Lettre datée du 27 décembre 2024, adressée à la Présidente du Conseil de sécurité par le Groupe d'experts sur la République démocratique du Congo

Les membres du Groupe d'experts sur la République démocratique du Congo, dont le mandat a été prorogé en application de la résolution [2738 \(2024\)](#) du Conseil de sécurité, ont l'honneur de vous faire tenir ci-joint, en application des dispositions du paragraphe 6 de ladite résolution, le rapport à mi-parcours sur leurs travaux.

Le présent rapport a été communiqué le 29 novembre 2024 au Comité du Conseil de sécurité créé par la résolution [1533 \(2004\)](#) concernant la République démocratique du Congo, qui l'a examiné le 27 décembre 2024.

Le Groupe d'experts vous serait reconnaissant de bien vouloir porter le texte de la présente lettre et du rapport à l'attention des membres du Conseil de sécurité et de le faire publier comme document du Conseil.

Rapport à mi-parcours du Groupe d'experts sur la République démocratique du Congo

Résumé

La violence endémique dans l'est de la République démocratique du Congo a des répercussions sur la sécurité et la situation humanitaire. Le conflit a continué de porter atteinte aux relations régionales.

L'opération Shujaa, par ses attaques ciblées, a affaibli les Forces démocratiques alliées (ADF), visées par des sanctions, les repoussant dans la province de l'Ituri et dans le territoire de Lubero (Nord-Kivu). Elle est sortie de ses limites officielles pour poursuivre les cellules des ADF. En représailles, celles-ci s'en sont prises aux civils, enregistrant ainsi en juin le nombre le plus élevé de civils morts. Malgré leurs pertes, les ADF ont fait preuve d'une certaine résilience, amenant à s'interroger sur la capacité de l'opération Shujaa de réduire les menaces pesant sur les civils en République démocratique du Congo.

L'Alliance Fleuve Congo (AFC), une organisation politico-militaire, et le Mouvement du 23 mars (M23), visé par des sanctions, ont poursuivi activement leurs objectifs expansionnistes, le but étant de consolider l'appui de tous les groupes armés de l'Ituri et du Sud-Kivu. De plus en plus de groupes armés se sont rangés à leur côté, ouvertement ou secrètement, ce qui a progressivement influencé et entremêlé la dynamique du conflit dans les provinces orientales.

Au Nord-Kivu, un cessez-le-feu conclu entre la République démocratique du Congo et le Rwanda n'a pas empêché la coalition AFC-M23, disposant de l'appui constant de la Force de défense rwandaise (RDF), de s'étendre considérablement, notamment dans le territoire de Walikale, riche en minéraux. La RDF utilise une technologie militaire de pointe qui a assuré la suprématie militaire de la coalition AFC-M23 dans le Petit Nord. L'Angola et le Conseil de sécurité ont condamné ces actes, disant qu'elles étaient une violation du cessez-le-feu.

La coalition AFC-M23 a pris Rubaya, qui possède la plus grande mine de coltan de la région des Grands Lacs. Elle a mis en place une administration parallèle, qui contrôle les activités minières, le commerce, le transport et l'imposition des minéraux produits. Au moins 150 tonnes de coltan ont été frauduleusement exportées vers le Rwanda et mélangées à la production rwandaise, donnant lieu à la plus grande contamination jamais enregistrée à ce jour des chaînes d'approvisionnement en minéraux dans la région des Grands Lacs.

La République démocratique du Congo et le Rwanda ont convenu d'appliquer un plan de neutralisation des Forces démocratiques de libération du Rwanda (FDLR) et d'élaborer un plan de désengagement de la RDF. De profondes dissensions et une méfiance mutuelle concernant l'application et le calendrier des deux plans ont empêché la conclusion d'un accord de paix global sous l'égide de l'Angola, le facilitateur désigné par l'Union africaine. Le plan de neutralisation, de réinstallation ou de rapatriement des FDLR pose des questions de droits humains et de droit humanitaire.

Une offensive limitée menée par les Forces armées de la République démocratique du Congo (FARDC) contre les FDLR n'a pas permis de neutraliser ou de capturer des commandants de premier plan. En réponse, les FDLR ont renforcé leurs défenses, déplacé leurs positions clés et fusionné avec les groupes armés Wazalendo. Cette offensive a mis en évidence les limites opérationnelles et les querelles intestines au sein de la hiérarchie des FARDC, notamment en ce qui

concerne la question de la collaboration avec les FDLR. Le Gouvernement congolais, malgré les appels répétés à mettre fin à son soutien aux FDLR, a continué d'utiliser les groupes Wazalendo et les FDLR comme supplétifs dans la lutte contre la coalition AFC-M23 et la RDF.

En Ituri, le groupe armé Zaïre, allié de la coalition AFC-M23, s'est concentré sur l'établissement d'un nouveau front contre les FARDC. Thomas Lubanga Dyilo et Yves Khawa Pango Mandro, qui font l'objet de sanctions, ont joué un rôle essentiel dans la mobilisation du groupe Zaïre et le renforcement de la collaboration avec la coalition AFC-M23. Le groupe Zaïre a intensifié son recrutement, formant des milliers de combattants en vue d'une offensive de grande envergure en Ituri.

L'exploitation de l'or en Ituri continue d'échapper au contrôle de l'État, rapportant au moins 140 millions de dollars par an aux groupes armés et aux réseaux criminels.

Au Sud-Kivu, le désengagement de la Mission de l'Organisation des Nations Unies pour la stabilisation en République démocratique du Congo à la mi-2024 a entraîné une dégradation de la situation en matière de sécurité et affecté les civils, démunis face aux violations des droits humains commises par les forces de sécurité de l'État et les acteurs armés. La coalition AFC-M23 a étendu son influence, recrutant des groupes armés actifs au Sud-Kivu ou mobilisant leur soutien. Elle a conclu une alliance avec les Twirwaneho, la Résistance pour un État de droit au Burundi et les Forces armées « Biloze Bishambuke ». Une délégation congolaise a convoqué une dizaine de groupes Maï-Maï pour signer un pacte de non-agression visant à les dissuader de s'allier à la coalition AFC-M23.

I. Introduction

1. Dans sa résolution [2738 \(2024\)](#), le Conseil de sécurité a reconduit, le 27 juin 2024, le mandat du Groupe d'experts sur la République démocratique du Congo. Cinq membres du Groupe d'experts ont été nommés par le Secrétaire général le 19 août 2024 ([S/2024/620](#)). Le sixième expert n'a pas encore été nommé.

2. Le rapport à mi-parcours du Groupe d'experts est présenté en application des dispositions du paragraphe 6 de la résolution [2738 \(2024\)](#). Le Groupe d'experts a échangé des informations avec les groupes d'experts sur Haïti, sur la République centrafricaine et sur le Soudan du Sud.

Coopération avec la Mission de l'Organisation des Nations Unies pour la stabilisation en République démocratique du Congo

3. Le Groupe d'experts remercie la Mission de l'Organisation des Nations Unies pour la stabilisation en République démocratique du Congo (MONUSCO) de son soutien et de la collaboration dont elle a fait montre pendant la période considérée.

Méthodologie

4. Le Groupe d'experts a appliqué les règles de preuve recommandées par le Groupe de travail informel du Conseil de sécurité sur les questions générales relatives aux sanctions (voir [S/2006/997](#)). Il a fondé ses conclusions sur des documents et corroboré les informations obtenues en se servant d'au moins trois sources indépendantes et fiables.

5. Compte tenu de la nature du conflit en République démocratique du Congo, rares sont les documents qui apportent la preuve irréfutable de transferts d'armes, de recrutement, de la responsabilité du supérieur hiérarchique dans les cas d'atteintes graves aux droits humains ou de l'exploitation illégale des ressources naturelles. Le Groupe d'experts a donc dû s'en remettre aux déclarations de témoins oculaires, de membres de la population locale, de membres de groupes armés ou d'ex-combattants. Il a également pris en compte le témoignage averti d'agents de l'État et de militaires de pays de la région des Grands Lacs et d'autres pays, ainsi que des entités des Nations Unies.

6. Le présent rapport couvre les enquêtes menées jusqu'au 8 novembre 2024. En raison de la limite imposée au nombre de mots, certaines conclusions et preuves figurent dans les annexes.

II. Forces démocratiques alliées en Ituri et au Nord-Kivu

A. Opération Shujaa

Succès relatif de l'opération Shujaa

7. La quatrième phase de l'opération conjointe des Forces armées de la République démocratique du Congo (FARDC) et des Forces de défense populaires de l'Ouganda (UPDF), l'opération Shujaa ([S/2022/479](#), par. 19 à 21), lancée en novembre 2023 avec un succès limité, a été relancée le 20 mai 2024 ; les attaques terrestres et aériennes contre les Forces démocratiques alliées (ADF) (CDe.001), visées par des sanctions, ont augmenté, principalement à l'ouest de la RN4¹.

¹ Sources : chercheurs, FARDC et entités des Nations Unies.

8. Contrairement aux phases précédentes, qui ont connu un succès limité, les dernières opérations ont considérablement affaibli les ADF ; elles ont détruit leurs bastions, décimé leurs troupes et leur hiérarchie et permis l'évasion de centaines d'otages (S/2024/432, par. 9 à 12)². Plusieurs commandants des ADF, dont Braida³ et Amigo⁴, ont été tués (voir annexe 1). Amenées à se déplacer constamment, les ADF ont vu leurs capacités opérationnelles se réduire considérablement et leurs chaînes d'approvisionnement bouleversées. Elles souffrent de la famine et de la maladie⁵.

9. En réponse à l'intensification des attaques, les ADF ont utilisé leurs tactiques habituelles : accroître la mobilité, se repositionner pour éviter les confrontations directes et détourner l'attention des principaux camps, et attaquer les civils (S/2024/432, par. 9 et 11). Affaiblis, cherchant à se renforcer et à survivre, les petits camps se sont regroupés en de méga-camps, moins nombreux, et se sont repliés dans des zones reculées (voir par. 15 à 17 et annexe 2 plus bas).

10. Du fait de ces revers, les ADF se sont retournées encore plus fort contre les civils : meurtres, enlèvements, pillages et attaques ciblées contre le personnel médical et les installations médicales (voir par. 19 à 22 plus bas).

11. L'opération Shujaa n'a pas réduit la menace pesant sur la population, au contraire, elle l'a poussée plus à l'ouest, dans des zones où la présence des forces de sécurité de l'État était minimale (S/2022/479, par. 26 ; S/2023/990, par. 15 ; et S/2024/432, par. 9 et 10)⁶. Les ADF ont mis fin à leurs attaques sur le territoire ougandais depuis la fin de l'année 2023 (S/2023/990, par. 17 et 18), en revanche, celles en République démocratique du Congo se sont intensifiées, suscitant de vives inquiétudes quant aux effets de l'opération Shujaa sur les civils. Le repositionnement stratégique des ADF, indispensable pour leur survie, a entraîné une expansion considérable de leur empreinte territoriale en Ituri et au Nord-Kivu.

Tensions suscitées par l'opération Shujaa

12. Parfois, les UPDF ont mené des opérations aériennes sans en informer les FARDC ou étendu leurs opérations au-delà des zones désignées, causant des tensions avec les FARDC⁷. Le 11 août, un drone des UPDF s'est écrasé près de Kotoni (en dehors de la zone opérationnelle de l'opération Shujaa) sans que les FARDC aient été préalablement informées de sa trajectoire de vol, sapant d'autant plus la confiance (voir annexe 3).

13. De plus, les UPDF ont souvent envoyé en Ouganda d'anciens otages et détenus des ADF sans communiquer rapidement les informations, ce qui a compliqué le processus de renseignement et les procédures judiciaires en République démocratique du Congo⁸.

14. En conséquence, les FARDC ont retardé le déploiement des UPDF dans les zones où elles-mêmes ne se trouvaient pas, même si leur contribution à l'opération Shujaa était limitée (S/2024/432, par. 19)⁹. Plus important encore, la République démocratique du Congo a hésité à étendre la zone d'opération de l'opération Shujaa

au nord de la rivière Ituri, où se trouve le nouveau quartier général de Madina, craignant que l'Ouganda¹⁰ ait des motifs inavoués, compte tenu de ses intérêts historiques en Ituri¹¹. Néanmoins, en juillet, un accord a été conclu pour étendre l'opération Shujaa à l'ouest de la RN44 et dans la région de Manguredjipa, où opérait Ahmad Mahmood Hassan, alias Abwakasi (CDi.040), visé par des sanctions (voir annexe 4).

B. Reconfiguration géographique et résilience des Forces démocratiques alliées

15. Depuis le mois de mai, le camp de Seka Baluku (CDi.036), chef des ADF, visé par des sanctions, et le groupe dirigé par Abwakasi ont été fortement ciblés par les attaques terrestres et aériennes de l'opération Shujaa. De ce fait, Baluku a dû déplacer son quartier général de Madina plus au nord, dans le territoire de Mambasa (province de l'Ituri), en dehors de la zone d'opération officielle de l'opération Shujaa¹². Sur ordre de Baluku, plusieurs camps détachés dirigés par Mzee Mayor et Mzee Wa Kazi, alias Lumisa (S/2022/479, annexe 5), ont fusionné avec Madina¹³, où beaucoup de personnes à charge et d'otages d'autres camps se sont retrouvés¹⁴. En juillet, les camps des commandants Tabani, Defender et Braida, souvent attaqués, se sont regroupés pour renforcer la sécurité¹⁵.

16. La majorité des camps des ADF sont maintenant situés dans la province de l'Ituri. Le groupe de Baluku et son camp de Madina ont été aperçus au nord de Lolwa, sur la route Eringeti-Komanda, dans le territoire de Mambasa. La constellation des groupes de Braida, de Tabani et de Defender s'est déplacée à l'ouest de l'axe Oicha-Eringeti (RN4), opérant autour de Biakato (sur la RN44)¹⁶.

17. Entre-temps, à partir de juin 2024, le groupe d'Abwakasi – la cellule la plus active et la plus meurtrière des ADF – s'est déplacé dans la direction opposée, vers le sud-ouest, dans le secteur de Bapere (territoire de Lubero), dans le but de détourner l'attention des opérations militaires de Madina ; en représailles, il s'est attaqué aux civils sur sa route¹⁷. En août 2024, Abwakasi opérait autour de Manguredjipa, dans le nord-ouest de Lubero, poursuivi par l'opération Shujaa et aux prises avec des groupes armés locaux (voir par. 20, 30 et 31 plus bas). En septembre, il a été rejoint par plusieurs sous-groupes des camps de Braida et de Tabani, dirigés par le commandant Seka Dadi (ou Adadi)¹⁸.

18. On trouvera à l'annexe 5 des précisions sur les stratégies de survie et les innovations technologiques des ADF, telles que l'utilisation de communications par satellite et les essais avec des drones commerciaux équipés d'explosifs.

Attaques contre les civils

19. Depuis juin 2024, les ADF ont causé la mort de plus de 650 civils¹⁹ dans des attaques dans les provinces du Nord-Kivu et de l'Ituri (voir annexe 6)²⁰.

20. Le seul mois de juin a été le plus meurtrier jamais enregistré par les ADF, avec plus de 200 civils tués dans la région de Beni et dans le territoire de Lubero, principalement par le groupe d'Abwakasi lors de sa progression vers l'ouest. Entre le 3 et le 12 juin, le groupe d'Abwakasi a attaqué plus de 10 localités à l'ouest de Beni, autour de Cantine, tuant au moins 150 civils²¹. Dans le territoire de Lubero, au 13 juin, plusieurs attaques ont été enregistrées dans le secteur de Bapere, le long de la frontière entre les territoires de Beni et de Lubero. Le groupe d'Abwakasi a atteint la région de Njapanda et Manguredjipa au début du mois d'août et s'est installé autour de la forêt de Bandulu, à Lubero²². Se déplaçant sans cesse, il a continué à tuer des civils²³.

21. De même, de juin à août, Braida, Defender et Tabani se sont dirigés vers le nord-ouest, d'Oicha vers Mamove et Biakato, attaquant de petits villages et commettant des enlèvements, des meurtres et des exécutions²⁴. En septembre, les groupes de Tabani et de Defender étaient passés à l'ouest de la RN44 et de Biakato, poursuivis par les forces de l'opération Shujaa. Braida et Defender ont commis la plupart des meurtres autour de Mamove et Beu Manyama. Braida a été tué à la mi-août près de Biakato²⁵.

22. Les attaques ont été moins fréquentes à Irumu et à Mambasa, car le grand groupe de Baluku, composé d'environ 1 000 combattants et civils, s'est dirigé vers le nord de la rivière Ituri, après Lolwa. Ce calme relatif montre probablement la vulnérabilité et la lenteur du groupe, retardé par les personnes à charge et à la recherche de nouveaux sites. Le groupe semble également se faire discret pour échapper aux forces de l'opération Shujaa. Plusieurs attaques contre les services de santé et des enlèvements de personnel médical autour de Lolwa à la fin du mois d'août²⁶ font penser que le groupe de Baluku a un grand besoin de soins médicaux, d'anciens otages ayant rapporté que l'opération Shujaa lui avait fait subir de lourdes pertes.

Commandement et contrôle unifiés des Forces démocratiques alliées

23. Les ADF ont conservé une structure de commandement simple. Les sous-groupes fonctionnaient avec un certain degré d'indépendance, mais ils rendaient tous compte à Baluku (voir annexe 7)²⁷.

24. Malgré les rumeurs persistantes sur la mauvaise santé de Baluku, les otages et les combattants capturés ont indiqué qu'il était actif et exerçait un contrôle ferme sur Abwakasi et d'autres commandants. Il portait apparemment un gilet explosif, avec l'intention déclarée de se faire sauter s'il était capturé. Son successeur désigné est son bras droit actuel, Seka Umaru (S/2023/431, par. 17)²⁸.

25. Si les petites attaques spontanées pouvaient se dérouler sans l'accord préalable de Baluku, toutes les opérations d'envergure nécessitaient son autorisation. Après

chaque attaque, il recevait des rapports et des photographies pour la prise de décision et la propagande²⁹. D'après des entretiens récents avec d'ex-combattants des ADF et des membres de leur famille, c'est sur ordre de Baluku qu'Abwakasi s'est installé à Lubero et que les autres camps se sont déplacés.

C. Revendications plus nombreuses de Daech

26. Daech s'est intéressé davantage aux activités des ADF dans l'est de la République démocratique du Congo. À partir de juin 2024, le nombre d'attaques des ADF revendiquées par Daech a connu une augmentation notable par rapport aux mois précédents (111 entre le 2 juin et la fin du mois d'octobre). Le délai de revendication de la responsabilité d'une attaque a considérablement diminué, passant de plusieurs jours à parfois 24 heures. Cette tendance suggère une amélioration de la collaboration entre Daech et les ADF (S/2022/967, par. 27 et 28), ainsi qu'une communication plus rapide et plus directe (voir annexe 8).

D. Contacts avec la coalition Alliance Fleuve Congo-Mouvement du 23 mars

27. Durant 2024, des rumeurs ont couru sur des contacts éventuels entre les ADF et la coalition de l'Alliance Fleuve Congo et du M23. Au fur et à mesure des avancées de la coalition dans Lubero, les spéculations sur une coopération se sont intensifiées, malgré les démentis manifestes de celle-ci (voir annexe 9).

28. D'après plusieurs sources, des contacts ont eu lieu entre les dirigeants des ADF et des individus appartenant aux réseaux de l'ex-Rassemblement congolais pour la démocratie-Kisangani, du Mouvement de libération et de l'ex-M23 (S/2013/433, par. 62 à 71 ; et S/2016/466, par. 193), entretenant également des liens avec l'AFC³⁰. En mars 2024, le Groupe d'experts a rencontré un ancien membre de ces réseaux, qui a révélé avoir parlé, en février, à Kampala, à un associé de Corneille Nangaa, puis à Nangaa lui-même, d'une collaboration potentielle avec l'AFC. Cette personne a également maintenu des contacts étroits avec les familles d'Abwakasi et de Baluku. Des sources proches des ADF ont dit que ces interactions s'inscrivaient dans le cadre de l'action menée par la coalition AFC-M23 pour entrer en contact avec les ADF afin de négocier l'accès aux territoires sous leur contrôle.

29. Bien que les détails des accords soient flous, plusieurs sources confirment que la coalition AFC-M23 voulait un pacte de non-agression avec les ADF, demandant un passage sûr – y compris pour les recrues transitant de l'Ituri vers le territoire de la coalition AFC-M23 – et exhortant les ADF à limiter les attaques contre les soldats des FARDC³¹. D'après un ex-combattant des ADF, lors d'un rassemblement Baluku a déclaré que la coalition AFC-M23 avait proposé une collaboration, qu'il aurait refusé, se méfiant de la coalition, et aurait réaffirmé sa volonté de continuer à s'attaquer aux civils « infidèles ».

E. Dépendance de la République démocratique du Congo à l'égard des groupes Wazalendo pour la sécurité

30. Pour combler le vide sécuritaire croissant et se défendre contre les ADF, les FARDC se sont souvent appuyées sur les groupes Maï-Maï, notamment le Front patriotique pour le peuple/Armée du peuple de Kabidon et l'Union des patriotes pour la libération du Congo du « général » Mayani (S/2024/432, annexe 9)³². Récemment, des groupes armés Wazalendo, tels que le Nduma défense du Congo-Rénové (NDC-R) de Guidon Shimiray Mwissa (CDi.033), visé par des sanctions, se sont déployés dans les zones riches en minéraux du territoire de Lubero, notamment dans les environs de Manguredjipa, sous le prétexte de protéger les civils des ADF (voir annexe 10). Les ADF se battent contre ces groupes armés et leur tendent des embuscades³³.

31. La prolifération de ces groupes armés, qui commettent des exactions contre la population (S/2024/432, par. 21 et 22), a accru l'insécurité et provoqué des tensions avec la population locale, qui a demandé leur départ (voir annexe 11).

32. La dynamique du conflit va probablement se détériorer avec l'avancée de la coalition AFC-M23 plus au nord à Lubero, la présence d'Abwakassi à Manguredjipa et les groupes Wazalendo, notamment le NDC-R/Guidon, qui cherchent activement à établir leur contrôle dans la région.

III. Crise de la coalition Alliance Fleuve Congo-Mouvement du 23 mars au Nord-Kivu

A. Trêve humanitaire, cessez-le-feu et processus de Luanda exploités à des fins expansionnistes

33. Le 4 juillet 2024, la République démocratique du Congo et le Rwanda ont convenu d'une trêve humanitaire de deux semaines dans l'est de la République démocratique du Congo, négociée par les États-Unis d'Amérique³⁴, posant comme conditions la cessation des hostilités, le retour volontaire des personnes déplacées et un accès sans restriction des organisations humanitaires aux populations vulnérables³⁵. Contrairement aux cessez-le-feu de novembre et décembre 2023 (S/2024/432, par. 31 et annexes 20 et 21), cette trêve ne prévoyait pas le retrait de la RDF ni la promesse par les FARDC de cesser de collaborer avec les groupes armés.

34. Le 4 août 2024, la trêve a été prolongée par un cessez-le-feu, signé entre la République démocratique du Congo et le Rwanda sous l'égide de l'Angola, facilitateur désigné par l'Union africaine (S/2024/432, annexe 20 ; et S/2023/431, annexe 20)³⁶. La coalition AFC-M23 a déclaré que ne figurant pas parmi les parties signataires, elle n'était « pas automatiquement liée par les conclusions » de l'accord (voir annexe 12).

³⁶ Ministère des affaires étrangères de l'Angola, annonce du cessez-le-feu sur X. Disponible à l'adresse https://x.com/angola_Mirex/status/1818436276996968860.

35. Si, dans un premier temps, la RDF et les FARDC ont temporairement respecté le cessez-le-feu (voir par. 36, 37 et 44 à 47 plus bas), leurs supplétifs, le M23 et les groupes Wazalendo, ainsi que les FDLR ont rapidement repris les affrontements³⁷. Les FARDC, les groupes Wazalendo, les FDLR, la RDF et le M23 ont profité du calme relatif pour renforcer leurs troupes et se réapprovisionner en armes (voir par. 39 à 43, 48 à 55 et 80 plus bas).

36. Depuis la fin avril 2024 (S/2024/432), le M23, avec l'appui de la RDF, fait de grandes avancées territoriales et renforce son contrôle sur les zones occupées (voir par. 41 à 47 plus bas). Cette tendance s'est maintenue malgré la trêve et le cessez-le-feu, ce qui laisse penser que le véritable objectif du M23 reste l'expansion territoriale et l'occupation et l'exploitation à long terme des territoires conquis.

37. Fin octobre 2024, l'expansion territoriale du M23 et de la RDF dans le territoire de Walikale a déclenché des combats directs sur la route Mweso-Pinga avec les FARDC et leurs alliés (voir par. 46 plus bas). Le médiateur de l'Angola et le Conseil de sécurité ont condamné ces opérations, disant qu'elles étaient une violation du cessez-le-feu³⁸. Au moment de la rédaction du présent rapport, une reprise à grande échelle des opérations des FARDC et de la RDF était probable.

38. L'Angola a continué de faciliter les négociations pour trouver une solution à long terme au conflit. Bien que la République démocratique du Congo et le Rwanda aient convenu d'appliquer un plan de neutralisation des FDLR et d'élaborer un plan de désengagement des forces et de levée des mesures défensives du Rwanda, de profondes dissensions et une méfiance mutuelle quant à l'application et le calendrier de ces deux plans empêchent à ce jour la conclusion d'un accord de paix global (voir par. 48 à 55 et 67 à 80 et annexe 13 plus bas).

B. Coalition Alliance Fleuve Congo-Mouvement du 23 mars et Force de défense rwandaise

Coalition et mobilisation de l'Alliance Fleuve Congo et du Mouvement du 23 mars

39. Le M23 est resté sous le commandement militaire global du « général » Sultani Makenga (CDi.008), qui a continué à recevoir des instructions et un soutien de la RDF et des services de renseignement rwandais (voir par. 49 à 55 plus bas et S/2024/432, par. 36)³⁹. Bien que le M23 et l'AFC, l'alliance politico-militaire de Corneille Nangaa (S/2024/432, par. 23 à 29), soient restés des entités distinctes, leurs activités étaient liées : a) les deux publiaient des communications communes sous l'intitulé « AFC-M23 » ; b) le M23 est resté la branche militaire de facto de l'AFC ; et c) l'AFC de Nangaa a continué de demander l'autorisation de Makenga pour chaque opération (S/2024/432, par. 25)⁴⁰.

40. La coalition AFC-M23 a intensifié ses efforts pour remodeler le paysage politique et militaire congolais, en recherchant activement le soutien des groupes armés de l'Ituri, du Nord-Kivu et du Sud-Kivu, avec des succès notables (voir par. 83

à 97 et 104 à 106 plus bas). Elle a rappelé l'ancien cadre politique du Congrès national pour la défense du peuple/M23, René Abandi, et Jean-Marie Runiga (CDi.028), qui fait l'objet de sanctions ; S/2022/479, par. 58), chargé de rallier son réseau à la coalition AFC-M23⁴¹. Le M23 et l'AFC ont organisé systématiquement des réunions dans les territoires nouvellement conquis afin de faire leur promotion, de recruter de nouveaux membres et de regrouper les administrations parallèles (S/2024/432, annexe 25)⁴².

Poursuite des activités de formation et recrutement forcé

41. La coalition AFC-M23 a élargi le recrutement et la formation de cadres civils administratifs ainsi que de combattants pour administrer les localités contrôlées (S/2024/432, annexe 5) et renforcer les capacités militaires pour l'expansion territoriale⁴³.

42. La coalition AFC-M23 poursuit ses recrutements – volontaires et forcés, y compris de mineurs – depuis avril 2024 (voir annexe 14). Des milliers de nouvelles recrues venant des territoires qu'elle contrôle et des provinces voisines (voir par. 83 à 97 et 104 à 106 plus bas) ont été formées dans ses camps militaires. Ainsi, entre le 25 septembre et le 31 octobre 2024, au moins 3 000 recrues ont achevé leur formation. Au moment de la rédaction du présent rapport, 2 500 autres recrues – dont 600 membres du groupe armé Zaïre de l'Ituri – étaient encore en formation (voir annexe 15). Le 2 octobre 2024, une cérémonie de remise des diplômes a été organisée pour marquer la fin de cinq mois de formation pour 300 officiers du M23, à Tchanzu (S/2024/432, par. 104 à 108)⁴⁴. Les combattants du M23 ont régulièrement signalé la présence d'officiers instructeurs congolais, des UPDF et de la RDF à Tchanzu.

43. La coalition AFC-M23 s'est de plus en plus concentrée sur la formation idéologique, la collecte de renseignements, l'endoctrinement et les tactiques de recrutement (voir annexe 16). Elle a déployé stratégiquement des recrues formées dans des zones qu'elle ne contrôlait pas encore afin de recueillir des renseignements et d'endoctriner la population locale (voir par. 104 à 106 plus bas). Recruter d'autres membres de groupes armés était la clé de la stratégie de la coalition pour réussir son expansion territoriale.

