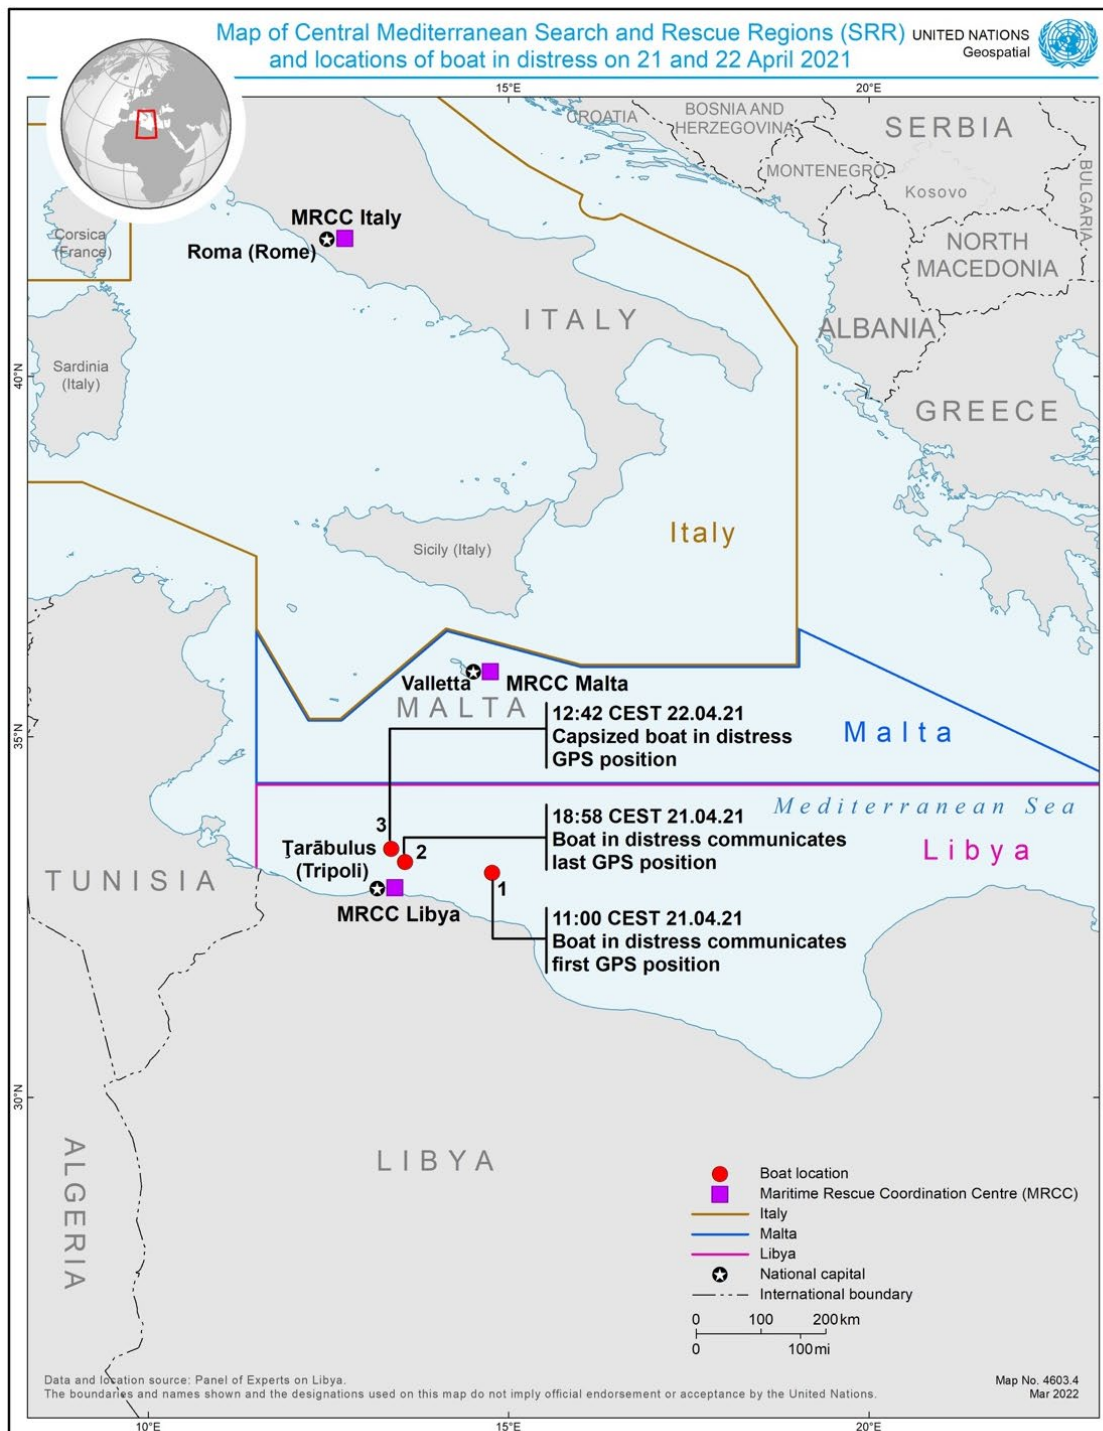

7. While the passive attitude of the Italian and Maltese MRCCs to alert messages might be qualified as a serious failure in the response to assist in the search and rescue operation under the international law of the sea, having assessed all the evidence available, the Panel was unable to establish a jurisdiction link between these authorities and BD01, necessary to make the findings on the responsibility of Italy and Malta MRCCs officials under international human rights law.

8. Shipmasters of private vessels that were in sufficient proximity to the boat in distress also had the duty under international law to proceed with all possible speed to render assistance to persons in distress. Four private vessels – *MV Alk* (IMO: 9298612), *VS Lisbeth* (IMO: 9309978), *MY Rose* (IMO: 8207381), and *MV Ocean Viking* (IMO: 8506854) were the only vessels that actively searched for BD01 for over ten hours.⁸² They, however, reached the site of BD01 on 22 April only to find a number of dead bodies in the sea and a capsized boat without survivors.

⁸¹ Written response to the Panel’s request for information by Malta, dated 12 July 2021. Malta reiterated its position at the meeting with representatives of the Government of Malta on 15 February 2022 in Valletta.

⁸² Merchant vessels ALK and BRUNA [IMO 7601073] were in close proximity of BD01 at around noon of 21 April but Bruna declined to engage in the search and rescue and instead changed its course for unestablished reasons (see figures 24.C.11 and 24.C.13).

Dear Madams and Sirs,

Our hotline was informed by a fisherman about a possible distress at sea. The information, which we received from the fisherman, are so far:

Number of people: approximately 120

Thuraya number: 008821655549123

Place of departure: Al-Khoms

Time of departure: 20.04.2021 - 10 pm CEST.

Position
Type and color of the boat: the boat has the color grey the material is unclear

Further Information: The boat left Al-Khoms in a Convoi with another boat (AP183 see our other mail) and until now we could establish contact to the boat.

Thank you for your attention.

To whom it may concern

we could establish contact to the people on board and got following information:

There are around 130 persons on board, including 7 women. One of them is pregnant.

Type of boat: white rubber boat

We assume the Postion to be: N 33° 11' E 14° 07'; Timestamp: 11 CEST

There are some life jackets on board, but not enough for everybody and as the weather is getting worse, the sea is getting rougher as well!

The people are urgently asking for help!

Thank you for your time and consideration

Dear Madam or Sir,

please be informed that the Vessel Bruna IMO number 7601073 is close to the below mentioned distress case. Please inform the ship about the case and advice them to render assistance. The company hammamilivestock seems to operate this ship, thats why we are sending this email as well to "operations@hammamilivestock.com". @hammamilivestock if you as a company are not operating the ship anylonger please let us know asap and inform the current owner.

Thank you for your cooperation

To whom it may concern

as we just informed MRCC Rome via phone, we got following position for Ap-182 at 12.51 CEST, as the people read it out :

N 33 17 19 85
E 014 77 478

we assume that the first 7 is a 0, that would match earlier positions.

The people are desperate, as more and more water is entering the boat.

We kindly ask you to take action! Don't let them drown!

Kind regards

Dear Sirs,

At 1715Z received via VHF CH 16 the following message: 'MAYDAY MAYDAY for a boat in distress in position 33 26N 013 56E'

The mv AIK replied and relay the message to Lampedusa Radio requiring instructions.
Lampedusa Radio replied that the position is out of their competences and to contact Libyan JRCC.

Ocean Viking called LYJRCC, no answer.

At 1733Z Ocean Viking called ITMRCC informing about the mayday relay asking to send a Navtext to all ships.

MV Ocean Viking is proceeding towards the distress position.
ETA 8.5 hours.

To whom it may concern,

the people on board are now without battery on their thuraya phone. Our last call was too short to ask for a new position.

They are still in a distress situation at sea and now in the dark with weather getting worth.

They were still adrift and with urgent need of help.

We tried hardly to call so called Lybian CG but no one picked up until now.

We learned that the Frontex plane Osprey1 was circling above the last position we got from the boat, so authorities know where it is and are obliged to rescue!

They urgently need help!

Kind regards,

Dear [REDACTED]

Reference your email below please be informed that Frontex is aware about the distress case in question, occurring within the Libyan Search and Rescue Region and initially spotted by OSPREY 3 on April 21.

Upon sighting, all the MRCCs in the area have been informed, including RCC Tripoli as Rescue Coordination Centre responsible for the Libyan SRR.

Additionally, and due to the dangerous condition of the boat in distress, a MAYDAY radio message was broadcasted in order to alert all the ships in the area.

Frontex is still supporting the search and rescue operations.

Kind regards.

[Details](#)

Dear Madams and Sirs,

Below the recap of the 22nd of April 2021:

- Ocean Viking starts the search at 0317Z in pos 33 30.4N 013 53.0E in cooperation with MY ROSE (mmsi: 372505000), ALK (mmsi 304619000), VS LISBETH (mmsi: 2320005015)
- at 1024Z MY ROSE has visual on 3 bodies in pos 33 34N 013 37E
- at 1042Z Osprey 3 order to MY ROSE to standby in position and wait for Libyan patrol vessel Ubari
- at 1043Z Osprey 3 has visual on the shipwreck (grey rubber boat) in pos 33 44.44N 013 37.57E
- at 1150Z AIK leaves the scene and communicate via VHF that patrol vessel Ubari is the coordinator, meanwhile VS LISBETH left the area
- at 1200Z Ocean Viking has visual contact on the shipwreck and few bodies in pos 33 45.0N 013 38.0E. Only the sponsons were remaining afloat, no deck, no transom, no engine and bow completely under water level. No signs of survivors and MY ROSE is still holding her position in the area.
- at 1206Z Ocean Viking calls via sat phone LYJRCC asking information about ETA of Ubari. The officer on watch confirmed that Ubari was going to come on scene
- at 1323Z Ocean Viking calls via sat phone LYJRCC asking information about ETA of Ubari. The officer on watch confirmed that Ubari was going to come on scene
- at 1505Z Ocean Viking on scene in pos 33 45.5N 013 40.6E 3nm from MY ROSE. Patrol vessel Ubari is not yet arrived

Ocean Viking while standing by in the area spotted several bodies in the water.

Current weather condition: wind 6 to 7, seastate 5 to 6.

Regards

Ocean Viking

Details

Dear Madams and Sirs,

Following my email below, please be informed that mv MY ROSE left the area at 1700Z and as night is falling, there is no sign of patrol vessel Ubari in the vicinity nor contact established with the Ocean Viking.

As my vessel is not able to further provide assistance with this case, we resume course at 1746Z COG 272 SOG 5kts.
Ocean Viking position 33 40.8N 013 42.2E

Regards,

Bridge

Subject: RE: OCEAN VIKING - AP-182.,2021 - REQUEST OF ASSISTANCE

Dear Madams and Sirs,

On the same of the 22nd of April 2021:

Annex 25 Maritime and air delivery non-compliance profile indicators

1. The Panel has continued to use a set of profile indicators⁸³ of suspicious activities and documentation that, when considered collectively, indicate that a vessel or aircraft is likely to be carrying illicit cargo (see tables 25.1 and 25.2). Multiple indicators are required before a vessel, aircraft or airline is classified as of interest to the Panel or reported as being a violation of or non-compliance with the arms embargo. This annex summarises these indicators.

Table 25.1

Maritime non-compliance profile indicators

| # | Type | Indicator | Remarks |
|----|--------------------------|---|---|
| 1 | Visibility | Automatic Identification System(AIS) ^a | <ul style="list-style-type: none"> ▪ “Dark activity” periods. |
| 2 | Route(s) | Destination Ports | <ul style="list-style-type: none"> ▪ The ports of Gabes and Algiers are often inaccurately declared. ▪ Unusual routing from past voyages. |
| 3 | Ownership | Frequent change of vessel’s owners | <ul style="list-style-type: none"> ▪ Lack of corporate on-line presence. |
| 4 | Operators | Frequent change of vessel’s operators | <ul style="list-style-type: none"> ▪ Lack of corporate on-line presence. |
| 5 | Vessel Name | Frequent change of vessel’s name | |
| 6 | Vessel Tonnage | Tonnage Range | <ul style="list-style-type: none"> ▪ Comparison to historical tonnage of vessels known to be non-compliant. |
| 7 | Vessel Draught | Change of Draught | <ul style="list-style-type: none"> ▪ Comparison of draught at loading and discharge. |
| 8 | Commercial Relationships | Linkages | <ul style="list-style-type: none"> ▪ Links between owners / operators / agents. |
| 8 | Commercial Activity | Uneconomic behaviour | <ul style="list-style-type: none"> ▪ Low utilization profile |
| 9 | Flag of Registry | Flags of convenience and multiple flag changes | <ul style="list-style-type: none"> ▪ Includes Flag refusal to allow inspections when requested. |
| 10 | Documentation | Accuracy | <ul style="list-style-type: none"> ▪ Transparency in information supplied to Panel. ▪ Accuracy of completion. |
| 11 | Cargo Shielding | Container layout on weather deck Container layout on port dock | <ul style="list-style-type: none"> ▪ Containers are used to line the edge of the weather deck to shield the remainder of the deck from external view. ▪ Containers are used to shield offloading sites at ports from external view. |

⁸³ First developed for use in [S/2021/229](#).

| # | Type | Indicator | Remarks |
|----|--------------------|---|--|
| 12 | Cargo Analysis | Volumetric and mass analysis | <ul style="list-style-type: none"> Do reported weight and packaging match declaration on documentation? |
| 13 | Sanctions Listings | Sanctions designated or reported vessel | <ul style="list-style-type: none"> Previous reports by other UN Panels and Monitoring Groups. Sanctions notices by subscription-based resources. |

^a Or Long-Range Identification and Tracking system (LRIT).

Table 25.2

Profile indicators of airbridge and air delivery

| # | Activity | Details | Remarks |
|---|----------------|--|--|
| 1 | Flight volume | The number of unscheduled flights on a previously little used route | <ul style="list-style-type: none"> For example, a significant number of flights over a short period indicates a centrally organized supply chain. |
| 2 | Flight timings | Most flights are planned so that the cargo aircraft are unloaded during darkness | <ul style="list-style-type: none"> Disguises the nature of cargo being offloaded from onlookers in areas where access is difficult to control. |
| 3 | Flight routing | The flights often take off from a civilian airport, then land at a military airbase before departing on a flight track directly towards Libya | <ul style="list-style-type: none"> Civilian cargo aircraft require time in civilian airports where the appropriate servicing and maintenance capabilities exist. Indicative of the loading of military related equipment. |
| 4 | Flight safety | Signals from the aircraft ADS-B ^a transponders are not visible on open-source ADS-B monitoring shortly after entering Egyptian airspace | <ul style="list-style-type: none"> Airline captains sometimes “go dark” when approaching Libyan airspace as a countermeasure against being targeted by air defence systems, but usually not for the majority of the flight. Deliberately switched off due to the covert nature of these flights. Other legitimate flights (for example the scheduled Afriqiyah Airlines A320 from Benghazi to Alexandria always displays ADS-B data). |
| 5 | Flight safety | Signals from the aircraft ADS-B transponders are switched to MLAT (multilateration) mode ⁸⁴ for the whole flight | <ul style="list-style-type: none"> MLAT mode only transmits aircraft code, heading, altitude and speed but NOT current location. |

⁸⁴ Aircraft without, or that are not broadcasting on, ADS-B transponders do not broadcast their latitude/longitude, so flight monitoring software uses multilateration of 1090 MHz Mode S transponder signals to determine the aircraft's location by using the time difference of arrival (TDOA) when an aircraft is detected across four or more receivers/ground stations.

| # | Activity | Details | Remarks |
|----|------------------------------|---|--|
| 6 | Flight transparency | Signals from aircraft ADS-B transponders are not available for all flights | <ul style="list-style-type: none"> Airlines have utilised a “blocking” service provided by some of the open-source ADS-B monitoring providers. A deliberate attempt by the airline to avoid scrutiny and disguise covert or illicit flights. |
| 7 | Flight availability | Scheduled or non-scheduled route | <ul style="list-style-type: none"> Ticket unavailability from the air operator for passenger aircraft flights suggests movement of military personnel. For example: Cham Wings flights from Syria to Benghazi. |
| 8 | Aircraft documentation | The use of fake Air Operating Certificates (AOC) | <ul style="list-style-type: none"> The Panel has identified the use of at least one fake AOC used to justify an ADS-B signal blocking service. |
| 9 | Flight documentation | <p>The submission of incomplete or inaccurate Cargo Manifests and Air Waybills</p> <p>The lack of detailed flight documentation submitted</p> | <ul style="list-style-type: none"> Fake consignees listed. Fake consignors listed. Used to disguise the true nature of the actual cargo. Customs value listed as zero. Failure to supply, for example: 1) Flight Plan; 2) Aircraft Technical Logbook; 3) Journey Flight Log; 4) Weight and Balance Report; 5) Take-off and Landing Balance; and 6) General Declaration. |
| 10 | Air operator transparency | Limited, inaccurate or no information provided to requests for information | <ul style="list-style-type: none"> Indicative of covert or illicit activity. |
| 11 | Air operator web presence | Lack of corporate website or very limited contact information on website | <ul style="list-style-type: none"> A reputable cargo aircraft company would have an easily sourced online presence as part of the company marketing strategy. |
| 12 | Cargo agency web presence | Lack of corporate website | <ul style="list-style-type: none"> A reputable cargo agent would have an easily sourced online presence as part of the company marketing strategy. |
| 13 | Air operator’s relationships | Corporate links | <ul style="list-style-type: none"> Change of ownership or operating conditions for aircraft between linked companies. |
| 14 | Sanctions Listings | Current or previous listings of owner, operator, or aircraft | <ul style="list-style-type: none"> Previous reports by other UN Panels and Monitoring Groups. Sanctions notices by subscription databases. |

Annex 26 Summary of arms embargo equipment violations (26 Feb 2011 - 25 Apr 2022)

1. Tables 26.1 and 26.2 summarises confirmed arms and military materiel transferred into Libya in violation of paragraph 9 of resolution [1970 \(2011\)](#), as modified by subsequent resolutions.⁸⁵ It does not include arms and military materiel transferred to Libya for which exemptions were provided for by the Committee.

Table 26.1

Confirmed arms and military materiel transferred from Libya (26 Feb 2011 - 25 Apr 2022) (weapon systems and equipment)⁸⁶

| <i>Generic type</i> | <i>Nomenclature / Calibre</i> | <i>Panel Report</i> | <i>Responsible</i> | <i>Remarks</i> |

2. Tables 26.3 and 26.4 summarises arms and military materiel that have been reported in open-sources as new transfers. The Panel is still investigating these alleged transfers as: (a) in some cases the arms and military materiel were in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo; and/or (b) the imagery was not of high enough resolution to identify serial numbers or lot/batch numbers to confirm post-2011 manufacture, and thus enable the initiation of tracing requests to identify supply chains. The Panel continues to investigate to find confirmatory information to the appropriate evidential standards.

Table 26.3

Reported but not yet confirmed arms and military materiel transferred to Libya (26 Feb 2011 - 25 Apr 2022) (weapon systems and equipment) ¹⁰⁷

| <i>Generic type</i> | <i>Nomenclature / Calibre</i> | <i>Remarks</i> |
|-------------------------|-------------------------------------|---|
| Air Defence (Missiles) | S-125 (SA-3) | <ul style="list-style-type: none"> ▪ This system was in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo. ▪ Reports in June 2020 of supply from Ukraine to Turkey,¹⁰⁸ and then deployed to Al Watiya.¹⁰⁹ No S-125 appear on satellite imagery of Al Watiya at that time, only <i>HAWK MIM</i>. |
| Anti-Tank (ATGW) | 9M113 <i>Konkurs</i> ¹¹⁰ | <ul style="list-style-type: none"> ▪ This system was in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo. ▪ Also seen with HAF 106 brigade in November 2020 exercise, but resolution of imagery insufficient to identify if post-2011 production. ▪ More confirmatory evidence required before post-2011 transfer to Libya can be proven. |
| Armoured Vehicles (APC) | <i>NIMR II</i> ¹¹¹ | <ul style="list-style-type: none"> ▪ This vehicle was in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo. The unit badge on the vehicle dates back to 1970. ▪ Supplied under a contract signed in 2009 between Libya and the Bin Jamr Group, UAE.¹¹² ▪ The imagery was not sufficient to allow for confirmation of a new transfer to Libya without other confirmatory evidence. |

Annex 27 Naval assets used by the Stability Support Apparatus

A. Overview of SSA naval assets

1. The newly formed maritime unit of the SSA operates at least six vessels, including the *Alqayid-1*, the *Alqayid-2*, *Alqayid Saqar* and a fast patrol boat (FPB) whose name is unknown to the Panel (figures 27.1 through 27.5). Further context on the use by the SSA on its naval assets can be found in Annex 24.

B. Civilian-type vessels

1. Alqayid 1 and 2

2. The Panel has identified the *Alqayid 1*, and the *Alqayid 2* as being operated by the SSA.¹³⁷ *Alqayid 1* has been observed both with and without a heavy machine gun mounted on its bow (figure 27.1). No imagery has emerged of the *Alqayid 2* being armed (figure 27.2). They are not specifically designed for intercepting migrant boats for return, mainly owing to their limited passenger and life-saving equipment capacity. The SSA addresses this shortcoming by operating these boats in tandem with a large wooden boat with higher passenger capacity (also pictured in figure 27.1).¹³⁸

Figure 27.1

Vessel *Alqayid 1* in unarmed (left)^a and armed configuration (right)^b

Figure 27.2
Vessel *Alqayid 2*

Source: <https://twitter.com/SARwatchMED/status/1485711494633472000>, 24 January 2022

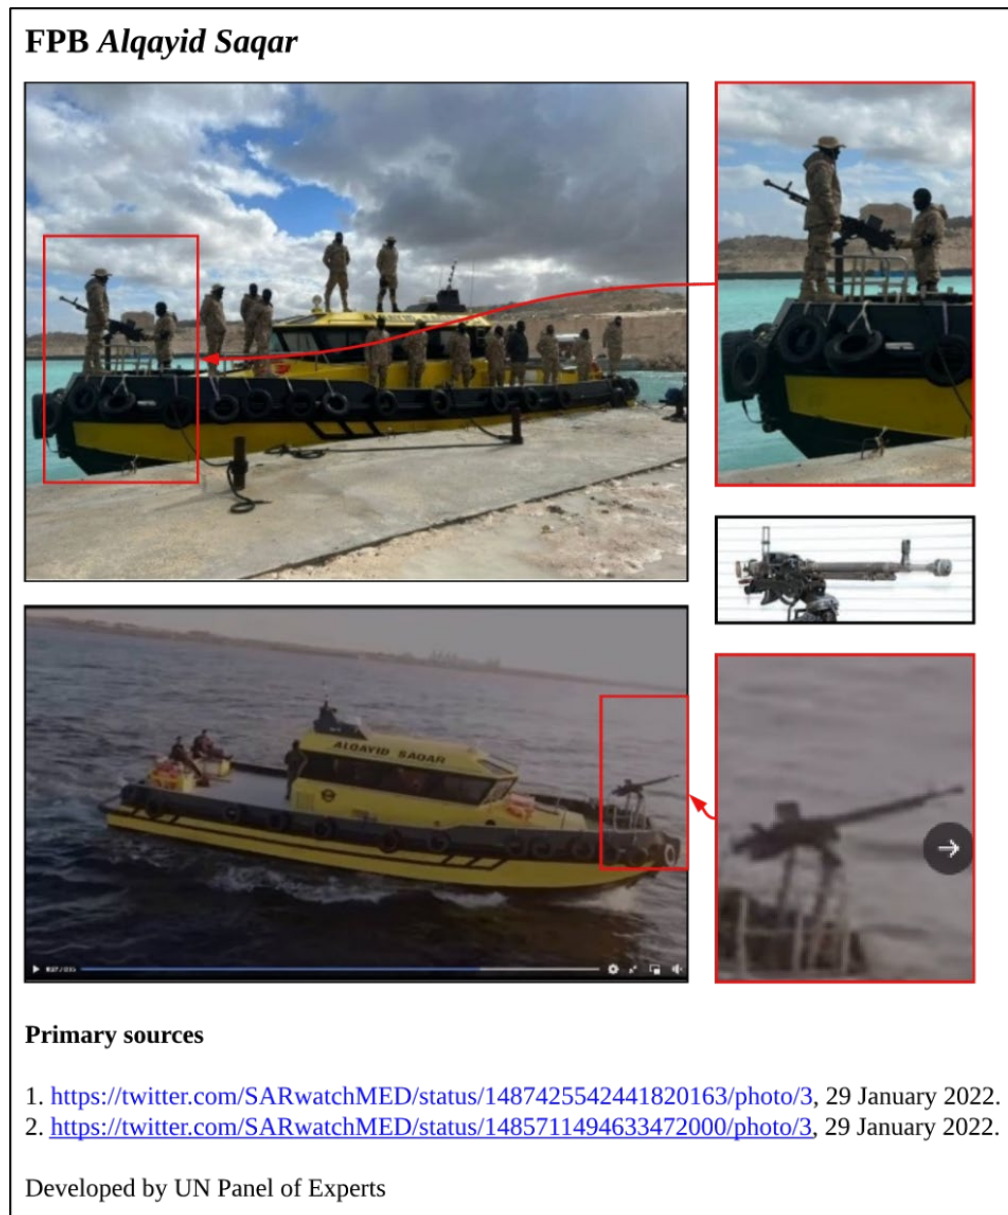

2. Alqayid Saqar

3. The *Alqayid Saqar* has a yellow paint scheme that would suggest SAR use (see figure 27.3). While appearing to be a tender or a pilot boat, it also has features that support use as a SAR vessel. These being a deck to accommodate a limited number of survivors and a low stern platform for ease of recovery and man-overboard assistance. However, the vessel also has a 12.7mm DShK variant heavy machine gun (HMG) mounted to its bow, which gives the vessel a role as a fast patrol boat (FPB), even if other features of a naval-type vessel¹³⁹ are missing.

¹³⁹ Annex 32 of S/2019/914 explains the rationale for the classification of specifically naval designed vessels as military materiel, regardless of whether armed or not.

Figure 27.3

FPB *Alqayid Saqar* with mounted 12.7mm DShK variant HMG

3. Military conversion of dual-use items

4. All of these vessels are civilian in design and thus are not classified as naval-type vessels by virtue of design, hence they are not classified as military materiel *per se*.¹⁴⁰ While an initial transfer of a vessel in a civilian configuration, be it as

¹⁴⁰ Annex 32 of S/2019/914 explains the rationale for the classification of specifically naval designed vessels as military materiel, regardless of whether armed or not.

tender, pilot boat or as SAR vessel, would not be a violation of the arms embargo, a post-transfer mounting of weaponry is problematic. This clearly shows how modification, even if post-transfer, converts dual-use into military materiel (see paragraph 61 of main body of report). The Panel is still investigating the exact type, capabilities, and supply chain of this vessel.

