Introduction

United Nations Document Series Symbols, 1946-1996 (ST/LIB/SER.B/5/Rev.5) is prepared by the Dag Hammarskjöld Library (DHL) as one of the major tools of the United Nations Bibliographic Information System (UNBIS). It provides access to United Nations documentation by series symbol, subject, body responsible for the series symbol and title of the series.

Information was collected from material available in the collection of the Dag Hammarskjöld Library.

Arrangement of Publication

I. LIST OF SYMBOLS is an alphanumeric list of series symbols which includes the following information:

a) Document series symbol, followed by the corporate body responsible for the documentation;

b) A series title, if the document symbol represents a recurrent publication;

c) The dates of the years when a symbol began and ended; a symbol still active is followed by a dash after the opening year. An explanatory note indicates changes in symbol, series title and distribution category of material that is restricted or for internal distribution only.

Cross references are made from the symbol as it appears on the document to the expanded symbol which indicates the hierarchy of the body responsible for issuing the documents, e.g.:

EC.AD./ See: [E/ECE/EC.AD./
[ECE/EC.AD./ See: [E/ECE/EC.AD./

II. SUBJECT INDEX provides topical access to series symbols.

III. CORPORATE NAME INDEX provides access by the United Nations body responsible for the symbol.

IV. SERIES TITLE INDEX provides access by title of series, i.e. recurrent publications.