Poursuite de l'expansion territoriale

44. Sur le front sud du Petit Nord, le M23 et la RDF ont progressé dans le sud du territoire de Masisi, prenant, le 30 avril, les sites miniers de Rubaya, l'une des plus grandes sources de coltan au monde (voir par. 56 à 66 plus haut). À partir du mois de mai, le M23 et la RDF ont lancé de nouvelles offensives contre les positions des FARDC et de la Mission de la Communauté de développement de l'Afrique australe en République démocratique du Congo (Mission de la SADC en République démocratique du Congo), près de Sake, et contre des zones proches de la frontière du Sud-Kivu, faisant souvent des victimes parmi la population civile (voir annexe 17)⁴⁵.

45. Sur le front nord du Petit Nord, le M23 et la RDF ont pris la ville stratégique de Kanyabayonga, dans le territoire de Rutshuru, le 27 juin 2024 (S/2024/432, annexe 29). Par la suite, ils ont progressé plus au nord dans le sud du territoire de

Lubero, prenant en trois jours un tronçon de 50 km sur la route Kanyabayonga-Kaseghe. Début août, le M23 et la RDF ont également réalisé de grandes avancées dans le nord-est du territoire de Rutshuru, prenant plusieurs localités sur la route Kiwanja-Ishasha, y compris le poste d'Ishasha à la frontière avec l'Ouganda (voir annexe 18).

46. Sur le front ouest, à la suite d'affrontements intenses avec les groupes armés Wazalendo, les FDLR et les FARDC, le M23 et la RDF ont réalisé de grandes avancées sur l'axe Kalembe-Mpeti à la fin du mois d'octobre, s'emparant de plusieurs localités du territoire de Walikale, auparavant sous le contrôle exclusif des FARDC et des Wazalendo. Cette expansion territoriale a été qualifiée de « violation flagrante de l'accord de cessez-le-feu », en vigueur depuis le mois d'août (voir par. 33 à 37 plus haut et annexe 19)⁴⁶.

47. D'avril à début novembre 2024, la zone contrôlée par le M23 et la RDF a augmenté de 30 % (voir annexe 20).

Soutien systématique de la Force de défense rwandaise au Mouvement du 23 mars

48. Les conditions et le calendrier du désengagement de la RDF ont été au cœur des désaccords entre la République démocratique du Congo et le Rwanda, retardant la conclusion d'un accord de paix. Le Gouvernement congolais a rejeté la condition du Gouvernement rwandais, qui ne voulait retirer les troupes rwandaises seulement qu'une fois que les FARDC auraient pris des mesures ciblées contre les FDLR. Il a également refusé de signer le « plan de neutralisation des FDLR et de désengagement de la RDF » convenu par les chefs des services de renseignement des deux pays (voir annexe 13). Plusieurs responsables congolais et des généraux des FARDC craignaient qu'accepter les conditions fixées par le Rwanda ne permette le maintien indéfini de la présence des FARDC en cas d'échec du plan de neutralisation.

49. Par conséquent, au moins 3 000 à 4 000 soldats de la RDF sont restés déployés dans les territoires de Nyiragongo, Rutshuru et Masisi (S/2024/432, par. 43 et annexe 30)⁴⁷. Fin octobre 2024, les troupes de la RDF ont également soutenu l'avancée du M23 dans le territoire de Walikale⁴⁸. Chaque unité du M23 était supervisée et soutenue par les forces spéciales de la RDF⁴⁹.

50. La conquête de nouveaux territoires (voir par. 44 à 47 plus haut) n'aurait pas pu se faire sans l'aide de la RDF, qui a dirigé des opérations ciblées et disposait d'armes de haute technologie (voir par. 51 à 55 plus bas). La RDF a continué d'apporter un soutien systématique au M23 et de contrôler de facto ses opérations (S/2024/432, par. 45)⁵⁰. On trouvera à l'annexe 21 la preuve des incursions frontalières et des mouvements stratégiques de la RDF dans le Petit Nord (S/2024/432, par. 40 à 54)⁵¹.

Matériel militaire de pointe

51. Le Groupe d'experts a continué de rassembler des preuves sur l'utilisation par le M23 et la RDF de technologies et de matériel militaires sophistiqués (S/2023/990, par. 31 et 32 ; et S/2024/432, par. 46 à 54). La découverte de ces systèmes militaires,

clé de la supériorité militaire du M23 et de la RDF, sont une autre preuve du soutien extérieur donné au M23 en violation de l'embargo sur les armes.

52. Le 3 mai 2024, des roquettes de 122 mm - armes de secteur non guidées aux effets aveugles lorsqu'elles sont utilisées dans des zones peuplées – ont été tirées depuis des positions militaires tenues par des soldats des 93^e et 109^e bataillons de la RDF, près de Karuba, dans le territoire de Masisi, ciblant des positions militaires le long de l'axe Sake-Goma densément peuplé. Cette attaque aveugle, qui fait suite à de nombreuses autres attestées depuis janvier 2024 dans la même région (S/2024/432, par. 93 à 98), a fait des blessés et des morts parmi des dizaines de civils dans les camps de déplacés surpeuplés de Mugunga, près de Goma (voir annexe 22).

53. Les 10 et 15 juin 2024, deux missiles guidés Spike à portée étendue ont frappé la Mission de la SADC en République démocratique du Congo à Mubambiro (voir annexe 23) et la position conjointe des FARDC et de la société militaire privée Congo Protection, à Kanyamahoro, dans le territoire de Nyiragongo (voir annexe 24). D'après l'analyse de la trajectoire des missiles et les informations fournies par des témoins oculaires, des sources militaires, les services de renseignement et de sécurité, les deux missiles ont été tirés depuis des zones contrôlées par le M23 et la RDF. Ce type de missile antichar, caractérisé par son double système de guidage (laser et filoguidé), n'a jamais été vu en République démocratique du Congo et ne fait pas partie de l'arsenal des FARDC.

54. De fin mai à début août 2024, le Système mondial de localisation (GPS) et les capacités de navigation des aéronefs ont été perturbés par des actes de « spoofing » et de brouillage près des zones contrôlées par le M23 et la RDF, qui ont touché sans distinction les vols des Nations Unies, les vols humanitaires et commerciaux ainsi que les drones de surveillance⁵². Deux systèmes de « spoofing » et de brouillage ont été positionnés sur le territoire rwandais. Un troisième a été découvert à Kanyabayonga, au Nord-Kivu, peu après la prise de contrôle de la région par le M23 et la RDF (voir annexe 25). Le 29 octobre, un drone de la MONUSCO, dont le GPS a été brouillé alors qu'il survolait une zone de combat active, s'est écrasé. Peu avant le crash, la coalition AFC-M23 avait averti la MONUSCO de mettre fin à l'utilisation de ces drones (voir annexe 26).

55. Le 25 octobre 2024, un système de défense aérienne à courte portée utilisé par la RDF a été découvert à Karuba, dans le territoire de Masisi (voir annexe 27 et S/2024/432, par. 47 à 49). Le déploiement de systèmes de défense aérienne à courte portée et de systèmes de brouillage et de « spoofing » capables d'immobiliser ou de neutraliser des moyens aériens offre un avantage tactique important au M23 et à la RDF (S/2024/432, par. 49)⁵³.

Contrôle de la production, du commerce, du transport et de l'exportation des minéraux de Rubaya par l'Alliance Fleuve Congo-Mouvement du 23 mars

56. Depuis le 30 avril 2024, la coalition AFC-M23 occupe et contrôle la ville de Rubaya et toute la zone minière autour de Rubaya, où le coltan, l'étain (cassitérite) et le manganèse continuent d'être extraits (S/2024/432, par. 138). Le 8 mai, après une reprise brève et limitée en avril 2024, l'Initiative de la chaîne d'approvisionnement en étain a de nouveau suspendu toutes les opérations de marquage dans le territoire de Masisi (voir annexe 28).

⁵² Sources : témoins oculaires, services de renseignement et de sécurité, militaires et images du Groupe.

⁵³ Sources : FARDC, services de sécurité et de renseignement et entités des Nations Unies.

57. La coalition AFC-M23 contrôlait des centres de négoce à Rubaya et Mushaki ainsi que des routes de transport des minéraux de Rubaya au Rwanda⁵⁴, où ceux-ci étaient mélangés à la production rwandaise⁵⁵. Il s'agit de la contamination la plus importante jamais enregistrée des chaînes d'approvisionnement de minéraux « 3T » (étain, tantale et tungstène) ne remplissant pas les conditions requises, dans la région des Grands Lacs, ces dix dernières années (voir par. 64 à 66 et annexe 29 plus bas).

58. La coalition AFC-M23 a exercé le monopole de l'exportation de coltan de Rubaya au Rwanda, donnant la priorité au commerce de gros volumes et prélevant des taxes importantes. L'extraction frauduleuse, le commerce et l'exportation vers le Rwanda des minéraux de Rubaya ont donc bénéficié à la fois à la coalition AFC-M23 et à l'économie rwandaise (voir annexe 30)⁵⁶.

Administration minière de l'Alliance Fleuve Congo-Mouvement du 23 mars à Rubaya

59. Dès les premiers jours de l'occupation de Rubaya, Corneille Nangaa, s'exprimant publiquement au nom de l'AFC et du M23, a exhorté les acteurs présents dans la zone à poursuivre les activités minières et commerciales (voir annexe 31, et S/2024/432, annexe 81). Le nombre total de creuseurs à Rubaya est resté pratiquement inchangé (voir annexe 32)⁵⁷. Néanmoins, la coalition AFC-M23 a expulsé de Rubaya Shamamba Barigaruye Enoch, le chef de la Coopérative des mineurs artisanaux de Masisi et de la Coalition des patriotes résistants congolais (S/2024/432, par. 138 à 140)⁵⁸.

60. La coalition AFC-M23, basée à Mushaki, a organisé tous les aspects de la production, du commerce et du transport des minéraux, mettant en place une administration semblable à celle d'un État. Elle a créé un « ministère » chargé de l'exploitation des minéraux dans la zone de commerce de Rubaya⁵⁹. Ce « ministère » a délivré des permis aux creuseurs et aux opérateurs économiques, portant la mention « République Démocratique du Congo – Province du Nord Kivu »⁶⁰. Pour en obtenir, il fallait fournir des documents d'identification. Les creuseurs et les opérateurs économiques devaient payer une redevance annuelle de 25 et 250 dollars, respectivement⁶¹. La coalition AFC-M23 a doublé les salaires des creuseurs, persuadant ainsi la plupart d'entre eux de rester à Rubaya⁶².

61. Les combattants du M23 patrouillaient la ville de Rubaya et les sites miniers pour s'assurer que les opérateurs économiques et les creuseurs ne vendaient les minéraux qu'aux opérateurs économiques congolais et rwandais autorisés par la

coalition AFC-M23. En cas de non-respect des règles imposées par la coalition, la sanction était l'arrestation et la détention à Mushaki⁶³.

Nouvelle route pour l'exportation de minéraux de Rubaya au Rwanda

62. La coalition AFC-M23 contrôlait toute la route allant de la zone minière à la frontière rwandaise (voir annexe 33). Les minéraux de Rubaya passaient par Bihambwe, Mushaki et Kirolirwe, dans le territoire de Masisi ; Kitshanga, Kizimba, Bishusha, Mulimbi, Tongo et Kalengera, dans le territoire de Rutshuru ; et Kibumba, dans le territoire de Nyiragongo⁶⁴.

63. D'après des images satellite, les minéraux arrivaient sur un parking à côté du marché de Kibumba avant d'être chargés dans des camions de gros tonnage qui venaient du Rwanda et entraient en République démocratique du Congo par Kabuhanga (voir annexe 34)⁶⁵. La coalition AFC-M23 a imposé le « salongo » (travail forcé), forçant la population à élargir les routes entre Kibumba et Kabuhanga et entre Rubaya et Kirolirwe, pour permettre le passage des camions (voir annexe 35)⁶⁶.

Estimation des volumes du commerce de minéraux et bénéfices de l'Alliance Fleuve Congo-Mouvement du 23 mars

64. À Rubaya, des personnes ayant vu les convois de minéraux de la coalition AFC-M23 ont dit que ceux-ci étaient chargés deux fois par semaine dans des convois de quatre à cinq véhicules capables de transporter jusqu'à cinq tonnes par chargement. De la mi-mai à la fin octobre, la fréquence et les volumes de minéraux quittant Rubaya ont été réguliers⁶⁷. La coalition AFC-M23 contrôlait ainsi le commerce et le transport d'environ 120 tonnes de coltan par mois.

65. La coalition AFC-M23 prélevait des taxes et des paiements en nature sur la vente et le transport des minéraux. Une taxe de 7 dollars par kilogramme était prélevée sur le coltan et le manganèse et de 4 dollars sur l'étain (cassitérite)⁶⁸.

66. L'impôt sur la production et le commerce du coltan à Rubaya a ainsi généré au moins 800 000 dollars par mois pour la coalition AFC-M23.

⁶³ Sources : personnes arrêtées et détenues par la coalition AFC-M23. Le 17 septembre 2024, la coalition AFC-M23 a arrêté huit personnes à moto qui transportaient 800 kilogrammes de coltan depuis Rubaya sur la route de Ngungu et Kalehe (Sud-Kivu), ainsi que trois opérateurs économiques qui avaient commandité le transport.

C. Opérations des supplétifs gouvernementaux et des Forces armées de la République démocratique du Congo contre les Forces démocratiques de libération du Rwanda-Forces combattantes abacunguzi

Opérations avortées des Forces armées de la République démocratique du Congo contre les Forces démocratiques de libération du Rwanda-Forces combattantes abacunguzi

67. À la suite de l'engagement pris par le Gouvernement congolais dans le cadre du processus de Luanda de « neutraliser » les FDLR (voir par. 38 plus haut), les FARDC ont lancé une brève offensive militaire contre les FDLR-Forces combattantes abacunguzi (FOCA) à la fin du mois de septembre 2024. Sur ordre du Président de la République démocratique du Congo, Félix-Antoine Tshisekedi Tshilombo, le général Chiko Tshitambwe, chef d'état-major adjoint des FARDC pour les opérations et le renseignement⁶⁹, a assumé le commandement général des opérations, court-circuitant le lieutenant-général Fall Sikabwe⁷⁰, qui occupait le poste de commandant des opérations des FARDC pour le Nord et le Sud-Kivu, et le Gouverneur du Nord-Kivu, le général de division Peter Cirimwami, connu pour avoir des liens de longue date avec les FDLR-FOCA⁷¹.

68. Ces opérations visaient à montrer que la République démocratique du Congo tenait compte de la pression exercée par la communauté internationale pour qu'elle mette fin à son soutien aux FDLR (voir annexe 36). Cette pression s'est intensifiée à la suite de la divulgation quelques jours avant l'offensive d'une note verbale confidentielle, signée par le chef de cabinet du Président, dont l'origine a été authentifiée, présentant une proposition de transfert en République démocratique du Congo de six ressortissants rwandais jugés pour génocide par le Tribunal pénal international pour le Rwanda (voir annexe 37).

69. Les 23 et 24 septembre, les Forces spéciales des FARDC, commandées par le lieutenant-colonel Donatien Bawili, ont lancé des opérations près de Sake, notamment à Shove, Kimoka, Lupango et Mubambiro, contre les positions des FDLR-FOCA, y compris le Commando de recherche et d'action en profondeur⁷². L'offensive visait à démanteler les bastions des FDLR et à « neutraliser » (c'est-à-dire capturer ou tuer) le commandant militaire « général de division » Ntawuguka Pacifique, alias Omega Israel (CDi.024), et d'autres chefs des FDLR (S/2024/432, par. 73 à 79)⁷³.

70. Les 25 et 26 septembre, la 11^e brigade des FARDC, commandée par le général Papi Lupembe, dont le but était de détruire une autre position des FDLR, a attaqué par erreur une position de l'Alliance des patriotes pour un Congo libre et souverain (APCLS), à Rusayo, dans le territoire de Nyiragongo⁷⁴. Cet incident a provoqué la colère de l'APCLS et d'autres groupes Wazalendo, qui ont menacé de se retirer des lignes de front (voir par. 80 plus bas).

71. Le Gouverneur Cirimwami a révélé les opérations prévues aux commandants des FDLR-FOCA⁷⁵, ce qui explique qu'aucun commandant important n'ait été tué ou

arrêté. Omega et d'autres chefs des FDLR se sont réfugiés à Kilimanyoka, dans le territoire de Nyiragongo, où ils ont renforcé leurs positions⁷⁶.

72. Les FARDC ont délogé de Mumbambiro et de Shove certaines unités des FDLR et arrêté plusieurs petits combattants des FDLR et de l'APCLS, dont plusieurs mineurs. Les FARDC ont également tué 3 combattants et en ont blessé 12, ainsi que plusieurs civils⁷⁷. Les 22 armes et 54 259 munitions saisies au cours de l'opération comprenaient du matériel produit en 2021 et 2022, ce qui corrobore la fourniture attestée d'armes et d'aide logistique aux FDLR et aux Wazalendo (voir annexe 38 ; S/2024/432, par. 64; et S/2023/990, par. 39).

73. L'opération a révélé les faiblesses opérationnelles des FARDC et les désaccords fondamentaux au sein de leur commandement concernant les relations entre elles et les FDLR.

Réaction des Forces démocratiques de libération du Rwanda et des Wazalendo

74. Les groupes Wazalendo, dont le commandement militaire des Volontaires pour la défense de la patrie (VDP) (S/2024/432, par. 60 à 65), ont estimé que la neutralisation prévue des FDLR – leur allié dans les opérations contre la coalition AFC-M23 et la RDF (S/2024/432, par. 70 à 72) – était une trahison (voir annexe 39). Guidon Shimiray Mwiswa, le commandant militaire des VDP/Wazalendo (S/2024/432, par. 61), a condamné l'attaque, mais appelé à l'unité entre les FARDC, les VDP et les Wazalendo (voir annexe 40).

75. Craignant de nouvelles opérations des FARDC contre les commandants et les bases des FDLR, les FDLR et les Wazalendo ont conjointement renforcé leurs défenses. La principale stratégie était d'intégrer les combattants des FDLR dans les unités des VDP/ Wazalendo et de faire comme si les FDLR n'existaient plus⁷⁸. Les commandants des FDLR ont demandé aux combattants de se faire passer pour des membres d'autres groupes (voir annexe 41)⁷⁹.

76. Dans une lettre officielle, les FDLR ont demandé au facilitateur angolais de rendre possible le dialogue avec Kigali (voir annexe 42). Il est apparu de plus en plus clairement que la question des FDLR nécessitait une solution plus globale, qui ne pouvait se limiter à une simple opération militaire⁸⁰. Le concept des opérations pour le plan de neutralisation des FDLR, approuvé par les experts à Luanda, le 31 octobre, prévoit le repérage du positionnement des FDLR et de leur matériel, puis un échange d'informations afin d'identifier les FDLR et leurs « groupes dissidents » (phase 1), avant de passer aux opérations de neutralisation et aux actions ciblées contre les FDLR (phase 2), évitant toute mesure explicite de sensibilisation des combattants ou de reddition volontaire. Ce n'est qu'à la phase 4 que sont prévus la démobilisation, le rapatriement et la réintégration des combattants des FDLR (voir annexe 13)⁸¹.

77. Le plan proposé par les services de renseignement soulève des questions fondamentales de droits humains et de droit international humanitaire. Le terme « neutralisation » laisse entendre le recours à une force excessive, y compris des mesures extrajudiciaires telles que des exécutions sommaires. La formulation « membres des FDLR » fait courir le risque de punition collective et de ciblage des

civils associés aux FDLR. Les FARDC, les Wazalendo, le M23 et la RDF – qui participeraient probablement à l'exécution du plan – ont commis de graves violations des droits humains et du droit international humanitaire dans des contextes similaires (S/2023/431, par. 56, 66 et 67 ; et S/2023/990, par. 55 à 58). L'exécution du plan pourrait également donner lieu à des rapatriements involontaires et être en violation du principe de non-refoulement.

Volte-face des Forces armées de la République démocratique du Congo et maintien de l'utilisation de supplétifs

78. Afin de réparer les relations dégradées avec les VDP/Wazalendo, les autorités militaires du Nord-Kivu ont invité, le 27 septembre, les chefs des VDP à dénoncer les attaques contre les FDLR et l'APCLS (voir annexe 43). Les chefs des VDP ont réitéré leur confiance et leur coopération. D'après les commandants des FARDC et les chefs des VDP, les autorités militaires ont discrètement demandé aux VDP et aux groupes Wazalendo de rassurer les FDLR sur le maintien de leur alliance.

79. Une semaine plus tard, le général Dieugentil Nzambe a ordonné aux unités des FARDC de suspendre les opérations contre les FDLR et les VDP et de rétablir les relations avec « toutes les unités amies » (voir annexe 44)⁸². Ces ordres ont été divulgués sur les médias sociaux, déstabilisant le processus de Luanda (voir annexe 13).

80. Malgré les appels répétés lancés au Gouvernement congolais pour qu'il mette fin à son soutien aux FDLR (voir par. 68 plus haut), celui-ci, hormis la brève opération menée contre les FDLR-FOCA, a continué de s'appuyer sur les VDP/Wazalendo et les FDLR et à coopérer systématiquement avec eux (S/2024/432, par. 60 à 79)⁸³. On trouvera à l'annexe 45 des détails sur la coopération entre les FARDC, les VDP/Wazalendo et les FDLR, leur participation aux combats et le recrutement et l'organisation des VDP/Wazalendo.

IV. Ituri

A. Organisation, mobilisation et alliance du groupe Zaïre avec la coalition Alliance Fleuve Congo/Mouvement du 23 mars

Organisation

81. Le groupe Zaïre a commencé à se faire appeler « Auto-défense des communautés victimes de l'Ituri » (ADCVI)⁸⁴. En mai et juin 2024, il a intensifié le recrutement (S/2024/432, par. 150) et formé des milliers de combattants (voir par. 83 plus bas). Il s'est doté de matériel militaire et de camionnettes et bateaux militarisés, augmentant ainsi ses moyens d'intervention sur le lac Albert⁸⁵. Il a mis en place une capacité de surveillance aérienne en déployant de petits drones commerciaux⁸⁶.

82. Bien qu'il continue à se présenter comme un groupe d'autodéfense (S/2022/479, par. 101 ; et S/2024/432, par. 149 et 150), c'est lui qui a provoqué par ses attaques la Coopérative pour le développement du Congo/Union des révolutionnaires pour la

défense du peuple congolais (CODECO/URDPC), une organisation rivale, et pris de plus en plus pour cible les FARDC et la Police nationale congolaise⁸⁷.

Recrutement et formation

83. Le groupe Zaïre/ADCVI a lancé une campagne de recrutement massif dans toutes les communautés du « G5 »⁸⁸ dans les territoires de Djugu, Mahagi et Aru (S/2023/990, par. 76 et 77)⁸⁹. Les anciens chefs et combattants expérimentés de l'Union des patriotes congolais (UPC)⁹⁰ ont été rappelés⁹¹. Le groupe Zaïre/ADCVI a également recruté dans les camps de personnes déplacées en Ituri⁹². Plusieurs milliers de combattants⁹³ ont été formés dans des centres de formation en Ituri, dans le centre de formation de la coalition AFC-M23 à Tchanzu (S/2024/432, par. 152) et en Ouganda⁹⁴.

84. En Ituri, il y a eu de grands camps d'entraînement à Bini, dans la chefferie de Mambisa, sous la direction du commandant du groupe Zaïre/ADCVI, Baraka Amos Maki (voir par. 98 à 103 plus bas et S/2024/432, par. 167 à 170), et à Bua, dans la chefferie de Bahema Banywagi, près de Tchomia, sous la direction du commandant du groupe Zaïre/ADCVI, Mandro Saliko⁹⁵. Des recrues ont également été formées à Mabanga, Katoto, Nzebi, Dhego, Berunda et Bua, dans le territoire de Djugu⁹⁶.

85. Les personnes formées à Bini ont dit que la plupart des formateurs étaient d'ex-combattants de l'UPC. Ils ont également mentionné la rotation d'instructeurs militaires en provenance de l'Ouganda et du Rwanda⁹⁷. La formation à Bini (tactiques de combat de base, camouflage et maniement des armes) a duré un mois⁹⁸. Certaines recrues ont reçu une formation avancée en artillerie (voir annexe 46). À l'issue de leur formation, les combattants ont reçu une carte d'identification, imprimée à Bini (voir annexe 47). Puis, ils ont été envoyés à Berunda pour recevoir des uniformes et sont retournés chez eux attendre leurs ordres de mobilisation⁹⁹.

86. Fin septembre, les camps d'entraînement de Bini et de Bua ont été attaqués et détruits par les FARDC. À cette date, le camp de Bini avait déjà formé plus de 3 000 combattants¹⁰⁰.

87. On trouvera à l'annexe 48 des informations supplémentaires sur la formation des combattants du groupe Zaïre/ADCVI et du Mouvement d'autodéfense populaire de l'Ituri (MAPI) au centre de formation de la coalition AFC-M23 à Tchanzu.

Alliance Fleuve Congo-Mouvement du 23 mars et objectifs du groupe Zaïre en Ituri

88. Le groupe Zaïre/ADCVI a renforcé son alliance avec la coalition AFC-M23 en vue de mener des attaques contre les FARDC en Ituri. Avec le soutien de la coalition AFC-M23, le groupe Zaïre/ADCVI a élaboré une stratégie globale, repérant les zones d'opérations, les bases opérationnelles, les itinéraires de transit des armes et les mouvements de troupes sur le lac Albert depuis l'Ouganda, en prévision d'un assaut de grande envergure¹⁰¹.

89. La coalition AFC-M23 a maintenu son intention de rallier tous les groupes armés de l'Ituri à sa cause (S/2024/432, par. 152). Ces derniers mois, Nangaa et d'autres représentants de la coalition AFC-M23 ont pris contact avec des chefs de la Force de résistance patriotique de l'Ituri (FRPI) et de la CODECO-URDPC¹⁰². La vision de développement économique et de réconciliation de la coalition AFC-M23 en Ituri, promettant l'égalité des chances pour toutes et tous, en particulier pour les communautés marginalisées telles que les Lendu et les Ngiti, a été accueillie avec grand intérêt¹⁰³.

90. Au moment de la rédaction du présent document, la FRPI et la coalition AFC-M23 étaient en cours de négociation¹⁰⁴. La CODECO-URDPC, adversaire de longue date du groupe Zaïre et généralement considérée comme le principal obstacle à la prise de contrôle rapide de l'Ituri par la coalition AFC-M23, a également été contactée par l'Alliance Fleuve Congo. Celle-ci reste convaincue qu'une promesse d'alliance entre les Ngiti et la FRPI persuaderait la CODECO-URDPC, dominée par les Lendu, de les rejoindre¹⁰⁵.

Des chefs faisant l'objet de sanctions s'allient avec la coalition Alliance Fleuve Congo-Mouvement du 23 mars

91. Thomas Lubanga Dyilo (CDi.007) et Yves Khawa Panga Mandro (CDi.009), visés par des sanctions, ont joué un rôle clé dans le renforcement de la collaboration entre la coalition AFC-M23 et le groupe Zaïre/ADCVI (S/2024/432, par. 152)¹⁰⁶. Agissant en tant qu'« autorités morales » du groupe Zaïre/ADCVI, ils ont facilité le recrutement et la formation et organisé le déplacement des combattants du groupe à Tchanzu, pour l'entraînement, et le redéploiement en Ituri. Innocent Kaina, alias India Queen (CDi.004), actuellement un commandant influent du M23, a travaillé en étroite collaboration sur ces questions avec Lubanga, à Kampala¹⁰⁷.

92. Ces trois personnes visées par des sanctions ont toutes été vues à Kampala depuis juillet 2024. Lubanga a quitté l'Ituri en juillet et s'est installé à Kampala¹⁰⁸, où il a rencontré Corneille Nangaa au moins une fois¹⁰⁹.

93. La ferme d'Yves Kahwa dans le district de Hoima, en Ouganda, près du lac Albert, a servi de point logistique et de transit aux combattants du groupe Zaïre en Ituri, dont certains qui, au moment de la rédaction de ce rapport, revenaient de la formation à Tchanzu et étaient basés au lac Albert, côté ougandais, prêts à se rendre

en Ituri pour combattre¹¹⁰. En juin et juillet 2024, Khawa a facilité le transfert d'armes et de munitions aux combattants du groupe Zaïre/ADCVI (S/2022/967, par. 88) ainsi que la formation au camp de Berunda¹¹¹.

94. En réponse aux questions du Groupe d'experts concernant la présence et les activités récentes à Kampala de ces personnes visées par des sanctions, le Gouvernement ougandais a affirmé ne pas être au courant de leur présence sur le sol ougandais¹¹².

95. Des chefs du groupe Zaïre, le « général » Logo Marine¹¹³ et Baraka¹¹⁴ (voir par. 98 à 103 plus bas), se sont également souvent rendus en Ouganda. Marine s'est installé à Kampala, travaillant en étroite collaboration avec Lubanga. Il s'est rendu au Rwanda et à Bunagana, en République démocratique du Congo, pour rencontrer les représentants de la coalition AFC-M23¹¹⁵, et a facilité la formation à Tchanzu des éléments du groupe Zaïre¹¹⁶.