C. Naval-type vessel

1. Lambro Olympic D74 (Javelin 74) Fast Patrol Boat

5. The SSA also operates a FPB that has design features consistent with the Lambro Olympic D74 (Javelin 74) FPB previously used by the Hellenic Coast Guard. The vessel was first observed unarmed (figure 27.4) and later with a twin mounted machine guns on its bow (figure 27.5). Regardless of being armed or unarmed and regardless of its eventual capabilities for SAR use, it is by design a naval-type fast patrol boat, and hence classified as military materiel. The Panel has written to Greece to establish the supply chain and is awaiting a response. The transfer of this vessel is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Figure 27.4

Annex 28 Activities by HAF naval units

1. Overview

1. The Panel is investigating 24 incidents of unlawful hailing, boarding and detention of foreign-flagged vessels by members of the HAF Susah Combat Marine Squadron (SCMS) that have taken place since late 2020. The SCMS individuals execute these unlawful acts under the justification that the targeted vessels violated a restricted zone unilaterally declared by the LNA in 2015 (see paragraphs 68-71 in main body of report). The majority of the hailing incidents occurred between January and November 2021. While the Panel is still investigating each individual case, it has established the *modus operandi* and highlights one incident as a case study.

2. Modus operandi

2. While its selection criteria are so far unclear to the Panel, the SCMS intercepts on average one to two vessels per month, although on an irregular basis. In 2021, only March, April, July and December saw no interceptions. Once members of the SCMS identify a vessel, they hail the vessel over the radio (VHF channel 16) and ask it to reduce speed and prepare for inspection. Vessels are regularly intercepted around 20 nautical miles (nm) from the Libyan shore, in international waters, that fall within the unlawfully demarcated HAF “no-sail zone” but mostly outside the “prohibited zone” (see paragraphs 68-71 in main body of the report). Vessels are then approached by naval-type vessels flying the Libyan flag, that most often are high-speed rigid-hulled inflatable boats (RHIB) of the same type widely used by Coast Guards, military or law enforcement agencies of other Member States.¹⁴¹ SCMS also operates a Damen Stan 1605 patrol boat.¹⁴² The use of these boats gives merchant vessels the first impression that they are being hailed by an authorised enforcement unit of a Member State.¹⁴³

3. Once merchant vessels have stopped, armed members of SCMS in camouflage uniforms with distinct insignia board. They present themselves as the Libyan Coast Guard and inform the master of the merchant vessel that the vessel is being stopped for having violated a “no-sail zone” (see paragraphs 68-71 in main body of the report). Ship and crew documents are confiscated, and vessels are detained and forced to follow the SCMS to the anchorage area 2 nm off Ras El Hilal, within Libyan territorial waters.

4. Once at anchorage off Ras El Hilal, crews remain detained on the merchant vessel, while the vessel’s insurance company, through local intermediaries, arranges for the payment of an unlawful fine for the violation of the “no-sail zone”. The fine of LYD 200,000 (approximately USD 42,000) is negotiable and has to be paid in cash. Once paid, the master of the merchant vessel has to sign a document declaring that an agreement to pay the fine for having violated the “no-sail zone”. Documents are then returned and the vessel is released.

3. Case study: MV *Corona J*

5. On 24 May 2021, the MV *Corona J* (IMO: 9238686) on track from Port Said, Egypt to Misrata, Libya, was hailed via radio by members of the SMCS identifying themselves as Libyan Coast Guard, instructed to reduce speed, and then boarded by members of SMCS around 20 nm off the coast of Libya, north of Ras El Hilal (interception point: 33°14'30.00"N, 22°17'18.00"E). SMCS used two naval-type RHIBs with Libyan flags, one approaching and one trailing several miles behind. Once on board, members of SMCS, wearing uniforms and being armed with assault rifles and sidearms, informed the vessel’s master that the *Corona J* had been stopped for violating the “no-sail zone” then, and also a few years earlier; thus a fine needed to be paid. SMCS collected the ship’s and crew’s documents but refused to inspect the documents on

¹⁴¹ The Panel has recently identified the type of RHIB used by SMCS but has yet to give the relevant Member State appropriate time to respond. That Member State is therefore not named here.

¹⁴² Confidential sources.

¹⁴³ Panel interviews with primary sources.

board the *Corona J*; instead, they returned to their RHIB and instructed the *Corona J* to follow them to anchorage off Ras El Hilal.

6. En route to the anchorage position SMCS did not respond to radio calls. During that time, the *Corona J* was in contact with the vessel's owner, who informed the insurance company and the flag State (Antigua and Barbuda). Once at anchor off Ras El Hilal (32°53'60.00"N, 22°11'0.00"E), a six-member SCMS team arrived, again all armed, wearing uniform and identifying themselves as Libyan Coast Guard. They told the master of the *Corona J* to assemble the crew on the bridge, from where they were prohibited to leave by two armed SMCS members. They ordered the seal on one container to be removed, opened the container, superficially checked the cargo, and then closed the container again. No certificate of inspection was issued. Thereafter, they started to search the crew's quarters, while the crew was not allowed inside, despite request. When they were finished, crew checked and noted that currency and personal valuables of crew members had been taken (value totaling around USD 11,000). The ship's safe in the master's quarters had signs of (failed) attempted forceful entry. The crew protested the theft but were threatened with the use of force. The SCMS members left the *Corona J*.

7. On 25 May 2021, the *Corona J* protection and indemnity insurance mutual (P&I Club) negotiated the settlement of the fine for having violated the "no-sail zone", through a local agent. In the end, LYD 180,000 (USD 41,000) was paid in cash. In addition, to secure the release of the vessel, the master of the *Corona J* was forced to sign a document stating that he was guilty of "entering territorial waters without authorization" by "entering the restricted area in Ras El Hilal" and accepted the fine. He also needed to provide a letter from the vessel's owner, to also be counter-signed by him, in which he apologized for having brought forward unwarranted allegations of theft against the Libyan Coast Guard.¹⁴⁴ The stolen currency and valuables were not returned. The ship was allowed to sail after having spent about one day in detention.

¹⁴⁴ The Panel has reviewed the relevant documentation and established its veracity to reach these findings.

Annex 29 “Prohibited zone” declared by HAF

SUBJECT:- LIBYAN COAST GUARD PROHIBITED ZONE

TO ALL SHIP MASTERS, SHIP OWNERS, CHARTERS, AND SHIP AGENTS

THIS IS TO INFORM YOU ALL THAT SAILING THROUGH AND/OR CROSSING THE FOLLOWING COORDINATES IS PROHIBITED.

32 54 42N, 022 04 22 E
 33 04 11 N, 022 01 55 E
 32 59 22 N, 022 40 59 E
 32 65 12 N, 023 14 40 E
 32 36 21 N, 023 07 57 E

MUST SAIL 5 NM NORTH TO ABOVE COORDINATES

ANY VESEL DOES NOT CONFORM AND COMPLY TO THE LIBYAN COAST WARNING, WIIL BE SUBJECTED TO DETAINING AND FINANCIAL PENALTIES.

INCASE OF EMERGENCY TO ENTER PROHIBITED ZONE PERMISSION MUST BE OBTAINED FROM THE RESPONSIBLE PERSONS;

CAPT. HUSSEIN ALSHARAA-ISPS OFFICER, MOB. +218 92 580 7934 /+218 91 052 0474

Annex 30 Military Armoured Vehicles on board MV Luccello (4 March 2022)

Introduction

1. Open and confidential sources have informed the Panel that on 4 March 2022 the MV *Luccello* (IMO: 78100112) offloaded 100 military armoured vehicles (MAV) in Benghazi Port (LYBNG, 32°06'04"N, 20°02'52"E). This was confirmed by satellite imagery of 6 March 2022, which showed 100 MAV parked in the port area behind shielding (figure 30.1).

Figure 30.1

Satellite imagery of armoured vehicles at Benghazi Port on 6 March 2022

Source: Confidential

Voyage

2. The vessel arrived at Aqaba, Jordan (JOAQJ) on 18 February and left on 21 February 2022. The draft of the vessel had changed from 4.7 to 5.8 m (+1.1 m), confirming that a cargo was embarked at Aqaba. On 22 February 2022, whilst still in the Gulf of Aqaba, the vessel declared Suez Canal, Egypt (EGSUZ) as the next destination.

3. On 24 February 2022, after transit of the Suez Canal, the vessel continued north towards Antalya, Turkey with intermittent AIS transmissions. On 26 February 2022, on approaching Turkish territorial waters the vessel declared Tripoli, Libya (LYTIP) as the next destination. The vessel's track was then erratic, first heading west into Greek territorial waters, then west and finally north to an anchorage off Kemen Marina, 15 nautical miles (NM) south of Antalya, Turkey (TRAYT).

4. On 27 February 2022 the vessel continued its voyage on a south-west track, passing south of Crete, until on the evening of 1 March 2022 the vessel turned onto a southerly track when 55nm north of Al Bayda, well within the HAF "no-sail zone", but outside of the HAF "prohibited zone" (see paragraphs 68-71 of main part of the report). The AIS transmission was lost soon thereafter north of Ras Al Hilal (LYREH) until 2 March 2022 when the vessel was near Derna (LYDRX). AIS was lost again until 3 March 2022 close to Ras Al Hilal, when the vessel track was then west in close proximity to the coast. The vessel stayed within Libyan territorial waters until approaching Benghazi port on 4 March 2022. The vessel then changed its declared destination to Benghazi before entering the port and making a port call. Elements of the unusual routing and track changes of the vessel from Aqaba to Benghazi is shown at figures 30.2 to 30.4.

Figure 30.2
Track from Aqaba

Figure 30.3
Track near Turkish anchorage

Figure 30.4
Track along Libyan coast

Source: IHS Maritime and Trade (Subscription).

5. A draft change for the vessel from 5.8m to 5.5m (-0.3m) indicates that the vessel discharged cargo in Benghazi between 4 and 6 March 2022. Change of draft cannot be used as a sole indicator of cargo discharge as the vessel could be ballasting. In this case cargo discharge is supported by the presence of MAV in the port area immediately after the vessel's arrival (see below). The vessel departed Benghazi on 6 March 2022 on a north-east track.

Analysis of voyage, seizure claims and cargo

6. The initial detour of the vessel via Antalya, Turkey can plausibly be explained by the inclement weather conditions known to be prevailing during the transit days in the south-eastern Mediterranean. One subscription-only source reports that the vessel declared a technical issue on 26 February 2022 and might have anchored off Antalya for repairs.

7. On 15 March 2022, a claim surfaced on social media¹⁴⁵ that HAF had intercepted a vessel 70nm off Libya's coast that was carrying 100 armoured vehicles, worth 100 million LYD, destined for Abdel Raouf Kara's Special Deterrent Force (SDF). The report stated the vehicles were coming from Aqaba, Kingdom of Jordan, and that the vessel was intercepted "70 miles" off Libya's eastern coast, boarded and redirected under the threat of force to the port of Derna.¹⁴⁶ The vessel was later released after the vehicles had been seized. A confidential source confirmed to the Panel that the background of the image that accompanied the report indeed shows the MV *Luccello* and its cargo in question (see figure 30.5 below).

8. At this stage it is unclear whether the above-described seizure indeed took place. The AIS signal loss north of Ras Al Hilal (LYREH), followed by a dark period of almost two days, the subsequent sailing in Libyan territorial waters within the NSZ, and the declaration of Benghazi as of destination only upon arrival at that port supports are indicators that would support that a seizure took place. However, were this to be the case, and the true destination was Tripoli and the SDF, this would be remarkable as it would indicate shifting alliances. Such a large military cargo could not have been loaded in Aqaba, Jordan without permission of, at least, local port officials. The interception point, regardless if 70 nm as per the open-source report or if 55 nm as per the vessel's sudden change of direction, would be at a far greater distance to the Libyan coast than the area that members of the SCMS have so far undertaken interceptions in (see annex 27).

¹⁴⁵ <https://www.facebook.com/113742230465858/posts/491945085978902/?sfnsn=mo>, 15 March 2022; and <https://twitter.com/libyapress2010/status/1503683044615593984>, 15 March 2022.

¹⁴⁶ The social media sources give different dates for this event, ranging from 1 March to the evening of 2 March 2022.

9. A confidential source has stated that the MAV offloaded in Benghazi are *Spartan-2*¹⁴⁷ manufactured by Streit Group (figure 30.5). In 2011 Streit Group opened a manufacturing facility in Aqaba, Jordan,¹⁴⁸ and the port of departure of the voyage of the MV *Luccello*. HAF have previously received deliveries of Streit Group MAV, and such vehicles form a major component of its military capability.

Figure 30.5

Spartan-2 MAV on board the MV *Luccello* (left)^a and manufacturer's image (right)^b

Sources: ^a <https://twitter.com/libyapress2010/status/1503683044615593984>; ^b <https://www.armored-cars.com/products-services/military-vehicles/spartan-mav/>

10. After delivery, the MAV were temporarily stored in an area with a perimeter wall (see figure 30.1). A confidential source informed the Panel that the approximately 6 metres high perimeter wall had only been erected between November 2021 and January 2022. This indicates that deliveries of sensitive cargo were expected, as this is a common concealment tactic used in Libya.

Other indicators

11. The vessel changed its name and flag a few days after the voyage, to MV *Victory Roro* under Equatorial Guinea flag. This is the third name and second flag change in five years for this vessel. Frequent name and flag changes for vessels are both indicators of illicit activity.

Violation

12. The Panel continues its investigation into the full supply chain and the perpetrators of this transfer of MAV from Jordan to Libya. The transfer is a violation of paragraph 9 of resolution [1970 \(2011\)](#) and a non-compliance by Jordan for failure to inspect the vessel.

Annex 31 Italian naval vessel presence in Libya

1. Delivery of equipment intended solely for humanitarian or protective use

1. On 7 December 2021, a media article reported the delivery of a Maritime Rescue and Coordination Centre (MRCC) to Libya, on board the MM *San Giorgio* Landing Platform Dock (L9892).¹⁴⁹ Italy informed the Panel that on 2 December 2021, the Italian MM *San Giorgio* Landing Platform Dock (L9892) docked at Tripoli's commercial harbour and delivered an MRCC facility to the Libyan Coast Guard and Navy. The delivery was undertaken within the framework of the EU program "Support to Integrated Border and Migration Management in Libya" (SIBMMIL). The MRCC consisted of ten containers that serve for lodgings, office space, mobile kitchen, storage, electricity generation and MRCC functions and activities. The *San Giorgio* departed Libya the next day.

2. The MM *San Giorgio* is operated by the Italian Navy and is equipped with an Oto Melara 76mm / 62 calibre gun and two Oerlikon 20mm cannons, and clearly falls under the category of arms and related materiel in the sense of paragraph 9 of resolution [1970 \(2011\)](#) (see figure 31.1).

3. While the items delivered by the MM *San Giorgio* fall under the exception of "supplies of non-lethal military equipment intended solely for humanitarian or protective use, ..." under the auspices of paragraph 9 of resolution [2095 \(2013\)](#), in the Panel's view, the entering and exiting of Libyan territory by the vessel is by itself a technical violation of paragraph 9 to resolution [1970 \(2011\)](#), even if there is no intent to transfer arms and related materiel to Libya.

Figure 31.1

MM *San Giorgio* Landing Platform Dock (L9892)

2. Presence in Abu Sitta naval base

4. In [S/2019/914](#),¹⁵⁰ the Panel noted the activities of Italian Navy *Gorgona* class coastal transport ships (CTS) MTC¹⁵¹ *Capri* (A5353) and MTC *Tremiti* (A5348). The Panel has identified that a *Gorgona*-class vessel has continued to be regularly moored at Abu Sitta navy base, Tripoli (32°54'24.68"N, 13°13'12.48"E). Open-source satellite imagery shows that the vessel has been present there consistently since 2018 (for the latest image, see figure 31.2). There has been also a rotation that included the MTC *Caprera* (A5349).¹⁵² The Panel has written to Italy to inquire about the vessels' activities and is awaiting a response.

5. The *Gorgona*-class vessels are operated by the Italian Navy and are equipped with an Oerlikon 20mm cannon and two 7.62mm machine guns, and clearly falls under the category of arms and related materiel in the sense of paragraph 9 of resolution [1970 \(2011\)](#).

6. In the Panel's view, the entering and exiting of Libyan territory by the vessel is by itself a technical violation of paragraph 9 to resolution [1970 \(2011\)](#), even if there is no intent to transfer arms and related materiel to Libya.

^a Unidentified as yet.

^b International arms sales are virtually always widely reported by the manufacturer in authoritative defence media as it is their major means, other than conflict, of attracting publicity for future sales. Authoritative media includes: Janes Defence Weekly (<https://www.janes.com/defence-news/>); Janes Intara (<https://www.janes.com/intara-interconnected-intelligence/defence-industry>); Defence Procurement International (<https://www.defenceprocurementinternational.com/magazine>); Military Systems and Technology (<https://www.militarysystems-tech.com/>); and Army Technology (<https://www.army-technology.com/>). Covert arms transfers go unreported until identified by investigation.

1. The Panel has determined that none of the training listed in table 32.2 falls under the exception contained in paragraph 10 of resolution [2095 \(2013\)](#), which is for disarmament and security purposes only.

Table 32.2

Summary of training violations

| <i>Annex</i> | <i>Date identified in Libya or by Panel</i> | <i>End User</i> | <i>Type of training support</i> | <i>Responsible</i> | <i>Cross-references</i> |

^a Unidentified as yet.

Synergy with other arms embargo violation attempts

2. The Panel also identified a synergy between an attempted arms embargo violation reported in the Panel of Experts established pursuant to Security Council resolution 1874 (2009) report [S/2016/157](#)¹⁵³ and Panel report [S/2021/229](#).¹⁵⁴ [S/2016/157](#) reported on an attempt by a UAE resident, Abdulrahman Bager, to procure arms for an entity named Al Mutlaq Technology through the auspices of the Korea Mining Development Trading Corporation (KOMID) of the Democratic People's Republic of Korea.

3. The complete list of arms requested by the UAE from KOMID is at figure 32.1. In [S/2021/229](#) the Panel reported on a Serbian manufactured P62M8 120mm Mortar Bomb and provided a copy of the End User certificate (DP3/2/50/1/2015/64/185) dated 21 October 2015 from the UAE, which was supplied to Serbia for the purchase of the ammunition (see figure 32.2). A comparison of the two lists shows them to be over 75% identical (see table 32.3). The Panel considers that the purchase from Serbia was made after the failure of the deal through KOMID. Table 32.3 also identifies the arms subsequently identified as being transferred to Libya.

Figure 32.1

^a Serial is from the Products List requirement submitted to KOMID, DPRK by the UAE.

^b Items in bold text have been identified as transferred to Libya in violation of the arms embargo.

^c Serial is from the EUC supplied to Serbia by the UAE.

Annex 33 Streit Typhoon 4x4 APC (13 December 2014)**Streit Typhoon 4x4 MRAP
(Libya)
(13 December 2014)**

The Panel has identified from open-source media the presence of Streit *Typhoon* 4x4 mine resistant armour protected (MRAP) vehicles in the possession of the then Government forces on 13 December 2014.

This military vehicle type was NOT reported in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo.

The Panel notes that an attempt was made to illicitly transfer Streit *Typhoon* MRAP to Libya on board the MV *TYCHY* (IMO: 8302284) during Summer 2015. Eight such vehicles were impounded by Greek Customs at Keratsini Port (UN: GRKRS) on 15 June 2015.

The transfer to Libya of this military vehicle type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Annex 34 KaMaz 6x6 Military Trucks (1 June 2018)

Kamaz 43118 6x6 Military Truck (Dirne) (1 June 2018)

The Panel has identified from open-source media the presence of a KaMaz 6x6 Military Truck in the possession of HAF on 1 April 2018.

This military vehicle type was NOT reported in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo.

The Panel has also identified that Kamaz 43118 6x6 Trucks were shipped to Benghazi on the MV *Fehn Calypso* on 24 April 2020. These were declared as civilian vehicles, but have obvious dual-military use.

The transfer to Libya of this military vehicle type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

3. Cargo
- a. We herewith also attach the respective B/L for shipment in question.
 - b. We herewith provide a list of Specification of cargo stuffed into boxes, which have been loaded per trucks of trucks KAMAZ destination Benghazi.
 - c. Further and as absolutely usual, we are (at least yet) not in possession of any further cargo related documentation as this solely rests with cargo interest and Charterers. At the moment, we thus cannot provide a detailed specification of the cargo other than those evidenced by the letter from [REDACTED] the B/L, the additional list (see item 3 b.).
 - d. However, we kindly refer to Kamaz website (<https://kamazexport.com/truck/kamaz-43118/>) showing the details of the trucks shipped (model no. 43118, 6x6) and also pointing to the trucks being solely designed for civil use only.

Annex 35 SPG-9 73mm Grenade Launcher (5 March 2019)

SPG-9 73mm Recoilless Rifle (Al Gharefa) (05 March 2019)

The Panel has now identified the presence of an SPG-9 73mm Recoilless Rifle in the possession of HAF near Al Gharefa, which went unreported in [S/2021/229](#).

These weapon types were not reported to be in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo.

The transfer to Libya of these weapon types is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Annex 36 Orsis T-5000 Sniper Rifle (7 May 2019)**0.338in Orsis T-5000 Sniper Rifle
(HAF)
(7 May 2019)**

The Panel has identified from open-source imagery the presence of an early version of an *Orsis T-5000* Sniper Rifle in the possession of HAF. The magazine profile suggests that this weapon is chambered for 0.338in *Lapua* Magnum ammunition.

These is the first sighting of this weapons system in Libya. This weapon type has been manufactured since 2011 and is in service with at least seven Member States. Without the serial number a tracing request would be ineffective.

The transfer of this weapon type to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 38 Inkas *Titan-S* 6x6 APC (15 March 2020)

Inkas *Titan-S* 6x6 APC (HAF Tariq bin Ziyad brigade) (15 March 2020)

The Panel has identified from official HAF social media the presence of Inkas *Titan-S* 6x6 APCs in the possession of the HAF Tariq bin Ziyad brigade on 15 March 2020.

This military vehicle type was manufactured in the United Arab Emirates by Inkas Armoured Vehicle Manufacturing. It is no longer advertised as being in production on the manufacturers website.

The transfer to Libya of this military vehicle type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

**ZSU-23-2-CP 23mm Twin-Cannon
(HAF Al Saiqa Special Forces)
(14 June 2020)**

The Panel has identified from open-source media the presence of ZSU-23-2-CP 23mm Twin Cannon retrofitted to Toyota 4x4 "Technicals" in the possession of HAF Al Saiqa Special Forces on 14 June 2020.

The weapon system was also seen on "Technicals" taking part in the 29 May 2021 HAF 7th anniversary "Operation Dignity" parade near Benghazi.

This weapon type is manufactured in Poland by Zakłady Mechaniczne Tarnow S.A.. The Panel wrote to the manufacturer on 14 February 2022 and a response is awaited.

The transfer to Libya of this weapon type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

Annex 42 120mm High Explosive (HE) Mortar Bomb M62P10 (3 June 2020)

120mm M62P10 High Explosive (HE) Mortar Bomb (GNA-AF Omar Al-Mukhtar Training Centre, Tripoli) (21 November 2020)

The Panel identified imagery showing a 120mm High Explosive (HE) mortar bomb being used as the main charge of an improvised explosive device (IED) in a civilian property in the Ain Zara area of Tripoli. The device was recovered from an area previously occupied by armed groups affiliated to Khalifa Haftar (HAF).

The item was positively identified as a 120mm M62P10 HE mortar bomb with Lot Number #01/19. A tracing request was sent to the country of manufacture, who stated that mortar bombs of that lot/batch were supplied to the International Golden Group PJSC company (see appendix A) of the United Arab Emirates in 2018 as part of a batch of 15,000 rounds under Contract No: ICG/Krusik/2018/3527 of 21 March 2018. The Delivery Verification Certificate DP3/2/50/2018/30/10018 was supplied by the United Arab Emirates on 25 September 2019.

The United Arab Emirates have not responded to a Panel request for information sent on 15 November 2021. The transfer of this explosive ordnance to Libya by the United Arab Emirates is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

- <https://twitter.com/CalibreObscura/status/1268446698642321408>, 4 June 2020; and
- Member State (6 October 2021).

Developed by UN Panel of Experts

1. The Panel noted that the broker for this procurement was the United Arab Emirates based International Golden Group PJSC¹⁵⁵ (www.igggroup.ae). The Panel has reported before on the involvement of this company in the illicit transfer of arms and military materiel to Libya in Panel reports [S/2013/99](#)¹⁵⁶ and [S/2016/209](#).¹⁵⁷

2. Open-source media has reported that International Golden Group PJSC is an essential link in Haftar's equipment supply chain.¹⁵⁸ It was reported that the company plays a key role in the procurement of weapons from Serbia and other Eastern European countries in support of Haftar.¹⁵⁹

International Golden Group PJSC involvement in previous violations of arms embargoes (Libya)

3. In [S/2013/99](#) the Panel identified that the International Golden Group PJSC procured 800,000 rounds of 12.7 x 108mm small arms ammunition from the Military Export Import Company (MEICO)¹⁶⁰ of Albania through a Ukrainian broker (Ukrinmash) and an Armenian facilitator (DG Arms Corporation). Although the end user was falsely declared as the United Arab Emirates the ammunition was shipped by air directly to Benghazi, Libya on the Ayk Avia¹⁶¹ owned Ilyushin IL-76 (#EK-76659). This was a post-departure diversion, as the flight plan filed with the Albanian authorities showed the United Arab Emirates as the destination. A Delivery Verification Certification dated 24 February 2012 was provided to Albania by the International Golden Group PJSC stating that the ammunition had been delivered to the declared end user, the United Arab Emirates Armed Forces. Note that a commercial company, albeit an official supplier to the United Arab Emirates

¹⁵⁵ Private Joint Stock Company.

¹⁶¹ Ayk Avia was reported in the Somalia Panel report [S/2011/433](#), annex 6.3 for breaching the Somalia arms embargo.

Armed Forces, is authorised to sign DVC on their behalf. The United Arab Emirates did not respond to a tracing request from the Panel.¹⁶²

4. In [S/2016/209](#)¹⁶³ the Panel identified a Bulgarian manufactured AR-M9F assault rifle¹⁶⁴ (#AB 46 7722) being offered for sale on open-source social media. Bulgaria informed the Panel that the weapon had been procured by the International Golden Group PJSC using a United Arab Emirates end user certificate. The United Arab Emirates did not respond to a tracing request from the Panel.¹⁶⁵

5. On 21 February 2019 the UAE announced at IDEX 2019 that it had procured Norinco 155mm AH4 gun howitzers, and that International Golden Group PJSC was awarded a US\$2.8 million contract to supply the ammunition.¹⁶⁶ This weapon system fires the GP6 155mm Laser Guided Projectile (LGP). In [S/2019/914](#)¹⁶⁷ the Panel reported on the presence of GP6 155mm LGP from a consignment supplied to the United Arab Emirates prior to 2019. In its response, 14 months after the Panel tracing request,¹⁶⁸ the United Arab Emirates "rejected the allegation" but provided no information or clarification as to how ammunition delivered to their armed forces was present in Libya.¹⁶⁹

Previous violations of arms embargoes (other)

6. In [S/2016/157](#)¹⁷⁰ the Panel of Experts established pursuant to resolution 1874 (2009) investigated International Golden Group PJSC in relation to the attempted procurement of conventional arms for a contract worth US\$100 million by the Korea Mining Development Trading Corporation (KOMID).

Signatory

7. The Panel notes that the end user certificate signatory for the 12.7 x 108mm small arms ammunition shipment reported in [S/2013/99](#) is the same individual that signed the end user certificate in 2018 for the 120mm High Explosive M62P10 Mortar Bombs referred to in this annex; Staff Brigadier General (Engineering) Waheed Hasan Ibrahim Al Zaaki, Director of General Purchasing, GHQ Armed Forces Logistics Staff.

8. The General Headquarters of the United Arab Emirates Armed Forces appears to be selective as to when and when not to use the auspices of the International Golden Group PJSC for the procurement of ammunition. In annex 52 to [S/2021/229](#)¹⁷¹ the Panel reported on the sale of 120mm High Explosive M62P8 Mortar Bombs, identified in Libya, to the General Staff of the Armed Forces of the United Arab Emirates in September 2016. Whereas in 2018 the importer for 120mm High Explosive M62P10 Mortar Bombs referred to in this annex was International Golden Group PJSC.

Annex 45 TM-62M Anti-Tank Mine (1 August 2020)

TM-62M Anti-Tank Mine (Russian PMC) (Summer 2020)

The Panel has identified from open-source media and confidential sources the presence of TM-62M anti-tank mines in Southern Tripoli. The mines were made safe and recovered from areas previously occupied by Russian PMC. Many had anti-lift devices underneath.

The mines identified had 1981 lot numbers, so tracing is no longer possible due to their age and the wide spread export of such mines.

