RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the Third Committee (A/50/631)]

50/148. International action to combat drug abuse
and illicit production and trafficking

The General Assembly,

Recalling its resolutions 48/12 of 28 October 1993, 48/112 of 20 December 1993 and 49/168 of 23 December 1994,

Profoundly alarmed by the magnitude of the rising trend in drug abuse, illicit production and trafficking in narcotics and psychotropic substances, including synthetic and designer drugs, which threatens the health and well-being of millions of persons, in particular the youth, in all countries of the world,

Gravely concerned that, despite increased efforts by States and relevant international organizations, the illicit demand for, production of and traffic in narcotic drugs and psychotropic substances, including synthetic and designer drugs, have expanded globally and, therefore, continue to threaten seriously the socio-economic and political systems and the stability, national security and sovereignty of an increasing number of States,

Deeply alarmed by the growing violence and economic power of criminal organizations and terrorist groups that engage in the production of, traffic in and distribution of drugs, arms and precursors and essential chemicals, which at times places them beyond the reach of the law, corrupting institutions, undermining the full exercise of human rights and threatening the stability of many societies in the world,

Deeply alarmed also by the growing links at the transnational level between criminal organizations and terrorist groups engaged in drug trafficking activities and other criminal activities, such as money laundering and illicit traffic of arms and precursors and essential chemicals,

Fully aware that States, the relevant organizations of the United Nations system and multilateral development banks need to accord a higher priority to dealing with this scourge, which undermines development, economic and political stability and democratic institutions, and the combat against

which entails increasing economic costs for Governments and the irreparable loss of human lives,

Convinced of the desirability of closer coordination and cooperation among States in combating drug-related crimes, such as terrorism, illicit arms trade and money laundering, and bearing in mind the role that could be played by both the United Nations and regional organizations in this respect,

Reaffirming that a comprehensive framework for international cooperation in drug control is provided by the existing drug control conventions, the Declaration 1/ and the Comprehensive Multidisciplinary Outline of Future Activities in Drug Abuse Control, 2/ the Political Declaration and Global Programme of Action 3/ adopted by the General Assembly at its seventeenth special session devoted to the question of international cooperation against illicit production, supply, demand, trafficking and distribution of narcotic and psychotropic substances, the Declaration adopted by the World Ministerial Summit to Reduce the Demand for Drugs and to Combat the Cocaine Threat, 4/ the United Nations System-wide Action Plan on Drug Abuse Control, 5/ the Naples Political Declaration and Global Action Plan against Organized Transnational Crime 6/ and other relevant international standards, and stressing the need for increased efforts to implement them,

Recognizing the efforts of countries which produce narcotic drugs for scientific, medicinal and therapeutic uses to prevent the diversion of such substances to illicit markets and to maintain production at a level consistent with licit demand in line with the Single Convention on Narcotic Drugs of 1953, 7/

Acknowledging that there are links, under certain circumstances, between poverty and the increase in the illicit production of and trafficking in narcotic drugs and psychotropic substances and that the promotion of the economic development of countries affected by the illicit drug trade requires appropriate measures, including strengthened international cooperation in support of alternative and sustainable development activities in the affected areas of those countries, which have as their objectives the reduction and elimination of illicit drug production,

Emphasizing the need for an analysis of transit routes used by drug traffickers, which are constantly changing and expanding to include a growing number of countries and regions in all parts of the world,

Reaffirming the leadership role of the United Nations International Drug Control Programme as the main focus for concerted international action for drug abuse control, and commending the way in which it has carried out the functions entrusted to it,

Recognizing that the new forms of criminal activities of international drug trafficking organizations call for enhanced international cooperation, as well as a renewal of the international commitment to fight against these menaces, and require the formulation of new strategies, approaches and objectives which, respectful of the sovereignty of States, can deal more effectively with the international operations of those involved in the illegal traffic of drugs and arms, the diversion of precursors and essential chemicals, and money laundering through financial and non-financial operations,

I