96. Fin juillet 2024, Lubanga a envoyé des représentants en Ituri pour réconcilier le MAPI et le groupe Zaïre/ADCVI, fusionner les deux factions¹¹⁷ (S/2022/967, par. 87 à 91 ; et S/2023/431, par. 113 à 117) et les rapprocher de la coalition AFC-M23. Bien que les chefs du MAPI aient décidé de conserver leur indépendance, le MAPI et le groupe Zaïre/ADCVI ont accepté de collaborer avec la coalition AFC-M23. Le porte-parole du MAPI, Benjamin Bahati, a rejoint la coalition AFC-M23 à Bunagana (voir annexe 49)¹¹⁸.

97. Cette mobilisation et collaboration à grande échelle avec la coalition AFC-M23 s'est accélérée depuis août 2024, des réunions fréquentes ayant eu lieu dans divers endroits en Ouganda¹¹⁹.

B. Contrôle de la production d'or par les groupes armés en Ituri

98. L'exploitation de l'or en Ituri continue d'échapper au contrôle de l'État (S/2022/967, par. 95 et annexe 64), rapportant au moins 140 millions de dollars par an aux groupes armés et aux réseaux criminels¹²⁰. Les statistiques révèlent un écart important entre les estimations de la production d'or artisanale à petite échelle et les chiffres réels enregistrés. D'après un rapport officiel, la production d'or artisanale à petite échelle en Ituri serait de 1 800 kilogrammes par an¹²¹. Toutefois, au premier semestre 2024, le Service d'assistance et d'encadrement minière artisanale et à petite échelle (SAEMAPE) et la Coopérative des négociants d'or de l'Ituri (COONORI)¹²²

ont enregistré 17 kilogrammes de production d'or et 24 kilogrammes d'achat d'or, respectivement ¹²³.

99. Les autorités minières ont attribué cet écart à l'accès limité aux sites contrôlés par les groupes armés¹²⁴. Bien que les coopératives minières payent la Police nationale congolaise et les FARDC pour leur protection¹²⁵, la plupart des sites miniers sont restés sous le contrôle de groupes armés, tels que la CODECO-URDPC et le groupe Zaïre/ADCVI dans le territoire de Djugu, et la FRPI, le Front patriotique et intégrationniste du Congo et le MAPI dans le territoire d'Irumu, la CODECO-URDPC étant également active dans le territoire de Mahagi (S/2024/432, par. 163 ; S/2023/990, annexe 50 ; et S/2022/479, par. 107 à 123)¹²⁶.

100. En conséquence, les propriétaires des principales coopératives minières de l'Ituri, tous actionnaires de la COONORI, ont payé les chefs des groupes armés contrôlant les sites miniers, notamment Baraka du groupe Zaïre/ADCVI et « 50 cent », le chef de groupe armé de la CODECO, afin de protéger leurs biens et leurs activités (voir annexe 50)¹²⁷. Ces paiements à des groupes armés sont passibles de sanctions.

101. Comme il est indiqué précédemment, Baraka, un commandant du groupe Zaïre/ADCVI basé dans la ville de Mabanga, dans le territoire de Djugu, exerçait un contrôle exclusif sur toutes les activités économiques de la chefferie de Mambisa (S/2024/432, par. 167 à 170 ; et S/2023/990, annexe 47).

102. Les activités illégales de Baraka, notamment l'extraction d'or, les impôts et les frais aux points de contrôle, ont généré des revenus d'environ 1,6 million de dollars par mois, rien qu'avec la production d'or. Les recettes provenant des taxes illégales imposées aux entreprises locales et des frais aux points de contrôle ont rapporté environ 70 000 dollars de plus. Ces sommes, blanchies au travers d'investissements immobiliers et commerciaux à Mabanga, Iga-Barrière et Bunia, ont permis à Baraka de renforcer son influence en tant qu'acteur économique dans la région et chef de groupe armé (voir annexe 51).

103. Les actes de Baraka relèvent de l'exploitation illicite de ressources naturelles, qui est une infraction passible de sanction sous le paragraphe 7 g) de la résolution 2293 (2016) du Conseil de sécurité.

V. Sud-Kivu

A. Mobilisation de l'Alliance Fleuve Congo-Mouvement du 23 mars

104. Les territoires du nord du Sud-Kivu ont été touchés par des tirs d'obus provenant des positions du M23 et de la RDF dans le territoire de Masisi, et par des incursions sporadiques du M23 et de la RDF dans le territoire de Kalehe au Sud-Kivu, comme à Lumbishi à la fin du mois de mai 2024 (voir annexe 52). La coalition AFC-M23 a continué de mobiliser le soutien des groupes armés et des populations locales¹²⁸.

105. Bernard Byamungu (CDi.038), visé par des sanctions, est un commandant de la coalition AFC-M23 opérant autour de Sake (S/2024/432, par. 41) qui a joué un rôle clé dans l'établissement de liens avec certaines factions Raïa Mutomboki et Maï-Maï Kirikicho, entraînant des défections au profit de la coalition AFC-M23 (voir annexe 53).

106. Les Twirwaneho, qui ont collaboré avec la coalition AFC-M23¹²⁹, et la Résistance pour un État de droit au Burundi (RED Tabara), qui a reçu un soutien du Rwanda¹³⁰, ont formé une alliance de facto et sont devenus des supplétifs de la coalition AFC-M23 (S/2024/432, par. 179)¹³¹. Les Forces armées « Biloze Bishambuke » (FABB), dirigées par Ngomanzito, ont secrètement collaboré avec la coalition AFC-M23 grâce aux liens établis avec la RED Tabara et les Twirwaneho (S/2024/432, annexe 106), malgré la signature d'un pacte de non-agression avec les groupes Maï-Maï (voir par. 109 plus bas)¹³².

B. Mobilisation des Wazalendo

107. La crise de la coalition AFC-M23 a amené les groupes Wazalendo du Sud-Kivu à se regrouper (S/2024/432, par. 175 à 177) sous un commandement unique, afin de former un front uni contre la coalition AFC-M23.

108. Fin juillet et début août 2024, des rencontres avec des représentants de groupes armés ont été organisées par Justin Bitakwira, député à l'Assemblée nationale de la République démocratique du Congo, connu pour ses discours contre les Tutsi (S/2023/990, annexe 34), et Jules Mulumba, porte-parole des VDP et officier de liaison avec les autorités de la République démocratique du Congo (S/2024/432, par. 61). Deux représentants de la force de défense nationale, connue sous le nom de Réserve armée de la défense (RAD), étaient également présents¹³³. L'objectif était de réconcilier les Maï-Maï Yakutumba et les FABB et de convaincre les groupes Maï-Maï de soutenir les Wazalendo au Nord-Kivu et de les dissuader de rejoindre la coalition AFC-M23 (S/2024/432, annexe 106). Une dizaine de groupes Maï-Maï des territoires de Fizi, de Mwenga et d'Uvira étaient présents, dont les Maï-Maï Yakutumba, dirigés par William Yakutumba (CDi.043), les FABB, dirigés par Ngomanzito, et les Forces des patriotes pour la défense du Congo (FDPC), dirigées par Ebuela Mtetezi¹³⁴.

109. Ces réunions ont permis d'apaiser les tensions et de mettre fin aux affrontements entre Yakutumba et Ngomanzito (voir par. 106 plus haut). Les groupes armés présents ont signé un pacte de non-agression et se sont engagés à soutenir les opérations des FARDC contre la coalition AFC-M23, la Red Tabara et les Twirwaneho (voir annexe 54)¹³⁵. Encouragés par la promesse faite par Bitakwira de les intégrer dans la RAD, les groupes se sont organisés en quatre brigades sous le commandement général de William Yakutumba, avec les Maï-Maï Makanaki à la tête des opérations à Uvira, les FABB à Itombwe, les FDPC du « général » Ebuela Mtetezi à Baraka et les Maï-Maï Yakutumba à Fizi¹³⁶.

110. Les rencontres organisées à Baraka et à Uvira ont provoqué la colère de la communauté Banyamulenge et des Twirwaneho, qui se sont sentis menacés par cette grande mobilisation hostile (voir annexe 55). Après une courte accalmie, les affrontements entre Twirwaneho et groupes Maï-Maï ont repris début septembre, tandis que les affrontements entre la RED Tabara et une coalition Maï-Maï-Force de défense nationale du Burundi ont repris fin septembre 2024 (voir annexe 56).

C. Dégradation de la sécurité après le retrait de la Mission et exactions commises par les Wazalendo

111. Les incidents de sécurité impliquant des groupes armés et les FARDC dans le Sud-Kivu ont augmenté depuis le désengagement complet de la MONUSCO le 30 juin 2024¹³⁷. L'incapacité des forces de sécurité de l'État à se déployer pleinement ou à opérer dans les zones d'où la MONUSCO s'est retirée a rendu la population civile plus vulnérable aux attaques et aux exactions (pillages, vols, harcèlement, violence sexuelle, meurtres et extorsion) des groupes armés et des forces de sécurité de l'État¹³⁸.

112. Les groupes armés au Sud-Kivu ont continué de profiter de la crise de la coalition AFC-M23 pour se remobiliser, consolider et étendre leur contrôle territorial et exploiter les ressources naturelles (S/2024/432, par. 175 à 177). En redéployant leurs troupes vers le nord du territoire de Kalehe pour combattre la coalition AFC-M23 et la RDF¹³⁹, les FARDC ont laissé un vide sécuritaire, rapidement comblé par les groupes armés¹⁴⁰.

113. Dans le sud du territoire de Fizi, les combattants Maï-Maï Yakutumba se comportaient à Baraka comme des autorités de facto, procédant à des arrestations arbitraires, érigeant des points de contrôle illégaux et imposant des taxes à la population et aux organisations internationales ou humanitaires¹⁴¹. Dans les territoires du nord (Kalehe, Kabare et Shabunda), les factions du Mouvement congolais pour la défense du peuple et de l'intégrité nationale, des Maï-Maï et de Raïa Mutomboki ont alimenté l'insécurité en érigeant des points de contrôle illégaux, en attaquant le personnel d'organisations non gouvernementales internationales et nationales, en torturant et en enlevant des civils et en perpétrant des violences sexuelles, actes passibles de sanctions¹⁴².

VI. Recommandations

114. Le Groupe d'experts fait les recommandations ci-après :

Au Gouvernement de la République démocratique du Congo

a) Imposer des sanctions aux FARDC et aux acteurs politiques qui collaborent avec les FDLR, y compris les personnes responsables des transferts d'armes et de munitions (voir par. 67, 72 et 78 à 80 plus haut) ;

Aux Gouvernements de l'Angola, de la République démocratique du Congo et du Rwanda, au Conseil de sécurité et à la Mission de l'Organisation des Nations Unies pour la stabilisation en République démocratique du Congo

b) Veiller à ce que les mesures de rapatriement, de réinstallation ou d'arrestation prévues dans le plan de neutralisation des FDLR soient appliquées dans le strict respect des normes juridiques internationales (voir par. 76 et 77 plus haut) ;

Au Gouvernement du Rwanda

c) Mettre fin aux perturbations des systèmes GPS afin d'éviter tout impact négatif sur les opérations aériennes civiles et humanitaires et sur celles des Nations Unies en République démocratique du Congo (voir par. 54 et 55 plus haut) ;

Aux Gouvernements de la République démocratique du Congo et du Rwanda

d) Enquêter sur les individus et les réseaux impliqués dans la contrebande de minéraux en provenance de Rubaya à destination du Rwanda et les poursuivre (voir par. 57 et 58 plus haut) ;

Au Gouvernement de l'Ouganda

e) Surveiller les personnes visées par des sanctions qui se trouvent en Ouganda et rendre compte au Comité du Conseil de sécurité créé par la résolution [1533 \(2004\)](#) concernant la République démocratique du Congo ou au Groupe d'experts sur la République démocratique du Congo (voir par. 91 à 97 plus haut) ;

Aux Gouvernements de l'Ouganda et de la République démocratique du Congo

f) Faciliter l'échange d'informations en temps utile entre les UPDF et les FARDC dans le cadre de l'opération Shujaa, et coopérer avec la MONUSCO pour minimiser l'impact sur les civils (voir par. 11 à 14 plus haut).

Killing and arrest of ADF commanders

Meurtre et arrestation de commandants de l'ADF

Several recent escapees from ADF captivity, along with arrested ADF collaborators and captured or surrendered combatants, reported that the latest Shujaa operations inflicted heavy losses on ADF forces and positions, including Seka Baluku's Madina camp. Numerous combatants, as well as hostages and dependents, were killed or injured.

ADF commanders killed

Recently escaped former hostages and former combatants offered insight into the latest developments and reported on the killing of several high-profile commanders.

(1) Braidia¹⁴³ alias Mzee Pasta

Braidia was confirmed dead¹⁴⁴ by at least eight former hostages, including two eyewitnesses, i.e. two of Braidia's former wives.

One of Braidia's wives was with him when he passed away, on 14 August.¹⁴⁵ Sources including UN and FARDC were still reporting on Braidia's movements up until that date, which makes it plausible that Braidia died on or around 14 August.

Several sources confirmed that Braidia was killed near Biakato,¹⁴⁶ while he was leading a smaller group of combatants and dependents towards Madina. According to his former wife who was with him, Braidia was killed by friendly fire. He had left the group to go on a reconnaissance mission around their position, and left instructions to his men to shoot and kill anyone who approaches them. When Braidia returned, he was mistaken by his men to be an enemy combatant and shot. Braidia died of his injuries soon thereafter, in the presence of his wife. Another former hostage who was with this group has witnessed Braidia's death and gave an identical account of the circumstances of his killing.

According to the wives of Braidia, after his death Seka Baluku gave order for Braidia's dependents to be moved to Madina.

(2) Amigo

At least four recent escapees confirmed the death of Amigo, who died shortly after Braidia. Two of Braidia's former wives saw Amigo's body and confirmed his identity.¹⁴⁷ One of these women, who had been abducted by Amigo several years ago, witnessed his death from a fatal head injury caused by an exploding bomb launched by Shujaa forces during an attack. She believes Amigo was over 50 years of age.

The incident occurred as Amigo was leading a group of fighters and Braidia's surviving family members to Madina, following orders from Seka Baluku. Braidia, who had left earlier with one of his wives, had left his other wives and children at Defender's camp (at this point, Braidia's and Tabani's camps had merged; see para. 9 and annex 4). Upon learning of Braidia's death, Amigo's group set out for Madina to join the group Braidia had been leading at the time of his death. However, they were attacked before linking up with the other group, which was waiting for Amigo's group's arrival. After Amigo's death, the two groups eventually merged, only to be attacked again by Shujaa forces. This second attack scattered the group and allowed several of Braidia's wives and dependents to escape. The fate of the remaining members of the traveling group remains unknown.

¹⁴³ Also called Twaburani.

¹⁴⁴ His death was also reported by FARDC and UN sources.

¹⁴⁵ She explained that she recalled this date because she saw it displayed on her phone. She was allowed to have a small phone only to use it as a torch. She also carried Braidia's phone with her for safekeeping. After Braidia's death, the phones were confiscated from her by the combatants.

¹⁴⁶ UN and FARDC sources.

¹⁴⁷ The same two wives who testified about Braidia's death. They were both on the journey heading to Madina when these events occurred, and their testimonies are concordant.

(3) Seka Issa Papasi

Seka Issa Papasi was, according to testimonies of former hostages, including his wife, an operational commander in the camp of Tabani. According to Papasi's former wife, he was reporting to commander Seka Dadi, who was under Seka Umaru.¹⁴⁸ One former hostage identified him as the commander who had abducted her.

Seka Papasi had left the camp of Tabani around Biakato, Mambasa territory in Ituri province, and walked with a group of approximately 50 fighters commanded by "Docta" Kavugo,¹⁴⁹ and some dependents. On the way to Manguredjipa, they were attacked by UPDF, and Seka Papasi was killed.¹⁵⁰ Three of Seka Papasi's wives were already in Manguredjipa, sent ahead by Papasi with the assurance that he was going to join them there later. Papasi told his wife that ADF wanted to expand Islam to Lubero territory, and they wanted that in the future all ADF fighters go there for mandatory prayers, as they were going to establish a famous mosque there.

ADF fighters reported killed by Ugandan authorities, and updates on Meddie Nkalubo and Mulalo

The government of Uganda also informed the Group, in an official communication dated 1 November 2024 and transmitted to the Group on 5 November, that a number of "top ADF terrorists including Muraaro Segujja, Feza, Musa Kamusi, Boaz, Rubangakene, Abu Yassin, Bagdad, Fazul and Mzee Mubindio have been *put out of action*". The Group was yet unable to independently verify this information.

At the end of 2023, UPDF had reported that high-profiled ADF commanders Meddie Nkalubo¹⁵¹ alias Punisher, and Mulalo¹⁵² were killed. At the time, the Group reported that it was unable to confirm their deaths (see S/2023/990, para. 15). Since then, both commanders resurfaced in narratives of ADF activities throughout 2024. Meddie Nkalubo is reportedly very active,¹⁵³ and would be present in the constellation of groups that moved with Musa Baluku northwards into the Epulu reserve, North of the Mambasa–Lolwa–Komanda axis, as acknowledged by the government of Uganda in its communication dated 1 November 2024.

As for Mulalo, while he was reported alive and active in the first part of 2024, several former hostages and combatants interviewed by the Group recently reported that he was killed around April-May 2024. Reports of his activities seized after this date, suggesting that he is in fact "out of action". However, reliable sources close to ADF claimed that he is alive, although he has been severely injured and was evacuated for medical care. The possibility that the news of his death is used as a cover for him evading detection cannot be excluded. The Group can therefore not confirm his killing.

ADF commanders arrested

Toyo Adallah, responsible for resupply in Baluku's Madina camp, was arrested on 7 July 2024. The Ugandan government reported¹⁵⁴ that in fact Toyo surrendered, as he was facing a death sentence by ADF for having committed adultery.¹⁵⁵ At the time of his surrender, Toyo was on mission in Bahaha, Mambasa territory, to pick up supplies for Madina camp.¹⁵⁶ Toyo was taken by UPDF to Uganda, where is currently held.

¹⁴⁸ Several sources confirmed that Tabani, Seka Umaru, and Seka Dadi were together in the camps that merged around July 2024.

¹⁴⁹ Several sources, including FARDC intelligence and former hostages who escaped from the area of Manguredjipa confirmed that a group that joined Abwakasi were under the command of Dr. Kavugo. Dr. Kavugo was with Tabani before, towards Mamove - Biakato. Because of the attacks by Operation Shujaa, they crossed westwards of the RN44 on 18 September – an exchange of fire between Shujaa and Kavugo's group was confirmed by FARDC sources. Dr. Kavugo crossed with a few dependants and reached Abwakasi.

¹⁵⁵ The fact that he was sought by ADF for having committed adultery was confirmed by former ADF combatants.

¹⁵⁶ Former combatants.

The Group inquired with the Ugandan government about the arrest, on 18 May 2024, of an ADF commander known as Anywari Al Iraq, or AA, an alleged IED expert hailing from the Busia district in Eastern Uganda. The capture of Anywari Al Iraq was reported in Ugandan media¹⁵⁷ and attributed to a successful Shujaa operation, which also led to the seizing of several items, including:

- One sub-machine gun (SMG)
- 45 rounds of ammunition
- Three walkie-talkies
- One propellant charge
- An assortment of improvised explosive device (IED) making materials

The only image of the seized materiel was of an SMG:

The government of Uganda did not provide any information about the arrest of this individual. Instead, it informed the Group of the arrest of ADF operatives Yakut Musana and Abdul Rashid Kyoto aka Njovu, without providing any further details.¹⁵⁹

Movement of ADF camps and commanders

Mouvement des camps et des commandants de l'ADF

ADF territorial configuration prior to launching Phase IV of Operation Shujaa (May 2024)

Prior to the launching of phase IV of Operation Shujaa on 20 May 2024, ADF groups were operating in the northern part of Beni territory and in the southern Irumu territory of Ituri province, attacking civilians and attempting to avoid contact with security forces. ADF cells were particularly active in the “death triangle” north of Beni and Mavivi, along the RN4 around Oicha, and in the Mbau-Kamango area (S/2024/432, paras. 9-11).

ADF cells were dispersed across five major areas, as illustrated below, with Seka Baluku positioned west of Butani hill; Mzee Meya, Rafiki and Lumisa in the area of Mont Hoyo Reserve; Tabani, Braida (NW of Eringeti) and Defender¹⁶⁰ (around Mayi-Moya, SW of Eringeti) were separate, although within a day’s walking distance from each other. Abwakasi was further south, moving around in the Mavivi-Oicha-Mangina area.

Impact of Shujaa operations on ADF's territorial configuration (May-July 2024)

Operation Shujaa targeted these camps with both aerial and ground operations.¹⁶¹ Due to the heightened military pressure, ADF groups – weakened and with their positions compromised – were compelled to move. High mobility has always been their survival strategy (S/2023/990, para. 15).¹⁶²

ADF cells began moving along three main axes.¹⁶³

- (1) **Madina camp of Musa Baluku**, absorbing an increased number of dependents and hostages, began moving north, along the Eringeti – Komanda axis into Mambasa territory of Ituri Province, advancing north of Lolwa. Mzee Meya Sebagala's group, called to offer combat support and protection to Madina, began moving from the area north of Eringeti.
- (2) West of the Oicha-Eringeti axis (west of RN4), moving towards Biakato (situated along the RN44) the loose constellation of the cells led by **Braida, Tabani, and Kasibante aka Defender were also in westward movement**. According to former hostages, their camps were at about one day walking distance apart, not too far in case they needed combat support one from the other. Witnesses reported frequent visits and exchanges between these camps.
- (3) Towards the end of May and early June, **Abwakasi** began an aggressive push south-west towards Lubero territory, crossing Bapere sector towards the Bandulu forest area, passing through Kambau and Manguredjipa. Sources indicated that Abwakasi's intention was to drive the attention of Shujaa operation away from Baluku's Madina camp,¹⁶⁴ which was moving north, in the opposite direction. Other witnesses¹⁶⁵ reported an additional intention to scout new territories for ADF in Lubero.

Merging into fewer mega-camps since July 2024

As camps were in movement throughout May-June along the three axes (see above), relocating under Shujaa pressure, by July they began converging into a few mega-camps. This was a highly unusual configuration for ADF.

The six camps merged into three mega-camps: (1) Madina of Seka Baluku, (2) the constellation of Tabani-Braida-Defender groups, and (3) Abwakasi's camp in Lubero.

(1) Madina camp, commanded by Seka Baluku

Madina, the main camp led by Seka Baluku, traditionally housed ADF's core leadership and most dependents. Although it has been displaced multiple times in the past, Madina camp only relocated entirely when it was under serious threat. Since May-June, Madina absorbed a lot more civilians from other camps, with former hostages and combatants reporting the presence of over 1,000 individuals, including at least 200 fighters.¹⁶⁶

Mzee Mayor and Lumisa have merged into Madina to offer protection and combat support and were moving along with Baluku.

¹⁶⁶ Confirmed by UN and FARDC sources.

As of July 15, Madina was seen moving north of the RN4 near Lolwa, fleeing a UPDF airstrike, moving into Mambasa territory,¹⁶⁷ with ADF incursions and attacks on civilians reported in the area since July 2024.¹⁶⁸

By the end of August – early September, Baluku’s camp was reported some 30 km north of Lolwa.¹⁶⁹

According to FARDC and former hostages interviewed by the Group, Baluku’s intention was to find refuge in Epulu forest inside the Okapi Wildlife Reserve, a densely forested area with difficult access and without FARDC and UPDF presence, and outside the officially agreed area of Shujaa operations.

(2) Tabani – Braidia – Defender camp, under general command of Seka Umaru

Former hostages and combatants from the camps of Braidia, Tabani and Defender have consistently reported that the three camps have merged by latest July 2024. The commanders decided to merge their camps as each of these camps had been badly affected by the Shujaa attacks, lost many combatants, and were vulnerable to further attacks. Seka Umaru, Baluku’s trusted deputy, was commander of the merged camp, which at the time of the merger was located around Biakato. Due to the large number of dependents in the newly merged camp, former hostages reported that the decision was made, on Baluku’s orders, to move some of the dependents to Madina (mainly wives and children of commanders, and young girls who had to be married). It is during such a voyage towards Madina that Braidia and Amigo were killed, in August (see above annex 1).

Since then, former hostages reported that this merged mega camp was hit at least once by Shujaa operations and changed its location at least once.¹⁷⁰ Since August-September, Defender allegedly moved again with a smaller group of fighters, west of Biakato.¹⁷¹

Small detachments from the Tabani-Braidia-Defender camp traveled to Manguredjipa to join Abwakasi’s group. While some dependents moved towards Madina, three hostages reported overhearing that the combatants accompanying the civilians planned to return from Madina and join Abwakasi in Manguredjipa. At least three recently escaped hostages indicated they were en route to Manguredjipa in a group led by Seka Dadi, who succeeded Braidia after his death. One hostage escaped from Manguredjipa on September 29, confirming that at least part of the group arrived there. FARDC confirmed Seka Dadi’s presence with Abwakasi, as they clashed with this group on 23 September near Manguredjipa.

Hostages from Tabani’s camp also reported that Tabani ordered a group to travel to Manguredjipa, led by commanders Docta Kavugo and Seka Papasi—the latter was killed during the journey, while Docta Kavugo reportedly lost his way.

(3) Abwakasi’s group in Lubero

From July onwards, Abwakasi has been operating in Bapere sector in Lubero territory, where he was joined by other smaller group detachments from the camps of Braidia and Tabani (see above). Alongside Abwakasi, the presence of commanders Chalamanda¹⁷² and Seka Dadi¹⁷³ was reported.¹⁷⁴

Abwakasi’s presence in the area was reported until the time of drafting this report, where he continued exploiting and destabilizing the forested areas west of Manguredjipa, which likely provided essential resources for the group’s survival.

Territorial configuration in October-November 2024

The territorial configuration did not change significantly since July-September. Hostages who recently escaped from the various camps continued reporting the same general locations. In early November, the ADF groups north of Lolwa – Baluku’s enlarged group – were conducting incursions including further east of Komanda, along the Komanda-Luna axis, impacting the area inhabited by the Ngiti, and clashing with the FRPI group defending the territory.¹⁷⁵ This suggests that ADF sub-groups continue scouting new territories to establish camps, restore supply networks, and evade Shujaa operations.

ADF presence continued being reported west of Biakato. Abwakasi’s group was still in the Bapere sector in Lubero territory, including along the border Mambasa territory. In the recent weeks, there has been a temporary lull in attacks against civilians.

The Ugandan government reported to the Group that, as on 1 November 2024, ADF was “separated into two major groups, due to the heightened military pressure”, without this having impacted the group’s command structure:

- One group is headed northwards into Epulu Game Reserve, north of the Komanda-Lolwa-Mambasa road. The “top ADF commanders in this area include Musa Baluku, Hood Lukwago, Mzee Mayor Sebagala and Meddie Nkablubo, among others.”
- The second group is headed westwards into Tshopo Province, west of the Mambasa-Biakato-Beni-Butembo “highways”. The “top ADF commanders in this area are Abu Waquas [Abwakasi, n.n.], Chalamanda, Sheikh Hadad and Mzee Jamal.”

The Ugandan government further stressed in its letter that the “Joint Forces continued to monitor these movements and maintain pursuit in order to neutralize them and consolidate achievements”.¹⁷⁶

UPDF drone crash on 11 August 2024 outside Shujaa operational area raising tensions

Crash d'un drone de l'UPDF le 11 août 2024 à l'extérieur de la zone opérationnelle de Shujaa provoquant des tensions

On the evening of 11 August 2024, a military drone with Ugandan flag markings crashed on a hill in Bwisabuni village, Djugu territory, about 10 kilometers southeast of Bunia. FARDC retrieved the drone, claiming that the flight recorder and some other technical parts were allegedly taken by local armed elements who first discovered the wreckage.¹⁷⁷

Pictures of the wreckage received from UN source:

Images of the wreckage taken at the crash site on 11 August 2024. Provided by military expert source.

Based on the images of the wreckage and reports written by military experts, that the Group obtained confidential copies of, the drone was identified as the **HERMES 900 Starliner, manufactured by ELBIT SYSTEM.**¹⁷⁸

The drone has an endurance of over 30 hours and can fly at a maximum altitude of 30,000 feet (9,100 meters). Its main mission includes reconnaissance, surveillance, and communications relay. The cost of this drone ranges between \$6.8 million and \$8.8 million.¹⁷⁹

Technical Specifications:

- Wingspan: 15 meters
- Weight: 970 kg
- Payload capacity: 300 kg
- Payload options: Electro-optical/infrared sensors, synthetic aperture radar, communications, electronic intelligence, electronic warfare, hyperspectral sensors.