This explosive ordnance was NOT in the inventory of the Libyan Armed Forces prior to the 2011 arms embargo.

The transfer to Libya of this explosive ordnance type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

Annex 46 120mm High Explosive (HE) Mortar Bomb (9 October 2020)

120mm High Explosive (HE) Mortar Bombs (GNA-AF in Western Libya) (9 October 2020)

Imagery from the website of the "Sons of Lions" Mortar Unit of the GNA Western Command showed the presence of a batch of 120mm high explosive (HE) Mortar Bombs not previously seen in Libya before. This is an update to that reported in table 4 and annex 41 of Panel report [S/2021/229](#).

The markings on the ammunition identify that it was produced in January 2018, whereas markings on primary packaging shows ammunition manufactured in April 2017. The markings also indicate that the ammunition was manufactured by the Arsenal 2000 JSCo Dunarit company of Bulgaria. The Panel has confirmed that the bombs are from a consignment under Export Licences 017610 (18 February 2020) and 017677 (18 March 2020) for the Turkish Land Forces Command as the end user.

The Panel offered an opportunity to respond to Turkey on 8 March 2021. No response was received.

The transfer of this ammunition to Libya by Turkey is a violation of paragraph 9 of resolution 1970 (2011).

Annex 48 XP Type Holographic Weapon Sights (HWS) (21 November 2020)

EOTECH "Type" Holographic Weapon Sights (HWS) (HAF Omar Al-Mukhtar Training Centre, Tajoura) (21 November 2020)

From imagery of a GNA-AF training demonstration at the Omar Al-Mukhtar Training Centre near Tajoura on, 21 November 2021 the Panel has identified weapon sights, virtually identical to the XP type holographic weapon sights (HWS) manufactured by EOTECH LLC, USA. The HWS were fitted to 5.56mm MKEK MBT 55K assault rifles in the possession of the armed forces of the then Government of National Accord (GNA-AF). Weapons sights fall under the auspices of "arms and related materiel of all types" under the arms embargo.

The present owners of the US company claim that they cannot be sure that HWS were not supplied to Libya prior to 31 July 2020, the date they purchased the company. The company also informed the Panel that the XP HWS was widely counterfeited by "Far East based" companies.

Although the Panel cannot positively identify the supplier of the HWS to Libya, the transfer of this military material to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 49 MKEK MBT 55K Assault Rifles (21 November 2020)

5.56mm MKEK MBT 55K Assault Rifles (HAF Omar Al-Mukhtar Training Centre, Tajoura) (21 November 2020)

The Panel identified from imagery of a GNA-AF training demonstration at the Omar Al-Mukhtar Training Centre near Tajoura on 21 November 2020, 5.56mm MKEK MBT 55K assault rifles in the possession of the armed forces of the then Government of National Accord (GNA-AF).

These weapons are designed and manufactured by Mechanical and Chemical Industry Company (MKEK) (Makina ve Kimya Endüstrisi Kurumu) of Turkey. This weapon type entered service with the Turkish Armed Forces in 2018, and no exports were made until 2021, after they were first identified in Libya. These exports being 30 weapons to two Balkan countries for evaluation. Over 60 weapons were identified at the training demonstration in Khoms.

The Panel offered an opportunity to respond to Turkey in letters of 8 March 2021 and 5 October 2021. No response was received.

The transfer of these weapons to Libya by Turkey is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 51 Akdas AK40-GL type 40x46mm Grenade Launchers (28 January 2021)

Akdas AK-40 GL variant 40x46mm SR Grenade Launchers (GNA-AF Khoms Joint Naval Training Centre) (28 January 2021)

On 28 January 2021 imagery was published on official social media of the Turkish Armed Forces of the then GNA-AF receiving training in the use of the Akdas AK-40 GL variant 40x46mm SR grenade launchers from Turkish military instructors.

This is the first time that Akdas AK-40 GL variant 40x46mm SR grenade launchers have been identified in Libya. These weapons are designed and manufactured by the Akdas Arms Company of Turkey (www.akdassilah.com). This weapon type entered service with the Turkish Armed Forces in October 2019, and deliveries of the 8,000 units ordered continued through 2020. No exports have been reported in the authoritative defence trade media. They are also designed for use as under barrel grenade launchers fitted to the Turkish MKEK 5.56mm MBT 55K assault rifles, also supplied to Libya by Turkey.

The Panel offered Turkey an opportunity to respond in letters dated 9 February and 5 October 2021. No response was received.

This military training undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the GNA is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

The transfer of these weapons to Libya by Turkey, is also a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 52 AK-103 Assault Rifles with HAF 106 brigade (30 January 2021)**7.62mm AK-103 variant Assault Rifle
(HAF 106 brigade, Eastern Libya)
(30 January 2021)**

The Panel has identified from official and open-source imagery of a training exercise on 30 January 2021 the presence of AK-103 variant assault rifles in the possession of HAF 106 brigade.

The Panel is confident these are a new import into Libya due to the two digit year code [20] that forms part of the serial number [201109571].

On 12 May 2021 the Panel wrote to the Member State that designed and manufactures the weapon, and also the two Member States that manufacture them under licence. No responses have yet been received by the Panel, so supply chain tracing is stalled.

The transfer of these weapons to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 53 *System Defence 5.56mm Multi-Functional Rifle (MFR) (2 February 2021)*

System Defence 5.56mm Multi-Functional Rifle (MFR) (GNU Ministry of Interior security agencies) (2 February 2021)

The Panel has identified from official GNU Ministry of Interior and open-source imagery the presence of System Defence 5.56mm multi-functional rifles (MFR) in the possession of Ministry of Interior personnel on 2 February 2021. Subsequent official social media posted on 2 July 2021 confirmed the presence of this weapon type with the Ministry of Interior security agencies.

These are the first sightings of this weapon type in Libya. This weapon type has only been manufactured since 2018 and there have been no reported foreign sales in the authoritative trade media.

The Panel offered Turkey an opportunity to respond in a letter of 12 July 2021. On 12 September 2021 Turkey stated that, based on inventory analysis, it had not sold, transferred or exported such weapons to Libya.

The transfer of this weapon type to Libya, in the absence of an approved exemption request, is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

Annex 54 5.56mm JAWS 556 Assault Rifles in Libya (4 February 2021)

5.56mm JAWS-556 Assault Rifle (Sirte, Libya) (4 February 2021)

The Panel has identified from open-source media a weapon in the possession of an armed group affiliated to Khalifa Hafter present in Sirte on, or about, 4 February 2021. The weapon is virtually identical to the JAWS-556 (14.5" barrel) assault rifle produced by the Jordanian Armament and Weapon Systems (JAWS) facility (www.jaws-jordan.com), which is part of the King Abdullah II Design and Development Bureau (KADDB) consortium. This is the first sighting of this weapons system in Libya. The weapon has only been manufactured since 2017/2018, and there are no reports of any exports in the authoritative defence trade media. Jordan confirmed to the Panel that no overseas sales had taken place.

The Panel wrote to Jordan on 22 February, 25 March and 7 September 2021. Jordan denied supply to Libya. Their response stated that the weapons "*can be assembled (including in Jordan) by a third party and then sold by this third party*", but provided no evidence to support the statement. The Panel considers it highly unlikely that such an activity could take place in Jordan, and a subsequent transfer to Libya take place, without State knowledge.

The transfer of these weapons to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#) by Jordan as they failed to prevent the transfer.

Developed by UN Panel of Experts

Annex 56 T-62 variant Main Battle Tank (MBT) in Libya (23 March 2021)

HAF T- 62 MV variant Main Battle Tank (MBT) (Update) (near Benghazi) (23 March 2021)

The Panel corrected its initial report (annex 64 to [S/2021/229](#)) on the presence of T-62 main battle tanks (MBT) in Libya in annex 64 to [S/2021/229/Corr.1](#). Subsequent to the drafting of that corrigendum the Panel has identified further information on social media from third-party investigators on the presence of the T-62 MV variant in Libya, who identified the variant from imagery in official media of HAF 106 brigade.

The Panel initially considered that the presence of the T-62 MV variant may have been due to upgrades made to T-62 MBT by ChVK Wagner personnel to T-62 already in possession of the Libyan Armed Forces prior to the arms embargo. Further investigations, including consideration of the findings of independent OSINT analysts, now consider that option as highly unlikely due to the design differences between the two variants, and the extensive engineering work necessary to make such modification.

The transfer of this military materiel into Libya is a violation of paragraph 9 of resolution 1970 (2011).

Developed by UN Panel of Experts

Annex 57 GNU-AF training on M60 *Patton* Main Battle Tank in Libya (27 March 2021)

GNU-AF M60 *Patton* Main Battle Tank Transfer and Training (Joint Land Training Centre, Tajoura) (27 March 2021)

The Panel identified from open source information, including a subsequently deleted 'tweet' from the official Turkish Ministry of Defence social media account, Turkish military personnel training GNU-AF personnel on M60 *Patton* main battle tanks (MBT). This is the first sighting of an M60 *Patton* MBT in Libya as this equipment was not in the past inventory of the Libyan Armed Forces.

In response to an enquiry by the Panel, Turkey denied transferring M60 *Patton* MBT to Libya, denied providing training and denied having a surplus of such MBT in the Turkish Armed Forces.

The Panel has evidence that contradicts the Turkish response to the Panel:

- 1) Copy of the imagery [R] from the official Turkish Ministry of Defence social media account;
- 2) Credible evidence that the Turkish Armed Forces have a surplus of M60 *Patton* MBT, which were originally procured from the USA during 1992/1993; and
- 3) Confidential information that the M60 *Patton* MBT were delivered to Misrata, Libya on 28 May 2020 onboard the MV Cirkin. [See appendix D to annex 34 to S/2021/229].

Developed by UN Panel of Experts

This training in the operation of M60 *Patton* MBT undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the GNU is a violation of paragraph 9 of resolution 1970 (2011).

This transfer of M60 *Patton* MBT into Libya by Turkey is a violation of paragraph 9 of resolution 1970 (2011).

Annex 58 AMN 233114 Tiger-M MPV deployed with HAF (30 March 2021)

AMN 233114 Tiger-M Multi-Purpose Armoured Vehicle (MPV) (HAF Live Firing Exercise and Benina, Benghazi) (30 March 2021)

The Panel reported on the presence of a Tigr-M variant with ChVK Wagner operatives in annex 63 to [S/2021/229](#). The vehicles covered in that report were painted grey or black.

Since then the Panel has identified some AMN 233114 Tiger-M MPV present at the HAF 106 brigade live firing exercise in late March 2021. These vehicles were painted in a sand colour. Four vehicles were also seen with the Tariq Ibn Ziyad brigade on the HAF 7th Anniversary of Operation Volcano parade at Benina, Benghazi on 29 May 2021. A further vehicle was identified with HAF 106 brigade on 8 July 2021.

The Panel has not yet identified whether these vehicles are in operational use by HAF, or whether they are used by ChVK Wagner personnel embedded within HAF units as advisors.

The transfer of this military materiel to Libya is a violation of paragraph 9 of resolution 1970 (2011).

Annex 59 HAF Sordin Supreme Pro-X Max Black hearing protectors (5 May 2021)

Sordin Supreme Pro-X Max Black hearing protectors (HAF 106 brigade) (5 May 2021)

The Panel has identified from official social media of HAF and other open-source imagery the presence of Swedish-manufactured Sordin Supreme Pro-X Max Black hearing protectors being used by fighters of HAF 106 brigade. The Member State confirmed that these items are not subject to export controls, nor specifically classified as military material or dual-use. Yet they they have obvious military utility.

The Panel considers that as this dual-use technology is primarily being imported by actors actively participating in armed conflict, and then used for military purposes, such transfers are a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Annex 60 Seizure of SUR BRT M9 blank firing pistols in Misrata (18 May 2021)

SUR MRT M9 blank firing pistols (Misrata) (18 May 2021)

The Panel has identified from social media the seizure of 2,000 Surarms SUR BRT M9 blank firing pistols by customs authorities in Misrata port on 18 May 2021. The pistols were concealed within a shipping container [#280132.3] full of clothes, which was offloaded from the MV *Medkon Azmir* (IMO 9103374). This information was confirmed to the Panel on 22 October 2021 and 24 February 2022 by the Libyan authorities who are investigating the case.

These pistols can be readily converted into live firing weapons and the Panel assesses that they were destined to be such converted and then sold on the black market by an organized criminal group.

The transfer of these weapons to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

Annex 61 UAZ-469 communication vehicles with HAF 166 brigade (24 May 2021)**UAZ-469 communication vehicles
(Eastern Libya)
(24 May 2021)**

The Panel has identified from open-source media the presence of UAZ-469 variant communication vehicles in the possession of HAF 166 brigade. The vehicle type had not been seen in Libya before.

This particular vehicle has been exported to over 80 countries, so a tracing request would be highly unlikely to provide any useful information as to the supply chain to Libya.

The transfer of this military materiel to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

Developed by UN Panel of Experts

Annex 62 Militarized Jeep Gladiator with HAF (27 May 2021)**Militarized Jeep Gladiator light utility vehicle
(Benghazi)
(27 May 2021)**

The Panel has identified from open-source media the presence of two militarized Jeep Gladiator light utility vehicles preparing to take part in the HAF 7th anniversary "Operation Dignity" parade near Benghazi, which was held on 29 May 2021.

The manufacturer has stated that the paint colour of the vehicles is Gobi (Code: PUA), for which 6,965 vehicles were manufactured in 2020. Of these 55 were exported to distributors or individuals in 6 middle eastern countries. None were exported direct to Libya. A tracing request is thus unlikely to yield results.

The transfer of this military materiel to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

1. Extract from video at https://twitter.com/Libya_OSINT/status/1397790180476608517, 27 May 2021; and

Annex 64 TAG BATT 4x4 APC (29 May 2021)

TAG BATT 4x4 APC (Benghazi) (29 May 2021)

The Panel has identified from open-source social media the presence of a TAG BATT 4x4 APC taking part in the 29 May 2021 HAF 7th anniversary "Operation Dignity" parade near Benghazi. The antenna array on the vehicle indicates it is equipped for communications, electronic warfare or electronic countermeasures.

This military vehicle type was first manufactured by The Armored Group (TAG) in 2011, which complicates tracing requests due to the requirement to only keep records for 10 years under the auspices of the Arms Trade Treaty. It is no longer in production.

The transfer to Libya of this military vehicle type is a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Primary sources

Annex 65 *Steyr SSG 08 variant or copy Sniper Rifle (3 June 2021)****Steyr SSG 08 variant or copy Sniper Rifle
(Russian PMC in Eastern Libya)
(3 June 2021)***

The Panel has identified from open-source imagery the presence of a weapon virtually identical to a *Steyr SSG 08* variant sniper rifle in the possession of a Russian PMC operative in Eastern Libya.

The Panel was informed by the manufacturer that they had not exported any weapons to Libya, and that the finish on the weapon was not a standard production finish. They also stated that this weapon type has had worldwide sales, and that copies are now being made. This precludes further tracing by the Panel unless a serial number can be obtained.

The transfer of this weapon type to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 66 Armoured Toyota Land Cruiser 79 variant with Russian PMC (3 June 2021)

Armoured Toyota Land Cruiser 79 light utility vehicle (29°13'21.03"N, 16°11'22.29"E) (3 June 2021)

The Panel has identified from open-source media the presence of armoured Toyota 79 Land Cruiser light utility vehicles in Libya for the first time. The vehicles were heading North East in a Russian PMC convoy from Al Jufra to Sirte.

Panel research has identified that numerous companies provide this up-armouring option to the standard Toyota Land Cruiser 79. Successful tracing of the supply chain is not possible without more detailed information,

The Panel also notes that the GNU-AF (Misrata militias) may also have possession of similar vehicles, but the imagery resolution available does not allow for a 100% identification (see primary source 4).

The transfer of this military materiel to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 67 GNU-AF CForce All-Terrain Vehicles (ATV) (4 July 2021)

CForce All Terrain Vehicles (ATV) (GNU-AF in South Tripoli) (4 July 2021)

The Panel has identified from official social media of the GNU Ministry of Interior and other open-source imagery the presence of CFMoto CForce All Terrain Vehicles (ATV) being used by the GNU Ministry of Interior's General Department of Security Operations in southern Tripoli. Although these items are not subject to export controls, nor specifically classified as military material or dual-use, they have obvious military utility.

This has been included in the report as a further example of the ease with which arms embargos can be negated by the innovative use of commercial or dual use products. In this case all the vehicles were seen in black or green "military" colours.

CFMoto is a global brand with high production levels and global distribution, which means that without vehicle identification numbers (VIN) supply chain tracing is not possible.

The Panel considers that as this dual-use technology is primarily being imported by actors actively participating in armed conflict, and then used for military purposes, such transfers are a violation of paragraph 9 to resolution [1970 \(2011\)](#).

Annex 68 MKEK JNG-90 Bora Sniper Rifles in Libya (11 July 2021)

MKEK 7.62mm JNG-90 Bora Sniper Rifle (GNU Ministry of Interior security agencies) (11 July 2021 and 9 March 2022)

The Panel has identified from official GNU Ministry of Interior and open-source imagery the presence of *MKEK 7.62mm JNG-90 Bora Sniper Rifles* in the possession of Ministry of Interior security agencies on 11 July 2021 and 9 March 2022. The weapons were being used as part of sniper training provided by Turkey.

These are the first sightings of this weapons system in Libya. This weapon type has been manufactured since 2008. The two Member States also licensed to produce the weapon have confirmed to the Panel that they have yet to manufacture any weapons.

The Panel offered Turkey an opportunity to respond in a letter of 22 July 2021. On 12 September 2021 Turkey stated that, based on inventory analysis, it had not sold, transferred or exported such weapons to Libya.

This military sniper training undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the GNA, and the transfer of this weapon type to Libya, are both violations of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

Developed by UN Panel of Experts

Annex 69 AN/PVS-7 Night Vision Goggles (9 August 2021)

AN/PVS-7 Night Vision Goggles (PNG) (Benina, Benghazi) (9 August 2021)

The Panel has identified from official HAF social media imagery of the 81st Anniversary parade of the formation of the Libyan Army, held at Benina on 9 August 2021, HAF personnel equipped with Army/Navy Portable Visual Search 7 (AN/PVS-7) type Night Vision Goggles (NVG). This is the first reporting of this military materiel by the Panel, although independent research has identified a single image of the same equipment with a HAF fighter on 3 August 2017, which went unreported by the Panel at the time.

Designed in the United States in 1982, in-service since 1985, with many manufacturers, means that a tracing request is unlikely to identify the supply chain unless serial numbers can be identified.

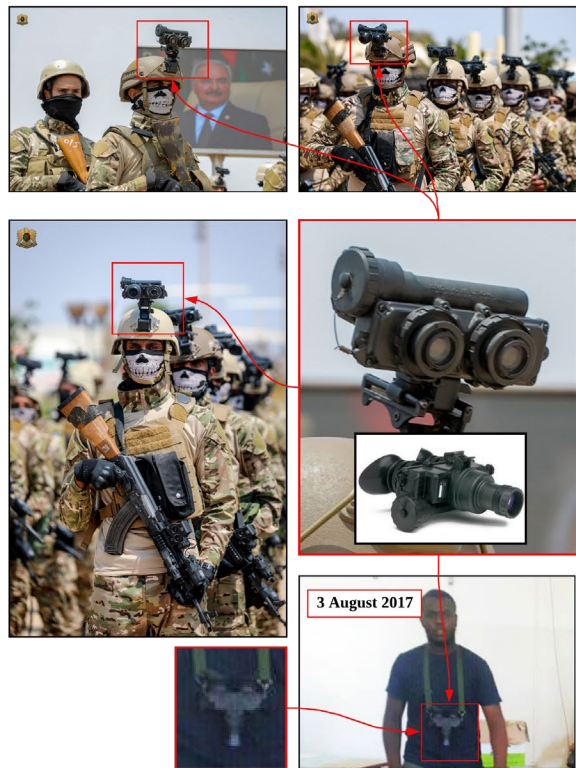

Weapons sights fall under the auspices of *arms and related materiel of all types* under the arms embargo.

Although the Panel cannot positively identify the supplier of the AN/PVS-7 NVG to Libya, the transfer of this military material to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Primary sources

1. <https://www.youtube.com/watch?v=Vscz8zHFL70>, 9 August 2021;

Developed by UN Panel of Experts

Annex 70 122mm *Rocketsan* FFR Pods and Hybrid Launcher (17 August 2021)

122mm *Rocketsan* Free Flight Rockets (FFR) and Hybrid Launcher (Sidi Bilal, 32°48'56.73"N, 12°57'19.76") (17 August 2021)

A Hybrid Multi-Barrel Rocket Launcher (MBRL) was identified in the possession of the GNU-AF entering Camp Sidi Bilal, near Janzour, on 17 August 2021. The location was confirmed by an independent OSINT analyst using geo-location, and the Panel concurs with the coordinates identified.

This MBRL is of interest as further research identified that a very similar hybrid MBRL was seen in the possession of HAF in Tarhuna on 5 June 2020. In 1989/1990 the DPRK supplied the UAE with some 240mm M-1985 MBRL, and the erector launcher seen on the hybrid MBRL is of the same type. The manufacturer has confirmed to the Panel that Iveco 230.35 WM chassis were supplied to the UAE during 1991/1992.

The Hybrid MBRL seen at GNU-AF Camp Sidi Bilal has the Turkish manufactured *Rocketsan* 122mm free flight rocket (FFR) pods mounted on an M-1985 MBRL erector launcher on an uparmoured Iveco 230.35WM chassis.

This makes it almost certain that the Hybrid MBRL identified with the GNU-AF at Camp Sidi Bilal is the result of a battlefield capture from HAF.

The transfer of this Hybrid MBRL to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#) by the UAE. The supply of the *Rocketsan* 122mm FFR is a violation of paragraph 9 of resolution [1970 \(2011\)](#) by Turkey.

Annex 71 SALW seizures in Sudan (18 September 2021 and 8 January 2022)

Small Arms and Light Weapons (SALW) Transfers to Sudan (18 September 2021 and 8 January 2022)

On 18 September 2021 imagery was published on official social media of the Sudanese Rapid Support Forces (RSF) of an SALW seizure in the area of Sidi al-Barli, Sudan. It was reported that four smugglers, two Libyans and two foreign nationals, were arrested, but the Panel has yet to verify this information. The seizure included 36 x AK variant assault rifles, two DshK heavy machine guns, two RPG-7 rocket launchers and associated ammunition.

On 8 January 2022 official RSF open source media reported a further seizure of 3,995 rounds of small arms ammunition.

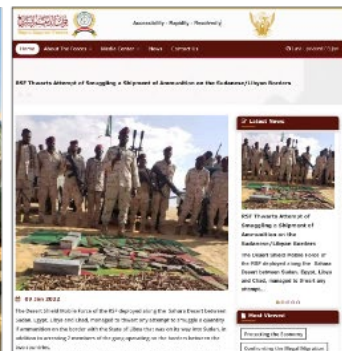

The Panel requested further information from Sudan in letters dated 26 September 2021 and 4 February 2022. No response was received.

This transfer of small arms and light weapons from Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 72 Katmerciler *KIRAC* Armoured Personnel Carrier (24 December 2021)

Katmerciler *KIRAC* Armoured Personnel Carriers (APC) (GNU Ministry of Interior in Tripoli) (25 December 2021)

The Panel has identified from Turkish specialist defence media the presence of Katmerciler *KIRAC* armoured personnel carriers (APC) being used by the GNU in Tripoli. These vehicles are designed and manufactured by the Katmerciler Arac Ustu Ekipman Sanayi ve Ticarit A.S. Merkez (Fabrika) company in Turkey.

The manufacturer's coverage on their website states that this New Generation Criminal Investigation Vehicle has a unique design which can be configured as armoured personnel carrier, command control vehicle and internal security vehicle. If designed for use in the "Command Control" or "Internal Security" roles, the vehicles, depending on the end-user, could fall under the exception for non-lethal humanitarian or protective use provided for in paragraph 9 (a) of resolution 1970 (2011), as amended by paragraphs 9 and 10 of resolution 2095 (2013).

However, these particular vehicles are armoured and are being used in the APC role, hence an exemption request and prior approval by the Committee would have been required under paragraph 8 of resolution 2174 (2014). No such request was made by Libya or Turkey.

The Panel offered Libya and Turkey an opportunity to respond in letters dated 1 February and 31 January 2022 respectively. No response was received.

This transfer of military equipment to Libya undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the then GNA is a violation of paragraph 9 of resolution [1970 \(2011\)](#) by Turkey.

Annex 73 AN/PEQ-15 Advanced Target Pointer Illuminator Aiming Laser (ATPIAL) (31 December 2021)

AN/PEQ-15 Advanced Target Pointer Illuminator Aiming Laser (ATPIAL) (Misrata) (31 December 2021)

The Panel has identified from GNU official social media the presence of a target pointer illuminator (TPI), virtually identical to the AN/PEQ-15 Advanced Target Pointer Illuminator Aiming Laser (ATPIAL), fitted to an assault rifle in the possession of the Joint Operations Force of the Government of National Unity (GNU-AF) in Misrata on 31 December 2021.

Target Pointer Illuminators (TPI) fall under the auspices of *arms and related materiel of all types* under the arms embargo.

The ATPIAL has high production levels and is globally distributed, which means that without a serial number supply chain tracing is not possible.

The transfer of this military material to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 74 Aselsan A100 Night Vision Monocular (NVM) (9 February 2022)

Aselsan A100 Night Vision Monocular (HAF Omar Al-Mukhtar Training Centre, Tajoura) (8 February 2022)

Imagery on GNA 166 Battalion official social media of a GNA-AF training demonstration at the Omar Al-Mukhtar Training Centre near Tajoura on 8 February 2022 shows the use of the Aselsan A100 Night Vision Monocular. Night vision optics fall under the auspices of “arms and related materiel of all types” under the arms embargo.

The optics are manufactured by Aselsan A.S of Turkey and there have been no reported exports or transfers in the authoritative defence media. The optics were only in service with the Turkish Armed Forces. The Panel requested information on the supply chain from Turkey on 24 February 2022. The response from Aselsan A.S. on 22 March 2022 denied any direct sale or export by the company to Libya. Their response did not preclude a third party transfer.

The transfer of this military material to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 75 MKEK 7.62 x 51mm MBT-76 Assault Rifles (9 February 2022)

7.62mm MKEK MBT 76 Assault Rifles (HAF Omar Al-Mukhtar Training Centre, Tajoura) (8 February 2022)

Imagery on GNA 166 Battalion official social media of a GNA-AF training demonstration at the Omar Al-Mukhtar Training Centre near Tajoura on 8 February 2022 shows the use of 7.62mm MBT-76 assault rifles.

These weapons are designed and manufactured by Mechanical and Chemical Industry Company (MKEK) (Makina ve Kimya Endüstrisi Kurumu) of Turkey. This weapon type entered service with the Turkish Armed Forces in 2014, and is now in service with six Member States. Tracing requests would therefore be unlikely to yield positive results.

The transfer of these weapons to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 76 M79 Osa 90mm Anti-tank Rockets (23 March 2022)

M79 Osa 90mm Anti-tank Rockets (Ajdabia) (23 March 2022)

The Panel has identified from GNU official social media the seizure of five M79 Osa 90mm anti-tank rockets by the Security Directorate in Ajdabia on 23 March 2022. This ammunition type has not been seen in Libya before.

The resolution of the imagery was not high enough to confirm the Lot/Batch number, which appeared to be 18-1984. The age and wide distribution of this ammunition type means that a tracing request would be nugatory.

The transfer of this military material to Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

Annex 77 GNA-AF Air Defence training in Turkey (1 February 2021)

GNA -AF Air Defence systems training (1 February 2021)

On 01 February 2021 imagery was published on social media of the Turkish Armed Forces providing training in Konya, Turkey to the then GNA-AF across a range of air defence systems. It was confirmed by video imagery on the official Turkish Armed Forces website.

The systems included: 1) *Korkut* Twin 35mm Cannon (SSA and KKA); 2) *Kalkan* II Air Defence Radar; 3) iHASAVAR Anti-Drone System; 4) iHATAR Anti-Drone System; and 5) Twin *Oerlikon* 35mm Cannon.

The Panel offered Turkey an opportunity to respond in letters dated 9 February and 5 October 2021. No response was received.

