

**Information furnished in conformity with the Convention
on Registration of Objects Launched into Outer Space****Note verbale dated 21 January 2025 from the Permanent Mission
of Denmark to the United Nations (Vienna) addressed to the
Secretary-General**

The Permanent Mission of Denmark to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution [3235 \(XXIX\)](#), annex), has the honour to transmit additional information regarding the change of status of Danish space object AAUSAT4 (see annex).¹

¹ The data on the space object referenced in the annex were entered into the Register of Objects Launched into Outer Space on 22 January 2025.

Annex

Additional information on a space object previously registered by Denmark*

AAUSAT4

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator	2016-025E
Name of the space object	AAUSAT4
National designator/registration number	2016-DK-01
State of registry	Denmark
Other launching States	France
Date and territory or location of launch	25 April 2016 at 2302 hours 0 seconds UTC French Guiana
Basic orbital parameters	
Nodal period	-
Inclination	-
Apogee	-
Perigee	-
General function of the space object	Primary payload is a two-band Automatic Identification System (AIS) receiver
Date of decay/re-entry/deorbit	8 September 2023 UTC

* The information was submitted using the form prepared pursuant to General Assembly resolution [62/101](#) and has been reformatted by the Secretariat.