The HERMES 900 is a medium-sized, multi-payload drone with medium altitude and long endurance, succeeding the HERMES 450 series—one of the most widely used military drones globally. It is configured for tactical, operational, or strategic observation missions.

Example image of a HERMES 900

A source with access to FARDC and UPDF high command, with direct knowledge of the matter, reported that UPDF acknowledged ownership of the drone, and that the crash sparked significant frustration from FARDC officials. The source claimed that UPDF's explanation for the drone's presence, claiming it was intended for operations in Komanda, was vague and inconsistent. The fact that the drone crashed at night raised further concerns about its intended mission. The FARDC expressed strong discontent with the UPDF's lack of advance notification, emphasizing that UPDF should follow the example set by MONUSCO, which consistently informs FARDC prior to launching drones in Congolese airspace. FARDC intelligence sources claimed that the UPDF surveillance drone violated Congolese airspace in an area not covered by the Shujaa Operation. Several high ranking FARDC officers voiced their suspicion that the drone has been conducting reconnaissance in Djugu territory due to ongoing security issues near Lake Albert, claiming previous sightings of a similar drone flying over Congolese airspace in the area of Tchomia. This could not be confirmed by the Group.

This incident has highlighted ongoing issues regarding coordination and communication between the two forces.

Despite unofficially claiming a serious breach of Congolese airspace represented by the incident, the Group is unaware of any official complaint filed by the Congolese authorities with the Government of Uganda.

Annex 4 (para. 14)**Expansion of Operation Shujaa in pursuit of fleeing ADF groups****L'extension de l'opération Shujaa à la poursuite des groupes d'ADF en fuite**

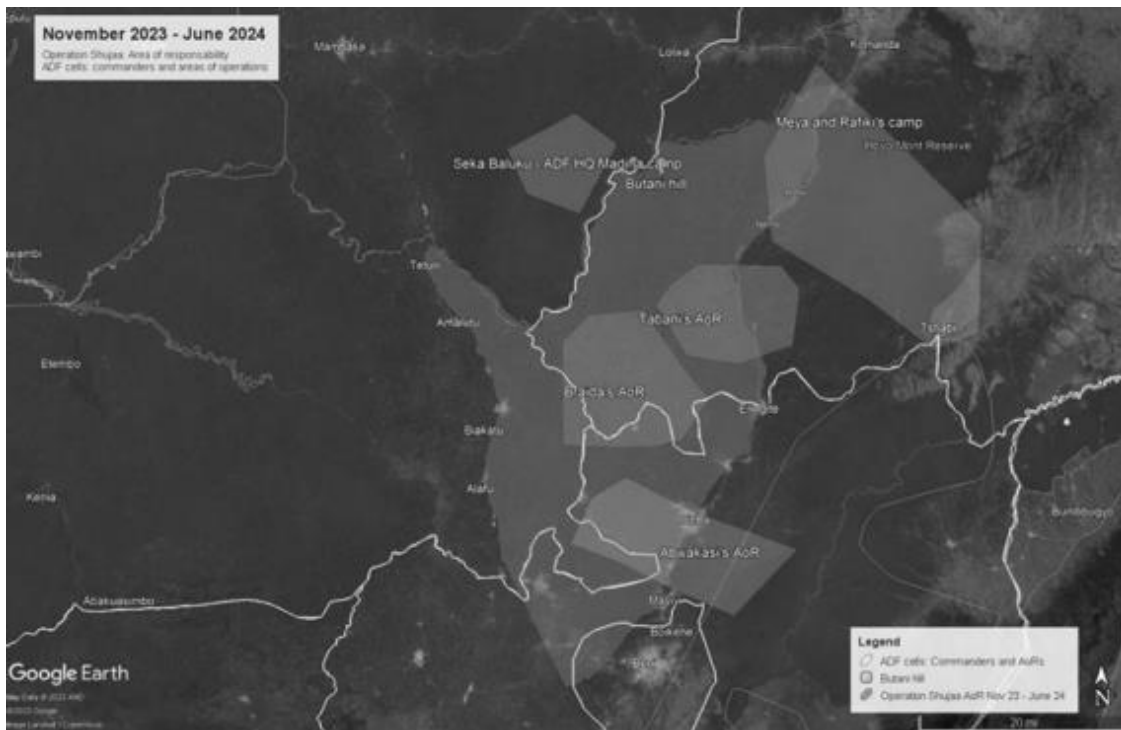

The fourth phase of Operation Shujaa began in November 2023 (S/2024/432, annexes 1 and 2). While it was initially slow and unsuccessful, it was relaunched on 20 May 2024, when it finally gained momentum, prompted by a shift in strategy to address the ADF's increased mobility and expanding presence. While earlier phases were confined to regions near the Uganda-DRC border and RN4, the latest phase expanded west of RN4, covering critical areas near the border of North Kivu and Ituri provinces. This new reach aimed to target prominent ADF leaders and groups, including Abwakasi, Braida, Defender, Tabani and Mzee Meya. Madina, the ADF's headquarters, remained outside Shujaa's boundaries – mainly due to DRC's concerns about a deeper Ugandan military presence in Ituri (see para. 14). Despite this exclusion, the intensified pressure from Shujaa operations has pushed the ADF to relocate its groups further north and south-west (see paras. 15-18, and above).¹⁸¹ This new territorial configuration suggests ADF's intention to regroup in areas outside the official Shujaa zone, north of Ituri river (Baluku) and western-Lubero (Abwakasi).

In response to the ADF's geographical shifts from June to August 2024, the operational boundaries of Shujaa have extended unofficially, on an ad hoc basis. Ground and air operations forced ADF units to spread across new locations, using major routes like Mambasa-Komanda (RN4) and Mambasa-Mangina (RN44) for mobility. A UPDF base was established in Manguredjipa in mid-July, to launch operations targeting the newly relocated Abwakasi group, and regular operations were conducted east and west of RN44 near Biakato, targeting the Tabani-Braida-Defender group constellation.¹⁸²

A comparison of the two maps below illustrates the ad-hoc extension of Shujaa's area of operations, from May-June onwards, in response to ADF's mobility. The maps also illustrate that Baluku's Madina camp remained outside the officially designated area of operations.

Tensions and negotiations continued, even at the time of writing, regarding the extension of Shujaa's area of operations north of Ituri river, to pursue Baluku's relocated Madina camp. Confidential security sources reported that discussions were advancing, and that President Tshisekedi's visit to Uganda on 30 October 2024, on the invitation of President Museveni, also included discussions about the extension of Shujaa.

At the time of writing, the Group did not yet have official confirmation on the outcome of these negotiations. In its letter addressed to the Group on 1 November 2024, the Government of Uganda noted that "Uganda continues to engage the DRC on the designation of new areas of joint operations in relation to the [ADF] group's location and movements."

Annex 5 (para. 18)**ADF's technological advancements****Avancées technologiques de l'ADF**

Although ADF were significantly affected by Shujaa attacks, they have found ways of compensating for their diminished capacities operations through reliance on technology.

Use of drones

Accounts from detained ADF collaborators, captured and surrendered combatants, and former hostages confirm that each ADF camp was equipped with small drones,¹⁸³ primarily used for surveillance to scout new locations and targets, and to avoid threats.¹⁸⁴ Drones were reported by eyewitnesses in the camps of Baluku, Tabani, Braida, Abwakasi, and Defender. Baluku and Braida had at least four drones each.¹⁸⁵ At least eight drones were supplied from Kampala, with support from Da'esh.¹⁸⁶

Fabrication of drone-born IEDs

On 11 August 2024, ADF carried out an attempted drone-born IED attack on an FARDC position in Malyajama, approximately 30 km northwest of Beni. However, the device failed to detonate.

Images of the improvised IED dropped by the drone, received from security sources

According to several sources, Da'esh, who supplied at least eight drones to ADF, also assisted ADF with the know-how to construct the drone-borne bomb.¹⁸⁷

Sources confirmed that Meddie Nkalubo alias Punisher (S/2023/431, para. 38) constructed the drone-borne IED and had carried out at least one successful test before the failed bomb attempt on FARDC.¹⁸⁸

Although the ADF does not yet appear to have fully perfected the technology, the development of drone-borne IEDs poses a significant new threat in the theater of operations. According to accounts from former hostages and ex-combatants, these devices were intended for use against FARDC forces. Additionally, the same sources reported the ongoing fabrication of IEDs in each camp, indicating that threat from both conventional and drone-borne IEDs remains elevated, as the group continues to enhance its capabilities.¹⁸⁹

Use of computers and satellite communications

ADF also used satellite communications to evade possible detection through usage of cellphone data. Witnesses reported the use of ‘Starlink’,¹⁹⁰ a satellite-based internet system enabled by a small satellite dish.¹⁹¹ Eyewitnesses – former hostages and former combatants – described the equipment as consisting of a small rectangular plate and a compact box, closely matching the specifications of a Starlink device (see image below).

Example image of a portable STARLINK device¹⁹²
Source: STARLINK

The availability of Starlink likely enhanced communication between camp commanders and with their networks outside the DRC, particularly ISCAP (see annex 8 above). Former ADF combatants indicated that Seka Baluku, Mzee Pierro, and Punisher (Meddie Nkalubo) used such a device, indicating that Madina camp was equipped with at least one such device. One former combatant who knew Meddie Nkalubo reported that the latter obtained a Starlink device approximately 9 months ago.¹⁹³

Former hostages and combatants also referred to the commanders in each camp using laptops, solar batteries, walkie-talkies (“Motorolas”) and cell phones.

Annex 6 (paras. 19-22)

Attacks on the civilian population

Attaques contre la population civile

Despite the relative success of Operation Shujaa in eliminating key ADF commanders and dismantling some camps, ADF attacks on civilians have continued and even intensified. ADF adopted a survival-oriented approach, relying on opportunistic ambushes or attacks on roads, small villages and farmers (S/2023/990, para. 15), for looting, kidnapping, revenge, and fulfilling the jihadist aim of killing ‘kafir’ (non-Muslim infidels).

Between 1 June and 5 November 2024, MONUSCO documented over 650 civilian deaths¹⁹⁴ across at least 124 ADF-attributed incidents.¹⁹⁵ The violence affected the broader Beni region, northwestern Lubero (primarily the Bapere sector) in North Kivu, and southern Ituri, particularly in Mambasa and Irumu territories.

June 2024 marked the deadliest month on record for ADF-perpetrated civilian killings, with over 200 deaths reported across Beni, Lubero, and southern Ituri.¹⁹⁶ The area around Cantine locality¹⁹⁷ west of Beni and the area of Manguredjipa were especially hard-hit (see below), prompting significant population displacement.¹⁹⁸

Massacres by Abwakasi’s group in Beni and Lubero territories since June 2024

Between 3 and 12 June, Abwakasi’s group attacked at least 10 localities, killing over 150 civilians as it was advancing westwards through Beni territory, moving away from the Shuja operations. During all these attacks, Abwakasi’s group also looted property, burned houses and destroyed vehicles and health centers.¹⁹⁹ In particular:

- On 3 June, Abwakasi’s group crossed the RN44 road and attacked Ngwaba village, killing three civilians.
- On the same day, the group advanced further south-west towards Mashao (or Masau) village, where it killed at least 18 civilians.
- On 5 June, the group attacked the villages of Kabwiki²⁰⁰ and Keme, where at least eight civilians were killed.
- On 7 June, Abwakasi’s group advanced further, attacking Masala (10 km southwest of Cantine) and two other nearby settlements.²⁰¹ ADF erected roadblocks along the main road connecting the three localities, pretended to be Wazalendo armed elements to gain the trust of the locals, and then proceeded to kill civilians trapped between the roadblocks. Women and children accompanying ADF fighters also participated in the attack. DRC authorities and local sources reported having found 41 bodies in the aftermath of the attack, in the village of Masala and in the neighboring villages of Mahihi and Keme.²⁰²
- On 9 June, Abwakasi’s group raided the village of Makusa, killing at least four civilians.
- On 10 and 11 June, they attacked two other localities, Pandose and Masango, killing at least four civilians.
- On 12 June, they massacred over 40 civilians in Mayikengo village.²⁰³

¹⁹⁴ Of which 190 documented in Ituri, in the territories of Mambasa and Irumu), and 462 in North Kivu, including Lubero and Beni territories, and Butembo. This figure includes only verified incidents, so the actual number is likely significantly higher. Another international organization operating in the area documented over 700 killings.

¹⁹⁵ Of these, 68 incidents were recorded in Mambasa and Irumu territories of Ituri, and 56 in Lubero and Beni territories, as well as the area of Butembo.

As the Abwakasi group advanced into the Bapere sector of Lubero territory, near the border between Beni and Lubero, reports of deadly attacks on civilians began emerging from 13 June onward:

- On 18 June, an unconfirmed number of civilians were killed at Mabiti village, while Da'esh claimed that 11 Christians were beheaded.²⁰⁴
- The following day, at least 10 civilians were killed in a village 5km further from south of Mabiti, with Da'esh claiming to have killed 20 individuals.²⁰⁵
- On 21 June, ADF attacked Kyanganda, in northern Lubero territory, killing at least 14 civilians and burning civilian houses.²⁰⁶ Photographs depict the bodies of at least 10 people lying on the side of the road, their arms bound behind their backs, with apparent gunshot wounds to their heads.²⁰⁷ Da'esh claimed that at least 40 civilians were killed during this attack,²⁰⁸ but the Group of Experts could not confirm this number.²⁰⁹

Between end of July and early August, ADF (Abwakasi's group) continued its operations in western Lubero, focusing on Njiapanda and Manguredjipa. Since early June 2024, Abwakasi's group killed at least 361 individuals,²¹⁰ with the majority of incidents being claimed by Da'esh (see below annex 8).

Various sources confirmed that this sequence of attacks was perpetrated by the group led by Abwakasi, accompanied by commander Chalamanda.²¹¹ Once the group arrived in the area of Manguredjipa, it settled around Bandulu forest and continued sporadic attacks on civilians and engaged in clashes with FARDC and armed groups (see para. 30).

²¹⁰ Documented by the UN.

²¹¹ Former hostages and combatants, UN source, FARDC sources, Ugandan government.

The attacks perpetrated by Abwakasi's group were distinguished by the extreme brutality of the killings. Occasionally they also employed an atypical *modus operandi*. For example, during the attacks in the first half of June, including in Masala on 7 June, ADF relied more extensively than usual on firearms.²¹² Some combatants disguised themselves as a Wazalendo armed group that came to combat ADF, while others reportedly wore previously stolen FARDC uniforms. During the attacks on Masala and Mayikengo, Abwakasi's group cut off the roads leading into the villages, asked the village chief to gather all the locals and opened fire on the civilians. Women and children who came along with Abwakasi's group also participated in the killings.²¹³ The increased use of firearms during these attacks was probably due to a recent restock in supplies – notably, the ammunition used was traced back to FARDC supplies stolen in late May by another ADF attack against FARDC military trucks.²¹⁴

The attacks recorded are in line with ADF's established strategy of retaliating against civilians in response to military operations against the group (S/2024/432, para. 9). However, Abwakasi's attacks most likely served as a tactic to divert attention away from other ADF bases that were threatened, such as Madina (S/2024/432, para. 11) allowing Baluku greater freedom of movement. During this same period, significantly less attacks were recorded in Irumu, where Baluku's group was moving north towards Lolwa.²¹⁵

In addition, the absence of FARDC in the affected areas may also have contributed to the elevated death toll, as ADF encountered no resistance on its path.

Attacks by other ADF groups in north-western Beni territory

While Abwakasi was leading the push into Lubero, the constellation of Braida-Tabani-Defender groups were active west of the RN4 road (northwest of Beni), heading towards and eventually crossing west of Biakato (see above annex 2).

Braida's group was responsible for most of the violent attacks perpetrated by ADF in the north-western part of Beni territory, involving killings and kidnappings, notably in the Mamove – Beu Manyama area in the first half of August 2024.²¹⁶ Braida's group was notably responsible for the killing of civilians in the villages of Bayeti and Mukoni, as well as other nearby villages, on 9 and 10 August, respectively.²¹⁷ More than 20 civilians were reported killed during these attacks.²¹⁸

From mid-August to September, this group was continuously being tracked and attacked by Shujaa. After the death of Braida in mid-August (see annex 1), the group was temporarily scattered but continued operating in the north-western area of Beni.²¹⁹

Attacks in Mambasa and Irumu territories in Ituri

The main camp of Seka Baluku, moving north into Mambasa, kept a relatively low profile. According to testimonies, it suffered severe losses and was suffering a shortage of supplies. In addition, its movement was burdened by the very high number of civilian dependents travelling along (see above annex 2).

Generally, this group has focused on conducting attacks to resupply, with a pattern of looting health centers and abducting medical staff – likely to treat the group's ailing members.²²⁰

Annex 7 (para. 23)

ADF unified command and control

Commandement et contrôle unifiés de l'ADF

While ADF sub-groups functioned with a degree of decentralization, they continued to depend on a centralized command and control framework. Former hostages and former combatants confirmed that Baluku was still the decision-maker, deciding on major operations, receiving reports from other commanders, deciding on punishments, distributing resources, including hostages. These sources mentioned that although some smaller operations or attacks may not have required prior authorization by Baluku, he had to be informed of everything. Every commander was sending photographs of the results of their operations – evidence of killings, of pillaged goods and hostages taken – to Baluku.

ADF core leadership

Baluku designated Seka Umaru as his successor, in the event of his death. Mzee Pierro, based in Madina, was Baluku's deputy in charge of operations. Mzee Kayira, another senior commander based in Madina, was in charge of ADF logistics and finance. All other commanders reported to them or directly to Baluku.²²¹

The Group found no evidence to suggest that Abwakasi's group has achieved independence from Seka Baluku. Recent interviews with former ADF combatants and former hostages suggest that Abwakasi relocated to the Bapere Sector with Baluku's consent.

The Ugandan government reported to the Group that, as on 1 November 2024, ADF was "separated into two (02) major groups, due to the heightened military pressure", without this having impacted the group's command structure.

²²¹ Former combatants, former hostages, intelligence sources, UN sources, FARDC, researchers.

Annex 8 (para. 26)**Da'esh amplifying claims and propaganda****Da'esh amplifie ses revendications et sa propagande***Sharp increase in Da'esh claims for attacks suggesting improved collaboration*

The sharp rise in ADF attacks since June 2024 was accompanied by a corresponding increase in claims by Da'esh through its Central Africa Province (ISCAP).²²² Between 2 June and 29 June, Da'esh issued 32 claims, followed by an additional 79 claims from July through October 2024. This brings the total to 111 claims made between June and October, including special editions and regular reports in Da'esh's weekly *an-Nabā'* editorial (see below).

Given that MONUSCO recorded at least 124 ADF-attributed incidents between 1 June and 5 November 2024 (see annex 6 above), not including clashes with FARDC and armed groups, of which MONUSCO documented at least 19 during the same period. Da'esh's publications cover approximately 89% of these documented incidents.²²³

Additionally, the time taken by Da'esh to claim responsibility for ADF attacks has also decreased, from several days to sometimes 24 hours after the attacks. At times several attacks were claimed for the same day, from various locations in the DRC (see below list of claims), suggesting that communication about attacks by various ADF groups operating in Ituri and in North Kivu was centralized.

The above trends suggest a closer collaboration between Da'esh and ADF.

List of claims for ADF attacks published by Da'esh since June 2024

²²² Intelligence and security sources, researchers.

²²³ In comparison, analytical data available for the month of January 2023 from an intelligence source shows that only 5% of ADF attacks documented were claimed by Da'esh. According to another comparative analysis conducted by a confidential security source, covering the period from January 2023 to end of May 2024, there has been a steady increase in claims since December 2023, reaching a new peak by May 2024.

Enhanced propaganda through Da’esh editorials and weekly reports

The increased interest from Da’esh in ADF activities was also reflected by the increase in coverage dedicated to DRC in newsletters and special edition publications. Few examples from June 2024:

In the 21 June 2024 edition of the weekly digital newsletter *an-Nabā’* (#448) contained a three-page special editorial as well as an infographic regarding the “Jihad in the Congo”. On the “Operations by the Soldiers of the Caliphate in the Congo over 70 days,” Da’esh reported that between 10 April and 19 June 2024, ADF conducted 82 operations, killing and wounding over 470 individuals.²²⁴

The editorial expressed Da’esh’s ideological justification for ongoing violence in its Central Africa Province. It presented its actions as part of a religious duty to wage war against non-Muslims (“Christians”) in the region. The text criticized what it perceived as Western media bias, asserting that violence against African Christians receives less attention than incidents affecting Western Christians. It attributed this disparity to racial discrimination and claims that this neglect helps obscure Da’esh expansion in Africa, while downplaying the difficulties faced by international forces in combating the group’s activities.

Da’esh criticized the Congolese government for seeking external military support, including from Uganda and United Nations forces, which it claims have failed to protect Christian communities from violence. Additionally, the text argues that the Islamic State continues to expand and establish control, despite attempts by regional governments and international actors to suppress them: “The Christians and their allies are still warning each other about the soldiers of Islam exploiting any vacuum that results from the fighting between Congolese forces and militias in eastern Congo, as every enemy they fight is easier for them to combat than the Islamic State imposing control over the region. The alliance between the Congolese government and the Ugandan and Rwandan forces, despite their long history of hostility, is only an example of this.”²²⁵

The message reiterated the group’s commitment to continue violent operations, including raids and attacks, as part of their ultimate goal of establishing Islamic governance in the region. It suggests that only conversion to Islam or paying the *jizyah* (a tax imposed on non-Muslims) will bring security to local populations. The passage concludes with a threat that, without submission, the violence will persist, framing this path as divinely sanctioned.

To enhance the spread of propaganda for ADF, *Serah-al-Khilafah’*, a media unit aligned with Da’esh, produced an animated video based on the *an-Nabā’* (#448) report about ADF’s operations in eastern DRC.²²⁶

The 27 June 2024 edition of *an-Nabā’* included “exclusive” reports on ISCPAP activities the week prior. It highlighted attacks “on Christian villages and the killing of Christians” in Lubero and Ituri in the DRC, stating that “over 70 christians were killed and captured, including elements from Congolese army and militias, in continuous attacks by soldiers of the Caliphate in Eastern Congo”. In addition to providing details about the attacks, it also featured photographs of burning houses after attacks on Kianganda in Lubero, and Bamandi in Ituri.²²⁷

AFC/M23 communique denying allegations of collaboration with ADF

Communiqué de l'AFC/M23 démentant les rumeurs de collaboration avec l'ADF

On August 25, 2024, an AFC communiqué - later deemed fake by AFC - claimed that a non-aggression and collaboration pact had been established between 'ADF Nalu' and AFC/M23. According to this alleged agreement, ADF would cease attacks on civilians and focus solely on FARDC and Wazalendo forces, facilitating M23's advance. In return for financial and military support, ADF would receive 70% of Beni's cacao revenues for ten years, contingent on M23 securing control of the area. Below is a copy of the communiqué deemed fake by AFC/M23:

COMMUNIQUE DE PRESSE N°031/RPRC/GSM DU 27 JUILLET 2024

Dénonciation d'un plan diabolique contre les patriotes résistants dans le LUBERO

Prenant en témoin l'opinion nationale et internationale, sur ce qui se passe dans le secteur de BAPERÉ en territoire de LUBERO contre les VDP, les gens doivent retenir ce qui suit :

1. Depuis bientôt trois mois, les ADF/MTN voudraient faire expansion dans LUBERO, TSHOPO et WALIKALE via le secteur de BAPERÉ, malheureusement, avec l'appui de certains fils du coin ;
2. C'est grâce à la puissance de feu des patriotes résistants du NDC-Rénové, sous conduite du Lt Gen Guidon SHIMIRAY MWISSA Comd des VDP, que ces terroristes et leurs alliés n'ont pas abouti à leur mission. Plus de 12 enfants ont été libéré de mains de l'ennemi et 5 terroristes ADF/MTN capturés. Après leur audition, beaucoup de choses ont été révélées sur le plan de l'ennemi et les noms de leurs collaborateurs ;
3. Dans notre communiqué de presse n°030/RPRC/GSM du 27 juillet 2024, nous avons informé le public sur l'existence d'un groupe de gens, originaires du secteur de BAPERÉ qui collaborent avec les ADF/MTN afin de leur faciliter l'expansion dans le LUBERO, TSHOPO et WALIKALE. Le réseau est vaste et certains noms ont été cité ;
4. Depuis un temps, ces collaborateurs des ADF/MTN se sont distingués par des sorties médiatiques de diabolisation des patriotes résistants VDP du NDC-Rénové qui constituent un sérieux blocage à la réalisation de leur plan d'expansion ;
5. Voulant éliminer physiquement notre Comd. Des opérations dans la zone, dans la nuit du mardi 13 au mercredi 14 Aout 2024, le même groupe de jeunes (collaborateurs des ADF/MTN) qui avait tué deux éléments FARDC et fuir avec leurs armes a organisé un raid dans l'habitation du Col AROBASE, deux patriotes ont perdu la vie, parmi eux un membre de famille élargie du Lt Gén. Guidon SHIMIRAY MWISSA.

Le NDC-Rénové dénonce avec la toute dernière énergie cet autre cas d'attaque contre ses combattants par les collaborateurs des terroristes ADF/MTN, ceci ne doit pas rester impunis car les auteurs (matériels et moraux) sont très bien connus.

A la justice de diligenter des enquêtes, afin de punir les auteurs de ces actes ignobles.

Le NDC-Rénové réaffirme sa détermination de poursuivre sa mission de défendre l'intégrité du territoire national et faire échec à l'agression étrangère sous toutes ses formes.

Ne Jamais trahir le Congo

Many armed groups were encouraged by FARDC to deploy in the region, to fill the security void due to the absence of FARDC deployments, including due to a significant number of troops having been sent to Petit Nord, to fight against M23/RDF. For example, on 12 June 2024, as ADF was advancing towards the locality of Kambau (Lubero territory), the FARDC sector chief responsible for the area requested urgent reinforcements, deploring that the ADF were advancing

towards the locality and there were no security forces present in the area, besides a few elements of “general” Mayani’s UPLC.²²⁸

Annex 11 (para. 31)**Tensions between local communities and Wazalendo armed groups in Lubero territory****Tensions entre les communautés locales et les groupes armés du Wazalendo dans le territoire de Lubero**

The deployment of Wazalendo armed groups in North Kivu and Ituri under the pretext of fighting against ADF – notably of NDC-R of Guidon in Lubero (see annex 10 above) - has generated tensions with local communities. Local leaders have grown increasingly frustrated, urging the withdrawal of these armed groups, citing their ineffectiveness against ADF and M23 threats, and the exploitation of the local population.

Tensions have been further fueled by incidents such as an armed raid on 24 July 2024 on the Bodhodhea mining site, attributed to NDC-R Guidon, and an alleged attack on local NDC-R Commander Arobaz on 14 August 2024. These events have led to heightened calls for an increased FARDC presence.

On 17 August 2024, the *Conseil de la Jeunesse Bhele/Piri* in the Bapere Sector issued a communiqué (see copy of the communiqué below) addressing earlier statements from the NDC-R faction led by Guidon, including one dated 27 July 2024 (see Annex 10 above).