This military training undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the then GNA is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 78 GNA-AF Military Diving training in Khoms, Libya (6 February 2021)**GNA -AF Military Diving Training by Turkey
(Khoms Naval Base)
(6 February 2021)**

On 6 February 2021 imagery was published on official social media of the Turkish Armed Forces of military diving training in the Khoms Joint Naval Training Command centre being provided to the then GNA-AF. The Panel has confirmed the imagery by geo-locating the training location to 32°41'30.7"N 14°14'31.8"E.

The Panel offered Turkey an opportunity to respond in letters dated 12 July and 5 October 2021. Their response of 17 March 2022 stated that only training was provided and no diving equipment was supplied.

This military diving training undertaken within the scope of the Military Training, Cooperation and Consultancy Agreement between Turkey and the then GNA is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Developed by UN Panel of Experts

Annex 80 GNU-AF Unit 444 UAV training in Libya (25 March 2021)

GNU-AF Unit 444 UAV training (Takbali Training Camp, Tripoli) (25 March 2021)

The official social media account of the GNU-AF Tripoli Military District 444 Unit, showed imagery of training in the use of unmanned aerial vehicles (UAV) at the Takbali Training Camp on 25 March 2021. The Panel has confirmed the imagery by geo-referencing the location to approximately 32°48'53.9"N,13°13'26.7"E.

The Panel has identified the UAV as a Foxtech Baby Shark 260 VTOL, which has dual use military utility as an Intelligence, Surveillance and Reconnaissance (ISR) platform. The imagery shows a vehicle painted in a military sand colour, with air conditioning and a dual antenna array. The Panel considers it almost certain that this vehicle is a command, control and communications (C3) vehicle for the operation of the UAV.

The wide commercial distribution of the Foxtech Baby Shark 260 VTOL, means that a tracing request is unlikely to identify the supply chain unless serial numbers can be identified.

This transfer of the Foxtech Baby Shark 260 VTOL into Libya is a violation of paragraph 9 of resolution [1970 \(2011\)](#).

Annex 83 HAF 106 brigade return from training in Egypt (8 September 2021)

HAF 106 brigade training (Egypt) (8 September 2021)

On 8 September 2021 imagery was published on the official social media of the HAF 106 brigade reporting the conclusion of a training event in Egypt.

The Panel has confirmed that the aircraft in the imagery showing the return of HAF 106 brigade personnel was in Libya when the image was taken, and that it is the IL-76 [MSN#33446205] [now 5A-7656] flying in support of HAF.

The Panel offered Egypt an opportunity to respond in a letter dated 29 September 2021. On 21 October 2021 Egypt responded that the official HAF report was false.

This training is a violation of paragraph 9 of resolution [1970 \(2011\)](#) by HAF and the, as yet to be identified, training provider.

4. Letter from Member State dated 15 February 2022.

Annex 86 Russian Federation military cargo flights in eastern Libya

1. The Panel has continued to monitor and analyse the quantity of military cargo flights by the Russian Federation on the air line of communication (ALoC) from the Hmeymim military air base¹⁷² in Syria to eastern Libya. These flights meet the profile indicators for flights deemed to be suspicious. The Panel wrote to the Member State (see paragraph 5).

2. The Panel has identified at least 175 flights by specific aircraft registration number,¹⁷³ equating to a maximum cargo delivery capacity of 7,922 tonnes from 1 May 2021 to 31 March 2022 (assuming a 48-tonne cargo payload for an IL-76TD). Flights are summarised at tables 86.1 and 86.2 and figures 86.1 and 86.2.¹⁷⁴ The data is not exhaustive as pre-departure flight plans are not usually filed directly with Eurocontrol¹⁷⁵ for entry into European airspace. Entry is usually activated by Cyprus air traffic control (ATC) using a ZZZZ code for departure airfield, or by the destination airfield itself.

Table 86.1

Summary of RF military cargo flights to Libya (1 January – 31 December 2021)

| Data set | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Totals |

Figure 86.2
Number of RF military cargo flights to Libya (1 January - 31 March 2022)

3. The Panel requested further information from the Member State¹⁷⁶ and in their reply¹⁷⁷ they stated that the cargo comprised of “humanitarian assistance to Libya, including the supply of vaccines against COVID-19”. No further details were provided.

4. UN agencies have neither observed, nor heard of, any large quantity of humanitarian aid from the Russian Federation being supplied to, or distributed in, eastern Libya.¹⁷⁸ No humanitarian aid has been identified from satellite imagery or ground reports in the aircraft unloading areas at Benina (HLLB) and Al Khadim (HL59), and Al Khadim is not known to be a humanitarian hub for any aid agency.¹⁷⁹ A mass and volumetric cargo analysis by the Panel (see table 86.2) shows the cargo capacity of these flights for selected items.

| IL-76 TD Cargo Capacity | 48 | 234 | | | | |
| COVID-19 (5,000 vials) ^a | 1 | 6 | 1.67 | 175 | 42,000,000 vials | 92% of cargo hold volume |
| Wheat | 1 | 0.79 | 0.79 | 175 | 8,400 tonnes | 26% of cargo hold volume |
| Water | 1 | 1 | 1.00 | 175 | 8,400,000 litres | 21% of cargo hold volume |

^a Assuming packed in Single Use Thermal Type packaging.

5. The Panel also noted that Russian Federation military cargo aircraft are using eastern Libyan airfields for technical stop overs on flights to other destinations in Africa, including the Central African Republic. For example, on 2 October 2021 aircraft tracking websites identified a Russian Federation Air Force Tupolev TU-154M (registered #RA-85042)¹⁸⁰ on the normal route from Latakia (OSLK), Syria to Al Khadim (HL59), Libya. The aircraft tracking websites then showed “no data” for the period from 01:48 hours UTC on 2 October to 15:16 hours UTC on 3 October 2021. A “dark period” of 1 Day, 13 Hours and 26 Minutes. Sentinel-1 satellite imagery for that period did not show a TU-154M aircraft parked at Al Khadim (HL59) in eastern Libya. Figure 86.2 shows the same aircraft at Bangui M’Poko airport (FEFF), Central African Republic on 2 October 2021 between 08:15 to 10:36 hours UTC, based on the ground time for the Air France Boeing 777-228 (F-GSPO) parked in the vicinity and shown on aircraft tracking websites. The Panel of Experts on the Central African Republic established pursuant to resolution [2127 \(2013\)](#) was informed of this flight activity.¹⁸¹

Figure 86.2

TU-154M (RA-85042) at Bangui, CAR (2 October 2021)

Source: https://twitter.com/tom_bullock_/status/1445386123161788421, 2 October 2021.

¹⁸⁰ This aircraft was also reported in annexes 55 and 77 to [S/2021/229](#) as operating in support of ChVK Wagner.

¹⁸¹ Reported in the Panel of Experts on the Central African Republic report [S/2021/259](#) (annex 3.4).

-
6. The Panel has identified that flights from Benghazi, Libya (HLLB) to Modibo Keita International Airport, Mali (GABS) took place on 1, 21 and 26 February 2022. The Panel of Experts on Mali established pursuant to resolution [2374 \(2017\)](#) has been informed of this flight activity.
7. The Panel finds that this flight activity by military cargo aircraft is a violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment* and (...) *other assistance* (...) to Libya. As they are military aircraft their routine landing at Libyan airports violates paragraph 9 of resolution [1970 \(2011\)](#) regardless of whether the aircraft are transferring arms or military equipment to Libya.

Annex 87 Turkish military cargo flights in support of GNU-AF

1. The Panel has continued to monitor and analyse the quantity of military cargo flights by the Turkish Air Force (TuAF) on the air line of communication (ALoC) from Turkey to western Libya by Airbus A400M operated by the 221 *Breeze* Squadron based at Kayseri/Erkilet.¹⁸²

2. The Panel has identified at least 33 flights by specific aircraft registration number,¹⁸³ equating to a maximum cargo delivery capacity of 1,221 tonnes from 1 May 2021 to 31 March 2022 (assuming a 37-tonne cargo payload for an Airbus A400M). Flights are summarised at tables 87.1 and 87.2 and figures 87.1 and 87.2.¹⁸⁴ The list may not be exhaustive as the TuAF use an indirect route to avoid certain Flight Information Regions (FIR). This route follows the Istanbul / Nicosia FIR boundary and then the Athens / Cairo FIR boundary until reaching the Tripoli FIR. These flights meet the profile indicators for flights deemed to be suspicious and almost certainly violating the arms embargo.

Table 87.1
Summary of TuAF cargo flights to Libya (1 January - 31 December 2021)

| Data set | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Totals |
|---------------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--------|
| # Flights ^a | 3 | 4 | 2 | 4 | 2 | 2 | 3 | 2 | 13 | 3 | 2 | 1 | 41 |
| Max load (t) ^b | 111 | 130 | 74 | 148 | 74 | 74 | 111 | 74 | 222 | 37 | 0 | 37 | 1,517 |

^b Assuming cargo payload of 48 tonnes for IL-76 aircraft.

Figure 87.2
Number of TuAF military cargo flights to Libya (1 January - 31 March 2022)

3. On 14 April 2021 one TuAF A400 delivered humanitarian supplies (vaccines) to Tripoli (figure 87.2), but two other aircraft flew to their military operating base at Al Wattiyah.

Figure 87.2
TuAF A400M offloads vaccines at Tripoli (Mitiga) (14 April 2021)

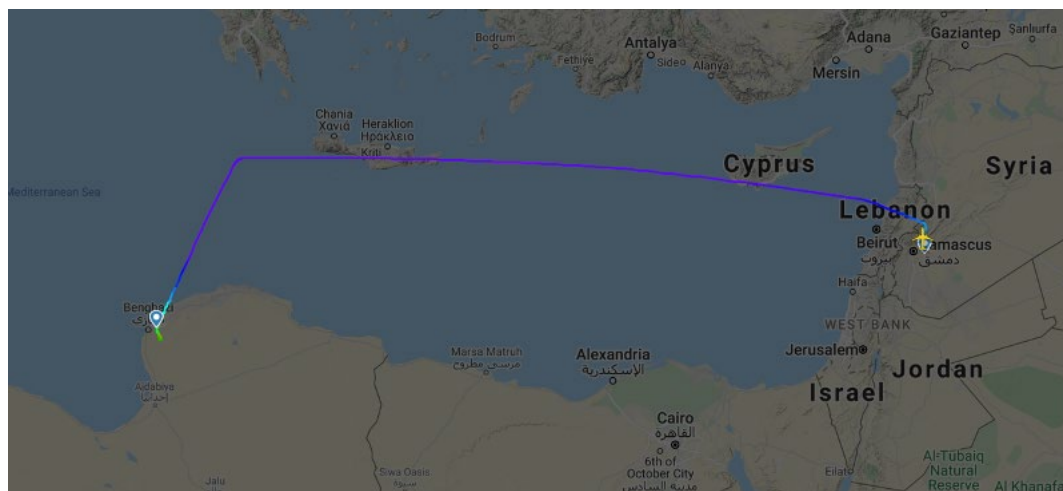

Source: <https://twitter.com/libyaalahrartv/status/1382366609612890112>, 14 April 2021.

4. The Panel finds that this flight activity by military cargo aircraft is a violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment* and (...) *other assistance* (...) to Libya. As they are military aircraft their routine landing at Libyan airports violates paragraph 9 of resolution [1970 \(2011\)](#) regardless of whether the aircraft are transferring arms or military equipment to Libya.

Annex 88 Cham Wings Airlines flights in support of HAF

1. The flight activity of Cham Wings Airlines¹⁸⁵ (SAW) aircraft continued to be of interest to the Panel during this mandate.¹⁸⁶
2. On 2 December 2021 the European Union placed restrictive measures¹⁸⁷ on Cham Wings Airlines for an issue unrelated to the UN sanctions measures relating to Libya. This action has impacted on the company's flight operations in regard to Libya as the EU sanctions measures consider access to European controlled airspace as an "economic resource". It is the responsibility of the Member State to refuse access to its own national air space.
3. By international law, a State "has complete and exclusive sovereignty over the airspace above its territory", which corresponds with the maritime definition of territorial waters as being 12 nautical miles (22.2 km) out from a nation's coastline.¹⁸⁸ Airspace not within any country's territorial limit is considered international, analogous to the "high seas" in maritime law. Operational control of air space over the Mediterranean is split up, under an agreement with the International Civil Aviation Organization (ICAO) into Flight Information Regions (FIR). For the coastal States of the Mediterranean, the FIR consists of the airspace above its land and sea territory plus any international airspace in respect of which ICAO has assigned responsibility to that State.
4. The Panel has identified that shortly after the imposition of EU sanctions on Cham Wings Airlines their flight routes changed to avoid the national air space of Cyprus and Greece. Their aircraft still transit the FIR controlled by these two nations, as well as Malta FIR, but try and fly on the inter-FIR boundaries in order to introduce a level of confusion of responsibility as to which Member State should take action (see figures 88.1 and 88.2). The Panel mentions this as an example of sanctions evasion tactics used by airlines.

Figure 88.1

Figure 88.2
Cham Wings Airlines flight profile 2021 (post-EU sanctions)

5. The Panel has identified at least 158 flights between 1 January to 31 December 2021, and 29 flights between 1 January 2022 to 31 March 2022 for Cham Wings Airlines aircraft into eastern Libya, (tables 88.1 and 88.2, and figures 88.3 and 88.4).¹⁸⁹ The list may not be exhaustive if some pre-departure flight plans were not filed directly with Eurocontrol¹⁹⁰ for entry into European airspace.

6. The Panel identified the following factors and evidence to show that the airline is transporting Syrian fighters to and from Libya:

(a) UNSMIL source reporting;

(b) NGO reporting;¹⁹¹

(c) The flights meet at least six of the air delivery profile indicators (see annex 25) that when considered collectively indicate that an aircraft is almost certainly carrying illicit cargo: (a) lack of an obvious schedule, with flights usually in dark hours for concealment of offloads; (b) the random nature of the flights; (c) some flights depart from the military airbase at Damascus airport (OSDI); (d) AIS is sometimes switched off; (e) tickets were unavailable for public purchase (the Cham Wings Airlines website does not list an office or agent for Libya) and flights to Libya did not appear on their schedule. Flights to Libya could not be booked through their on-line booking service; and (f) air operator transparency is opaque;

(d) In addition to Benghazi airport (HLLB) unscheduled flights also go to Marsa Brega airport (HLMB), which is closer to the separation of forces area near Surt. Other than for the transfer of foreign fighters close to the front lines, or their rotation, there would be no credible reason for passenger flights to this airport, which serves no other international destinations;

(e) It was reported on 13 December 2020 that Cham Wings Airlines would commence scheduled twice-weekly flights to Benghazi,¹⁹² and a Panel test booking found seat availability on the website on 7 January 2021, but it was not possible to book a seat remotely. More recent Panel checks on 14 April 2021 and 26 October 2021 found no flight availability on the airline booking system and flights could not be booked from Cham Wings Airlines via phone; and

¹⁸⁹ Flight data for flights is based on data received from a combination of: 1) Confidential sources; 2) www.flightradar24.com; 3) www.radarbox.com; 4) www.italmradar.com; 5) C4ADS analysis; and 6) Twitter [@ALandewers](https://twitter.com/ALandewers); [@Gerjon](https://twitter.com/Gerjon) (primarily), and [@YorukIsik](https://twitter.com/YorukIsik).

| Max load (t) | 79 | 63 | 87 | 229 |

Figure 88.4
Number of Cham Wings Airlines flights to Libya (1 January - 31 March 2022)

7. The Panel has further identified that these flights are not always uniquely military in nature, as flights for migrants have also taken place.¹⁹³ Since 26 June 2021, a Facebook profile¹⁹⁴ of a representative of the airline has occasionally reported on availability of migrant flights to Libya,¹⁹⁵ stating tickets and security clearances must be obtained through ‘their’ offices.

8. The Panel finds that Cham Wings Airlines have continued to conduct flight operations in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment* and (...) *other assistance* (...) to Libya.

¹⁹³ Confidential report by IHL CS24. 10 September 2021.

¹⁹⁴ <https://www.facebook.com/MMD.76/>. 26 June 2021.

¹⁹⁵ Flights offered for 29 June, 10 July, 14 July, 30 July, 8 August, 17 August, 3 September 2021. A total of seven flights out of the 34 identified during this period. Panel interviews with Syrian migrants (CS66 to CS68) (13 and 14 January 2022) confirmed that this was now a regular route for the onward transfer of migrants.

Annex 89 Summary of aviation related violations, non-compliances and 'of interest' air operators

1. The Panel has multiple sources for the entries in tables 89.1 to 89.5, which are shown in the appropriate annexes, and are primarily from a combination of: (a) Member States responses to Panel enquiries; (b) entity responses to Panel enquiries; (c) official social media of national armed forces; (d) social media of armed groups; (e) other social media; (f) specialist aviation databases¹⁹⁶ and web platforms;¹⁹⁷ (g) imagery supported by geo-location; and/or (h) imagery supported by technical analysis.

2. Commercial aviation related violations and non-compliances, or data on airlines of current interest to the Panel, are presented in the annexes listed in tables 89.1 to 89.4 below:

Table 89.1

Annex 90 Libya Police Aviation IL-76TD cargo aircraft (5A-POL)

1. The Panel has identified that the IL-76TD cargo aircraft displaying Libyan registration 5A-POL¹⁹⁹ is the IL-76TD (MSN²⁰⁰ 186009403). The aircraft previously flew for Sigma Airlines under Kazakhstan registration UP-I7645²⁰¹ and was reported for violating the arms embargo in: (a) annex 52 to [S/2019/914](#); and (b) appendix C to annex 55 of Panel report [S/2021/229](#). At that time, it was being chartered by Space Cargo Inc.
2. This aircraft is listed on www.aerotrtransport.org (ATDB), a definitive aviation database, as being operated by 'Libyan Police Aviation' since December 2019, and is the only aircraft listed as operating for them. No ownership is listed on ATDB.
3. The last known owner²⁰² of the aircraft was Technoline FZC of Sharjah, UAE.²⁰³ The owner has no open-source web presence, but the Panel notes that the email address is hosted by North South Cargo, whose website states that they specialise in cargo flights from UAE to the Russian Federation.²⁰⁴
4. The aircraft made 53 return flights from Misrata (HLMS) to Istanbul (LTFM) in 2020 and only one in 2021. The Panel notes that the manufacturer's Certificate of Airworthiness for this aircraft expired on 21 June 2021.²⁰⁵ Without such a certificate, flights cannot be legally made through EU controlled air space, thus restricting the aircraft to operations within Libya.

Figure 90.1
IL-76TD (POL) at Minsk (26 September 2020)

Figure 90.2
IL-76TD (POL) at Istanbul (6 October 2020)

Sources: (a) <https://www.airplane-pictures.net/photo/1346627/5a-pol-libya-government-ilyushin-il-76-all-models/>, 26 September 2020; and (b) <https://www.jetphotos.com/photo/9882694>, 6 October 2020

5. The activities and profile of this aircraft meet at least seven of the Panel's air delivery profile indicators that when considered collectively indicate that a vessel or aircraft is almost certainly carrying illicit cargo: (a) lack of an obvious schedule, with flights usually in dark hours for concealment of offloads; (b) the random nature of the flights; (c) AIS is sometimes switched off; (d) tickets are unavailable for public purchase; (e) there is no open-source trace for the air operator; (f) air operator transparency is opaque; and (g) the previous record of this aircraft for sanctions violations.

¹⁹⁹ Initially reported in Reported in table 39.1 of annex 39 to Panel report [S/2021/229](#).

²⁰⁰ Manufacturer's serial number.

²⁰¹ Kazakhstan removed the aircraft from its civil aviation register on 10 September 2019. Certificate #291.

²⁰² Member State information of 25 December 2019.

²⁰³ Sharjah Airport Free Zone, Sharjah, UAE. +971 6 557 3127, +971 6 557 3128. technoline@nsc.ae

²⁰⁴ Warehouse 2, Street #24, Sharjah, UAE. +971 6 532 5538. nsc@nsc.ae.

²⁰⁵ <https://ilyushin.org/en/airworthiness/>.

6. The Panel requested further information from Libya in letters dated 31 March 2020 and 7 January 2022. No response was received.

7. The Panel finds that the IL-76TD (MSN 186009403) cargo aircraft undertook internal and external flight operations to Libya in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment* and (...) *other assistance* (...) to Libya.

Annex 91 Alpha Air LLC owned IL-76TD cargo aircraft (5A-7656)

1. The Panel has identified that the IL-76TD cargo aircraft displaying Libyan registration 5A-7656 is the IL-76TD (MSN²⁰⁶ 33446325). The aircraft previously flew for Jenis Air LLC under Kazakhstan registration UP-I7656²⁰⁷ and was reported for violating the arms embargo in appendix E to annex 55 of Panel report [S/2021/229](#). At that time, it was being chartered by Space Cargo Inc.

Figure 91.1

IL-76TD displaying registration 5A-7656 flying in support of Haftar

Ilyushin IL-76TD cargo aircraft (5A-7656) at Benghazi (29 May 2021)

The Panel has identified an Ilyushin IL-76 cargo aircraft flying as part of the Libyan National Army 7th Operation Dignity anniversary military parade in Benghazi on 29 May 2021. Flight operations in support of armed groups affiliated to Khalifa Haftar are a violation of paragraph 9 of resolution 1970 (2011) as such operations constitute “*other assistance*”.

The aircraft was displaying the registration number 5A-7656, which is unusual as the correct ICAO format for all Libyan registered aircraft is 5A-XXX (Libyan Civil Aviation Regulations, Aircraft Registration and Markings (LYCAR.47) clause 47.045 (b) refers).

Primary sources

1. https://twitter.com/Gerjon_/status/1398695363138273288, 29 May 2021; and
2. Confidential source.

Developed by UN Panel of Experts

2. The documentation submitted to the Kazakhstan civil aviation authorities states that the aircraft is owned by Alpha Air LLC of Ukraine.²⁰⁸ The aircraft is still registered in Kazakhstan as UP-I7656 and is thus flying under a "fake registration".

3. The Panel notes that the manufacturer's Certificate of Airworthiness for this aircraft expired on 21 May 2020.²⁰⁹ Without such a certificate, flights cannot be legally made through EU controlled air space, thus restricting the aircraft to operations within Libya.

²⁰⁶ Manufacturer's serial number.

²⁰⁷ Registration Certificate #1180 dated 21 May 2019.

²⁰⁸ Office 58, House 1A, Dnepropetrovskaya Street, Kiev, Ukraine. +380 67 6123237. yss67uac@gmail.com.

²⁰⁹ <https://ilyushin.org/en/airworthiness/>.

4. The Panel requested further information from Libya in letter dated 8 July 2021. No response was received. The Panel also requested further information from Ukraine on 21 October 2021. No response was received.

5. The Panel finds Alpha Air LLC in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment and (...) other assistance (...)* to Libya.

Annex 92 FlySky Airlines LLC (FSQ), Kyrgyz Republic flights in support of HAF

1. The flight activity of FlySky Airlines LLC (FSQ)²¹⁰ aircraft continued to be of interest to the Panel during this mandate. FlySky Airlines LLC (FSQ) received their Air Operating Certificate (AOC) #53 from the Kyrgyz Republic Civil Aviation Agency on the 28 August 2020 and then operated the aircraft shown in table 92.1 on the Libyan airbridge to HAF.²¹¹

Table 92.1

^a Office C3/17, PO Box 8399, SAIF Zone, Sharjah, UAE. +971 6 557 1440. Sales@charteraflight.com. www.charteraflight.com is non-operational. The Panel notes that a second address in Fujairah International Airport, UAE was used on documentation from the company.

2. Table 92.2 summarises the recent history of this aircraft as it relates to sanctions violations. Note that it was previously owned and operated by Azee Air LLC (AZL) of Kazakhstan who were reported for violating paragraph 9 of resolution [1970 \(2011\)](#) in Panel report [S/2021/229](#).²¹² Azee Air LLC (AZL) had their AOC suspended on 21 April 2020, and the aircraft was transferred to a Kyrgyz Republic registration (EX-76003) on 9 June 2020, before the Azee Air LLC (AZL) AOC was revoked by Kazakhstan on 1 February 2021. The aircraft was sold to Aero Business Charter FZE on 31 July 2020. The Panel considers that this action was taken to protect the aircraft against any legal action from the Kazakhstan authorities.

| 6 Feb 2021 | IL-76 (EX-76003) made flight on the airbridge from UAE to Sidi Barani, Egypt. | <ul style="list-style-type: none"> ▪ FlySky Airlines LLC (FSQ) only supplied flight documentation for the return flight despite two requests from the Panel. |
| 4 Apr 2021 | IL-76 (EX-76003) made flight from UAE to Mitiga, Tripoli. | <ul style="list-style-type: none"> ▪ The Panel has analysed the flight documentation for this flight and elements of it are suspicious (see appendix C). ▪ Imagery shows the aircraft on the ground in Mitiga, Libya, with a brand named vaccine packaging box in the cargo hold.^f ▪ The Panel continues to investigate this flight. |

| <i>Date</i> | <i>Activity</i> | <i>Panel Evidence / Remarks</i> ^a |
|-------------|--|--|
| 1 Aug 2021 | IL-76 (EX-76003) made flight on the airbridge from UAE to Mitiga, Tripoli. | <ul style="list-style-type: none"> ▪ The Panel has analysed the flight documentation for this flight and elements of it are suspicious (see appendix D). ▪ The Panel continues to investigate this flight. |
| 2 Aug 2021 | IL-76 (EX-76003) made flight on the airbridge from UAE to Mitiga, Tripoli. | <ul style="list-style-type: none"> ▪ The Panel has analysed the flight documentation for this flight and elements suspicious (see appendix D). ▪ The Panel continues to investigate this flight. |

^a The Panel has evidentiary copies of the documentation listed in this table on file.

^b Email to Panel of 23 June 2020.

^c Annex 55.

^d FlySky Airlines, Ukraine (FSU) also supplied flight documentation for return flights, claiming outbound flights were empty.

^e Para.13 to annex 55.

^f https://twitter.com/Gerjon_/status/1378623180458328066, 4 April 2021.

3. The Panel identified that FlySky Airlines LLC (FSQ) flights in 2020 meet at least eight of the air delivery profile indicators (see annex 25) that when considered collectively indicate that an aircraft is almost certainly carrying illicit cargo. (a) lack of an obvious schedule; (b) flights usually in dark hours for concealment of offloads; (c) the random nature of the flights; (d) ADBS signal on AIS is often switched off; (e) false flight documentation; (f) air operator transparency is opaque; (g) inconsistent use of flight numbers; and (h) the links to Azee Air LLC (AZL).

4. The Panel has examined the documentation for the flights on 4 April, 1 August and 2 August 2021, which reports that the cargo was vaccines and medical supplies. Although the flight documentation is inaccurate and suspicious, the Panel considers it possible that this is because the same shipping agents were used as for the military cargo flights, and thus it was routine for the shipping agents to be inaccurate in completion of such documents. Additionally, the WFP (the logistic coordination agency for the UN presence in Libya) have confirmed that vaccines were delivered during that period, although they have no knowledge of the delivery mechanism. The Panel does not have evidence to the necessary evidential standards that these three flights carried military materiel.

5. The Panel offered FlySky Airlines LLC (FSQ) an opportunity to respond on 26 November 2021. Their response was sent by the Member State on 17 December 2021. This stated that they were aware of the flights by their aircraft into Libya and that “*the airline is also aware of the nature of the cargo being transported, which conforms to the stated requirements, is not prohibited for transport by air and does not constitute military cargo subject to United Nations Security Council sanctions*”. The Panel does not consider that this response addresses any of the indicators (paragraph 3) and documentary evidence (appendices) identified by the Panel.

6. The Panel offered the owner of the aircraft, Aero Business Charter FZE, an opportunity to respond on 25 January 2022. No response has yet being received by the Panel.

7. The Panel finds that FlySky Airlines LLC (FSQ) conducted flight operations on the air bridge from UAE to Egypt during 2020 in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment* and (...) *other assistance* (...) to Libya.

7. The Panel also notes that FlySky Airlines, Kyrgyz Republic (FSQ) and FlySky Airlines, Ukraine (FSU) share the same logo, and conducted flights on the Libya airbridge alongside each other in early 2021. The Panel has yet to determine the exact relationship between the two companies.

Appendix A to Annex 92: FlySky Airlines LLC (FSQ) suspicious flights on Libya airbridge 2020 and 2021

1. Table 92.A.1 shows a consolidated list of flights made by FlySky Airlines LLC, Kyrgyz Republic (FSQ).

^a Aircraft registration #.

^b Al Dafra is a UAE military airbase. 24°14'24"N, 054°32'54"E. This was listed on return flight documentation supplied by airline.

Appendix B to Annex 92: Panel analysis of Air Waybill for Flight FSQ1110 (24 September 2020)²¹³

SHIPPER
Known fake Shipper and Consignee, often used for illicit flights in violation of arms embargo.

SUPPLIER
Azee Aviation FZE sold the aircraft on 31 July 2020. The Azee AOC was revoked on 23 September 2021.

CARGO WEIGHT
Highly unlikely to be a "000" number if proper cargo analysis was done.

FORM
This is an Azee Aviation FZE AWB form, not a FlySky Airlines AWB form. So a false carrier has been declared.

DECLARED VALUE
No Customs value is highly unusual.

GOODS
No identified Khalifa Foundation project to provide humanitarian aid to Egypt. Insufficient information provided.

UNSIGNED

²¹³ The Panel has higher quality imagery available on request. The imagery resolution is poor in some of the remaining appendices due to the infographics being compressed to make the overall document a more manageable size.

Appendix C to Annex 92: Panel analysis of Air Waybill for Flight FSQ1110 (4 April 2021)

'Inaccurate' Air Waybill
Fly Sky Airlines (FSQ), Kyrgyz Republic, Flight# FSQ1110, Declared UAE to Misrata
(4 April 2021)

| | | | |
|---|--|---------------|--|
| 000 ALH 0001 0119 | | 000 0001 0119 | |
| CONSIGNEE: OFFICE OF PRESIDENTIAL AFFAIRS P.O. BOX 10100 ABU DHABI UNITED ARAB EMIRATES TEL: +971 501010304 | | | |
| CONSIGNEE CONTACT NUMBER: +971 501010304 CLAIMS TO BE CONTACT NUMBER FOR A "MR THANOS" AT THE OFFICE OF PRESIDENTIAL AFFAIRS. | | | |
| CONSIGNEE: MINISTRY OF HEALTH, NATIONAL UNITY SCOUT LIBYA C/O MR MUBARAK AL AMERI LIBYA TEL: +971 506622961 THE PANEL NOTES THAT "THANOS" IS NOT A TYPICAL ARABIC NAME. | | | |
| Maximum AT cargo Abu Dhabi | | | |
| Airport of Departure: ABU DHABI UAE Airport of Destination: MISRATA LIBYA | | | |
| Description of Goods: HUMANITARIAN AID VACCINES PACKED WITH DRY ICE IN TRAYS CARBON DIOXIDE SOLID 20 PAGES BY 20 AIR DRY THERMALLY STABLE IN 20 COOLICE PER UNIT | | | |
| Weight: 3600.0 Volumetric Weight: 565kg | | | |
| OFFICE OF PRESIDENTIAL AFFAIRS 03/04/2021 ALHJ Maximum AT cargo | | | |

Consignor Contact Number +971 5010 10304
 Claims to be contact number for a "Mr Thanos" at the Office of Presidential Affairs.

The Panel notes that "Thanos" is not a typical arabic name.

Consignee Contact Number +971 5066 22961
 Same contact number for air waybills for Maximus Air flights on 12, 14, 18 and 19 January 2020. See appendix C to annex 55 to S/2021/229 for the reported violations of the arms embargo for these flights.

The number linked to Mubarak Al Ameri the contact for the GHQ of United Arab Emirates Armed Forces. a.k.a Mubarak Al Amri or Mubarak Al Ansari. The number is also linked to a security incident of 20 October 2021, which was reported separately to the Committee.

It is NOT the number for the Libyan Ministry of Health as declared on the air waybill.

Volumetric Cargo Analysis
 The declared 3,600kg for the cargo would equate to only 18,000 vaccines if packed similarly to the standard WFP Single Use Thermal packaging. This equates to 8% of the maximum cargo load mass for the aircraft, and 7% of the maximum cargo area volume for the aircraft.

The second AWB for this flight only declares a cargo of 565kg.

Appendix D to Annex 92: Panel analysis of Air Waybill for Flight FSQ1110 (1 August 2021)

'Suspicious' Air Waybill
Fly Sky Airlines (FSQ), Kyrgyz Republic, Flight# FSQ1111, Declared UAE to Misrata
(1 August 2021)

CONSIGNEE CONTACT NUMBER +971 5066 22961
 Same contact number for air waybills for Maximus Air flights on 12, 14, 18 and 19 January 2020. See appendix G to annex 55 to [S/2021/229](#) for the reported violations of the arms embargo for these flights.

The number linked to Mubarak Al Ameri the contact for the GHQ of United Arab Emirates Armed Forces. a.k.a Mubarak Al Amri or Mubarak Al Ansari. The number is also linked to a security incident of 20 October 2021, which was reported separately to the Committee.

On 11 Oct 2021 the listed UAE contact number claimed to be "Fast Food" shop in Gaza, then "Fast Food"shop in Abu Dhabi. Same claim to a 12 Oct 2021 OTR.

CONSIGNEE CONTACT NUMBER NONE
 No proper address for the Ministry of Health for Libya in Mitiga.

Volumetric Cargo Analysis
 The declared 12,646kg for the cargo would equate to 89,500 vaccines if packed similarly to the standard WFP Single Use Thermal packaging. This equates to 26% of the maximum cargo load mass for the aircraft, and 27% of the maximum cargo area volume for the aircraft.

Flight FSQ1115 on 2 August 2021, made by the same aircraft had a declared cargo of 17.886kg of "relief goods". This equates to 37% of the maximum cargo load mass for the aircraft. The use of two flights is inefficient, expensive and unlikely if the cargo was as declared.

Appendix E to Annex 92: Panel analysis of Air Waybill for Flight FSQ1110 (2 August 2021)

'Suspicious' Air Waybill
Fly Sky Airlines (FSQ), Kyrgyz Republic, Flight# FSQ1115, Declared UAE to Mitiga
(2 August 2021)

Consignor Contact Number +971 5066 22961
 Same contact number for air waybills for Maximus Air flights on 12, 14, 18 and 19 January 2020. See appendix G to annex 55 to [S/2021/229](#) for the reported violations of the arms embargo for these flights.

The number linked to Mubarak Al Ameri the contact for the GHQ of United Arab Emirates Armed Forces. a.k.a Mubarak Al Amri or Mubarak Al Ansari. The number is also linked to a security incident of 20 October 2021, which was reported separately to the Committee.

On 11 Oct 2021 the listed UAE contact number claimed to be "Fast Food" shop in Gaza, then "Fast Food"shop in Abu Dhabi. Same claim to a 12 Oct 2021 OTR.

Consignee Contact Number +218 8285 32639
 Contact number does not belong to the Ministry of Health for Libya in Mitiga.

Volumetric Cargo Analysis
 The declared 17,886kg for the cargo would equate to 89,500 vaccines if packed similarly to the standard WFP Single Use Thermal packaging. This equates to 37% of the maximum cargo load mass for the aircraft, and 33% of the maximum cargo area volume for the aircraft.

Flight FSQ1111 on 1 August 2021, made by the same aircraft had a declared cargo of 12,646kg of "relief goods". This equates to 26% of the maximum cargo load mass for the aircraft. The use of two flights is inefficient, expensive and unlikely if all the cargo was as declared.

Annex 93 FlySky Airlines LLC (FSU) Ukraine flights in support of HAF

1. FlySky Airlines LLC (FSU)²¹⁴ received their Air Operating Certificate (AOC) #UK058 from the Ukraine State Aviation Administration on the 28 October 2020 and operated the aircraft shown in table 93.1 on the Libyan airbridge to HAF route.²¹⁵ The company's AOC was suspended by the Ukraine State Aviation Administration on 11 June 2021²¹⁶ for non-compliance with aviation standards. The AOC was reinstated on 19 July 2021.²¹⁷

Table 93.1

FlySky Airlines LLC (FSQ) aircraft of interest

| <i>Type</i> | <i>MSN#</i> | <i>Registration # on violation</i> | <i>Previous Registration #</i> | <i>Current Owner</i> | <i>Previous Operator</i> |
|------------------|-------------|--|------------------------------------|---|--------------------------|
| Ilyushin IL-76TD | 93498974 | UR-FSA | UR-COE | Aganya Holdings Limited, UAE ^{a b} | Europe Air LLC, Ukraine |
| Ilyushin IL-76TD | 1023412399 | UR-FSC | UR-CRN | Aganya Holdings Limited, UAE | Europe Air LLC, Ukraine |
| Ilyushin IL-76TD | 1003403075 | UR-FSE | UR-EAB | Aganya Holdings Limited, UAE | Europe Air LLC, Ukraine |

^a Operated from RAK Offshore, PO Box 48904, Al Khaimah UAE. Documentation from the company claims that it is incorporated in the British Virgin Islands, (BVI) but the BVI authorities confirmed to the Panel on 28 April 2020 that the company was not registered in the BVI.

^b Second address used for aircraft registration: PO Box 128666, 24 Al Sila Tower, Abu Dhabi Global Market Square, Al Maryah Island, Abu Dhabi, UAE.

2. The previous owner of the FlySky LLC (FSU) aircraft above was Europe Air LLC of Ukraine, who were reported for violating paragraph 9 of resolution [1970 \(2011\)](#) in Panel report [S/2019/914](#).²¹⁸ The Europe Air LLC AOC suspended by the State Aviation Administration of Ukraine on 27 July 2019 and the company ceased trading on 9 August 2019. At that time their aircraft were leased from Infinite Seal Inc of the BVI, whose listed beneficial owner works for the Department of Civil Aviation of Fujairah, UAE, but were subsequently transferred to Aganya Limited, UAE. The Panel has not been able to refine the date of transfer of the aircraft from Infinite Seal Inc ownership to Aganya Limited beyond mid-2020.²¹⁹ The Panel considers that this ownership transfer was taken to protect the aircraft against any legal action from the appropriate authorities.

3. Tables 93.2 to 93.4 summarise the recent history of the aircraft at table 93.1 as relating to sanctions violations regarding Libya.

²¹⁴ Office 16, 1 Pidlisna Street, Kiev 03164, Ukraine .+380 44 353 1083. office@flysky.co.

²¹⁵ Identified in para. 83 and annex 55 to [S/2021/229](#).

²¹⁶ Order of the State Aviation Administration of Ukraine # 902 dated 10 June 2021.

²¹⁷ Order of the State Aviation Administration of Ukraine # 1134 dated 19 July 2021.

²¹⁸ Annex 52.

²¹⁹ In 2020 Aganya Limited also sold other aircraft to Space Cargo Inc (Appendix E to annex 55 to [S/2021/229](#)). It appears to the Panel as if aircraft ownership are transferred between the three companies to disguise beneficial ownership and to protect the aircraft against legal action by appropriate authorities.

Table 93.2

FlySky Airlines LLC (FSU) aircraft sanctions violations related history

| <i>Date</i> | <i>Activity</i> | <i>Panel Evidence / Remarks</i> ^a |
|-------------|---|---|
| 21 Apr 2020 | Air Operating Certificate of Azee Air LLC (AZL) suspended by Civil Aviation Authority of Kazakhstan for six months. | <ul style="list-style-type: none"> See later for link to Deek Aviation FZE, UAE contract and previous arms embargo violations. |
| 28 Oct 2020 | Air Operating Certificate issued to FlySky (FSU) by State Aviation Administration of Ukraine | <ul style="list-style-type: none"> Certificate #UK 058. |

| 19 Jul 2021 | Air Operating Certificate of FlySky Airlines LLC (FSU) reinstated by State Aviation Administration of Ukraine. | <ul style="list-style-type: none"> Order 1134 of State Aviation Administration of Ukraine. |

^a The Panel has evidentiary copies of the documentation listed in the tables in this appendix. The documentation is not included in the report as the final report would become even more voluminous.

3. The Panel identified the FlySky Airlines LLC (FSU) flights meet at least seven of the air delivery profile indicators (see annex 25) that when considered collectively indicate that an aircraft is almost certainly carrying illicit cargo. (a) lack of an obvious schedule; (b) flights usually in dark hours for concealment of offloads; (c) the random nature of the flights; (d) ADDBS signal on AIS is often switched off; (e) false flight documentation; (f) air operator transparency is opaque; and (g) the links to other Libyan arms embargo violators such as Deek Aviation FZE.

4. The Panel notes that the airline is contracted under a General Sales Agreement to fly cargo on the Libya airbridge by Deek Aviation FZE;²²⁰ a company with a history of arms embargo violations:

(a) Deek Aviation FZE was reported in Panel report [S/2019/914](#)²²¹ for violating paragraph 9 of resolution [1970 \(2011\)](#) for contracting Europe Air LLC to fly military materiel into Libya.

(b) Deek Aviation was further reported in Panel report [S/2021/229](#)²²² in connection to a violation of paragraph 9 of resolution [1970 \(2011\)](#) by Azee Air LLC, with whom they had a General Sales Agreement.

5. Due diligence by FlySky Airlines LLC (FSU) should have identified the involvement of Deek Aviation FZE in sanctions violations activities in Libya. The Panel considers that FlySky Airlines LLC (FSU) have in effect partly taken on the logistic support role to HAF previously undertaken by Azee Air LLC until their AOC was suspended. The remainder of that role being taken on by FlySky Airlines LLC (FSQ) (see annex 92).

6. The Panel finds that FlySky Airlines LLC (FSU) have conducted flight operations on the air bridge from UAE to Egypt in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment and (...) other assistance (...)* to Libya.

7. The Panel notes that FlySky Airlines, Ukraine (FSU) and FlySky Airlines, Kyrgyz Republic (FSQ) share the same logo, and conducted flights on the Libya airbridge alongside each other in early 2021.

²²⁰ www.deek.aero.

²²¹ Annexes 28 and 52. The two aircraft destroyed at Al Jufra on 26 July 2019 (UR-CMP and UR-CRC) were both operated by Europe Air LLC, the previous operator of the aircraft now operated by FlySky LLC (FSU).

²²² Para. 8 of annex 55.

Appendix A to Annex 93: FlySky Airlines LLC (FSU) suspicious flights on Libya airbridge in 2021

1. Table 93.A.1 shows a consolidated list of flights made by FlySky Airlines LLC, Ukraine (FSU).

²²³ The Panel has higher quality imagery available on request. The imagery resolution is poor in some of the remaining appendices due to the infographics being compressed to make the overall document a more manageable size.

Annex 94 Green Flag Aviation, Sudan aircraft in support of HAF

1. The Panel has identified that the Ilyushin IL-76TD cargo aircraft displaying Libyan registration 5A-EWX²²⁴ is the Ilyushin IL-76TD (MSN²²⁵ 1013409282). Closer inspection of the number by the Panel has identified that the number has been adapted from a Sudan Civil Aviation Authority registration ST-EWX, in that the “5” uses the bottom half of the original “S” and the “A” uses the top of the “T” from the previous registration number.

Figure 94.1

Change of registration from ST-EWX to 5A-EWX

²²⁴ New registration first identified when the aircraft was participating in the Libyan National Army 7th Operation Dignity anniversary military parade in Benghazi on 29 May 2021.

²²⁵ Manufacturer's serial number.

2. The aircraft previously flew for Green Flag Aviation (GNF)²²⁶ under Sudanese registration ST-EWX²²⁷ and was reported for violating the arms embargo in appendix K to annex 55 of Panel report [S/2021/229](#).²²⁸ This aircraft is listed on www.aerotrtransport.org (ATDB), a definitive aviation database, as being owned by Green Flag Aviation (GNF) since July 2011. No ownership transfer to HAF is listed on ATDB.
3. The Panel notes that the manufacturer's Certificate of Airworthiness for this aircraft expired on 24 February 2017.²²⁹ Without such a certificate, flights cannot be legally made through EU controlled air space, thus restricting the aircraft to operations within Libya.
4. The Panel requested further information from Libya in letter dated 8 July 2021. No response was received.
5. The Panel finds that Green Flag Aviation have supported flight operations within Libya in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment and (...) other assistance (...)* to Libya.

²²⁶ <http://www.greenflag-sdn.com>. Website inactive.

²²⁷ The Member State confirmed to the Panel on 21 September 2021 that the aircraft was no longer registered in Sudan.

²²⁸ Sources: (a) https://twitter.com/Gerjon_/status/1268467153340174336; and (b) <https://twitter.com/HasairiOuais/status/1268466092265127937>, 4 June 2020.

Annex 95 NPP Mir Aviakompania (NPP), Russian Federation in support of HAF

Converted *Ilyushin IL-18D* cargo aircraft at Al Khadim (HL59) (31°59'48.04"N, 21°12'7.03"E) (3 October to 2 November 2021)

The Panel has identified from satellite imagery the presence of an *Ilyushin IL-18D* cargo aircraft at Al Khadim airbase (HL59) on 3, 17, 26 and 28 October 2021, and 1 and 2 November 2021. The aircraft has been converted from an IL-38 maritime patrol aircraft at some time, as evidenced by the presence of a sensor tail boom.

The aircraft is almost certainly IL-18TD (MSN 186009403). This aircraft is listed on www.aerotrtransport.org (ATDB), a definitive database, as being operated by NPP MIR Aviakompania of Saint Petersburg, Russian Federation at that time.

The Panel requested further information from the Russian Federation in a letter dated 22 December 2021. On 28 January 2022 they responded that the aircraft was deregistered from #RA-75713 on 24 February 2004. The Russian Federation did not provide the requested information regarding the air operator. ATDB now show the aircraft as registered by the Central African Republic as TL-ARN in October 2021 and operated by an unknown user.

The use of this aircraft in support of HAF is a violation of paragraph 9 of resolution 1970 (2011).

Developed by UN Panel of Experts

Annex 96 Sapsan Airline LLC (KGB), Kyrgyz Republic flights in support of HAF

1. The flight activity of Sapsan Airline LLC (KGB)²³⁰ aircraft became of interest to the Panel during this mandate. Sapsan Airline LLC (KGB) received their Air Operating Certificate (AOC) #54 from the Kyrgyz Republic Civil Aviation Agency on the 27 January 2021 and then operated at least one of the aircraft shown in table 96.1 on the Libyan airbridge to HAF.²³¹

Table 96.1

^b No corporate web presence. A4-08, PO Box 7812, SAIF, Sharjah, UAE.

2. Table 96.2 summarises the recent history of Ilyushin IL-76TD (EX-76008) as it relates to sanctions violations. This aircraft was previously registered by the Aviation Administration of Ukraine as UR-CIG where it was operated by ZetAvia LLC (ICAO Code: ZAV). In appendix J to annex 55 of Panel report [S/2021/229](#) the Panel found that flight activity by ZetAvia using this aircraft was a violation of paragraph 9 of resolution 1970 (2011) for the *direct supply of (...) military (...) equipment and (...) other assistance (...)* to Libya. ZetAvia LLC also delivered the aircraft in support of Operation OPUS in 2019 (annex 76 of Panel report [S/2021/229](#) refers).

Table 96.2

| 11 Jan 2022 | Aircraft operated on the UAE to Libya airbridge route using callsign KGB4961. | ▪ Returned to Sweihan military base in UAE. |
| | | ▪ |

^a The Panel has evidentiary copies of the documentation listed in this table on file.

^b OMAW. Military Airbase. 24°31'38"N, 54°58'27"E.

3. The activities and profile of this aircraft meet at least six of the Panel's air delivery profile indicators that when considered collectively indicate that a vessel or aircraft is almost certainly carrying illicit cargo: (a) lack of an obvious schedule; (b) flights usually in dark hours for concealment of offloads; (c) use of military airbases; (d) AIS dark activity; (e) air operator transparency is opaque (no online presence); and (f) corporate links to previous sanctions violators.

4. The Panel requested further information from the Kyrgyz Republic in a letter dated 25 January 2022. In their response of 9 February 2022, they provided flight documentation showing that Ilyushin IL-76TD (EX-76008) had flown to Chanda, Pakistan on 4 January 2022. This is contrary to the ADBS²³² data shown on open-source flight tracking platforms. The Panel accepts the veracity of the flight data provided by the Member State regarding the air operations of Ilyushin IL-76TD (EX-76008) on that day. Nevertheless, an aircraft transmitting the hex code of that aircraft certainly made a flight on the UAE to Libya airbridge route that day. Independent aviation OSINT analysts have identified that Sapsan Airline operated aircraft have exchanged ADBS Hex "squawk" codes for other flights.²³³ This exchange of ADBS Hex "squawk" codes is not accidental and is designed to disguise the activities of specific aircraft. It is also contrary to ICAO regulations.

5. The Panel finds that the Sapsan Airline LLC cargo aircraft flight operations to Libya were in violation of paragraph 9 of resolution [1970 \(2011\)](#) for the *direct, and indirect, supply of (...) military (...) equipment and (...) other assistance (...)* to Libya.

²³² Automatic Dependent Surveillance–Broadcast.

Annex 97 Space Cargo Inc (UAE) activities in 2021

1. The Panel has previously reported on Space Cargo Inc (United Arab Emirates)²³⁴ owned or operated aircraft in [S/2019/914](#)²³⁵ and [S/2021/229](#).²³⁶ Space Cargo Inc remains a common denominator in many of the illicit aviation activities relating to eastern Libya and airports under the control of HAF. The Panel found that the company has a major coordination and operational role for the United Arab Emirates airbridge to eastern Libya, and the delivery of military materiel to HAF. The company has also operated as a PMC in Libya during this period.

2. During the investigations covered in Panel report [S/2021/229](#) the Panel identified that Space Cargo Inc supplied false and misleading information in response to Panel enquiries. The company continued to do so during this mandate (see paras. 10, 20 and 24).

A. Aviation logistic support to HAF

3. The Panel has documentation or evidence showing that Space Cargo owns or operates other aircraft previously reported as operating in Libya in support of United Arab Emirates and has developed the consolidated list at table 97.1 for reference. The Panel notes that many aircraft are not flying in accordance with ICAO regulations²³⁷ as the aircraft do not have a valid airworthiness certificate. Only details of newly identified aircraft (shown below in *italic*) are included later in this annex.

Table 97.1

Summary of Space Cargo Inc related aircraft supporting HAF operations in Libya

| <i>Date</i> ^a | <i>Aircraft type</i> | <i>MSN#</i> ^b | <i>Registration #</i> ^c | <i>Status</i> | <i>Remarks</i> |
|--------------------------|----------------------|--------------------------|------------------------------------|---------------|---|

^a Date purchased, first identified operating in Libya or identified by the Panel as owned by Space Cargo Inc.

^b Manufacturers serial number.

^c Includes all registrations legitimately used or illicitly displayed by the aircraft during Libya operations.

^d No Ilyushin Aviation Complex airworthiness listed.

^e Ilyushin Aviation Complex airworthiness expired 19 July 2020. May now be flying displaying a Libyan 5A series registration.

^f Reported in annex 55 and appendix E to annex 55 of [S/2021/229](#). Jenis Air LLC had its air operating certificate suspended by the Kazakhstan civil aviation authorities on 3 July 2020. It was not renewed by the company.

^g Reported in appendix F to annex 55 to [S/2021/219](#).

^h Ilyushin Aviation Complex airworthiness expires on 24 June 2022.

ⁱ Also see appendix F to annex 55 to [S/2021/219](#).

Operating outside Libya since at least 17 July 2021 with Sapsan Airlines (KGB) of Kyrgyz Republic.

^j Ilyushin Aviation Complex airworthiness expired on 25 September 2020. May now be flying displaying a Libyan 5A series registration.

^k Reported in annex 55 and appendix D to annex 55 of [S/2021/229](#). Azee Air LLC had its air operating certificate revoked by the Kazakhstan civil aviation authorities on 20 September 2020.

^l First reported in annex 35 of [S/2017/406](#).

^m First reported as operating in support of HAF in appendix K to annex 55 to [S/2021/219](#). A 31 October 2021 response to the Panel by Space Cargo contained inconsistencies and used a previously discredited purchase type explanation, used in previous cases where the Panel found Space Cargo's claims as not credible.

1. Antonov AN-12A cargo aircraft (MSN#2340806) (ex UP-AN220)

4. At 13:00 hours on 28 January 2021 the Antonov AN-12A cargo aircraft (MSN#2340806) departed Amman (Marka) airport, Jordan (ICAO: OJAM) bound for Benghazi (Benina) airport, Libya (ICAO: HLLB). On board were three technicians recruited under a Space Cargo Inc contract to repair the three AS332L Super Puma helicopters reported in annex 76 to [S/2021/229](#) (see later for details of this PMC activity). The aircraft encountered technical issues with its transponders forcing a return to OJAM.²³⁸

²³⁸ Confidential source.

5. The aircraft was clearly marked with a Kazakhstan registration UP-AN220 at this time (see appendix A). This is contrary to a statement made by the then operator, Jupiter Jet LLC²³⁹ to the Aviation Authority of Kazakhstan that the Kazakhstan markings had been overpainted on 25 January 2021 (see imagery at appendix A).²⁴⁰ The General Manager of Jupiter Jet LLC, Erikzhan Satenovich Kozbagarov, informed the Aviation Authority of Kazakhstan that the aircraft owner, Space Cargo Inc, had terminated their lease of the aircraft on 25 January 2021 and that the owner had requested that the aircraft be delivered to Amman, Jordan on termination of the lease. The Panel notes that the aircraft had landed at Amman, Jordan on 23 January 2021, two days prior to the declared termination of the lease.

6. After resolving the transponder technical issue, the aircraft departed Amman (OJAM) at 14:45 hours on 31 January 2021 with the same crew, and successfully delivered the three Space Cargo Inc technicians to Benghazi (HLLB). The Panel obtained imagery of the aircraft at HLLB on 5 February 2021, which was then displaying a Burundi registration (see appendix A). The Panel has confirmed with the Burundi authorities that this is a fake registration, and that no AN-12 type aircraft are registered with Burundi.²⁴¹

7. This aircraft was registered with the Aviation Administration of Kazakhstan as UP-AN220 until the registration was officially cancelled on 12 February 2021. It is now unregistered.

8. The timeline of events regarding this aircraft is summarised at table 97.2.

Table 97.2

Timeline of main events for AN-12A cargo aircraft (#2340806) (ex UP-AN220)

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|---|--|
| 20 Mar 2020 | Ukraine registration (UR-CSI) for aircraft cancelled. | <ul style="list-style-type: none"> ▪ Cancellation No. PB1319. ▪ Then owned by Aeronet FZE.²⁴² ▪ Aircraft operating unregistered for nine months. |
| 2 Sep 2020 | Aircraft leased by Space Cargo Inc to Jupiter Jet LLC | <ul style="list-style-type: none"> ▪ Contract No.02/09/2020. |
| 22 Dec 2020 | Aircraft registered by Aviation Authority of Kazakhstan as UP-AN220. | <ul style="list-style-type: none"> ▪ Certificate No.1230. |
| 23 Jan 2021 | Aircraft arrives at Amman (Marka) (OJAM) from Sudan (HSSS). | <ul style="list-style-type: none"> ▪ At Space Cargo Inc request. ▪ Departed Sudan (HSSS) on 22 Jan 2021. Ferry flight documentation with Panel. ▪ Pilot was Nikolay DENISOV (Kazakhstan). |
| 25 Jan 2021 | Lease agreement ²⁴³ with Jupiter Jet LLC, Kazakhstan for aircraft cancelled by owner, Space Cargo Inc, UAE. | <ul style="list-style-type: none"> ▪ Space Cargo Inc had requested aircraft be taken to Aqaba, Jordan, but it was already in Amman, Jordan. |
| 25 Jan 2021 | Kazakhstan registration on aircraft declared by Jupiter Jet LLC to the Kazakhstan aviation authorities as having been overpainted blue. | <ul style="list-style-type: none"> ▪ Fake report as identified with Kazakhstan registration was still displayed on the aircraft on 28 Jan 2021. |

²³⁹ www.jupiterjet.aero. Last accessed 6 August 2021.

²⁴⁰ Letter from Member State of 2 June 2021.

²⁴¹ Letter from Member State of 30 June 2021.

²⁴² PO Box 7902, Sharjah, UAE.

²⁴³ Contract No 02/09/220 dated 02 September 2020 between Space Cargo Inc, UAE and Jupiter Jet LLC, Kazakhstan.