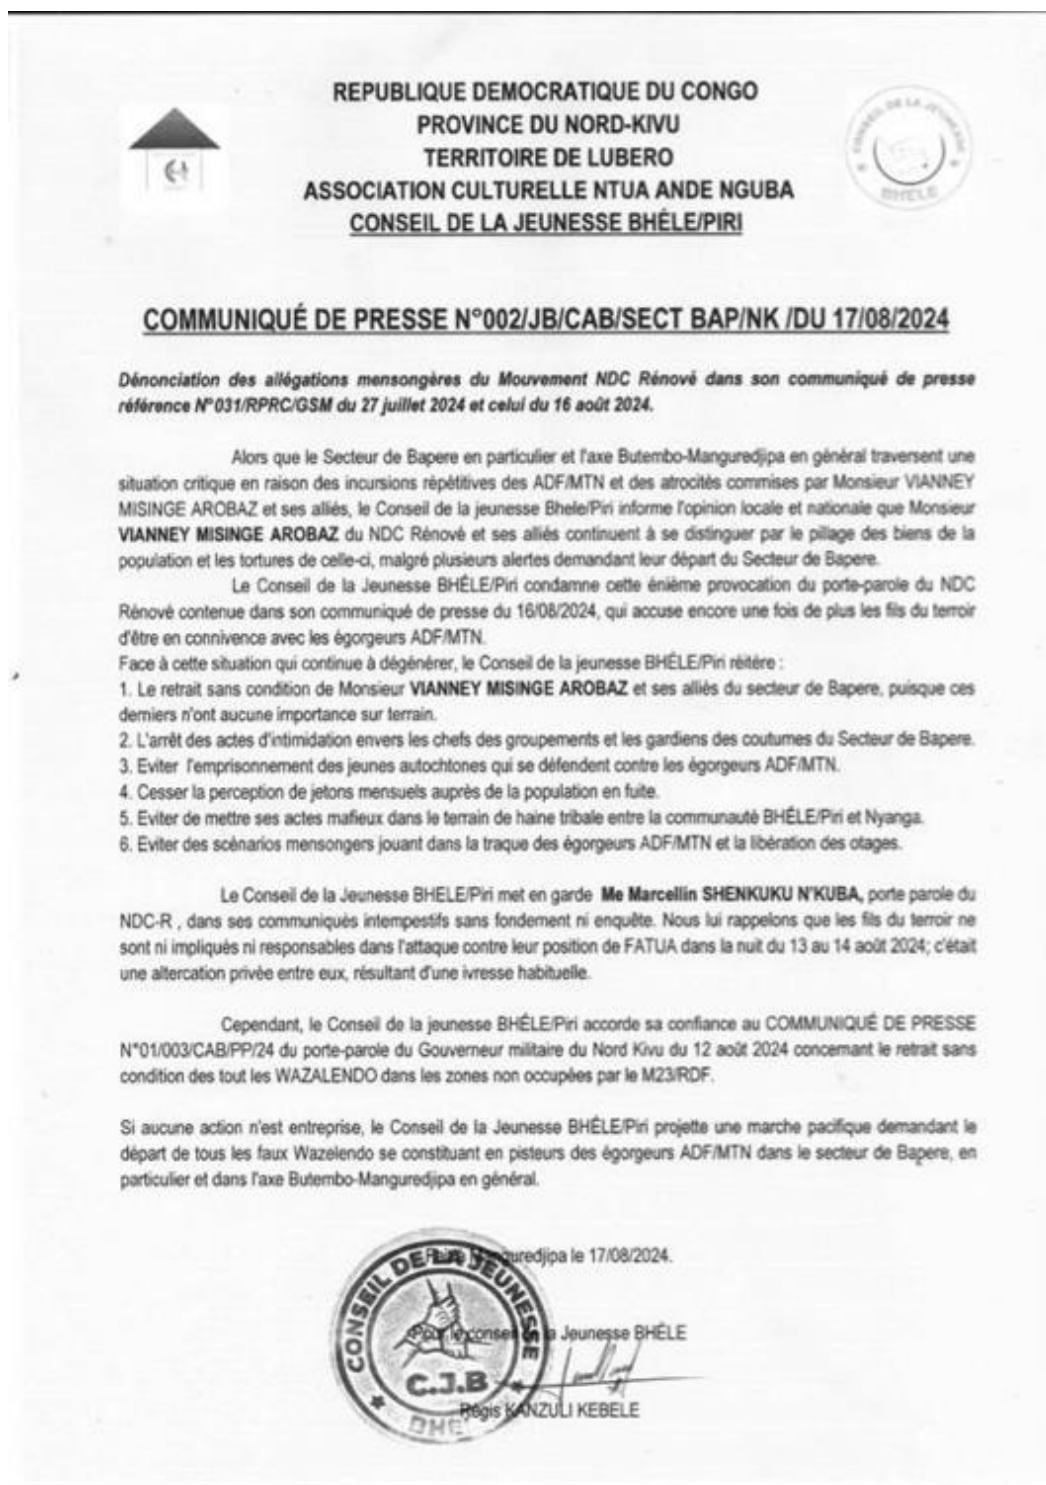

The communiqué demanded the departure of all Wazalendo groups from the Bapere Sector, particularly along the Butembo-Manguredjipa axis, accusing them of collaborating with the ADF. Additionally, it accused Vianney Misinge Arobaz of the NDC-R of pillaging the local population and committing acts of torture.

The communiqué outlined several demands:

- Immediate withdrawal of Arobaz and his allies from the Bapere Sector, citing their lack of positive contributions.
- An end to intimidation of *groupement* chiefs and traditional leaders (*gardiens de coutume*).
- A cessation of the arbitrary imprisonment of local youth defending the population against the ADF/MTN.
- An end to extortion, including the collection of monthly taxes from displaced civilians.
- Avoid spreading tribal hatred between the Bhele/Piri and Nyanga communities.
- Avoid spreading false claims concerning efforts to track ADF attackers and to liberate hostages.

The communiqué also accused the NDC-R spokesperson, Marcelin Senkuku N’Kuba, of disseminating misinformation through public statements. It firmly denied allegations that local youth had attacked NDC-R positions on 13 and 14 August 2024.

AFC communiqué of 1 August 2024

Communiqué de l'AFC du 1er août 2024

OFFICIAL COMMUNIQUE OF AUGUST 1st, 2024

1. The Alliance Fleuve Congo (AFC)/M23 has followed the latest developments aimed at achieving peace within the framework of the Luanda process. The AFC/M23 wishes to congratulate all the actors for their endless work towards a peaceful resolution of the multifaceted crisis in the East Democratic Republic of Congo (DRC).
2. The AFC/M23 hereby emphasise that it is not automatically bound by the conclusions of meetings to which it has not attended. The AFC/M23 notes that the coalition forces of the Kinshasa Government have become accustomed to using the various truces and cessations of hostilities to reorganise themselves and continue ethnic cleansing, attacking the martyred population and our forces as their defenders.
3. Nevertheless, the AFC/M23 wishes to remind everyone that, as of March 7th, 2023, it declared a unilateral ceasefire to give a chance to find a peaceful solution to the crisis within the framework of regional processes. Since then, the AFC/M23 has only been responding to the attacks by the coalition forces of the Kinshasa Government, within the grounds of legitimate self-defence and to protect threatened civilian populations. The AFC/M23 is therefore ready to respond positively to a change in the posture of the coalition forces of the Kinshasa Government.
4. The AFC/M23 reiterates that the only way to achieve a peaceful resolution of the ongoing conflict is through direct political dialogue with the Kinshasa Government, which addresses the root causes of the recurring conflicts in the Eastern DRC. The Regional Peace Processes offer an ideal framework that must be utilised without any delay to prevent further suffering for our populations.

Bunagana, August 1st, 2024.

- In its last report (S/2024/432, annex 30), the Group provided the details of a first ministerial meeting on the security and peace situation in eastern DRC held in Luanda on 21 March 2024. During that meeting, participants proposed concrete commitments to the heads of state of the DRC and Rwanda, amongst others:
 - cessation of hostilities, including a supervised ceasefire, accompanied by a process of disengagement of forces (point 2);
 - the DRC delegation committed to present a plan to neutralize the FDLR accompanied by a program of action (point 3);
 - following the implementation of this plan to neutralize the FDLR, the Rwandan delegation committed to review the measures and arrangement adopted to ensure its defence and security (point 4).
- During the same meeting, Rwanda and the DRC also voiced dissents over the cessation of hostilities. For the DRC delegation, the disengagement of forces (point 2) implied the withdrawal of RDF from the DRC territory. For the Rwandan delegation, however, the cessation of hostilities implied a supervised ceasefire between FARDC and the M23, followed by a process of disengagement of forces.
- Since the March 2024 meeting, amid continued military operations by both FARDC and RDF, negotiations continued, aiming at resolving the conflict between the DRC and Rwanda, under the facilitation of the Angolan mediator. The operationalization of the FDLR neutralization plan and the elaboration of a plan for the disengagement of forces were at the heart of the negotiations.
- On 30 July 2024, following a second ministerial meeting in Luanda, the Angolan presidency announced a new cease-fire due to start on 4 August, and agreed upon by the Rwandan and Congolese governments under the aegis of the Angolan mediator (see also S/2024/432, annexes 20-21). Another outcome of that ministerial meeting in Luanda was the engagement of Rwanda and the DRC to further elaborate the above-mentioned FDLR neutralization plan, and plan for the forces' disengagement. The Angolan mediator provided a document (titled "Harmonisation of the DRC's proposed plan and Republic of Rwanda's response to the Neutralisation of the FDLR on Congolese territory") in which the DRC's "Plan for the neutralization of the FDLR"²²⁹ and related observations by Rwanda were harmonized. The Facilitator's harmonization document attempted to (i) bridge the view points of the DRC and Rwanda; (ii) generate a consensual perspective on the plan, program of action, and process of the neutralization of the FDLR; (iii) assist Rwanda and the DRC in coming up with concrete and clear strategies for the neutralization of the FDLR; (iv) and sustain the dialogue process under the leadership and mediation of the Angolan Presidency. The Facilitator's document served as the working document for next negotiations (see below).

Facilitator's harmonization document – main elements (non-exhaustive list):

- Elements relative to differing positions between the Governments of the DRC and Rwanda, and recommendations, as elaborated in the Facilitator's harmonization document:²³⁰
 - "While both governments agree and are committed to the neutralization of the FDLR, they do not share the same views on the levels of threat posed by the FDLR to both nations' security and the FDLR's ongoing destructive capacity on both countries' good and harmonious relationships";

²²⁹ Submitted by the DRC government to the Facilitator on 26 April 2024.

²³⁰ Non-exhaustive.

- “The plan for the neutralization of the FDLR as presented by the DRC Government does not include a clear action plan with chronogram of timelines and clear lines of responsibility for such neutralization”; this “creates the uncertainties that are underlying sources of tensions, violence in Eastern DRC, and continuous deterioration of the relationships and trust between the DRC and Rwanda”;
 - “The primary goal of neutralizing the FDLR is an important first step towards improving the worsening security environment in Eastern DRC”.
- Bridging the viewpoints of the DRC and Republic of Rwanda as elaborated in the Facilitator’s harmonization document:²³¹
 - Both the DRC and Rwanda “share the determination to neutralize the FDLR”;
 - “Both the DRC and Rwanda agree that the FDLR is a shared source of destabilization of both nations, as well as the regular recurrence of violence and conflict in Eastern DRC”;
 - Assistance towards concrete steps for neutralizing the FDLR as elaborated in the Facilitator’s harmonization document²³²:
 - The DRC Government ought to take leadership and ownership as the primary responsible entity on the neutralization of the FDLR and its affiliates – including FOCA, CNRD and RUD-Urunana – from its territory in Eastern DRC. These efforts include:
 - (a) Lead in the organization and establishment of a Joint Task Force to locate FDLR elements and affiliates;
 - (b) Scrutinize and process all FDLR members and linked groups in secured cantonments, including disarmament and neutralizing of the military chain of command and networks of FDLR and affiliates;
 - (c) Under the mediation of the Facilitator, reach an immediate cessation of hostilities agreement in Eastern DRC, including the repatriation of the FDLR from the DRC;
 - (d) Under the supervision of the Facilitator, the DRC and Rwanda commit to providing a joint framework with Partner support drawing from the existing ad-hoc verification mechanism for monitoring and verification of the implementation of neutralizing the FDLR and its affiliates;
 - (e) The governments of the DRC and Rwanda commit to neutralizing the FDLR and its affiliates, networks and military chains of command in good faith and with goodwill, in accordance with the 2013 Nairobi Declaration;
 - (f) The governments of the DRC and Rwanda are further committed, with the cooperation of partners, to speedily embark on the neutralization of FDLR and strengthening confidence-building measures as the conditions for restoring good relations;
 - The Republic of Rwanda will support the efforts to neutralize the FDLR in a secondary capacity in the aforementioned tasks.
- At the July ministerial meeting, Rwanda, the DRC and Angola instructed their intelligence experts²³³ to meet on 7 August 2024 to further elaborate the Facilitator’s proposal on the neutralization of the FDLR, but also to elaborate a plan for the disengagement of forces on the ground. The report of the intelligence experts (“Plan harmonisée pour la neutralization des FDLR et le disengagement des forces (levée des mesures defensives du Rwanda)”) would then serve as the basis for discussions during the ministerial meeting planned in August (see below). The intelligence officers from the DRC, Rwanda and Angola did convene in Luanda from 7 to 9 August to negotiate a proposal to be discussed at the third ministerial meeting late August 2024.

²³¹ Non-exhaustive.

²³² Non-exhaustive.

²³³ Major-General Christian Ndaywel Okura (DRC), Ambassador Matias Bertino Matondo (Angola) and Brigadier-General Jean Paul Nyirubutama (Rwanda).

- The third ministerial meeting on 20-21 August 2024 concluded without reaching an agreement.
- The intelligence officers met again in Rubavu, Rwanda, and on 31 August 2024 agreed on the harmonization plan.

Intelligence experts' harmonization plan – main elements (non-exhaustive list):

- The plan proposed by the intelligence experts is subdivided into 6 objectives/goals, i.e. (i) analysis of the level of threat of the FDLR; (ii) neutralization of the FDLR; (iii) disengagement of the forces/lifting of defensive measures put in place by Rwanda; (iv) evaluation; (v) DDR process; and (vi) building trust and a climate of calm.
 - For each of these objectives/goals, the plan foresees (i) a series of activities and actions; (ii) a timeframe; (iii) the entity/entities and/or individuals in charge; and (iv) the supervisor(s).
 - The plan foresees that the disengagement of the Rwandan forces and lifting of defensive measures by Rwanda starts after the start of execution of the targeted actions against the FDLR.
 - The plan also foresees that the execution of the disengagement of the Rwandan forces and lifting of defensive measures by Rwanda would cover a specific time-period.
- At the fourth ministerial meeting in Luanda on 14 September 2024, the DRC Minister of Foreign Affairs, Ms. Thérèse Wagner, rejected the harmonization plan for the neutralization of the FDLR and the disengagement of forces (lifting of Rwanda's defensive measures) submitted by the intelligence experts. Diplomatic, intelligence, FARDC and UN sources reported that the proposed timeline – which did not foresee that the neutralization of the FDLR and disengagement of RDF troops would take place simultaneously – was one of the main reasons for rejecting the proposal. On the other hand, it must be underlined that the operations against the FDLR late September 2024 (see paras. 67-80) were carried out – albeit without major successes – while RDF were still massively deployed on the DRC territory.
 - On 24 September 2024, at the UN General Assembly in New York, the President of Angola Joao Lourenco declared that “in order to consolidate the gains made, a proposal for a peace agreement has been put on the table by the Republic of Angola, involving the DRC and the Republic of Rwanda, the terms of which are being discussed by the parties at ministerial level, with the prospect of them reaching an understanding with each other that will justify the convocation of a summit meeting to seal the signing of the definitive peace agreement (...)”.²³⁴ The following day, President Tshisekedi demanded “the immediate and unconditional withdrawal of Rwandan troops (...)” and stated that “while recent diplomatic initiatives, such as the Luanda talks, are encouraging, they must not obscure the urgency of this essential action”.²³⁵ President Tshisekedi thus implicitly rejected the conditionality of RDF withdrawal in light of FDLR neutralization. In his statement at the General Assembly, Rwandan Ambassador Ernest Rwamucyo did not address the conflict in the DRC or the Luanda process.²³⁶
 - On 12 October 2024, the Ministers of Foreign Affairs from the DRC and Rwanda met again in Luanda. They agreed to resume expert consultations scheduled to take place in Luanda on 30 October 2024, to elaborate a Concept of Operations (CONOPS) for a harmonized plan to neutralize FDLR (see paras. 76-77).
 - The Concept of Operations (CONOPS) for the FDLR neutralization plan, approved at expert level in Luanda on 31 October, foresees identifying the positioning of FDLR and their equipment, followed by information sharing to identify FDLR and its “dissident groups” (Phase 1), before moving to neutralization operations and targeted actions against FDLR (Phase 2), bypassing any explicit steps for sensitization of combatants and voluntary surrender. The demobilization, repatriation and reintegration of FDLR combatants is foreseen only in Phase 4 of the CONOPS. This CONOPS approved at expert level was to be discussed late November 2024 at the fifth ministerial meeting.

Annex 14 (para. 42)

Forced and voluntary recruitment by AFC/M23

Recrutement forcé et volontaire par le AFC/M23

In its final report (S/2024/432, paras. 37, 100-108, and annex 65), the Group documented a consolidation of M23's military capacity through extensive recruitment efforts, including of children, across North Kivu, Uganda, and Rwanda. During the current reporting period, recruitment efforts in AFC/M23-controlled territories continued, particularly in newly conquered areas such as Rubaya, the broader Masisi territory, Kanyabayonga, as well as in South Kivu and Ituri. Thousands of new recruits were enrolled in military training from April to October 2024 (see annex below).

The Group collected additional evidence of AFC/M23 recruitment abroad, notably in refugee camps in Rwanda (S/2024/432, para. 103).²³⁷ For example, a surrendered M23 combatant who had been forcefully recruited in April 2024, reported that he knew twelve young men recruited from Mahama refugee camp in Rwanda who attended the military training in Tchanzu between May-August 2024 (see annex 15).

AFC/M23 recruited thousands of civilians using the following methods:²³⁸ (i) abduction and forced recruitment (see below); (ii) deceptive financial promises and/or promises for work; (iii) voluntary recruitments through systematically organized awareness-raising campaigns through local leaders, public meetings in newly conquered areas (see example below in 'Recruitment in Rubaya') and radio-transmissions.²³⁹

The Group obtained new evidence of systematic, and often forced, recruitments in the territories conquered by AFC/M23. Several surrendered or captured ex-M23 combatants reported that they had been abducted by AFC/M23. Others reported that they had been enlisted by local chiefs after AFC/M23 compelled these local chiefs to select men from their respective localities for recruitment. This systematic increase in AFC/M23 recruitment efforts has also been confirmed by community leaders, civil society sources, humanitarian actors, UN sources and individuals close to M23.

The following cases documented by the Group are illustrative of the well-organized, systematic, and often coerced recruitment:

- Several former M23 combatants interviewed by the Group reported that most of the recruits trained in Tchanzu had been abducted by AFC/M23 prior to their forced enrollment in military training. Others were enticed by M23 with deceptive financial promises (see also S/2024/432, para. 101). All M23 combatants interviewed by the Group reported that they had never been paid. AFC/M23 declared to new recruits and trainees that they would be paid for service only after the "liberation" of the DRC.

Recruitment in Rubaya

- In early May 2024, shortly after AFC/M23 took control of Rubaya, the AFC/M23 leadership instructed the town manager of Rubaya to enlist at least 10 young men from each street for AFC/M23. The town manager, in turn, requested each neighborhood chief ("Nyumbakumi") to identify 10 recruits from their area. While some civilians volunteered, many were coerced or felt they had no choice, fearing reprisals against themselves and their families. The following day, the neighborhood chiefs, accompanied by M23 combatants, gathered the new recruits and brought them to Rubaya's stadium, where they were presented to the crowd. The recruits were informed they would be fighting to 'retake' the country. One young man, recruited that day, reported that a total of 180 men were enlisted that day.²⁴⁰ The recruits were then loaded into two trucks and transported to Tchanzu via Mushaki, Kitchanga, Mulimbi and Rutshuru, where all 180 recruits were enrolled in training (see annex below).

The presence of 180 recruits from Rubaya was confirmed by M23 combatants who completed their training in September 2024 (see annex below), together with recruits that arrived from Mahama refugee camp in Rwanda.

²³⁸ M23 combatants, UN sources, sources close to AFC/M23, intelligence sources, civil society, and researchers.

²³⁹ AFC/M23 launched a new radio transmitting from Bunagana on 3 June 2024.

²⁴⁰ Other sources refer to 300 recruits.

Additional recruitment drives, including forced recruitment and abductions, were reported in Rubaya in July and August 2024.²⁴¹

Video of recruitment in Rubaya

The Group also received a 12-minute video footage²⁴² of the public gathering at the stadium in Rubaya in early May (referred to by several former recruits interviewed by the Group – see above). The video depicts a massive crowd being animated by sanctioned individual “general” Bernard Byamungu (CDi.038 and S/2024/432, para. 41) who requested recruits to step forward, to join the army in order to “fight for self-defense”, and to participate in “politico-military training”.

Below: screenshots from the video of the gathering at Rubaya stadium, depicting “General” Bernard Byamungu speaking to the crowd, the new recruits paraded before the crowd, then loaded onto trucks that transported them for training in Tchanzu.

Below: English translation of “General” Byamungu’s speech in the video²⁴³ (original in Swahili)

“General” Byamungu: Is it possible to achieve development without peace?

Audience: No.

“General” Byamungu: So, we must start with peace, and then we can think about development. Now, I want to ask all of you something important for our security, our peace, and our progress. To achieve this, we need everyone’s effort, don’t we?

Audience: Yes!

“General” Byamungu: How many of you want us to advance all the way to Kinshasa?

Audience: All of us!

“General” Byamungu: Are you all ready?

Audience: Yes!

“General” Byamungu: Thank you. So, young people, how many of you are still strong and ready to join the army, in self-defense, or in a political-military framework, so we can combine our efforts and help the AFC movement advance?

Where are you? Raise your hands!

(Several hands go up)

Audience: Yes!

“General” Byamungu: Are you ready for self-defense?

Audience: Yes!

“General” Byamungu: Are you ready for the political-military framework?

Audience: Yes!

“General” Byamungu: My brothers, together with our combined efforts, we can go very far. Do you understand me?

Audience: Yes!

“General” Byamungu: I’m only asking for 10 young people who can show they’re ready to join the army. Don’t you want to? Or do you want us to stay in insecurity?

Audience: No!

“General” Byamungu: Where are the young people ready to join the army?

(One by one, people start stepping forward)

“General” Byamungu: Come, line up here.

(Several young people come forward and line up)

“General” Byamungu: Welcome, welcome, my brothers. Unity is strength. Come, my brothers, so we can free our country, to liberate our country from the hands of the invaders. Tshisekedi has turned the country into his own farm, so welcome, my brothers. Unity is the strength that will free the country. Keep coming, my brothers. I want to tell you one more thing, my brothers, I have a question. Is the destruction of the road from Goma to Rubaya because of Paul Kagame?

Audience: No.

“General” Byamungu: Going hungry here, being beaten, being forced to pay taxes—is this also Kagame’s fault?

Audience: No.

“General” Byamungu: It’s due to the poor governance of Mr. Tshisekedi. And young women who want to join, come forward too. I can see there is great joy in your hearts.

Unidentified officer *(speaking as the trucks with the recruits are driving away)*:

You can see the young people are happy to go for training and later come back to protect us. The vehicles are no longer enough to hold them all.

Forced recruitment from Tchengerero

- In April 2024, AFC/M23 arrested 22 civilians in Tchengerero and brought them to an AFC/M23 position in Runyoni, where they were subjected to forced heavy labor for several days. Thereafter, a truck belonging to AFC/M23 brought the 22 civilians to a detention facility in Rutshuru. After one week of detention, they were brought to a training center in Rutshuru, and trained by AFC/M23.

Abduction from the Banyabwisha community in Tongo

- In May 2024, 6 men from the Banyabwisha community were abducted by M23 combatants in Tongo. M23 combatants accused the Banyabwisha of being FDLR combatants and obliged them to get on motorcycles that brought them to Tchanzu for training. The abducted Banyabwisha reported that they had no choice as they would have been killed if they refused to join AFC/M23.

Annex 15 (para. 42)**AFC/M23 military and paramilitary trainings****Entraînements militaires et paramilitaires du AFC/M23**

M23 and AFC increased recruitment and training efforts for both civil-administrative cadres – including police,²⁴⁴ intelligence services, and political leaders – and combatants, the former to ensure the administration of the localities under AFC/M23 control (S/2024/432, annex 5), and the latter to consolidate military capacity in view of extending territorial control.²⁴⁵

New AFC/M23 recruits were trained primarily at the movement’s main military base in Tchanzu, but also in other AFC/M23 training centers and bases, including in Rutshuru (Birere neighbourhood), Bwito, Bwiza, Kiwanja and Nyongera. Imagery clearly shows a significant expansion of the Tchanzu training facility (see below). M23 combatants also received refresher courses in Rutshuru. Refresher courses were often organized prior to a planned military operation.

Recently surrendered and captured M23 combatants reported that “Colonel” Léon Kanyamibwa still commanded military training in Thanzu (S/2024/432, para. 39) and was seconded by “Colonel” Moïse Byinshi and “Captain” Ernest Sebagenzi. M23 combatants consistently reported the presence of Congolese, UPDF and RDF training officers in Tchanzu. Many AFC/M23 leaders were present during, or visited, the training bases, including Sultani Makenga, Imani Nzenze, Bahati Erasto, Lawrence Kanyuka, Gacheri Erasto, Bahati Erasto, Ernest Sebagenzi, Willy Ngoma, “Colonel” Moïse Byinshi, and Mirindi.²⁴⁶

The Group documented the following information regarding several trainings and closing ceremonies in AFC/M23 military bases and training centers:

- From 6 to 21 April 2024, a leadership training took place in Nyongera, north-east of Kiwanja.²⁴⁷ M23 combatants reported that there were about 700 trainees from different countries. The courses focused on training future AFC/M23 leaders (“cadres”) and was called “Dignity Intake 004”. The promotion of these future M23 cadres was presented as “the foundation to restore the dignity of all Congolese and the DRC”. Trainees were provided with theoretical and practical courses.
- On 1 July 2024, a new training started in Nyongera for around 500 new recruits.
- From 7 to 18 April 2024, another military training took place in Tchanzu. The training encompassed training of intelligence leaders, self-defense and military training. M23 combatants reported that about 400 trainees were present. Both theoretical and practical courses were provided, including “handling weaponry”, “infractions”, “information management”, “M23 ideology”.
- On 2 October 2024, a closing ceremony was held in Tchanzu²⁴⁸ for 300 young M23 officers. Among the 300 officers trained, 20 originated from the Zaïre and MAPI armed groups in Ituri. The training of officers lasted 5 months. Three trainees died during the training.
- Between 25 September and 31 October 2024, at least 3,000 recruits completed their 5-months training in Tchanzu. On 31 October 2024, an additional 2,500 recruits were still in the process of being trained by AFC/M23. Amongst the latter 2,500 recruits, 600 came from the Zaïre armed group in Ituri. This was also confirmed by one high-profile Zaïre insider, a Zaïre combatant that participated in the training, surrendered and captured M23 combatants, and intelligence sources.

²⁴⁴ From May 2024 onwards, new recruits wearing PNC-like uniforms were spotted in Rutshuru, Kiwanja and Bunagana.

²⁴⁷ -1.141638° - 29.437617°

²⁴⁸ -1.334472° - 29.531933°

- M23 combatants who completed their training in September 2024 reported that trainees in Tchanzu were divided into “regiments” of 250 recruits each. Among one of the regiments trained there were 180 recruits who had been recruited in Rubaya (see annex 14 above) together with recruits that arrived from Mahama refugee camp in Rwanda.
- The training encompassed several theoretical courses, including on “military rules”, “weapons management”, the “art of war” and “ideology”. After the theoretical introduction, new recruits received practical training, including on “war tactics”, “engagement rules” and “bush tactics”. Sultani Makenga attended at least one of the pass-out ceremonies of the two first “regiments”, in early September 2024.
- Refresher courses were organized amongst others in Rutshuru, quartier Birere.

Annex 16 (para. 43)**AFC/M23 military and tactical training, ideology and indoctrination****Formation militaire et tactique, idéologie et endoctrinement de l'AFC/M23**

An increasing number of M23 combatants described the focus, during training, on theoretical courses including ideological persuasion, intelligence gathering, recruitment tactics and history of the DRC. Groups of recruits, amongst others a group of 25 recruits from South Kivu, received only theoretical courses and were thereafter redeployed to their areas of origin and tasked to provide intelligence from these localities and persuade local armed groups and individuals to join AFC/M23.

The Group obtained a copy of a notebook with handwritten notes taken by a trainee, listing the theoretical courses and the names of the trainers during a training provided in April in Nyongera:

Since the Group's last report, the area around Goma, from Sake through Kibumba remained tense and was marked by (i) shelling by both FARDC and M23/RDF, (ii) continued M23/RDF threats to South Kivu (see para. 104), and (iii) major AFC/M23 territorial advances, as illustrated by the events below.

Sake area and southern Masisi territory – non-exhaustive list

- On 30 April 2024, M23 took control of the mining sites of Rubaya in southern Masisi territory, one of the world's largest coltan mines (see also paras. 56-66)
- On 3 May 2024, RDF shelling impacted four different locations within IDP settlements²⁴⁹ located in the Mugunga neighborhood of Goma, along the RN2 road between Goma and Sake, causing civilian casualties.²⁵⁰ Details of the RDF shelling and preceding FARDC shelling are provided in annex 22.
- On 30 May 2024, M23 and RDF launched mortar attacks on FARDC and SAMIDRC positions in Mubambiro. One SAMIDRC soldier was killed, 13 injured and two armoured personnel carriers (APC) were destroyed, as also confirmed in a communiqué issued by the South African National Defence Force (SANDF) the following day (see communiqué below).
- On 18 June 2024, two M23/RDF projectiles landed in Mubambiro and triggered SAMIDRC response, which started shelling towards M23/RDF positions in the hills overlooking Sake area.
- On 25 June 2024, M23/RDF mortar attacks on SAMIDRC positions resulted in two SAMIDRC soldiers killed, 20 injured and some material damage, as also confirmed in a communiqué issued by the South African National Defence Force (SANDF) the following day (see communiqué below). The Group notes that prior to M23/RDF retaliation, SAMIDRC had initiated artillery fire towards M23/RDF positions southwest of Sake, and reportedly fired 135 projectiles.
- On 27 June 2024, there were other artillery exchanges around Sake. On that same day, M23/RDF took control of Remeka, south-west from Sake and Ngungu, in southern Masisi territory and close to the South Kivu border.
- On 15 July 2024, M23/RDF²⁵¹ artillery shelling has hit the town of Bweremana, resulting in civilian casualties.
- On 3-4 September 2024, after almost two months of relative calm, clashes in the southern front close to South Kivu resumed, when Wazalendo armed groups together with FDLR launched attacks to recuperate Ndumba hill (12 kilometers southwest of Sake) from M23/RDF. Ndumba hill remained under M23/RDF control, however.
- One week later, the Wazalendo/FDLR coalition supported by FARDC artillery succeeded to recuperate Ndumba hill. Reports refer to artillery shelling by both sides.
- On 14 and 18 October 2024, M23/RDF and FARDC exchanged fire around Sake.