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|---|---|
| 28 Jan 2021 | 13:00 hours. Aircraft (marked as UP-AN220) departs from Amman (OJAM) for Benghazi (HLLB) but returns after 90 minutes due to a transponder fault. | <ul style="list-style-type: none"> Three Space Cargo Inc technicians as passengers. ('Team A' – see Part B). |
| 31 Jan 2021 | 14:45 hours. Aircraft departs Amman (OJAM) for Benghazi (HLLB). | <ul style="list-style-type: none"> Three Space Cargo Inc technicians as passengers. ('Team A' – see Part B). |
| 5 Feb 2021 | Aircraft identified in Benghazi airport (HLLB) now displaying Burundi registration 9U-BBD or 9U-BBO. | <ul style="list-style-type: none"> Burundi has confirmed that this is a fake registration number.²⁴⁴ |
| 12 Feb 2021 | UP-AN220 registration cancelled by Aviation Authority of Kazakhstan. ²⁴⁵ | <ul style="list-style-type: none"> Cancellation No.332. At the request of the operator. |
| 10 Apr 2021 | Aircraft identified in Benghazi airport (HLLB) by satellite imagery. | <ul style="list-style-type: none"> Identified by unique blue and red colour scheme. Aircraft parking position and orientation different to that of 5 February 2021 indicating flight operations have taken place. |

9. The Panel notes: (a) that the aircraft was moved to Jordan (OJAM) prior to the cancellation of the contract; (b) the contract was extant for only four months: aircraft leases are usually much longer; and (c) the operator provided the Kazakhstan aviation authorities with false information regarding the markings on the aircraft. The Panel considers that these activities were deliberately designed to protect Jupiter Jet LLC from any allegations of arms embargo violations. The aircraft was still technically operated by Jupiter Jet LLC for its flight to Libya, as the aircraft registration was not cancelled until two weeks after the flight.

10. The Panel offered Space Cargo an opportunity to reply on 15 July 2021. Their response on 10 August 2021 claimed that they had sold the aircraft to a South Sudanese company²⁴⁶ on 20 January 2020. This is the same response they made in their proven false claim when questioned about their ownership of the Ilyushin IL-76TD cargo aircraft (MSN#0073479367) on 15 November 2020. On 10 August 2021 the South Sudanese company again refuted all claims made by Space Cargo Inc and denied any business relationship with them.²⁴⁷ The Panel considers the documentation provided by Space Cargo Inc to the Panel on 10 August 2021 (see appendix A) as nothing more than a virtual "cut and paste" of the fake documentation supplied to the Panel on 15 November 2020 for the Ilyushin IL-76TD cargo aircraft (MSN#0073479367). The extensive and detailed evidence in this annex serves to refute all claims made by Space Cargo in their letters of 10 August and 9 September 2021. Mr Maher Nayef Alismail, General Manager of Space Cargo Inc., has again provided the Panel with false documentation and a narrative of falsehoods, and continues to violate the UN arms embargo with complete impunity.

11. The provision of this aircraft for "*other assistance relating to military activities*" is a further violation of paragraph 9 of resolution [1970 \(2011\)](#) by Space Cargo Inc, and Mr. Maher Nayef Alismail. Jupiter Jet LLC remains under investigation for its involvement in this violation.

²⁴⁴ Letter to Panel of 30 June 2021.

²⁴⁵ Letter to Panel of 2 June 2021. Cancellation No 322.

²⁴⁶ The Panel is aware of the identity of the company but considers it is not necessary to report the identity of the company at this stage and expose the company to any reputational risk resulting from its cooperation with the Panel and being named in a UN report on sanctions violations. The Panel has copies of all correspondence from the South Sudanese company that refutes the Space Cargo Inc claim.

²⁴⁷ Email to Panel of 10 August 2021. The address used by Space Cargo Inc in their documentation was last occupied by the South Sudanese company in 2015.

2. Antonov AN-12BP cargo aircraft (MSN#5342908) (ex UP-AN218)

12. The Panel has now confirmed that this aircraft is owned by Space Cargo Inc and is operating in Libya in support of HAF.

13. The timeline of events regarding this aircraft is summarised at table 97.3.

Table 97.3

Timeline of main events for AN-12BP cargo aircraft (MSN#5342908)²⁴⁸

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|---|--|
| 12 May 2019 | Leased by Roland Aviation FZE, UAE to Jupiter Jet LLC (JPJ), Kazakhstan. | ▪ Lease unreferenced. |
| 24 Sep 2019 | Registered in Kazakhstan as UP-AN218. | ▪ Registration certificate #1191. ▪ Previously registered as EY-414 by Lithuania. |
| 17 Jul 2020 | Termination of lease between Roland Aviation FZE, UAE and Jupiter Jet LLC (JPJ), Kazakhstan. | ▪ |
| 26 Aug 2020 | Deregistered by Kazakhstan. | ▪ Cancellation certificate #314. |
| 9 Sep 2020 | Panel identified from a confidential source ²⁴⁹ that Roland Aviation FZE had sold the aircraft to Space Cargo Inc FZE. | ▪ |
| 29 May 2021 | Identified as flying on HAF parade in Benina, Benghazi. ^a | ▪ The aircraft has a distinctive blue and white colour scheme (figure 97.1) ▪ |

Figure 97.1

Comparative imagery of AN-12BP cargo aircraft (MSN#5342908)

11 August 2020: Image supplied by Jupiter Jet LLC to Kazakhstan CAA

29 May 2021: HAF Benghazi Parade.

29 May 2021: Enhancement of HAF Benghazi Parade imagery.

²⁴⁸ The Panel has copies of all the documentation referred to in this table.

²⁴⁹ A senior commercial airline official in Kazakhstan in taped interview with Kazakhstan CAA.

14. The Panel offered Space Cargo an opportunity to reply on 23 December 2021. Their response on 20 January 2022 (extract in appendix A) claimed that they were going to act as a broker for the sale of this aircraft, but that the then owner, Roland Aviation FZE, sold the aircraft directly to the same above-mentioned South Sudanese company²⁵⁰ on, or about, 28 December 2020. On 23 January 2022 the South Sudanese company again refuted all claims made by Space Cargo Inc, denied any business relationship with Space Cargo Inc.²⁵¹ The company also denied that it had purchased any aircraft from Roland Aviation FZE. The Panel requested information as to the ownership trail for this aircraft from Roland Aviation FZE on 15 July 2021 and 14 February 2022. No response was received.

15. The detailed evidence in possession of the Panel serves to refute all claims made by Space Cargo in their letter of 20 January 2022. Mr Maher Nayef Alismail has again provided the Panel with a narrative of falsehoods and continues to violate the UN arms embargo with complete impunity.

16. The provision of this aircraft for “*other assistance relating to military activities*” is a further violation of paragraph 9 of resolution [1970 \(2011\)](#) by Space Cargo Inc and Mr. Maher Nayef Alismail.

3. Ilyushin IL-18D cargo aircraft (MSN# 187009903) (ex ER-ICS)

17. This aircraft has been reported on in [S/2017/466](#),²⁵² [S/2019/914](#)²⁵³ and [S/2021/229](#),²⁵⁴ where it identified as being the aircraft previously registered as ER-ICS. A Member State has confirmed that this aircraft was sold to Space Cargo Inc sometime after 8 July 2015.²⁵⁵

18. The timeline of events regarding this aircraft is summarised at table 97.4.

Table 97.4

Timeline of main events for IL-12D cargo aircraft (MSN#187009903)²⁵⁶

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|---|---|
| 14 Dec 2013 | Registered in Moldova to Sky Prim Air S.R.L as ER-ICS. | ▪ Certificate 0418. |
| 29 May 2015 | Export Certificate of Airworthiness listed Chad as country of export. | ▪ Chad confirmed to Panel that this aircraft had never being listed under their aviation registry. ^a |
| 8 Jul 2015 | Cancellation of Moldovan registration ER-ICS. | ▪ De-registration Certificate 0418. ▪ Member State confirm sold to Space Cargo Inc. |
| 15 Sep 2016 | IL-18D (ER-ICS) identified in Zintan. | ▪ Paint scheme identical to that seen later on for positive identification. |
| 25 Nov 2016 | IL-18D (ER-ICS) identified in Benina. | ▪ Paint scheme identical to that seen later on positive identification. |

²⁵⁰ The Panel is aware of the identity of the company but considers it is not necessary to report the identity of the company at this stage and expose the company to any reputational risk resulting from its cooperation with the Panel and being named in a UN report on sanctions violations. The Panel has copies of all correspondence from the South Sudanese company that refutes the Space Cargo Inc claim.

²⁵¹ Email to Panel of 23 January 2022. The address used by Space Cargo Inc in their documentation was last occupied by the South Sudanese company in 2015.

²⁵² Annex 35.

²⁵³ Annex 52.

²⁵⁴ Annex 55 and appendix F to annex 55.

²⁵⁵ Letter to Panel dated 15 September 2021.

²⁵⁶ The Panel has copies of all the documentation referred to in this table.

| <i>Date</i> | <i>Event</i> | <i>Remarks</i> |
|-------------|---|--|
| 27 Jul 2020 | IL-18D re-confirmed as ex ER-ICS | <ul style="list-style-type: none"> Identified by independent OSINT analyst.^c See appendix B. |
| 2 Oct 2021 | Aircraft identified as now flying under Libyan registration number 5A-AND. ^d | <ul style="list-style-type: none"> Legitimacy of Libyan registration unconfirmed. |

^a Letter to Panel dated 8 November 2021.

^b Letter from Member State dated 1 April 2022.

19. The Panel wrote to Libya on 7 October 2021 requesting confirmation, or otherwise, of the legitimacy of the displayed Libyan registration. No response has been received.

20. The Panel offered Space Cargo Inc an opportunity to reply on 7 October 2019 regarding their ownership of this aircraft. Their response of 21 February 2021 denied that their company had purchased the aircraft, which is contrary to the information provided, and subsequently confirmed, by a Member State.

21. The provision of this aircraft for “*other assistance relating to military activities*” is a further violation of paragraph 9 of resolution [1970 \(2011\)](#) by Space Cargo Inc and Mr. Maher Nayef Alismail.

4. Antonov AN-12BP cargo aircraft (MSN#5343005) (ex-EY-409)

22. This aircraft was reported on in [S/2021/229](#),²⁵⁷ where it identified as being the aircraft previously registered as EY-409. The Panel has now confirmed that this aircraft is owned by Space Cargo Inc.

23. The timeline of events regarding this aircraft is summarised at table 97.5.

Table 97.5

Timeline of main events for AN-12BP cargo aircraft (MSN#5343005)²⁵⁸

^d Supplied by Meridien FZE on 12 October 2021.

^e <https://twitter.com/Oded121351/status/1191436452716056577>, 4 November 2019.

^f https://twitter.com/Gerjon_/status/1297157977816915969?s=20, 22 August 2020.

24. The Panel offered Space Cargo Inc an opportunity to reply on 19 October 2019 regarding their ownership of this aircraft. Their response to the Panel on 31 October 2021 contained inconsistencies and used a previously discredited purchase type explanation, used in previous cases, where the Panel found Space Cargo's claims as not credible. In this case Space Cargo Inc claimed to have used an offset credit agreement to sell the aircraft to a company called Mars Avia Tech LLC in Belarus. The Panel found this claim as not credible as:

- (a) The alleged sale took place two days after they purchased the aircraft from Meridien. This would not allow time for the normal due diligence for aircraft purchases to take place.
- (b) Mars Tech Avia LLC is not registered as a company in Belarus,²⁵⁹ and there is no trace of the company in open source information in either English or Russian.
- (c) The contract with Meridien FZE stated that the Buyer, Space Cargo LLC, should provide the crew at Juba, South Sudan. The aircraft was flown out of South Sudan by a crew from Asia Airways LLC, who were listed on the flight operations manual provided by Meridien to the original lessee.
- (d) Allied Services Limited, South Sudan handed the aircraft back to Meridien FZE and not the alleged new owners, Mars Avia Tech LLC as stated in the alleged contract between Space Cargo LLC and Mars Avia Tech LLC.
- (e) The contract with Space Cargo LLC stated that the alleged Buyer, Mars Avia Tech LLC, should settle the contract based on 100% pre-payment of US\$ 553,446. No mention of an offset credit agreement, which was submitted unreferenced to the Panel, and in a very different format to the fake one supplied for the sale of the Antonov AN-12A cargo aircraft (MSN#2340806) (see paragraph 10).

²⁵⁹ Confirmed by Member State in letter to Panel of 13 December 2021.

25. The extensive and detailed evidence in this annex serves to refute all claims made by Space Cargo in their letters of 10 August and 9 September 2021. Mr Maher Nayef Alismail has again provided the Panel with a narrative of falsehoods and forged documentation. He continues to violate the UN arms embargo with complete impunity.

26. The provision of this aircraft for “*other assistance relating to military activities*” is a further violation of paragraph 9 of resolution [1970 \(2011\)](#) by Space Cargo Inc and Mr. Maher Nayef Alismail.

B. PMC maintenance support for three AS332L Super Puma helicopters

27. The Panel has established that Space Cargo Inc contracted the provision of helicopter engineers and aircrew from a South African company to make the three AS332L Super Puma helicopters transferred into Libya during July 2019 by Project Opus²⁶⁰ airworthy. In doing so it became a private military company for under the auspices of “*other assistance relating to military activities*”. Supporting imagery and evidence is at appendix C.

28. On 10 December 2020 a South African helicopter maintenance company²⁶¹ was contracted by Space Cargo Inc to provide qualified individuals capable of making the above-mentioned helicopters airworthy. The individual in Space Cargo Inc responsible for coordinating this programme with the South African company was Aleksandra Isamova, the “Auditor” of Space Cargo Inc, (see figure 97.2, the remaining Email evidence is at appendix C). The Panel offered Aleksandra Isamova an opportunity to respond on behalf of the company on 7 August 2021, which she declined.²⁶²

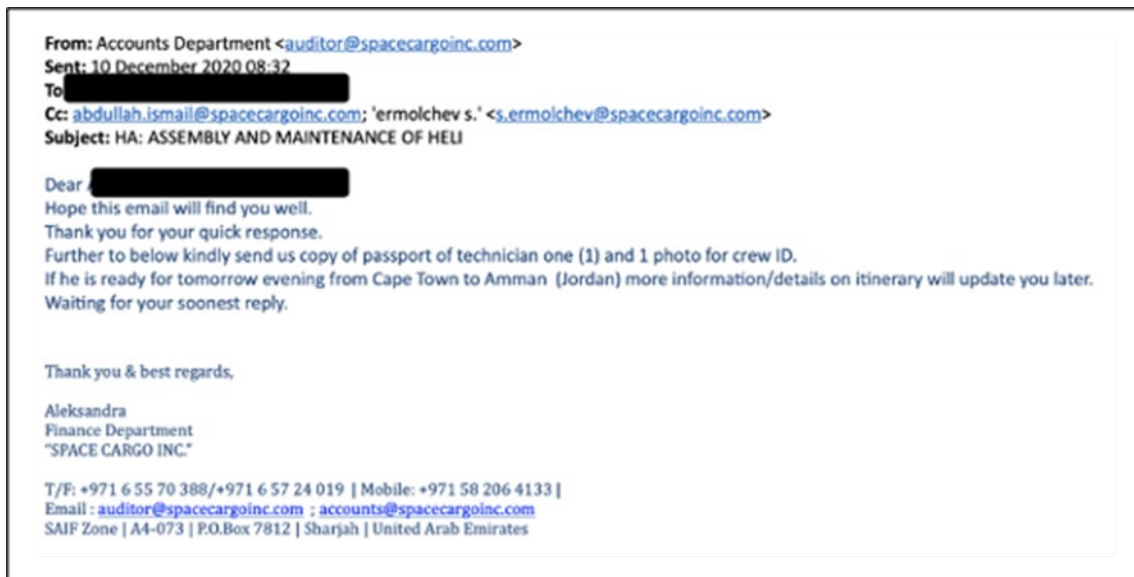

²⁶⁰ See annex 76 to Panel report [S/2021/229](#).

²⁶¹ The Panel is aware of the identity of the company but considers that: (a) as the company was unaware that the work would be a technical non-compliance with the arms embargo; and (b) has fully cooperated with the Panel, it is not necessary to report the identity of the company at this stage and expose the company to any reputational risk resulting from its participation. Similarly, the Panel is aware of the identities of all the individuals employed by the company that deployed to Libya.

²⁶² WhatsApp message. 7 August 2021, which the company has confirmed receiving (Email of 20 January 2022). Three separate numbers were also used to call and there was no reply, but the Panel acknowledges that unless the subscriber is using a virtual private network (VPN) calls are blocked on WhatsApp in the UAE.

Figure 97.2

E Mail to company from Space Cargo Inc

29. The Panel has established that the first technician deployed to Jordan on 19 December 2020 on flight EK903 from Dubai, where he was met by a representative from SkyWings Aviation²⁶³ and accommodated in the Hotel Corp, Amman, Jordan.²⁶⁴ He then soon flew into Libya on a Space Cargo Inc charter flight.

30. A team of three further technicians ('Team A') then deployed to Jordan on 1 January 2021 on Egypt Air flights MS840 and MS871. They were also met by a representative from SkyWings Aviation and accommodated in the Hotel Corp, Amman, Jordan.

31. 'Team A' was delayed in Jordan until the first attempt was made on 28 January 2021 to fly them to Libya on the Space Cargo Inc owned Antonov AN-12 (#2340806) (see Part A above). This flight had to return to Jordan due to transponder issues, and 'Team A' eventually deployed to Libya on 31 January 2021 on the Antonov AN-12 (#2340806). 'Team A' remained in Libya working on the helicopters until returning to Johannesburg on 17 February 2021.

32. The Panel has copies of the return flight tickets for Team 'A', which were paid for by a credit card in the name of Maher ALISMAIL, the same name as the Managing Director of Space Cargo Inc (see figure 97.3).

²⁶³ <http://www.skywingsjordan.com>. Accessed 18 June 2021. Contact person details +96277900077. Elie NJEIM. ops@skywingsjordan.com.

|--|-------------------------------|
| Payment reference 50160547 | Administration fee EGP 189.72 |
| Booked on 17 February 2021 | Booking total EGP 6,513.72 |
| Card number: *****7800 | AED 1,557.64 |
| Maher Alismail 17 February 2021 | Equivalent to EGP 6,513.72 |
| Please note, that the credit/debit card used to make the payment will be checked at the airport. | |

Source: Confidential.

33. The agreed contract price for the provision of ‘Team A’ was \$195,000, which was invoiced to Space Cargo Inc.²⁶⁵

34. On 27 April 2021 a second team (‘Team B’) consisting of one pilot and four technicians deployed to Benghazi, Libya directly from Johannesburg (Lanseria) airport (FALA) on board a Dassault Falcon 900DX business jet (see at appendix C).²⁶⁶ The Panel also independently obtained a copy of the aircraft flight plan from another source, which confirms this flight. The aircraft charter flight was booked by Shamil Travel Services Company of Benghazi, whom the Panel could not contact for their comment. The charter cost was LYD 135,000 (US\$ 29,800), which was paid in cash.

35. After ‘Team B’ maintenance work, two of the AS332L Super Puma helicopters were seen flying as part of the HAF Libyan National Army 7th Operation Dignity anniversary military parade in Benghazi on 29 May 2021 (see figure 97.4).

²⁶⁵ Confidential source.

²⁶⁶ The Panel is aware of the owner and operator of the private jet but considers that as the company was unaware that the flight would be a technical non-compliance with the arms embargo, and cooperated fully with the Panel, it is not necessary to expose them to the reputational risk resulting from the company being identified.

Figure 97.4

Source: https://twitter.com/Libya_OSINT/status/1398654492980166658, 29 May 2021

36. The agreed contract price for the provision of ‘Team B’ was \$375,000, which Space Cargo Inc requested to be invoiced to BU Shames FZE.²⁶⁷ The Panel has identified that a Mr. Abdullah Mohamed Alismail²⁶⁸ is listed as the owner of BU Shames FZE.²⁶⁹ In figure 97.2 there is a copy email address for abdullah.ismail@spacecargoinc.com, and the Panel has confirmed that Abdullah Mohamed Alismail also uses abdullahgm@bushamesfze.com. The Panel has identified that Aleksandra Isamova,²⁷⁰ Auditor of Space Cargo Inc, is also listed as working in the finance department of BU Shames FZE. Although the Panel has yet to confirm the exact family relationship between Maher Nayef Alismail, the General Manager of Space Cargo Inc, and Abdullah Mohamed Alismail, the owner of BU Shames FZE, the Panel considers that the two companies are in effect operated as a single business entity.

37. During the maintenance periods for both Space Cargo Inc ‘Team A’ and ‘Team B’, their local HAF air force counterparts requested information as to the types of weapons that could be mounted to the aircraft, and what sort of weapons mounts were required.²⁷¹ The Panel also identified from confidential imagery that the three Gazelle helicopters delivered in July 2019 as part of Project Opus had been repainted in military sand colour with Libyan armed forces markings (see figure 97.5).

²⁶⁷ Registered as company #11617945 on 3 March 2020. 600 M2 Warehouse A4-08, Sharjah, UAE. The invoice was paid from account number IBAN AE080260001015771385401, Emirates NBD Bank, Deira Branch, Dubai, UAE.

Figure 97.5
Project Opus Gazelle helicopters in military livery (2021)

Source: Confidential

38. The Panel has identified that one or more of the Super Puma aircraft has rotor gearbox faults necessitating the delivery of spare parts. These are only legitimately available from Airbus Helicopters²⁷² or companies that have passed the Airbus Helicopters' due diligence and compliance processes. Airbus Helicopters informed the Panel²⁷³ that the three helicopters were removed from the Airbus Helicopters database on 10 March 2020 after a self-declaration from the previous legitimate owner Starlite Aviation²⁷⁴ on 28 August 2019. This was over nine months after Starlite sold the helicopters to L6-FZE of Project Opus. It is thus highly unlikely that Space Cargo Inc or HAF will ever be able to legitimately access the spare parts necessary to maintain any airworthiness for these aircraft. Sources have informed the Panel that illegitimate sources for such parts are rare.

39. The timeline of events regarding this support by Space Cargo Inc is summarised at table 97.6.

²⁷² <https://www.airbus.com/helicopters.html>. Accessed 6 August 2021.

| 10 Feb 2021 | General Haftar's representative visited Benina Hanger and observed ground tests on all three Super Puma. Looking to recruit pilots from RSA as no Libyan pilots qualified. RSA company to recruit and pilots for Space Cargo Inc. | ▪ Confidential source. |
| 17 Feb 2021 | Repair 'Team A' departs Benghazi for Johannesburg | ▪ Route HLLB > Alexandria (HEBA) > Dubai (OMDB) > Addis Adaba (HAAB) > Johannesburg (FAOR) |
| 26 Apr 2021 | Private jet flight from Benghazi (HLLB) via Entebbe (HUEN) to Johannesburg (FAOR) to collect Repair 'Team B'. | ▪ Dassault Aviation Falcon 900EX registered 9A-XXX. |
| 27 Apr 2021 | Repair 'Team B' fly on private jet flight from Johannesburg (FAOR) via Entebbe (HUEN) to Benghazi (HLLB) | ▪ 'Team B' accommodation located 14.5km from airport at 31°59'36.75"N, 20°9'45.23"E. |
| 29 May 2021 | Two Super Puma helicopters fly in the HAF 7th Anniversary of Operation DIGNITY parade. ²⁷⁶ | ▪ |
| 20 Jul 2021 | Repair "Team B" returns to South Africa. | ▪ |

40. The Panel offered Space Cargo an opportunity to reply on 23 December 2021. Space Cargo Inc responded on 22 January 2022 and requested a three-week delay for them to respond so that they could consolidate the necessary documentation. The Panel agreed, but no response was received by the agreed 12 February 2022 deadline.

41. On 7 January 2022 the Panel wrote to Holman Fenwick Willan MEA LLP (HFW), the legal representative of the last known owners of the aircraft to request an update on the aircraft ownership, or any sales or transfers that may have taken place. HFW have yet to respond to the Panel's request.

42. The provision of maintenance technicians for these particular aircraft that were supplied for military use and are operated now by HAF falls under the auspices of "other assistance relating to military activities". This is a further violation of paragraph 9 of resolution [1970 \(2011\)](#) by Space Cargo Inc and Maher Nayef ALISMAIL.

C. Space Cargo Inc violations of other arms embargoes

43. The Panel notes that in paragraph 75 of [S/2021/569](#) the Panel of Experts on the Central African Republic also named Space Cargo Inc as the owner of two IL-76TD cargo aircraft (MSN# 33446325 and 1013405167) operated by Jenis Air LLC, Kazakhstan, who used the aircraft on 19 December 2020 for the transfer of military materiel into the Central African Republic.

²⁷⁶ <https://www.youtube.com/watch?v=mbIDXxITPa0>, 31 May 2021. (@35 min 05 sec).

D. Space Cargo Inc business licences

44. The United Arab Emirates informed the Panel on 24 March 2022 that the company's business licence (#20155) was not renewed after expiry on 26 October 2021. The United Arab Emirates provided no information on the company's other business licences (#00607) and (#14987).

Re: FURTHER ENQUIRY

To:  Cc:  & 1 more [Details](#)

Dear 

Thank again  and i am just so surprised why this company lie to your UN panel of expert so much. i work in South Sudan and my business is here only. I explained that i don't have any business relation with this company and yet still claiming that i bought again AN 12. This is also a lie. i don't know them and i never bought AN 12 from any company or them. I just don't really know why they keep on using our company name yet we don't even know them.

Our base is Juba, South Sudan and i don't have any business connection or interest in Jordan or Libya. i work here locally and my country have enough problems and i don't have any access to other region.

Looking at the Price of AN 12 they claim i bought the plane, you will even know that it is not true. WHO can buy that plane with that amount of money?????

How can a purchase of plane be done with clearing account???

How did they get that money from our company?

please follow them and let them tell you the truce.

This is a fake company SPACE CARGO INC.

OUR COMPANY NEVER BOUGHT . Antonov AN-12 (#2340806)

That company is scammer and criminal and deserve to be taken to court and pay for defamation. How i wish i know where they are located. I trust you will do your investigation and find our the real truth. I never travelled to Jordan all my life.

The address of our company that is mentioned in their claimed, we left that place since 2015. How can that be true????

if there are international lawyers who can suit this company on our behave, please help.

Best Regards.

Figure 97.A.9

Extract from Space Cargo Inc OTR inaccurate response (20 January 2022)

| | |
|---|---|
| <p>1. Regarding the aircraft (Antonov AN-12A) with the serial number (5342908), and <u>since among the activities of our company is the activity of importing and exporting aircraft and their spare parts under License No. (0067) issued in 1999 by the Sharjah Airport International Free Zone Authority:</u></p> <p>a. On (December 28, 2020), our company requested (reservation in return for purchase) as an intermediary/ broker in dealing with the purchase of the aircraft described in our response above from the seller (Roland Aviation FZE) with the intention of reselling it to others.</p> <p>b. The selling company (Roland Aviation FZE) issued an invoice in the name of our company, and the amount (the down payment) was settled with the intention of completing the mediation and completing the sale.</p> <p>c. Immediately and on the same date on (28/12/2020) and before making any change in the registration or any flight or operation of the aircraft, the selling company executed the sales contract directly with the buyer (other than our company).</p> | <p>3. Our company is not concerned with the name of the air operator / company that currently operates the aircraft described in our response and is not concerned with its technical condition or the scope of its operations and operation, nor is it aware of any of the foregoing.</p> |
| <p>2. Our company has not entered with the selling company (Roland Aviation FZE) into any sale and purchase contract and has not concluded any lease contract, because the oral agreement is that the amount paid by our company as a deposit is a refundable / redeemable advance to prove the seriousness of the deal and to book the aircraft, provided that the transaction is direct sale and purchase contract between Seller and Buyer.</p> | <p>4. Our company is not concerned with the civil registration number of the aircraft described in our answer, nor its registration certificate, nor is it aware of any of the foregoing.</p> |
| | <p>5. Our company is not concerned with the airworthiness certificate of the aircraft described in our answer, nor is it aware of any of the foregoing</p> |
| | <p>6. Our company is not concerned with operating the aircraft described in our answer, nor is it aware of any of the foregoing</p> |
| | <p>7. Our company is not concerned with any means of payment regarding the implementation of the operation of the aircraft described in our answer and is not aware of any of the foregoing.</p> |
| | <p>8. To the best of our knowledge, the selling company has executed the sale contract for the aircraft described in our answer directly with the buyer ((Fagle Enterprise Company Limited), Address: Eastern Pearl, Juba, South Sudan, Tel: 00211955921703 and our company has not obtained any copy of any contract between the two parties (the seller and the buyer) in the same matter</p> |

OFFICIAL UN TRANSLATION 2107704E

Translated from Arabic

Date: 10 April 2021

Falcon Jet

Sirs,

Greetings

The Shamil Travel Services Company would like to inquire as to the possibility of arranging a private aeroplane flight from Johannesburg, South Africa, to Benghazi, Libya, for five people, with the following itinerary:

| <i>Date of flight</i> | <i>Route</i> | <i>Number of passengers</i> |
|-----------------------|--------------------------------------|-----------------------------|
| 27 April 2021 | Johannesburg (JNB) Benghazi (BEN) | 5 |

Take-off time from Johannesburg should be 1000 hours South African time

We ask you to kindly respond about the possibility of providing such a flight and let us know the cost in Libyan dinars and the preferred method of payment. Thank you.

Please find attached a list of the passengers' names and a copy of the passport photos.

Accept, Sir, the assurances of my highest consideration.

Developed by UN Panel of Experts.

The figure consists of a large aerial satellite image of a compound in Benghazi, Libya. A yellow label with a pointer identifies a specific area within the compound as 'Team B Accommodation'. Three red arrows originate from this label and point to three inset photographs at the bottom of the figure. The first inset shows a night-time view of a building with illuminated windows and a pool area. The second inset shows a night-time view of an artificial green field with a goalpost. The third inset shows a night-time view of a road or path within the compound. The entire figure is enclosed in a black border.

Annex 98 Syrian Arab Airlines (SYR) operating in Libya

1. The Panel has identified that the Syrian Arab Airlines²⁷⁹ operated IL-76T cargo aircraft displaying Syrian registration YK-ATA (MSN²⁸⁰ 93421613) made an initial flight from Damascus to Benghazi or Tobruk on 20 August 2021. The aircraft was identified as making five flights from Benghazi to Tobruk in December 2022 and six flights in February 2022.
2. The activities and profile of this aircraft meet five of the Panel's air delivery profile indicators that when considered collectively indicate that an aircraft is carrying illicit cargo: (a) lack of an obvious schedule; (b) the random nature of the flights; (c) the indirect route; (d) AIS is often switched off; (d) air operator transparency is opaque; and (e) the aircraft flew a similar track to that used for the "Libya Airbridge" reported in UN document [S/2021/229](#) (paragraphs 81 to 83 and annexes 39 and 55).
3. The Panel requested further information from the airline in letters dated 24 September 2021 and 14 March 2022. No response has yet been received.
4. The Panel will continue to monitor the activities of Syrian Arab Airlines (SYR).

²⁸⁰ Manufacturer's serial number.

Annex 99 Update on Project Opus

Aircraft

1. The Panel has identified further information on the design, deployment routing and current whereabouts of the LASA T-Bird (YU-TSH) light attack aircraft reported in [S/2021/229](#).²⁸¹
2. The aircraft²⁸² deployed from GAS Aviation in Rudine, Serbia on 18 June 2019 and flew to Wiener Neustadt airport, Austria (LOAN). Wiener Neustadt airport is the base of Airborne Technologies,²⁸³ the company that designed and modified the aircraft.²⁸⁴ It remained there for six days before deploying to Amman, Jordan (OJAM) on 24 June 2019 making technical stops at Sofia, Bulgaria (LBSF) and Heraklion, Greece (LGIR). The pilot was Shawn Matthews, the Head of Airborne Technologies Flight Test department.²⁸⁵
3. The Panel can now confirm that the aircraft left Amman, Jordan on 18 July 2019 for Larnaca, Cyprus (LCLK) and not on 22 July 2019 as initially reported. On 30 July 2019 the aircraft was moved to Paphos, Cyprus (LCPH) where it is now in storage with EDT Hangar Services Limited (see figures 99.1 and 99.2).²⁸⁶ The pilot was Matthew Coughlin, one of the PMC operatives that evacuated from Libya to Malta on the rigid hulled inflatable boat (RHIB) ‘Manta-1’ on 29 June 2019.²⁸⁷ An updated infographic for the aircraft is at appendix A.²⁸⁸

Figure 99.1
LASA T-Bird condition in Serbia on 16 June 2019

Figure 99.2
LASA T-Bird at Larnaca (19 July 2019)

Sources: See figure 99.3

4. The Panel noted that at some time between leaving Serbia on 18 June 2019 and arriving at Larnaca on 19 July 2019 the overall body colour of the aircraft had changed from white to a ‘military grey’. The position and font of the registration

²⁸¹ See paras. 39 to 41 and annex 76 of [S/2021/229](#).

²⁸² Using Mode-S Hex Code 4C4E47.

²⁸³ <https://www.airbornetechnologies.at>.

²⁸⁴ At that time (2013 to 2017) Erik PRINCE was an indirect partner in the Company, controlling 25%. <https://www.profil.at/wirtschaft/neue-ermittlungen-gegen-firma-airborne-technologies-aus-noe/401724246>, 4 September 2021; and <https://theintercept.com/2016/04/11/blackwater-founder-erik-prince-drive-to-build-private-air-force/>, 11 April 2016. See later for example of disguised ownership.

²⁸⁷ See appendix R to annex 76 of [S/2021/229](#).

²⁸⁸ This no longer includes the transfer to Aircraft and More GmbH, as the company was purely used as a sales agent. Information from Cerha Hempel Rechtsanwälte GmbH dated 16 November 2021.

markings had also changed (see figure 99.3). The Panel notes that ‘Global Geo Survey’ markings were applied to the aircraft in Paphos. The company does not exist, and the company name was last seen on the sister aircraft H80-156DC on 12 November 2014 in Malta. This sister aircraft was last seen in Nakasongola air force base in Uganda in May 2019.

Figure 99.3

Comparison of overall body colour and registration markings

5. The aircraft no longer holds a valid certificate of airworthiness, which expired on 4 June 2020,²⁸⁹ and the Serbian authorities revoked the aircraft registration certificate on 8 October 2021. At this time, the aircraft can no longer legally fly until re-registered with a Member State and a certificate of airworthiness issued.

6. The aircraft were inspected by the Cypriot authorities, in the presence of a Member State law enforcement agency on 11 October 2021. The Panel is awaiting the official release of this report to the Panel.

Disguised company ownership

7. In [S/2021/229](#) the Panel made a statement regarding the assistance provided by Erik Prince for the rapid transfer of aviation assets from companies that he controlled. What the Panel did not report at that time, due to it being single source, was an interview with Gregg Smith who, as the Chief Executive Officer of Frontier Services Group (FSG) from 2014 to 1

²⁸⁹ Data from Serbian CAA civil aircraft registry. <http://cad.gov.rs/en/strana/20841/aircraft-registry#app>.

May 2016,²⁹⁰ worked closely with Erik Prince, then the Chairman of FSG. Gregg Smith stated to the Panel²⁹¹ that the cover story for Operation Opus would be “oil and gas security” or “oil and gas survey” as that was what Erik Prince had always used. Gregg Smith repeated this publicly in an interview with www.narativ.org on 17 September 2020.²⁹²

8. Gregg Smith also claimed that it was implausible that Erik Prince did not control Lancaster6, the company that launched the operation. Gregg Smith went on to explain that, in his experience, Erik Prince protected himself from litigation by not owning companies, and by controlling them through debt ownership or security pledges he would receive material or financial benefits in other ways. The Panel now has evidence²⁹³ of this technique being used by Erik Prince regarding PBM Limited (Malta #C74485), which was 50% owned by Unified Global Services Group Limited (Malta C66387) a company controlled by James Fenech, coincidentally the supplier of the RHIBs to Operation Opus. On 1 June 2017 Unified Global Services Group Limited pledged 100% of their shareholding in PBM Limited (Malta) to a US registered company Phalanx Holding Company LLC (Delaware# 4901076), which was controlled by Erik Prince, hence making Erik Prince in effect the beneficial owner of PBM Limited (Malta). After the investigation and arrest of James Fenech in late April 2020, and the freezing of Fenech’s assets on 24 April 2020 by the Maltese court, Erik Prince made efforts to divest himself of his interest in PBM Limited (Malta) and sever business links with James Fenech. The Panel believes this to be part of a wider cover up operation. At this point Erik Prince revealed his interest in Phalanx Holding Company LLC by personally signing the termination of pledge documentation, in effect returning control and ownership of the company back to Nicola Bandini and Unified Global Services Group Limited (Malta) on 21 July 2020. This was an uncharacteristic error of Erik Prince whose signature has not previously been identified by the Panel on open-source corporate documentation. Documentary evidence is at appendix B to this annex.

Signature 

Erik Prince
For and on behalf of
Phalanx Holding Company,
LLC

Dated this 21 day of July of the year 2020

This form must be completed in typed form.

4. Further research establishes that Phalanx Holding Company LLR is registered to Erik Prince’s home address in Virginia.

Figure 99.B.4
Identification of the use of Erik Prince’s home address for registration of Phalanx Holding Company LLC (Virginia, USA)

The screenshot displays the OpenCorporates website interface. At the top, the logo 'opencorporates' is visible, along with a search bar and social media icons. The main heading is 'PHALANX HOLDING COMPANY LLC' with a 'BRANCH' tag. The company details are listed as follows:

- Company Number:** T0464935
- Status:** Active
- Incorporation Date:** 9 May 2011 (almost 10 years ago)
- Company Type:** Foreign Limited Liability Company
- Jurisdiction:** Virginia (US)
- Branch:** Branch of PHALANX HOLDING COMPANY, LLC (Delaware (US))
- Registered Address:** 23118 FOXCROFT, MIDDLEBURG, 20118-0000, Virginia, United States (highlighted with a red box)
- Business Classification Text:** GENERAL
- Agent Name:** C T CORPORATION SYSTEM
- Agent Address:** 4701 Cox Rd Ste 285, Glen Allen, Virginia, 23060-6808
- Directors / Officers:** C T CORPORATION SYSTEM, agent

On the right side, there are sections for 'Company network', 'Latest Events', 'Corporate Grouping', and 'Similarly named companies'. The 'Latest Events' section lists several key dates and actions, including incorporation and name changes.

Annex 100 Update on ChVK Wagner and Russian PMC operations and logistics²⁹⁶

General

1. The Panel has obtained further information and records relating to ChVK Wagner operations and logistics additional to that reported in Panel report [S/2021/229](#).²⁹⁷

2. In early 2021 the BBC gained exclusive access to a Samsung electronic tablet left behind on a Libyan battlefield by a ChVK Wagner mercenary.²⁹⁸ Their investigation was published on 10 and 11 August 2021.²⁹⁹ The Panel has spoken to the BBC investigative team regarding the circumstances of the find and is assured of the chain of custody and continuity of evidence for the electronic tablet. Furthermore, although a single technical source, the electronic device contains tangible documentary and imagery evidence that makes it highly likely that the contents are authentic. Some of the information contained in the tablet has been corroborated by other sources (see below). Two confidential Panel sources with extensive knowledge of the ChVK Wagner organization, independent from the BBC, also considered the find of the electronic tablet and its contents as authentic.

3. The Samsung electronic tablet contained:

- (a) Over 42 military diagrammatic images for Russian designed fuzes, mines and booby-traps (see examples at appendix A);
- (b) Over twenty pages of Russian military low level tactical information on, for example, range finding through weapons sights, published by the Senior Service College of the Far East Department of Weapons and Marksmanship (author S.P. Proshchenkov) (see examples appendix B);³⁰⁰ and
- (c) A mapping application software “All in One Offline Maps Plus”,³⁰¹ which had at least 35 locations of mines and booby traps displayed, as well as code names of fighters and fighting positions in the Ain Zara area of South Tripoli.

²⁹⁶ There were a number of Russian PMC operating in Libya between 2019 and 2020. The Panel will only attribute an incident or activity to a named Russian PMC where evidential standards for attribution have been met. Otherwise, the term “Russian PMC” will be used.

²⁹⁷ Primarily in p.32 and annex 77.

²⁹⁸ The term “private military operative” was previously used in Panel reporting as evidential standards of ‘direct participation in hostilities’ by specifically ChVK Wagner personnel had not been met to allow the Panel to use the term ‘mercenary’ when referring to ChVK Wagner personnel. The term ‘mercenary’ when used in this document refers to ‘armed mercenary personnel’ as referenced in paragraph 9 of resolution [1970 \(2011\)](#). The information contained in this update provides evidence of ‘direct participation in hostilities’ by ChVK Wagner individuals thus allowing the Panel to make a definitive finding as to the “armed mercenary personnel” status of the individuals identified in Libya as operating for ChVK Wagner.

²⁹⁹ <https://www.bbc.co.uk/news/world-africa-58009514>; and <https://www.bbc.co.uk/news/extra/8iaz6xit26/the-lost-tablet-and-the-secret-documents>.

³⁰⁰ Official UN translation 2108754E.

³⁰¹ https://play.google.com/store/apps/details?id=net.psyberia.offlinemaps&hl=en_GB&gl=US.

Imagery of anti-personnel mines

4. The imagery included schematic diagrams of the Russian designed MON-50, POM-2 and PMN-2 anti-personnel mines (APM). The POM-2 and PMN-2 APM were reported as being first seen in Libya in Panel report [S/2021/229](#),³⁰² and were found to be violations of paragraph 9 of resolution [1970 \(2011\)](#) by a Russian PMC. Also see paragraphs 7 to 9 below for other equipment, weapons and ammunition requested in the logistic resupply documentation found on the electronic tablet, that were first seen in Libya during 2020.

Mapping application - location of anti-personnel mines

5. The locations of thirty-five APM were indicated within the mapping application as shown in table 100.1 and in figure 100.1. The Panel has geo-referenced the locations shown to confirm the accuracy of the mapping application software. The Panel also confirmed that the area within which the mined locations are indicated on the mapping software was under the control of HAF, including his ChVK Wagner support, from the end of February 2020 until the HAF withdrawal in late May 2020. It was their frontline at that time, which explains the deployment of defensive command initiated anti-personnel mines such as the MON-50, 90 and 200 series. The Panel has further confirmed³⁰³ that explosive hazards were removed from these specific locations by a combination of Libyan Ministry of Interior, military and NGO explosive ordnance disposal (EOD) teams as part of ongoing battlefield area clearance (BAC) operations in mid 2020. Examples of screenshots from the electronic tablet are at appendix C.

Table 100.1

^a **Source:** Accident report by an operational demining organization in Libya.

6. The locations at table 100.1 also includes some information as to the type of mine deployed. These include MON-50, MON-90, MON-200 and OZM-72, none of which have been reported as being in Libya before. The transfer of these mines to Libya is therefore a violation of paragraph 9 of resolution [1970 \(2011\)](#). Imagery of three of these mine types recovered by GNU-AF and Libyan NGO EOD teams in the Tripoli area is at appendix D.

Figure 100.1
Indicated locations of APM from mapping software

5. The Panel also received information³⁰⁴ regarding the recovery during Summer 2020 of booby-trapped TM-62M anti-tank mines from positions previously occupied by, primarily, ChVK Wagner operatives in Southern Tripoli (see figure 100.2).³⁰⁵

Figure 100.2

TM-62M mine with booby trap

IHL and indiscriminate use of explosive ordnance

6. When employing explosive weapons in their military operations, Russian PMC operatives were obliged under IHL to respect the prohibition of indiscriminate attacks and to take all feasible precautionary measures to protect civilians from the indiscriminate effects of those weapons.³⁰⁶ These measures should include: (a) the visible marking of mines and other explosive devices; (b) issuing effective warnings on the emplacement of these devices to the local civilian population; and (c) removing or facilitating their removal upon the end of active hostilities.

7. The Panel found that ChVK Wagner operatives did not take the required precautions when they laid the thirty-five APMs (table 100.1 above) in urban locations of the Ain Zara municipality that were likely to be used by civilians after their withdrawal. This failure to avoid, or at least to minimize, incidental effects of the deployed ordnance on the civilian population and civilian objects rendered their method of warfare unlawful under IHL.³⁰⁷

8. In at least one case on 5 July 2020, shortly after the withdrawal of the ChVK Wagner operatives from their positions in Ain Zara, a booby-trapped mine (serial 21 in table 100.1 above) unexpectedly detonated during an EOD clearance operation. This resulted in the indiscriminate death of two civilian EOD operators.³⁰⁸ The device was unmarked and attached to a harmless object inside a civilian house (see appendix F). The two victims, who did not take a direct part in the hostilities, were staff members of a mine action non-governmental organisation deployed to remove mines, booby-traps and other explosive devices from the populated area of Ain Zara.

³⁰⁴ Confidential source in the mine action community (19 January 2022).

³⁰⁵ The use of ML-8 anti lift initiators was reported in S/2019/229.

³⁰⁶ Customary International Humanitarian Law [CIHL] rules 1, 11-12, and 15.

³⁰⁷ CIHL rules 80-83. *See also* CIHL rule 15.

³⁰⁸ Confidential sources within mine action organizations operational in Libya. The Panel has copies of the death certificates.

9. The Panel further found that Russian PMC operatives did not take the required precautions when they laid the TM-62M booby trapped anti-tank mines (figure 100.2 above) in an urban location along the civilian road in Southern Tripoli, which was expected to be used by civilians after the withdrawal of the PMC operatives.³⁰⁹ This failure to avoid, or at least to minimize, incidental effects of the deployed ordnance on the civilian population and civilian objects rendered their method of warfare unlawful under IHL.³¹⁰

10. The method in which ChVK Wagner operatives emplaced the thirty-five APMs and the Russian PMC operatives the TM-62M booby trapped anti-tank mines, without any feasible precautionary measures, also heavily undermined the safe return of the displaced civilians to their homes as well as the protection of those civilian organizations mandated to carry out mine clearance as a specific measure to facilitate the right of the displaced civilians to voluntary return in safety to their homes or places of habitual residence as soon as the reasons for their displacement ceased to exist.³¹¹

Mapping application - tactical information

11. The mapping application software data also contained tactical information such as names and unit identifiers. These are at table 100.2 for reference.

Table 100.2

Tactical information

| # | Data | Panel analysis | Remarks |
|----|----------------|-----------------------------|---|
| 1 | Red Dot | ChVK Wagner location | |
| 2 | Blue Dot | Enemy / GNU-AF | |

³⁰⁹ Civilian casualties due to UXO were reported in this area during the summer of 2020. Confidential source in the mine action community (19 January 2022).

³¹⁰ CIHL rules 80-83.

³¹¹ CIHL rule 132.

^a ‘Protective fire’ refers to a tactical fire plan for a military unit, pre-set up to protect itself against overwhelming attack. It involves the pre-laying and concentration of all support weapons fire (heavy machine gun, artillery, mortar and air support) directly in front of the unit to impede enemy movement.

^b As the “final” in the name implies, this is the last resort in defensive plans, involving weapons fire directed dangerously close to friendly defensive positions that are at risk of being overrun by the enemy. An FPF request has absolute priority over any other kind of fire support request.

^c 1) Makarov (DOB 6 Jan 1994); 2) Ivanovich Apes (Wagner # M2206); and 3) Alexander Alexanderovich (Wagner # M-0176).

^d <https://myrotvorets.center/criminal/metelkin-fedor-andreevich/>.

Logistic resupply documentation

12. The electronic tablet also stored a ten-page document dated 19 January 2020, which included a list of the weapons and equipment required for various sub-units within ChVK Wagner in Libya. The document is at appendix E together with an official UN translation.³¹² Within this document are code names or nick names of senior ChVK Wagner staff who are mentioned within, or contributed to, the document. These are at table 100.3. A summary of the equipment requested is at appendix G.

Table 100.3

Identification of report name mentions and contributors

| Page # | Codename | Panel identification | Remarks |
|--------|------------------|-----------------------------------|---|
| 1 | Director General | Highly probably Yevgeny PRIGOZHIN | |
| 1 | Lipetsk | Libya | |
| 1 | Zurab | | <ul style="list-style-type: none"> ▪ Senior Signals Officer. ▪ New in position as Head of Communications. |
| 1 | The Nineth | Dimitry UTKIN | <ul style="list-style-type: none"> ▪ Utkin is known as “the nineth”. This is based on his Wagner number M-0209. The Panel assesses that the hand written word “DA” in Cyrillic appears in the document next to the typed “nineth”, meaning “Yes” has been written as a personal approval for the transfer.³¹³ |
| 2 | Bonya | | <ul style="list-style-type: none"> ▪ Senior Intelligence Officer. ▪ Probably a former district police officer from the Asiatic regions. ▪ Been with Wagner since 2014 but still unidentified. |
| 5 | Chukcha | Kirill Vladimirovich TIKHONOVIC | <ul style="list-style-type: none"> ▪ M-0379 ▪ Commander, Assault Team 6. ▪ DoB 16 March 1984 |

³¹² 2107434E.

³¹³ This assessment is agreed by two confidential sources with extensive knowledge of the ChVK Wagner Organization. The Panel has seen other documents authenticated as genuine ChVK Wagner documents where both the Cyrillic initials “DU” and “DA” appear in the same handwriting as approval signatures.

| Page # | Codename | Panel identification | Remarks |
|--------|--------------------|---|--|
| 7 | '1374' | | <ul style="list-style-type: none"> Commander, Assault Team 1. M-1374 personal number is assigned to Leonardovich Vasilij PIVNEV. |
| 9 | Lotus | Possibly Alexander Antolievich TISHCHENKO | <ul style="list-style-type: none"> Commander, Assault Team 7. |
| 12 | Cap ³¹⁴ | Probably Alexey Vasilievich KLOKOV | <ul style="list-style-type: none"> Commander, Assault Team 2. DoB 14 October 1973 |

13. The Panel notes that the equipment list contains equipment, weapons and ammunition not previously seen in Libya before 2020, and reported for the first time in Panel report [S/2021/229](#): (a) MIC VPL *Tigr*-M armoured vehicles;³¹⁵ (b) KBP RPO-A *Schmel* Thermobaric Munitions;³¹⁶ (c) VOG-17M 30mm Grenades; and (d) VOG-25 40mm Grenades.³¹⁷ These were all found by the Panel to be violations of paragraph 9 of resolution [1970 \(2011\)](#) by a Russian PMC.

14. Other weapons on the equipment list have been identified by the Panel as being newly present in Libya during 2021, and are reported on elsewhere in the report: (a) AK-103 Assault Rifles manufactured in 2020 (annex 52); and (b) *Steyr* SSG 08 anti-materiel rifle (annex 65).

15. The Panel noted that some military materiel requested in the equipment list are technologically advanced systems that have only very recently been made available for operational use. The systems include: (a) the *Ironiya* electro-optical system (serial 17 to table 100.E.1), which was first seen publicly in April 2019;³¹⁸ (b) the 1L277 *Sobolyatnik* battlefield surveillance radar (see serial 11 to table 100.E.1), which have only been seen operationally deployed since 2018.³¹⁹

16. The Panel is currently investigating how much of the requested equipment was physically supplied, if any, to ChVK Wagner in Libya.

Media response to BBC coverage in Russia

17. Media outlets closely linked to, or controlled by, Yevgeny Prigozhin³²⁰ have heavily criticised the initial BBC report.³²¹ RIAFAN (a.k.a the Federal News Agency)³²² stated the BBC report was “...an assortment of inventions, rumours, falsified materials and fakes which have been disproved many times”.

³¹⁴ Another Wagner mercenary with this nickname, Alexander Viktorovich UMANSKY (M-1181), was previously killed in operations elsewhere.

³¹⁵ Annex 63.

³¹⁶ Annex 60.

³¹⁷ Annex 77. VOG-17 and VOG-25.

³²⁰ Mentioned as connected with ChVK Wagner in Panel report [S/2021/229](#) (annex 77 and appendix A to annex 77).

³²¹ <https://monitoring.bbc.co.uk/country/LBY?preview=true>. Subscription.

³²² <https://riafan.ru/1502678-professionalizm-lzhi-vasserman-obyasnil-cel-filma-vvs-o-rossiyanakh-v-livii>. This is also commonly referred to as the “Troll Factory”.

18. The RIAFAN response was reprised in other media outlets³²³ within the Prigozhin controlled Patriot Media group.³²⁴ RIAFAN questioned the chain of custody of the electronic tablet and the continuity of the evidence contained within it.

19. Key to the RIAFAN response was that some of the locations within the mapping application were under the control of the GNU-AF and “Tripoli gangs” in 2019. This is true, but irrelevant as they later came under control of HAF and ChVK Wagner (see paragraph 4).

20. RIAFAN also reported that they had interviewed an individual mentioned in the report, Fedor METELKIN (“Metla”), who denied being in Libya and that he worked on a construction site.

Communications liaison between ChVK Wagner and HAF

21. The Panel obtained a copy of a separate handwritten document³²⁵ that contained receipts from HAF officers for the delivery of BauFeng UV-5R series hand-held radios.³²⁶ Two independent confidential Panel sources with extensive knowledge of the ChVK Wagner organization considered the document as credible and authentic. The Panel has also confirmed that the names of the HAF officials accurately reflect the command appointments reflected in the document. A copy of the original documentation and official UN translation is at appendix H, and summarised in table 100.4 below:

Table 100.4

22. The Panel assesses that the radios were supplied to ensure deconfliction between the armed groups during low-level tactical operations within a 5km area. The radios are readily available consumer items, insecure and obsolescent. Nevertheless, they are cheap, simple to operate, can be pre-programmed to operate on specific frequencies and are expendable.

Verified open-source information

23. A social media page for the mercenary community,³²⁷ known as Reverse Side of the Medal (RSOTM), has recently begun to display imagery of ChVK Wagner in Libya that was verified by geo-location or from other sources.³²⁸

³²⁷ <https://twitter.com/RSOTM>.

³²⁸ For example:

<https://twitter.com/RSOTM/status/1403061848665112588>, 10 June 2021 (@0.31 minutes) (geo-located ;
<https://twitter.com/RSOTM/status/1420379513712746499>, 28 July 2021;
<https://twitter.com/RSOTM/status/1431663037866446851>, 28 August 2021 (by geo-location); and
<https://twitter.com/RSOTM/status/1431657243603259401>, 28 August 2021 (by geo-location).

24. Other social media video imagery³²⁹ contains evidence of ChVK Wagner in Libya. This video, geo-located by the Panel, shows a mixed ChVK Wagner and HAF 106 brigade convoy entering Bani Walid in late May 2020. The image at figure 100.2 provides evidence of ChVK Wagner / HAF interoperability as the vehicle is painted in the distinctive “Africa” camouflage used exclusively by HAF 106 brigade.

Figure 100.2

HAF 106 brigade ‘Africa’ camouflage

Appendix A to Annex 100: Low level tactical publications (example)

6. Определение дальности с помощью сетки прицела ППЗ-2

Пример 16. Длина БЗО (№17а) равна 1,5 деления прицела ППЗ-2 (рис. 11).

Решение:
 Длина БЗО – В = 2,5 м
 Цена деления – Y = 0,02
 Определяем дальность:

$$D = \frac{B}{Y} \times 1000 = \frac{2,5}{1,5 \times 2} \times 1000 = 800 \text{ м}$$

Пример 17. Высота БТР (№13) равна половине малого штриха (рис. 11).

Решение:
 Высота БТР – В = 1,8 м
 Высота штриха – Y = 0,04
 Определяем дальность:

$$D = \frac{B}{Y} \times 1000 = \frac{1,5}{0,5 \times 4} \times 1000 = 900 \text{ м}$$

Пример 18. Стрелок высотой 1,5 м виден под углом 0,06 (рис. 11).
 Дальность до цели:

$$D = \frac{B}{Y} \times 1000 = \frac{1,5}{6} \times 1000 = 250 \text{ м}$$

Дальневосточное ВВКУ. Кафедра В и С. Прошков С.П. 13

6. Determining the range using the 1PZ-2 reticle

Figure 11. Field of view of a 1PZ-2

Exercise 16. The length of the BZO warhead (No. 17a) is equal to 1.5 divisions of the 1PZ-2 reticle (Figure 11).

Solution:

L = Length of the warhead = 2.5 m

Y = Division value = 0.02

The range is calculated as follows:

$$R = \frac{L}{Y} \times 1,000 = \frac{2,5}{1,5 \times 2} \times 1,000 = 800 \text{ m}$$

Exercise 17. The height of the armoured personnel carrier (No. 13) is equal to half of one small reticle line (Figure 11).

Solution:

H = Height of the armoured personnel carrier = 1.8 m

Y = Height of the reticle line = 0.04

The range is calculated as follows:

$$R = \frac{H}{Y} \times 1,000 = \frac{1,5}{0,5 \times 4} \times 1,000 = 900 \text{ m}$$

Exercise 18. A shooter 1.5 m tall is visible at 0.06 mrad (Figure 11).