²⁴⁹ Lushagala, Zone 14, 8 ième CEPAC and CBCA Rego. The Group did investigations in Lushagala and 8ieme CEPAC IDP camps.

²⁵⁰ The Group did not (yet) obtain access to the sixth unexploded shell.

²⁵¹ The Group recalls that in its final report, it established the de facto control and direction of RDF over M23 operations (S/2024/432, paras. 40-45).

Kibumba area – non-exhaustive list

- On 15 June 2024, after almost three months of relative calm in the Kibumba area, north of Goma, hostilities resumed when an anti-tank missile hit a joint defensive position of FARDC and the private military company Congo Protection (S/2023/990, paras. 47-51) in Kanyamahoro, few kilometers south of Kibumba. Two FARDC soldiers and one Congo Protection staff were killed on the spot, while a second Congo Protection staff died in the aftermath of the event.²⁵² Several other FARDC and Congo Protection staff were wounded. Further details are provided in annex 23.
- On 24 June 2024, M23/RDF fired three mortars towards FARDC positions on Kanyabuki hill, west of Kanyamahoro.
- The period under review was characterized by continuous reports of M23 and RDF reinforcements in the Kibumba area (see also annex 17-18).

REPUBLIC OF SOUTH AFRICA

MEDIA STATEMENT

DATE: Wednesday, 26 June 2024

EMBARGO: For Immediate use

SUBJECT: THE SOUTH AFRICAN NATIONAL DEFENCE FORCE CONFIRMS THE MORTAR ATTACK ON ONE OF OUR BASES IN SAKE, IN THE EASTERN DEMOCRATIC REPUBLIC OF THE CONGO

The South African National Defence Force (SANDF), confirms the mortar attack on one of our bases in Sake, in the Eastern Democratic Republic of the Congo (DRC) on 25 June 2024, which resulted in two fatalities and twenty injured. Four members who were critically injured have been hospitalized, whilst the rest who suffered minor injuries are expected to be discharged soon.

Families of the two members who lost their lives have been informed and all procedures to bring their mortal remains are in process. The names of the deceased will be communicated in due course.

ENDS.

Annex 18 (para. 45)**M23 and RDF's area of operations on the Northern Front (Rutshuru and southern Lubero territories)****Zone d'opérations du M23 et des RDF sur le front nord (territoires de Rutshuru et du sud de Lubero)***Southern Lubero – non-exhaustive list*

- In its last report, the Group reported that “the risk of M23 and RDF taking Kanyabayonga, entering Lubero territory and pushing further south along the Sake-Minova road remained high” (S/2024/432, para. 34).
- On 27 June 2024, M23/RDF launched attacks from various fronts²⁵³ and captured the strategic town of Kanyabayonga, Rutshuru territory, where FARDC had retreated to, with most of its military supplies, when RDF and M23 took control of Rwindi in March 2024 (S/2024/432, annex 29). After intense fighting, FARDC troops commanded by General-Major Chico Tshitabwe (S/2024/432, para. 80) and supported by the FDLR and Wazalendo armed groups withdrew northwards from Kanyabayonga leaving behind important weapon and ammunition stockpiles which were subsequently seized by M23 combatants.²⁵⁴
- Following the capture of Kanyabayonga, M23/RDF moved further north towards the southern parts of Lubero territory and took control of Kirumba, Kaseghe and surrounding areas on 30 June 2024. In only three days, M23/RDF conquered a stretch of 50 kilometers along the Kanyabayonga-Kaseghe road. In the meantime, FARDC controlled the RN2 axis until south Matembe, and relocated its headquarters to Lubero center. FARDC reinforcements were sent from Beni territory to Lubero center. Following M23/RDF take-over of Kanyabayonga, Wazalendo armed groups (in particular FPP-AP) and FDLR also withdrew to their traditional areas of influence in south-west and west Lubero territory. In early July, additional FARDC reinforcements arrived from Goma, Kisangani and Kananga.
- In early July 2024, AFC/M23 officially installed mayors (“bourgemestres”) in Kanyabayonga (on 7 July) and two newly conquered locations in southern Lubero (Kirumba on 3 July and Kaina on 5 July). AFC/M23 also organized meetings in Kanyabayonga aiming at sensitizing the local population for the AFC/M23 cause, further installing its parallel administration and encouraging new recruitments.
- M23/RDF operations in southern Lubero resumed on 19 August 2024 when it sought to strengthen its position in the south-western area of Lake Edward, in particular in Kamandi-Lac (east of Kirumba) where FARDC naval forces were still based. If taken, Kamandi-Lac would provide M23 increased access to Lake Edward. While FARDC maintained their control over Kamandi-Lac, on 26 August 2024 M23/RDF took control of Kivuvo, east of Kirumba and along the route leading to Kamandi-Lac.
- On 3 November 2024, M23/RDF took control of Kamandi-gîte in the vicinity of Kamandi-Lac. Civil society sources reported that the M23 occupied the primary school “Vowisha”, where it installed its political bureau after having destroyed various classrooms.²⁵⁵

Rutshuru territory – non-exhaustive list

- From 2-4 August 2024, M23/RDF took control of several localities in north-eastern Rutshuru territory. On 2 August, it conquered Kisegoro. On 3 August, it took Nyamilima and continued towards Ishasha, the border post between Uganda and the DRC, that it conquered on 4 August. AFC/M23 soon began installing a parallel administration in these newly conquered localities. The Group notes that FARDC had already withdrawn from that area several months earlier, thus this territorial expansion did not involve armed confrontations. However, other state actors – police (PNC) and intelligence (ANR) – still present at the Ishasha border post in early August, were compelled to flee to Uganda following M23's take-over of the area.

²⁵⁵ Images on file with the Group

- On 7 August 2024, M23/RDF also conquered the port of Nyakakoma on the shores of Lake Edward, forcing the FARDC naval forces to flee.
- On 2 September 2024, following clashes between M23/RDF and Wazalendo/FDLR, M23 took control of Butare in Tongo area.
- Mid-September 2024, M23/RDF took control of Mashango, east of Kitchanga, known to be a CMC-FDP stronghold. One week later, M23/RDF took control of Marangara, east of Tongo, a known FDLR and CMC-FDP stronghold.

M23 and RDF's area of operations on the Western Front (northern Masisi and Walikale territories)

Zone d'opérations du M23 et des RDF sur le front occidental (territoires du nord de Masisi et de Walikale)

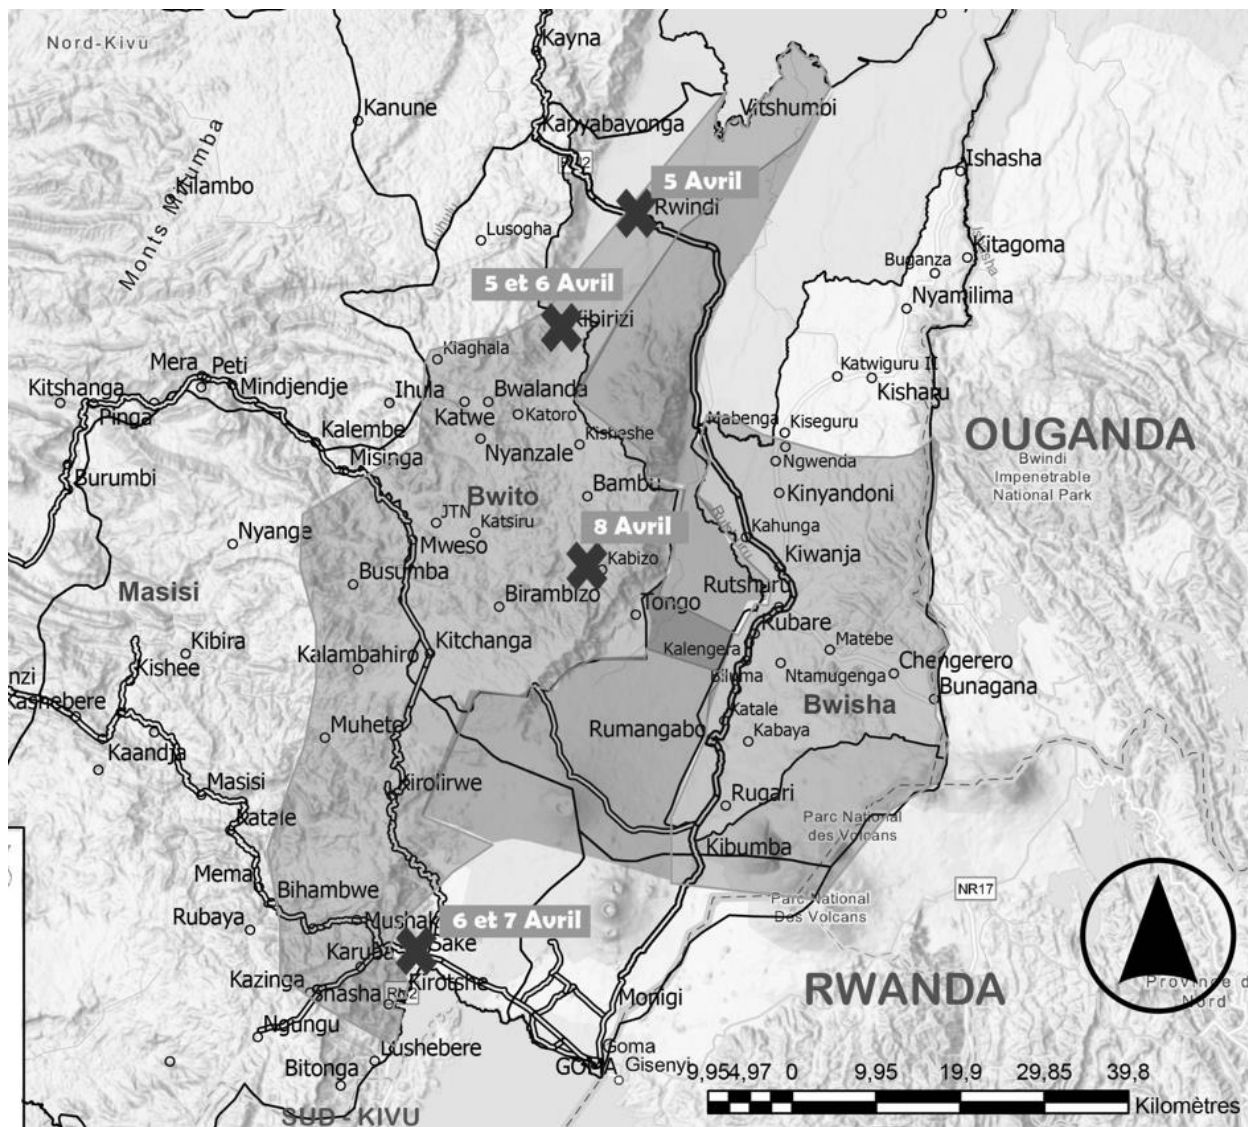

- On 10 July 2024, M23/RDF took control of Nyange, 26 kilometers north-west of Kitchanga, resulting in large population displacements. M23/RDF also made advances towards Bibwe, Bweru and Lwama, north-west of Kitchanga, in July 2024.
- Between 19 and 25 August, M23/RDF took control of Lukopfu (8 kilometers south-east of Masisi center), Karambi (15 kilometers southwest of Masisi center), Kaniro (11 kilometers southwest of Masisi center) and Kisuma bridge (10 kilometers southwest of Masisi center). Wazalendo armed groups repelled several M23/RDF attacks.
- On 20 October 2024, M23/RDF took control over Kalembe on the border between Masisi and Walikale territories. However, the Wazalendo (NDC-R Guidon and APCLS) pushed M23/RDF back on 21 October.
- On 23 October 2024, M23/RDF conquered Kalembe again and maintained its control over Kalembe.
- On 26-27 October 2024, after several days of intense clashes with the Wazalendo-FDLR-FARDC coalition, M23/RDF made significant advances on the Kalembe-Mpeti axis in Walikale, and took control of several localities including Malemo, Minjenje, Mpeti, Katobi. The series of clashes between M23/RDF and the Wazalendo/FARDC coalition triggered important population displacements towards Mutongo, and directly threatened Pinga. FARDC immediately sent reinforcements to Pinga. Multiple sources reported the important presence of RDF troops on the ground (see annexes 19 and 21).
- On 23 October 2024, M23/RDF conquered Kahira, 19 kilometers north-east of Masisi center, thus putting pressure on Masisi center, believed to be another M23 target.

The Group continued to obtain evidence – authenticated photographs, drone footage, video recordings, testimony and intelligence – confirming systematic border incursions by RDF and presence in Petit Nord. During the period under review, RDF positioned itself at the frontlines, operated high-tech weaponry, and directly engaged in combat (see also [S/2024/432](#), para. 40).

Former AFC/M23 recruits interviewed by the Group in Goma and in Beni all confirmed the presence of RDF soldiers, referring to them as the “Friendly Force”. They explained that this English term was generically used by everyone when referring to them. The former recruits were consistent in their description of them as highly trained and disciplined Rwandan special forces who were there to train and support M23, and that regular M23 soldiers were not allowed to interact with them. The “Friendly Force” soldiers moved around in military trucks, were equipped with full and high-tech military gear, and mostly led special military operations.

The following cases are illustrative of the systematic, well-organized, presence of RDF in support to AFC/M23. The list below is non-exhaustive, as the Group has additional files – imagery and documents – with evidence of RDF presence in other locations and on additional dates. Annexes 52-55 provides details of RDF handling of high-tech weaponry in Karuba (Masisi territory), Sake area, and Kanyamahoro (Nyiragongo territory).

- **RDF soldiers’ presence in Kiwanja and Nyongera**

Imagery from 21 May, 8 and 11 June 2024, 22 July, and 2 August 2024, showed soldiers in uniforms equipped with weaponry and uniforms similar to standard RDF-issued equipment sitting in the back of trucks and vehicles. Security and intelligence sources, as well as civil society sources and eyewitnesses identified the uniformed men as RDF soldiers.

- **RDF soldiers' presence in and around Kalembe**

- Late October 2024, M23 and RDF made significant advances on the Kalembe-Mpeti axis, and seized new localities in Walikale territory. Multiple sources – including eyewitnesses, intelligence sources, sources close to M23 and RDF, civil society sources and FDLR/Wazalendo combatants – reported the concentrated presence of RDF soldiers in the area. While the Wazalendo and FDLR were able to push back the M23/RDF from Kalembe on 21 October 2023, sources reported that M23 took back control two days later, when RDF reinforcements had arrived (see annexes 17-19).

- **RDF soldiers' presence in Kitchanga**

- Multiple sources reported that RDF had a key position in Kitchanga, in the Kahe neighbourhood, on the Nyangutu hill. According to information obtained by the Group, Brigadier-General Déo Rusanganya, present in Kitchanga, was commanding the RDF in the area.²⁵⁶

- **RDF soldiers' presence in Kibumba and Buhumba**

From June to early November 2024, civil society sources, local authorities, AFC/M23 sources, eyewitnesses and intelligence sources reported the continuous and repeated movements and presence of RDF soldiers in and around Kibumba and Buhumba. RDF troops and RDF vehicles arrived from the Rwandan side of the border and entered the DRC through Kabuhunga, south of Kibumba, and other border crossings in Kibumba/Buhumba, as was also previously reported [S/2024/432](#), annex 28). RDF troops entering through Kabuhunga and other border crossings in Kibumba/Buhumba reinforced troops, including in Kanyamahoro, passing through Katale, Ruthuru territory.

- **RDF soldiers' presence in Rumangabo**

Aerial footage shot on 2 September 2024 shows a column of soldiers in uniforms equipped with weaponry and backpacks similar to standard RDF-issued equipment, marching from Rumangabo towards the north, in the direction of Rutshuru town. Civil society, eyewitnesses and security sources reported the presence of RDF in and around Rumangabo.

Annex 22 (para. 52)**RDF indiscriminate shelling of Mugunga with 122mm rockets, 3 May 2024****Bombardement aveugle de Mugunga par les RDF avec des roquettes de 122 mm, 3 mai 2024**

In the morning of 3 May 2024, shelling with six rockets fired from the hills behind Sake impacted four different locations within IDP settlements²⁵⁷ located in the Mugunga neighborhood of Goma, situated along the RN2 road between Goma and Sake. Five out of six shells exploded in and around the IDP camps without causing civilian casualties.²⁵⁸ Only the explosion at the “8^{ème} CEPAC” IDP settlement caused heavy casualties and material damage to civilian infrastructure.²⁵⁹

The shelling resulted in at least 17 civilians killed²⁶⁰ and 35 injured, the majority of them women and children.²⁶¹ The DRC Government announced a final death toll of 35 civilians. The Group was unable to corroborate this number, as there are no official records or reliable testimonies to account for the 35 victims. The official memorial ceremony and the burial of 35 individuals took place on 15 May 2024, among suspicions voiced that the DRC government inflated the number of victims and that the 35 coffins presented were not in fact all victims of the bombing. The Group noted that two names appeared twice on the crosses accompanying the coffins, with different dates of death. This may point to irregularities in the process of accounting for the victims, and the number put forward by the Government remains unverified.

122 mm rockets fired by RDF

The Group confirmed that the explosions were caused by 122 mm rockets (see below for details on the 122 mm rockets remnants recovered at Lushagala IDP camp). The Mugunga neighbourhood had already been shelled with 122 mm rockets in February and April 2024, as documented in the Group’s final report (S/2024/432, annex 42).

The 122 mm rockets were fired from military positions near Karuba in Masisi territory, from the hills overlooking Sake, north-west from Mugunga, an area controlled exclusively by RDF and M23 at the time of the incident (see below for details on the M23/RDF identified firing positions and estimated locations of impact below).²⁶²

The Group established that the portable single tube 122 mm rocket launchers (“Grad-P”) were operated by RDF soldiers.²⁶³ Multiple elements support this conclusion. *Firstly*, the presence of RDF at the military positions north-west of Mugunga prior to and at the time of the incident was confirmed (S/2024/432, annexes 39 and 42). *Secondly*, RDF possessed man-portable single-tube rocket launchers and 122 mm rockets (S/2024/432, annex 42). *Thirdly*, the presence of a 122 mm rocket launcher at RDF positions northwest of Sake and near Karuba was documented earlier. It was also documented that RDF had used 122 mm rocket launchers in previous months during operations supporting M23 (S/2024/432, annexes 39 and 42). *Fourthly*, the use of 122 mm rockets requires significant military expertise and extensive dedicated training.²⁶⁴ While RDF has the technical ability and expertise to use 122 mm rockets, it is doubtful that M23 possesses sufficient expertise to handle alone this weapon system, despite having benefited from military training (S/2024/432, paras. 35-39).²⁶⁵ *Fifthly*, 24 hours prior to the attack, an individual close to RDF and M23 alerted the Group that RDF planned to attack Mugunga and Kibati. After the attack, RDF commanders acknowledged to the source that RDF had conducted the attack. *Sixth*, the Group was informed that following the attack, RDF leadership in Kigali instructed the RDF units (belonging to the 93th and 109th battalions) deployed on the ground to avoid targeting IDP camps.

While the US and DRC Governments attributed the attack to the RDF and M23,²⁶⁶ M23 and AFC leaders, as well as the Rwandan government, denied responsibility for the Mugunga attack (see the AFC communiqué on the Mugunga attack below).²⁶⁷

FARDC positions close to IDP settlements

Between 9 and 10 am on 3 May, prior to the RDF shelling of the IDP settlements in Mugunga, the FARDC had fired rockets towards RDF and M23 military positions on the Ngumba and Vunano hills in the area of Mushaki and Karuba, north-west of Sake.²⁶⁸ Despite repeated warnings by humanitarian actors and MONUSCO against the positioning of artillery near or in populated areas (S/2024/432, para. 97),²⁶⁹ FARDC units commanded by General Papi Lupembe (see also para. 70) fired shells from two separate multi-barrel-rocket launchers mounted on trucks, from two distinct artillery positions²⁷⁰ located close to the IDP settlements impacted by the shelling (see details on the FARDC artillery positions under the heading below “*FARDC artillery positions near IDP settlements*”).²⁷¹ One FARDC artillery position was located at the Mugunga cemetery (Cimetière ‘Chemin du ciel’), at less than 500 m from the impact location of the RDF that killed civilians at the “8^{ème} CEPAC” IDP site.²⁷² Another artillery position was identified at approximately two kilometers north-east of the Lushagala IDP settlement (see map below).²⁷³

The Mugunga shelling was likely a retaliatory action aimed at neutralizing the FARDC artillery positions, in response to FARDC/FDNB artillery firing.²⁷⁴ While the impact on the IDP settlement was likely due to a targeting error, it does not exclude an element of planning by RDF with acceptance of significant collateral damage, as explained below.

122 mm rockets as area-weapons are inherently indiscriminate

A portable single tube 122 mm rocket launcher (“Grad-P”) is a type of artillery rocket system designed for area saturation rather than pinpoint accuracy. These rockets lack precision-guided technology, meaning they are typically fired in volleys that cover a broad area, rather than being aimed at specific targets with high accuracy. They are therefore highly effective against troop concentrations, enemy positions, or defensive lines. This area-effect capability inherently makes them “indiscriminate” when used near civilian populations, as the rockets impact within a broad zone rather than a specific target. Moreover, 122 mm rockets have an extensive fragmentation effect, intended to increase the weapon’s lethality and impact, causing damage not only from the explosion itself but also from the pieces of metal and other materials that fly outward, posing significant risks to personnel, equipment, and structures within the vicinity of the blast. This feature makes 122 mm rockets particularly dangerous in densely populated areas, as the fragments can injure or kill individuals far from the actual impact point of the explosion.²⁷⁵

In conclusion, 122mm rockets are by design area-effect weapons unsuitable for precise targeting. They cannot be accurately directed at a specific military target, rendering them indiscriminate when used in populated areas.

For this reason, under international humanitarian law the use of 122mm rockets in urban or civilian-dense environments is deemed as indiscriminate, as they are likely to cause unintended harm to civilians and infrastructure.

FARDC artillery nearby civilian settlements pose great risks for civilians due to predictable retaliatory attacks by the opposing side (see also S/2024/432, paras. 97-98).

After the 3 May attack, humanitarian actors and IDP camp leaders renewed their appeal to cease the use of explosive weapons near populated areas. In the immediate aftermath of the shelling, the angered IDP population of Mugunga demonstrated against the FARDC, demanding them to remove artillery from the vicinity of the IDP settlements. The demonstration was also followed by explicit calls addressed to Military Governor Cirimwami to prevent the presence of artillery and of armed FARDC and Wazalendo near and within the IDP settlements.²⁷⁶ FARDC artillery located near the IDP settlements have been removed following the 3 May incident, but IDPs reported to the Group that mobile artillery positions were occasionally still placed too close to the civilian settlements.²⁷⁷

122 mm rockets remnants recovered at Lushagala IDP camp:

The Group collected imagery recorded on 3 May 2024 at Lushagala and CEPAC IDP camps showing remnants of 122 mm rockets. Security, military, and UN sources, as well as ammunition experts, assessed that the employed weapon system was a Grad-P Complex (GPC) 122 mm tripod-mounted single barrel portable launcher. This weapon system was already documented by the Group. This system has a range of 25 to 30 kilometers.

See image below depicting the remnants of the 122 mm rocket:

Alliance Fleuve Congo
Peuple Uni, Digne et Prospère

COMMUNIQUÉ OFFICIEL DU 3 MAI 2024

Les crimes perpétrés ce vendredi matin à Goma par les troupes de Tshisekedi ne resteront pas impunis.

1. L'Alliance Fleuve Congo (AFC) condamne fermement toutes les attaques contre des civils et des infrastructures civiles, surtout le bombardement de la ville et des camps de déplacés de guerre, qui a tué et blessé plusieurs congolais à Mugunga, dans la ville de Goma ce vendredi 3 mai 2024.
2. L'AFC rappelle que les attaques contre des civils et des infrastructures civiles sont interdites par le droit international humanitaire et de ce fait condamnées et punissables par la loi.
3. Il est à noter que chaque fois que l'offensive des forces négatives du régime de Kinshasa essuie un revers cuisant face à nos forces sur le champ de bataille, elles tournent leurs canons contre les populations civiles. C'est le cas notamment à Kibumba, Kibirizi, Mweso, Karuba, Mushaki, Kirorigrwe ainsi que dans plusieurs autres entités. Et cette tactique est devenue une habitude.
4. L'AFC met en garde le régime de Monsieur Tshisekedi contre tout agissement criminel envers les civils et s'engage à défendre la population contre toute autre menace terroriste à l'avenir de la part du régime de TSHISEKEDI.
5. L'AFC demande instamment au régime de Kinshasa de démilitariser toute la ville de Goma comme le réclame la population meurtrie depuis plusieurs mois par les actions criminelles de la coalition des forces négatives du régime de Kinshasa.
6. Le positionnement de l'artillerie lourde au milieu des populations civiles et dans les camps des déplacés est un crime de guerre qui vise à se servir de la population civile comme bouclier humain. Ces armes doivent être délocalisées afin de mettre la population hors de tout danger.
7. L'AFC demande à la population de la ville de Goma de rester mobiliser pour mettre fin aux actions criminelles de régime décadent de Monsieur Tshisekedi qui sera bientôt mis aux arrêts et traduit devant des juridictions compétentes pour répondre de ses exactions contre des innocents.

- On 10 June 2024, an armoured vehicle belonging to the Malawi contingent of the Southern African Development Community (SADC) Mission in the Democratic Republic of Congo (SAMIDRC) was hit in Mubambiro. Whereas FARDC and SADC positions in Mubambiro had been repeatedly hit by mortar fire in preceding months (S/2024/432, annex 40), excerpts from video footage of the shelling, both in flight and on impact, show that this time SAMIDRC was hit by an anti-tank guided missile.

Two FARDC soldiers and one Congo Protection staff were killed on the spot, while a second Congo Protection staff died in the aftermath of the event.²⁷⁸ Several other FARDC and Congo Protection staff were wounded.

The Group notes that: (1) this weapon system is new (markings show manufacture in 2021) and expensive; (2) the transport of this system, as well as its storage, is complicated and sensitive; (3) the supply of this weapon system is reserved for states; and (4) the use of the missile system requires extensive training. It is therefore highly unlikely that (i) local armed groups or the FDLR possess and/or use this type of weapon system, or (ii) that M23 could have handled this system without external support.

Several M23 combatants reported that sanctioned individual Bernard Byamungu (CDi.038) was responsible for the anti-tank missiles in the areas around Sake (S/2024/432, paras. 36 and 41).

The Group is working on tracing the origin of these missiles.

Annex 25 (para. 54)**Spoofing and jamming of GPS systems in and around M23/RDF controlled areas****Espionnage et brouillage des systèmes GPS dans les zones contrôlées par le M23 et RDF et aux alentours**

Since late May 2024, while operating in and around M23/RDF controlled areas, the Global Positioning Systems (GPS) of different types of assets –UN military and civilian aircraft, MONUSCO surveillance drone, FARDC surveillance drones, humanitarian and commercial aircrafts, and different types of GPS devices – were impacted by jamming and spoofing attacks.²⁷⁹

Spoofing attacks result in the GPS receiver computing erroneous location or time; jamming attacks overpower GPS signals so that a GPS receiver can no longer operate. Jamming and spoofing can therefore be used to interfere with, and counteract, potential military attacks (for example by armed drones or attack helicopters) or aerial observations (for example by surveillance drones or aircraft).

The Group notes that jamming and spoofing carry significant risks as systems heavily dependent on GPS systems, including civilian and humanitarian aircrafts, may suddenly lose navigation capabilities and/or deviate from their intended course. According to information received by the Group, on several occasions since late May 2024, pilots of non-military aircraft were compelled to take manual control after suffering spoofing and jamming attacks while flying in the affected areas.

Spoofing and jamming attacks have been documented in areas around Goma, Kibumba, Sake, Kitchanga, Kanyabayonga and Bukavu (see map below).²⁸⁰ The attack around Kanyabayonga was first documented early July 2024,²⁸¹ few days after M23 captured the town.

Jamming and spoofing systems operated from DRC and Rwandan territories

Three jamming and spoofing systems responsible for the signal interference described above were identified by location. One spoofing system was positioned on a hill in Gisenyi, in Rwanda, less than three kilometers from the DRC border.²⁸² Another system was detected at 500 meters from Kamembe airport in Rwanda, east of Bukavu, DRC.²⁸³ A third system was detected in Kanyabayonga, on DRC territory.²⁸⁴ Sources close to RDF and M23 informed the Group that RDF and M23 were at the origin of the jamming and spoofing.