The range to target is calculated as follows:

$$R = \frac{H}{Y} \times 1,000 = \frac{1,5}{6} \times 1,000 = 250 \text{ m}$$

Appendix B to Annex 100: Diagrams of fuzes, mines and booby traps (example)

ВЗРЫВНЫЕ УСТРОЙСТВА

ВЗРЫВАЧНЫЕ ВЕЩЕСТВА

Взрывчатые вещества (ВВ) являются взрывоопасными веществами, способными под воздействием внешнего воздействия взорваться с образованием взрывчатого облака и распространением ударной волны и осколочного облака.

| Вид ВВ | Средняя плотность, г/см³ | Средняя скорость детонации, м/с | Предел прочности при растяжении, кг/см² |
|---------|--------------------------|---------------------------------|---|
| Трипол | 1,68 | 4000 | 10000 |
| Тетрил | 1,76 | 4000 | 10000 |
| ТНТ | 1,77 | 3000 | 10000 |
| Вискоза | 1,80 | 3000 | 10000 |
| Пелит | 1,42 | 4000 | 10000 |
| Аммонит | 1,5-1,8 | 2000-3300 | 10000 |
| Аммонит | 1,5-1,1 | 2000-3300 | 10000 |

МЕТАЛЛЫ ВО ЛПОРНИ

| Легированный металл | Предел прочности при растяжении, кг/см² |
|-----------------------|---|
| Легированный стальной | 3000-4500 |
| Вискоза | 4000-5000 |
| Карбиды | 4000-5000 |
| Дюралюмин | 1800-2300 |
| Резина | 3000 |

СХЕМЫ ВЗРЫВНЫХ УСТРОЙСТВ

Классическое устройство ВЗУ состоит из взрывчатого вещества (ВВ), детонатора (Д), запала (З), корпуса (К), предохранительного устройства (ПУ), корпуса (К), предохранительного устройства (ПУ).

Принцип действия: ВЗУ состоит из взрывчатого вещества (ВВ), детонатора (Д), запала (З), корпуса (К), предохранительного устройства (ПУ).

ВЗРЫВНЫЕ УСТРОЙСТВА ЗАВОДСКОГО ИЗГОТОВЛЕНИЯ

ВЗУ заводского изготовления подразделяются на: ручные, автоматические, дистанционные, самодельные.

САМОДЕЛЬНЫЕ ВЗРЫВНЫЕ УСТРОЙСТВА

Самодельные ВЗУ изготавливаются из подручных материалов и являются наиболее опасными.

ВЗРЫВАТЕЛИ

Способны преобразовывать и детонировать взрывчатые вещества в детонацию. Используются для подрыва объектов, находящихся на значительном расстоянии от подрывателя.

ТЕХНИЧЕСКИЕ СРЕДСТВА ПОИСКА ВЗУ

Используются для обнаружения взрывчатых веществ и ВЗУ. К ним относятся: металлоискатели, детекторы, приборы для обнаружения взрывчатых веществ.

МЕРЫ БЕЗОПАСНОСТИ ПРИ ОБНАРУЖЕНИИ ВЗУ

- Немедленно сообщить о находке ВЗУ в органы власти.
- Не прикасаться к ВЗУ и не пытаться его разобрать.
- Не использовать ВЗУ в качестве оружия.
- Не курить и не пользоваться открытым огнем.
- Не использовать ВЗУ в качестве оружия.
- Не прикасаться к ВЗУ и не пытаться его разобрать.
- Не использовать ВЗУ в качестве оружия.
- Не прикасаться к ВЗУ и не пытаться его разобрать.
- Не использовать ВЗУ в качестве оружия.

Attn: Director General

Requisition note

I hereby request the purchase of the following communication equipment to ensure the success of the Lipetsk [LIBYA] combat mission:

1. Motorola DM4600 radio to be installed in vehicles and armoured vehicles, 70 units.
2. AW-6 UHF antenna, 70 units.
3. Set of cables, 70 sets (a power cable to connect the radio to the battery, a set of cables and mount for connecting the radio to the antenna and a BU-312 antenna adapter).
4. Motorola DP4400 wearable radio (in a set with two batteries and charging device), 190 sets (replacements for the old Motorola DP1400, Vertex, radios).
5. A backpack for carrying a Motorola DM4600 radio with two lithium polymer batteries, with a pocket for the radio and another for the battery, charging device, antenna assembly with mount for connecting the radio to an eight-meter antenna, and a cable assembly for the AW-6 UHF antenna, 20 sets.
6. DJI Mavic 2 Pro quadcopter with night vision camera, 20 sets.
7. Smartphone with a 64 GB SD card for installing the All-in-One Offline Maps application, 30 units.
8. Throat microphone for Motorola DP4400 and DP4600 radios, 500 units.

Командиру бригады

Заявка

Для выполнения боевых задач на направлении «Липецк», СШГ «Трак» требуется следующая техника, вооружение, оптические приборы и средства связи:

I. Бронетехника

1. БТР-82 – 2 ед.
2. БМП-2 – 1 ед.
3. Т-72Б – 1 ед.
4. Пикап LandCruizer 70 с ЗУ-23 – 4 ед.
5. Пикап LandCruizer 70 (бронированный) – 5 ед.

II. Вооружение

1. Комплекс ПЗРК «Верба» 9К333 с РЛС-1Л122 модификация 2Е – 2 ед.
2. 120мм миномет 2Б11 (ШО и ШГ «Легион») – 6 ед.
3. ПТУР «КОРНЕТ» – 3 ед.
4. 7,62мм ПКН – 8 ед.
5. АС «БПЗ0» ВАЛ – 3 ед.
6. 9мм АПС – 40 ед.
7. 9мм ПБ «БП9» – 6 ед.
8. 7,62 мм ПБС – 20 шт.
9. Полуавтоматическое ружьё 12кал. – 16 шт.

III. Боенприпасы

1. ПГ-7 (осколочный) – 50 шт.
2. 7,62x39 УС – 28000 шт.
3. 9x56мм ПАБ-9 – 5000 шт.
4. МРО-А – 100 шт.
5. РПО – 50 шт.
6. Патрон 12 кал.(картечь) – 2000 шт.
7. Патрон 12 кал. (пуля) – 2000 шт.
8. Ракеты для ПТУР «Корнет» – 60 шт.

IV. Оптические приборы

1. ППН93-3 (ПКН) – 10 шт.
2. ППН93-1АС – 6 шт.
3. ЛЦУ с возможностью крепления на планку «Пикатинни» на АК – 10 шт.

V. Средства связи

1. Гарнитура для радиостанции Motorola DP – 60 шт.
2. Квадрокоптер с возможностью ночной съемки и зумом – 4 шт.
3. Активные наушники – 60 шт.

19.01.2020г.

Командир ШО _____ «1374»

Attn: Brigade commander

Requisition note

The following equipment, munitions, optical devices and communications equipment are required to carry out the Lipetsk and [unknown abbreviation:] SShG Trak combat missions:

I. Armoured vehicles

1. BTR-82 armoured personnel carrier, two units.
2. BMP-2 armoured personnel carrier, one unit.
3. T-72B tank, one unit.
4. Land Cruiser Pickup 70 with ZU-23 gun, four units.
5. Land Cruise Pickup 70 (armoured), five units.

II. Munitions

1. 9k333 Verba shoulder-fired air-defence missile system with 1L122-2E radar, two units.
2. 120-mm 2B11 mortar (for Assault Team 1 and the Legion assault group), six units.
3. Komet anti-tank guided missile system, three units.
4. 7.62-mm PKN night-vision Kalashnikov machine gun, eight units.
5. AS Val assault rifle (GRAU designation 6P30), three units.
6. 9-mm Stechkin automatic pistol, 40 units.
7. 9-mm PB silent pistol (Russian armed forces (GRAU) index 6P9), six units.
8. 7.62-mm PBS silencer, 20 units.
9. 12-gauge semi-automatic shotgun, 16 units.

III. Ammunition

1. PG-7 (fragmentation) rocket, 50 units.
2. Subsonic 7.62 x 39 ammunition, 28,000 rounds.
3. 9 x 56 mm PAB-9 ammunition, 5,000 rounds.
4. MRO-A sighting device, 100 units.
5. RPO rocket, 50 units.
6. 12-gauge cartridge (buckshot), 2,000 rounds.
7. 12-gauge cartridge (bullet), 2,000 rounds.
8. Rockets for the Komet anti-tank guided missile system, 60 units.

IV. Optical devices

1. IPN93-3 night sight (for night-vision Kalashnikov machine gun), 10 units.
2. IPN93-1 night sight for assault rifle, six units.
3. Laser designator with Picatinny rail mount for Kalashnikov assault rifle, 10 units.

V. Communications equipment

1. Motorola DP radio headset, 60 units.
2. Quadcopter with night vision and zoom, four units.
3. Noise-cancelling headphones, 60 units.

[Handwritten note:]
Throat microphone, 100 units

C. Commitment

We certify that the items described in section B1 :

- will only be used for the purposes described in section B.3 and that the items are intended for final use in the country named in section A.4.
- that the items will not be used in any nuclear explosive activity or unsafeguarded nuclear fuel cycle activity.
- that the items will not be used for any purpose connected with any chemical or biological or nuclear weapons, or missiles capable of delivering such weapons.
- that the items will only be used for civil end uses. (Tick if applicable)
- as far as technology is concerned, we certify that we treat the technology strictly confidential and neither pass the technology on to other companies nor shall we make knowledge available to third parties. In case of goods produced by the help of transferred technology, these goods will only be delivered to a third person/company in condition that this person/company accepts the commitments of the above declaration as binding for itself and on condition that this third person/company is known to be trustworthy and reliable in the observance or such commitments.
- we further certify that we will not re-export the items to a third country without the consent of the UAE authorities.

Annex 103 HAF tactical ballistic missile test launches

1. Background

1. On 7 March 2022 the 1st missile battalion of the LAAF launched at least three tactical ballistic missiles (TBM) in eastern Libya.³⁴³ HAF claimed that two single missiles and a double missile launch took place, but available open-source imagery can only confirm a single and a double launch.³⁴⁴ This was an unexpected event that surprised much of the international community. Unannounced launches of any form of ballistic missile type may act as deterrence but they are also equally likely to be regarded as threatening, particularly when launched by a non-state actor with the recent history HAF has for initiating armed conflict.³⁴⁵

2. HAF displayed ballistic missiles with a profile virtually identical to the R-17/SCUD-B TBM³⁴⁶ at the 29 May 2021 "7th Anniversary of Operation Dignity" parade in Benina.³⁴⁷ Four transport erector launchers (TEL)³⁴⁸ (figure 103.1) and four missile transport vehicles (figure 103.2) were paraded.³⁴⁹

Figure 103.1

TBM on 9P117 *Uragan* TEL vehicles

Figure 103.2

TBM on transport vehicles

2. Identification of missile type

3. The imagery resolution and positioning of the missiles on the vehicles was not sufficient to be able to confirm the exact type of missile or whether they were practicable TBM or not. The number and positioning of fuel and oxidiser filling and drainage valves is a key visual indicator as to type and figure 103.3, as an example, shows the key components for a SCUD-B.

³⁴³ Official HAF social media <https://www.facebook.com/watch/?v=496270341902499>, 7 March 2022; and https://twitter.com/aleasima_17/status/1500962189754122244?s=20&t=60EpJCaRRCelikjg6V3Nyg, 7 March 2022.

³⁴⁵ 4 April 2019 "Operation Flood of Dignity" offensive against Tripoli.

³⁴⁶ SCUD-B can also be classified as a Short-Range Ballistic Missile (SRBM), which has a range classification of up to 1,000km. The Panel will use the term TBM to desensitise the issue. Some Member States also classify it as an Operational-Tactical missile.

³⁴⁹ One missile was displayed on the LNA "Alkarama parade" on 7 May 2018. <https://mobile.twitter.com/mahmouedgama144/status/993809662163243008>, 8 May 2018.

Figure 103.3
Schematic of SCUD-B design³⁵⁰

4. Although virtually identical to the R17/SCUD TBM it is also possible that the missiles are Hwasong-6 TBM. Libya reportedly acquired a few from the Democratic People's Republic of North Korea in 1993.³⁵¹ The Hwasong-6 is a variant of the SCUD-C design. The only major external difference from the SCUD-B being the missile length (see table 103.1). Imagery resolution was insufficient to enable the use of photogrammetry as the differential in length of 0.31m is only 2.8% of the total length, which is within the error margin for photogrammetry at this resolution.

Table 103.1
Comparison of SCUD-B and Hwasong-6³⁵²

| Missile | Diameter | Length | Warhead Mass | Range | Accuracy (CEP) ³⁵³ |
|-----------|----------|--------|----------------------|-------|-------------------------------|
| SCUD-B | 0.88m | 11.25m | 545kg ³⁵⁴ | 300km | 450m |
| Hwasong-6 | 0.88m | 10.94m | 770kg | 500km | 1,000 |

2. Launch operations

5. Confidential satellite imagery identified the launch area as being at 31°51'08"N, 20°24'02"E (figure 103.4). Four TEL vehicles, five military trucks and two unidentified light utility vehicles were observed on the access road to the training area where the launch positions were located. HAF misinformation placed the launch area as south of Suluq (see figure 103.5).

6. Open-source media reported that the missiles were launched "towards hypothetical targets 300km south of Tobruk",³⁵⁵ (see figure 103.5) but the HAF released imagery of the target area only showed explosions and could not be geo-

³⁵⁰ From UN Panel of Experts on Yemen report [S/2018/594](#). Not scaled but proportional. Valves are shown larger proportionally than on real missile to assist in identification. FFV is Fuel Filling Valve, FDV is Fuel Drainage Valve, OFV is Oxidiser Filling Valve and ODV is Oxidiser Drainage Valve.

³⁵¹ <https://missilethreat.csis.org/missile/hwasong-6/>.

³⁵² Data varies dependent on source, so worse case options used in this table, which was compiled primarily from [customer.janes.com](#).

³⁵³ Circular Error Probability. The CEP is a measure of a weapon system's precision. It is defined as the radius of a circle, centred on the mean, whose boundary is expected to include the landing points of 50% of the missiles fired.

³⁵⁴ From confidential "SCUD data pack".

³⁵⁵ <https://twitter.com/ObservatoryLY/status/1500962768064757765?s=20&t=60EpJCaRRCelikjg6V3Nyg>, & March 2022.

referenced, so the range of the missile, and effectiveness of the warhead cannot yet be independently verified. Official HAF imagery of the firings was released (see figures 103.6 to 103.8).³⁵⁶

Figure 103.4

Figure 103.5
Map of missile launch location and possible target area

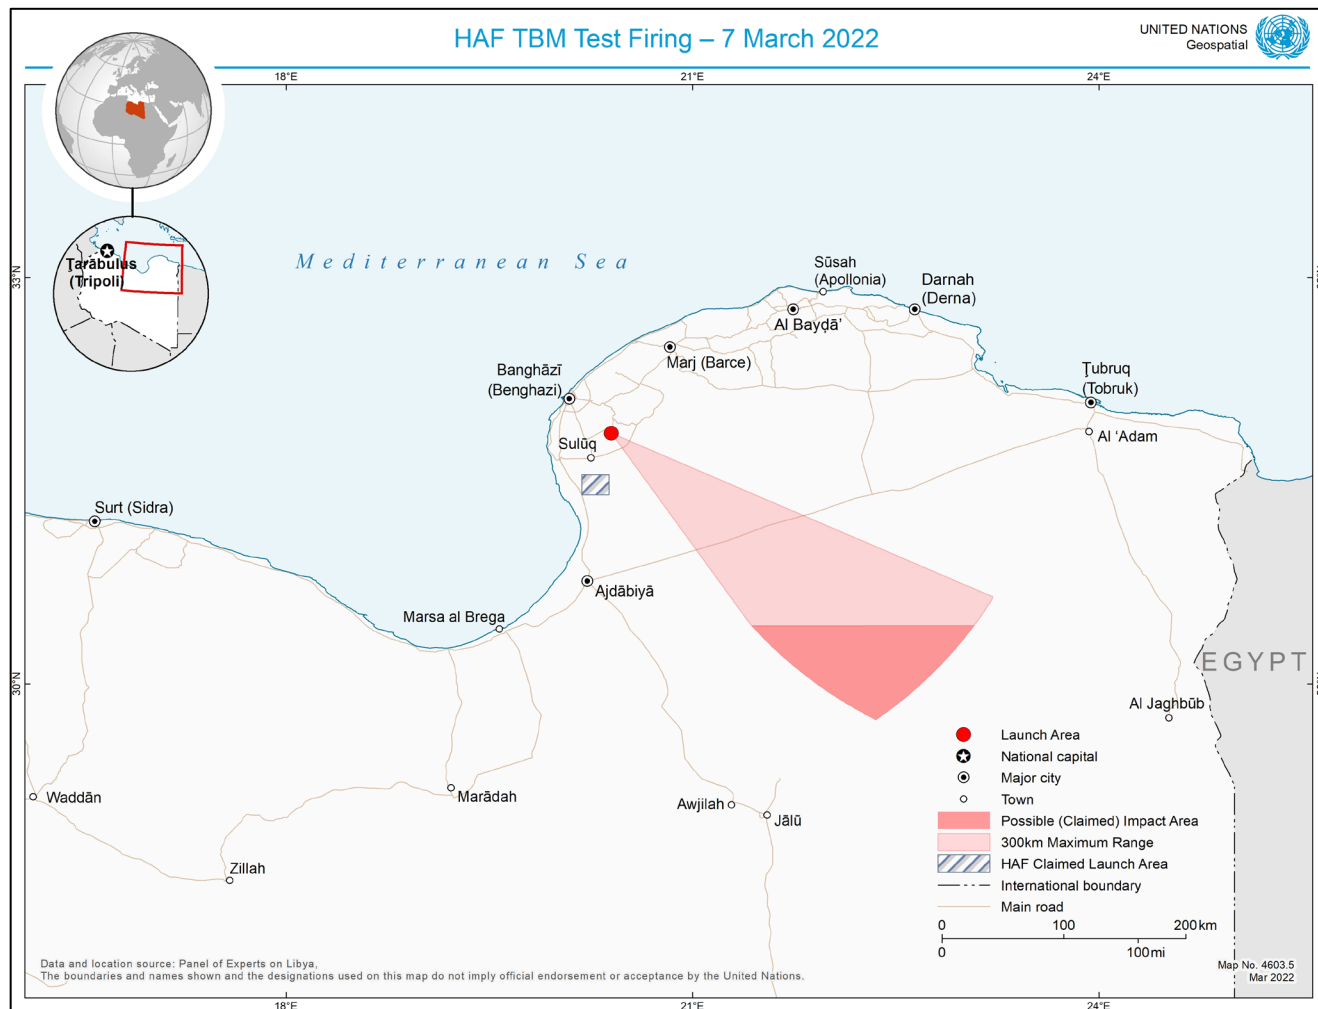

Figure 103.6

TBM on TEL in launch position

7. Note the red flag at the front left-hand side of the TEL vehicle. This almost certainly indicates that the missiles are being fired from pre-surveyed positions. Pre-surveyed positions are used to assist in the accuracy of the missile system. They are an indicator that this was the launch of a fully capable missile.

8. Also note that in the HAF video that the crew are wearing full personal protective equipment, indicating that live fuelling operations took place on site. The missile can only be safely filled with the liquid bipropellant when it is in the erected launch position. The missile should not be pre-fuelled when in the transport position as the missile propellant tanks and joints are not strong enough to support the weight of the fuel and oxidiser when being moved the 90° from the transport to launch position. There is also the risk of internal valve leakage due to movement-induced internal pressure on seals. Either event could result in immediate spontaneous combustion of the bipropellant if the fuel and oxidiser met the ignition fuel (usually “Samin”).

Figure 103.7
TBM on TEL in launch position

9. The Libyan flag and the Arabic text “Al Karama” are indicators that this is real imagery of the launch area.

Figure 103.8
Simultaneous launch of two TBM

10. The orange-brown smoke on launch is typical for the combustion of the fuel (kerosene or unsymmetrical dimethyl hydrazine (UDMH)) and the oxidiser (inhibited red fuming nitric acid (IRFNA)). These chemicals also have commercial applications and are available in Libya. Stocks of the bipropellant have been reported as been stored near Tobruk.³⁵⁷

11. Analysis of imagery from the launch (figure 103.9) shows indicators that live warheads were fitted to the missiles, but no evidence as to if the full explosive yield of 545kg was present.³⁵⁸

³⁵⁷ Confidential source.

³⁵⁸ Two of the three ballistic missiles show a constant diameter from the base until the guidance and control section, but one appears to have a guidance and control section with a smaller diameter and a small conic section below the guidance and control section, and also between the oxidiser tank and the tail unit (see the missile at the top in figure 103.9 versus the one at the bottom). This is probably an optical illusion, because the cable ducts make the diameter look a bit larger; investigations of this continue.

Figure 103.9
Missile analysis of launch missiles

12. Comparison against one of the few known images of a Libyan SCUD-B (figure 103.10) clearly shows that the black line markings for safe lift points and internal separation points are in the identical positions of those launched (figure 103.9).

Figure 103.10
Libyan confirmed SCUD-B TRM

Source: <http://www.b14643.de/Spacerockets/Specials/Scud/>.

3. Availability

13. The availability of SCUD-B TBM in Libya is, yet, undetermined. In February 2005 Muammar Qadhafi attempted to sell the entire Libyan stockpile of 417 SCUD missiles to the United States of America for USD 834 million, but the United States only acquired ten for testing. More recent estimates state that only 80 SCUD-B missiles remained at the time of the 2011 uprising.³⁵⁹

14. During the 2011 uprising Qadhafi launched a SCUD-B TBM against rebel forces, which had no military effect.³⁶⁰ At that time experts doubted the utility of Libya's SCUD-B TBM arsenal due to poor maintenance and operability, and a history of suboptimal test flight and combat performance.³⁶¹

15. Technical sources who have operated within Libya over the past ten years have yet to report seeing any examples of the SCUD-B TBM, which have remained "hidden" from the international community. Reports have stated that although missile main assemblies may have existed, the specialist missile fuelling and air pressure systems had been lost or were inoperable. The launch on 7 March 2022 clearly indicates that HAF have resolved this issue.

4. Threat analysis

16. The low number of SCUD-B available to HAF are of minimal military utility. They can only deliver an explosive warhead, no bigger than an average terrorist vehicle-borne IED (VBIED), to an accuracy of within 450m of the target under ideal conditions.

17. Nevertheless, the launch demonstrates that HAF has access to capable missile engineers and technicians, highly probably with cross-transferable skills allowing them to maintain the remainder of his arsenal. This being another indicator of their movement from undisciplined light infantry towards a capable all arms combat force. Khalifa Haftar personally attended the launch and regarded it as a success, and then immediately promoted all the personnel of 1st missile battalion.

18. The possession of a capability to launch ballistic missiles, even at the tactical level, is highly symbolic and goes well beyond the actual combat effectiveness of the system. They are regarded as "prestige" weapon systems despite their limited military utility. Only two non-state actors are confirmed as possessing a launch capability for TBM: (a) the Houthi in Yemen;³⁶² and now (b) HAF.

19. The possession of TBM by non-states actors provides them with a long-range strike capability to attack symbolic area targets such as international airports or critical national infrastructure. Although damage will be limited there is a strategic impact as: (a) it demonstrates a defensive weakness if the target party does not have an effective air defence system;³⁶³ (b) it compels the target party to deploy a disproportionate air defence capability to reassure the civilian population; (c) it demonstrates the vulnerability of the civilian population to surprise attacks by TBM; and (d) results in an immediate increase in military tension.

³⁶² Annexes 35 and 36 to [S/2018/594](#).

³⁶³ MIM-104 Patriot air defence systems did not stop Houthi SRBM attacks against Riyadh. See footnote 98 to para.82 of [S/2018/594](#).

Annex 104 Central Bank of Libya (CBL) reunification process from report of external consultant to the CBL

1. Pillars and challenges resulting from the institutional split

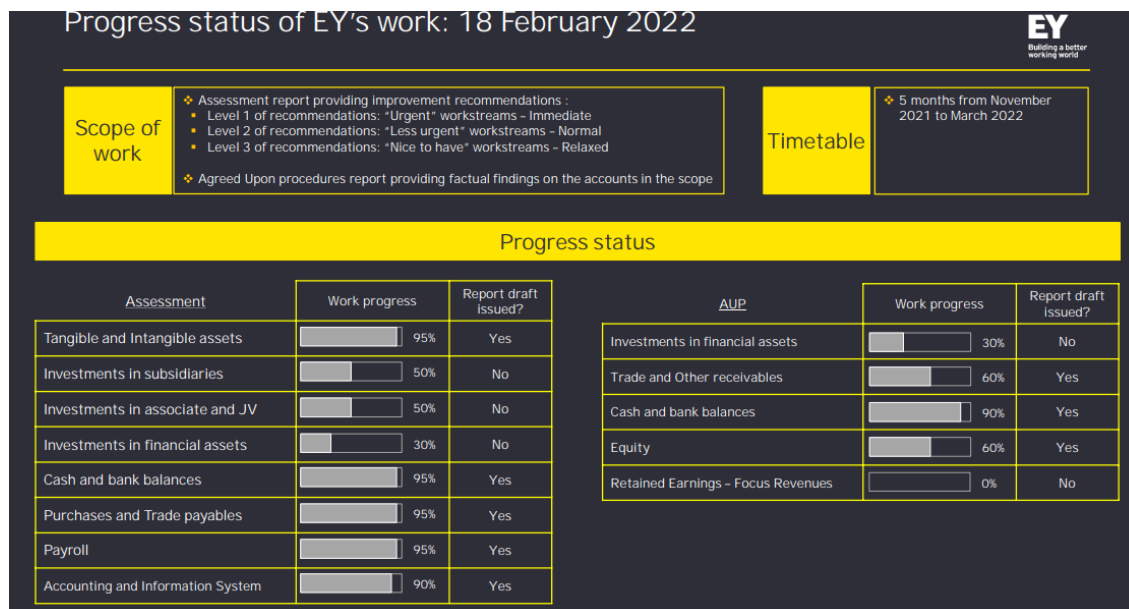

- (a) Currency stability;
- (b) Reserves management;
- (c) Monetary policy;
- (d) Foreign exchange regulation;
- (e) Financial system stability; and
- (f) Banking regulation.

2. Recommendations

- (a) Strengthen financial accountability and transparency;
- (b) Reconcile the two branches' Balance Sheets;
- (c) Unifying the ledger system of the two branches;
- (d) Assessment of letters of Credit system/process;
- (e) Review foreign currency sales distribution to ensure fair distribution;
- (f) Review the composition of asset backing for Currency in Circulation issued by the two branches;
- (g) Adoption of widely accepted IFRS standards for financial reporting;
- (h) Periodic physical count of gold, currencies and verification of value of other tangible assets;
- (i) Establish third party confirmation process;
- (j) Resolve potential conflicts of interest on account of holding investments;
- (k) Assessment of impact of devaluation of LYD;
- (l) Unified organization structure, operations, resource needs and plans;
- (m) Establishment of effective governance and internal controls;
- (n) Comprehensive governance framework for transactions with the Public Treasury; and
- (o) Ensure data proposed to be published reconciles with the trial balances.

بيان صحفي

تنفيذا لأحكام القضاء النافذة، أفرج اليوم عن الموقوف الساعدي معمر القذافي بعد عامين من قرار الإفراج عليه بالتعاون مع مكتب النائب العام وجهاز الردع لمكافحة الإرهاب والجريمة المنظمة. وقد تسلمته عائلته وفقا للإجراءات القانونية.

وإن تؤكد حكومة الوحدة الوطنية التزامها بما تعهدت به بالعمل على الإفراج على جميع المساجين ممن تقضي أوضاعه القانونية ذلك دون استثناء، فإنها تأمل بأن تكون مثل هذه الجهود تصب في مسار المصالحة الوطنية الشاملة، والتي أساسها انفاذ القانون واحترامه.

Government of National Unity

Press release

In accordance with binding court rulings, the detainee Saadi Muammar Qadhafi was released today, two years after the decision to release him was issued. The release was executed in cooperation with the Office of the Public Prosecutor and the Deterrent Agency for Combating Organized Crime and Terrorism. He was received by his family in accordance with the relevant legal procedures.

The Government of National Unity reaffirms that it is committed to its undertaking to release all prisoners, without exception, whose legal situation warrants doing so, and it hopes that such efforts will promote comprehensive national reconciliation, the basis of which is enforcement of and respect for the law.