The Group found no evidence of spoofing and jamming systems deployed by the FARDC, SAMIDRC, FDNB or private military companies.²⁸⁵

Annex 26 (para. 54)**Jamming and subsequent crash of a MONUSCO surveillance drone****Brouillage et crash d'un drone de surveillance de la MONUSCO**

On 29 October 2024, MONUSCO lost contact with one surveillance drone that was conducting a reconnaissance mission in the area of Mpeti and Pinga, Walikale territory. While flying over Mpeti, the GPS system was affected by a jamming attack. The drone crashed close to Kivuvo, 15 kilometers from Kirumba, southwest of Lake Edward.

Few hours before the crash, Lawrence Kanyuka – the M23 political spokesperson and AFC communication focal point (S/2024/432, para. 27) – called on MONUSCO to stop using its drones and end its collaboration with “forces condemned by the UN for genocide and crimes against humanity”.

Annex 27 (para. 55)**SHORAD system spotted in Karuba****Système SHORAD repéré a Karuba**

The SHORAD system was spotted on 25 October, in Karuba (1°34'21.18" S – 28°59'28.14" E), 6 kilometers west from Sake. The soldiers operating the SHORAD system are equipped with weaponry and backpacks similar to standard RDF-issued equipment (picture 3). Analysis of the imagery shows that the SHORAD system has characteristics virtually identical to the Norinco Type 92 Yitian TL-6 (S/2024/432, annex 33).

Screenshots of video received from confidential security source

The Group notes that, even if it was confirmed that the SHORAD system and/or the vehicle were of Chinese manufacture, this does not mean that the material was transferred in violation of the sanctions regime. Rather, if confirmed, it would imply that the materiel was diverted from its intended legal end-use

The Group sent a request for information to the Government of Rwanda on 29 October 2024 regarding the diversion of military materiel from its intended legal and end-user and/or end-use, including with regards to the SHORAD system.

Since the Group's last report, intelligence, civil society and security sources reported the observation of other SHORAD systems in (1) Kamulima (-1.142574° 29.443923°) in April 2024; (2) Kahunga (-1.108805° 29.393574°) in May 2024 (see also S/2024/432, annex 23); and (3) Kitchanga (-1.247193° 29.057567°) in May 2024; and (4) Rubaya (-1.543651° 28.873837°) in May 2024. The three systems that were present on the ground as reported earlier (S/2024/432, annex 34) have thus been mobile.

On 15 November 2024, at least 3 SHORAD systems were present in Petit Nord, namely in Kibumba (1), Kitchanga (1) and Karuba (1).

Annex 28 (para. 56)**Update on mineral traceability****Mise à jour sur la traçabilité minière**

AFC/M23 takeover of mining areas in Rubaya spurred concerns among downstream industry actors on the risks of minerals from the eastern part of the DRC fueling the ongoing conflict.

On 8 May 2024, the former DRC Ministry of Mines issued an official communiqué, accusing M23 of levying illegal taxes on coltan and cassiterite traded to Rwanda. The communiqué also claimed that traders associated with M23 were transporting untagged minerals from Rubaya to Mushaki, and then on to Rwanda, passing through M23-controlled territory.

On 17 May 2024, the president of the North Kivu mining chamber, Ms. Yvette Mwanza, announced that members of the chamber would stop sourcing minerals from all of Masisi territory, turning to those extracted in Walikale and Lubero territories instead, to avoid financing M23 occupation of Rubaya.²⁸⁶ From May to September 2024, production recorded by the North Kivu mining division dropped to 10.7 tons from mining sites in Walikale,²⁸⁷ whereas during the same time AFC/M23 produced at least 150 tons per month in Rubaya.

Responsible Minerals Initiative suspension of ITSCI

On 5 July 2024, the Responsible Minerals Initiative (RMI) (S/2024/432, paras. 141, 147 and 148 and annex 87) suspended ITSCI as a recognized upstream system in the DRC until at least January 2026.²⁸⁸ According to the RMI communiqué, this decision resulted from a series of shortcomings relating to traceability in the DRC, which remained unaddressed by ITSCI. RMI criticized ITSCI for not providing sufficient responses to questions about risk management of conflict escalation impacting mineral trade in the DRC and Rwanda, which would not serve its mission of supporting regulatory compliance and responsible sourcing of minerals from conflict-affected and high-risk areas (CAHRAs).

Consequently, RMI's members and smelters in the Great Lakes Region that rely exclusively on ITSCI's due diligence certification, did no longer meet the requirements to qualify for RMI's Responsible Minerals Assurance Process (RMAP).

The Group notes that the majority of economic actors mostly rely on ITSCI's certification to meet their due diligence obligations; they do not conduct independent quality controls to comply with the globally accepted international standards.²⁸⁹

On 8 July 2024, the United States issued a statement of concern about the illicit trade and exploitation of certain minerals - including artisanal and semi-industrially mined gold and tantalum – contributing to the ongoing conflict. The statement also pointed out that “minerals directly or indirectly benefit armed groups and move out of the country through Rwanda and to Uganda before moving to major refining and processing countries”. The statement pointed at “flawed industry-managed traceability initiatives on the ground in the DRC and Rwanda” among the risks of contamination of the mineral supply chain with minerals ineligible for trade.²⁹⁰

PRESS RELEASE
May 2024

Suspension of ITSCI activities in Masisi territory following the presence of non-state armed group M23 in Rubaya town

On Tuesday 30th April, the security situation deteriorated in North Kivu, DRC, with the M23 non-state armed group taking control over new areas, including the trading town of Rubaya.

This led to immediate halt to ITSCI activities and immediate evacuation of the area by ITSCI teams and state services. So far, there is no major impact reported on the security in Masisi town and Goma town.

Following the resumption of ITSCI activities in Masisi announced in April, all stakeholders, including provincial authorities, state services, companies, and civil society continued to implement risk mitigation measures, with ongoing support from ITSCI. This progressed well until the M23 arrived in Rubaya town and its surrounding area.

Working in high risk and conflicted areas present unique challenges, as shown in the situation in North Kivu which continues to evolve rapidly. Our OECD-aligned programme adapts to the reality on the ground while the safety of our staff is a topmost priority.

We continue to monitor the security situation very closely in communication with local authorities and security forces. Actions in recent weeks led by authorities, state services, and security forces, with support from ITSCI, have shown positive commitment and examples of multi-stakeholder approach to risk mitigation. This work will continue as soon as the situation allows.

Ministry of Mines official communiqué of 8 May 2024

MINISTÈRE DES MINES

*La Ministre***COMMUNIQUÉ OFFICIEL**

Les périmètres de l'ancien Permis d'Exploitation 4731, retiré par l'Arrêté Ministériel n° 00222/CAB/MINES/01/2023 du 14 juin 2023, sont désormais dans le domaine de l'Etat.

Une exploitation minière artisanale illicite continuait à se réaliser sur des sites miniers dans ces périmètres par les populations locales et les autochtones de Rubaya et ses environs. Les minerais extraits de ces sites, acheminés à Goma, n'étaient pas vendus parce que non tagués par le système de traçabilité à cause de leur origine illicite.

Pour contourner cette difficulté, les vendeurs de ces minerais prenaient une autre trajectoire Rubaya – Mushake (où le M23 avait, pour besoin de la cause, érigé un grand entrepôt) et de Mushake vers le Rwanda ou l'Ouganda pour traitement et exportation. Curieusement ces mêmes minerais, issus de l'exploitation illicite avec ses effets collatéraux une fois au Rwanda ou ailleurs, sont tagués et vendus normalement à l'international comme si dans ces pays il existait des blanchisseries des minerais de sang.

Informée de cette situation, la Ministre des Mines de la République Démocratique du Congo a autorisé à une Coopérative minière de la place de s'installer sur les sites exploités artisanalement dans les périmètres de l'ancien PE 4731, afin de fédérer tous les exploitants artisanaux présents avec l'assistance et sous l'encadrement du SAEMAPE et de la Division des Mines du Nord-Kivu, en vue rétablir la traçabilité des flux des matières et canaliser toute la production dans le circuit officiel de commercialisation avec l'aide des entités de traitement régulièrement agréées et ce, en attendant les dispositions spécifiques à prendre sur ce gisement.

Une fois au courant de cette démarche, le Rwanda via son préposé le M23, a intensifié des attaques contre Rubaya, aujourd'hui sous le contrôle de l'armée rwandaise.

Aussitôt établi dans cet espace, le M23 y a tenu une grande réunion avec tous les creuseurs et négociants, les autorisant à poursuivre l'exploitation artisanale. Ils achètent les minerais produits, les entreposent dans leurs grands dépôts de Mushake avant de les acheminer au Rwanda.

A cet effet, ils instaurent une taxe unique de 3.000\$/Tonne de Coltan et 2.000\$/Tonne de cassitérite et le paiement se fait à Kigali après-vente. Par ailleurs, ils ont saisi tous les minerais destinés aux comptoirs congolais et les ont orientés vers Rwanda.

Les informations en ma possession renseignent que le M23 a intensifié l'exploitation minière, y compris par les femmes enceintes et les enfants dans les sites miniers de Rubaya. Le Rwanda a opté pour une stratégie de diversion consistant à sursoir à l'exportation des produits miniers, de peur d'enregistrer une hausse des statistiques d'exportation à la suite de l'occupation de Rubaya. Les minerais exploités sont donc entreposés pour leur exportation ultérieure.

(Suite)

Nonobstant cette manœuvre de diversion, il appert que les minerais de la filière des 3T exportés par le Rwanda proviennent de la fraude, de la contrebande, de l'exploitation illicite et des crimes perpétrés dans la partie Est de la République agressée par le Rwanda et le M23 et leurs attaques suivent la Direction des sites miniers. Le Rwanda exporte les minerais de sang, en violation des toutes les dispositions internationales et régionales en la matière.

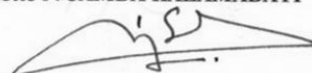

Aussi, le Ministère des Mines de la RDC voudrait-il rappeler que le processus de la création de la CIRGL a été lancé par le Conseil de Sécurité des Nations Unies, dans le contexte des conflits armés dans la Région des Grands Lacs africains. Le Conseil de Sécurité avait alors reconnu la gravité de la situation en RDC et l'a même qualifiée de **menace pour la paix et la sécurité internationales et pour la Région**.

Le Ministère des Mines RDC attend de ses partenaires – Les Nations Unies et la CIRGL notamment – une affirmation sans ambages de l'engagement de tous les acteurs, y compris les consommateurs finaux des produits miniers, pour un approvisionnement sain et responsable en substances minérales et, partant, qu'un embargo soit décrété à l'encontre du Rwanda.

Cette option a l'avantage de freiner le financement des conflits par les minerais ; restaurer la confiance des parties prenantes ; protéger les intérêts économiques légitimes de l'Etat ; atténuer les violations des droits de l'homme par les groupes armés ainsi que les armées étrangères et rétablir la paix et la sécurité internationales.

Annex 29 (para. 57)**Illustrations of documented breaches of mineral traceability****Illustrations de violations documentées de la traçabilité des minéraux**

Illicit trading has been reported by the Group since at least 2012, highlighting ongoing challenges in ensuring traceability,²⁹¹ and suggesting that efforts to improve supply chain transparency have been insufficient and/or ineffective. Yet, no previous violation reached the magnitude of the current 150 tons of coltan smuggled monthly from Rubaya to Rwanda.

The cases presented below provide specific examples of illicit trading of tin, tantalum, and tungsten (3Ts) minerals documented by the Group since 2013, excluding cases involving gold. The case studies reveal breaches in traceability across different years, from smuggling, illegal mining, and cross-site smuggling to the illegal sale of mineral tags.

Common issues that persist to this day, based on the case studies listed below:

- **Patterns of illicit mineral trading**, whereby minerals are traded illegally across borders, like the smuggling of coltan from the DRC to Rwanda (case 1) or cross-site smuggling (case 4).
- **Oversight issues**, whereby authorities or corporations knowingly or unknowingly allowed traceability violations. For example, illegal tagging by companies or falsifying origins with tags on the black market (cases 2 and 3).
- **Failures in traceability systems**: where the established traceability systems (like ITSCI tags) were manipulated, falsified, or ignored (cases 3 and 4).
- **Armed group involvement**: armed groups controlling mining areas or supply chains, such as Raia Mutomboki (case 2) or APCLS and PARECO groups (case 4).

1. CIMIEX, AD Trade International and Union Mines smuggling of white coltan from the DRC to Rwanda (2013-2014)

- **Summary**: The Group reported on two companies based in Rwanda involved in the smuggling of white coltan from the DRC to Rwanda, under false origins (as if it was of Rwandan origin). Although the cooperation of the Rwandan authorities and a local smelter allowed to detect the fraud, the case reveals cross-border smuggling weaknesses in the system.²⁹²
- **Documented violations**:
 - In December 2013, “CIMIEEX is purported to have supplied 10 tons of ‘white coltan’ to AD Trade International (exporter).” To determine whether the minerals had been smuggled from the DRC, the Government of Rwanda had compared them to samples from the mining sites that had been “fingerprinted” as part of Rwanda’s traceability efforts. The Government of Rwanda told the Group that, for the CIMIEEX minerals, the field (mine) samples and the consignment (suspect) samples did “not appear to be plausibly similar”.²⁹³ This thus implies that the white coltan sold by CIMIEEX was smuggled from the DRC.
 - In December 2013, “Union Mines provided 1.8 tons of ‘white coltan’ to Phoenix Metals (exporter/comptoir)”. Phoenix Metals’ own testing showed that the consignment sample contained two types of coltan. The company’s test found that 80 per cent of the sample was made up of black coltan of the kind mined in Rwanda and that 20 per

cent was made up of white coltan, which was not found in Rwanda; yet it was available in the DRC.²⁹⁴ Phoenix Metals told the Group that it had not purchased the minerals because of doubts about their origin.²⁹⁵

2. Illegal mining by armed groups and sale of mineral tags in Rwanda (2014-2015)

- **Summary:** The case documented in 2015 reveals illegal mining and trade practices with the involvement of an armed group (Raia Mutomboki, operating in South Kivu). Cassiterite and other 3T minerals originating from South Kivu were smuggled to Rwanda.²⁹⁶ According to the Group, mineral tags were misused and sold on the black market, with the complicity of Rwandan companies and tagging agents of the Geology and Mines Department of the Rwandan Ministry of Mines, who signed the mine site logbooks.²⁹⁷
- **Documented violations:**
 - From November 2014 to May 2015, 126,228.5 kg of cassiterite sourced from areas under Raia Mutomboki control had flown to Kavumu airport, near Bukavu.
 - In 2015, the Group reported that cassiterite and other 3T minerals originating from Lulingu and other areas of South Kivu Province were transported across Lake Kivu and the Ruzizi River to Rwanda. The Group also documented an attempt to smuggle 77 bags with a total of 4,425 kg of coltan during the night of 2-3 March 2015, using the Bukavu road to the Ruzizi River, downplayed by the FARDC intervention.²⁹⁸
 - In June, July and August 2015, the Group documented the sale of 12 mineral tracing tags and associated paperwork on the black market by three Rwandan companies: RF&GM, Africa Multibusiness Line and Société minière du Kanama (SOMIKA). The documentation included tags, copies of mine site logbooks, ministerial orders attributing mineral research licenses to the three companies and administrative documents allowing employees to transport the minerals.²⁹⁹

3. Illegal tagging of minerals from non-certified sources (2017)

- **Summary:** The documented cases reveal issues of illegal tagging (through sale of tags on black market) of non-certified minerals originating from North Kivu, as well as the contamination of the supply chain due to armed group activity.³⁰⁰ Illegal mining of tin, tungsten, and tantalum continued, including in protected areas in the DRC such as the Virunga National Park, revealing lack/failure of oversight and traceability.
- **Documented violations:**
 - The Group reported that in the trading centre of Ndjingala, in Mubi and Walikale town (Walikale territory, North Kivu), tags were sold on the black market, allowing minerals sourced from the non-validated site of Bisie (see S/2014/42, para. 206, annexes 79 and 83) and Mpafu/Nyakoba to permeate the legal chain of custody. Tags could be purchased for about \$3 per 50 kg bag of minerals, or \$500 per 10 tons.³⁰¹

³⁰⁰ S/2017/672, para. 77-86 and 93-98.

³⁰¹ S/2017/672, para. 77-86.

- The Group documented that tagging of minerals from the mining sites of Rubonga in Masisi territory and Kalay Boeing in Walikale territory continued. This was the case after ITRI Ltd suspended these sites due to the proven presence of armed groups there.³⁰²

4. Cross-site mineral smuggling (2019-2024)

- **Summary:** The documented cases reveal patterns of cross-site smuggling of coltan in Masisi and Rubaya, illicit tagging practices, armed group involvement, and intentional misrepresentation of the origin of minerals manipulating the loopholes of the ITSCI tagging system.³⁰³
- **Documented violations:**
 - Throughout 2019 and early 2020, coltan produced at Kamatale site in Masisi territory were transported untagged to Ngungu, Masisi territory, where the coltan was tagged in a depot belonging to the Société aurifère du Kivu et du Maniema (SAKIMA SA). Also, between January and October 2019 minerals extracted under the control of APCLS, Nyatura FDDH and Nyatura Matata armed groups were tagged in Ngungu as local production. Minerals tagged in Ngungu were then sold to the Coopérative des artisanaux miniers du Congo (CDMC).
 - The Group reported extensive cross-site smuggling of coltan from the PE4731 exploited by the Société Minière de Bisunzu SARL (SMB) in Rubaya to adjacent validated but non-productive sites in the PE76, again through Ngungu.³⁰⁴ Most of the smuggling was orchestrated by COOPERAMMA, then under the executive leadership of Shamamba Enoch. The smuggling was financed by the then COOPERAMMA “president” Robert Habinshuti Seninga.³⁰⁵
 - In 2023 and early 2024, Rubaya area was occupied by PARECO armed group. This resulted in minerals extracted in Rubaya being ineligible for trade. Yet minerals continued to be extracted and smuggled untagged.³⁰⁶ Despite consecutive suspensions, ITSCI continued to tag Rubaya minerals from the PE76 permit, claiming that only PE4731 was under armed group control, and ignoring several accounts of cross-site smuggling from PE4731 to PE76.³⁰⁷ UN sources and the Group estimated that in 2023, 400 tons of coltan from PE4731 in Rubaya were smuggled into the legal supply chain through PE76.³⁰⁸ In 2024, the Group reported on 36 tons of untagged coltan extracted in Rubaya while the tagging system was suspended at that time, and thus not eligible for trade.³⁰⁹

Annex 30 (para. 58)**AFC/M23 monopoly over coltan production and trade in Rubaya directly benefitting smuggle to Rwanda****Le monopole de l'AFC/M23 sur la production et le commerce du coltan à Rubaya profite directement à la contrebande vers le Rwanda**

Although AFC/M23-approved traders had little profit margin per kilo of coltan purchased, they still benefitted from their trade monopoly and the high volumes of minerals sold.

According to economic actors, civil society representatives, and officials from the DRC's Ministry of Mines and security services, AFC/M23's decision to launch an attack and seize control of Rubaya in late April 2024 was primarily motivated by a strategic need to monopolize the only viable route for mineral evacuation. This move would ensure that AFC/M23 maintained exclusive control over this critical supply chain. Furthermore, these sources reported that AFC/M23 sought to make Rwanda the sole transit market for these minerals, thereby securing a continuous flow of coltan from Rubaya to Rwanda.³¹⁰

In its press statement issued on 25 October 2024, available [online](#), the members of the Security Council “called on both parties to fully cooperate with Angola in order to speed up the finalization and implementation of the harmonized plan for the neutralization of Democratic Liberation Forces of Rwanda (FDLR) and the disengagement of foreign forces. They urged the Democratic Republic of the Congo and Rwanda to engage in the process in good faith and to seize the opportunity to conclude a lasting, peaceful solution to the protracted conflict in the region.”

The members of the Security Council also “reiterated their condemnation of all armed groups operating in the Democratic Republic of the Congo, including M23, ADF (Allied Democratic Forces) and FDLR. They further condemned foreign military support provided to M23 and any other armed groups operating in the Democratic Republic of the Congo. They demanded the cessation of such support and the immediate withdrawal of any such external party from the Democratic Republic of the Congo territory. They also condemned support, notably provided by military forces, to certain armed groups such as the FDLR and demanded the cessation of such support.”

African Union Communiqué of the 1222nd Meeting of the Peace and Security Council, held on 15 July 2024, on the role of mediation and reconciliation in conflict resolution in eastern DRC.

In its communiqué, available [online](#), the African Union expressed “grave concern over the increasing intensity of M23 attacks, the Allied Democratic Forces (ADF) and Democratic Forces for the Liberation of Rwanda (FDLR), which have worsened the security insecurity and the suffering of civilian in the eastern DRC”, and demanded these armed groups, including the FDLR, “to immediately and unconditionally cease their attacks and reiterates the call for the immediate and unconditional withdrawal of all armed groups, from the eastern DRC, in line with the Communiqué of the Mini-Summit of Luanda of 23 November 2022.”

US Government Press Statement on the violation of the Ceasefire in Eastern Democratic Republic of the Congo

In a statement issued on 8 November 2024, the US reiterated its “longstanding call on the Government of DRC to stop collaboration with the US and UN-sanctioned Democratic Forces for the Liberation of Rwanda (FDLR) armed group, and take immediate steps to demobilize it.”

Violation of the Ceasefire in Eastern Democratic Republic of the Congo

PRESS STATEMENT

MATTHEW MILLER, DEPARTMENT SPOKESPERSON

NOVEMBER 8, 2024

The United States is gravely concerned by the ceasefire violations in eastern Democratic Republic of the Congo (DRC) since October 20 by the Rwandan-backed, U.S.- and UN-sanctioned M23 armed group. M23 must immediately cease hostilities and withdraw from its positions in Walikale territory, North Kivu Province. We reiterate our longstanding call for Rwanda to immediately withdraw all Rwanda Defense Force personnel and equipment from the DRC, including its surface-to-air missile systems, and to cease GPS disruptions. We also reiterate our longstanding call on the Government of DRC to stop collaboration with the U.S.- and UN-sanctioned Democratic Forces for the Liberation of Rwanda (FDLR) armed group and take immediate steps to demobilize it.

The Luanda Process led by Angolan President João Lourenço has made important progress, including the operationalization of the Angola-led Reinforced Verification Mechanism, the technical-expert-level agreement on a plan for the FDLR armed group, and the disengagement of uninvited foreign forces from the DRC. We call on all parties to abide by their commitments under the Luanda Process. All states should respect each other's sovereignty, protect all civilians, and hold those responsible for human rights abuses accountable.

Statements issued by the Government of France

- In February 2024, France called on all armed groups to end the violence, and explicitly condemned the FARDC's collaboration with the FDLR, stating that "in accordance with their commitments, the armed forces of the DRC must cease all collaboration with the FDLR, the militia movement that committed the genocide against the Tutsis in Rwanda in 1994."
- More recently, on 25 October 2024, France reiterated its full support for the Luanda process to find a lasting solution to the conflict and called on the parties to implement without delay the commitments made within this framework, referring to the DRC's engagement to neutralize the FDLR and thus cease its collaboration with this sanctioned armed group.

La France est très préoccupée par la situation dans l'Est du Congo, dans le Nord Kivu et en particulier autour de Goma et de Saké. Les atteintes à l'intégrité territoriale de la RDC et la situation des populations civiles sont inadmissibles. La France condamne la poursuite des offensives du M23 avec le soutien du Rwanda, et la présence des forces rwandaises sur le territoire congolais.

Le M23 doit cesser le combat immédiatement, et se retirer de toutes les zones qu'il occupe, conformément aux décisions prises dans le cadre du processus de Luanda. Nous appelons le Rwanda à cesser tout soutien au M23 et à se retirer du territoire congolais. La France appelle l'ensemble des groupes armés à mettre un terme aux violences. Conformément à leurs engagements, les forces armées de RDC doivent cesser toute collaboration avec les FDLR, mouvement issu des milices ayant commis le génocide perpétré contre les Tutsi au Rwanda en 1994.

La France réitère son plein soutien aux processus régionaux de médiation pour trouver une solution négociée au conflit.

Annex 38 (para. 72)**Seized weapons and ammunition during FARDC operation against FDLR****Armes et munitions saisies lors de l'opération FARDC contre les FDLR**

During the operations against the FDLR on 23-24 September at Chove, Kimoka, Lupango and Mubambiro, and inadvertently against APCLS on 25-26 September 2024 in Rusayo, the FARDC recovered the following weaponry, that the Group was able to inspect in Goma:

- 22 assault rifles
- RPG-7 anti-tank grenade launcher
- RP-46 General Purpose Machine Gun (GPMG)
- 5,4259 rounds of ammunition (7.62x39 mm, 7.63 x 39 mm, 7.62 x 54R mm)
- 30 mm HE Round IO-30 (VOG-17) for Automatic Grenade Launcher AGS-17
- 40 x 46mm M406 type LV grenades
- OGV-7V 40mm
- (OG-7B) grenades
- 40 mm Ogi-7MA High Explosive Fragmentation Rocket
- 40 mm PG-9P propellant charge
- 40 mm Rocket propelling charge
- PG-9 propellant charge

Some of the seized materiel was produced recently, i.e. in 2020, 2021 and 2022.

The Group conducted investigations on the possible origin of this weaponry, and sent official communications to various governments, requesting information relevant to the identification and tracing of this weaponry.

Following tracing requests sent to the Republic of Bulgaria, the Permanent Mission of Bulgaria provided the following information:

- It confirmed that the OG-7V 40 mm rocket (**#1 below**) and 40 mm rocket propellant charge (**#2 below**) were of Bulgarian production, exported in 2022 to the DRC Ministry of Defense, following notification to the UN Security Council Committee.
- It confirmed that the PG-9P propellant charges (**#3 below**) are of Bulgarian production, part of a set PG 9V with serial number 2-18-(11). The entire produced quantity was exported in 2018 to the Ministry of Defence of Rwanda as importer and end-user.
- It confirmed that the entire produced quantity (10,000 pieces) of 40mm Ogi-7MA High Explosive Fragmentation Rockets with serial number 10-03-22 (**#4 below**) was exported in 2022 to the DRC Ministry of Defense following notification to the UN Security Council Committee. The FARDC were the agreed end-user.

The Group is working on tracing the origins of the seized weapons and ammunition, to elucidate how FDLR and APCLS obtained the equipment.

Lt.-General Guidon condemned the FARDC's attack on the APCLS in Rusayo, emphasizing that the FARDC and VDP shared a mission to defend the integrity of the national territory. He called on all Congolese to unite against the perceived aggression by M23 and RDF, warning that this division risked the fragmentation of the country. He urged the VDP to uphold patriotic discipline and avoid actions that might aid the enemy, while also encouraging the FARDC to demonstrate professionalism in recognition of the VDP's commitment to national defense.

- **FDLR embedded within VDP/Wazalendo units**

Fearing new FARDC operations against FDLR leadership and bases, FDLR and Wazalendo groups jointly reinforced their defenses. Their main strategy was to embed FDLR combatants within VDP/Wazalendo units active in Rutshuru, Masisi and Nyiragongo territories, and claim that FDLR had vanished. This phenomenon was not new. Since the consolidation of the Wazalendo coalition, key FDLR commanders were re-affected to command existing or newly created VDP/Wazalendo groups, such as commander Defender to FDDP, and Kambuzi to APCLS (S/2024/432, paras. 66 and 112, annexes 60 and 67).³¹¹

FDLR combatants captured during the 23-24 September operations reported that they were instructed to identify as members of other Wazalendo armed groups. The Group of experts also witnessed an exchange over the phone between a 17-year-old captured FDLR combatant and FDLR commander Fidel Sebagenzi, (S/2024/432, para. 72 and annex 51) during which Sebagenzi instructed the minor to deny his FDLR membership.

OBJET : Contribution des FDLR pour ramener la paix dans la Région.

Excellence Monsieur le Président,

Les Forces Démocratiques de Libération du Rwanda, FDLR en sigle, saluent votre choix par l'Union Africaine comme Médiateur entre la République Démocratique du Congo et le Rwanda en guerre. Elles comptent sur votre sagesse et votre engagement pour aider la Région des Grands Lacs Africains à retrouver une paix durable.

A titre de rappel, les FDLR sont une Organisation politico-militaire créée en 2000 par nécessité de légitime défense des réfugiés hutu rwandais abandonnés à leur triste sort menacés d'extermination par l'armée du Front Patriotique Rwandais (FPR-INKOTANYI) au pouvoir à Kigali, et qui les pourchasse encore depuis la destruction sauvage de leurs camps à l'Est de la République Démocratique du Congo en 1996.

Dès leur création, les FDLR militent pour que les conditions politiques, sociales, économiques et surtout sécuritaires rassurent tous les rwandais et favorisent le retour des réfugiés dans leur pays dans la dignité. C'est pour cette raison qu'elles n'ont cessé d'appeler le régime de Kigali au dialogue avec l'opposition en vue de résoudre pacifiquement le problème rwandais et, ainsi, contribuer au retour d'une paix durable dans la Région.

Dans cette optique, les FDLR ont entrepris plusieurs initiatives dont le désarmement et le cantonnement volontaires de leurs combattants à KAMINA en 2001, le désarmement et le cantonnement volontaires de leurs combattants à KANYABAYONGA, à WALUNGU et à KISANGANI en 2014 devant la Communauté Internationale sous le parrainage de la SADC.

Malheureusement la bonne volonté des FDLR de s'inscrire dans la logique de la paix a toujours buté sur un mur de préjugés insensés et d'incompréhension érigé à la faveur du régime de Kigali qui refuse mordicus le dialogue avec son opposition.

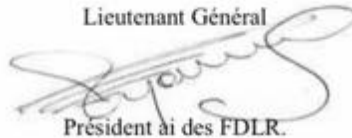

Les FDLR estiment que le problème rwandais est d'essence politique et prônent la voie de négociations à la place des armes pour le résoudre.

C'est pourquoi elles ont l'insigne honneur de vous demander de bien vouloir user de votre position et de votre influence dans la Région pour amener le régime de Kigali à dialoguer avec son opposition afin de ramener une paix durable dans la Région des Grands Lacs Africains en général et à l'Est de la RDC en particulier.

Espérant une bonne compréhension à notre doléance, nous vous prions d'agréer, Excellence Monsieur le Président, l'expression de notre haute considération.

BYIRINGIRO Victor

Annex 43 (para. 78)**Meeting between FARDC and VDP Leaders on 27 September 2024****Réunion organisée entre les FARDC et les Commandants VDP le 27 septembre 2024**

To repair strained relations with the VDP/Wazalendo, the North Kivu military authorities - including Governor Cirimwami, General Fall Sikabwe and General Dieugentil Alengbia Nzembe - met with VDP leaders, including representatives from APCLS, on 27 September. The military authorities expressed regret over the recent attacks on FDLR and APCLS, referring to them as an “incident” and acknowledging the losses suffered by these groups. They emphasized the successful Wazalendo-FARDC cooperation and reiterated that M23/RDF was their only common enemy. VDP leaders vowed renewed trust and cooperation. FARDC commanders and VDP leaders reported that military authorities discreetly requested the VDP/Wazalendo to reassure FDLR that it was still considered as their ally.

According to VDP and Wazalendo sources, during the meeting VDP leaders requested the FARDC to release arrested combatants, rehabilitate occupied positions, provide financial and logistical assistance for the funerals of the killed combatants and for the medical care for the wounded combatants.

In a video, the FARDC Spokesperson General Guillaume Ndjike states that the meeting served to “remove equivocation in relation to the incidents that happened”. Referring to the operations against FDLR and APCLS, he confirmed that it was indeed only ‘an incident’ reassuring the population that relations between the Wazalendo and the FARDC were progressing very well, and that they were all facing only one enemy, the M23/RDF.

In another video filmed during the meeting, one of the VDP leaders stated the following: “we did not separate ourselves from the FARDC, the FARDC are our parents, it is an incident which took place and we have just been received by the general Fall who received us well and who says to us that we have only one enemy which is the M23. We ask the population to be calm as the problem which there was between the parent and the child has just been decanted.”

Annex 45 (para. 80)**Additional details on the FARDC-VDP/Wazalendo-FDLR cooperation, their engagement in fighting, and VDP/Wazalendo recruitment and organization****Informations complémentaires sur la coopération FARDC-VDP/Wazalendo-FDLR, leur engagement dans les combats, ainsi que le recrutement et l'organisation de VDP/Wazalendo***Examples of FDLR and VDP/Wazalendo operations during the period of the ceasefire:*

While initially FARDC and RDF temporarily upheld the 4 August ceasefire (paras. 35-37), their proxies, AFC/M23 and Wazalendo with FDLR soon resumed clashes. The list below provides some illustrations of clashes between FDLR/Wazalendo/VDP and AFC/M23 in Rutshuru, Masisi, Nyiragongo and Walikale territories. This list is non-exhaustive.

- On 19 August, in Katwa and Kikuvo, north-east of Kanyabayonga, Rutshuru territory, AFC/M23 clashed with Mai-Mai Yira, reportedly resulting in two AFC/M23 being killed and in one Mai-Mai injury. AFC/M23 took control of the village the following day, despite the ceasefire.
- On 21 August, in Misinga, close to Mweso, Masisi territory, AFC/M23 clashed with APCLS, NDC-R/Guidon, CMC-FDP and FDLR-FOCA combatants. Three M23 combatants and one CMC-FDP combatant were killed in combat, and two civilians were injured.
- On 15 September 2024, in Kasasa, near Kikuku, Rutshuru territory, M23 combatants clashed with the CMC-FPAP combatants. This resulted in one M23 combatant being killed and one CMC-FPAP being injured.
- On 23 September 2024, in Nyangue, Masisi territory, M23 combatants clashed with CMC-FDP and APCLS combatants. Seven civilians were killed during the clashes.
- On 24 September in Kaliba, M23 combatants clashed with CMC-FPAP combatants. This resulted in one CMC-FPAP combatant being wounded.
- On 26 September 2024 in Bigogwe, AFC/M23 clashed with CMC-FDP combatants.
- Annexes 17- 19 provide additional illustrations of clashes including VDP/Wazalendo and FDLR combatants. The Group notes that RDF troops provided support to M23 in several operations against the VDP/Wazalendo and FDLR, as detailed in annexes 17-27.

Additional elements on FARDC-VDP/Wazalendo cooperation:

The Government of the DRC continued to systematically use North Kivu armed groups, including the sanctioned FDLR, to fight M23 and RDF (S/2024/432, paras. 60-80). The office of the Governor of North Kivu, Major-General Peter Cirimwami, coordinated the operations (paras. 67 and 71; S/2024/432, para. 63).

Colonel Sekololo, acting on behalf of General Cirimwami, was responsible for the transfer of resources, weapons, ammunition, and uniforms to the VDP/Wazalendo. For example, early August 2024, ammunition and other military equipment were delivered to APCLS in Loashi and Nyabiодо, Masisi territory.³¹⁵ An FDLR combatant also confirmed regular food deliveries to FDLR positions around Sake.

Additional elements on the VDP command, recruitment and training, with FDLR involvement:

VDP command and control remained unchanged (S/2024/432, para. 61). VDP leaders also took advantage of the relative calm after the 4 August ceasefire to recruit and train combatants, to compensate for their losses suffered in combat against the AFC/M23 and RDF. Former and active combatants, including new recruits, told the Group that they decided to join VDP/Wazalendo ranks to escape forced AFC/M23 recruitment, to avoid being killed by AFC/M23, and to defend the territorial integrity of the DRC.

³¹⁵ VDP, civil society, FARDC sources and local authorities.

FDLR instructors provided military training to CMC-FDP and APCLS elements around Rusayo and Shove. The training focused on combat technics, refreshing courses, human rights and international humanitarian law.

Newly recruited combatants were trained in Rusinga, Mushwago, Rwankuba, Nyabitega, Kiseguro and Nyamilima under the command of “Colonel” Manirakiza Julien Ndurinzira and “Colonel” Mashango. In Bukombo groupement, since June 2024, “Colonel Innocent Ukwishatse” was the main trainer to CMC-FDP combatants.

PARECO-FF leadership informed the Group of the creation of a new VDP coalition, known as the *Coalition des Mouvements des patriotes pour la défense de la Nation* (CMPDN). This new coalition envisaged a united armed movement with a centralised command for all VDP members. At the time of drafting, none of the major armed groups - such as APCLS, CMC-FDP or NDC-R - had joined the new coalition.

- Issue date: 4 July 2024.
- Order number (n° d’ordre’): this card indicates number 0945, indicating that there were at a minimum 945 cards already issued by 4 July 2024.
- The individual, Michel Ndjaza Ivara, was the “Responsable provincial de ADCVI”.
- The address, ‘Telega’, is an IDP camp. The individual admitted living in the Telega IDP camp and being an internally displaced person. His “carte d’assistance humanitaire” below is proof of this status. The individual also admitted being the president of the youth in Telega IDP camp, ensuring the defense of the camp in case of an attack. This corroborates reporting and testimonies about presence of armed combatants inside IDP settlements, and ongoing recruitment in these IDP settlements.
- The card demonstrates a high level of organization within the “ADCVI” group.
- The individual was a former member of the Union des Patriotes Congolais (UPC).

AFC/M23 intensified efforts to recruit combatants from Ituri Province. The Group received credible testimonies on various networks targeting new recruits, as well as former UPC combatants.³¹⁶

Sources reported that Zaïre leaders, including Logo Marine, remained actively involved in the recruitment networks to reinforce the ranks of the AFC/M23 (S/2024/432, para. 152). The new recruits transited through Uganda, and entered AFC/M23-controlled territory at Bunagana. From there, they were taken to Tchanzu.³¹⁷

Benjamin Bahati Londjiringa, the former spokesperson of MAPI, pledged allegiance to the AFC/M23 and went to Bunagana, taking at least 100 MAPI combatants with him. In July-August 2024, he was seen in Bunagana, from where he had sent videos to his network, acknowledging his defection to AFC/M23. He also attended training in Tchanzu. Recently, Bahati returned to Ituri to recruit for AFC/M23.

By October 2024, over 1,000 combatants from Ituri have completed training in Tchanzu. Few of these combatants joined AFC/M23 in combat in North Kivu, while others either returned to Ituri to train combatants locally, or remained on stand-by in Uganda.

Annex 50 (para. 100)**Illegal taxes levied by CODECO/URDPC****Taxation illégale par CODECO/URDPC**

As of 1 October 2024, CODECO/URDPC leadership in Nyangarayi issued a series of taxes on civilians and businesses in the 13 groupements in the Banyali Kilo sector of Djugu territory under its control.³¹⁸

Shop owners were imposed a weekly fee of \$17.54, while artisanal mining sites owners had to pay between \$35 to \$73.68 per week. Additionally, the local population was subjected to a daily tax of \$0.35 per capita (males only),³¹⁹ which, based on the 5,455 male residents of Nyangarayi area alone, yielded an estimated \$1,900 daily to CODECO.³²⁰ The CODECO commander collecting these payments was known as “Colonel” “50 Cent”. Commander “50 cent” also imposed ad hoc contributions of 100,000Fc (\$35) to each village under the pretext of “extraordinary contributions” (*salongo*).

From June to October 2024, CODECO/URDPC took over several mining sites in Banyali Kilo groupement of Djugu territory, which were previously controlled by Zaïre commander Pharaon Fidele Babala (S/2023/990, annex 47 and 50), including the site of Lodjo. During that time, the mining cooperative belonging to a well-known Bunia based businessman active in the public works sector, paid money to CODECO/URDPC to protect its assets and operations in Lodjo.

Annex 51 (para. 102)**Baraka Maki's illicit economic activities and money laundering****Activités économiques illégales de Baraka Maki et son blanchiment d'argent**

Baraka Maki was the richest and more influential of all Zaïre/ADCVI commanders, especially after the setback of Pharaon Fidele Babala (S/2023/990, annex 47 and 50), who lost control of Lodjo mining area to CODECO/URDPC in June 2024.³²¹

Baraka operated 4 to 6 mechanical excavators ("pokle") for the mining of gold on the Lalo site on the Shari river in Mambisa chefferie. Mining continued to yield 5 kg of gold weekly to Baraka (S/2024/432, paras. 167–170), valued at \$405,000 (\$1.6 million monthly) at current prices.³²²

Baraka Maki also continued to receive monthly payments averaging \$2,000 from at least five mining cooperatives active in Djugu territory, or \$10,000 per month, to protect their mining activities.

He also imposed illegal taxation of \$3.5 per week to two hundred small business owners in Mabanga area, yielding \$2,900 monthly, and controlled payments of \$0.07 per each transit at 50 illegal checkpoints in Djugu territory, averaging \$57,000 per month.³²³ Illegal taxation generated an estimated monthly cash flow of \$70,000.

Baraka Maki laundered the proceedings of illegal taxation through the purchase of real estate and commercial activities in Mabanga, Iga Barrière, and Bunia.³²⁴

Annex 52 (para. 104)**Illustrations of clashes between M23/RDF and FARDC at the border between South Kivu and North Kivu, and M23 incursions into Northern Kalehe territory****Illustrations des affrontements entre le M23/RDF et les FARDC à la frontière entre le Sud-Kivu et le Nord-Kivu, et des incursions du M23 dans le territoire des Kalehe.**

During the period under review, shelling originating from M23/RDF positions in Masisi territory towards the border with South Kivu, as well as M23/RDF territorial advancements towards the northern territories of South Kivu, impacted security in the area. To prevent AFC/M23 territorial advancements towards South Kivu, FARDC reinforced its positions in the northern part of Kalehe territory.

- Late April and early May 2024, frequent detonations of heavy artillery in and around Minova, in South Kivu, caused panic among the populations (S/2024/432, para. 32 and annex 62).
- On 27-28 April 2024, M23/RDF advances towards Bitonga, west of Minova, led to displacements of the civilian population.
- On 7 May 2024, M23/RDF shelling towards Buhavu chiefdom, near Minova in Kalehe territory, South Kivu, resulted in eight civilians being killed and five wounded.
- On 13 May 2024, M23/RDF shelling originating from Ndumba hill, Masisi territory, resulted in at least five bombs impacting Buhavu chiefdom, near Minova in Kalehe territory, South Kivu. This resulted in three civilians being killed and several others being wounded. The shelling also led to displacements of the civilian population.
- On 22-23 May 2024, M23/RDF shelling towards Minova resulted in civilians being wounded. The shelling also caused panic amongst the civilian population. The shelling, as well as clashes between the FARDC/Wazalendo and M23 resulted in civilians fleeing to Minova.
- After several weeks of relative calm, clashes between M23/RDF and FARDC in the vicinity of the South Kivu border resumed late June. FARDC and M23 both engaged in artillery shelling which impacted northern parts of Kalehe territory. On 26 June, FARDC from its positions in Lumbishi, Kalehe territory, shelled M23/RDF positions in Masisi territory. M23/RDF returned fire. Two days later, FARDC shelled M23/RDF positions in Masisi territory, and M23/RDF shelled Minova, triggering new civilian displacements. Shelling by M23/RDF positioned in Masisi territory and FARDC positioned in Minova, Kalehe territory, continued until the start of the humanitarian truce on 4 July 2024.
- Despite the ceasefire, on 29 August FARDC positioned in Lumbishi and M23/RDF positioned in Masisi territory, close to the North Kivu-South Kivu border, resumed shelling.
- On 12 September 2024, FARDC positioned in Minova and M23/RDF positioned in Masisi territory, close to the North Kivu-South Kivu border, exchanged fire. Regular shelling continued until late September 2024.

The Group also documented sporadic M23/RDF incursions into Kalehe territory in South Kivu, such as in Lumbishi in late May 2024. For example, on 24 May, M23 combatants arrived in Lumbishi, south-west of Minova. After attacking FARDC and Wazalendo positions on the Lumbishi-Shange axis, north-east of Numbi, they retreated to Masisi territory, North Kivu.

Illustrations de défections à l'AFC/M23

In July 2024, fifty Mai Mai Kirikicho combatants defected to AFC/M23 following a meeting with AFC/M23 representatives in Ziralo, Kalehe.³²⁵ Eyewitnesses and sources close to Kirikicho reported that the defectors regularly travelled between Ziralo and Kalehe territory and Ngungu, Masisi territory, to meet with Bernard Byamungu and other M23 commanders. The Group notes that Mai-Mai leader “General Kirikicho”, a close relative of Bernard Byamungu, did not adhere to AFC/M23.³²⁶ At time of drafting, his group was still an ally of the Government (S/2024/432, annex 99).

AFC/M23 also intensified mobilization in Shabunda territory. In late May 2024, 25 cadres of Raia Mutomboki factions were picked up by Rwandan vehicles at the Ruzizi border and transported to Rutshuru for training in ideological persuasion and intelligence gathering. After four weeks of training, these recruits were sent back to northern South Kivu to promote the AFC/M23 cause among local armed groups and collect intelligence.³²⁷

One Raia Mutomboki cadre interviewed by the Group reported that he had first been contacted by AFC/M23 in March 2024. Two months later, he was again contacted by AFC/M23 and requested to select 25 individuals close to armed groups active in Shabunda, Kabare, Kalehe and Walungu territories. The interviewee recruited 20 young men and 5 young women. He reported to have seen Makenga, Bernard Byamungu and Bertrand Bisimwa during the training in Rutshuru.

“Tous les congolais ont droit à la paix et la sécurité tant au niveau national qu’internationale. Vu l’article 63 de la Constitution de la RDC qui stipule que tout congolais a le droit et le devoir sacré de défendre le pays et son intégrité territoriale face à une menace et une agression extérieure. Etant donné que l’union fait la force, mais cette union doit être basée sur l’amour, la confiance et la concorde pour le bien-être de tous les congolais. Le patriotisme, en tant qu’esprit qui anime les nationalistes pour défendre d’abord la patrie jusqu’au sacrifice suprême. Etant donné qu’on a plus à gagner en étant uni qu’en étant divisé, et que se faire mutuellement la guerre ne nous profite en rien. Communiqué of 8 September 2024

MESSAGE D'ALERTE SUR L'IMMINENCE DES ATTAQUES MAI-MAI ET ALLIÉS CONTRE LES VILLAGES BANYAMULENGE DE MINEMBWE

1. Le groupe d'autodéfense civile Twirwaneho tient à lancer un alerte sur d'intenses mouvements des groupes armés soutenus par l'Etat, dont les MAI-MAI (Wazalendo) et alliés, aux alentours de Minembwe.
2. Ces forces coalisées impliquées depuis 2017 dans la campagne de nettoyage des Banyamulenge ont érigé leur base opérationnelle à Bikarakara, une localité à portée de tirs des villages périphériques de Minembwe où ils se préparent pour lancer une offensive de grande envergure contre les civils dont la plupart sont des déplacés internes.
3. Cette énième mobilisation qui intervient après plus de dix mois d'une accalmie relative s'inscrit dans la lignée du plan élaboré à Baraka, lors d'un colloque qui a réuni en juillet dernier, les différents chefs MAI-MAI sous la direction de Bitakwira Justin, élu d'Uvira. A cette occasion, La population Banyamulenge a été désigné comme l'ennemi commun contre lequel tous les MAI-MAI du Sud-Kivu (Babembe, Bafuliru et Banyindu) doivent orienter leurs assauts meurtriers;
4. Des informations crédibles font état de l'approvisionnement de ces forces coalisées en logistiques militaires par la 34e brigade d'intervention rapide des FARDC basée à Minembwe. Le S2 de ladite brigade, le Major Donat ressortissant de la communauté Babembe, étant chargé de l'exécution de cette mission;
5. Il sied de rappeler que les localités peuplées par les Banyamulenge autour de Minembwe centre restent les seules entités des Hauts-Plateaux de Fizi qui échappent encore au contrôle des MAI-MAI; d'autres villages éloignés ayant été ravagés par ces bourreaux, sous le regard complice des FARDC;
6. Twirwaneho qui s'attend à ce que ces forces coalisées passent à l'action à tout moment, demande au gouvernement d'exercer un contrôle strict de ses réservistes wazalendo anti-Banyamulenge dans cette contrée et à prendre des mesures rigoureuses pour empêcher ces attaques;
7. Twirwaneho réitère son engagement à protéger les civils d'éventuels massacres et adhère sans réserve au principe d'autodéfense civile contre toute force représentant une menace existentielle pour la communauté Banyamulenge, comme pour d'autres communautés vivant dans les Hauts-Plateaux de Fizi, Mwenga et Uvira.

Communiqué available on Twirwaneho's [X account](#)

- In this communiqué of 8 September 2024, Twirwaneho warns of intense movements by state-backed armed groups, including Mai-Mai (Wazalendo) and allies, around Minembwe. Twirwaneho reports that these coalition forces have been involved in the Banyamulenge cleansing campaign since 2017, and that they have set up their operational base in Bikarakara, near Minembwe, where they are preparing to launch a large-scale offensive against civilians.
- According to Twirwaneho, this mobilization is in line with the plan drawn up in Baraka in July 2024 by Justin Bitakwira and various Mai-Mai chiefs. Twirwaneho denounces that on this occasion, the Banyamulenge population was designated as the common enemy against which all Mai-Mai in South Kivu must direct their murderous assaults. Twirwaneho also reports that the 34th FARDC rapid intervention brigade based in Minembwe is supplying these coalition forces with military logistics. According to the statement, Twirwaneho expects the coalition forces to move into action at any moment.

Communiqué of 17 August 2024

- Several weeks earlier, Twirwaneho had issued another communiqué denouncing the persecution and threat of genocide against the Banyamulenge population of Minembwe by the FARDC's 34th reaction brigade. The communiqué listed numerous acts of serious human rights violations which it described as “genocidal” against the Banyamulenge civilians of Minembwe, by FARDC units. Through this communiqué, Twirwaneho launched an urgent appeal to the DRC government, and asks the government to distance itself from the commander of the 34th brigade.

Alerte concernant la persécution et la menace de génocide contre la population de Banyamulenge de Minembwe Par la 34^{ème} Brigade de réaction rapide des FARDC.

1. Le groupe d'autodéfense civile Twirwaneho tient à alerter l'opinion, tant nationale qu'internationale, que depuis la semaine du 17 juin 2024, la 34^{ème} Brigade d'intervention rapide des FARDC dirigée par le Colonel Lwambo Jean-Pierre, fait peser une menace de génocide contre les Banyamulenge, dans le centre de Minembwe et ses environs,
2. La première alerte a été donnée par les chefs coutumiers et les opérateurs économiques contre lesquels des actes de maltraitance, de tracasserie, d'arrestation arbitraires et de pillages des biens et marchandises sont orientés de manière particulière;
3. En effet, du 20 juin au 15 août 2024, il a été recensé un nombre d'actes de violations graves de droits humains à caractère génocidaire contre les civils Banyamulenge de Minembwe, par les unités FARDC, qui y sont pourtant affectées pour sécuriser la population et ses biens. Les principaux actes de persécution de la population recensés dans le haut plateau de Minembwe au cours de la période ci-haut mentionnée sont repris comme suit:
 - Le 20 Juin: arrestation d'une femme, Mme Murorwa Chantal accusée faussement de disposer des effets militaires, et ce dans le but de créer la Psychose au sein de la population de Minembwe;
 - Le 29 Juin : une embuscade a été tendue par les hommes du colonel Lwambo J. Pierre qui ont dépouillé les paysans venant de leurs champs, perturbant ainsi les travaux champêtres,
 - Le 30 Juillet : les usagers du marché local de Minembwe ont été terrorisés par des militaires qui se sont livrés à des pillages, ont roué de coups les civils et ont fait usage d'armes à feu. Le même jour, les

les activités commerciales à Minembwe, l'élimination physique des personnes (Banyamulenge) sur lesquelles il dispose des informations fiables et l'arrestation de tous les chefs de village et autres leaders de la communauté Banyamulenge. Il a promis à ses visiteurs que dans si peu de jour il va exécuter (tuer) un policier et un motar qu'il n'a pas précisé l'identité. Le commandant de la 34^{ème} brigade de réaction rapide basée à Minembwe s'est présenté à ses visiteurs comme un « génocidaire » que Minembwe devra pouvoir découvrir incessamment, tout en précisant qu'il est doté des moyens de l'Etat pour mener à bien sa mission, y compris des armes lourdes dont la détonation pourra provoquer des avortements des femmes enceintes,

6. Twirwaneho met en garde le Col. Lwambo J. Pierre contre toute attaque contre les civils contre lesquels il ne cache pas sa haine et ses sentiments discriminatoires à base ethnique. Twirwaneho est prêt à répondre à toute tentative de génocide annoncé par le Col Lwambo et promet qu'il n'attendra pas qu'un nouveau massacre soit perpétré sur le sol de Minembwe avant d'agir;

7. Twirwaneho lance pour la énième fois un appel urgent au gouvernement congolais. Il demande instamment que ce dernier se démarque clairement du criminel Colonel LWAMBO J. Pierre et le condamne publiquement et sans équivoque. Il est impératif d'agir avant qu'il ne soit trop tard.

8. Le Groupe d'Autodéfense Civile Twirwaneho réitère son engagement à protéger les civils d'éventuels massacres et adhère sans réserve au principe d'autodéfense civile contre toute force représentant une menace existentielle pour la communauté Banyamulenge et d'autres communautés qui exercent les activités économiques à Minembwe.

- Clashes involving Twirwaneho

- On 22 June 2024, Twirwaneho combatants clashed with Mai-Mai combatants in Bibangwa and Bijojo, Bafulero chefferie, Uvira territory.
- On 13 July 2024, Mai-Mai combatants clashed with Twirwaneho combatants in Kigoma groupement, Uvira territory.
- Late August-early September 2024, clashes between Mai-Mai groups and Twirwaneho resumed. On 30 August, Twirwaneho clashed with Mai-Mai combatants in Mutunda, south-east of Minembwe. During clashes, at least seven civilians were injured. Thereupon, combatants of Mai-Mai Yakutumba set up a new camp in Rugezi, 25 kilometers south-east of Minembwe and close to one of Twirwaneho's camps, in Kabingo.
- Mid-September 2024, Twirwaneho launched several attacks against the FARDC around Minembwe.
- On 23 October 2024, FDNB soldiers and Mai-Mai Yakutumba combatants attacked positions of Twirwaneho and RED Tabara in Kipupu, Itombwe sector, Mwenga territory. Several civilians were killed and wounded during the fighting.

- Clashes involving RED Tabara

- On 23 September 2024, FDNB troops, Mai-Mai Yakutumba and CNRD combatants jointly attacked RED Tabara positions in Kipombo and Kipupu, Mwenga territory. Two days later, RED Tabara issued a communiqué, reporting intense fighting between its combatants and the FDNB and its allies. According to RED Tabara, FDNB suffered heavy casualties, with 20 FDNB soldiers killed and many others injured (see below). The Group could not confirm this claim.
- Five days later, on 25 September 2024, new fighting broke out in Ruhangarika, Itombwe sector, between RED Tabara and FDNB and allied armed groups. Several FDNB and Mai-Mai combatants were reportedly killed and wounded during the clashes.
- On 20 October 2024, RED Tabara combatants clashed with FDNB soldiers and Mai-Mai Yakutumba combatants in Kipombo, Itombwe sector. Several FDNB soldiers and Mai-Mai Yakutumba were reportedly killed. These clashes triggered operations of FDNB and allies against RED Tabara positions in Hewa Bora forest in Fizi territory and in Itombwe, Mwenga territory. On 26 October 2024, RED Tabara issued a new communiqué (see below) claiming that 45 FDNB and allies were killed during fighting. UN sources reported that details provided in the RED Tabara communiqué, such as the reported number of FDNB killed, were incorrect.
- On 23 October 2024, FDNB soldiers and Mai-Mai Yakutumba combatants attacked positions of Twirwaneho and RED Tabara in Kipupu, Itombwe sector, Mwenga territory. Several civilians were killed and wounded during the fighting.
- On 24 October 2024, RED Tabara combatants attacked Mai-Mai Yakutumba positions close to Tubangwa, north-west of Minembwe. Several Mai-Mai combatants as well as RED Tabara combatants were killed.

PRESS RELEASE

There has been intense fighting for several days between RED-Tabara fighters and the Burundi National Defence Forces (FDB), and its allies, including the Forces démocratiques de libération du Rwanda (FDLR), Wazalendo Yakutumba and other armed groups.

These violent clashes are taking place in the localities of Kipombo and Kipupu in the Itombwe groupement. It is clear that the FDLR from Kirembwe are the most combative, unlike the Burundian FDB soldiers, who show no motivation to fight and seem to have left the initiative to the FDLR. The FDB suffered heavy casualties, losing more than twenty soldiers and countless of others injured.

This deplorable situation should be a wake-up call to the Burundian army, and a reminder that its soldiers are the children of our motherland who have sworn an oath to defend the nation, and that they must not be used to shield a regime that kills, pillages and starves the people.

PRESS RELEASE

For a week and a half, violent fighting has pitted the RED-Tabara Movement against the Burundian army (FDNB) supported by Mayi Mayi groups, in the Itombwe area, more precisely in the localities of Kabelukwa, Ngumiyano and Ibaciro. Forty-five (45) Burundian soldiers and their allies lost their lives, including the deputy commander of the FDNB operational contingent deployed in South Kivu with headquarters in Minembwe, Lieutenant-Colonel Simon Nyandwi from Camp Mabanda. Thirty-two seriously injured Burundian soldiers were evacuated to Bujumbura to the place commonly known as Guantanamo.

RED-Tabara deplores once again having to fight compatriots who are victims of the same fascist regime of the CNDD-FDD. We remind the Burundian army that it has the choice to refuse to serve one of the worst barbaric regime of our time.

RED-Tabara's resistance will not weaken as long as the CNDD-FDD regime does not agree to sit at the table for sincere and inclusive negotiations to define the conditions for organizing democratic, free, inclusive and transparent elections with all political parties.
